Overview of the underlying funds/strategies

Our Investment team have conviction in the respective management teams of GMSF and WIT and believe the addition of both underlying funds (detailed below) will complement the other underlying strategies within the Fund. In particular, by offering additional sources of returns from strategies not currently covered by existing strategies with low to moderate expected volatility.

Janus Henderson Global Multi-Strategy Fund (GMSF)

A global multi-strategy hedge fund managed by Henderson Global Investors Limited, which seeks absolute returns through investing across a diversified suite of skill-based, market neutral strategies, combined with a risk aware approach to portfolio construction and protection.

GMSF seeks to provide positive absolute returns, with its return objective being to outperform the Bloomberg AusBond Bank Bill Index by 7% p.a. (before fees) over rolling three-year periods, with low to moderate volatility and low correlation to both traditional and alternative asset classes.

Metrics Wholesale Investment Trust (MWIT)

A domestic private debt fund managed by Metrics Credit Partners Pty Ltd (Metrics), offering investors exposure to Australia's bank dominated corporate loan market by investing in loans to public companies, private companies, infrastructure, project finance, private equity sponsored, real estate, and structured finance borrowers, either directly or via investment in other wholesale funds managed by Metrics (i.e. MCP Diversified Australian Senior Loan Fund, the MCP Secured Private Debt Fund II and the MCP Real Estate Debt Fund).

MWIT seeks to provide direct exposure to a well-diversified portfolio of predominantly Australian corporate loans diversified across borrowers, industries, and credit quality with the objective of generating strong risk-adjusted returns as a result of the active management and direct origination capabilities of the Metrics team.
