Investment involves risk. Past performance is not necessarily a guide to future performance. The value of investments and the income from them can fluctuate and is not guaranteed. Rates of exchange may cause the value of investments to go up or down. Investors may not get back the amount they invest. Individual stock price/figure does not represent the return of the Fund. Before deciding to invest, please refer to the BlackRock Global Fund Prospectus for details, including risk factors.

The Fund invests in debt securities that are subject to both actual or perceived downgrading. The Fund may be affected by changes in prevailing interest rates and by credit quality considerations. The Fund invests in certain emerging markets that may be subject to additional risks arising from political, economic and market factors.
