Footnotes

¹ Includes performance of OnePath's Australian-based operations (formerly ING Australia). See Pie chart below for more detail on the breakdown of GHG emissions arising from ANZ's Australian based operations

² Includes performance of OnePath's New Zealand based operations (formerly ING New Zealand) as well as EFTPOS and Direct Broking who are all wholly owned subsidiaries of the ANZ Banking Group. See Pie chart below for more detail on the breakdown of GHG emissions arising from ANZ's NZ-based operations

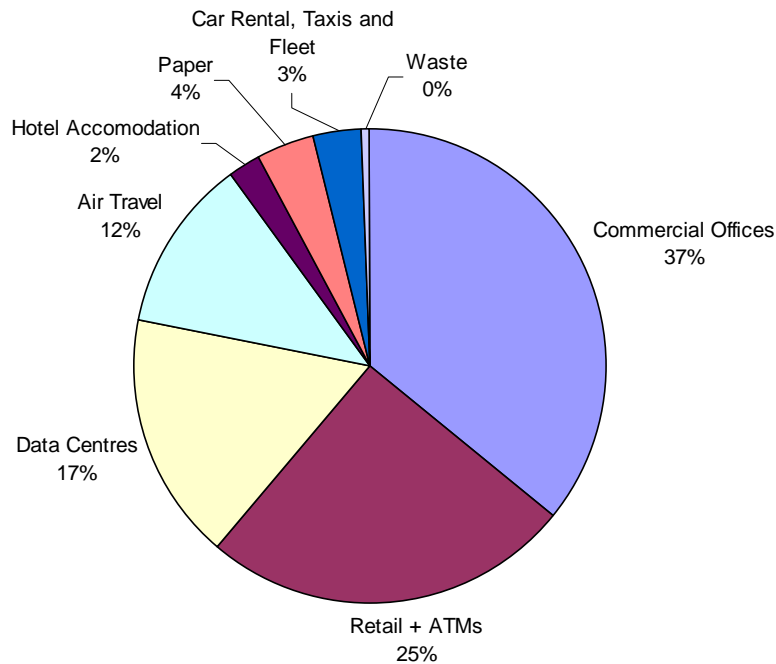

³ Covers operations performed at two of ANZ's buildings at Bangalore, India and associated business activity.

⁴ ANZ has reported emissions data from a total of 29 countries which covers operations in each country. Where invoice data was not available, ANZ has estimated the emissions based on a combination of data available for countries in a similar region and an extrapolation using the FTE for the individual countries

* Associated with ANZ's use of natural gas and diesel for stationary energy purposes

Associated with the use of liquid fuels in road transport activities undertaken by ANZ throughout the year including vehicle fleet, rental cars, corporate buses, taxis and business travel in private vehicles
