**Credit Risk Weighted Assets (CRWA)**

Total CRWA increased \$4.4 billion (1.9%) from March 2011 to \$237.7 billion. The key impacts on the movement in Advanced IRB CRWA were an increase in Corporate and Bank driven by growth in Institutional assets. These increases were partially offset by a decrease in Standardised CRWA due to exchange rate impacts and a reduction in exposures.

**Market Risk, Operational Risk and IRRBB Risk Weighted Assets (RWA)**

The increase in Market Risk RWA (29%) over the quarter was due to an increase in the level of interest rate risk held over the month of June.

IRRBB RWA decreased by \$1.1 billion (10.7%) due to a reduction in repricing and yield curve risk.

<sup>1</sup> Specialised Lending exposures subject to supervisory slotting approach are those where the main servicing and repayment is from the asset being financed, and includes specified commercial property development/investment lending, project finance and object finance.

<sup>2</sup> Some prior period comparatives have been restated to reflect reclassification between asset classes.

<sup>6</sup> Impaired derivatives include a credit valuation adjustment (CVA) of \$72 million, being a market value based assessment of the credit risk of the relevant counterparties (March 2011: \$71 million; December 2010: \$85 million).

<sup>7</sup> Impaired loans/facilities include restructured items of \$659 million for customer facilities in which the original contractual terms have been modified for reasons related to the financial difficulties of the customer. <sup>10</sup> Due to definitional differences, there is a difference in the split between ANZ's Individual Provision and Collective Provision for accounting purposes and the Specific Provision and General Reserve for Credit Losses (GRCL) for regulatory purposes. This does not impact total provisions, and essentially relates to the classification of collectively assessed provisions on defaulted accounts. The disclosures in this document are based on Individual Provision and Collective Provision, for ease of comparison with other published results.
