### ANZ AND THE SDGS

On 1 January 2016, the United Nations SDGs came into effect, comprising 17 goals and 169 targets aimed at solving the world's most pressing sustainable development challenges to 2030. ANZ is committed to the SDGs, and in recognition of the important role business will play in achieving the Goals, in September 2016 ANZ's CEO Shayne Elliott joined over 30 leaders from the Australian business community in signing a CEO Statement of Support for the SDGs.

## BOND SUMMARY

100% of proceeds from ANZ's inaugural EUR750 million SDG Bond were allocated to Eligible Assets at issuance, and remain fully allocated as at 30 September 2018. The following tables show the key bond details, the value of Eligible Assets at the past two reporting periods, and the six SDGs to which the proceeds of the Bond promote. Eligible asset categories continue to be linked to a broader selection of nine SDGs.

30 September '18	928.9	+1.7%	0

The change in Eligible Asset value since 31 March 2018 is due to:

- 1. movement in foreign exchange rates;
- 2. repayment of one of the property facilities in full; and
- 3. scheduled amortisation of term loan facilities.

These reductions have been offset by continued drawdown of those facilities which are under construction.

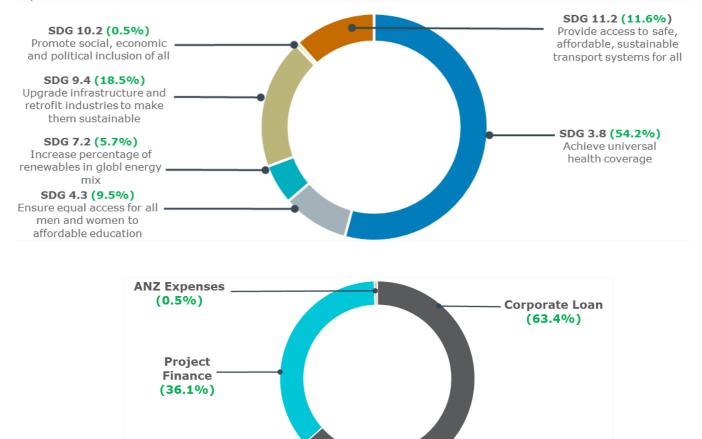

# ANZ SDG BOND FRAMEWORK

The ANZ SDG Bond Framework was developed in line with the International Capital Market Association's (ICMA) <u>Green Bond Principles (GBP)</u>, <u>Social Bond Principles (SBP)</u> 2017, and related <u>Sustainability Bond</u> <u>Guidelines 2017 (SBG)</u>. The proceeds of the SDG Bond have been used to finance or refinance assets that align with ANZ's Eligible Categories and that promote any of the nine SDGs which ANZ selected. ANZ recommends that this report be read in conjunction with the full version of the ANZ SDG Bond Framework, which is available on the <u>ANZ Debt Investor website (http://debtinvestors.anz.com/greensustainability-bonds).</u>

# ALLOCATION OF BOND PROCEEDS

ANZ'S SDG bond proceeds have been allocated to Eligible Assets which align with the SDGs. The following diagram shows alignment of the Eligible Assets with the relevant SDG Targets as at 30 September 2018.
