# PAYMENT FILE DEFINITIONS

### Create a Payment File Definition

Users with the ability to create a Payment File Definition can begin by selecting the Reference Data tab and then selecting the Payment File Definitions option from the drop-down list.

A listview table of existing Payment File Definitions (if any) will be displayed.

Select the New button to create a brand new Payment File Definition.

Complete the following **General Information** to define the type of Trade Loan payment file format you wish to use.

| Field Name      | Description                               | Max Size | Туре | Unicode | M/O |

# INVOICE FILE DEFINITIONS

#### **Invoice File Definition**

Users with the ability to view an Invoice File Definition can begin by selecting the Reference Data tab and then selecting the Invoice Definitions option from the drop-down list.

A listview table of existing Invoice Definitions will be displayed, as created by the bank on your behalf.

Select the display name to view an existing Invoice Definition.

Based on your instructions to the bank, the following **General Information** has been provided to define the type of Trade Loan format you wish to use.

| Field Name                  | Description   | Max Size | Туре | Unicode | M/O |
|-----------------------------|---|----------|------|---------|-----|
| Definition Name             | Name of the Invoice File  | 35       | A/N  | Y       | М   |

# FILE VALIDATIONS

The following validations apply to both, Payment files and Invoice files.

#### **Amount Validations**

When using a comma delimited (CSV) file format, an amount will now be accepted with a comma, when a "quotation" value appears at the beginning and end of the numeric value in an amount field. This applies to both, payment and invoice files. E.g. "1,437.82"

### **Date Validations**

When using any of the following date formats: DD/MM/YYYY or MM/DD/YYYY or similar, the system will allow a single digit value for the date format. This applies to both, payment and invoice files. E.g. DD/MM/YYYY can be entered as  $14/8/2017 = 14^{\text{th}}$  August 2017, in lieu of 14/08/2017.

#### **Icon Validations**

Indicates that the beneficiary payment or invoice has been successfully entered or uploaded

Indicates that the beneficiary payment or invoice has potential issues

A Indicates that the beneficiary payment or invoice had errors when uploaded and needs repair

#### Validation Successful

If the payment instruction/beneficiary and/or invoice and shipment details are validated successfully, the resulting status will be:

| Validation Status | Validation Successful |
|-------------------|-----------------------|
|-------------------|-----------------------|

#### Validated with Errors

If an error or warning is found for a payment instruction/beneficiary and/or invoice and shipment details, the resulting status will be:

| Validation Status | Validation with Errors |
|-------------------|------------------------|
| validation Status |                        |

# Payment File Validations

An automatic file validation process will start once a payment file has been uploaded. In the event that a payment file does not meet required specifications, an error message will appear indicative of the failure reason.

Refer below for the list of payment file criteria that are validated and the associated error message.

| Validation                  | Error Message  |
|-----------------------------|--|
| Payment File Size           | Payment file cannot exceed 10,000 beneficiaries  |
| Payment File Size           | Payment file cannot exceed 10 MB   |
| Verify File Format          | File is not formatted correctly. Please review and correct your format and upload again  |
