

SUSTAINABLE DEVELOPMENT GOALS BOND

EUR750 MILLION WHOLESAL
SUSTAINABLE DEVELOPMENT GOALS BOND
- USE OF PROCEEDS AND IMPACT REPORT

2019 HALF YEAR UPDATE
AS AT 31 MARCH 2019

BOND SUMMARY

100% of proceeds from ANZ's inaugural EUR750 million SDG Bond were allocated to Eligible Assets at issuance, and remain fully allocated as at 31 March 2019. The following tables show the key SDG Bond details and, the value of Eligible Assets as at 31 March 2019 and as at past reporting periods. Eligible asset categories continue to be linked to a selection of nine SDGs referenced below.

SDG Bond Details

Issuer	Australia and New Zealand Banking Group
Issue Date	21 February 2018
Currency	EUR
Tenor	5 years
Issued Amount	750 million
ISIN	XS1774629346

Date	Eligible Assets EUR million	Change to Eligible Assets	Unallocated Proceeds
21 February '18	925.0		0
31 March '18	913.8	-1.2%	0
30 September '18	928.9	+1.7%	0
31 January '19	879.6	-5.3%	0
31 March '19	977.4	+11.1%	0

The change in Eligible Assets value since 31 January 2019 is due to:

1. movement in foreign exchange rates;
2. inclusion of three new assets; and
3. scheduled amortisation of term loan facilities.

PURPOSE

This report provides an update to investors, as at 31 March 2019, on the use of proceeds and impact of the EUR 750,000,000 fixed rate notes Sustainable Development Goals ("SDGs") Bond due 21 February 2023 ("SDG Bond").

The SDG Bond was issued by Australia and New Zealand Banking Group Limited ("ANZ") pursuant to its wholesale EMTN information memorandum dated 16 May 2017 as supplemented ("EMTN Information Memorandum"). No transfers may be made to retail clients (as defined in section 761G of the Corporations Act 2001 of Australia) and no bids or offers may be made on an Australian Securities Exchange trading platform with a value less than A\$500,000 (or its equivalent in an alternate currency) as set out in ANZ's EMTN Information Memorandum.

This report is not a prospectus or other disclosure document in relation to the SDG Bond, and does not constitute an offer or invitation for the bond for issue or sale in Australia. SDG Bonds are only available for sale to persons in Australia in circumstances where disclosure is not required in accordance with Part 6D.2 or Chapter 7 of the Corporations Act. The SDG Bond has not been, and will not be, registered under the US Securities Act or the securities laws of any state of the United States or any jurisdiction, and the securities may not be offered or sold in the United States or to, or for the account or the benefit of, U.S. persons unless an exemption from the registration requirements of the US Securities Act is available and the offer and sale is in accordance with applicable state securities laws of any state of the United States. This report is not an offer or invitation to any U.S. persons (as defined in Regulation S under the US Securities Act).

ANZ AND THE SDGS

On 1 January 2016, the United Nations SDGs came into effect, comprising 17 goals and 169 targets aimed at solving the world's most pressing sustainable development challenges to 2030. ANZ is committed to the SDGs, and in recognition of the important role business will play in achieving the Goals, in September 2016 ANZ's CEO Shayne Elliott signed a CEO Statement of Support for the SDGs.

ANZ SDG BOND FRAMEWORK

The ANZ SDG Bond Framework was developed in line with the International Capital Market Association's ("ICMA") [Green Bond Principles \("GBP"\)](#), [Social Bond Principles \("SBP"\)](#) 2017, and related [Sustainability Bond Guidelines 2017 \("SBG"\)](#). The proceeds of the SDG Bond have been used to finance or refinance assets that align with ANZ's Eligible Categories and that promote any of the nine SDGs which ANZ selected. ANZ recommends that this report be read in conjunction with the full version of the ANZ SDG Bond Framework, which is available on the [ANZ Debt Investor Centre website \(http://debtinvestors.anz.com/green-sustainability-bonds\)](http://debtinvestors.anz.com/green-sustainability-bonds).

ALLOCATION OF BOND PROCEEDS

ANZ's SDG bond proceeds have been allocated to Eligible Assets which align with the SDGs. The following diagram shows alignment of the Eligible Assets with the relevant SDG Targets as at 31 March 2019. Also shown below is the allocation of bond proceeds to the type of Loan Asset or SDG related ANZ Expenditures.

Allocation of Proceeds by SDG

- **SDG 3.8** (43.2%)
Achieve universal health coverage
- **SDG 11.2** (15.1%)
Provide access to safe, affordable, sustainable transport systems for all
- **SDG 10.2** (0.5%)
Promote social, economic and political inclusion of all
- **SDG 9.4** (23.8%)
Upgrade infrastructure and retrofit industries to make them sustainable
- **SDG 7.2** (8.4%)
Increase percentage of renewables in global energy mix
- **SDG 4.3** (9.1%)
Ensure equal access for all men and women to affordable education

Allocation of Proceeds by Loan

- **ANZ Expenses** (0.5%)
- **Project Finance** (34.4%)
- **Corporate Loan** (65.1%)

The overall increase in asset values of EUR98m was largely due to the inclusion of three new assets. Existing asset balances are relatively unchanged from end of year reporting. The most significant moves have resulted in a decrease in asset values for SDG 3 Good Health and Wellbeing and SDG 4 Quality Education whilst SDG 9 Industry, Innovation and Infrastructure, SDG 7 Affordable and Clean Energy and SDG 11 Sustainable Cities and Communities have increased in value.

Reporting Notes

- The value of Eligible Assets is as at 31 March 2019, and is sourced from ANZ's SDG Bond Asset Register.
- The foreign exchange conversion rate applied for all Eligible Assets as at 31 March 2019 to convert from Australian Dollars to Euros is AUD 1 = 0.63129 EUR.
- There is no link between the Eligible Assets and the SDG Bond itself, as set out in the pricing supplement for the SDG Bond, dated 19 February 2018.
- Three new Assets have been added to the list of Eligible Assets since its issue date (21 February 2018).

USE OF PROCEEDS AND IMPACTS AS AT 31 MARCH 2019

SDG	SDG Target	GBP/SBP Project Category	Eligible Asset Type	Borrower – Asset	Location	Project Finance/ Corporate Loan/ ANZ Expenditure	Aggregate Asset Value (EUR million)	% of Eligible Assets	Impacts (at project/asset level) <small>Please see the important note below regarding the presentation of these impact figures. With the exception of SDG 10, the figures are “gross figures” per project, rather than apportioned based on ANZ’s lending to the project.</small>
 3 GOOD HEALTH AND WELL-BEING	3.8	Access to essential services	Hospital	Not Disclosed	Australia	Corporate Loan	421.98	43.2%	Construction and/or operation of the following services in the healthcare industry: - public hospitals (2) - not-for-profit hospitals (1) - registered aged care facility providers (3) Hospitals are servicing major urban population catchments, and provide the following services: - acute and clinical - mental health - community health - rehabilitation - teaching - ~4180 beds in total Aged Care facilities are providing residential services across New South Wales, Victoria, Western Australia, Queensland and South Australia, supplying a total of: - 149 homes - ~12,700 beds
				InfraShore Finance – Royal North Shore Hospital	NSW	Project Finance

	11.2	Affordable basic infrastructure	Clean transportation facilities	Not Disclosed	Australia	Project Finance	148.05	15.1%	<p>Construction of low carbon transport alternatives to support growing urban populations:</p> <ul style="list-style-type: none"> - 1 existing train network upgrade to improve capacity and efficiency: 500k more passenger movements during week day peak periods - 1 new light rail network construction to be powered entirely by renewable energy, creating a 33% reduction in emissions - Infrastructure Sustainability Council of Australia (ISCA) ratings of “Commended” and “Excellent” achieved respectively.
				Not Disclosed	Australia	Project Finance			

NOTES:

1. IMPACT REPORTING:

ANZ wishes to highlight and draw investors' attention to the fact that the impact figures above, other than in respect of SDG 10, have been presented, analysed and recorded at the project level and have not been apportioned in accordance with the volume of ANZ's lending to each project. Although ANZ is a co-financier, impact figures have not been presented on the basis of the volume of ANZ's lending to each project at this stage.

In instances where ANZ's lending to a project is nil at 31 March 2019 (i.e. a loan facility continues to exist, however the lending is undrawn at that time), the impact figures for the individual projects remain incorporated in the aggregated impact data. This treatment has been applied in order to protect the confidentiality of ANZ's customers.

2. ASSURANCE:

Ernst & Young ("EY") has provided a reasonable assurance statement that the SDG Bond continues to meet the requirements of the ICMA Sustainability Bond Guidelines and their requirement of the ANZ SDG Bond Framework. EY has confirmed that nothing has come to their attention to say that the Impact Report did not meet the following expectations, based on their procedures. EY's positive assurance opinion regarding this Use of Proceeds and Impact Report pertains to:

- The structure of the Impact Report meeting the requirements of the ANZ SDG Bond Framework;
- The disclosures described in the Framework were included in the Impact Report;
- The individual impact data described in the Impact Report being accurately transcribed from the source data and information provided by ANZ;
- The reviewed asset values, inclusive of geographical and industry split, were disclosed accurately and in line with the ANZ's SDG Bond Asset Register.

3. UNDISCLOSED BORROWERS:

Certain Borrower names are not disclosed in the table above, due to confidentiality restrictions.

Where there are two or fewer Assets in an SDG group, ANZ has referenced these Borrowers and Assets as "not disclosed".

INVESTOR FEEDBACK

ANZ is committed to transparency of reporting and disclosure in the Sustainable and Green Bond market and we welcome investor feedback on the contents of this and future reports.
