US\$60,000,000,000

Euro Medium Term Note Programme

Under the US\$60,000,000,000 Euro Medium Term Note Programme (the "**Programme**") established by Australia and New Zealand Banking Group Limited ("**ANZBGL**"), ANZ Bank New Zealand Limited ("**ANZ Bank New Zealand**") and ANZ New Zealand (Int'l) Limited ("**ANZNIL**") (each an "**Issuer**" and together the "**Issuers**"), each Issuer may from time to time issue notes ("**Notes**") denominated in any currency agreed between it and the relevant Dealer(s) (as defined below). This document (the "**Base Prospectus**") comprises a separate base prospectus for each Issuer as further described on pages (iv) to (vi). The payment of all amounts due in respect of any Notes issued by ANZNIL will be unconditionally and irrevocably guaranteed by ANZ Bank New Zealand (in such capacity, the "**Guarantor**"). This Base Prospectus supersedes and replaces in its entirety the Base Prospectus dated 16 November 2022 (as supplemented) for each of ANZBGL, ANZ Bank New Zealand and ANZNIL with regard to the Programme. Any Notes issued under the Programme on or after the date of this Base Prospectus are issued subject to the provisions described herein.

The Notes are not guaranteed by ANZ Group Holdings Limited ("**ANZGHL**"), the listed parent company of ANZBGL and its subsidiaries (the "**ANZBGL Group**") or any person, other than the Guarantor in the case of Notes issued by ANZNIL as described above.

The Notes may be issued on a continuing basis to ANZBGL, Barclays Bank PLC, BNP Paribas, Citigroup Global Markets Limited, Daiwa Capital Markets Europe Limited, Deutsche Bank AG, London Branch, Goldman Sachs International, HSBC Bank plc, J.P. Morgan Securities plc, Merrill Lynch International, Morgan Stanley & Co. References in this Base Prospectus to the "**relevant Dealer**" shall, in the case of an issue of Notes being (or intended to be) subscribed by more than one Dealer, be to all Dealers agreeing to subscribe such Notes. References in this Base Prospectus to the "**Arranger**" shall be to Deutsche Bank AG, London Branch, in its capacity as arranger of the Programme.

Prospective investors should review the factors described under the section headed "Risk Factors" on pages 23 to 75 of this Base Prospectus. This Base Prospectus does not describe all of the risks of an investment in the Notes.

Prospective investors should ensure that they understand the nature of the relevant Notes and the extent of their exposure to risks and that they consider the suitability of the relevant Notes as an investment in the light of their own circumstances and financial condition. It is the responsibility of prospective investors to ensure that they have sufficient knowledge, experience and professional advice to make their own legal, financial, tax, accounting and other evaluation of the merits and risks of investing in the Notes and are not relying on the advice of the relevant Issuer, the Guarantor or the relevant Dealer(s) in that regard.

This Base Prospectus constitutes three base prospectuses, one for each Issuer and has been approved by the United Kingdom Financial Conduct Authority (the "**FCA**"), as competent authority under Regulation (EU) 2017/1129 as it forms part of United Kingdom ("**UK**") domestic law by virtue of the European

Union (Withdrawal) Act 2018, as amended by the European Union (Withdrawal Agreement) Act 2020 (the "**EUWA**") (the "**UK Prospectus Regulation**"). The FCA only approves this Base Prospectus as meeting the standards of completeness, comprehensibility and consistency imposed by the UK Prospectus Regulation. Such approval should not be considered as an endorsement of an Issuer or the Guarantor nor as an endorsement of the quality of any Notes that are the subject of this Base Prospectus. Investors should make their own assessment as to the suitability of investing in any such Notes. This Base Prospectus is valid for a period of twelve months from the date of approval.

Application has been made to the FCA in its capacity as competent authority under the Financial Services and Markets Act 2000, as amended (the "**FSMA**") for Notes issued under the Programme to be admitted to the Official List of the FCA (the "**Official List**") and to the London Stock Exchange plc (the "**London Stock Exchange**") for such Notes to be admitted to trading on the main market of the London Stock Exchange (the "**main market of the London Stock Exchange**") during the period of 12 months from the date of this Base Prospectus. The main market of the London Stock Exchange is a UK regulated market for the purposes of Regulation (EU) No 600/2014 on markets in financial instruments as it forms part of domestic law by virtue of the EUWA ("**UK MiFIR**"). Admission to the Official List together with admission to the main market of the London Stock Exchange constitutes official listing on the London Stock Exchange. References in this Base Prospectus to Notes being "listed" (and all related references) shall, unless the context otherwise requires, mean that such Notes have been admitted to trading on the main market of the London Stock Exchange and have been admitted to the Official List.

Pages 246 to 381 of this document comprise an information memorandum (the "**Information Memorandum**") in respect of issues of notes which are not admitted to the Official List or any other UK regulated market or any market in the European Economic Area ("**EEA**") which is a regulated market for the purposes of Directive 2014/65/EU (as amended, "**MiFID II**") or offered to the public in the UK or in the EEA ("**Non PR Notes**"). The Information Memorandum has not been reviewed or approved by the FCA and does not constitute a prospectus for the purposes of the UK Prospectus Regulation.

The principal amount (being the amount which is used to calculate payments made on each Note or Non PR Note) of all Notes and Non PR Notes outstanding at any time under the Programme will not exceed US\$60,000,000,000 (or its equivalent in other currencies), provided that the principal amount of all Notes and Non PR Notes issued by ANZBGL outstanding at any time will not exceed US\$50,000,000,000 and the principal amount of all Notes and Non PR Notes issued by ANZ Bank New Zealand and ANZNIL, collectively, outstanding at any time will not exceed US\$10,000,000,000.

ANZNIL will issue Notes under the Programme acting through its London branch. ANZNIL issues Notes under the Programme through its London branch for certain legal, administrative and regulatory reasons, including (without limitation) to facilitate timely access to funding markets. Interest payments thereunder are subject to applicable tax laws and regulations of the United Kingdom and other jurisdictions – see section entitled "*Taxation*" on pages 210 to 217. Investors should be aware that a branch is not a subsidiary and does not comprise a separate legal entity. The obligations under the Notes issued by ANZNIL acting through its London branch are of ANZNIL only, and investors' claims under such Notes are only against ANZNIL (although, as noted above, the payment of all amounts due in respect of any Notes issued by ANZNIL will be unconditionally and irrevocably guaranteed by ANZ Bank New Zealand). The Notes issued by ANZ Bank New Zealand or ANZNIL are not guaranteed by, and do not represent deposit liabilities or protected accounts (as defined in the Banking Act 1959 of Australia (the "**Banking Act**")) of, ANZBGL, ANZGHL or any other person (except that payment of all amounts due in respect of Notes issued by ANZNIL will be unconditionally and irrevocably guaranteed by the Guarantor).

Notice of the aggregate nominal amount of Notes, interest (if any) payable in respect of Notes, the issue price of Notes and any other terms and conditions not contained herein which are applicable to each Tranche as defined in the Terms and Conditions of the Notes set out at pages 79 to 145 of this Base Prospectus (the "**Conditions**") will be set out in a separate document containing the final terms for that Tranche (the "**Final Terms**") which, with respect to Notes to be listed on the main market of the London Stock Exchange, will be delivered to the FCA and the London Stock Exchange on or before the date of issue of such Tranche of Notes.

None of the Dealers or the Arranger undertakes to review the financial condition or affairs of any of the Issuers or the Guarantor during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

No person has been authorised to give any information or to make any representation other than those contained in this Base Prospectus in connection with the issue or sale of the Notes and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuers, the Guarantor or any of the Dealers or the Arranger. Neither the delivery of this Base Prospectus nor any sale made in connection herewith shall, under any circumstances, create any implication that there has been no change in the affairs of any of the Issuers or the Guarantor since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that there has been no adverse change in the financial position of any of the Issuers or the Guarantor since the date hereof or the date upon which this Base Prospectus has been most recently amended or supplemented or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date on which it is supplied or, if different, the date indicated in the document containing the same.

The Notes and the Guarantee have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction in the United States. Subject to certain exceptions, Notes may not be offered, sold, pledged or otherwise transferred within the United States or to, or for the account or benefit of, U.S. persons (as defined in Regulation S under the Securities Act). Notes in bearer form may be subject to U.S. tax law requirements and may not be offered, sold, pledged, transferred or delivered within the United States or its possessions or to a United States person (as defined in the U.S. Internal Revenue Code of 1986, as amended (the "**U.S. Internal Revenue Code**")). For a description of certain restrictions on offers and sales of Notes and on distribution of this Base Prospectus or any Final Terms, see the section entitled "*Subscription and Sale*".

IMPORTANT – EEA RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the EEA. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

IMPORTANT – UK RETAIL INVESTORS - The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the UK. For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the EUWA; or (ii) a customer within the meaning of the provisions of the FSMA and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no

key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

MiFID II Product Governance / target market - The Final Terms (or Pricing Supplement, as the case may be) in respect of any Notes may include a legend entitled "MiFID II Product Governance" which will outline the conclusion of the target market assessment completed by the relevant "manufacturer(s)" in respect of the Notes and which channels for distribution of the Notes they consider are appropriate. Any person subsequently offering, selling or recommending the Notes (an "**EU distributor**") should take into consideration the target market assessment; however, an EU distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made by the relevant Dealer(s) in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any Dealer subscribing for any Notes is a "manufacturer" in respect of such Notes, but otherwise neither the Arranger nor the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

Each Issuer is not subject to MiFID II and any implementation thereof by an EU Member State. It is therefore not a "manufacturer" for the purposes of the MiFID Product Governance Rules and has no responsibility or liability for identifying a target market, or any other product governance obligation set out in MiFID II, for financial instruments it issues (including any target market assessment for the relevant Notes).

UK MiFIR Product Governance / target market – The Final Terms (or Pricing Supplement, as the case may be) in respect of any Notes may include a legend entitled "UK MiFIR Product Governance" which will outline the conclusion of the target market assessment completed by the relevant "manufacturer(s)" in respect of the Notes and which channels for distribution of the Notes they consider are appropriate. Any distributor (a "**UK distributor**") should take into consideration the target market assessment; however, a UK distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made by the relevant Dealer(s) in relation to each issue about whether, for the purpose of the UK MiFIR Product Governance Rules, any Dealer subscribing for any Notes is a manufacturer in respect of such Notes, but otherwise neither the Arranger nor any of the Dealers nor any of their respective affiliates will be a manufacturer for the purpose of the UK MiFIR Product Governance Rules.

Each Issuer is not subject to UK MiFIR. It is therefore not a "manufacturer" for the purposes of the UK MiFIR Product Governance Rules and has no responsibility or liability for identifying a target market, or any other product governance obligation set out in UK MiFIR, for financial instruments it issues (including any target market assessment for the relevant Notes).

No Australian retail product distribution conduct

This Base Prospectus and the Notes are not for distribution to any person in Australia who is a retail client for the purposes of section 761G of the Corporations Act. No target market determination has been or will be made for the purposes of Part 7.8A of the Corporations Act.

Important Notice to Prospective Investors - Hong Kong Code of Conduct for Persons Licensed by or Registered with the Securities and Futures Commission (the "Code") (Para 21 – Bookbuilding and Placing)

Prospective investors should be aware that certain intermediaries in the context of certain offerings of Notes pursuant to the Programme, each such offering, a "**CMI Offering**", including certain Dealers, may be "capital market intermediaries" ("**CMI**") subject to Paragraph 21 of the Code of Conduct for Persons

Licensed by or Registered with the Securities and Futures Commission (the "**SFC Code**"). This notice to prospective investors is a summary of certain obligations the SFC Code imposes on such CMIs, which require the attention and cooperation of prospective investors. Certain CMIs may also be acting as "overall coordinators" ("**OCs**") for a CMI Offering and are subject to additional requirements under the SFC Code. The application of these obligations will depend on the role(s) undertaken by the relevant Dealer(s) in respect of each CMI Offering.

Prospective investors who are the directors, employees or major shareholders of any Issuer, the Guarantor, a CMI or its group companies would be considered under the SFC Code as having an association ("**Association**") with the relevant Issuer, the Guarantor, the CMI or the relevant group company. Prospective investors associated with any Issuer, the Guarantor or any CMI (including its group companies) should specifically disclose this when placing an order for the relevant Notes and should disclose, at the same time, if such orders may negatively impact the price discovery process in relation to the relevant CMI Offering. Prospective investors who do not disclose their Associations are hereby deemed not to be so associated. Where prospective investors disclose their Associations but do not disclose that such order may negatively impact the price discovery process in relation to the relevant CMI Offering, such order is hereby deemed not to negatively impact the price discovery process in relation to the relevant CMI Offering.

Prospective investors should ensure, and by placing an order prospective investors are deemed to confirm, that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). A rebate may be offered by the relevant Issuer to all private banks for orders they place (other than in relation to Notes subscribed by such private banks as principal whereby it is deploying its own balance sheet for onward selling to investors), payable upon closing of the relevant CMI Offering based on the principal amount of the Notes distributed by such private banks to investors. Private banks are deemed to be placing an order on a principal basis unless they inform the CMIs otherwise. As a result, private banks placing an order on a principal basis (including those deemed as placing an order as principal) will not be entitled to, and will not be paid, the rebate. Details of any such rebate will be set out in the applicable Final Terms or Pricing Supplement, or otherwise notified to prospective investors.

If a prospective investor is an asset management arm affiliated with any relevant Dealer, such prospective investor should indicate when placing an order if it is for a fund or portfolio where the relevant Dealer or its group company has more than 50 per cent. interest, in which case it will be classified as a "proprietary order" and subject to appropriate handling by CMIs in accordance with the SFC Code and should disclose, at the same time, if such "proprietary order" may negatively impact the price discovery process in relation to the relevant CMI Offering. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a "proprietary order". If a prospective investor is otherwise affiliated with any relevant Dealer, such that its order may be considered to be a "proprietary order" (pursuant to the SFC Code), such prospective investor should indicate to the relevant Dealer when placing such order. Prospective investors who do not indicate this information when placing an order are hereby deemed to confirm that their order is not a "proprietary order". Where prospective investors disclose such information but do not disclose that such "proprietary order" may negatively impact the price discovery process in relation to the relevant CMI Offering, such "proprietary order" is hereby deemed not to negatively impact the price discovery process in relation to the relevant CMI Offering.

Prospective investors should be aware that certain information may be disclosed by CMIs (including private banks) which is personal and/or confidential in nature to the prospective investor. By placing an order, prospective investors are deemed to have understood and consented to the collection, disclosure, use and transfer of such information by the relevant Dealers and/or any other third parties as may be required by the SFC Code, including to the relevant Issuer, the Guarantor, any OCs, relevant regulators and/or any other third parties as may be required by the SFC Code, it being understood and agreed that such information shall only be used for the purpose of complying with the SFC Code, during the bookbuilding process for the relevant CMI Offering. Failure to provide such information may result in that order being rejected.

Benchmarks Regulation

UK Benchmarks Regulation: Interest and/or other amounts payable under the Notes may be calculated by reference to certain reference rates. Any such reference rate may constitute a benchmark for the

purposes of Regulation (EU) 2016/1011 as it forms part of domestic law in the UK by virtue of the EUWA (the "**UK Benchmarks Regulation**"). If any such reference rate does constitute such a benchmark, the Final Terms (or Pricing Supplement, as the case may be) will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by the FCA pursuant to Article 36 (*Register of administrators and benchmarks*) of the UK Benchmarks Regulation (the "**UK Register**"). Not every reference rate will fall within the scope of the UK Benchmarks Regulation. Furthermore, the transitional provisions in Article 51 of the UK Benchmarks Regulation may have the result that the administrator of a particular benchmark is not currently required to appear in the UK Register at the date of the relevant Final Terms (or Pricing Supplement, as the case may be). The registration status of any administrator under the UK Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuers do not intend to update the Final Terms (or Pricing Supplement, as the case may be) to reflect any change in the registration status of the administrator.

EU Benchmarks Regulation: Interest and/or other amounts payable under the Notes may be calculated by reference to certain reference rates. Any such reference rate may also constitute a benchmark for the purposes of Regulation (EU) 2016/1011, as amended (the "**EU Benchmarks Regulation**"). If any such reference rate does constitute such a benchmark, the Final Terms (or Pricing Supplement, as the case may be) will indicate whether or not the benchmark is provided by an administrator included in the register of administrators and benchmarks established and maintained by ESMA pursuant to Article 36 (*Register of administrators and benchmarks*) of the EU Benchmarks Regulation (the "**ESMA Register**"). Not every reference rate will fall within the scope of the EU Benchmarks Regulation. Transitional provisions in the EU Benchmarks Regulation may have the result that the administrator of a particular benchmark is not required to appear in the ESMA Register at the date of the Final Terms Document (or Pricing Supplement, as the case may be). The registration status of any administrator under the EU Benchmarks Regulation is a matter of public record and, save where required by applicable law, the Issuers do not intend to update the Final Terms (or Pricing Supplement, as the case may be) to reflect any change in the registration status of the administrator.

This Base Prospectus is based on English law in effect as at the date of issue of this Base Prospectus. Except to the extent required by laws and regulations, none of the Issuers and the Guarantor intend, and assume any obligation, to update this Base Prospectus in light of the impact of any judicial decision or change to English law or administrative practice after the date of this Base Prospectus.

The Arranger and the Dealers

The Dealers and the Arranger have not separately verified the information contained in this Base Prospectus. None of the Dealers nor the Arranger makes any representation, express or implied, or accepts any responsibility, with respect to the accuracy or completeness of any of the information in this Base Prospectus. None of the Dealers or the Arranger undertakes to review the financial condition or affairs of any of the Issuers or the Guarantor during the life of the arrangements contemplated by this Base Prospectus nor to advise any investor or potential investor in the Notes of any information coming to the attention of any of the Dealers or the Arranger.

Notes issued as "SDG Bonds"

In September 2015, the United Nations' General Assembly formally established 17 sustainable development goals (the "**SDGs**"), as part of the 2030 Agenda for Sustainable Development. The SDGs set a common framework for public and private stakeholders to set their agendas and define their policies and strategies over a 15-year period.

ANZBGL may issue Notes described as "SDG Bonds". "**SDG Bonds**" are a Tranche of Notes which may be issued by ANZBGL where the applicable Final Terms provide that ANZBGL intends to apply an amount equal to the net proceeds from an issue of such Notes to eligible assets as may be defined from time to time in an ANZ SDG bond framework. ANZBGL's current SDG bond framework is dated 20 August 2020 but it may be updated, supplemented and/or replaced from time to time (the "**Framework**") and any subsequent version(s) may differ (including in a significant way) from any description given in this Base Prospectus. The Framework is not incorporated into and does not form part of this Base Prospectus.

The Dealers and the Arranger have not undertaken, nor are they responsible for, any assessment of the "Eligible Assets" as may be defined from time to time in the Framework or the application, impact or monitoring of the use of proceeds for any Notes issued by ANZBGL as SDG Bonds.

None of ANZBGL, the Arranger or any Dealer accepts any responsibility for any social, environmental and sustainability assessment of any Notes issued as SDG Bonds or makes any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such "green", "sustainable", "social" or similar labels (including in relation to Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "**EU Taxonomy Regulation**") and any related technical screening criteria, the proposed European Green Bond Regulation, Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("**SFDR**") and any implementing legislation and guidelines, or any similar legislation in the United Kingdom) or any requirements of such labels as they may evolve from time to time.

Neither the Arranger nor any Dealer is responsible for the use or allocation of proceeds for any Notes issued as SDG Bonds, nor the impact or monitoring of such use of proceeds nor do the Arranger or any of the Dealers undertake to ensure that there are at any time sufficient eligible assets to allow for allocation of a sum equal to the net proceeds of the issue of such SDG Bonds in full.

In respect of any SDG Bonds, no representation or assurance is given by ANZBGL, the Arranger or the Dealers as to the suitability of any such SDG Bonds to fulfil any present or future investor expectations or requirements with respect to sustainability or other investment criteria or guidelines which any investor is, or its investments are, required to comply with.

In the event any such SDG Bonds are, or are intended to be, listed, or admitted to trading on a dedicated "green", "sustainable", "social" or other equivalently-labelled segment of a stock exchange or securities market, no representation or assurance is given by ANZBGL, the Dealers or the Arranger that such listing or admission will be obtained or maintained for the lifetime of the SDG Bonds.

Second and third party opinions, assurances and certifications in respect of SDG Bonds

The Dealers and the Arranger have not reviewed the Framework or any second or third party opinions, nor do they accept any responsibility as to the accuracy and completeness of the information contained in such documents or in any opinion, assurance, certification, assessment or other report in connection with the Framework and/or SDG Bonds. Potential investors in SDG Bonds must determine for themselves the relevance of any such opinion, assurance or certification and/or the information contained therein and/or the provider of such opinion, assurance or certification for the purpose of any investment in SDG Bonds.

No assurance or representation is given by ANZBGL, the Arranger, the Dealers or any other person as to the suitability or reliability for any purpose whatsoever of any opinion, assurance or certification of any third party (whether or not solicited by ANZBGL) which may be made available in connection with the issue of SDG Bonds and in particular with any eligible assets (including any second or third party opinions) to fulfil any sustainable development goal, environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion, assurance or certification is not, nor should it be deemed to be, a recommendation by ANZBGL, the Arranger, the Dealers or any other person to buy, sell or hold SDG Bonds and such opinions, assurances and certifications may not reflect the potential impact of all risks related to the structure, market and other factors that may affect the value of SDG Bonds, and they may be revised or withdrawn at any time. Additionally, any such opinion, assurance or certification (i) is only current as of the date on which it was initially issued and the criteria and/or considerations that formed the basis of such opinion, assurance or certification may change at any time, (ii) only provides an opinion, assurance or certification on certain environmental and related considerations and (iii) is not intended to address any credit, market or other aspects of an investment in SDG Bonds including, without limitation, market price, marketability, investor preference or suitability of any security to fulfil any specific investment criteria. The criteria and/or considerations that formed the basis of any such opinion, assurance or certification may change at any time and the opinion, assurance or certification may be amended, updated, supplemented, replaced and/or withdrawn. Prospective investors must determine for themselves the relevance of any such opinion, assurance or certification and/or the information contained therein.

Any second or third party opinion, and any other opinion provided in relation to SDG Bonds is a statement of opinion, not a statement of fact. Second or third party opinion providers may not be subject to any specific regulatory or other regime or oversight and any opinions provided are provided for information purposes only and on a no liability basis. As at the date of this Base Prospectus, the providers of such opinions, assurances and certifications are not subject to any specific regulatory or other regime or oversight.

No incorporation of websites

In this Base Prospectus, reference to websites or uniform resource locators (URLs) are inactive textual references. The contents of any such website or URL shall not form part of, or be deemed to be incorporated into, this Base Prospectus.

Notice to potential investors in NZ Subordinated Notes

Under the Programme, ANZ Bank New Zealand may from time to time issue subordinated notes ("**NZ Subordinated Notes**"). Potential investors in respect of such NZ Subordinated Notes should note that NZ Subordinated Notes are complex financial instruments, which include features which are required for the NZ Subordinated Notes to qualify as ANZ Bank New Zealand Group's Tier 2 Capital under the RBNZ's prudential standards. In particular, potential investors in NZ Subordinated Notes should note that, by purchasing NZ Subordinated Notes, they are deemed to irrevocably acknowledge and agree to the provisions contained in Condition 3(b) ("*Status and Guarantee – NZ Subordinated Notes – ANZ Bank New Zealand*"). As a result, an investment in the NZ Subordinated Notes will involve certain increased risks.

A potential investor should not invest in the NZ Subordinated Notes unless it has the knowledge and expertise (either alone or with a financial adviser) to evaluate how the NZ Subordinated Notes will perform under changing conditions and their resulting effects on the value of the NZ Subordinated Notes, and the impact this investment will have on the potential investor's overall investment portfolio. Prior to making an investment decision, potential investors in NZ Subordinated Notes should consider carefully, in light of their own financial circumstances and investment objectives, all the information contained in this Base Prospectus or incorporated by reference herein.

Stabilisation

In connection with the issue of any Tranche of Notes, the Dealer or Dealers (if any) acting as stabilising manager (the "**Stabilising Manager(s)**") (or persons acting on behalf of any Stabilising Manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws (including without limitation the Competition and Consumer Act 2010 of Australia and the Corporations Act) and rules and outside Australia and New Zealand (and not on any market in Australia or New Zealand).

In that event, the relevant Issuer or, where applicable, the Guarantor shall pay additional amounts to the Noteholders as shall result in receipt by those Noteholders of such amounts as would have been received by them had no such withholding been required, except that no such additional amounts shall be payable with respect to any Note in the circumstances described in Condition 7 (<i>Taxation</i>) in the Terms and Conditions of the Notes.

RISK FACTORS

Introduction

Any investment in the Notes issued under the Programme will involve risks including those described in this section. All principal or material risks that have been identified by the Issuers and the Guarantor are included in this section. Prospective investors should carefully consider the following discussion of the risk factors and the other information in this Base Prospectus. Prospective investors should be aware that the risks set forth below are not exhaustive (as these will not include those risks that have not been identified by the Issuers or the Guarantor) and should carefully consider the following factors in addition to the matters set out elsewhere in this Base Prospectus before investing in the Notes offered under this Base Prospectus.

As at the date of this Base Prospectus, the Issuers and the Guarantor believe that the following risk factors may affect the Issuers' abilities to fulfil their obligations, or the Guarantor's ability to perform its obligations, under or in respect of the Notes or the Guarantee and could be material for the purpose of assessing the market risks associated with the Notes.

If any of the following factors actually occur, the trading price of the Notes of the relevant Issuer could decline and an investor could lose all or part of its investment. Prospective investors should read the entire Base Prospectus and reach their own views prior to making any investment decision.

Words and expressions defined in the "Terms and Conditions of the Notes" below or elsewhere in this Base Prospectus have the same meanings in this section.

RISKS RELATING TO THE NOTES

Risks related to the nature of all Notes which may be issued under the Programme

The Notes are not protected by the Financial Services Compensation Scheme

Unlike a bank deposit, the Notes are not protected by the Financial Services Compensation Scheme (the "FSCS"). As a result, neither the FSCS nor anyone else will pay compensation upon the failure of the relevant Issuer, the Guarantor or the ANZBGL Group. If the relevant Issuer or the Guarantor goes out of business or becomes insolvent, investors may lose all or part of their investment in the Notes.

Credit rating may not reflect all risks of an investment in the Notes

The credit ratings of the Notes may not reflect the potential impact of all risks related to the structure and other factors on any trading market for, or trading value of, the Notes. In addition, real or anticipated changes in the credit rating of the relevant Issuer or any Notes will generally affect any trading market for, or trading value of, the Notes.

In general, investors regulated in the EU are restricted under the EU CRA Regulation from using credit ratings for regulatory purposes in the EU, unless such ratings are issued by a credit rating agency established in the EU and registered under the EU CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the EU CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). The list of registered and certified rating agencies published by ESMA on its website in accordance with the EU CRA Regulation is not conclusive evidence of the status of the relevant rating agency included in such list, as there may be delays between certain supervisory measures being taken against a relevant rating agency and the publication of the updated ESMA list.

Investors regulated in the UK are subject to similar restrictions under the UK CRA Regulation. As such, UK regulated investors are restricted from using a rating for regulatory purposes unless such ratings are

issued by a credit rating agency established in the UK and registered under the UK CRA Regulation (and such registration has not been withdrawn or suspended). In the case of ratings issued by third country non-UK credit rating agencies, third country credit ratings can either be: (a) endorsed by a UK registered credit rating agency; or (b) issued by a third country credit rating agency that is certified in accordance with the UK CRA Regulation. Note that this is subject, in each case, to (a) the relevant UK registration, certification or endorsement, as the case may be, not having been withdrawn or suspended, and (b) transitional provisions that apply in certain circumstances. In the case of third country ratings, for a certain limited period of time, transitional relief accommodates continued use for regulatory purposes in the UK, of existing pre-2021 ratings, provided the relevant conditions are satisfied.

As a result of the UK CRA Regulation and EU CRA Regulation, if the status of a rating agency rating the Notes changes, investors regulated in the UK or the EU may no longer be able to use the rating of that rating agency for regulatory purposes and the Notes may have different regulatory treatment. This may result in UK or EU regulated investors selling the Notes which may impact the value of the Notes and their liquidity in any secondary market.

Certain information with respect to the Issuers' ratings and the credit rating agencies which have assigned such ratings is set out under the heading "*Important Notices*" at the beginning of this Base Prospectus. Where an issue of Notes is rated, such rating will be specified in the relevant Final Terms and may not necessarily be the same as the rating assigned to the relevant Issuer.

The Notes may be redeemed prior to maturity

In the event that the relevant Issuer, or the Guarantor, if applicable, would be obliged to pay additional amounts in respect of any Notes (other than NZ Subordinated Notes) due to any withholding or deduction for, or on account of, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or on behalf of the relevant Issuer's taxing jurisdiction, or Guarantor's taxing jurisdiction, if applicable, or any authority therein or thereof having power to tax, the Issuer may redeem all of the relevant Notes in accordance with the Conditions.

If the relevant Issuer has the right to redeem any Notes at its option, this may limit the market value of the Notes concerned and an investor may not be able to reinvest the redemption proceeds in a manner which achieves a similar effective return.

An optional redemption feature is likely to limit the market value of Notes. During any period when the relevant Issuer may elect to redeem Notes, the market value of those Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The relevant Issuer may be expected to redeem Notes when its cost of borrowing is lower than the interest rate on those Notes. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Notes being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Insolvency and similar proceedings

In the event that an Issuer becomes insolvent, insolvency proceedings in respect of ANZBGL will be governed by Australian law, and insolvency proceedings in respect of ANZ Bank New Zealand and ANZNIL will generally be governed by New Zealand law. Potential investors should be aware that Australian and New Zealand insolvency laws are different from the insolvency laws in other jurisdictions. In particular: (i) in the case of insolvency proceedings against ANZBGL, the voluntary administration procedure under the Corporations Act, which provides for the potential re-organisation of an insolvent company; and (ii) in the case of insolvency proceedings against ANZ Bank New Zealand and ANZNIL, New Zealand's voluntary administration and statutory management regimes differ significantly from similar provisions under the insolvency laws of other jurisdictions.

Under the Banking Act, APRA may appoint a Banking Act statutory manager to an ADI (of which ANZBGL is one) in certain circumstances, including where APRA considers that the ADI may become unable to meet its obligations or may suspend payment. Under section 15C of the Banking Act, a party

to a contract with an ADI may not deny any obligations under that contract, accelerate any debt under that contract, close out any transaction relating to that contract, or enforce any security under that contract, on the grounds that a Banking Act statutory manager is in control (or is being appointed to take control) of the ADI's business. Accordingly, this may prevent holders of Notes from accelerating repayment of their Notes on the grounds that a Banking Act statutory manager has been (or is being) appointed to take control of the ADI.

In addition, claims against ANZBGL under Australian law are subject to mandatory priority provisions including those applying to ADIs (see the risk factor entitled "*Notes subject to prior claims*").

In the case of ANZ Bank New Zealand and ANZNIL, the statutory management regimes that are most relevant are the regimes under the Corporations (Investigation and Management) Act 1989 ("**CIM Act**") and the Banking (Prudential Supervision) Act 1989 (New Zealand) (the "**BPS Act**"). Pursuant to the BPS Act, the RBNZ may give a registered bank, which includes ANZ Bank New Zealand, or an associated person a direction in writing and/or place the registered bank under statutory management in certain circumstances, including where the RBNZ has reasonable grounds to believe that the registered bank or the associated person is insolvent or is likely to become insolvent. As a corporation, ANZNIL may be placed into statutory management in similar circumstances under the CIM Act. A registered bank, such as ANZ Bank New Zealand, can also be placed into statutory management if it fails to comply with a direction given by the RBNZ. Where a corporation is declared to be subject to statutory management, a moratorium will apply and no person shall commence any action or other proceedings against that corporation. Accordingly, Noteholders may be prevented from enforcing rights in connection with the Notes where ANZ Bank New Zealand and/or ANZNIL have been placed into statutory management.

If ANZ Bank New Zealand were placed under statutory management, Noteholders may be further restricted in enforcing their rights against ANZ Bank New Zealand due to Open Bank Resolution ("**OBR**"). OBR is an RBNZ policy option aimed at resolving a bank failure quickly, including by suspending payment of a portion of liabilities so the bank can be promptly reopened for business, consequently minimising stresses on the overall banking and payments system. Under the RBNZ's conditions of registration for registered banks, New Zealand-incorporated registered banks with retail deposits over NZ\$1 billion (which includes ANZ Bank New Zealand) are required to comply with the OBR Pre-positioning Requirements Policy (BS17), which describes the process and requirements on banks.

In addition, to the extent that the holders of the Notes are entitled to any recovery with respect to the Notes in any bankruptcy or certain other events in bankruptcy, insolvency, dissolution or reorganisation relating to the Issuer, those holders might be entitled only to a recovery in Australian dollars (where ANZBGL is the Issuer) or New Zealand dollars (where ANZ Bank New Zealand or ANZNIL is the Issuer).

Modification and waivers and substitution

The Terms and Conditions of the Notes (see the section entitled "*Terms and Conditions of the Notes*" below) contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally and for the passing of resolutions by way of an Extraordinary Resolution, Written Resolution or Electronic Consent (each as defined in the Agency Agreement). These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting (or did not participate in the process for obtaining the Written Resolution or Electronic Consent) and Noteholders who voted in a manner contrary to the majority.

Exchange rate risks and exchange controls

The Issuers will pay principal and interest on the Notes in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency or the Specified Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Notes, (2) the Investor's Currency-equivalent

value of the principal payable on the Notes and (3) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Risks related to particular types of all Notes which may be issued under the Programme

Inverse Floating Rate Notes

Inverse floating rate Notes have an interest rate equal to a fixed rate minus a rate based upon a reference rate such as the Euro inter-bank offered rate ("**EURIBOR**"). The market values of those Notes typically are more volatile than market values of other conventional floating rate debt securities based on the same reference rate (and with otherwise comparable terms). Inverse floating rate Notes are more volatile because an increase in the reference rate not only decreases the interest rate of the Notes, but may also reflect an increase in prevailing interest rates, which further adversely affects the market value of these Notes.

Fixed Rate Notes

In general, as market interest rates rise, Notes bearing interest at a fixed rate decline in value because the premium, if any, over market interest rates will decline. For example, if an investor purchases Fixed Rate Notes and market interest rates increase, the market values of those Fixed Rate Notes may decline. Investment in Fixed Rate Notes therefore involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Notes.

Fixed/Floating Rate Notes

Fixed/floating rate Notes may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Notes since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the fixed/floating rate Notes may be less favourable than then prevailing spreads on comparable floating rate Notes tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Notes. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Notes.

Range Accrual Notes

The interest in respect of Range Accrual Notes is calculated by reference to the number of days in an interest accrual period that a specified reference rate or rates and/or the spread between two constant maturity swap rates are either "greater than or equal to" or "greater than" and "less than or equal to" or "less than" certain predetermined levels on certain dates within an interest accrual period. In the event that such conditionality is not satisfied in respect of one or more dates falling within an interest accrual period (or, where Protection Barrier is specified as applicable in the relevant Final Terms and the Protection Barrier Condition is not satisfied), no interest may be payable in respect of such interest accrual period or interest will only be paid in respect of those days in the interest accrual period when such conditionality is satisfied.

The regulation and reform of benchmarks may adversely affect the yield or value of the Notes

The London Interbank Offered Rate ("**LIBOR**"), EURIBOR and other benchmark indices (such as the Australian Bank Bill Swap Rate ("**BBSW**") and the New Zealand Bank Bill Benchmark Rate ("**BKBM**")) are the subject of ongoing national, international and other regulatory guidance and proposals for reform, with further changes anticipated. Some of these reforms are now effective while others are yet to be implemented. For example, following an announcement by the FCA on 5 March 2021 (the "**FCA LIBOR Announcement**"), immediately after 31 December 2021 all sterling, euro, Swiss franc and Japanese yen settings, and the 1-week and 2-month U.S. dollar settings, either ceased to be provided by any administrator or became unrepresentative of the relevant underlying market. The FCA LIBOR

Announcement also provided that the remaining U.S. dollar settings would similarly either cease to be provided or would become unrepresentative immediately after 30 June 2023. The FCA has also announced that it will require ICE Benchmark Administration to publish the USD London Interbank Offered Rate ("**USD LIBOR**") on a "synthetic basis" until 30 September 2024. The implementation of such reforms and consequential changes to benchmark indices may cause such indices to perform differently than in the past or may cause benchmarks to disappear entirely or be declared unrepresentative, which could have a material adverse effect on the yield or value of any Floating Rate Notes where the interest rate is calculated with reference to such benchmark or may have other consequences that cannot be predicted.

The UK Benchmarks Regulation and the EU Benchmarks Regulation

The EU Benchmarks Regulation and the UK Benchmarks Regulation (together, the "**Benchmarks Regulations**") are a key element of ongoing regulatory reform in the EU and the UK respectively.

The EU Benchmarks Regulation applies to the provision of benchmarks, the contribution of input data to a benchmark and the use of a benchmark within the EU. In particular, the EU Benchmarks Regulation, among other things: (i) requires benchmark administrators to be authorised or registered on the ESMA Register (or, if non-EU-based, to be subject to an equivalent regime or otherwise recognised or endorsed); and (ii) prevents certain uses by EU supervised entities of benchmarks of administrators that are not authorised or registered (or, if such benchmarks or administrators are non-EU based, not deemed equivalent or recognised or endorsed).

The UK Benchmarks Regulation, among other things, applies to the contribution of input data to a benchmark, the administration of a benchmark, and the use of a benchmark in the UK. Similarly, it prohibits the use in the UK by UK supervised entities of benchmarks or administrators that are not authorised or registered on the UK Register in accordance with the UK Benchmarks Regulation (or, if such benchmarks or administrators are non-UK based, not deemed equivalent or recognised or endorsed), subject to certain transitional provisions.

ESMA maintains the ESMA Register as a public register of EU-approved benchmark administrators and non-EU benchmarks pursuant to the EU Benchmarks Regulation. Benchmarks and benchmark administrators which were approved by the FCA prior to 31 December 2020 were removed from the ESMA Register on 1 January 2021.

From 1 January 2021 onwards, the FCA maintains the UK Register as a separate public register of FCA-approved benchmark administrators and non-UK benchmarks pursuant to the UK Benchmarks Regulation. The UK Register includes benchmark administrators and benchmarks which were approved by the FCA prior to 31 December 2020.

The EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable, could have a material impact on any Notes linked to a rate or index deemed to be a "benchmark"; in particular, if the methodology or other terms of the "benchmark" are changed in order to comply with the requirements of the EU Benchmarks Regulation and/or the UK Benchmarks Regulation, as applicable. Such changes could, among other things, have the effect of reducing, increasing or otherwise affecting the volatility of the published rate or level of the "benchmark".

IBORs

There continues to be significant regulatory scrutiny of continued use of inter-bank offered rates ("**IBORs**"), such as EURIBOR, and increasing pressure and momentum for banks and other financial institutions to transition relevant products to risk-free replacement rates. Relevant authorities have identified "risk-free rates" to eventually take the place of such IBORs as primary benchmarks including the Euro Short-Term Rate ("**€STR**") as the new euro risk-free rate to replace EURIBOR. The reform and replacement of the remaining IBORs (including EURIBOR) with risk-free rates may cause the relevant IBOR to perform differently than in the past, to disappear entirely, or have other consequences which cannot be predicted. These risk-free rates have different methodologies and other important differences from the IBORs they will eventually replace and have little, if any, historical track record.

Any of these reforms or pressures or any other changes to IBORs such as EURIBOR could affect the level of the published rate, including to cause it to be lower and/or more volatile than it would otherwise be and could have a material adverse effect on the value of and return on Notes linked to any such rates.

BBSW

In Australia, the Treasury Laws Amendment (2017 Measures No. 5) Act 2018 of Australia amended the Corporations Act, to, among other things, establish a licensing regime for administrators of significant financial benchmarks (including BBSW) and enable the Australian Securities and Investment Commission ("**ASIC**") to make rules relating to the generation and administration of such benchmark indices. On 6 June 2018 ASIC issued the ASIC Financial Benchmark (Administration) Rules 2018 (the "**Administration Rules**") and the ASIC Financial Benchmark (Compelled) Rules 2018 (the "**Compelled Rules**") pursuant to this power. The Administration Rules require, among other things, a person who is licensed to administer a regulated benchmark (a benchmark administrator licensee) to: (i) use a method for generating that benchmark that is designed to ensure the quality, integrity, availability, reliability and credibility of that benchmark; (ii) act efficiently, honestly and fairly in generating and administering that benchmark; and (iii) ensure that arrangements with persons who contribute data to the generation of benchmarks (contributors) meet certain criteria for these purposes. The Compelled Rules, among other things, allow ASIC to require a benchmark administrator licensee to continue to generate or administer a regulated benchmark and to require contributors to continue to provide data required for the generation of the relevant benchmark. Although the Compelled Rules and a number of the other Australian reforms have been designed to support the reliability and robustness of BBSW, it is not possible to predict with certainty whether, and to what extent, BBSW will continue to be supported or the extent to which related regulations, rules, practices or methodologies may be amended going forward. This may cause BBSW to perform differently than it has in the past, and may have other consequences which cannot be predicted. For example, it is possible that these changes could cause BBSW to cease to exist, to become commercially or practically unworkable, or to become more or less volatile or liquid. Any such changes could have a material adverse effect on the Notes.

Any of the international, national or other proposals for reform or the general increased regulatory scrutiny of "benchmarks" could increase the costs and risks of administering or otherwise participating in the setting of a "benchmark" and complying with any such regulations or requirements. Such factors may have the effect of discouraging market participants from continuing to administer or contribute to certain "benchmarks", trigger changes in the rules or methodologies used in certain "benchmarks" or lead to the disappearance or obsolescence of certain "benchmarks".

For Notes which reference any affected benchmark, uncertainty as to the nature of alternative reference rates and as to potential changes or other reforms to such benchmark may adversely affect such benchmark rates during the term of such Notes and the return on, value of and the trading market for such Notes.

Additionally, following the implementation of any such potential reforms, the manner of administration of benchmarks may change, with the result that they may perform differently than in the past, or the benchmark could be eliminated entirely, or there could be other consequences that cannot be predicted. The elimination of the EURIBOR benchmark or any other benchmark, or changes in the manner of administration of any benchmark, could require or result in an adjustment to the interest calculation provisions of the Terms and Conditions of the Notes (or the Terms and Conditions of the Non PR Notes as the case may be), or result in adverse consequences to holders of any securities linked to such benchmark (including but not limited to Floating Rate Notes, Range Accrual Notes and Inverse Floating Rate Notes whose interest rates are linked to EURIBOR or any other such benchmark that is subject to reform). Furthermore, even prior to the implementation of any changes, uncertainty as to the nature of alternative reference rates and as to potential changes to such benchmark may adversely affect such benchmark during the term of the relevant Notes, the return on the relevant Notes and the trading market for securities based on the same benchmark.

The market continues to develop in relation to SONIA and €STR as a reference rate for Notes

The market continues to develop in relation to risk-free rates such as SONIA and €STR as reference rates in the capital markets. In particular, market participants and relevant working groups continue to explore

alternative reference rates based on SONIA and €STR (which seek to measure the market's forward expectation of such rates over a designated term).

The market, or a significant part thereof, may adopt an application of SONIA and/or €STR that differs significantly from that set out in the Conditions and used as a reference rate for Floating Rate Notes issued under this Programme. Furthermore, an Issuer may in the future also issue Notes referencing SONIA or €STR that differ materially in terms of interest determination when compared with any previous SONIA or €STR referenced Notes issued by it under this Programme. The development of SONIA and €STR as interest reference rates for the Eurobond markets, as well as continued development of the SONIA and €STR-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any Notes referencing SONIA or €STR issued under the Programme from time to time.

Furthermore, interest on Notes which reference an €STR or a SONIA rate is only capable of being determined immediately prior to the relevant Interest Payment Date. It may be difficult for holders of Notes that reference an €STR or a SONIA rate to reliably estimate the amount of interest that will be payable on such Notes and some investors may be unable or unwilling to trade such Notes without changes to their information technology ("IT") systems, both of which could adversely impact the liquidity of such Notes. Further, if the Notes become due and payable under Condition 9 (*Events of Default*), the Rate of Interest payable will be determined on the date the Notes became due and payable and will not be reset thereafter. Investors should consider these matters when making their investment decision with respect to any such Floating Rate Notes.

Investors should be aware that the manner of adoption or application of €STR or SONIA as a reference rate in the Eurobond markets may differ materially compared with the application and adoption of €STR or SONIA in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of €STR or SONIA as a reference rate across these markets may impact any hedging or other arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing such rate.

Since SONIA and €STR are relatively new in the market, Notes linked to these rates may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities linked to SONIA and/or €STR may evolve over time and trading prices of the Notes referencing SONIA or €STR may be lower than those of later issued Notes that reference the same rate as a result. Further, if either SONIA or €STR do not prove to be widely used as reference rates for securities like the Notes, the trading price of such Notes linked to SONIA or €STR may be lower than those of Notes linked to indices that are more widely used. Investors in such Notes may not be able to sell such Notes at all or may not be able to sell such Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

In addition, in the event that the SONIA or €STR reference rate is not published at the time when it is required, the Conditions of the Notes provide for certain fallback arrangements which apply specifically to those Notes referencing SONIA or €STR and which are distinct to those applying to other floating rate Notes, including that, in respect of Notes referencing SONIA, the SONIA reference rate may be (i) the Bank of England's Bank Rate (the "**Bank Rate**") prevailing on the relevant London Banking Day; plus (ii) the mean of the spread of the SONIA reference rate to the Bank Rate over the previous five days on which a SONIA reference rate has been published excluding the highest and lowest spread to the Bank Rate and in respect of Notes referencing €STR, the €STR reference rate may be the €STR reference rate determined on the first preceding Interest Determination Date.

Investors should consider these matters when making their investment decision in relation to Floating Rate Notes which reference SONIA or €STR.

The market continues to develop in relation to SOFR as a reference rate for Notes

The Secured Overnight Financing Rate ("**SOFR**") is published by the Federal Reserve Bank of New York and is intended to be a broad measure of the cost of borrowing cash overnight collateralised by Treasury securities. Publication of SOFR data began on 3 April 2018, and publication of SOFR Index

data began on 2 March 2020 and therefore have a relatively limited history. In addition, the future performance of SOFR cannot be predicted based on its historical performance. The level of SOFR over the term of the Notes may bear little or no relation to the historical level of SOFR. Prior observed patterns, if any, in the behaviour of market variables, such as correlations, may change in the future. While some pre-publication hypothetical performance data has been published by the Federal Reserve Bank of New York, such data inherently involves assumptions, estimates and approximations. Furthermore, since the initial publication of SOFR, daily changes in the rate have, on occasion, been more volatile than daily changes in comparable benchmark or market rates. As a result, the return on and value of Notes that reference SOFR may fluctuate more than floating rate debt securities that are linked to less volatile rates. The future performance of SOFR is impossible to predict and therefore no future performance of SOFR or the Notes may be inferred from any of the hypothetical or actual historical performance data. Hypothetical or actual historical performance data are not indicative of, and have no bearing on, the potential performance of SOFR or the Notes.

The market or a significant part thereof may adopt an application of SOFR that differs significantly from that set out in the Conditions and used in relation to Floating Rate Notes that reference a SOFR rate issued under this Programme. An Issuer may in the future also issue Notes referencing SOFR that differ materially in terms of interest determination when compared with any previous SOFR referenced Notes issued by it under this Programme. The development of Compounded Daily SOFR and Compounded SOFR Index as an interest reference rate for the Eurobond markets, as well as continued development of SOFR-based rates for such markets and the market infrastructure for adopting such rates, could result in reduced liquidity or increased volatility or could otherwise affect the market price of any SOFR-referenced Notes issued under this Programme from time to time.

Furthermore, interest on Notes which reference a SOFR rate is only capable of being determined on the Interest Determination Date. It may be difficult for holders of Notes that reference a SOFR rate to reliably estimate the amount of interest that will be payable on such Notes and some investors may be unable or unwilling to trade such Notes without changes to their IT systems, both of which could adversely impact the liquidity of such Notes. Further, if the Notes become due and payable as described under Condition 9 (*Events of Default*), the Rate of Interest payable shall be determined on the date the Notes became due and payable and shall not be reset thereafter. Investors should consider these matters when making their investment decision with respect to any such Floating Rate Notes.

Investors should be aware that the manner of adoption or application of SOFR as a reference rate in the Eurobond markets may differ materially compared with the application and adoption of SOFR in other markets, such as the derivatives and loan markets. Investors should carefully consider how any mismatch between the adoption of SOFR as a reference rate across these markets may impact any hedging or other arrangements which they may put in place in connection with any acquisition, holding or disposal of Notes referencing SOFR.

Since SOFR is a relatively new market index, Notes linked to SOFR may have no established trading market when issued, and an established trading market may never develop or may not be very liquid. Market terms for debt securities linked to SOFR, such as the margin over SOFR reflected in interest rate provisions, may evolve over time, and trading prices of the Notes may be lower than those of later-issued Notes that are linked to SOFR as a result. Further, if SOFR does not prove to be widely used in securities like the Notes, the trading price of such Notes linked to SOFR may be lower than those of Notes linked to indices that are more widely used. Investors in such Notes may not be able to sell such Notes at all or may not be able to sell such Notes at prices that will provide them with a yield comparable to similar investments that have a developed secondary market, and may consequently suffer from increased pricing volatility and market risk.

Furthermore, SOFR Notes have certain fallback arrangements in the event that the SOFR reference rate is not available on the SOFR Administrator's Website (as defined in Condition 4 (*Interest and other Calculations*)) in relation to any U.S. Government Securities Business Day (as defined in Condition 4 (*Interest and other Calculations*)), as described in Condition 4(n) (*Effect of Benchmark Transition Event*) and in the risk factor "*The occurrence of a Benchmark Transition Event and its related Benchmark Replacement Date in respect of Notes where the Reference Rate is SOFR may adversely affect the return on and the market value of such Notes*".

SOFR, SONIA, €STR, the SOFR Index, the SONIA Index and the €STR Index may be modified or discontinued by their administrator, which could adversely affect the value of any SOFR Notes, SONIA Notes and/or €STR Notes (as applicable)

Each of SOFR and the SOFR Index is published by the Federal Reserve Bank of New York based on data received from other sources, over which the Issuers have no control. Further the Federal Reserve Bank of New York, the current administrator of SOFR and the SOFR Index, notes on its publication page for SOFR and the SOFR Index that it may alter the methods of calculation, publication schedule, rate revision practices or availability of SOFR and/or the SOFR Index at any time without notice. The Bank of England (or a successor), as administrator of SONIA and the European Central Bank (or a successor) as administrator of €STR, may make methodological or other changes that could change the value of SONIA or €STR, respectively, including changes to the method by which SONIA or €STR is calculated, eligibility criteria applicable to the transactions used to calculate SONIA or €STR, or timing related to the publication of SONIA or €STR. The administrators have no obligations to consider the interests of the Noteholders when calculating, adjusting, converting, revising or discontinuing SOFR, SOFR Index, SONIA, SONIA Index, €STR or €STR Index.

There can be no guarantee, particularly given SOFR's and the SOFR Index's relatively recent publication (3 April 2018 and 2 March 2020, respectively), €STR and €STR Index's relatively recent publication and SONIA and SONIA Index's relatively recent publication, that SOFR, the SOFR Index, €STR, the €STR Index, SONIA and the SONIA Index will not be discontinued or fundamentally altered in a manner that is materially adverse to the interests of Noteholders. If the manner in which SOFR, the SOFR Index, €STR, the €STR Index, SONIA, and/or the SONIA Index are calculated is changed, such change may result in a reduction in the amount of interest payable on the Notes and the trading prices of the Notes. In addition, each of the Federal Reserve Bank of New York as administrator of SOFR and SOFR Index, the European Central Bank as administrator of €STR and the €STR Index and the Bank of England, as administrator of SONIA and SONIA Index may withdraw, modify or amend the published SOFR, SOFR Index, €STR, €STR Index, SONIA and/or SONIA Index (as applicable) in its sole discretion and without notice.

The Rate of Interest for SOFR referenced Notes, €STR referenced Notes and the SONIA referenced Notes (as applicable) for any interest period will not be adjusted for any modifications or amendments to SOFR or the SOFR Index that the Federal Reserve Bank of New York may publish or to €STR or the €STR Index for any modifications or amendments that the European Central Bank may publish or to SONIA or the SONIA Index that the Bank of England may publish after the interest rate for that interest period has been determined.

The occurrence of a Benchmark Disruption Event or an ISDA Determination Fallback Event in respect of Notes may adversely affect the return on and the market value of such Notes

The Terms and Conditions of the Notes (and the Terms and Conditions of the Non PR Notes) provide for certain fallback arrangements in the event that a published Reference Rate (not including SOFR), such as EURIBOR, BBSW or BKBM has ceased to be published on the Relevant Screen Page as a result of such benchmark ceasing to be calculated or administered or it is determined that a change in generally accepted market practice has occurred (as further described in the definition of "Benchmark Disruption Event" in Condition 4(m) (*Benchmark Replacement*)), including the possibility that the Reference Rate could be set by reference to a substitute or successor rate that an Independent Adviser (as defined in Condition 4(m) (*Benchmark Replacement*)) or (where the Issuer is unable to appoint an Independent Adviser and if it so elects to make such a determination) the Issuer has determined (acting in good faith and in a commercially reasonable manner) in its sole discretion to be (a) the industry accepted successor rate to the Reference Rate or (b) if no such industry accepted successor rate exists, the most comparable substitute or successor rate to the relevant Reference Rate and, where the Independent Adviser (or the Issuer as the case may be) has determined a substitute or successor rate that the Independent Adviser (or the Issuer as the case may be) may determine (acting in good faith and in a commercially reasonable manner), any relevant methodology for calculating such substitute or successor rate, including any adjustment factor it determines is needed to make such substitute or successor rate comparable to the

relevant Reference Rate, in a manner that is consistent with industry-accepted practices for such substitute or successor rate in calculating a successor rate or an alternative reference rate. For the risks related to the benchmark fallback for SOFR Notes, see the risk factor entitled "*The occurrence of a Benchmark Transition Event and its related Benchmark Replacement Date in respect of Notes where the Reference Rate is SOFR may adversely affect the return on and the market value of such Notes*". In certain circumstances the ultimate fallback rate of interest for a particular Interest Period or Interest Accrual Period (as applicable) may result in the rate of interest determined for the previous Interest Period or Interest Accrual Period (as applicable) being used. This may result in the effective application of a fixed rate for a Note linked to such a benchmark based on the rate which was last observed on the Relevant Screen Page. In addition, due to the uncertainty concerning the availability of a substitute or successor rate, the relevant fallback provisions may not operate as intended at the relevant time. No consent of the Noteholders shall be required in connection with effecting any relevant substitute or successor rate or any other related adjustments.

In addition, where ISDA Determination for Fallback is specified in the applicable Final Terms, in the event that the applicable Reference Rate is not published on the day on which it is required or in the event that the applicable Reference Rate has ceased to be or will cease to be provided permanently or indefinitely by the administrator and there is no successor administrator (as further described in the definition of "Index Cessation Event" in Condition 4(o) (*ISDA Determination for Fallback*)), the Rate of Interest for the relevant Interest Period or Interest Accrual Period will be determined by reference to the ISDA Fallback Rate, being the rate that would apply for derivatives transactions with respect to the Reference Rate for the applicable tenor plus a spread adjustment as more fully described in Condition 4(o) (*ISDA Determination for Fallback*).

The use of a substitute or successor rate or the application of the ISDA Fallback Rate may result in interest payments that are substantially lower than or that do not otherwise correlate over time with the payments that could have been made on the relevant Floating Rate Notes if the relevant Reference Rate remained available in its current form. Any of the above changes or any other consequential changes to EURIBOR or any other benchmark as a result of international, national or other proposals for reform or other initiatives or investigations, could result in adjustment to the Terms and Conditions of the relevant Notes or other consequences, depending on the specific provisions of the relevant Notes and could have a material adverse effect on the yield on and value of and return on any such Notes linked to a benchmark.

The occurrence of a Benchmark Transition Event and its related Benchmark Replacement Date in respect of Notes where the Reference Rate is SOFR may adversely affect the return on and the market value of such Notes

The Terms and Conditions of the Notes provide for specific fallback arrangements in respect of Notes where the Reference Rate specified in the applicable Final Terms is SOFR (Index Determination) or SOFR (Non-Index Determination). If the Issuer or its designee determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any determination of the Benchmark (each as defined in the Conditions), then a Benchmark Replacement will replace the then-current Benchmark and the Issuer or its designee will have the right to make Benchmark Replacement Conforming Changes in accordance with the provisions of Condition 4(n) (*Effect of Benchmark Transition Event*). There are no limits or parameters dictating whom the Issuer may appoint as its designee to assist in this determination, and the designee may be an affiliate of the Issuer, an agent of the Issuer or any other party or person. There is no assurance that the designee selected by the Issuer to assist in this determination has the competency to make such a determination or that the designee's determination will be consistent with similar determinations made on similar securities. The selection of a Benchmark Replacement, and any decisions, determinations or elections made by the Issuer or its designee in connection with implementing a Benchmark Replacement with respect to such Notes in accordance with the Conditions, could result in adverse consequences to the relevant Rate of Interest in respect of such Notes.

Pursuant to the Conditions, if a particular Benchmark Replacement or Benchmark Replacement Adjustment cannot be determined, then the next-available Benchmark Replacement or Benchmark Replacement Adjustment will apply. These replacement rates and adjustments may be selected or formulated by (i) the Relevant Governmental Body (such as the Alternative Reference Rates Committee (the "**ARRC**")), (ii) ISDA or (iii) in certain circumstances, the Issuer or its designee. In addition, the

provisions of the Conditions expressly authorise the Issuer or its designee to make Benchmark Replacement Conforming Changes with respect to, among other things, the determination of Interest Periods and the timing and frequency of determining rates and making payments of interest.

No consent of the Noteholders shall be required in connection with determining or effecting any Benchmark Replacement, Benchmark Replacement Adjustment or Benchmark Replacement Conforming Changes. The application of a Benchmark Replacement, Benchmark Replacement Adjustment and Benchmark Replacement Conforming Changes, any decisions, determinations or elections made by the Issuer or its designee in connection with Benchmark Replacement, Benchmark Replacement Adjustment and Benchmark Replacement Conforming Changes, as well as the implementation of Benchmark Replacement Conforming Changes, could result in adverse consequences to the amount of interest paid on the Notes which could adversely affect the return on, value of and market for the Notes. Further, there is no assurance that the characteristics of any Benchmark Replacement will be similar to the then-current SOFR (Index Determination) or SOFR (Non-Index Determination) rate that it is replacing, or that any Benchmark Replacement will produce the economic equivalent of the then-current SOFR (Index Determination) or SOFR (Non-Index Determination) rate that it is replacing.

Notes issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount (Zero Coupon Notes, as an example) tend to fluctuate more in relation to changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities. Accordingly, investors in any Notes issued at a discount or premium are exposed to interest rate volatility and may suffer a greater loss on their investment compared to an investor in other interest-bearing debt securities.

Risks relating to Notes denominated in Renminbi ("CNY Notes")

Renminbi is not freely convertible and there are significant restrictions on the remittance of Renminbi into and out of the People's Republic of China (the "PRC") which may adversely affect the liquidity of CNY Notes

Renminbi is not freely convertible at present. The government of the PRC (the "**PRC Government**") continues to regulate conversion between Renminbi and foreign currencies, including the Hong Kong dollar.

However, there has been significant reduction in control by the PRC Government in recent years, particularly over trade transactions involving import and export of goods and services as well as other frequent routine foreign exchange transactions. These transactions are known as current account items.

Subject to the prior receipt of all necessary governmental approvals, the relevant Issuer may remit the net proceeds from the offering of CNY Notes into the PRC. There is no assurance that such approvals will be granted and, if granted, will not be revoked or amended in the future.

Remittance of Renminbi into and out of the PRC for the settlement of capital account items such as capital contributions, debt financing and securities investment, is generally only permitted upon obtaining specific approvals from, or completing specific registrations or filings with, the relevant authorities and/ or designated foreign exchange banks on a case-by-case basis and is subject to a strict monitoring system. Regulations in the PRC on the remittance of Renminbi into and out of the PRC for settlement of capital account items are being developed gradually.

In respect of Renminbi foreign direct investments ("**FDI**"), the People's Bank of China ("**PBoC**") promulgated the Administrative Measures on Renminbi Settlement of Foreign Direct Investment (the "**PBoC FDI Measures**") on 13 October 2011 as part of PBoC's detailed Renminbi FDI accounts administration system. The system covers almost all aspects in relation to FDI, including capital injections, payments for the acquisition of PRC domestic enterprises, repatriation of dividends and other distributions, as well as Renminbi denominated cross-border loans. On 14 June 2012, PBoC further issued the implementing rules for the PBoC FDI Measures and subsequently made slight revisions to the

implementing rules on 5 June 2015 and 31 December 2020. Under the PBoC FDI Measures, special approval for FDI and shareholder loans from PBoC, which was previously required, is no longer necessary. In some cases however, post-event filing with PBoC is still necessary.

On 3 December 2013, the Ministry of Commerce of the PRC ("**MOFCOM**") promulgated the Circular on issues in relation to Cross-border Renminbi Foreign Direct Investment (the "**MOFCOM Circular**"), which became effective on 1 January 2014, to further facilitate FDI by simplifying and streamlining the applicable regulatory framework. Pursuant to the MOFCOM Circular, the appropriate office of MOFCOM and/or its local counterparts will grant written approval for each FDI and specify "Renminbi Foreign Direct Investment" and the amount of capital contribution in the approval. Unlike previous MOFCOM regulations on FDI, the MOFCOM Circular removes the approval requirement for foreign investors who intend to change the currency of its existing capital contribution from a foreign currency to Renminbi. In addition, the MOFCOM Circular also clearly prohibits the FDI funds from being used for any investment in securities and financial derivatives (except for investment in the PRC listed companies as strategic investors) or for entrustment loans in the PRC.

To support to the development of the China (Shanghai) Free Trade Pilot Zone (the "**Shanghai FTZ**"), the Shanghai Head Office of PBoC issued the Circular on Supporting the Expanded Cross-border Utilisation of Renminbi in the Shanghai FTZ on 20 February 2014, which allows banks in Shanghai to settle FDI based on a foreign investor's instruction. In respect of FDI in industries that are not on the "negative list" of the Shanghai FTZ, the MOFCOM approval previously required is replaced by a filing. However, the application of the Shanghai FTZ Circular is limited to the Shanghai FTZ.

In the event that the relevant Issuer decides to remit some or all of the proceeds into the PRC in Renminbi, its ability to do so will be subject to obtaining all necessary approvals from and registration with the relevant PRC government authorities. However, there is no assurance that the necessary approvals from and registration with the relevant PRC government authorities will be obtained at all or, if obtained, they will not be revoked or amended in the future.

Although Renminbi has been added to the Special Drawing Rights basket created by the International Monetary Fund on 1 October 2016 and the PBoC has implemented various policies further improving accessibility to Renminbi to settle cross-border transactions in the past, there is no assurance that the PRC Government will continue to gradually liberalise control over cross-border remittance of Renminbi in the future, that the schemes for Renminbi cross-border utilisation will not be discontinued or that new regulations in the PRC will not be promulgated in the future which have the effect of restricting or eliminating the remittance of Renminbi into or out of the PRC. Despite the Renminbi internationalisation pilot programme and efforts in recent years to internationalise the currency, there can be no assurance that the PRC Government will not impose interim or long-term restrictions on the cross-border remittance of Renminbi. In the event that funds cannot be repatriated outside the PRC in Renminbi, this may affect the overall availability of Renminbi outside of the PRC and the ability of the Issuer to source Renminbi to finance its obligations under CNY Notes.

There is only limited availability of Renminbi outside the PRC, which may affect the liquidity of the CNY Notes and the Issuer's ability to source Renminbi outside the PRC to service the CNY Notes

As a result of the restrictions by the PRC Government on cross-border Renminbi fund flows, the availability of Renminbi outside the PRC is limited. The PBoC has entered into agreements (the "**Settlement Arrangements**") on the clearing of Renminbi business with financial institutions (the "**Renminbi Clearing Banks**") in a number of financial centres and cities, including but not limited to Hong Kong, London, Frankfurt and Singapore, has established the Cross-Border Inter-Bank Payments System ("**CIPS**") to facilitate cross-border Renminbi settlement, and is in the process of establishing Renminbi clearing and settlement mechanisms in several other jurisdictions. Nevertheless, the current size of Renminbi denominated financial assets outside the PRC is limited.

There are restrictions imposed by the PBoC on Renminbi business participating banks in respect of crossborder Renminbi settlement, such as those relating to direct transactions with PRC enterprises. Furthermore, Renminbi business participating banks do not have direct Renminbi liquidity support from the PBoC, although the PBoC has gradually allowed participating banks to access the PRC's onshore inter-bank market for trading of Renminbi. The Renminbi Clearing Banks only have limited access to

onshore liquidity support from the PBoC for the purpose of squaring open positions of participating banks for limited types of transactions and are not obliged to square for participating banks any open positions resulting from other foreign exchange transactions or conversion services. In cases where the participating banks cannot source sufficient Renminbi through the above channels, they will need to source Renminbi from outside the PRC to square such open positions.

Although it is expected that the offshore Renminbi market will continue to grow in depth and size, its growth is subject to many constraints as a result of PRC laws and regulations on foreign exchange. There is no assurance that new PRC regulations will not be promulgated or current regulations (including but not limited to the Settlement Arrangements) will not be terminated or amended in the future, each of which will have the effect of restricting availability of Renminbi outside the PRC. The limited availability of Renminbi outside the PRC may affect the liquidity of the CNY Notes. To the extent the relevant Issuer is required to source Renminbi in the offshore market to service CNY Notes, there is no assurance that the Issuer will be able to source such Renminbi on satisfactory terms, if at all.

Investment in CNY Notes is subject to exchange rate risks

The relevant Issuer will make all payments of interest and principal with respect to CNY Notes in Renminbi unless otherwise specified. The value of Renminbi against other foreign currencies fluctuates from time to time and is affected by changes in the PRC and international political and economic conditions as well as many other factors. The PBoC has in recent years implemented changes to the way it calculates the Renminbi's daily mid-point against the U.S. dollar to take into account market-maker quotes. This change, and others that may be implemented, may increase the volatility in the value of the Renminbi against foreign currencies. As a result, the value of these Renminbi payments may vary with the changes in the prevailing exchange rates in the marketplace. If the value of Renminbi depreciates against another foreign currency, the value of the investment made by a holder of CNY Notes in that foreign currency will decline.

Investment in CNY Notes is subject to currency risk

If the Issuer is not able, or it is impracticable for it, to satisfy its obligation to pay interest and principal on CNY Notes as a result of Inconvertibility, Non transferability or Illiquidity (each, as defined in the Conditions), the relevant Issuer shall be entitled, on giving not less than five or more than 30 calendar days' irrevocable notice to the investors prior to the due date for payment, to settle any such payment in U.S. dollars on the due date at the U.S. Dollar Equivalent (as defined in the Conditions) of any such interest or principal, as the case may be.

Investment in CNY Notes is subject to interest rate risks

The PRC Government has gradually liberalised its regulation of interest rates in recent years. Further liberalisation may increase interest rate volatility. In addition, the interest rate for Renminbi in markets outside the PRC may significantly deviate from the interest rate for Renminbi in the PRC as a result of foreign exchange controls imposed by PRC law and regulations and prevailing market conditions. As CNY Notes may carry a fixed interest rate, the trading price of the CNY Notes will consequently vary with the fluctuations in the Renminbi interest rates. If holders of the CNY Notes propose to sell their CNY Notes before their maturity, they may receive an offer lower than the amount they have invested.

Payments with respect to CNY Notes may be made only in the manner designated in CNY Notes

All payments to investors in respect of CNY Notes will be made solely (i) for so long as CNY Notes are represented by a Temporary Global Note or a Permanent Global Note held with the common depositary for Clearstream, Luxembourg and Euroclear or any alternative clearing system by transfer to a Renminbi bank account maintained in Hong Kong or (ii) for so long as any CNY Notes are in definitive form, by transfer to a Renminbi bank account maintained in Hong Kong in accordance with prevailing rules and regulations. The relevant Issuer cannot be required to make payment by any other means (including in any other currency or by transfer to a bank account in the PRC).

Gains on the transfer of CNY Notes may become subject to income taxes under PRC tax laws

Under the PRC Enterprise Income Tax Law and the relevant implementing rules, as amended from time to time, any gain realised on the transfer of CNY Notes by non-PRC resident enterprise holders may be subject to PRC enterprise income tax ("EIT") if such gain is regarded as income derived from sources within the PRC. The PRC Enterprise Income Tax Law levies EIT at the rate of 20 per cent. of the PRC-sourced gains derived by such non-PRC resident enterprise holder from the transfer of CNY Notes but its implementation rules have reduced the EIT rate to 10 per cent.

However, uncertainty remains as to whether the gain realised from the transfer of CNY Notes by non-PRC resident enterprise holders would be treated as income derived from sources within the PRC and thus become subject to EIT. This will depend on how the PRC tax authorities interpret, apply or enforce the PRC Enterprise Income Tax Law and the relevant implementing rules. According to the arrangement between the PRC and Hong Kong, for avoidance of double taxation, holders who are residents of Hong Kong, including enterprise holders and individual holders, will not be subject to EIT on capital gains derived from a sale or exchange of CNY Notes.

Therefore, if non-PRC resident enterprise holders are required to pay PRC income tax on gains derived from the transfer of CNY Notes, unless there is an applicable tax treaty between PRC and the jurisdiction in which such non-PRC resident enterprise of CNY Notes reside that reduces or exempts the relevant EIT, the value of their investment in CNY Notes may be materially and adversely affected.

Risks related to NZ Subordinated Notes issued under the Programme

An investor holding NZ Subordinated Notes may lose some or all of its investment should ANZ Bank New Zealand become insolvent

Although NZ Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a significant risk that an investor holding NZ Subordinated Notes may lose some or all of their investment should ANZ Bank New Zealand become insolvent.

The terms of the Notes do not limit the amount of the liabilities ranking senior to any NZ Subordinated Notes which may be incurred or assumed by ANZ Bank New Zealand from time to time, whether before or after the date of issue of the relevant NZ Subordinated Notes.

If ANZ Bank New Zealand is put into liquidation, it will be required to pay the holders of senior debt and meet its obligations to all its other unsubordinated creditors (including unsecured creditors) in full before it can make any payments on any NZ Subordinated Notes. If this occurs, ANZ Bank New Zealand may not have enough assets remaining after these payments to pay any or all amounts due under the relevant NZ Subordinated Notes.

In addition, all NZ Subordinated Notes will provide that, prior to the stated maturity of such NZ Subordinated Notes or the commencement of the liquidation of ANZ Bank New Zealand, ANZ Bank New Zealand is only permitted to make payments on such NZ Subordinated Notes if it is solvent at the time of such payment and if it would be solvent immediately after any such payment. Any failure to pay as a result of this solvency condition not being satisfied will not constitute an Event of Default under the Conditions in respect of such NZ Subordinated Notes.

An investor holding NZ Subordinated Notes has limited remedies available for non-payment of amounts owing and for other breaches of ANZ Bank New Zealand's obligations

If ANZ Bank New Zealand fails to pay principal on the NZ Subordinated Notes within 7 days of its due date, or fails to pay interest on the NZ Subordinated Notes within 15 days of its due date, an NZ Subordinated Noteholder may commence proceedings to recover the amount owing, provided that ANZ Bank New Zealand will not, by virtue of the institution of any such proceedings (other than any liquidation proceedings), be obliged to pay any principal or interest or any other payments in respect of the NZ Subordinated Notes:

- (a) sooner than such amounts would otherwise be payable and not until after the claims of Senior Creditors (as defined in Condition 3(b) (*Status and Guarantee – NZ Subordinated Notes – ANZ Bank New Zealand*)) of ANZ Bank New Zealand have been paid; and
- (b) if, prior to the stated maturity of the NZ Subordinated Notes or the commencement of the liquidation of ANZ Bank New Zealand, ANZ Bank New Zealand is not solvent at the time of, or would not be solvent immediately after, the payment of such amount.

In addition to taking such actions upon any such failure to pay principal or interest, an NZ Subordinated Noteholder may commence a proceeding in New Zealand (but not anywhere else) to obtain an order for specific performance of any other obligation in respect of NZ Subordinated Notes or for the liquidation of ANZ Bank New Zealand. The making of an order for a liquidation is in the discretion of the court. However, in accordance with Condition 3(b) (*Status and Guarantee – NZ Subordinated Notes – ANZ Bank New Zealand*), until all Senior Creditors have been paid in full, an NZ Subordinated Noteholder must not claim in the liquidation of ANZ Bank New Zealand in competition with the Senior Creditors so as to diminish any distribution, dividend or payment which, but for that claim, the Senior Creditors would have been entitled to receive.

No remedy will be available to an NZ Subordinated Noteholder where ANZ Bank New Zealand's failure to pay principal or interest or make any other payment in respect of the NZ Subordinated Notes is due to ANZ Bank New Zealand failing to satisfy the solvency condition in Condition 4(u) (*Conditions of Payment in respect of NZ Subordinated Notes*). Any amount not paid due to ANZ Bank New Zealand's failure to satisfy the solvency condition in Condition 4(u) (*Conditions of Payment in respect of NZ Subordinated Notes*) accumulates and remains a debt owing to the NZ Subordinated Noteholder by ANZ Bank New Zealand until it is paid and will be due and payable on the first Business Day on which the solvency condition in Condition 4(u) (*Conditions of Payment in respect of NZ Subordinated Notes*) is satisfied (whether or not such date is otherwise a payment date).

Prior to the commencement of the liquidation of ANZ Bank New Zealand, no other remedy will be available to an NZ Subordinated Noteholder against ANZ Bank New Zealand, whether for the recovery of amounts owing in respect of, or for a breach by ANZ Bank New Zealand of its obligations under or in respect of, the NZ Subordinated Notes.

An investor holding NZ Subordinated Notes has limited rights to accelerate principal under the NZ Subordinated Notes

Payment of the principal amount of the NZ Subordinated Notes may be accelerated only in the event of a liquidation of ANZ Bank New Zealand. NZ Subordinated Noteholders will not have the right to accelerate the payment of principal of the NZ Subordinated Notes if ANZ Bank New Zealand fails to pay principal or interest when due on those NZ Subordinated Notes or if ANZ Bank New Zealand fails in the performance of any of its other obligations under those NZ Subordinated Notes. The rights of acceleration under the NZ Subordinated Notes are more limited than those available pursuant to the terms of ANZ Bank New Zealand's unsubordinated debt securities.

NZ Subordinated Notes may be subject to optional redemption by ANZ Bank New Zealand which may limit their market value

ANZ Bank New Zealand may redeem in whole (but not in part) NZ Subordinated Notes prior to their specified maturity at the Early Redemption Amount together with interest accrued to the date fixed for redemption (i) upon the occurrence of an NZ Subordinated Note Tax Event (subject to and in accordance with Condition 5(c) (*Redemption for Taxation Reasons Applicable to NZ Subordinated Notes*)); (ii) upon the occurrence of an NZ Subordinated Note Regulatory Event (subject to and in accordance with Condition 5(d) (*Redemption of NZ Subordinated Notes for Regulatory Reasons*)); or (iii) on any Optional Redemption Date specified in the applicable Final Terms which falls on or after the fifth anniversary of the date on which such NZ Subordinated Notes were issued pursuant to Condition 5(f) (*Redemption at the Option of the Issuer and Exercise of Issuer's Options*), in each case, subject to prior approval of the RBNZ in accordance with Condition 5(j) (*NZ Subordinated Notes - Approval of RBNZ*).

An optional redemption feature is likely to limit the market value of the NZ Subordinated Notes. During any period when ANZ Bank New Zealand may elect to redeem NZ Subordinated Notes, the market value of those NZ Subordinated Notes generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

Risks related to Notes issued as SDG Bonds

The SDG Bonds may not meet investor expectations or requirements

ANZBGL may issue SDG Bonds from time to time. While it is the intention of ANZBGL to apply an amount equal to the net proceeds of any SDG Bonds for the allocation to an eligible asset, there is no contractual or regulatory obligation to do so. Additionally, the Framework is subject to review and change and any amendment, update, supplement and/or replacement of the Framework may be applied in respect of any issue of SDG Bonds.

No assurance or representation is given to investors by ANZBGL or any other person:

- (a) that, at any time, the use of the net proceeds of any Tranche of SDG Bonds will satisfy (whether in whole or in part) any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, in particular with regard to any direct or indirect sustainability impact of any projects or uses, the subject of or related to, any eligible assets, eligible businesses and projects under the Framework;
- (b) that, at any time, any assets, projects, businesses or uses the subject of, or related to, any eligible assets will meet or, if met, continue to meet on an ongoing basis any or all investor expectations regarding "green", "sustainable", "social" or other similar labels (including, without limitation, the EU Taxonomy Regulation and any related technical screening criteria, the proposed European Green Bond Regulation, the SDFR and any implementing legislation and guidelines, or any similar legislation or related technical screening criteria in the United Kingdom). Furthermore, it should be noted that there is currently no clear definition (legal, regulatory or otherwise) of, nor market consensus as to what constitutes, a "green", "social" or "sustainable" or an equivalently-labelled project or as to what precise attributes are required for a particular project to be defined as "green", "social" or "sustainable" or such other equivalent label and if developed in the future SDG Bonds may not comply with any such definition or label;
- (c) that any adverse environmental, social and/or other impacts will not occur during the implementation of any assets, projects, businesses or uses the subject of, or related to, any eligible assets;
- (d) that, at any time (within any specified period or at all), (i) any assets, projects, businesses qualifying as eligible assets will be available or meet any eligible categories, or (ii) any eligible asset will continue to meet any eligible category, or that ANZBGL will be able to replace any eligible assets which no longer meet the relevant eligible category, or (iii) any eligible assets will be, or will be capable of being, implemented in or substantially in such manner and/or in accordance with any timing schedule or at all or with the results or outcome as originally expected or anticipated by ANZBGL and, accordingly, there is no assurance that an amount equal to the net proceeds of any Tranche of SDG Bonds will be totally or partially allocated to such eligible assets; or
- (e) as to the suitability or reliability for any purpose whatsoever of any opinion, assurance or certification of any third party (whether or not solicited by ANZBGL) which may be made available in connection with SDG Bonds (including any second or third party opinion).

As at the date of this Base Prospectus, any SDG Bonds issued under the Programme will not be compliant with the proposed European Green Bond Regulation and are only intended to comply with the requirements and processes in ANZBGL's Framework. It is not clear if the establishment of the EuGB label and the optional disclosures regime for bonds issued as "environmentally sustainable" under the

proposed European Green Bond Regulation could have an impact on investor demand for, and pricing of, green use of proceeds bonds that do not comply with the requirements of the EuGB label or the optional disclosures regime, such as SDG Bonds issued under this Base Prospectus. It could result in reduced liquidity or lower demand or could otherwise affect the market price of any SDG Bonds issued under this Programme that do not comply with those standards proposed under the European Green Bond Regulation.

The listing of any Tranche of SDG Bonds on any dedicated 'green', sustainable or other equivalently-labelled segment of any stock exchange or securities market is subject to change and may not meet investor expectations or requirements

If a Tranche of SDG Bonds is at any time listed or admitted to trading on any dedicated "green", sustainable or other equivalently-labelled segment of any stock exchange or securities market (whether or not regulated), no representation or assurance is given by ANZBGL or any other person that such listing or admission satisfies, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply, in particular with regard to any direct or indirect environmental impact of any projects or uses, the subject of or related to, any of the businesses and projects funded with an amount equivalent to the net proceeds from such SDG Bonds. Furthermore, it should be noted that the criteria for any such listings or admission to trading may vary from one stock exchange or securities market to another. Nor is any representation or assurance given or made by ANZBGL or any other person that any such listing or admission to trading will be obtained in respect of any Tranche of SDG Bonds or, if obtained, that any such listing or admission to trading will be maintained during the life of the SDG Bonds and any failure to obtain or maintain such listing may affect the value of the SDG Bonds.

SDG Bonds do not benefit from any arrangements to enhance the performance of the SDG Bonds or any contractual rights derived solely from the intended use of proceeds of such SDG Bonds and are not linked to the performance of the eligible assets

Investors should note that none of:

- (a) a failure by ANZBGL as Issuer (either totally or partially) (i) to apply or reapply the net proceeds of a Tranche of SDG Bonds in the manner described in the applicable Final Terms, or (ii) to evaluate, select and report on eligible assets, or to manage the net proceeds of a Tranche of SDG Bonds or procure any external review and verification of a Tranche of SDG Bonds, each as may be described in the applicable Final Terms and/or in the Framework or (iii) to comply with the Framework, the United Nations' General Assembly SDGs or, the International Capital Market Association (the "ICMA") published documents entitled "*The Social Bond Principles 2020*", "*The Social Bond Principles 2021*", "*The Sustainability Bond Guidelines 2018*", "*The Sustainability Bond Guidelines 2021*", "*The Green Bond Principles 2018*" and "*The Green Bond Principles 2021*" or (iv) to prepare, obtain or publish any report, assessment, opinion, assurance, certification and/or label relating to any SDG Bonds (including any periodic progress report as described in the applicable Final Terms or Framework);
- (b) a failure of a third party to provide any opinion, assurance or certification in connection with the Framework, a Tranche of SDG Bonds or any periodic progress report (whether or not solicited by ANZBGL as Issuer), and/or any such opinion, assurance or certification stating that ANZBGL as Issuer is not complying or fulfilling relevant criteria (either totally or partially) with respect to any matter(s) which such opinion, assurance or certification is opining on, assuring or certifying;
- (c) any revision, amendment or withdrawal, for any reason, of (i) any opinion, assurance or certification of any Tranche of SDG Bonds, any periodic progress report and/or the Framework, or (ii) any criteria on which any such opinion, assurance or certification was given, or (iii) the Framework and/or any report, assessment, opinion, certification and/or label relating to any Tranche of SDG Bonds, any periodic progress report and/or the Framework;

- (d) the failure of any SDG Bonds to meet investors' expectations or requirements regarding any SDGs, environmental, social and governance ("ESG") or similar label(s) or characteristic(s);
- (e) any change in the performance of any eligible asset (including the loss of any SDG, ESG or equivalent characteristics);
- (f) the SDG Bonds if listed or admitted to trading no longer being listed or admitted to trading on any ESG segment of any stock exchange or securities market or otherwise; or
- (g) a failure of any SDG Bonds to comply with the proposed European Green Bond Regulation,

will (i) constitute an Event of Default under the Conditions, or (ii) be a breach of contract with respect to any Tranche of SDG Bonds, or (iii) give rise to any other claim or right (including, for the avoidance of doubt, any early redemption option or right to accelerate any Tranche of SDG Bonds) of a holder of SDG Bonds against ANZBGL as Issuer, or (iv) require ANZBGL to redeem the SDG Bonds, or (v) affect the regulatory treatment of the SDG Bonds.

The occurrence of any of the above factors may, however, cause damage to the ANZBGL Group's reputation and/or have a material adverse effect on the value of SDG Bonds and/or result in adverse consequences for certain investors with requirements to invest in securities to be used for a particular purpose who may need to sell such SDG Bonds as a result of such SDG Bonds not falling within their investment requirements). Potential investors should note that there is no recourse to ANZBGL in these circumstances.

The market price of SDG Bonds may adversely change

If any of the risks outlined above materialise, this may have a material adverse effect on the market price of such SDG Bonds and also potentially the market price of any other securities intended to finance the Issuer's lending for eligible assets and may result in adverse consequences for certain investors with requirements to invest in securities to be used for a particular purpose (including, without limitation, if such investors are required to dispose of their SDG Bonds as a result of such SDG Bonds not meeting any investment requirements set by or for such investor, which could lead to increased volatility and/or material decreases in the market price of such SDG Bonds).

No assurance of suitability or reliability of any second party opinion or any other opinion or certification of any third party relating to any SDG Bond

Any second or third party opinions may provide an opinion on certain environmental and related considerations. Any such opinions are a statement of opinion, not a statement of fact. No representation or assurance is given as to the suitability or reliability of any second or third party opinion or any assurance, certification, assessment or other report of any third party made available in connection with an issue of Notes issued as SDG Bonds. Any second or third party opinion and any other such assurance, certification, assessment or other report of any third party is not intended to address any credit, market or other aspects of any investment in any Note, including without limitation market price, marketability, investor preference or suitability of any security or any other factors that may affect the value of the Notes. Any second or third party opinion and any other such assurance, certification, assessment or other report of any third party is not a recommendation to buy, sell or hold any such Notes and is current only as of the date it was issued.

The criteria and/or considerations that form the basis of any second or third party opinion and any other such assurance, certification, assessment or other report of any third party may change at any time and such opinion, assurance, certification, assessment or other report may be amended, updated, supplemented, replaced and/or withdrawn. Any withdrawal of any such opinion, assurance, certification, assessment or other report may have a material adverse effect on the value of any SDG Bonds in respect of which such opinion, assurance, certification, assessment or other report is given and /or result in adverse consequences for certain investors with portfolio mandates to invest in securities to be used for a particular purpose. As at the date of this Base Prospectus, the providers of such opinions, assurances, certifications, assessments or other reports are not subject to any specific regulatory or other regime or

oversight. Prospective investors must determine for themselves the relevance of any such opinion, assurance, certification, assessment or other report and/or the information contained therein.

Risks related to the development of a market for Notes which may be issued under the Programme

There is no prior or active trading market for the Notes and such trading market may not develop

Each Tranche of Notes will be new securities which may not be widely distributed and for which there is currently no active trading market (unless, in the case of any particular Tranche of Notes, such Tranche is to be consolidated with and form a single series with a Tranche of Notes which is already issued). If the Notes are traded after their initial issuance, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of the Issuer. Accordingly, the Issuer cannot predict, or give any assurance as to, whether an active or liquid trading market for any particular Tranche of Notes will develop or be sustained. In addition to the creditworthiness, many factors affect the trading market for, and trading value of, the Notes. These factors may include among other things:

- the method of calculating the principal, premium and interest in respect of the Notes;
- the time remaining to the stated maturity of the Notes;
- the outstanding amount of the Notes;
- any redemption features of the Notes;
- the financial condition and results of the relevant Issuer's operations;
- investor confidence and market liquidity; and
- the level, direction and volatility of market interest rates generally.

There may be no, or only a limited number of, buyers when an investor decides to sell the Notes. This may affect the price an investor receives for such Notes or the ability to sell such Notes at all. In addition, Notes that are designed for specific investment objectives or strategies often experience a more limited trading market and more price volatility than those not so designed.

The Notes may be de-listed, which may materially affect an investor's ability to resell

Any Notes that are listed on the London Stock Exchange or any other listing authority, stock exchange or quotation system may be de-listed. If any Notes are de-listed, the relevant Issuer is obliged to endeavour promptly to obtain an alternative listing. Although no assurance is made as to the liquidity of the Notes as a result of listing on the London Stock Exchange or any other listing authority, stock exchange or quotation system, de-listing the Notes may have a material adverse effect on a Noteholder's ability to resell the Notes in the secondary market.

Legal and other Risks

Because the Global Notes will be held by or on behalf of Euroclear, Clearstream, Luxembourg and/or an Alternative Clearing System, investors will have to rely on their procedures for transfer, payment and communication with the relevant Issuer and/or the Guarantor

Notes issued under the Programme may be represented by one or more Global Notes (namely single notes representing all, or the relevant part, of the entire issue). Such Global Notes will be deposited with a common depository for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, S.A. ("**Clearstream, Luxembourg**") and/or a clearing system other than Euroclear or Clearstream, Luxembourg (an "**Alternative Clearing System**"), which expression shall include the Central Moneymarkets Unit Service (or any lawful successor thereto (the "**CMU**" or "**CMU Service**") being the book-entry clearing system operated by the Hong Kong Monetary Authority (the "**HKMA**"), the government authority in Hong Kong with responsibility for maintaining currency and banking stability whenever the context permits). Apart from the circumstances described in the relevant Global Note,

investors will not be entitled to Notes in definitive form (i.e. physical certificates of ownership). Euroclear, Clearstream, Luxembourg and/or any relevant Alternative Clearing System will maintain records of the beneficial interests in the Global Notes. While the Notes are represented by one or more Global Notes, investors will be able to trade their beneficial interests only through Euroclear, Clearstream, Luxembourg and/or any relevant Alternative Clearing System.

While the Notes are represented by one or more Global Notes, the relevant Issuer and the Guarantor, if applicable, will discharge its payment obligations under the Notes by making payments to the common depository for Euroclear, Clearstream, Luxembourg and/or any relevant Alternative Clearing System for distribution to their relevant account holders. A holder of a beneficial interest in a Global Note must rely on the procedures of Euroclear, Clearstream, Luxembourg and/or any relevant Alternative Clearing System to receive payments under the relevant Notes. The Issuers and the Guarantor have no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the Global Notes.

So long as any Note is represented by a Global Note held through the CMU Service, each person for whose account interest in the Global Note is credited as being held in the CMU, as notified by the CMU Service to the CMU lodging agent appointed for such purpose in a relevant CMU instrument position report (which shows the aggregate nominal value of the instrument specified therein held by members of the CMU Service in CMU securities accounts), will be the only person entitled to receive payments on the Notes represented by the Global Note. Such person(s) must look solely to the CMU paying agent appointed for such purpose (the "**CMU Paying Agent**") for his share of each payment made by the relevant Issuer in respect of the Global Note, and in relation to all other rights arising under the Global Note, subject to and in accordance with the respective rules and procedures of the CMU Service. The relevant Issuer and the Guarantor, if applicable, will be discharged by payment to the CMU Paying Agent, and such person(s) shall have no claim directly against the relevant Issuer and the Guarantor in respect of payments due on the Notes for so long as the Notes are represented by the Global Note in respect of each amount so paid. Investors are exposed to the creditworthiness of the CMU Paying Agent and may suffer a loss in their investment if the CMU Paying Agent delays in making or fails to make the relevant payment to the aforesaid person(s) upon receiving the relevant payment from the Issuer.

Holders of beneficial interests in the Global Notes will not have a direct right to vote in respect of the relevant Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by Euroclear, Clearstream, Luxembourg and/or any relevant Alternative Clearing System to appoint appropriate proxies. Similarly, holders of beneficial interests in the Global Notes will not have a direct right under the Global Notes to take enforcement action against the relevant Issuer, or the Guarantor, if applicable, in the event of a default under the relevant Notes but will have to rely upon their rights under the Deed of Covenant.

Foreign account tax compliance (FATCA) withholding may apply to payments on the Notes, including as a result of the failure of a Noteholder or a Noteholder's bank or broker to provide information to tax authorities or withholding agents

A withholding tax as high as 30 per cent. may be imposed on payments made with respect to the Notes, but such withholding will not apply to payments made before the date that is two years after the date on which final regulations defining the term "foreign passthru payment" are enacted, and, other than with respect to Subordinated Notes and NZ Subordinated Notes, only with respect to the Notes, issued or modified at least six months after the date on which final regulations implementing the rules for calculating the amount of such withholding tax are published in final form (subject to changes in U.S. Law affecting timing, applicability and rates for Foreign Passthru Payments). The withholding, when it applies, may be imposed at any point in a series of payments unless the relevant payee (including a bank, broker or individual) at each point complies with information reporting, certification and related requirements. Accordingly, a Noteholder that holds Notes through a bank or broker could be subject to withholding if, for example, its bank or broker is subject to withholding because the bank or broker fails to comply with these requirements even though the holder itself might not otherwise have been subject to withholding. If a payment on the Notes is subject to this withholding tax, no additional amounts will be paid, and a Noteholder will receive less than the expected amount of the payment.

Prospective investors should consult their tax advisers and their banks or brokers regarding the possibility of this withholding. For more information, see "*Taxation—FATCA Withholding*" below.

Notes subject to prior claims

Claims against ANZBGL under Australian law are subject to mandatory priority provisions including those applying to ADIs (of which ANZBGL is one). These priority provisions include section 13A of the Banking Act, which provides that, in the event that ANZBGL becomes unable to meet its obligations or suspends payment, its assets in Australia are to be available to meet specified liabilities in Australia (including "protected accounts" which include most deposit liabilities) in priority to all other liabilities of ANZBGL (including the Notes). These liabilities will be substantial and are not limited by the Conditions. Further, certain assets, such as the assets of ANZBGL in a cover pool for covered bonds issued by ANZBGL, are excluded from constituting assets in Australia for the purposes of section 13A of the Banking Act, and these assets are subject to the prior claims of the covered bond holders and certain other secured creditors in respect of the covered bonds. The assets which are subject to such prior claims may also be substantial. In addition, future changes to applicable law may extend the debt required to be preferred by law or the assets to be excluded.

Under the €8 billion ANZ Bank New Zealand covered bond programme, investors have full recourse to ANZNIL or ANZ Bank New Zealand as issuer and ANZ Bank New Zealand as guarantor and also to a cover pool of assets held by the ANZNZ Covered Bond Trust. The assets of the ANZNZ Covered Bond Trust are made up of certain housing loans and related securities originated by ANZ Bank New Zealand and which are security for the guarantee by ANZNZ Covered Bond Trust Limited as trustee of the ANZNZ Covered Bond Trust of covered bonds issued by ANZ Bank New Zealand or ANZNIL, from time to time.

As at 30 September 2023, the rights to cash flows associated with housing loans and related securities with a carrying value of NZ\$10,926 million or 5.6 per cent. of the ANZ Bank New Zealand Group's total assets were held in the ANZNZ Covered Bond Trust. The assets of the ANZNZ Covered Bond Trust do not qualify for derecognition as ANZ Bank New Zealand retains substantially all of the risks and rewards of the transferred assets. Therefore, the covered bond programme and the ANZNZ Covered Bond Trust do not change ANZ Bank New Zealand's financial statements. The covered bonds are guaranteed by ANZNZ Covered Bond Trust Limited as trustee of the ANZNZ Covered Bond Trust under the terms of the covered bond programme. The assets of the ANZNZ Covered Bond Trust are not available to creditors of ANZ Bank New Zealand other than covered bond holders, including holders of Notes issued by ANZNIL or ANZ Bank New Zealand, although ANZ Bank New Zealand (or its liquidator or statutory manager) may have a claim against the residual assets of the ANZNZ Covered Bond Trust (if any) after all prior ranking creditors of the ANZNZ Covered Bond Trust have been satisfied.

Investors who hold less than the minimum Specified Denomination may be unable to sell their Notes and may be adversely affected if definitive Notes are subsequently required to be issued

In relation to any issue of Notes which have denominations consisting of a minimum Specified Denomination plus one or more higher integral multiples of another smaller amount, it is possible that such Notes may be traded in amounts in excess of the minimum Specified Denomination that are not integral multiples of such minimum Specified Denomination. In such a case a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system would not be able to sell the remainder of such holding without first purchasing a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination. Further, a holder who, as a result of trading such amounts, holds an amount which is less than the minimum Specified Denomination in its account with the relevant clearing system at the relevant time may not receive a definitive Note in respect of such holding (should definitive Notes be printed) and would need to purchase a principal amount of Notes at or in excess of the minimum Specified Denomination such that its holding amounts to a Specified Denomination.

If such Notes in definitive form are issued, holders should be aware that definitive Notes which have a denomination that is not an integral multiple of the minimum Specified Denomination may be illiquid and difficult to trade.

Risks relating to the Issuers' and the Guarantor's businesses

Introduction

The ANZBGL Group's and the ANZ Bank New Zealand Group's activities are subject to risks and uncertainties that can materially and adversely impact its business, business model, operations, results of operations, reputation, prospects, liquidity, capital resources, financial performance and financial condition (together, the "ANZBGL Group's Position" or "ANZ Bank New Zealand Group's Position" (as applicable)).

These risks and uncertainties may be financial or non-financial and may result from external factors over which the ANZBGL Group may have little or no control. The risks and uncertainties described below are not the only ones that the ANZBGL Group may face. Additional risks and uncertainties that the ANZBGL Group is unaware of, or that the ANZBGL Group currently does not consider material, may also become important factors that affect it.

If any of the specified or unspecified risks and uncertainties actually occur (individually or collectively), the ANZBGL Group's Position may be materially and adversely affected, with the result that the trading price or value of the ANZBGL Group's equity or debt securities could decline and investors could lose all or part of their investment.

All references in this section to "securities" include the Notes.

Risks related to the Issuer's and the Guarantor's business activities and industry

Changes in political and economic conditions, particularly in Australia, New Zealand, the Asia Pacific region, the UK, Europe and the United States (the "Relevant Jurisdictions") may adversely affect the ANZBGL Group's Position

The ANZBGL Group's financial performance is influenced by the political, economic and financial conditions in the countries and regions in which the ANZBGL Group, its customers and its counterparties carry on business. The ANZBGL Group can give no assurances as to the likely future conditions in the economies of the Relevant Jurisdictions where the ANZBGL Group has its main operations, or other jurisdictions in which the ANZBGL Group operates or obtains funding.

The political, economic and financial conditions in the Relevant Jurisdictions may be impacted by a range of factors including, but not limited to, domestic and international economic events, the stability of the banking system and any related implications for funding and capital markets, other changes in financial markets, global supply chain developments, political developments, pandemics and natural disasters.

Instability in political conditions may result in uncertainty, declines in market liquidity, increases in volatility in global financial markets and adversely impact economic activity in the Relevant Jurisdictions, which could adversely affect the ANZBGL Group's Position. Recent examples include the conflict in Ukraine, the Israel-Hamas war and the associated implementation of economic security-related legislation, sanctions and trade restrictions in various markets, and heightened tensions between the United States and China.

Although the ANZBGL Group does not operate in and does not currently have any material direct exposure to Israel, Gaza, Russia or Ukraine, any prolonged market volatility or economic uncertainty could adversely affect the ANZBGL Group's Position. Tensions between the United States and China also have the potential to adversely impact the markets in which the ANZBGL Group operates and the ANZBGL Group's Position. These geopolitical issues have led to the implementation of economic security-related legislation and trade restrictions in many markets, including enhanced inbound and outbound investment screening mechanisms, anti-coercion instruments, sanctions, export controls and security-related industrial policy.

Inflationary pressure is high in many economies, including in the Relevant Jurisdictions. Excessively strong demand for goods and services, geopolitical tensions, and global economic challenges such as supply chain issues, weather conditions in agricultural regions, high energy prices, high food prices and

tight labour markets, have contributed to high inflation. The risk of persistently high inflation may exacerbate market volatility, further slow economic growth and increase unemployment, each of which may cause further declines in business and investor confidence and increase the risk of customer defaults, which could adversely affect the ANZBGL Group's Position.

China is one of Australia's and New Zealand's major trading partners and a significant driver of commodity demand and prices in many of the markets in which the ANZBGL Group and its customers operate. Any heightening of geopolitical tensions and the occurrence of events that adversely affect China's economic growth and Australia's and New Zealand's economic relationship with China, including the implementation of additional tariffs and other protectionist or economic security-related trade policies, including sanctions, could adversely affect Australian or New Zealand economic activity, and as a result, could adversely affect the ANZBGL Group's Position. Furthermore, if there was a broad-based and sustained economic slowdown in China, the health of the Chinese financial system may be adversely impacted, which could have negative effects on the global financial system and economy. This could result in an economic downturn, counterparties defaulting on their obligations, and countries introducing capital controls, and could adversely affect the ANZBGL Group's Position. Refer to risk factor "*Changes in the real estate markets in Australia, New Zealand or other markets where the ANZBGL Group does business may adversely affect the ANZBGL Group's Position*".

The stability of banking systems has come under scrutiny in recent times as a result of the failure of certain banking institutions in the United States and Europe. The risk of contagion from the failure of a bank or other financial institution could materially impact the ANZBGL Group's ability to replace maturing liabilities and access funding in a timely and cost effective manner, which could adversely affect the ANZBGL Group's Position. Refer to risk factor "*Liquidity and funding risk events may adversely affect the ANZBGL Group's Position*".

There has been a rise in investor caution across global commercial real estate markets as investors are reallocating to other investment classes or waiting for greater certainty with respect to inflation and interest rates, particularly as a result of weakening sentiment in the U.S. and Europe. A global liquidity constraint could compound the effects of weakening fundamentals on valuations and refinancing risk in commercial real estate markets. Changes in the real estate markets in Australia, New Zealand or other markets where the ANZBGL Group does business may adversely affect the ANZBGL Group's Position. Negative developments in commercial real estate markets could lead to increased credit losses from business insolvencies, increased financial stress and defaults from higher leveraged borrowers, which could adversely affect the ANZBGL Group's Position. Refer to risk factor "*Changes in the real estate markets in Australia, New Zealand or other markets where the ANZBGL Group does business may adversely affect the ANZBGL Group's Position*".

If economic conditions deteriorate in the Relevant Jurisdictions, asset values in housing, commercial or rural property markets could decline, unemployment could rise and corporate and personal incomes could decline. Deterioration in global markets, including equity, property, currency and other asset markets, may impact the ANZBGL Group's customers and the security the ANZBGL Group holds against loans and other credit exposures. This may impact the ANZBGL Group's ability to recover loans and other credit exposures. Should any of these occur, the ANZBGL Group's Position could be adversely affected. Refer to risk factor "*Credit risk may adversely affect the ANZBGL Group's Position*".

The COVID-19 pandemic and future pandemics may adversely affect the ANZBGL Group's Position

The effects of the COVID-19 pandemic continue to impact the ANZBGL Group's Position, and the domestic and global economy. The future impacts of the COVID-19 pandemic remain uncertain. Further variants may develop that impact the ANZBGL Group's customers and businesses and could lead to government having to take action which could adversely impact the ANZBGL Group's Position. COVID-19 related supply chain disruption and mobility constraints could result in a decline in the ANZBGL Group's profit margins, and could impact customers' cash flows, capital, liquidity and financing needs.

Substantially reduced global economic activity during the COVID-19 pandemic caused substantial volatility in global financial markets. This is expected to continue to have a significant impact on the Relevant Jurisdictions. Customers enduring hardship may suffer detriment if the ANZBGL Group cannot provide tailored support and sustainable arrangements based on individual circumstances.

Political and economic conditions following the COVID-19 pandemic or other pandemics may cause a reduction in demand for the ANZBGL Group's products and services, an increase in loan and other credit defaults, bad debts, and impairments and an increase in the cost of the ANZBGL Group's operations. If any of these occur, the ANZBGL Group's Position could be adversely affected.

Competition in the markets in which the ANZBGL Group operates may adversely affect the ANZBGL Group's Position

The markets in which the ANZBGL Group operates are highly competitive. Competition is expected to continue to increase. Competitors include non-Australian financial service providers who expand in Australia or New Zealand, new non-bank entrants and smaller providers.

Examples of factors that may affect competition and negatively impact the ANZBGL Group's Position include:

- entities that the ANZBGL Group competes with, including those outside of Australia and New Zealand, could be subject to lower levels of regulation and regulatory activity. This could allow them to offer more competitive products and services, because those lower levels of regulation may give them a lower cost base and/or the ability to attract employees that the ANZBGL Group would otherwise seek to employ;
- digital technologies and business models are changing customer behaviour and the competitive environment. Competitors are increasingly utilising new technologies including artificial intelligence ("AI") and disrupting existing business models in the financial services sector;
- companies from outside of the financial services sector are directly competing with the ANZBGL Group by offering products and services traditionally provided by banks. This includes new entrants obtaining banking licenses and partnering with existing competitors;
- consumers and businesses may choose to transact using, or to invest or store value in, new forms of currency (such as cryptocurrencies or central bank digital currencies) in relation to which the ANZBGL Group may choose not, or may not be able to provide financial services competitively. A new form of currency could change how financial intermediation and markets operate and, with that, may adversely impact the competitive and commercial position of the ANZBGL Group;
- Open Banking (as described below) may lead to increased competition (see risk factor "*Regulatory changes or a failure to comply with laws, regulations or policies may adversely affect the ANZBGL Group's Position*"); and
- the Australian and New Zealand Governments may consider implementing policies that further increase competition in the banking market. Recent examples include the Australian Parliament's inquiry into economic dynamism, competition and business formation and the Australian Competition and Consumer Commission's (the "ACCC") inquiry into the market for the supply of retail deposit products. The Australian Government has also recently commenced a review of its competition laws and institutions. In New Zealand, the Commerce Commission has also recently commenced a market study into any factors that may affect competition for the supply or acquisition of personal banking services. Whilst these inquiries and reviews may result in the implementation of policies that increase competition in the banking market, the exact impact of inquiries and reviews on the ANZBGL Group remains unclear.

The impact on the ANZBGL Group of an increase in competitive market conditions or a technological change that puts the ANZBGL Group's business platforms at a competitive disadvantage, especially in the ANZBGL Group's main markets and products, could lead to a material reduction in the ANZBGL Group's market share, customers and margins and adversely affect the ANZBGL Group's Position.

Increased competition for deposits may increase the ANZBGL Group's cost of funding. If the ANZBGL Group is not able to successfully compete for deposits, the ANZBGL Group may be forced to rely on

less stable and/or more expensive forms of funding, or to reduce lending. This may adversely affect the ANZBGL Group's Position.

Geopolitical and economic disruptions could have a significant impact on competition and profitability in the financial services sector due to funding cost and credit provision increases, changes in interest rates, insufficient liquidity, implementation of business continuity plans, changes to business strategies and regulatory safe harbours. A low-growth environment may lead to heightened competitive intensity and margin compression, particularly amongst traditional competitors with strong business models.

The Restructure of the ANZBGL Group that established a non-operating holding company may adversely affect the ANZBGL Group's Position

The ANZBGL Group implemented a restructure (the "**Restructure**") that resulted in ANZGHL becoming the new listed parent company of the ANZBGL Group in place of ANZBGL in 2023. ANZGHL is a non-operating holding company ("**NOHC**") and is authorised as such for the purposes of the Banking Act 1959 (Cth) (the "**Australian Banking Act**"). APRA's prudential framework for NOHCs is expected to become effective from 2025, following a period of industry consultation. There is a risk that APRA's final regulatory framework for NOHCs of ADIs and the regulation of ANZGHL over time will differ from the existing regulatory framework and increase the regulatory risk of the ANZBGL Group. This may have negative consequences for the ANZBGL Group and require further changes to be made to its structure. The post Restructure operating model may fail to function as expected and/or may fail to realise the anticipated benefits and further changes may therefore be required to the ANZBGL Group structure. To the extent this occurs, this may adversely affect the ANZBGL Group's Position.

Changes in the real estate markets in Australia, New Zealand or other markets where the ANZBGL Group does business may adversely affect the ANZBGL Group's Position

Residential and commercial property lending, together with real estate development and investment property finance, are important businesses of the ANZBGL Group. Major sub-segments within the ANZBGL Group's lending portfolio include:

- residential housing loans (owner occupier and investment); and
- commercial real estate loans (investment and development).

The scale and pace of interest rate rises have resulted in property prices declining in Australia and New Zealand since 2021. The extent of property price changes will ultimately depend on any further future interest rate rises or persistently high interest rates and the impact on the economy.

APRA included credit-based macroprudential policy measures within its Prudential Standard APS 220 Credit Risk Management (the "**APS 220**") with effect from 1 January 2023. These may be used by APRA to address systemic risks if needed. Future changes to these measures by APRA could restrict the ANZBGL Group's flexibility and impact the profitability of one or more businesses (refer to risk factor "*Regulatory changes or a failure to comply with laws, regulations or policies may adversely affect the ANZBGL Group's Position.*")

In New Zealand, median prices for residential property peaked in November 2021, before declining in the 2022 calendar year and early 2023. Higher interest rates and rising costs of living have put pressure on household balance sheets and this has and is likely to continue to impact demand for residential and commercial property. These pressures are resulting in an increase in residential property related delinquencies in New Zealand, which, having been at low levels since COVID, have become more elevated over the year to September 2023.

Increases in interest rates may affect debt serviceability, increase loan defaults experienced by the ANZBGL Group's borrowers, place pressure on loan covenants and reduce demand for commercial and residential property and the ANZBGL Group's associated lending products in both Australia and New Zealand. To address the current high inflation levels, there may be further interest rate increases. Any future interest rate rises or persistently high interest rates could also lead to increased credit losses from business insolvencies, increased mortgage stress and defaults, a potential adverse impact on markets, and a potential downturn in the Australian and New Zealand economies. This may in turn impact the ability

of tenants to pay rent and in turn decrease the quality of real estate earnings of the ANZBGL Group's borrowers.

Recent interest rate increases, asset price inflation and yield compression, may cause declines in interest coverage ratios and asset values. Valuations are presently lagging market sentiment. The ANZBGL Group has been observing declining values for existing security and expects further declines in some segments in the next 12 months. Dated valuations benefit from a buffer created following asset price inflation until the middle of 2022. This may result in increased refinance risk and require equity contributions from borrowers towards debt reduction and/or a restructure of facilities. Secondary grade assets may be more susceptible to a decline in prices. This may be the case if investors have overlooked "fundamentals" in a highly competitive and liquid market (debt and equity). Refinance risk could be increased if there are liquidity constraints in the banking sector. The ANZBGL Group has observed some signs of change in sentiment in non-bank debt markets as investors re-balance portfolios and change expectations in the face of greater uncertainty and volatility. This has resulted in an increased cost of financing rather than reduction in liquidity and the non-bank debt market remains an available source of refinancing. Non-bank financiers have supported the pre-development land and property development sector in recent years, so the number of new project starts may decline given higher cost of funding or if non-bank financiers begin to withdraw support from weaker sponsors.

Construction risk, including contractor stability, supply chain constraints, the cost of materials and high labour costs may impact commercial and larger residential project (land and apartments) developments and land values in the short to medium term.

The COVID-19 pandemic has triggered a change in the demand and supply dynamics in the office sector as flexible working arrangements have become a trend, which may impact investor demand and yield expectations, given a more modest demand and rental growth outlook, particularly for secondary grade assets.

Institutional investor clients may see their real estate investment portfolios in various geographies diminish in value as a result of changes in the real estate market, which could potentially lead to a reduction in their willingness and/or ability to repay related loan facilities owed to the ANZBGL Group.

Separately, the general downturn and current reduced growth in the Chinese economy resulting from the slowdown of property development and downturn in the real estate market may result in future reduced demand for commodities (such as iron ore) resulting in a reduction in commodity prices and adversely impacting demand for some Australian and New Zealand exports. Additionally, a slowdown of Chinese output may result in disruption to supply chains across a range of industry segments including discretionary retail, wholesale, manufacturing, packaging, and automotive segments.

Each of the factors outlined above may adversely affect the ANZBGL Group's Position.

Sovereign risk events may destabilise global financial markets and may adversely affect the ANZBGL Group's Position

Sovereign risk is the risk that governments will default on their debt obligations, be unable to refinance their debts as and when they fall due, thereby destabilising parts of their economy. Sovereign risk may adversely impact the ANZBGL Group directly, through adversely impacting the value of the ANZBGL Group's assets, or indirectly through destabilising global financial markets, thereby adversely impacting the ANZBGL Group's Position. Sovereign risk exists in many economies, including the Relevant Jurisdictions. If a sovereign defaults, it could impact other markets and countries, the consequences of which may be similar to or worse than those experienced during the global financial crisis and subsequent sovereign debt crises.

Market risk events may adversely affect the ANZBGL Group's Position

Market risk is the risk of loss arising from adverse changes in interest rates, currency exchange rates, credit spreads, or from fluctuations in bond, commodity or equity prices. For purposes of financial risk management, the ANZBGL Group differentiates between traded and non-traded market risks. Traded market risks principally arise from the ANZBGL Group's trading operations in interest rates, foreign exchange, commodities and securities. The non-traded market risk is predominantly interest rate risk in

the banking book. Other non-traded market risks include transactional and structural foreign exchange risk arising from capital investments in offshore operations and non-traded equity risk. Losses arising from the occurrence of such market risk events may adversely affect the ANZBGL Group's Position.

Changes in exchange rates may adversely affect the ANZBGL Group's Position

The ANZBGL Group conducts business in several different currencies. Accordingly, its businesses may be affected by movements in currency exchange rates. The ANZBGL Group's annual and interim reports are prepared and stated in Australian dollars. Any change in the value of the Australian dollar against other currencies in which the ANZBGL Group earns revenues (particularly the New Zealand dollar and the U.S. dollar) or holds capital, may adversely affect the ANZBGL Group's reported earnings and capital ratios. The ANZBGL Group currently hedges to partially mitigate the impact of currency changes. There is no assurance that the ANZBGL Group's hedges will be sufficient or effective, and any change in the value of the Australian dollar against other currencies in which the ANZBGL Group earns its revenue, or holds capital, may have an adverse impact on the ANZBGL Group's Position.

Acquisitions and divestments may adversely affect the ANZBGL Group's Position

The ANZBGL Group regularly examines a range of corporate opportunities, including acquisitions and divestments, to determine whether those opportunities will enhance the ANZBGL Group's strategic position and financial performance. Integration (or separation) of an acquired (or divested) business can be complex and costly. It sometimes includes combining (or separating) accounting and data processing systems, technology platforms and management controls, as well as managing relationships and contracts with employees, customers, regulators, counterparties, suppliers and other business partners. The loss of key relationships and personnel from an acquisition or divestment could have an adverse effect on the ANZBGL Group's Position.

There is no assurance that any acquisition (or divestment) will have the anticipated positive results around synergies, cost or cost savings, time to integrate (or separate) and overall performance, as the underlying assumptions for the acquisition (or divestment) may not prove to be accurate or achievable. Any acquisition (or divestment) may also impact the ANZBGL Group's credit ratings, cost of funds and access to further funding, which could in turn adversely affect the ANZBGL Group's funding and liquidity positions.

Integration (or separation) efforts could create inconsistencies in standards, controls, procedures and policies, as well as diverting management attention and resources. There is a risk of counterparties making claims in respect of completed or uncompleted transactions against the ANZBGL Group that could adversely affect the ANZBGL Group's Position. All or any of these factors could adversely affect the ANZBGL Group's ability to conduct its business successfully and impact the ANZBGL Group's operations or results. There is no assurance that employees, customers, counterparties, suppliers and other business partners of newly acquired (or retained) businesses will remain post-acquisition (or post-divestment). Further, there is a risk that completion of an agreed transaction may not occur whether in the form originally agreed between the parties or at all, including due to failure of the ANZBGL Group or the counterparty to satisfy completion conditions or because other completion conditions such as regulatory, shareholder or other approvals are not satisfied. Should any of these integration or separation risks occur, this could adversely affect the ANZBGL Group's Position.

Transactions that the ANZBGL Group has announced but not completed include an agreement with Suncorp Group Limited ("**SGL**") to purchase 100% of the shares in SBGH Limited, the immediate non-operating holding company of Suncorp Bank. The ACCC declined to grant authorisation for this acquisition in August 2023, but this decision is currently subject to review by the Australian Competition Tribunal. This acquisition is subject to the satisfaction of certain conditions, including those described below and assuming those conditions are satisfied, and merger approval is granted, it is expected to occur in mid calendar year 2024.

The acquisition of Suncorp Bank from SGL is subject to satisfaction of certain conditions. These include Federal Treasurer approval, ACCC authorisation or approval (see above) and certain amendments to the Queensland State Financial Institutions and Metway Merger Act 1996 (Qld). ANZBGL will also have a termination right under the Suncorp Bank Sale Agreement if APRA issues a written communication to ANZBGL under or in connection with APS 222 (Associations with Related Entities) to the effect that

ANZBGL must not proceed with completion of the acquisition. The terms and conditions of the approvals that are granted may impose conditions, limitations, obligations or costs, or place restrictions on the conduct of the ANZBGL Group or its business following the acquisition or require changes to the terms of the transaction. There can be no assurance that the regulators will not impose any such conditions, obligations or restrictions, and that such conditions, limitations, obligations or restrictions will not have the effect of delaying or preventing completion of the transaction, imposing additional material costs on or materially limiting the revenues of the ANZBGL Group following the acquisition or otherwise reducing the anticipated benefits of the acquisition to the ANZBGL Group, any of which might have an adverse effect on the ANZBGL Group.

ANZBGL undertook a due diligence process in relation to the proposed acquisition of Suncorp Bank which relied in part on a review of financial, technology, legal and other information provided in respect of Suncorp Bank or was otherwise provided at meetings with Suncorp Bank management. Despite making reasonable efforts as part of the due diligence investigations, ANZBGL has not been able to verify the accuracy, reliability or completeness of all the information provided to it. If any information provided or relied upon by ANZBGL in its due diligence proves to be incorrect, incomplete or misleading, there is a risk that the actual financial position and performance of Suncorp Bank may be different to the expectations. There is also no assurance that the due diligence conducted was conclusive, and that all material issues and risks in respect of the proposed acquisition have been identified and avoided or mitigated, therefore, there is a risk that issues or risks may arise that may adversely impact the ANZBGL Group. SGL has provided ANZBGL with certain indemnities relating to certain pre-completion matters as well as certain representations and warranties in favour of ANZBGL. There is a risk that these protections may be insufficient to cover liabilities relating to these matters, which may have an adverse impact on the ANZBGL Group's financial performance and position. As is usual, the warranties and indemnities are also subject to certain financial claims thresholds and other limitations.

If for any reason any announced acquisition or divestment, including the acquisition of Suncorp Bank, is not completed, the ANZBGL Group's ongoing business may be adversely impacted and the ANZBGL Group may be subject to a number of risks. These risks include:

- financial markets may react negatively, resulting in negative impacts on the ANZBGL Group's securities and other adverse impacts;
- the ANZBGL Group may experience negative reactions from its customers, vendors, and employees;
- the ANZBGL Group will have incurred expenses and will be required to pay certain costs relating to the acquisition, whether or not the acquisition is completed, such as legal, accounting, investment banking, and other professional and administrative fees; and
- matters relating to the acquisition may require substantial commitments of time and resources by the ANZBGL Group's management, which could otherwise have been devoted to other opportunities that may have benefited the ANZBGL Group.

Risks related to the Issuers' and the Guarantor's financial situation

Credit risk may adversely affect the ANZBGL Group's Position

As a financial institution, the ANZBGL Group is exposed to the risks resulting from or associated with extending credit, including incurring credit-related losses that can occur as a result of a counterparty being unable or unwilling to honour its contractual obligations. Credit losses can and have resulted in financial services organisations realising significant losses and, in some cases, failing.

The risk of credit-related losses continues to be impacted by conditions relating to increased interest rates, high inflation, global supply chain disruptions and heightened political tensions, particularly those referred to in risk factor "*Changes in political and economic conditions, particularly in Australia, New Zealand, the Asia Pacific region, the UK, Europe and the U.S. (the "Relevant Jurisdictions")*", may adversely affect the ANZBGL Group's Position". The risk of credit-related losses has increased due to the factors described above and may further increase as a result of less favourable conditions, whether generally or in a specific industry sector or geographic region which could cause customers or

counterparties to fail to meet their obligations. These conditions include but are not limited to, weakened confidence in the stability of the banking system generally or particular financial institutions that may impact the ANZBGL Group, its customers or counterparties, a sustained high level of unemployment, continued increase in interest rates and inflationary conditions, and a reduction in the value of assets the ANZBGL Group holds as collateral or the market value of the counterparty instruments and obligations it holds.

Some of the ANZBGL Group's customers and counterparties with exposures to these sectors may be vulnerable:

- industries exposed to the unwinding of government stimulus packages and increasing interest rates;
- industries reliant on consumer discretionary spending;
- industries that are exposed to fuel supply shortages and rising costs including aviation, road transport, shipping and agriculture, particularly given the Ukraine conflict and its impact on oil and gas prices, production and supply;
- participants in energy or commodity markets that are exposed to rising margin requirements under derivatives that arise due to price volatility;
- industries at risk of sanctions, geopolitical tensions or trade disputes (these include technology, agriculture, communications and financial institutions);
- industries exposed to declining global growth and disruption to global supply chains. These include but are not limited to the retail, wholesale, automotive, manufacturing and packaging industries;
- the commercial property sector (including construction and contractors) which is exposed to rising interest rates impacting serviceability and downward pressure on valuations, particularly in the office sector given occupancy levels that have not returned to pre-COVID-19 levels and in the retail sector given an expectation for a reduction in discretionary household spending resulting in a reduction in base rental, turnover rental and rental growth expectations. In some markets, commercial contractors and sub-contractors may face cash flow and liquidity issues over the next 12 to 24 months as current projects run off and the volume of forward looking projects are diminished. Whilst supply chain constraints and building material cost increases have somewhat stabilised, labour availability and mobility issues have increased given competing demand from Australian Government infrastructure projects in major capital cities;
- industries facing labour supply shortages and who are reliant on access to both skilled and unskilled migrant workers, including tourism and hospitality, technology, agriculture, retail, health, construction and services;
- customers and industries exposed to disruption from physical climate risk (e.g. bushfires, floods, storms and drought) and transition risk (e.g. industry exposed to carbon reduction requirements and resulting changes in demand for goods and services or liquidity). For more information on climate-related risks, see risk factor "*Impact of future climate events, biodiversity loss, human rights, geological events, plant, animal and human diseases, and other extrinsic events may adversely affect the ANZBGL Group's Position*";
- industries exposed to the volatility in exchange rates and foreign exchange markets generally; and
- banks and financial services companies, as they may experience pressure on liquidity due to impacts of rapidly rising interest rates and the flow on impacts to asset values, which could result in the deterioration of credit ratings, the need for restructuring and recapitalisation, losses of confidence in financial institutions or a financial default.

The ANZBGL Group is also subject to the risk that its rights against third parties may not be enforceable in certain circumstances, which may result in credit losses. Should material credit losses occur to the ANZBGL Group's credit exposures, this may adversely affect the ANZBGL Group's Position.

Credit risk may also arise from certain derivative, clearing and settlement contracts that the ANZBGL Group enters into, and from the ANZBGL Group's dealings with, and holdings of, debt securities issued by other banks, financial institutions, companies, governments and government bodies where the financial conditions of such entities are affected by economic conditions in global financial markets.

In assessing whether to extend credit or enter into other transactions with customers and counterparties, the ANZBGL Group relies on information provided by or on behalf of customers and counterparties, including financial statements and other financial information. The ANZBGL Group may also rely on representations of customers and independent consultants as to the accuracy and completeness of that information. The ANZBGL Group's financial performance could be negatively impacted to the extent that it relies on information that is incomplete, inaccurate or materially misleading.

The ANZBGL Group holds provisions for credit impairment that are determined based on current information and subjective and complex judgements of the impairment within the ANZBGL Group's lending portfolio. If the information upon which the assessment is made is inaccurate or the ANZBGL Group fails to analyse the information correctly, the provisions made for credit impairment may be insufficient, which may adversely affect the ANZBGL Group's Position.

Challenges in managing the ANZBGL Group's and ANZ Bank New Zealand Group's capital base could give rise to greater volatility in capital ratios, which may adversely affect the ANZBGL Group's Position or ANZ Bank New Zealand Group's Position

The ANZBGL Group's and ANZ Bank New Zealand Group's capital base is critical to the management of its businesses and access to funding. Prudential regulators of the ANZBGL Group include, but are not limited to, APRA, the RBNZ and regulators in the United States, the UK and the countries in the Asia Pacific region. The ANZBGL Group is required to maintain adequate regulatory capital by its primary regulator APRA and the RBNZ for the ANZ Bank New Zealand Group.

Under current regulatory requirements, risk-weighted assets and expected loan losses increase as a counterparty's risk grade worsens. These regulatory capital requirements are likely to compound the impact of any reduction in capital resulting from lower profits in times of stress. As a result, greater volatility in capital ratios may arise and may require the ANZBGL Group and ANZ Bank New Zealand Group's to raise additional capital. There is no certainty that any additional capital required would be available or could be raised on reasonable terms.

The ANZBGL Group's and/or ANZ Bank New Zealand Group's capital ratios may be affected by a number of factors including (i) lower earnings (including lower dividends from its deconsolidated subsidiaries such as those in the insurance business as well as from its investment in associates), (ii) asset growth, (iii) changes in the value of the Australian dollar against other currencies in which the ANZBGL Group operates (particularly the New Zealand dollar and U.S. dollar) that impact risk weighted assets or the foreign currency translation reserve, (iv) changes in business strategy (including acquisitions, divestments and investments or an increase in capital intensive businesses) and (v) changes in regulatory requirements. APRA issued a discussion paper in September 2023 to explore options for, and seek feedback from stakeholders on, improving the effectiveness of Additional Tier 1 Capital in Australia. APRA has indicated that it intends to discuss its paper with relevant stakeholders and may formally consult in 2024 on any proposed amendments to prudential standards. At this stage, it is not possible to confirm what impact (if any) the options proposed by APRA may have on the ANZBGL Group.

APRA and the RBNZ have implemented prudential standards to accommodate Basel III. Certain other regulators have either implemented or are in the process of implementing regulations, including Basel III, that seek to strengthen, among other things, the liquidity and capital requirements of banks, funds management entities and insurance entities, though there is no assurance that these regulations have had or will have their intended effect. The recent collapse of certain financial institutions in the United States and Europe may raise the likelihood of changes to capital and other regulatory requirements applicable to the ANZBGL Group and ANZ Bank New Zealand Group, which may impact the ANZBGL Group's Position and ANZ Bank New Zealand Group's Position. For more information on recent prudential

regulation changes that have impacted, or that may impact the ANZBGL Group, see risk factor "*Regulatory changes or a failure to comply with laws, regulations or policies may adversely affect the ANZBGL Group's Position*". An inability of the ANZBGL Group or ANZ Bank New Zealand Group to maintain its regulatory capital may adversely affect the ANZBGL Group's Position or ANZ Bank New Zealand Group's Position.

The ANZBGL Group's credit ratings could change and adversely affect the ANZBGL Group's ability to raise capital and wholesale funding and constrain the volume of new lending, which may adversely affect the ANZBGL Group's Position

The ANZBGL Group's credit ratings have a significant impact on its access to, and cost of, capital and wholesale funding. The ANZBGL Group's credit ratings may also be important to customers or counterparties evaluating the ANZBGL Group's products and services. Credit ratings and rating outlooks may be withdrawn, qualified, revised or suspended by credit rating agencies at any time. The methodologies used by ratings agencies to determine credit ratings and rating outlooks may be revised in response to legal or regulatory changes, market developments or for any other reason.

The ANZBGL Group's credit ratings or rating outlooks could be negatively affected by a change in the credit ratings or rating outlooks of the Commonwealth of Australia or New Zealand, the occurrence of one or more of the other risks identified in this Base Prospectus, a change in ratings methodologies or by other events or factors, including volatility in the banking sector. As a result, downgrades in the ANZBGL Group's credit ratings or rating outlooks could occur that do not reflect changes in the general economic conditions or the ANZBGL Group's financial condition. The ratings of individual securities (including, but not limited to, certain Tier 1 capital and Tier 2 capital securities and covered bonds) issued by the ANZBGL Group (and other banks globally) could be impacted by changes in the regulatory requirements for those instruments as well as the ratings methodologies used by rating agencies.

Any downgrade or potential downgrade to the ANZBGL Group's credit ratings or rating outlooks may reduce access to capital and wholesale debt markets and could lead to an increase in funding costs, constrain the volume of new lending and affect the willingness of counterparties to transact with the ANZBGL Group which may adversely affect the ANZBGL Group's Position. Credit ratings are not a recommendation by the relevant rating agency to invest in securities offered by the ANZBGL Group.

Liquidity and funding risk events may adversely affect the ANZBGL Group's Position

Liquidity and funding risk is the risk that the ANZBGL Group is unable to meet its payment obligations as they fall due (including repaying depositors and wholesale creditors) or that the ANZBGL Group has insufficient capacity to fund increases in assets. Liquidity and funding risk is inherent in banking operations due to the timing mismatch between cash inflows and cash outflows.

Reduced liquidity could lead to an increase in the cost of the ANZBGL Group's borrowings and constrain the volume of new lending which may adversely affect the ANZBGL Group's Position.

Deterioration and volatility in market conditions and a decline in investor confidence in the ANZBGL Group may materially impact the ANZBGL Group's ability to replace maturing liabilities and access funding in a timely and cost effective manner, which may adversely impact the ANZBGL Group's Position. Advances in technology allow customers to withdraw funds deposited with the ANZBGL Group faster and may accelerate the risks associated with on-demand liabilities, such as transactional and savings deposits.

The ANZBGL Group raises funding from a variety of sources, including customer deposits and wholesale funding in domestic and offshore markets to meet its funding requirements and to maintain or grow its business. Developments in major markets can adversely affect liquidity in global capital markets. For example, in times of liquidity stress, if there is damage to market confidence in the ANZBGL Group or if funding inside or outside of domestic markets is not available or constrained, the ANZBGL Group's ability to access sources of funding and liquidity may be constrained and the ANZBGL Group will be exposed to liquidity and funding risk.

Changes in the valuation of some of the ANZBGL Group's assets and liabilities may adversely affect the ANZBGL Group's earnings and equity and the ANZBGL Group's Position

The ANZBGL Group applies accounting standards, which require that various financial instruments, including derivative instruments, assets and liabilities classified as fair value through other comprehensive income, assets and liabilities classified as fair value through profit or loss, and certain other assets and liabilities (as per Note 18 of the ANZBGL 2023 Audited Financial Statements (which are incorporated by reference into this Base Prospectus)) are measured at fair value with changes in fair value recognised in earnings or equity.

Generally, to measure the fair value of these instruments, the ANZBGL Group relies on quoted market prices, present value estimates or other valuation techniques that incorporate the impact of factors that a market participant would take into account when pricing the asset or liability. Certain other assets, including some unlisted equity investments, are valued using discounted cash flow techniques. The fair value of these instruments is impacted by changes in market prices or valuation inputs that may adversely affect the ANZBGL Group's earnings and/or equity.

The ANZBGL Group may be exposed to a reduction in the value of non-lending related assets as a result of impairments that are recognised in earnings. The ANZBGL Group must test at least annually the recoverability of goodwill balances and intangible assets with indefinite useful lives or not available for use and other non-lending related assets including premises and equipment (including right-of-use assets arising from leases), investment in associates, capitalised software and other intangible assets where there are indicators of impairment.

To assess the recoverability of goodwill balances, the ANZBGL Group uses a multiple of earnings calculation. Changes in the assumptions upon which the calculation is based, together with changes in earnings, may materially impact this assessment, resulting in the potential write-off of a part or all of goodwill balances.

In respect of other non-lending related assets, if an asset is no longer in use, or the cash flows generated by the asset do not support the carrying value, impairment charges may be recorded. This, in conjunction with the other potential changes above, could impact the ANZBGL Group's Position.

Changes to accounting policies may adversely affect the ANZBGL Group's Position

The accounting policies that the ANZBGL Group applies are fundamental to how it records and reports its financial position and results of operations. Management exercises judgement in selecting and applying many of these accounting policies. This is so that the ANZBGL Group complies with the applicable accounting standards or interpretations and reflects the most appropriate manner in which to record and report on the ANZBGL Group's financial position and results of operations. These accounting policies may be applied inaccurately, resulting in a misstatement of the ANZBGL Group's financial position. The application of new or revised accounting standards or interpretations may also adversely affect the ANZBGL Group's Position. The ANZBGL Group discloses the impact of new accounting standards that are effective for the first time in any reporting period, in the notes to the consolidated financial statements for that period. In some cases, management must select an accounting policy from two or more alternatives, any of which would comply with the relevant accounting standard or interpretation and be reasonable under the circumstances, yet might result in reporting materially different outcomes than would have been reported under the alternative.

Legal and regulatory risk

Regulatory changes or a failure to comply with laws, regulations or policies may adversely affect the ANZBGL Group's Position

The ANZBGL Group's businesses and operations are highly regulated. The ANZBGL Group is subject to laws, regulations and policies, including industry self-regulation in the Relevant Jurisdictions (the "**Regulations**"). Regulations continue to change and generally increase in scope, scale, complexity, cost and speed of required compliance (the "**Regulatory Change**"). A failure by the ANZBGL Group to

comply with Regulations or manage Regulatory Change could result in regulatory investigations, legal or regulatory sanctions, financial or reputational loss, litigation, fines, penalties, restrictions on the ANZBGL Group's ability to do business, revocation, suspension or variation of conditions of regulatory licences or other enforcement or administrative action or agreements (such as enforceable undertakings) any of which may adversely affect the ANZBGL Group's Position. Such failures may also result in the ANZBGL Group being exposed to the risk of litigation brought by third parties (including through class action proceedings). The outcome of any litigation (including class action proceedings) may result in the payment of compensation to third parties and further remediation activities. For information in relation to the ANZBGL Group's litigation and contingent liabilities, see risk factor "*Litigation and contingent liabilities may adversely affect the ANZBGL Group's Position*" and Note 32 of the ANZBGL 2023 Audited Financial Statements.

Regulations can also affect the operating environment of, and impose significant compliance costs on, the ANZBGL Group. Changes to the ANZBGL Group's operating environment and the Regulations to which the ANZBGL Group is subject to may affect the profitability of the ANZBGL Group, change the level of competition that the ANZBGL Group faces or impact the ability of the ANZBGL Group to conduct one or more elements of its business. Increases in compliance costs could also decrease profitability and divert resources away from other priorities of the ANZBGL Group, thereby impacting the ANZBGL Group's ability to innovate and compete.

Prudential regulation

Prudential regulation is a type of Regulation and is subject to Regulatory Change. Developments in APRA and RBNZ prudential regulation may materially impact the ANZBGL Group and ANZ Bank New Zealand Group (as applicable). There are typically a number of prudential regulatory proposals open for consultation with APRA and the RBNZ at any time. Changes to prudential regulation can increase the level of regulatory capital that the ANZBGL Group is required to maintain, restrict the ANZBGL Group's flexibility, require it to incur substantial costs and impact the profitability of one or more business lines, any of which may adversely affect the ANZBGL Group's Position.

Recent prudential regulation changes that have impacted, or that may impact the ANZBGL Group, include:

- Market risk and counterparty credit risk: APRA is consulting on revisions to prudential standards and guidance relating to market risk, being Interest Rate Risk in the Banking Book ("**IRRBB**"), Market Risk and Counterparty Credit Risk.
- Unquestionably strong capital framework: APRA implemented its final requirements in relation to capital adequacy and credit risk for ADIs on 1 January 2023. However, APRA continues to consult and finalise revisions to a number of remaining prudential standards, being IRRBB, Market Risk and Counterparty Credit Risk. Given the number of items that are yet to be finalised by APRA, the aggregate outcome from all changes to APRA's prudential standards relating to their review of ADIs 'unquestionably strong' capital framework remains uncertain.
- Macroprudential policy framework: APRA finalised its macroprudential policy framework in June 2022. To support the implementation of the framework, APRA formalised and embedded credit-based macroprudential policy measures within its prudential standards, within a new attachment to APS 220. APRA's objective is to strengthen the transparency, implementation and enforceability of macroprudential policy. The updates to APS 220 which became effective from 1 January 2023 included a set of credit-based macroprudential measures to be used to address systemic risks if needed. The updates to APS 220 include two main types of credit-based macroprudential measures: (i) lending limits (the purpose of temporary lending limits would be to moderate any excessive growth in higher-risk lending during periods of heightened systemic risks) and (ii) lending standards, where APRA may also set minimum requirements for lending standards, including measures such as the serviceability buffer for residential mortgages. APRA confirmed the current settings of (i) for lending limits, no limit restrictions in place on higher-risk lending but APRA continues to monitor higher risk lending at outlier banks for commercial property lending and (ii) for

lending standards, the serviceability buffer is maintained at 3.0 per cent. above the loan rate. Future changes to these settings could restrict the ANZBGL Group's flexibility and impact the profitability of one or more business lines. For further information, see risk factor "*Changes in the real estate markets in Australia, New Zealand or other markets where the ANZBGL Group does business may adversely affect the ANZBGL Group's Position*".

- Operational risk management: APRA finalised prudential standard CPS 230 Operational Risk Management (the "**CPS 230**") in July 2023, which sets out minimum standards for managing operational risk, including updated requirements for business continuity planning and service provider risk management. The new standard incorporates updated requirements for service provider management (currently outsourcing) and business continuity management that are currently contained in prudential standards CPS 231 Outsourcing and CPS 232 Business Continuity Management. The effective date of compliance moved from 1 January 2024 to 1 July 2025. APRA will provide for transitional arrangements for pre-existing contractual arrangements with service providers. The requirements in the standard will apply from the earlier of the next contract renewal date or 1 July 2026. A project team has been formed and the ANZBGL Group will continue to work through the implementation process which is complex, and requires changes to systems, operations, and contractual arrangements with third parties.
- Recovery and exit planning: APRA finalised Prudential Standard CPS 190 Recovery and Exit Planning (the "**CPS 190**") in December 2022. CPS 190 is aimed at reinforcing the resilience of the financial system. It is designed to ensure that APRA regulated entities are better prepared to manage periods of severe financial stress. Under CPS 190, entities will be required to develop and maintain credible plans for managing periods of severe financial stress, including actions that could be taken to stabilise and restore financial resilience and actions that effect an orderly and solvent exit from regulated activity. These requirements will apply across all APRA regulated industries. CPS 190 will come into effect from 1 January 2024 for banks and insurers.
- Resolution planning: APRA finalised Prudential Standard CPS 900 Resolution Planning (the "**CPS 900**") in May 2023. CPS 900 requires entities that are significant financial institutions or those that provide critical functions, to support APRA in the development and implementation of a resolution plan so the entity can be managed by APRA in an orderly manner where the entity is unable to, or is likely to be unable to, meet its obligations or suspends, or is likely to suspend, payments. CPS 900 sets out certain requirements for entities to cooperate with APRA in resolution planning. Under CPS 900, APRA will develop a resolution plan, which sets out APRA's strategy for resolving an entity in the event of its failure. This could include, for example, plans to recapitalise, wind-down or transfer operations. It is an important complement to a financial contingency plan, which sets out an entity's plan for managing risks to its financial viability. The standard will come into effect on 1 January 2024.
- ADI capital framework: APRA issued a discussion paper in September 2023 to explore options for, and seek feedback from stakeholders on, improving the effectiveness of Additional Tier 1 Capital in Australia. APRA has indicated that it intends to discuss its paper with relevant stakeholders and may formally consult in 2024 on any proposed amendments to prudential standards. At this stage, it is not possible to confirm what impact (if any) the options proposed by APRA may have on the ANZBGL Group.
- Loss absorbing capacity: APRA announced its decision on loss-absorbing capacity requiring Australian domestic systemically important banks ("**D-SIBs**") in July 2019, including ANZBGL, to increase their Total Capital by 3 per cent. of risk weighted assets ("**RWA**") by January 2024. On 2 December 2021, APRA announced that it had finalised its loss-absorbing capacity requirements and stated that it will require Australian D-SIBs to increase their Total Capital by a further 1.5 per cent. of RWA by January 2026. Inclusive of the previously announced interim increase of 3 per cent., this will result in a total increase to the minimum Total Capital requirement of 4.5 per cent. of RWA. APRA expects the requirement to be satisfied predominantly with additional Tier 2 capital with an equivalent

decrease in other senior funding. The amount of the additional Total Capital requirement will be based on the ANZBGL Group's actual RWA as at January 2026.

- RBNZ revisions to capital adequacy: The RBNZ's revised capital adequacy requirements for New Zealand banks, which are set out in the Banking Prudential Requirements (the "**BPR**") documents are being implemented in stages during a transition period from October 2021 to July 2028. The net impact on ANZBGL's Level 1 CET1 capital is expected to be an increase in capital requirements of approximately A\$1 billion to A\$1.5 billion between 30 September 2023 and the end of the transition period in 2028 (based on the ANZBGL Group's 30 September 2023 balance sheet). The amount could also vary over time subject to changes to the capital position in ANZ Bank New Zealand (e.g. from RWA growth, management buffer requirements, potential dividend payments).
- NZ contingent capital instruments: ANZ Bank New Zealand's contingent capital instruments will no longer be treated as eligible regulatory capital. The contingent capital Additional Tier 1 instruments ("**Contingent AT1 Instruments**") will progressively lose eligible regulatory capital treatment over the transition period to 1 July 2028. The maximum eligible regulatory capital value of Contingent AT1 Instruments is the total outstanding value at 30 September 2021 ("**Contingent AT1 Base**") reduced by 12.5% of the Contingent AT1 Base on 1 January of each year from 2022 to 2028, with no Contingent AT1 Instruments eligible from 1 July 2028.

ASIC regulation

The ASIC's current enforcement priorities focus on the need to reduce the risk of financial harm to consumers and uphold the integrity of Australia's financial markets. Specifically, ASIC has identified the following priority areas: enforcement action targeting poor design, distribution and marketing of financial products; misleading conduct in relation to sustainable finance including greenwashing and climate-related financial disclosures; misconduct involving high risk retail products including Contracts For Difference ("**CFDs**") and crypto-assets; combating and disrupting investment scams and phishing websites; taking enforcement action where there are egregious failures to mitigate the risks of cyber-attacks and governance failures relating to cyber resilience; misleading and deceptive conduct relating to investment products; manipulation in energy and commodities derivatives markets; and unfair contract terms. A failure by the ANZBGL Group to comply with applicable laws may have a negative impact on consumers or market integrity, or the ANZBGL Group's reputation and financial performance and may give rise to litigation and regulatory enforcement proceedings, which may in turn, have an adverse impact on the ANZBGL Group's Position.

Competition regulation

Competition in the Australian and New Zealand financial services sectors continues to be an important driver for Regulation and Regulatory Change. On 14 February 2023 the Australian Treasurer directed the ACCC to conduct an inquiry into the market for retail deposit products supplied by ADIs. It includes how banks set interest rates, as well as other terms and conditions. On 21 April 2023, the ACCC published an issues paper for the inquiry. The ACCC must provide the Australian Treasurer with a report on the inquiry by 1 December 2023 (refer to risk factor "*Competition in the markets in which the ANZBGL Group operates may adversely affect the ANZBGL Group's Position*"). The ACCC announced its compliance and enforcement priorities for the year in March 2023. The ACCC announced that it will continue to focus on competition issues in the financial services sector, particularly with payment services and also noted its focus on promoting "healthy" competition in the financial services sector and investigating anti-competitive conduct. Increased scrutiny by ACCC may result in an associated increase in costs for the ANZBGL Group in addition to adversely impacting the ANZBGL Group's ability to grow through the implementation of potential acquisitions which may in turn, have a negative impact on the ANZBGL Group's Position.

The New Zealand Government directed the Commerce Commission to commence a market study into competition in the New Zealand retail banking sector in June 2023. The market study is focused on the nature of competition in personal banking services, particularly deposit accounts and home loans. The study is considering consumer behaviours and preferences, barriers to new competitors entering or

expanding in the personal banking market, barriers to new or innovative products and services, and barriers that limit a consumer's ability to switch banks. As part of the study, the Commerce Commission will examine bank profitability and other financial measures to assess competition in the sector. The study is focused on personal banking services such as home loans and deposit accounts (including current savings and overdraft facilities). The Commerce Commission released a preliminary issues paper on 10 August 2023, in which the Commerce Commission indicated that its initial view of the existing research was that New Zealand banks appeared more profitable than in comparable economies over the past decade, raising questions about the intensity of competition, including for personal banking services. The Commerce Commission is expected to issue its final report after the market study's completion in August 2024. Whilst it is currently uncertain what impact (if any) the market study will have on the ANZBGL Group's Position, any recommendations or policy initiatives adopted by the New Zealand Government as a result of this market study could have a material impact on the ANZBGL Group's profitability.

The Australian Government also announced a review of competition policy settings on 23 August 2023. Over two years, the review will look at competition laws, policies and institutions. The Australian Government has announced that the initial issues to be considered as part of the review include proposed changes to merger laws, as well as other competition law issues, non-compete and related clauses that restrict workers from changing employers and providing advice on competition issues raised by new technologies and the net zero transformation. The review will not issue a single report but will undertake rolling policy projects. It is uncertain what impact the review will have on the ANZBGL Group's Position. However, there is no guarantee that the proposed changes will not have a material effect or impact on the ANZBGL Group's Position.

Product regulation

There is a strong focus on the suitability of products offered by financial services providers, including the ANZBGL Group. Regulatory policy development and monitoring of responsible consumer lending has increased significantly and continues to impact business practices. If additional changes in Regulation are implemented, as a result of the development and monitoring of responsible consumer lending, such changes may impact the manner in which the ANZBGL Group provides consumer lending services in the future that may in some respects adversely affect the ANZBGL Group's operations in this area and consequently, the ANZBGL Group's Position. ASIC published updated regulatory guidance on responsible lending laws in December 2019. The Australian Financial Complaints Authority ("**AFCA**") is consulting on its approach to assessing compliance by lenders, such as the ANZBGL Group, with both consumer and small business lending requirements. There are new stricter anti-hawking prohibitions in relation to financial products and a deferred sales model for add on insurance. The design and distribution obligation legislation, requires product issuers and distributors to, among other things, identify appropriate target markets for financial and credit products and distribute those products so that they likely reach the relevant target market. There are significant penalties for non-compliance and such legislation could impact the ANZBGL Group's ability to issue and market financial products in the future. Increased compliance costs resulting from financial product distribution requirements and AFCA's new approach to assessing compliance may adversely impact the ANZBGL Group's Position.

Senior executive regulation

The Financial Accountability Regime Act 2023 (the "**FAR**") received Royal Assent on 14 September 2023. The FAR will be implemented in stages for in-scope entities within the ANZ Group commencing with ANZGHL and ANZBGL from 15 March 2024, and then from 15 March 2025 for any insurers or licensed superannuation trustees within the ANZ Group. Under the FAR, the ANZ Group and certain senior personnel will be subject to, or impacted by, new or heightened accountability obligations. For example, the FAR will require ANZBGL to take reasonable steps to (a) conduct its business with honesty and integrity, and with due skill, care and diligence; (b) deal with APRA and ASIC in an open, constructive and cooperative way; (c) prevent adverse effects on its prudential standing or prudential reputation; (d) ensure that certain directors, senior executives and other key personnel meet the above standards of conduct, and take reasonable steps to ensure compliance with applicable laws; and (e) ensure that related entities whose business and activities materially and substantially affect ANZBGL comply with the FAR in the same way as ANZBGL is required to. Potential risks to the ANZBGL Group include the risk of penalties and the risk to the ANZBGL Group's ability to attract and retain high-quality directors and senior executives.

Compensation Scheme of Last Resort

The ANZBGL Group will incur costs and further exposures associated with the establishment of the Australian Government's Compensation Scheme of Last Resort ("**CSLR**"). The purpose of the CSLR is to support confidence in the financial system's dispute resolution framework by facilitating compensation payments to eligible consumers who have received a determination for compensation from the Australian Financial Complaints Authority. The Australian Government passed a bill implementing the CSLR in June 2023. The CSLR will be funded by the Australian Government in its first year of operation and thereafter will be funded through industry levies. The maximum industry funding in any year of operation is A\$250 million. In addition, funding to pay for certain determinations that relate to 'pre-commencement' disputes will be provided by an initial levy of up to A\$250 million to be paid by ten industry participants, including the ANZBGL Group. Neither the amount of the initial levy nor the ANZBGL Group's share of it have been determined by the Australian Government. The outcomes and total costs associated with remaining possible exposures and the legislative change remain uncertain and their impact may adversely affect the ANZBGL Group's Position.

Industry self-regulation

Industry best practice guidance and standards impacting retail and small business banking is a focus of regulators, interest groups and industry participants. In particular, an independent review of the Australian Banking Code ("**Code**") made 116 recommendations in 2021. The Australian Banking Association (the "**ABA**") and member banks have been working to implement the accepted recommendations in an updated Code. The accepted recommendations include new definitions for 'vulnerability' and 'small business', the introduction of a requirement to meet with prospective guarantors before accepting a guarantee, and a replacement of the requirement to engage with customers in a 'fair, reasonable and ethical manner' with a requirement aligning to the 'efficiently, honestly and fairly' standard in the Australian Corporations Act. It is expected that the new Code will be implemented in March 2024, although this is subject to its approval by ASIC and the timing of any such approval. A failure to comply with the Code may have a negative impact on the ANZBGL Group's reputation and may result in litigation or regulatory enforcement actions, which may in turn, have an adverse impact on the ANZBGL Group's Position.

Open banking regulation

Open Banking is part of a consumer data right ("**CDR**") in Australia that came into effect in August 2019. The CDR gives customers access to and control over their data and establishes and seeks to improve consumers' ability to compare and switch between products and services. It is expected to reduce the barriers to new entrants into the banking industry in Australia. The CDR regime is evolving. The Australian Government released a statement in response to the Statutory Review of the CDR in June 2023 noting that the Australian Government will continue supporting operations in banking and energy and pause implementation of the CDR in other sectors to allow time for the CDR to mature across the banking and energy sectors. In June 2023, the New Zealand Government released a consultation bill which contemplates the introduction of a CDR in New Zealand. Open Banking may lead to increased competition that may adversely affect the ANZBGL Group's Position. Refer to risk factor "*Competition in the markets in which the ANZBGL Group operates may adversely affect the ANZBGL Group's Position*".

Cyber regulation

The Australian Security of Critical Infrastructure Act was extended in 2021 to the financial services and markets sector. It includes 'last resort' powers for the Australian Government to direct an entity to take a particular action and to authorise the Australian Signals Directorate (the "**ASD**") to intervene against cyber-attacks and registration and reporting requirements for critical infrastructure assets and cyber incidents. The ASD is an intelligence agency that focuses on signals intelligence and cyber operations. Further reforms including positive security obligations for critical infrastructure assets to be delivered through sector-specific requirements and enhanced cyber security obligations for systems of national significance came into force in 2022. Implementation of the legislation could increase costs for the ANZBGL Group, and may give rise to regulatory enforcement proceedings, which may in turn, adversely affect the ANZBGL Group's Position.

Payments regulation

The Australian Government responded to three inquiries and reviews relating to payments in 2021. These were a review into the Australian payments system, an inquiry into mobile payments and digital wallets and an inquiry into Australia as a technology and financial centre (covering de-banking of fintech and cryptocurrency exchanges). The Australian Government agreed to many of the recommendations and the Australian Treasury is consulting on the implementation of the recommendations. The impact of this work on the ANZBGL Group is not clear. Potential policy responses include new regulatory requirements and broader access to payment systems which could increase competition, which may adversely affect the ANZBGL Group's Position.

The Australian Government published its "Strategic Plan for the future of Australia's payments system" in 2023 which sets out its policy objectives and priorities for the payments system. The strategic plan provides businesses with certainty and clarity on the Australian Government's approach to important issues in the payments system. The Strategic Plan also outlines the Australian Government's commitment to ensuring that Australia's payments system is safe, affordable, can be trusted and will remain readily accessible. For example, the availability of cash in the community has emerged as an issue of concern. The impact on the ANZBGL Group of any resulting regulatory changes to implement the Government's policy objectives and priorities for the payments system is not clear. The timing of any impact to the ANZBGL Group's Position as a result of this strategic plan is not known.

Privacy regulation

Recent legislation has enhanced enforcement measures and increased penalties for serious or repeated privacy breaches of the Australian Privacy Act. The imposition of such penalties on the ANZBGL Group may adversely affect the ANZBGL Group's Position. The Australian Government announced the pathway for privacy reform following the Australian Privacy Act review. It includes amendments to the Australian Privacy Act addressing some proposals and further consultation on broad reform proposals which would have a significant impact on how an entity can use individuals' information. The implications of the reforms for the ANZBGL Group are not clear and will depend on the Australian Government's policy. The implementation of additional regulatory obligations regarding privacy may adversely affect the ANZBGL Group's Position.

Digital identity

The Australian Government is consulting on draft legislation and rules to establish a framework for digital identities. This framework enables the phased expansion of the Australian Government Digital ID system, sets up a system that could see Australians provided with greater choice in which accredited state and territory digital ID service providers they use to access Commonwealth services and appoints the ACCC as the initial digital ID regulator. Although the implications of this framework are not yet clear for the ANZBGL Group, the ANZBGL Group may need to adhere to certain Australian Government requirements if it wishes to become a provider of digital identity or to use digital identities as part of its onboarding process for customers. Such adherence could result in significant implementation and compliance costs, which may adversely affect the ANZBGL Group's Position.

Quality of financial advice regulation

The Australian Government released a report on the "quality of advice" in 2023. The report contains recommendations for reforming the regulatory framework for the provision of financial advice. These recommendations include broadening the scope of 'personal advice', introducing a requirement for personal advice to be 'good advice' and replacing the current duty of financial advisers to act in a client's best interests with a new statutory duty. The Australian Government accepted some of the review's recommendations and advises it will remove the 'safe harbour' from the current best interests duty. The removal of the safe harbour and, if implemented, the new framework, could place additional regulatory obligations on banks and may adversely affect the ANZBGL Group's Position.

Artificial intelligence regulation

The Australian Government commenced consultation on the regulation of AI in 2023. The implications of the consultation for the ANZBGL Group are not clear. They will depend on the policy implemented

by the Australian Government. The introduction of additional regulatory obligations relating to the use of AI may adversely affect the ANZBGL Group's Position.

Scams regulation

The Australian Government has indicated it will introduce mandatory industry codes of conduct to help prevent and detect scams and consult on the development of these industry codes in 2023. The ultimate form which this policy action will take is not known. The ACCC has separately authorized the ABA and its member banks to participate in discussions to develop an industry standard to prevent, detect, and disrupt scams affecting individual and small business customers. Although it is unclear whether this authorisation will result in an industry standard at all or, if it does, what impact this standard will have on the ANZBGL Group, it is possible that the ANZBGL Group will need to meet increased standards with respect to the identification, prevention and remediation of scam activity that concerns its customers. This may include standards or expectations concerning when the ANZBGL Group will be liable to reimburse or compensate customers for losses arising from scam activity. Any failure to meet these standards or expectations may adversely affect the ANZBGL Group's Position.

Unfair trading practices

The Australian Government released consultation on policy options to address unfair trading practices in the Australian consumer law in August 2023. The Australian Government states that unfair trading practices are particular types of commercial conduct that are not covered by existing provisions of Australia's consumer laws but which nevertheless can result in significant consumer and small business harm. The consultation proposes four options, which include amending the statutory prohibition against unconscionable conduct, introducing a general prohibition on unfair trading practices and introducing a combination of general and specific prohibitions on unfair trading practices. While the Australian consumer law does not apply to ASIC-regulated financial products of the kind offered by the ANZBGL Group, the consultation paper notes that a separate regulation impact assessment process will consider the extension of reform to ASIC regulated financial services in 2024. Although it is not clear which option the Government will adopt for the Australian consumer law, and how, if at all, this will be carried across to ASIC-regulated financial services, there is a risk that the ANZBGL Group would face increased compliance costs in meeting any new law which prohibited unfair trading practices. In the event of contravention of such a law, the ANZBGL Group may face penalties. Any such increased costs or contraventions may adversely affect the ANZBGL Group's Position.

Review of Personal Property Securities Regime

The Australian Government is consulting on reforms to the Personal Property Securities Act 2009 following a statutory review of the Act (the Whittaker Review). The Whittaker Review made 394 recommendations and the Australian Government has accepted 345 of these. The Australian Government's overarching objective of the reforms is to simplify the personal property securities framework to make it easier for users to engage with, providing clearer, more accessible rules for the granting, validity and enforcement of security interests in personal property. The implications of the reforms for the ANZBGL Group are not yet clear. There may be possible implications on security taking, registration, enforcement processes, operational processes, systems and documentation. Any implications for the ANZBGL Group will depend on the Australian Government's decisions in finalising the draft legislation to be introduced to Parliament.

New Zealand developments

The New Zealand Government and its agencies, including the RBNZ, the Financial Market Authority ("FMA") and the Commerce Commission, have supervisory oversight over the ANZ Bank New Zealand Group. Prudential authorities such as the RBNZ have extensive administrative, practical and investigative powers over the ANZ Bank New Zealand Group's business.

There have been a series of legislative and regulatory releases from these and other authorities that have proposed, or may result in, significant legal and regulatory changes for financial institutions in New Zealand. For example:

Prudential Developments: The ANZ Bank New Zealand Group continues to expect increased regulatory focus on capital and liquidity requirements. For example, the RBNZ, APRA, the Basel Committee on

Banking Supervision ("**BCBS**") and regulators in other jurisdictions have revised standards and released discussion papers, proposals and decisions in regard to strengthening the resilience of the banking sector. Further changes to the RBNZ's prudential standards could restrict the ANZ Bank New Zealand Group's flexibility, require it to incur substantial costs and/or impact the profitability of one or more of its business lines, any of which may adversely affect the ANZ Bank New Zealand Group's Position. For example, the following RBNZ reviews and policies may have a material impact on the ANZ Bank New Zealand Group's Position.

- *Capital Adequacy:* See "*Challenges in managing the ANZBGL Group's and ANZ Bank New Zealand Group's capital base could give rise to greater volatility in capital ratios, which may adversely affect the ANZBGL Group's Position or ANZ Bank New Zealand Group's Position*" and "*Regulation and Supervision—Bank capital adequacy requirements*" for further discussion.
- *Liquidity:* The RBNZ's liquidity policy ("**BS13**") sets out the RBNZ's policy on management of liquidity risk by registered banks in New Zealand. In February 2022, the RBNZ began a comprehensive review of BS13. Two rounds of consultation have been completed, and a further two rounds of consultation and a quantitative impact study are planned. An updated liquidity policy is currently scheduled to be released in 2025. See "*Regulation and Supervision—RBNZ review of BS13*" for further discussion. Future changes to liquidity requirements in New Zealand may adversely affect the ANZ Bank New Zealand Group's Position and may result in it incurring substantial costs in order to comply with such changes.
- *Changes to Conditions of Registration:* ANZ Bank New Zealand is a registered bank under the BPS Act and is supervised by the RBNZ. As part of its registration, ANZ Bank New Zealand is subject to Conditions of Registration imposed by the RBNZ. For details of ANZ Bank New Zealand's Conditions of Registration, see "*Regulation and Supervision —Conditions of Registration for ANZ Bank New Zealand Limited*". The Conditions of Registration may be changed by the RBNZ at any time, although the RBNZ is required to give ANZ Bank New Zealand notice and consider submissions made by ANZ Bank New Zealand prior to any such change. In the event that the RBNZ was to conclude that ANZ Bank New Zealand did not satisfy its Conditions of Registration, sanctions could be imposed on ANZ Bank New Zealand by the RBNZ. This may result in a range of possible consequences, including changes to ANZ Bank New Zealand's Conditions of Registration. The impact of such consequences may adversely affect the ANZ Bank New Zealand Group's Position.
- *Changes to IRB Accreditation:* ANZ Bank New Zealand has received RBNZ accreditation as an advanced internal ratings-based ("**IRB**") approach bank under the principles laid out by the BCBS in respect of Basel III, except for Operational Risk Capital ("**ORC**"), which is calculated in accordance with BPR150 from 1 October 2021. That accreditation is subject to certain requirements which have been incorporated into ANZ Bank New Zealand's Conditions of Registration. ANZ Bank New Zealand is reviewed by both the RBNZ and APRA in terms of maintaining that accreditation. Changes to ANZ Bank New Zealand's accreditation may adversely affect the ANZ Bank New Zealand Group's Position.
- *Conduct Regulations for Financial Institutions:* The Financial Markets (Conduct of Institutions) Amendment Act 2022 ("**FMCIA Act**") was enacted in June 2022. It will come into force on 31 March 2025 and will implement a broad conduct regime for financial institutions that can be expanded over time with further obligations on regulated entities. As at the date of this Base Prospectus, it is uncertain what impact the FMCIA Act will have on ANZ Bank New Zealand. However, it could result in increased compliance costs and/or liability in the case of non-compliance, which may adversely affect the ANZ Bank New Zealand Group's Position. See "*Regulation and Supervision—Conduct regulations for financial institutions*" for further discussion.
- *Review of the Reserve Bank Act:* The Reserve Bank of New Zealand Act 1989 ("**Reserve Bank Act**"), which has been renamed the BPS Act, is being replaced with two separate pieces of legislation: the Reserve Bank of New Zealand Act 2021, which fully commenced in July 2022, and the Deposit Takers Act 2023, which was enacted in July 2023. The RBNZ is now undertaking a multi-year work programme to develop policy, standards and regulations to

support the commencement of the Deposit Takers Act 2023 regime in 2028. Until the Deposit Takers Act 2023 fully commences, the current regulatory framework for banks will continue under the BPS Act. As at the date of this Base Prospectus, it is uncertain what impact these legislative changes may have on the ANZ Bank New Zealand Group. However, changes to the RBNZ's supervision and regulation of deposit takers, and other changes contained in the new legislation, may impact the ANZ Bank New Zealand Group's Position. See "*Regulation and Supervision —Review of the Reserve Bank Act*" for further discussion.

- *Depositor compensation scheme:* The Deposit Takers Act 2023 will, among other things, introduce a depositor compensation scheme ("**DCS**"), which will protect up to NZ\$100,000 per depositor, per licensed deposit taker, if a pay-out event is triggered. The DCS will be funded by collecting levies from deposit takers, including ANZ Bank New Zealand, and is targeted for initial implementation in late 2024, ahead of the rest of the Deposit Takers Act 2023 coming into effect. In 2023, the RBNZ consulted on the development of regulations to support the DCS, including a levy framework, and intends to publish a consultation summary by the end of 2023. See "*Regulation and Supervision —Review of the Reserve Bank Act*" for further discussion.
- *Open Banking:* Emerging fintechs and banks partnering to develop a framework that provides third-party financial service providers open access to consumer banking, transaction, and other financial data from banks and non-bank financial institutions may lead to increased competition, which could result in weakening the profitability of banks that are slow to adapt to the changing financial system landscape. See "*Regulation and Supervision —Open Banking*" for further discussion.
- *Competition Market Study:* In June 2023, the New Zealand Government directed the Commerce Commission to commence a market study into competition in the New Zealand retail banking sector. The Commerce Commission is expected to issue its final report at the market study's completion in August 2024. As at the date of this Base Prospectus, it is uncertain what impact the market study will have on ANZ Bank New Zealand. See "*Regulation and Supervision —Competition Market Study*" for further discussion.

Such changes may adversely affect the ANZ Bank New Zealand Group, potentially impacting its corporate structures, businesses, strategies, capital, liquidity, funding and profitability, cost structures, and the cost and access to credit for its customers and the wider economy. This in turn may adversely affect the ANZ Bank New Zealand Group's Position. For further information, see "*Description of Supervision and Regulation of ANZ Bank New Zealand Limited and ANZ New Zealand (Int'l) Limited*".

Other Australian inquiries

There are other inquiries and interventions into Australia's financial sector. In 2022-23, these included four separate Parliamentary inquiries into 'the cost of living', 'promoting economic dynamism, competition and business formation', a 'review of Australia's four major banks' and 'bank closures in regional Australia'. These inquiries are wide ranging and could lead to legislative or regulatory changes or measures that may adversely affect the ANZBGL Group's Position, including through taxes and levies. For example, based on the conduct of these inquiries to date, the inquiry concerning bank closures in regional Australia could recommend that the Australian Government impose standards on banks concerning their presence in regional and rural areas while the major banks inquiry could recommend that the Australian Government impose standards on banks concerning scams. However, even if there are recommendations from these inquiries, it is not clear if the Australian Government would adopt those recommendations.

Other Australian regulation

The Australian Government finalised a regional banking taskforce in 2022 which assessed the impact of bank branch closures on regional communities. Banks are in the process of implementing the taskforce's recommendations, including by adding new requirements to the ABA's "Branch Closure Protocol", which will apply to the ANZBGL Group when branches are closed. Finally, the Australian Government has announced that it will ban the use of credit cards for online wagering. This will occur by using bank identification numbers to identify and block credit card payments. The impact of this work on the

ANZBGL Group is not clear. See also risk factor "*Significant fines and sanctions in the event of breaches of law or regulation relating to anti-money laundering, counter-terrorism financing and sanctions may adversely affect the ANZBGL Group's Position*".

Regulator powers and penalties

There are increased penalties for breaches of laws in Australia, including the Australian consumer law, as well as increased powers to regulators and funding for regulators to enforce breaches. Increasing regulatory powers include ASIC's product intervention power and proposed expansions of ASIC's directions powers. The Australian Treasury Laws Amendment (Strengthening Corporate and Financial Sector Penalties) Act significantly increased the sanctions applicable to the contravention of a range of corporate and financial sector obligations. Maximum fines and civil penalties for breaches of the Competition and Consumer Act (including the Australian consumer law) have increased and a civil penalty regime introduced for unfair contract terms. This includes increasing the maximum pecuniary penalty for corporations where relevant from 10 per cent. of a corporation's annual turnover to 30 per cent. of adjusted turnover over the period the breach occurred. The imposition of such penalties on the ANZBGL Group may adversely affect the ANZBGL Group's Position.

Litigation and contingent liabilities may adversely affect the ANZBGL Group's Position

From time to time, the ANZBGL Group may be subject to material litigation, regulatory actions, legal or arbitration proceedings and other contingent liabilities that may adversely affect the ANZBGL Group's Position.

The ANZBGL Group had contingent liabilities as at 30 September 2023 in respect of the matters outlined in Note 32 of the ANZBGL 2023 Audited Financial Statements (which are incorporated by reference into this Base Prospectus). Note 32 includes, among other things, the following matters:

- regulatory and customer exposures;
- South African rate action;
- capital raising action;
- Esanda dealer car loan litigation;
- OnePath superannuation litigation;
- New Zealand loan information litigation;
- Credit cards litigation;
- the Royal Commission;
- security recovery actions; and
- warranties, indemnities and performance management fees.

The ANZ Bank New Zealand Group had contingent liabilities as at 30 September 2023 in respect of the matters outlined in Note 27 of the ANZ New Zealand 2023 Audited Financial Statements (which are incorporated by reference into this Base Prospectus).

The ANZBGL Group regularly engages with its regulators in relation to regulatory investigations, surveillance and reviews, reportable situations, civil enforcement actions (whether by court action or otherwise), formal and informal inquiries and regulatory supervisory activities in Australia and globally. The ANZBGL Group has received various notices and requests for information from its regulators as part of both industry-wide and Group-specific reviews and has also made disclosures to its regulators at its own instigation. The nature of these interactions can be wide ranging and, for example, include or have included in recent years a range of matters including responsible lending practices, regulated lending requirements, product suitability and distribution, interest and fees and the entitlement to charge them, customer remediation, wealth advice, insurance distribution, pricing, competition, conduct in

financial markets and financial transactions, capital market transactions, anti-money laundering and counter-terrorism financing obligations, privacy obligations and information security, business continuity management, reporting and disclosure obligations and product disclosure documentation. There may be exposures to customers which are additional to any regulatory exposures. These could include class actions, individual claims or customer remediation or compensation activities. The outcomes and total costs associated with such reviews and possible exposures remain uncertain. There is however a risk that contingent liabilities may be larger than anticipated or that additional litigation, regulatory actions, legal or arbitration proceedings or other contingent liabilities may arise.

Significant fines and sanctions in the event of breaches of law or regulation relating to anti-money laundering, counter-terrorism financing and sanctions may adversely affect the ANZBGL Group's Position

Anti-money laundering ("AML"), counter-terrorism financing ("CTF") and sanctions compliance have been the subject of significant regulatory change and enforcement in recent years. The increasingly complicated environment in which the ANZBGL Group operates has heightened these operational and compliance risks. Furthermore, increased transparency around the outcomes of compliance issues at financial institutions domestically and globally together with related fines and settlement sums mean that these risks continue to be an area of focus for the ANZBGL Group.

The Australian Government began a consultation process on potential reforms to the AML and CTF regulatory regime in 2023. The consultation has two parts: the simplification and modernisation of the regime; and the implementation of 'Tranche II' reforms to extend the regime to certain 'high-risk' professions, including lawyers, accountants, trust and company service providers, real estate agents and dealers in precious metals and stones. The impact of this development on the ANZBGL Group is not yet clear. The reform process could lead to new regulatory requirements, which may adversely affect the ANZBGL Group's Position.

The New Zealand Government has also recently undertaken a review of its Anti-Money Laundering and Countering Financing of Terrorism Act 2009 (the "AML/CFT Act"), with a report tabled in New Zealand's parliament by the Minister of Justice in November 2022 outlining more than two hundred potential areas for law reform (ranging from minor clarifications to existing requirements and definitions to new obligations imposed on reporting entities). Several of the proposed recommendations have been accepted and introduced in an early package of reform through newly issued regulations, with the first tranche of regulations being introduced in July 2023 (largely definitional changes and clarifications). The second and third tranches of regulation are being introduced in June 2024 and June 2025 respectively and will make changes to various existing obligations (including customer due diligence, enhanced due diligence, and ongoing due diligence requirements) as well as introducing new obligations. It is anticipated that further reform will be made via amendments to the primary AML/CFT Act in due course, following further public consultation on areas identified through the review that have not been introduced via regulations. The timing for any further legislative change is currently unknown. Although there is no clear view of the outcome of the reforms at this stage, the reform process could lead to new regulatory requirements being imposed on the ANZBGL Group, which may adversely affect the ANZBGL Group's Position.

Due to the Ukraine conflict, there are currently a large number of sanctions applied to Russia, and other countries, by regulators around the globe. Whilst many governments across the United States, Europe and Australia agree in relation to sanctions targets, the nuances and specific restrictions are not fully aligned. Companies are assessing their risk appetite regarding ongoing business activity with or in Russia or with Russian owned entities. This has heightened the operational and compliance risks in navigating those transactions and dealings that are considered lawful, or within other counterparties' risk appetite. This situation is expected to continue whilst the conflict persists.

In Australia, in recent years, there has been an increase in action taken by AML/CTF regulators against 'Reporting Entities'. A 'Reporting Entity' is a legal entity that provides at least one 'designated service' to a customer, such as opening a bank account or providing a loan. Since 2017, the Australian Transaction Reports and Analysis Centre ("AUSTRAC") has taken three public enforcement actions (resulting in fines and other penalties) against major banks in Australia, as well as actions against a number of other

banks, casinos and other Reporting Entities, using its various regulatory powers including appointment of auditors and infringement notices.

In New Zealand, the RBNZ has stated that its appetite for taking formal enforcement action for breaches of New Zealand's AML and CTF legislation has increased. The propensity for other regulators (including in Asia and the Pacific) to take action for non-compliance with AML/CTF laws has also increased.

Close monitoring of the different levels and types of financial crimes continues across the ANZBGL Group. Scams continue to be pervasive and evolve quickly and to the extent that new risks emerge, there is a continuing risk that the management of alerts for potential money laundering or terrorism financing activities may be impacted.

The risk of non-compliance with AML/CTF and sanction laws remains high given the scale and complexity of the ANZBGL Group and the lack of clarity around some mandatory reporting requirements. Emerging technologies, such as those provided by virtual asset service providers (e.g. digital currency exchanges and wallet providers) as well as increasingly complex remittance arrangements via fintechs and other disruptors, may limit the ANZBGL Group's ability to track the movement of funds, develop relevant transaction monitoring, and meet reporting obligations. The complexity of the ANZBGL Group's technology, and the increasing frequency of changes to systems that play a role in AML/CTF and sanctions compliance puts the ANZBGL Group at risk of failing to identify an impact on the systems and controls in place. A failure to operate a robust program to report the movement of funds, combat money laundering, terrorism financing, and other serious crimes may have serious financial, legal and reputational consequences for the ANZBGL Group and its employees.

Consequences can include fines, criminal and civil penalties, civil claims, reputational harm and limitations on doing business in certain jurisdictions. These consequences, individually or collectively, may adversely affect the ANZBGL Group's Position. The ANZBGL Group's foreign operations may place the ANZBGL Group under increased scrutiny from regulatory authorities and subject the ANZBGL Group to increased compliance costs.

Changes in monetary policies may adversely affect the ANZBGL Group's Position

Central monetary authorities (including the RBA, the RBNZ, the United States Federal Reserve, the European Central Bank, the Bank of England and monetary authorities in the Asian jurisdictions in which the ANZBGL Group operates) set official interest rates or take other measures to affect the demand for money and credit in their relevant jurisdictions. In some jurisdictions, currency policy is used to influence general business conditions and the demand for money and credit. These measures and policies can significantly affect the ANZBGL Group's cost of funds for lending and investing and the return that the ANZBGL Group will earn on those loans and investments. These factors impact the ANZBGL Group's net interest margin and can affect the value of financial instruments it holds, such as debt securities and hedging instruments. The measures and policies of the central monetary authorities can also affect the ANZBGL Group's borrowers, potentially increasing the risk that they may fail to repay loans. Changes in interest rates and monetary policy are difficult to predict and may adversely affect the ANZBGL Group's Position. Refer to risk factor "*Changes in the real estate markets in Australia, New Zealand or other markets where the ANZBGL Group does business may adversely affect the ANZBGL Group's Position*" and risk factor "*Credit risk may adversely affect the ANZBGL Group's Position*".

Ongoing significant compliance costs with respect to the evolving and extensive Automatic Exchange of Information ("AEOI") obligations imposed by global customer tax transparency regimes may adversely affect the ANZBGL Group's Position

There continues to be mandatory and substantial changes to, and increasing regulatory focus on, compliance by all global Financial Institutions ("FIs"), including the ANZBGL Group, with global customer tax transparency regimes, under the Foreign Account Tax Compliance Act ("FATCA"), the Organisation for Economic Co-operation and Development's ("OECD's") Common Reporting Standard ("CRS") and similar anti-tax avoidance regimes. This includes global regulatory movement to enforcement and penalty activities and increasing regulatory implementation of additional compliance framework requirements, compliance assessment requirements, questionnaires, onsite financial institution audits, evidentiary requirements, detailed rules and frameworks to close down circumventions and deter, detect and penalise non-compliance. The ongoing OECD government level peer reviews and

IRS and regulatory FI compliance review/audit requirements increase scrutiny and therefore unplanned workload of FIs globally. Each country of CRS adoption is being pushed by the OECD to ensure its penalty regime is sufficient to deter and penalise non-compliance.

As the ANZBGL Group is an in scope FI operating in a globally interlinked operating environment, the highly complex and rigid nature of the obligations under each country's varied implementation of these regimes present heightened operational and compliance risks for the ANZBGL Group. As international regulatory compliance frameworks mature and regulators shift focus to enforcement (which may include financial penalties and other more general tax risk framework implications), this may result in significant penalty provision requirements and reputational damage in the event of failures. Accordingly compliance with global customer tax transparency regimes is a key area of focus and major cost for the ANZBGL Group.

Under FATCA and other relevant U.S. Treasury Regulations, the ANZBGL Group could be subject to:

- a 30 per cent. withholding tax on certain amounts (including amounts payable to customers), and be required to provide certain information to upstream payers, as well as other adverse consequences, if the ongoing detailed obligations are not adequately met; and
- broader compliance issues, significant withholding exposure, competitive disadvantage and other operational impacts if the FATCA Intergovernmental Agreements between the United States and the applicable jurisdictions in which the ANZBGL Group operates cease to be in effect.

Under the CRS, the ANZBGL Group:

- faces challenges in developing countries where the ANZBGL Group has operations, such as the Pacific region. The local regulators in these countries are generally assisted by a 'partner' country. The introduction of standards and evidentiary requirements continue to be challenging to implement and adhere to;
- must deal with substantial ongoing country specific variations in local law and regulatory implementation, with significant broader 'justified trust' ramifications and penalties for non-collection or failed reporting in respect of prescribed customer information;
- is under increasingly stringent regulatory scrutiny and measures as regulators turn their focus to the effectiveness of FI implementation. This tightening of regulatory focus, at a varying pace in each country, can lead to a significant negative experience for affected customers (including unilateral account blocking and closure, underlying client issues resulting from same and potential direct customer penalties), which may adversely affect the ANZBGL Group's Position and if not similarly implemented by other FIs, may present a significant competitive disadvantage and loss of business;
- faces poor customer outcomes with customers who may feel aggrieved as a result of blocking and closure impacts including increased potential exposure to legal and third party liability. This may be particularly the case if the ANZBGL Group has not communicated the regulatory issue clearly to a customer or has blocked or closed the account incorrectly (for example, due to a data or process error); and
- continues to deal with the substantial implementation challenges associated with the complex requirements relating to intermediaries, which may increase the risk of regulatory ramifications.

The scale and complexity of the ANZBGL Group means that the risk of non-compliance with FATCA, CRS and other tax reporting regimes is high. The loss of key resources and critical subject matter expertise, combined with the challenge of finding qualified replacements increases the risk of non-compliance with these obligations. A failure to successfully operate the implemented processes or to identify and implement all obligations could lead to legal, financial and reputational consequences for the ANZBGL Group and its employees. Consequences include fines, criminal and civil penalties, civil claims, reputational harm, competitive disadvantage, loss of business and constraints on doing business.

External factors such as natural disasters and the COVID-19 pandemic have resulted in challenges for staff including unplanned staff absences, access to systems, tools and information, and impacted the delivery of the ANZBGL Group's regulatory obligations on requisite timeframes, including mandatory FATCA and CRS regulatory reporting, customer follow-up strategies, resolution and action of regulatory recommendations, as well as continuous improvement activities required to achieve the zero rate of error expected by regulators. The ANZBGL Group's global taxation obligations in relation to the enterprise's own tax lodgements and payments may similarly be impacted. Initial leniency from global regulators continues to be tightened or withdrawn due to the regulatory expectation for FIs to adapt to the ongoing challenges presented by external factors, thus heightening the risk of regulatory scrutiny, associated penalties and reputational ramifications resulting from any deficiencies or delays in meeting regulatory obligations.

These consequences, individually or collectively, may adversely affect the ANZBGL Group's Position.

Unexpected changes to the ANZBGL Group's licence to operate in any jurisdiction may adversely affect the ANZBGL Group's Position

The ANZBGL Group is licensed to operate in various jurisdictions. Unexpected changes in the conditions of the licenses to operate by governments, administrations or regulatory agencies that prohibit or restrict the ANZBGL Group from trading in a manner that was previously permitted may adversely affect the ANZBGL Group's Position.

Internal control, operations and reputational risk

Operational risk events may adversely affect the ANZBGL Group's Position

Operational risk is the risk of loss and non-compliance with laws resulting from inadequate or failed internal processes, people and systems or from external events. This includes legal risk, and the risk of reputational loss or damage arising from inadequate or failed internal processes, people, and systems, but excludes strategic risk.

Operational risk categories under the ANZBGL Group's risk taxonomy include:

- financial crime (the risk of money laundering, sanctions violations, bribery and corruption, and "Know-Your-Customer" failure). See risk factor "*Significant fines and sanctions in the event of breaches of law or regulation relating to anti-money laundering, counter-terrorism financing and sanctions may adversely affect the ANZBGL Group's Position*";
- internal fraud (fraud attempted or perpetrated by an internal party (or parties) against the organisation);
- external fraud (fraud or theft attempted or perpetrated against the organisation by an external party (that is, a party without a direct relationship to the ANZBGL Group (excluding customers) without involvement of an employee);
- business continuity (failure of the business continuity management framework);
- physical security (the risk of damage to the ANZBGL Group's physical assets, client assets, or public assets for which the ANZBGL Group is liable, and (criminal) injury to the ANZBGL Group's employees or affiliates);
- people (the risk of breaching employment legislation, mismanaging employee relations and failing to ensure a safe working environment);
- transaction processing and execution (failure to process, manage and execute transactions and other processes correctly and appropriately);
- technology (the risk associated with the outage of systems, including hardware, software and networks). See risk factor "*Disruption of information technology systems or failure to*

successfully implement new technology systems could significantly interrupt the ANZBGL Group's business, which may adversely affect the ANZBGL Group's Position";

- conduct (the risk of loss or damage arising from the failure of the ANZBGL Group, its employees or agents to appropriately consider the interests of consumers, the integrity of the financial markets and the expectations of the community, in conducting the ANZBGL Group's business activities). See risk factor "*Conduct risk events may adversely affect the ANZBGL Group's Position*";
- legal (the risk of execution errors in legal procedures and processes);
- regulatory risk (failure to comply with any legal or regulatory obligations that are not captured through other mentioned risks). See risk factor "*Regulatory changes or a failure to comply with laws, regulations or policies may adversely affect the ANZBGL Group's Position*";
- third party (the risk of failing to manage third party relationships and risks appropriately, for example, not taking reasonable steps to identify and mitigate additional operational risks resulting from the outsourcing of services or functions);
- information security including cyber (the risk of information security incidents, including the loss, theft or misuse of data/information – this covers all types of data, and can include the failure to comply with rules concerning information security). See risk factor "*Risks associated with information security including cyber-attacks, may adversely affect the ANZBGL Group's Position*";
- data (the risk of failing to appropriately manage and maintain data, including all types of data, for example, client data, employee data and the ANZBGL Group's proprietary data (includes privacy)). See risk factor "*Data management risks may adversely affect the ANZBGL Group's Position*";
- model (the risk of incorrect model design, improper implementation of a correct model, or inappropriate application of a correct model). See risk factor "*Modelling risks may adversely affect the ANZBGL Group's Position*"; and
- statutory reporting and tax (the risk of failing to meet statutory reporting and tax payments/filing requirements). Statutory reporting includes all external reporting that the ANZBGL Group is obliged to perform (e.g. regulatory reporting, financial reporting).

Loss from operational risk events may adversely affect the ANZBGL Group's Position. Such losses can include fines, penalties, imposts (including capital imposts), loss or theft of funds or assets, legal costs, customer compensation, loss of shareholder value, reputation loss, loss of life or injury to people, and loss of property and information.

Operational risk can arise from a number of causes, such as change risk events (for example, a failure to deliver a change or risks resulting from change initiatives), and have a number of different impacts, including reputational impacts (see risk factor "*Reputational risk events as well as operational failures and regulatory compliance failures may give rise to reputational risk, which may undermine the trust of stakeholders, erode the ANZBGL Group's brand and adversely affect the ANZBGL Group's Position*").

Pursuant to APRA and RBNZ requirements, the ANZBGL Group and ANZ Bank New Zealand Group must also maintain "operational risk capital" reserves in the event future operational events occur.

All major offices have returned to at least a blended/hybrid working environment, including adapting to remote working arrangements since the COVID-19 pandemic. Reliance on digital channels continues to remain high, which in turn heightens the risks associated with cyber-attacks and any disruption to system/service availability. Whilst business continuity plans have been well tested and refined during the pandemic, impact to system/service availability still has the ability to impact the ANZBGL Group's Position from a reputational, financial and compliance perspective.

As the ANZBGL Group increases the adoption of AI which includes, technologies such as machine learning through predictive analytics, process automation and decision generation to support its customers and business processes, the ANZBGL Group may become more exposed to associated AI risks, such as lack of transparency, inaccurate decisions or unintended consequences that are inconsistent with the ANZBGL Group's policies or values. These could have adverse financial and non-financial impacts on the ANZBGL Group.

Human capital risk, which relates to the inability to attract, develop, motivate and retain the ANZBGL Group's people to meet current and future business needs, could result in poor financial and customer outcomes and reduce the ability of the ANZBGL Group to deliver against customer and other stakeholders' expectations

Key executives, employees and directors play an integral role in the operation of the ANZBGL Group's business and its pursuit of its strategic objectives. The unexpected departure of an individual in a key role, or the ANZBGL Group's failure given the challenges in the current environment to recruit, develop and retain an appropriately skilled and qualified person into these roles particularly in areas such as digital, technology, risk or compliance, could have an adverse effect on the ANZBGL Group's Position.

Reputational risk events as well as operational failures and regulatory compliance failures may give rise to reputational risk, which may undermine the trust of stakeholders, erode the ANZBGL Group's brand and adversely affect the ANZBGL Group's Position

The ANZBGL Group's reputation is a valuable asset and a key contributor to the support that it receives from the community in respect of its business initiatives and its ability to raise funding or capital. Reputational risk may arise as a result of an external event or the ANZBGL Group's actual or perceived actions and practices, which include operational and regulatory compliance failures. The occurrence of such events may adversely affect perceptions about the ANZBGL Group held by the public (including the ANZBGL Group's customers), shareholders, investors, regulators and rating agencies. The impact of a risk event on the ANZBGL Group's reputation may exceed any direct cost of the risk event itself and may adversely impact the ANZBGL Group's Position.

The ANZBGL Group may suffer reputational damage where one of its practices fails to meet community expectations. Community expectations are continually changing and evolving. If expectations exceed the standard required to comply with applicable law, the ANZBGL Group may incur reputational damage even where it has met its legal obligations. A divergence between community expectations and the ANZBGL Group's practices could arise in a number of ways, including in relation to its product and services disclosure practices, pricing policies and use of data. The ANZBGL Group's reputation may be adversely affected by community perception of the broader financial services industry, particularly in an environment of rising interest rates. Reputational damage may arise from the ANZBGL Group's failure to effectively manage risks, enforcement or supervisory action by regulators, adverse findings from regulatory reviews and failure or perceived failure to adequately respond to community, environmental and ethical issues.

From time to time the ANZBGL Group may be subjected to heightened public scrutiny and potential reputational damage as a result of the actions of activist shareholders. Areas which have attracted investor activism in Australia primarily relate to environmental and social issues and include concerns about the actions of the ANZBGL Group itself or parties that the ANZBGL Group finances.

Operational and regulatory compliance failures or perceived failures may give rise to reputational risk. Such operational and regulatory compliance failures include, but are not limited to:

- failures related to fulfilment of identification of obligations;
- failures related to new product development;
- failures related to ongoing product monitoring activities;
- failures related to suitability requirements when products are sold outside of the target market;

- failure to comply with disclosure obligations;
- failure to properly manage risk (e.g. credit, market, operational or compliance);
- market manipulation or anti-competitive behaviour;
- inappropriate crisis management/response to a crisis event;
- inappropriate handling of customer complaints;
- inappropriate third party arrangements;
- privacy breaches; and
- unexpected risks.

Damage to the ANZBGL Group's reputation may have wide-ranging impacts, including adverse effects on the ANZBGL Group's profitability, capacity and cost of funding, increased regulatory scrutiny, regulatory enforcement actions, additional legal risks and limiting the availability of new business opportunities. The ANZBGL Group's ability to attract and retain customers could also be adversely affected if the ANZBGL Group's reputation is damaged, which may adversely affect the ANZBGL Group's Position.

Conduct risk events may adversely affect the ANZBGL Group's Position

Conduct risk is the risk of loss or damage arising from the failure of the ANZBGL Group, its employees or agents to appropriately consider the interests of consumers, the integrity of the financial markets, and the expectations of the community in conducting the ANZBGL Group's business activities.

Conduct risks include:

- the provision of unsuitable or inappropriate advice to customers;
- the representation of, or disclosure about, a product or service which is inaccurate, or does not provide adequate information about risks and benefits to customers;
- a failure to deliver product features and benefits in accordance with terms, disclosures, recommendations and advice;
- a failure to appropriately avoid or manage conflicts of interest;
- inadequate management of complaints or remediation processes;
- a failure to respect and comply with duties to customers in financial hardship; and
- unauthorised trading activities in financial markets, in breach of the ANZBGL Group's policies and standards.

There has been an increasing regulatory and community focus on conduct risk, including in Australia and New Zealand. Financial pressure has increased for customers with the rising cost-of-living and reduction in disposable income creating pressure on affordability. This may impact both the ability to lend to customers and the extent to which forbearance may need to be offered to those already struggling. It is expected to increase the number of customers that may fall into financial difficulty, and therefore increase the need for the ANZBGL Group to provide enhanced support. As this occurs, it is likely to have the greatest impact on customers in challenging financial circumstances. This is an evolving situation. The ANZBGL Group will need to continue to address the increased demand for forbearance and provide appropriate tailored solutions to address complex customer needs to help mitigate the risk of customer harm.

Where a conduct risk event occurs, the ANZBGL Group has a centralised team responsible for customer remediation programs, including addressing conduct issues identified in Group reviews. Conduct risk

events may not only negatively impact customers and market integrity, but may expose the ANZBGL Group to regulatory actions, restrictions or conditions on banking licenses and reputational consequences that may adversely affect the ANZBGL Group's Position. Remediation programs may not be implemented appropriately or may lead to further remediation work being required, resulting in litigation, regulatory action and increasing cost to the ANZBGL Group, which may adversely affect the ANZBGL Group's Position. For further discussion of the increasing regulatory focus on conduct risk, see risk factor "*Regulatory changes or a failure to comply with laws, regulations or policies may adversely affect the ANZBGL Group's Position*" and risk factor "*Litigation and contingent liabilities may adversely affect the ANZBGL Group's Position*".

Disruption of information technology systems or failure to successfully implement new technology systems could significantly interrupt the ANZBGL Group's business, which may adversely affect the ANZBGL Group's Position

The ANZBGL Group's day-to-day activities and its service offerings (including digital banking) are highly dependent on information technology ("IT") systems. Disruption of IT systems, or the services the ANZBGL Group uses or is dependent upon, may result in the ANZBGL Group failing to meet its compliance obligations and customers' banking needs. In a digital world, customer's expectations of "always on" "24/7" banking services necessitates highly available and resilient IT systems.

The ANZBGL Group has an ongoing obligation to maintain its IT systems and to identify, assess and respond to risk exposures associated with these systems, including IT asset lifecycle, IT asset project delivery, technology resilience, technology security, use of third parties, data retention and restoration and business rules and automation. Inadequate responses to these risk exposures could lead to unstable or insecure systems which could adversely impact customers, increase the ANZBGL Group's costs, and result in non-compliance with regulatory requirements, any of which may adversely affect the ANZBGL Group's Position.

The ANZBGL Group has incident response, disaster recovery and business continuity measures in place designed to ensure that critical IT systems will continue to operate during both short-term and prolonged disruption events for all businesses across the ANZBGL Group's network, including ANZ Bank New Zealand and international branches, which rely on the ANZBGL Group to provide a number of IT systems. A failure of the ANZBGL Group's systems may affect the ANZBGL Group's network, which may in turn, adversely affect the ANZBGL Group's Position. The COVID-19 pandemic highlighted that these arrangements must cater for improbable events and ensure critical IT systems can be supported and accessed remotely by a large number of technologists and business users for extended periods. If such measures cannot be effectively implemented, this may adversely affect the ANZBGL Group's Position.

The ANZBGL Group must implement and integrate new IT systems, most notably cloud, data and automation technologies, into the existing technology landscape to ensure that the ANZBGL Group's technology environment is cost-effective and can support evolving customer requirements. Inadequate implementation and integration of these systems, or improper operation and management, including of their vendors and the supply chain, may adversely affect the ANZBGL Group's Position.

This risk factor should be read in conjunction with risk factor "*Risks associated with information security, including cyber-attacks, may adversely affect the ANZBGL Group's Position*" as information security breaches and cyber-attacks have the potential to result in the disruption of IT systems.

Risks associated with information security, including cyber-attacks, may adversely affect the ANZBGL Group's Position

The primary focus of information security is to protect information and technology systems from disruptions to confidentiality, integrity or availability. As a bank, the ANZBGL Group handles a considerable amount of personal and confidential information about its customers and its own internal operations, from the multiple geographies in which the ANZBGL Group operates. This information is processed and stored on both internal and third party hosted environments. Any failure of security controls operated by the ANZBGL Group or its third parties could adversely affect the ANZBGL Group's business.

Information security risks for the ANZBGL Group have increased significantly in recent years in part because of the proliferation of technologies, such as the internet and mobile banking to conduct financial transactions, and the increased sophistication and activities of organised crime, hackers, terrorists, nation-states, activists and other external parties. Cyber threats, such as advanced persistent threats, distributed denial of service, malware and ransomware, are continuously evolving, becoming more sophisticated and increasing in volume. As cyber threats evolve, the ANZBGL Group expects to adapt to modify or enhance layers of defense or to investigate and remediate any information security vulnerabilities. System enhancements and updates may create risks associated with implementing new systems and integrating them with existing ones.

Following the COVID-19 pandemic, hybrid working has increased the number of staff working in flexible arrangements, which may increase information security risks to the ANZBGL Group. Cyber criminals may attempt to take advantage through pursuing exploits in end point security, spreading malware, and increasing phishing attempts. Furthermore, these risks may be further exacerbated by geopolitical risks.

In the past year, there has been a record level of exposure for individuals and organisations from data breaches. Millions of Australians and New Zealanders now have their data publicly exposed, coinciding with a significant rise in fraud and scams across the region. Failures in the ANZBGL Group's cybersecurity policies, procedures or controls, could result in loss of data or other sensitive information (including as a result of an outage) and may cause associated reputational damage. Any of these events could result in significant financial losses (including costs relating to notification of, or compensation for, customers), regulatory investigations or sanctions or may affect the ANZBGL Group's ability to retain and attract customers and may adversely affect the ANZBGL Group's Position.

Data management risks may adversely affect the ANZBGL Group's Position

Data management processes include capturing, processing, distributing, accessing, retaining and disposing of large quantities of data, including sensitive data. Data management is reliant on the ANZBGL Group's systems and technology. Data quality management is a key area of focus, as data is relied on to assess various issues and risk exposures. Any deficiencies in data quality, or the effectiveness of data gathering, analysis and validation processes, or failure to appropriately manage and maintain the ANZBGL Group's data, systems and technology, could result in ineffective risk management practices and, inaccurate risk reporting which may adversely impact the ANZBGL Group's Position. Furthermore, failure to comply with data management obligations, including regulatory obligations may cause the ANZBGL Group to incur losses, or result in regulatory action.

Modelling risks may adversely affect the ANZBGL Group's Position

The ANZBGL Group relies on a number of models for material business decision making including but not limited to lending decisions, calculating capital requirements, provision levels, customer compensation payments and stressing exposures. If the models used prove to be inadequately designed, implemented or maintained or based on incorrect assumptions or inputs, this may adversely impact the ANZBGL Group's Position.

Environmental, social and governance risks

Impact of future climate events, biodiversity loss, human rights, geological events, plant, animal and human diseases, and other extrinsic events may adversely affect the ANZBGL Group's Position

The ANZBGL Group and its customers are exposed to environmental, social and governance risks, including climate related events, geological events (such as volcanic or seismic activity or tsunamis), biodiversity loss including as a result of species extinction or decline, ecosystem degradation and nature loss ("**Biodiversity Loss**"), plant, animal and human diseases or pandemics such as COVID-19 and human rights risks. Each of these can cause significant impacts on the ANZBGL Group's operations and its customers.

Climate related events may include severe storms, drought, fires, cyclones, hurricanes, floods and rising sea levels. The impact of these events may be widespread through second order impacts. For example, the economic impacts of a drought may extend beyond primary producers to other customers of the

ANZBGL Group, including suppliers to the agricultural sector, and to those who reside in, and operate businesses within, affected communities. As a result, the ANZBGL Group may be exposed to climate-related events directly, and through the impact of these events on its customers (refer to risk factor "*Risks associated with lending to customers that could be directly or indirectly impacted by climate risk may adversely affect the ANZBGL Group's Position*").

Biodiversity Loss is an emerging risk that the ANZBGL Group is seeking to understand further. Biodiversity risks are closely linked to climate related risks. Biodiversity risks can arise from lending to customers that are dependent on nature or whose actions may have negative impacts on nature. These risks can also arise from legal and regulatory changes, which impact the ANZBGL Group directly or indirectly through the ANZBGL Group's customers. Failure to manage these risks may lead to financial and non-financial risks and may adversely affect the ANZBGL Group's Position. Human rights risks relate to the safety and security of the ANZBGL Group's people, labour rights, modern slavery, privacy and consumer protection, corruption and bribery and land rights. The ANZBGL Group uses risk based due diligence to identify human rights risks and impacts associated with its business relationships. Failure to manage these risks may adversely affect the ANZBGL Group's Position.

Laws and regulations relating to climate change, biodiversity, human rights, or other environmental, social or governance risks, as well as the perspectives of shareholders, employees and stakeholders, may affect whether and on what terms and conditions the ANZBGL Group engages in certain activities or offers certain products. Depending on their frequency and severity, these risks may interrupt or restrict the provision of services such as the ANZBGL Group branch or business centres or other Group services. They may also adversely affect the ANZBGL Group's financial condition or collateral position in relation to credit facilities extended to customers, which in turn may adversely affect the ANZBGL Group's Position.

The ANZBGL Group's risk management framework may fail to manage all existing risks appropriately or detect new and emerging risks fast enough, which could adversely affect the ANZBGL Group's Position

Risk management is an important part of the ANZBGL Group's activities. It includes the identification, measurement, monitoring and mitigation of the ANZBGL Group's risk and reporting on the ANZBGL Group's risk profile and effectiveness of identified controls. There is no assurance that the ANZBGL Group's risk management framework will be effective. This includes effectiveness in relation to existing risks and new and emerging risks that the ANZBGL Group may not anticipate or identify in a timely manner and for which its controls may not be effective. Failure to manage risks effectively could adversely impact the ANZBGL Group's reputation or compliance with regulatory obligations.

The effectiveness of the ANZBGL Group's risk management framework is connected to the establishment and maintenance of a sound risk management culture, supported by appropriate remuneration structures. A failure in designing or effectively implementing appropriate remuneration structures, could have an adverse impact on the ANZBGL Group's risk culture and effectiveness of the ANZBGL Group's risk management frameworks.

The ANZBGL Group seeks to continuously improve its risk management frameworks. It has implemented, and regularly reviews, its risk management policies and allocates additional resources across the ANZBGL Group to manage and mitigate risks. Such efforts may not insulate the ANZBGL Group from exposure to risks and no assurance is given that the ANZBGL Group's risk management framework will be effective. A failure in the ANZBGL Group's risk management processes or governance could result in the ANZBGL Group suffering unexpected losses and reputational damage, and failing to comply with regulatory obligations, which could adversely affect the ANZBGL Group's Position.

Risks associated with lending to customers that could be directly or indirectly impacted by climate risk may adversely affect the ANZBGL Group's Position

The ANZBGL Group's most material climate related risks arise from lending to business and retail customers. Customers may be affected directly by physical and transition risks. These include the effect of extreme weather events on a customer's business or property, including impacts to the cost and availability of insurance and insurance exclusions, changes to the regulatory and policy environment in

which the customer operates, disruption from new technology and changes in demand towards low carbon products and services. Climate related risks may indirectly affect a customer through impacts to its supply chain.

Climate risks may affect the ability of customers to repay debt, result in an increased probability of default, result in 'stranded assets' and impact the amount the ANZBGL Group is able to recover due to the value or liquidity of collateral held as security being impaired. Other recent examples of climate-related events in Australia that have impacted customer revenue include severe drought conditions, bushfires in 2019 and 2020, and severe flooding in 2021 and 2022. Similar events have occurred in New Zealand in recent years such as Cyclone Gabrielle in February 2023.

Risks associated with climate change are subject to increasing regulatory, political and societal focus.

Further embedding climate change risk into the ANZBGL Group's risk management framework and adapting the ANZBGL Group's operation and business strategy to address the risks and opportunities posed by climate change and the transition to a low carbon economy, could have a significant impact on the ANZBGL Group.

ADDITIONAL INFORMATION IN RELATION TO NZ SUBORDINATED NOTES

NZ Subordinated Notes issued under the Programme are subject to regulatory requirements relating to their redemption or amendments to their terms and are subordinate in right of payment to certain other obligations of ANZ Bank New Zealand.

Redemption and amendment

Redemption and amendment of the NZ Subordinated Notes are subject to certain conditions, including (in the case of redemption) the prior written approval of the RBNZ.

ANZ Bank New Zealand may not redeem any NZ Subordinated Note prior to its stated maturity date or purchase, or procure that any members of the ANZ Bank New Zealand Group purchase, any NZ Subordinated Notes without the prior written approval of the RBNZ. Investors in NZ Subordinated Notes should not expect that the RBNZ's approval will be given for any redemption or purchase of an NZ Subordinated Note. Additionally, ANZ Bank New Zealand will not be permitted to redeem any NZ Subordinated Note unless:

- (i) either:
 - (a) the NZ Subordinated Notes are replaced concurrently or beforehand with paid-up Regulatory Capital of the same or better quality and contributing at least the same regulatory capital amount (for the purposes of the RBNZ's capital adequacy requirements applying to ANZ Bank New Zealand at the time of the redemption) and the terms and conditions of the replacement instrument are sustainable for the income capacity of the ANZ Bank New Zealand Group; or
 - (b) if ANZ Bank New Zealand does not intend to replace the NZ Subordinated Notes that are the subject of the redemption, ANZ Bank New Zealand has demonstrated to the RBNZ's satisfaction that, after the redemption, the ANZ Bank New Zealand Group's capital ratios would be sufficiently above their respective minimums and the prudential capital buffer ratio would be sufficiently above its buffer trigger ratio; and
- (ii) ANZ Bank New Zealand has provided any information and supporting documentation required by the RBNZ's prudential regulatory requirements to the RBNZ.

ANZ Bank New Zealand must give the RBNZ at least five working days' prior notice of any modification, amendment or supplement in relation to an NZ Subordinated Note or any consent, waiver or other action that will have the effect of amending an NZ Subordinated Note. Such notification must be accompanied by, among other things, a signed opinion from ANZ Bank New Zealand's New Zealand legal counsel confirming that, once the modification, amendment, supplement, consent or waiver (as applicable) is in effect, the NZ Subordinated Notes will continue to qualify as Tier 2 Capital. ANZ Bank New Zealand would not be able to comply with the RBNZ notification requirement and, consequently, no modification, amendment, supplement, consent or waiver (as applicable) could be made or given if the effect of any such modification, amendment, supplement, consent or waiver (as applicable) would be that the NZ Subordinated Notes would no longer qualify as Tier 2 Capital. In addition, any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments made pursuant to the Conditions will be subject to ANZ Bank New Zealand giving the RBNZ at least five working days' prior notice in each case. Such notification must be accompanied by, among other things, a signed opinion from ANZ Bank New Zealand's New Zealand legal counsel confirming that, once the Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (as applicable) is in effect, the NZ Subordinated Notes will continue to qualify as Tier 2 Capital. ANZ Bank New Zealand would not be able to comply with the RBNZ notification requirement and, consequently, no Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (as applicable) in respect of NZ Subordinated Notes could be applied, if any such Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (as applicable) would have the effect of increasing the Rate of Interest contrary to applicable prudential regulatory requirements.

No set-off

Neither ANZ Bank New Zealand nor an NZ Subordinated Noteholder has any contractual right to set-off any sum at any time due and payable to an NZ Subordinated Noteholder or ANZ Bank New Zealand (as applicable) under or in relation to the NZ Subordinated Notes against amounts owing by the NZ Subordinated Noteholder to ANZ Bank New Zealand or by ANZ Bank New Zealand to the NZ Subordinated Noteholder (as applicable).

Status and subordination of NZ Subordinated Notes

The NZ Subordinated Notes constitute direct, unsecured and subordinated obligations of ANZ Bank New Zealand ranking equally among themselves. In the event of the liquidation of ANZ Bank New Zealand and prior to the commencement of the liquidation of ANZ Bank New Zealand, the principal amount of, any interest on, and any other payments in respect of the NZ Subordinated Notes will rank behind all claims of Senior Creditors, *pari passu* with Equal Ranking Securities and ahead of Junior Ranking Securities.

"Equal Ranking Securities" means all securities, instruments and other obligations that qualify as Tier 2 Capital or which rank or are expressed to rank equally with such securities, instruments or other obligations in a liquidation of ANZ Bank New Zealand, present and future.

"Junior Ranking Securities" means:

- (i) all fully paid securities and other instruments that qualify as Tier 1 Capital (including ordinary shares and perpetual preference shares), present and future; and
- (ii) all other securities and other instruments which rank or are expressed to rank behind Equal Ranking Securities, present and future.

"Senior Creditors" means a creditor (including a depositor) of ANZ Bank New Zealand to whom ANZ Bank New Zealand is indebted in respect of deposits and other liabilities, securities, instruments and other obligations of ANZ Bank New Zealand other than Equal Ranking Securities or Junior Ranking Securities, present and future.

Prior to the stated maturity of the NZ Subordinated Notes or the liquidation of ANZ Bank New Zealand, the obligation of ANZ Bank New Zealand to make payments (including of any principal and interest) on the NZ Subordinated Notes will be conditional on ANZ Bank New Zealand being Solvent (as defined in Condition 4(p) (*Definitions*)) at the time of, and immediately after, such payment by ANZ Bank New Zealand. Any such failure to pay will not be considered an event of default for the purposes of the NZ Subordinated Notes.

For further information see, "*Risk Factors—Risks related to the Notes—Risks related to NZ Subordinated Notes issued under the Programme*".

ANZ Bank New Zealand Ranking Table (Notes)

If ANZ Bank New Zealand becomes insolvent and is unable to pay its debts, a liquidator would be expected to make distributions to its creditors in accordance with a statutory order of priority. References herein to the "Final Terms" are to the Final Terms (or the relevant provisions thereof) endorsed on this Note.

Words and expressions defined in the Agency Agreement or used in the Final Terms shall have the same meanings where used in these Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Agreement and the Final Terms, the Final Terms will prevail.

1. **Form, Denomination and Title**

The Notes are issued in (i) bearer form ("**Bearer Notes**") or (ii) registered form ("**Registered Notes**") , in each case in the Specified Currency and in the denomination specified in the applicable Final Terms (the "**Specified Denomination**"). All Registered Notes shall have the same Specified Denomination.

This Note is a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, an Inverse Floating Rate Note, a Range Accrual Note, an Instalment Note, or a combination of any of the foregoing or may be an NZ Subordinated Note or any other relevant type of Note (as permitted by these Conditions), depending upon the Interest Basis or Redemption/Payment Basis or, in the case of an NZ Subordinated Note, depending on whether "NZ Subordinated Notes" is specified as applicable in the Final Terms. Notes issued as NZ Subordinated Notes must not be Zero Coupon Notes, Inverse Floating Rate Notes, Range Accrual Notes, Instalment Notes, CMS Rate Notes or any combination of any of the foregoing.

Bearer Notes are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable. Instalment Notes are issued with one or more Receipts attached.

Registered Notes are represented by registered certificates ("**Certificates**") and, save as provided in Condition 2(c), each Certificate shall represent the entire holding of Registered Notes by the same holder.

Title to the Bearer Notes and the Receipts, Coupons and Talons shall pass by delivery. Title to the Registered Notes shall, subject to mandatory rules of law, pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the "**Register**"). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Certificate, Note, Receipt, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or interest in it, any writing on it (or on the Certificate representing it) or its theft or loss (or that of the related Certificate) and no person shall be liable for so treating the holder.

In these Conditions, "**Noteholder**" means the bearer of any Bearer Note and the Coupons, Talons and Receipts relating to it or the person in whose name a Registered Note is registered, and "**NZ Subordinated Noteholder**" means the Noteholder of an NZ Subordinated Note and the Receipts relating to it or, where the NZ Subordinated Note is a Registered Note, the person in whose name it is registered and "**holder**" (in relation to a Note, Receipt, Coupon or Talon) means the bearer of any Bearer Note, Receipt, Coupon or Talon, the person in whose name a Registered Note is registered.

2. **Exchange and Transfers of Notes**

(a) *Exchange of Notes*

Registered Notes may not be exchanged for Bearer Notes and vice versa. Bearer Notes of one Specified Denomination may not be exchanged for Bearer Notes of another Specified Denomination.

(b) *Transfer of Registered Notes*

Registered Notes may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate duly completed and executed and such other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor.

(c) *Exercise of Options or Partial Redemption in Respect of Registered Notes*

In the case of an exercise of an Issuer's or Noteholder's option in respect of, or a partial redemption of, a holding of Registered Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In

the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

(d) *Delivery of New Certificates*

Each new Certificate to be issued pursuant to Condition 2(b) or (c) shall be available for delivery five business days after receipt of the request for exchange, form of transfer or Exercise Notice or surrender of the Certificate for exchange. Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such request for exchange, form of transfer, Exercise Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant request for exchange, form of transfer, Exercise Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Agent (as defined in the Agency Agreement) the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(d), "**business day**" means a day, other than a Saturday or Sunday, on which banks are open for business in the location of the specified office of the Registrar or the relevant Transfer Agent (as the case may be).

(e) *Exchange Free of Charge*

Exchange and transfer of Notes and Certificates on registration, transfer, partial redemption or exercise of an option shall be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any tax, duty or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Issuer, the Registrar or the relevant Transfer Agent may require).

(f) *Closed Period*

No Noteholder may require the transfer of a Registered Note to be registered (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Note, (ii) during the period of 15 days before any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 5(f), (iii) after any such Note has been called for redemption or (iv) during the period of seven days ending on (and including) any Record Date.

3. **Status and Guarantee**

None of the Notes are deposit liabilities or protected accounts of ANZBGL for the purposes of the Banking Act 1959 of Australia (the "**Banking Act**").

(a) *Status of the Notes (other than NZ Subordinated Notes)*

The Notes (other than NZ Subordinated Notes) and the Receipts and Coupons relating to them constitute direct, unconditional and unsecured obligations of the Issuer and (save for certain debts of the Issuer required to be preferred by law, including but not limited to, where the Issuer is ANZBGL, those referred to in Divisions 2 and 2AA of Part II of the Banking Act and section 86 of the Reserve Bank Act 1959 of Australia) rank *pari passu* among themselves and equally with all other unsecured, unsecured obligations of the Issuer.

The debts which are preferred by law to the claim of a Noteholder in respect of a Note, including by virtue of the provisions referred to in the above paragraph of Condition 3(a), will be substantial and are not limited by the Conditions of the Notes. Without limitation to other applicable laws, in the case of Notes issued by ANZBGL, section 13A(3) of the Banking Act provides that, in the event ANZBGL becomes unable to meet its obligations or suspends payment, its assets in Australia are to be available to meet ANZBGL's liabilities in the following order: (i) liabilities to the Australian Prudential Regulation Authority ("APRA") in respect of any payments that APRA makes or is liable to make to (A) holders of

protected accounts under the Banking Act or (B) a body corporate pursuant to a determination made by APRA in connection with a transfer of the ADI's business to that body corporate (where that transfer includes liabilities of the ADI in respect of protected accounts) under the Financial Sector (Transfer and Restructure) Act 1999 of Australia, (ii) debts in respect of costs of APRA in certain circumstances, (iii) ANZBGL's liabilities in Australia in relation to protected accounts (as defined in the Banking Act) kept with ANZBGL, (iv) debts due to the Reserve Bank of Australia ("RBA"), (v) liabilities under certain certified industry support contracts; and (vi) all other liabilities of ANZBGL in their order of priority apart from section 13A(3). Changes to applicable law may extend the debts required to be preferred by law.

Notes which are not subordinated will rank senior to the Issuer's subordinated obligations, including, where the Issuer is ANZ Bank New Zealand, the NZ Subordinated Notes.

(b) *NZ Subordinated Notes – ANZ Bank New Zealand*

The NZ Subordinated Notes and the Receipts and Coupons relating to them may only be issued by ANZ Bank New Zealand, and will constitute direct, unsecured and subordinated obligations of ANZ Bank New Zealand. In the event of the liquidation of ANZ Bank New Zealand (see Condition 10) and prior to the commencement of the liquidation of ANZ Bank New Zealand (see Condition 4(v)) the Principal Amount of, any interest on, and any other payments in respect of the NZ Subordinated Notes will rank behind all claims of Senior Creditors, pari passu with Equal Ranking Securities and ahead of Junior Ranking Securities.

"Equal Ranking Securities" means all securities, instruments and other obligations that qualify as Tier 2 Capital or which rank or are expressed to rank equally with such securities, instruments or other obligations in a liquidation of ANZ Bank New Zealand, present and future.

"Junior Ranking Securities" means:

- (i) all fully paid securities and other instruments that qualify as Tier 1 Capital (including ordinary shares and perpetual preference shares), present and future; and
- (ii) all other securities and other instruments which rank or are expressed to rank behind Equal Ranking Securities, present and future.

"Senior Creditors" means a creditor (including a depositor) of ANZ Bank New Zealand to whom ANZ Bank New Zealand is indebted in respect of deposits and other liabilities, securities, instruments and other obligations of ANZ Bank New Zealand other than Equal Ranking Securities or Junior Ranking Securities, present and future.

In a liquidation of ANZ Bank New Zealand an NZ Subordinated Noteholder's claim for an amount owing by ANZ Bank New Zealand in connection with an NZ Subordinated Note is subordinated to the claims of Senior Creditors of ANZ Bank New Zealand, in that:

- (i) all claims of Senior Creditors must be paid in full before the NZ Subordinated Noteholder's claim is paid; and
- (ii) until the Senior Creditors have been paid in full, the NZ Subordinated Noteholder must not claim in the liquidation of ANZ Bank New Zealand in competition with the Senior Creditors so as to diminish any distribution, dividend or payment which, but for that claim, the Senior Creditors would have been entitled to receive.

By its purchase of an NZ Subordinated Note, each NZ Subordinated Noteholder irrevocably acknowledges and agrees:

- (i) that ANZ Bank New Zealand's obligations in respect of the NZ Subordinated Note are subordinated to the payment of Senior Creditors, in the manner provided above;
- (ii) that, in accordance with section 313(3) of the Companies Act 1993 (New Zealand) (the "**Companies Act**"), it is accepting a lower priority in respect of the debt represented by the NZ

Subordinated Note than that which it would otherwise have under section 313 of the Companies Act;

- (iii) that nothing in sections 310 or 313 of the Companies Act will prevent these Conditions from having effect in accordance with their terms;
- (iv) not to exercise its voting rights as an unsecured creditor in the liquidation of ANZ Bank New Zealand to defeat the subordination in this Condition 3(b);
- (v) that it must pay or deliver to the liquidator any amount or asset received on account of its claim in the liquidation of ANZ Bank New Zealand in respect of the NZ Subordinated Note in excess of its entitlement under this Condition 3(b);
- (vi) that the subordination effected by this Condition 3(b) is not affected by any act or omission of ANZ Bank New Zealand or a Senior Creditor which might otherwise affect it at law or in equity; and
- (vii) neither ANZ Bank New Zealand nor an NZ Subordinated Noteholder has any contractual right to set-off any sum at any time due and payable to an NZ Subordinated Noteholder or ANZ Bank New Zealand (as applicable) under or in relation to the NZ Subordinated Notes against amounts owing by the NZ Subordinated Noteholder to ANZ Bank New Zealand or by ANZ Bank New Zealand to the NZ Subordinated Noteholder (as applicable).

The NZ Subordinated Notes do not limit the amount of liabilities ranking senior to the NZ Subordinated Notes which may be hereafter incurred or assumed by ANZ Bank New Zealand.

Claims of NZ Subordinated Noteholders are also subject to the priority of certain debts preferred by law.

Nothing in this Condition 3(b) shall be taken to require the consent of any Senior Creditor to any amendment of this Condition 3(b).

- (c) *Guarantee — by ANZ Bank New Zealand (in respect of Notes issued by ANZNIL)*

Where the relevant Issuer is ANZNIL, the Guarantor has in the Deed of Guarantee unconditionally and irrevocably guaranteed the due and punctual payment of all amounts due by ANZNIL under or in respect of the Notes as and when the same shall become due and payable. This Guarantee of the Notes constitutes direct, unconditional and unsecured obligations of the Guarantor which (save for certain debts of the Guarantor required to be preferred by law) will at all times rank *pari passu* among themselves and equally with all other unsubordinated, unsecured obligations of the Guarantor. The Notes issued by ANZ Bank New Zealand and ANZNIL are not guaranteed by ANZBGL.

4. **Interest and other Calculations**

- (a) *Interest on Fixed Rate Notes*

- (i) Each Fixed Rate Note bears interest on its outstanding Principal Amount from, and including, the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. Such Interest Payment Date(s) is/are either shown in the Final Terms as specified Interest Payment Dates or, if no Interest Payment Date(s) is/are specified in the Final Terms, Interest Payment Date shall mean each date which falls the number of months or other period shown in the Final Terms as the specified Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.
- (ii) If a Fixed Coupon Amount or a Broken Amount is specified in the Final Terms, the amount of interest payable on each Interest Payment Date will amount to the Fixed Coupon Amount or, if applicable, the Broken Amount so specified and in the case of the Broken Amount will be payable on the particular Interest Payment Date(s) specified in the Final Terms.

- (iii) *Calculation of Interest Amount:* The Interest Amount payable in respect of each Note for any period for which a Fixed Coupon Amount or Broken Amount is not specified in the Final Terms shall be calculated by applying the Rate of Interest to the Calculation Amount for such Note, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest unit of the Specified Currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen, and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. For this purpose, a "unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means 0.01 euro, as the case may be.
- (iv) *Business Day Convention:* If "Business Day Convention – Adjusted" is specified to be applicable in the relevant Final Terms, (a) any Interest Payment Date otherwise falling on a day which is not a Business Day (as defined in Condition 4(p) below) will be postponed or brought forward (as applicable) in accordance with the Business Day Convention set out in the relevant Final Terms (as described below) and (b) the amount of interest payable on such Interest Payment Date will be adjusted accordingly and the provisions of subparagraphs (g) and (h) (excluding the determination and notification of the Rate of Interest) below shall apply, *mutatis mutandis*, as though references to "Floating Rate Notes" were to "Fixed Rate Notes" and references to "Interest Amounts" were to amounts of interest payable in respect of Fixed Rate Notes. If "Business Day Convention – No Adjustment" is specified to be applicable in the relevant Final Terms, any Interest Payment Date otherwise falling on a day which is not a Business Day will be postponed or brought forward (as applicable) in accordance with the Business Day Convention set out in the relevant Final Terms (as described below) and there will be no corresponding adjustment of the amount of interest payable on such Interest Payment Date.
- (b) *Interest on Floating Rate Notes*
 - (i) *Interest Payment Dates:* Each Floating Rate Note bears interest on its outstanding Principal Amount from, and including, the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. Such Interest Payment Date(s) is/are either shown in the Final Terms as specified Interest Payment Dates or, if no Interest Payment Date(s) is/are specified in the Final Terms, Interest Payment Date shall mean each date which falls the number of months or other period shown in the Final Terms as the specified Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.
 - (ii) *Business Day Convention:* If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day (as defined in Condition 4(p) below), then that date will be adjusted in accordance with the Business Day Convention specified in the relevant Final Terms. If "No Adjustment of Interest Amounts" is specified to be applicable in the relevant Final Terms then notwithstanding the bringing forward or postponement (as applicable) of an Interest Payment Date as a result of the application of the Business Day Convention set out in the relevant Final Terms, the Interest Amount in respect of the relevant Interest Period and each subsequent Interest Period shall be calculated as aforesaid on the basis of the original Interest Payment Dates without adjustment in accordance with the applicable Business Day Convention.
 - (iii) *Rate of Interest for Floating Rate Notes:* The Rate of Interest in respect of Floating Rate Notes, other than in the case of (x) BBSW Notes or BKBM Notes, provisions in respect of which are set out in Condition 4(c) and Condition 4(d) below, (y) CMS Rate Notes, provisions in respect of which are set out in Condition 4(e) below and (z) Inverse Floating Rate Notes, provisions in respect of which are set out in Condition 4(f) below, for each Interest Accrual Period shall be determined in the manner specified in the Final Terms and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply depending upon which is specified in the Final Terms.

(A) *ISDA Determination for Floating Rate Notes*

If ISDA Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), "**ISDA Rate**" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) if the Final Terms specify either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:

 - (2) if Compounding with Observation Period Shift is specified as the Compounding Method in the relevant Final Terms then (a) Compounding with Observation Period Shift is the Overnight Rate Compounding Method, (b) Observation Period Shift is the number of Observation Period Shift Business Days specified in the relevant Final Terms and (c) Observation Period Shift Additional Business Days, if applicable, are the days specified in the relevant Final Terms; or

 - (F) if the specified Floating Rate Option is an Overnight Floating Rate Option, Averaging is specified to be applicable in the relevant Final Terms and:
 - (1) if Averaging with Lookback is specified as the Averaging Method in the relevant Final Terms then (a) Averaging with Lookback is the

Overnight Rate Averaging Method and (b) Lookback is the number of Applicable Business Days specified in the relevant Final Terms;

 - (iv) Unless otherwise defined in these Conditions, capitalised terms used in this Condition 4(b)(iii)(A) shall have the meaning ascribed to them in the ISDA Definitions.

- (B) *Screen Rate/Reference Bank Determination for Floating Rate Notes other than Floating Rate Notes referencing SONIA (Non-Index Determination), SONIA (Index Determination), SOFR (Non-Index Determination), SOFR (Index Determination), €STR (Non-Index Determination) or €STR (Index Determination)*

In respect of Floating Rate Notes other than Floating Rate Notes where the Reference Rate specified in the applicable Final Terms is SONIA (Non-Index Determination), SONIA (Index Determination), SOFR (Non-Index Determination), SOFR (Index Determination), €STR (Non-Index Determination) or €STR (Index Determination):

- (x) if Screen Rate Determination is specified in the applicable Final Terms as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be (subject to Condition 4(m) (*Benchmark Replacement*) and Condition 4(n)) (*Effect of Benchmark Transition Event*) (as determined by the Calculation Agent) on the following basis:
- (I) if the Reference Rate is a composite quotation or a quotation customarily supplied by one entity, the Calculation Agent will determine the Reference Rate for the Specified Maturity and the Specified Currency which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date; or
 - (II) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates for the Specified Maturity and the Specified Currency which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (y) if sub-paragraph (x)(I) applies and no Reference Rate for the Specified Maturity and the Specified Currency appears on the Relevant Screen Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (x)(II) applies and fewer than two Reference Rates appear on the Relevant Screen Page at the Relevant Time on the Interest Determination Date or if, in either case, the Relevant Screen Page is unavailable, subject as provided below:
- (A) the Issuer will appoint a Reference Banks Agent and the Reference Banks Agent will, at the request of the Issuer, request the principal Relevant Financial Centre office of each of the Reference Banks (or such of them, being at least two, as are so quoting) to provide a quotation of the Reference Rate for the Specified Maturity and the Specified Currency at approximately the Relevant Time on the Interest Determination Date to leading banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time and will provide such responses to the Calculation Agent; and
 - (B) the Calculation Agent will determine the arithmetic mean of such quotations.
- (z) if paragraph (y) above applies and the Reference Banks Agent advises the Calculation Agent that fewer than two Reference Banks are so quoting the Reference Rate for the Specified Maturity and the Specified Currency, subject as provided below, the Calculation Agent shall determine the arithmetic mean of the rates per annum (expressed as a percentage) quoted by at least two out of five leading banks selected by the Reference Banks Agent (after consultation with the Issuer) in the Principal Financial Centre of the country of the Specified Currency and in an amount that is representative for a single transaction in that market at that time, in each case as selected by the Reference Banks Agent (after consultation with the Issuer), at or about the Relevant Time for a period commencing on the Effective Date equivalent to the relevant Interest Accrual Period, for loans in the Specified Currency to leading banks carrying on business in (I) Europe, or (II) (if the Reference Banks Agent advises the Calculation Agent

that fewer than two of such banks are so quoting to such leading banks in Europe), the Principal Financial Centre, in either case, as provided by the Reference Banks Agent to the Calculation Agent; provided, however, that if fewer than two of such banks are so quoting to such leading banks or the Reference Banks Agent or the Calculation Agent (as the case may be) is unable to determine a rate or (as the case may be) the Calculation Agent is unable to determine an arithmetic mean in accordance with the above provisions on any Interest Determination Date, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum Rate of Interest or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

- (C) *Screen Rate Determination for Floating Rate Notes where the Reference Rate specified in the applicable Final Terms is SONIA (Non-Index Determination):*

Where the Reference Rate is specified in the applicable Final Terms as being "SONIA (Non-Index Determination)", the Rate of Interest for each Interest Period will, as provided below, be Compounded Daily SONIA as calculated by the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest).

"**Compounded Daily SONIA**" means, in relation to any Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling Overnight Index Average (SONIA) as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest) on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

"**d**" is the number of calendar days in the relevant Interest Accrual Period;

"**do**" is the number of London Banking Days in the relevant Interest Accrual Period;

"**i**" for any Interest Accrual Period is a series of whole numbers from one to do, each representing the relevant London Banking Day in chronological order from, and including, the first London Banking Day in such Interest Accrual Period;

"**London Banking Day**" or "**LBD**" means any day on which commercial banks are open for general business (including dealing in foreign exchange and foreign currency deposits) in London;

Payment Date for such Interest Accrual Period (or the date falling "p" London Banking Days prior to such earlier date, if any, on which the Notes become due and payable);

"p", for any Interest Accrual Period, the number of London Banking Days included in the Observation Look-Back Period, as specified in the applicable Final Terms, which shall, unless otherwise agreed with the Calculation Agent (or such other person specified in the applicable Final Terms as the Party responsible for calculating the Rate of Interest), be no less than five London Banking Days;

the "**SONIA reference rate**", in respect of any London Banking Day, is a reference rate equal to the daily Sterling Overnight Index Average ("**SONIA**") rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors (on the London Banking Day immediately following such London Banking Day); and

"**SONIA_{i-pLBD}**" means, in respect of any London Banking Day falling in the relevant Observation Period, the SONIA reference rate for the London Banking Day falling "p" London Banking Days prior to the relevant London Banking Day "i".

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions, the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest which would have been applicable to such Series of Notes for the first Interest Accrual Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Accrual Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Period).

If the relevant Series of Notes become due and payable in accordance with Condition 9, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

If any Notes in respect of which €STR (Non-Index Determination) is specified as the Reference Rate in the applicable Final Terms become due and payable in accordance with Condition 9 (*Events of Default*), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

(H) *Screen Rate Determination for Floating Rate Notes where the Reference Rate specified in the applicable Final Terms is €STR (Index Determination)*

Where the Reference Rate is specified in the applicable Final Terms as being €STR (Index Determination) the Rate of Interest for each Interest Period will, subject as provided below, be the Compounded Daily €STR Rate as determined by the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest) on the Interest Determination Date.

For the purposes of this Condition:

"**Compounded Daily €STR Rate**" means, in relation to an Interest Period, the rate of return of a daily compound interest investment (with the daily euro short-term rate ("€STR") as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest) on the Interest Determination Date in accordance with the following formula, and the resulting percentage will be rounded, if necessary, to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left(\frac{\text{€STR Index}_{\text{End}}}{\text{€STR Index}_{\text{Start}}} - 1 \right) \times \frac{360}{d}$$

where:

"**Designated Source**" means, the €STR Administrator's Website (or any successor source being such other screen page, display page or other information service of a distributor or other information service provider that is authorised by the €STR Administrator to publish or otherwise make available the €STR Index.);

"**€STR Administrator**" has the meaning set out in Condition 4(b)(iii)(G) above;

"**€STR Index**" means, with respect to any T2 Business Day, the screen rate or index for compounded daily €STR rates provided by the €STR Administrator that is published, displayed or made available on the Designated Source on the relevant Interest Determination Date;

"**€STR Index_{Start}**" means, with respect to an Interest Period, the €STR Index determined in relation to the day falling "p" T2 Business Days prior to the first day of such Interest Period;

"**€STR Index_{End}**" means with respect to an Interest Period, the €STR Index determined in relation to the day falling "p" T2 Business Days prior (A) to the Interest Payment Date for such Interest Period; or (B) such earlier date, if any, on which the Notes become due and payable;

"**d**" means the number of calendar days from (and including) the day in relation to which €STR Index_{Start} is determined to (but excluding) the day in relation to which €STR Index_{End} is determined;

"p" is the number of T2 Business Days included in the Observation Look-back Period specified in the applicable Final Terms; and

"**T2 Business Day**" means any day on which the T2 System (as defined in Condition 4(p)) is open.

If the relevant €STR Index is not published, displayed or made available on the Designated Source by 5.00 p.m. (Central European Time) (or, if later, by the time falling one hour after the customary or scheduled time for publication thereof in accordance with the then prevailing operational procedures of the €STR Administrator of €STR or such other information service provider, as the case may be) on the relevant Interest Determination Date, the Compounded Daily €STR Rate for the applicable Interest Period for which the €STR Index is not available shall be "Compounded Daily €STR" determined in accordance with Condition 4(b)(iii)(G) (*€STR (Non-Index Determination)*), and for these purposes: (i) the "Observation Method" shall be deemed to be "Observation Shift" and (ii) the "Observation Look-Back Period" shall be deemed to be equal to "p" T2 Business Days, as if those alternative elections had been made in the applicable Final Terms.

If any Notes in respect of which €STR (Index Determination) is specified as the Reference Rate in the applicable Final Terms become due and payable in accordance with Condition 9 (Events of Default), the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Final Terms, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

For the avoidance of doubt, if a Benchmark Disruption Event has occurred in respect of the relevant €STR Reference Rate, the provisions of Condition 4(m) (*Benchmark Replacement*) shall apply.

(c) *Rate of Interest on BBSW Notes*

If a Note is specified to be a BBSW Note, the Rate of Interest for each Interest Accrual Period will, subject to Condition 4(m) (*Benchmark Replacement*), be determined by the Calculation Agent on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following:

- (iii) if on any Interest Determination Date, the Rate of Interest cannot be determined by reference to any of sub-paragraphs (i) and (ii) above, the Rate of Interest for the relevant Interest Accrual Period shall be the Rate of Interest in effect for the last preceding Interest Accrual Period (after

readjustment for any difference between any Margin, Rate Multiplier or Maximum or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(d) *Rate of Interest on BKBM Notes*

If a Note is specified to be a BKBM Note, the Rate of Interest for each Interest Accrual Period will be (subject to Condition 4(m) (*Benchmark Replacement*)) determined by the Calculation Agent on the Interest Determination Date in respect of such Interest Accrual Period in accordance with the following:

- (i) the Rate of Interest shall be the Bank Bill Reference Rate (FRA) (rounded, if necessary, to the fifth decimal place) administered by the New Zealand Financial Benchmark Facility ("**NZFBF**") (or any other person which takes over the administration of that rate) as set forth on the display page designated on the Bloomberg BKBM page 'GDCO 2805' (or any successor page) ("**BKBM Page**"), or such other information service as may replace the BKBM Page, at or about the Relevant Time (or such other time at which such rate customarily appears on that page (the "**Publication Time**")) on the relevant Interest Determination Date in respect of such Interest Accrual Period;
- (ii) if, by 11.00 a.m. Wellington time (or such other time that is 15 minutes after the then prevailing Publication Time), on any Interest Determination Date, such rate does not appear on the BKBM Page, the Rate of Interest means the equivalent rate provided by NZFBF (or any person that takes over the administration of that rate) (rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards) at or around 11.00 a.m. Wellington time (or such other time that is 15 minutes after the then prevailing Publication Time) on the Interest Determination Date in question; and
- (iii) if, on any Interest Determination Date, the Rate of Interest cannot be determined by reference to any of sub-paragraphs (i) and (ii) above, the Rate of Interest for the relevant Interest Accrual Period shall be the Rate of Interest in effect for the last preceding Interest Accrual Period (after readjustment for any difference between any Margin, Rate Multiplier or Maximum or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).

(e) *Rate of Interest on CMS Rate Notes*

If the relevant rate does not appear on the CMS Screen Page at the CMS Reference Time, the CMS Rate will (subject to Condition 4(m) (*Benchmark Replacement*) and Condition 4(n) (*Effect of Benchmark Transition Event*)) be determined in accordance with the following procedures:

- (i) the Issuer will appoint a Reference Banks Agent and the Calculation Agent will determine the CMS Rate on the basis of the arithmetic mean of the Mid-Market Quotations notified to it by the Reference Banks Agent and which have been provided to the Reference Banks Agent by the CMS Reference Banks at approximately the CMS Reference Time on the Interest Determination Date in respect of such Interest Period by the Reference Banks Agent (at the request of the Issuer) requesting the principal Relevant Financial Centre office of each of the CMS Reference Banks to provide Mid-Market Quotations. If at least five Mid-Market Quotations are provided, the Reference Banks Agent shall provide these to the Calculation Agent who will determine the arithmetic mean of Mid-Market Quotations so provided by discarding the highest of such Mid-Market Quotations (or in event of equality, one of the highest) and lowest of such Mid-Market Quotations (or in event of equality, one of the lowest). If four Mid-Market Quotations are provided, the Reference Banks Agent shall provide these to the Calculation Agent who will

determine the arithmetic mean of such Mid-Market Quotations provided. All calculations of the arithmetic mean of the relevant number of Mid-Market Quotations provided pursuant to this paragraph will be rounded to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards; and

- (ii) If less than four Mid-Market Quotations are provided, the CMS Rate for that Interest Determination Date will be the same as the rate used for the prior Interest Reset Period.

Where any Interest Payment Date or Interest Accrual Period is subject to adjustment pursuant to Condition 4(a)(iv) or Condition 4(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Accrual Period. If the Calculation Amount is less than the minimum Specified Denomination, the Calculation Agent shall not be obligated to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination. If the Notes become due and payable under Condition 9 (*Events of Default*), the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) or such other person specified in the applicable Final Terms as the party responsible for making any such calculation or determination shall (in the absence of manifest error) be final and binding upon all parties.

(m) *Benchmark Replacement*

This Condition 4(m) (*Benchmark Replacement*) applies where the relevant Reference Rate specified in the applicable Final Terms is a rate other than SOFR (Non-Index Determination) or SOFR (Index Determination). Notwithstanding the provisions above in Conditions 4(b), (c), (d), (e) and (f), if the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Final Terms as the party responsible for calculating the Rate of Interest)) determines that a Benchmark Disruption Event has occurred when any Rate of Interest (or the relevant component part thereof) remains to be determined by reference to such Reference Rate affected by the Benchmark Disruption Event, then the following provisions shall apply:

(i) **Independent Adviser**

The Issuer shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, with a view to the Independent Adviser determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 4(m)(ii)) and, in either case, an Adjustment Spread if any (in accordance with Condition 4(m)(iv)) and any Benchmark Amendments (in accordance with Condition 4(m)(v)).

(ii) **Successor Rate or Alternative Rate**

If the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines, no later than the IA Determination Cut-off Date that: (A) there is a Successor Rate, then it shall notify the Calculation Agent and the Calculation Agent shall use such Successor Rate (subject to adjustment as provided in Condition 4(m)(iv)) in place of the Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 4(m)); or (B) there is no Successor Rate but that there is an Alternative Rate, then it shall notify the Calculation Agent and the Calculation Agent shall use such Alternative Rate

(subject to adjustment as provided in Condition 4(m)(iv)) in place of the Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 4(m)).

(iii) **Issuer Determination**

If the Issuer is unable to appoint an Independent Adviser, or if the Independent Adviser appointed by it fails to determine a Successor Rate or Alternative Rate prior to the IA Determination Cut-off Date, then, if it elects to do so, the Issuer (acting in good faith and in a commercially reasonable manner) may determine a Successor Rate or Alternative Rate for the purposes of Condition 4(m)(ii);

(iv) **Adjustment Spread**

If the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, determines (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then the Independent Adviser (or the Issuer as the case may be) shall notify the Calculation Agent of such Adjustment Spread and the Calculation Agent shall apply it to the Successor Rate or the Alternative Rate (as the case may be).

(v) **Benchmark Amendments**

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 4(m) and the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, determines (i) that amendments to these Conditions and/or the Agency Agreement and/or any other agreement or document relating to the Notes are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "**Benchmark Amendments**") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 4(m)(vi), without any requirement for the consent or approval of Noteholders, at the Issuer's expense, vary these Conditions and/or the Agency Agreement and/or any other agreement or document relating to the Notes as is necessary to give effect to such Benchmark Amendments with effect from the date specified in such notice. The Fiscal Agent and/or each other party to an applicable agreement shall not be obliged to concur if in their opinion doing so would impose more onerous obligations on them or expose them to any additional duties, responsibilities or liabilities or reduce or amend their rights and/or the protective provisions afforded to them in these Conditions or in any other document to which they are a party in any way. For the avoidance of doubt, no consent of the Noteholders of the relevant Series shall be required in connection with effecting the Benchmark Amendments or such other changes, including for the execution of any documents or the taking of other steps by the Issuer or any of the parties to the Agency Agreement (if required). In connection with any such variation in accordance with this Condition 4(m)(v), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(vi) **Notices, etc.**

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 4(m) will be notified promptly, and in any event not later than the fifth Business Day prior to the Interest Determination Date by the Issuer to the Fiscal Agent, the Calculation Agent, and each other party to the Agency Agreement and the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any, and will be binding on the Issuer, the Fiscal Agent, the Calculation Agent and each other party to the Agency Agreement and the Noteholders.

(vii) **Survival of Reference Rate**

Without prejudice to the provisions of this Condition 4(m), the Reference Rate and the fallback provisions provided for in Condition 4(b)(iii)(B) will continue to apply unless and until the Calculation Agent has been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread and Benchmark Amendments, in accordance with Condition 4(m)(v).

For the avoidance of doubt and notwithstanding any other provision of this Condition 4(m), in determining any Adjustment Spread or other relevant methodology for the purposes of Condition 4(m)(iii), the Issuer shall not and shall not be obliged to apply and may discount any Adjustment Spread or methodology the application of which may constitute it an administrator for the purposes of Regulation (EU) 2016/1011 or Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended.

In the case of NZ Subordinated Notes only, any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments determined in accordance with Condition 4(m)(ii), (iii), (iv) or (v) (*Benchmark Replacement*), will be subject to ANZ Bank New Zealand giving the RBNZ at least five working days' prior notice of any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments determined in accordance with Condition 4(m)(ii), (iii), (iv) or (v) (*Benchmark Replacement*) in each case, such notice to be accompanied by any supporting documentation required by the RBNZ's prudential regulatory requirements, including a signed opinion from ANZ Bank New Zealand's New Zealand legal counsel confirming that, once the Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (as applicable) is in effect, such NZ Subordinated Notes will continue to qualify as Tier 2 Capital.

NZ Subordinated Noteholders should note that ANZ Bank New Zealand would not be able to comply with the RBNZ notification requirement and that, consequently, no Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (as applicable) could be applied, if the effect of any such Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments (as applicable) would be that such NZ Subordinated Notes would no longer qualify as Tier 2 Capital (as defined in Condition 4(p) in respect of ANZ Bank New Zealand).

For the purposes of this Condition 4(m) (*Benchmark Replacement*):

"**Adjustment Spread**" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or (if no such recommendation has been made, or in the case of an Alternative Rate);
- (ii) the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions or is in customary market usage in the debt capital market for transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be) (or if the Independent Adviser (or the Issuer as the case may be) determines that no such industry standard is recognised or acknowledged); or
- (iii) the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), in its discretion, and acting in good faith and in a commercially reasonable manner, determines to be appropriate.

"Alternative Rate" means an alternative benchmark or screen rate which the Independent Adviser (or the Issuer as the case may be) determines in accordance with Condition 4(m)(ii) has replaced the Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and in the same Specified Currency as the Notes.

"Benchmark Amendments" has the meaning given to it in Condition 4(m)(v).

"IA Determination Cut-Off Date" means no later than five Business Days prior to the relevant Interest Determination Date relating to the next relevant Interest Period.

"Benchmark Disruption Event" means:

- (ii) the Issuer determines after consulting with the Independent Adviser (if so appointed) that, a change in the generally accepted market practice in the international debt capital markets to refer to a Reference Rate is endorsed in a public statement by a Relevant Nominating Body, despite the continued existence of the applicable Reference Rate,

"Reference Rate" means the originally-specified benchmark or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes or any Successor Rate or Alternative Rate which has been determined in relation to such benchmark or screen rate (as applicable) pursuant to the operation of this Condition.

"Relevant Nominating Body" means, in respect of a Reference Rate:

- (i) the central bank for the currency to which the Reference Rate relates, or any central bank or other supervisory authority which is responsible for administering or supervising the administrator of the Reference Rate;
- (ii) any working group or committee sponsored by, chaired or co-chaired by or constituted at the request of (a) the central bank for the currency to which the Reference Rate relates, (b) any central bank or other supervisory authority which is responsible for administering or supervising the administrator of the Reference Rate, (c) a group of the aforementioned central banks or other supervisory authorities, or (d) the Financial Stability Board or any part thereof; or

"Successor Rate" means a successor to or replacement of the Reference Rate which is formally recommended by any Relevant Nominating Body.

- (n) *Effect of Benchmark Transition Event*

This Condition 4(n) (*Effect of Benchmark Transition Event*) applies where the relevant Reference Rate specified in the applicable Final Terms is SOFR (Non-Index Determination) or SOFR (Index Determination) (and for the avoidance of doubt, any subsequent Benchmark determined as a result of a Benchmark Replacement determination):

- (i) **Benchmark Replacement**

If the Issuer or its designee determines that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred prior to the Reference Time in respect of any determination of the Benchmark on any date, the Benchmark Replacement will

replace the then-current Benchmark for all purposes relating to the Notes in respect of such determination on such date and all determinations on all subsequent dates.

(ii) **Benchmark Replacement Conforming Changes**

In connection with the implementation of a Benchmark Replacement, the Issuer or its designee will have the right to make Benchmark Replacement Conforming Changes from time to time.

(iii) **Decisions and Determinations**

Any determination, decision or election that may be made by the Issuer or its designee pursuant to this Condition 4(n) (*Effect of Benchmark Transition Event*), including any determination with respect to a tenor, rate or adjustment or of the occurrence or non-occurrence of an event, circumstance or date and any decision to take or refrain from taking any action or any selection, (x) will be conclusive and binding absent manifest error, (y) will be made in the Issuer or its designee's sole discretion, and, (z) notwithstanding anything to the contrary in the in these Conditions or any other documentation relating to the Notes, shall become effective without consent from the Noteholders or any other party.

For the avoidance of doubt and notwithstanding any other provision of this Condition 4(n), in determining any Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment or for the purposes of making any other determination for the purposes of this Condition, the Issuer shall not and shall not be obliged to apply and may discount any factor or methodology the application of which may constitute it an administrator for the purposes of Regulation (EU) 2016/1011 in the European Union or as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended.

In the case of NZ Subordinated Notes only, any Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment determined in accordance with this Condition 4(n) (*Effect of Benchmark Transition Event*), will be subject to ANZ Bank New Zealand giving the RBNZ at least five working days' prior notice of any Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment determined in accordance with this Condition 4(n) (*Effect of Benchmark Transition Event*) in each case, such notice to be accompanied by any supporting documentation required by the RBNZ's prudential regulatory requirements, including a signed opinion from ANZ Bank New Zealand's New Zealand legal counsel confirming that, once the Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment is in effect, such NZ Subordinated Notes will continue to qualify as Tier 2 Capital.

NZ Subordinated Noteholders should note that ANZ Bank New Zealand would not be able to comply with the RBNZ notification requirement and that, consequently, no Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment (as applicable) could be applied, if the effect of any such Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment (as applicable) would be that such NZ Subordinated Notes would no longer qualify as Tier 2 Capital (as defined in Condition 4(p) in respect of ANZ Bank New Zealand).

For the purposes of this Condition 4(n) (*Effect of Benchmark Transition Event*):

"Benchmark" means, initially, the relevant Reference Rate specified in the applicable Final Terms where such Reference Rate is specified to be SOFR (Index Determination) or SOFR (Non-Index Determination); provided that if the Issuer or its designee determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to SOFR (Index Determination) or SOFR (Non-Index Determination) (or the published daily SOFR or SOFR Index used in the calculation thereof), as applicable, or the then-current Benchmark, then "Benchmark" means the applicable Benchmark Replacement.

- (iii) the sum of: (a) the alternate rate of interest that has been selected by the Issuer or its designee as the replacement for the then-current Benchmark (for the applicable Corresponding Tenor, if any) giving due consideration to any industry-accepted rate of interest as a replacement for the then-current Benchmark for U.S. dollar-denominated floating rate notes at such time and (b) the Benchmark Replacement Adjustment.

Where more than one Calculation Agent is appointed in respect of the Notes, references in these Conditions to the Calculation Agent shall be construed as each Calculation Agent performing its respective duties under the Conditions. If the Calculation Agent is unable or unwilling to act as such or if the Calculation Agent fails duly to establish the Rate of Interest for an Interest Accrual Period or to calculate any Interest Amount, Instalment Amount, Final Redemption Amount or Optional Redemption Amount or to comply with any other requirement, the Issuer or, failing which and if applicable, the Guarantor shall appoint a leading bank or investment banking firm engaged in the inter-bank market (or, if appropriate, money, swap or over-the-counter index options market) that is most closely connected with the calculation or determination to be made by the Calculation Agent (acting through its principal London office or any other office actively involved in such market) to act as such in its place. (u) *Conditions of Payment in respect of NZ Subordinated Notes*

At any time before the Maturity Date or the liquidation of ANZ Bank New Zealand:

- (i) payment by ANZ Bank New Zealand of interest, principal or any other payments owing to an NZ Subordinated Noteholder in connection with an NZ Subordinated Note is conditional upon ANZ Bank New Zealand being Solvent at the time the payment is due; and
- (ii) ANZ Bank New Zealand must not pay any amount to an NZ Subordinated Noteholder in connection with an NZ Subordinated Note except to the extent that ANZ Bank New Zealand may pay the amount and still be Solvent immediately after paying the amount,

and if, pursuant to this Condition, ANZ Bank New Zealand fails to make any payment of principal, or interest, or any other payment (including additional amounts) in respect of any NZ Subordinated Note when due, such failure will not constitute an Event of Default for the purposes of Condition 9(b)(ii).

A certificate signed by an authorised signatory or an auditor of ANZ Bank New Zealand or, in a liquidation of ANZ Bank New Zealand, its liquidator as to whether ANZ Bank New Zealand is Solvent at any time is (in the absence of wilful default, bad faith or manifest error) conclusive evidence of the information contained in the certificate and will be binding on the NZ Subordinated Noteholders. In the absence of any such certificate, the NZ Subordinated Noteholders are entitled to assume (unless the contrary is proved) that ANZ Bank New Zealand is Solvent at the time of, and will be Solvent immediately after, any payment on or in respect of the NZ Subordinated Notes.

Any amount not paid due to this Condition 4(v) accumulates and remains a debt owing to the NZ Subordinated Noteholder by ANZ Bank New Zealand until it is paid and will be payable on the first Business Day on which the solvency condition in this Condition 4(v) is satisfied (whether or not such date is otherwise a payment date).

If for any reason any Principal Amount has not been paid in full on the Maturity Date, interest will continue to accrue (after as well as before any demand judgment) on the unpaid Principal Amount at the applicable Rate of Interest to the date on which payment in full of the Principal Amount is made. If for any reason (including because of the solvency condition to payment in this Condition 4(v)) an Interest Amount has not been paid in full on the relevant Interest Payment Date, then the unpaid amount of such Interest Amount will earn interest at the applicable Rate of Interest that applies to the NZ Subordinated Notes, accruing daily, to the date on which payment in full of the Interest Amount is made. Such accrued interest is payable on the date on which the relevant Principal Amount or Interest Amount is paid in full.

5. **Redemption, Purchase and Options**

The outstanding Principal Amount of each such Note shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the Principal Amount of such Note, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused on

presentation of the related Receipt, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.

- (ii) Unless previously redeemed, purchased and cancelled as provided below or its maturity is extended pursuant to any Issuer's or Noteholder's option in accordance with Condition 5(f) or 5(e), each Note shall be finally redeemed on the Maturity Date specified in the Final Terms at its Final Redemption Amount or, in the case of a Note falling within paragraph (i) above, its final Instalment Amount.

Prior to the publication of any notice of redemption pursuant to this Condition 5(b), the Issuer shall deliver to the Fiscal Agent a certificate signed by two persons each of whom is either a Director, a Senior Executive, an authorised representative or of equivalent status of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of the facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred.

which directly or indirectly affects the taxation treatment in relation to the NZ Subordinated Note with the effect that any member of the ANZ Bank New Zealand Group would be exposed to an increase to its costs in relation to any NZ Subordinated Note (an "**NZ Subordinated Note Tax Event**"), provided that such event is not minor and could not reasonably have been anticipated by ANZ Bank New Zealand at the Issue Date, ANZ Bank New Zealand may at its option, at any time (if this NZ Subordinated Note is not a Floating Rate Note) or on any Interest Payment Date (in the case of Floating Rate Notes) and subject to Condition 5(j), on giving not more than 60 nor less than 30 days' notice to the NZ Subordinated Noteholders of the relevant Series (which notice shall be irrevocable) redeem all, but not some only, of the NZ Subordinated Notes of the relevant Series at their Early Redemption Amount together with interest accrued to the date fixed for redemption, provided that no such notice of redemption shall be

given earlier than 90 days prior to the earliest date on which the relevant member of the ANZ Bank New Zealand Group would be exposed to an increase to its costs in relation to the NZ Subordinated Note. Prior to the publication of any notice of redemption pursuant to this Condition 5(c), ANZ Bank New Zealand shall deliver to the Fiscal Agent a certificate signed by an authorised signatory of ANZ Bank New Zealand stating that ANZ Bank New Zealand is entitled to effect such redemption and setting forth a statement of the facts showing that the conditions precedent to the right of the ANZ Bank New Zealand so to redeem have occurred.

Prior to the publication of any notice of redemption pursuant to this Condition 5(d), ANZ Bank New Zealand shall deliver to the Fiscal Agent a certificate signed by an authorised signatory of ANZ Bank New Zealand stating that ANZ Bank New Zealand is entitled to effect such redemption and setting forth a statement of the facts showing that the conditions precedent to the right of ANZ Bank New Zealand so to redeem have occurred.

For the purposes of this Condition 5(d):

"**NZ Subordinated Note Regulatory Event**" means a determination by ANZ Bank New Zealand, in its absolute discretion, that there has been, or there will be, any amendment to, clarification of, change in or to, change in the interpretation, application or administration of, or imposition of:

- (i) any law, regulation or directive in New Zealand;
- (ii) any official administrative pronouncement or action or judicial decision interpreting or applying any law, regulation or directive in New Zealand; or

(e) *Early Redemption of Zero Coupon Notes*

- (i) The Early Redemption Amount payable in respect of any Zero Coupon Note that does not bear interest prior to the Maturity Date, the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 5(b) or upon it becoming due and payable as provided in Condition 9(a), shall be the Amortised Face Amount (calculated as provided below) of such Note.
- (ii) Subject to the provisions of sub-paragraph (iii) below, the "**Amortised Face Amount**" of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted to the date of its early redemption at a rate per annum (expressed as a percentage)

equal to (A) where Compound Interest is specified in the Final Terms, the "**Amortisation Yield**" (which, if none is set out in the Final Terms, shall be such rate as would produce an Amortised Face Amount equal to the Issue Price of the Notes if such Notes were discounted back from the Maturity Date to the Issue Date) compounded annually, or (B) where Linear Interest is specified in the Final Terms, an amount per Calculation Amount calculated in accordance with the following formula:

$$\begin{aligned} \textit{Amortised Face Amount} \\ = \textit{Calculation Amount} + (\textit{Accreting Payment Amount} \times A) + B \end{aligned}$$

- (iii) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 5(b) or upon it becoming due and payable as provided in Condition 9(a) is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Face Amount of such Note as defined in sub-paragraph (ii) above, except that such sub-paragraph shall have effect as though the reference therein, in the case of sub-paragraph (A), to the date on which the Note becomes due and payable or, in the case of sub-paragraph (B), the Early Redemption Date, were replaced by a reference to the Relevant Date. The calculation of the Amortised Face Amount in accordance with this sub-paragraph shall continue to be made (after, as well as before, judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 4(i).

So long as the Notes are listed on the Official List of the UK Financial Conduct Authority and admitted to trading on the main market of the London Stock Exchange and/or admitted to listing, trading and/or quotation on any other listing authority, stock exchange and/or quotation system and the rules of the relevant listing authority, stock exchange and/or quotation system so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in a leading newspaper of general circulation in London (which is expected to be the *Financial Times*), or as specified by such other listing authority, stock exchange and/or quotation system, a notice specifying the aggregate principal amount of Notes outstanding and a list of the Notes drawn for redemption but not surrendered.

(g) *Redemption at the Option of Noteholders and Exercise of Noteholders' Options*

If Put Option is specified in the Final Terms, the Issuer shall, at the option of the holder of such Note, upon the holder of such Note giving not less than 15 nor more than 30 days' notice to the Issuer (subject to such other notice period as may be specified in the Final Terms, under "Option Exercise Date(s)"), redeem such Note on the Optional Redemption Date(s) so provided at its Optional Redemption Amount together with interest accrued to the date fixed for redemption.

To exercise such option or any other Noteholder's option that may be set out in the Final Terms the holder must deposit (in the case of Bearer Notes) such Note (together with all unmatured Receipts and Coupons and unexchanged Talons) with any Paying Agent or (in the case of Registered Notes) the Certificate representing such Note(s) with the Registrar or any Transfer Agent at its specified office, together with a duly completed option exercise notice ("**Exercise Notice**") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable) within the notice period. No Note or Certificate so deposited and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer, except that such Note or Certificate will be returned to the relevant Noteholder by the Paying Agent, the Registrar or Transfer Agent with which it has been deposited if, prior to the due date for its redemption or the exercise of the option, the Note becomes immediately due and payable or if upon due presentation payment of the redemption moneys is not made or exercise of the option is denied.

(h) *Purchases*

Where ANZBGL is the Issuer of this Note, ANZBGL is taken to represent as at the date of issue of this Note, that it does not know, or have any reasonable grounds to suspect, that this Note or any interest in this Note is being or will later be, acquired either directly or indirectly by an Offshore Associate of ANZBGL (acting other than in the capacity of a dealer, manager or underwriter in relation to the placement of this Note or a clearing house, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act 2001 of Australia (the "**Corporations Act**")).

Except in the case of NZ Subordinated Notes, the Issuer, the Guarantor and any of their respective subsidiaries may, to the extent permitted by applicable laws and regulations, at any time purchase Notes (provided that all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise.

Notes purchased by the Issuer, the Guarantor or any of their respective subsidiaries may be surrendered by the purchaser through the Issuer to the Fiscal Agent or any Paying Agent for cancellation or may at the option of the Issuer, the Guarantor or the relevant subsidiary be held or resold.

In the case of NZ Subordinated Notes, subject to Condition 5(j), ANZ Bank New Zealand and any of its Subsidiaries may, to the extent permitted by applicable laws and regulations, at any time purchase NZ Subordinated Notes (provided that all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise. NZ Subordinated Notes so purchased by ANZ Bank New Zealand or any of its Subsidiaries may be surrendered by the purchaser through ANZ Bank New Zealand to the Fiscal Agent or any Paying Agent for cancellation or may at the option of ANZ Bank New Zealand or the relevant Subsidiary be held or resold.

(i) either:

(A) the NZ Subordinated Notes the subject of the redemption are replaced concurrently or beforehand with paid-up Regulatory Capital of the same or better quality and contributing at least the same regulatory capital amount (for the purposes of the RBNZ's capital adequacy requirements applying to ANZ Bank New Zealand at the time of the redemption) and the terms and conditions of the replacement instrument are sustainable for the income capacity of the ANZ Bank New Zealand Group; or

(B) if ANZ Bank New Zealand does not intend to replace the NZ Subordinated Notes the subject of the redemption, ANZ Bank New Zealand has demonstrated to the RBNZ's satisfaction that, after the redemption, the ANZ Bank New Zealand Group's capital ratios would be sufficiently above their respective minimums and the prudential capital buffer ratio would be sufficiently above its buffer trigger ratio; and

(ii) ANZ Bank New Zealand has provided any information and supporting documentation required by the RBNZ's prudential regulatory requirements to the RBNZ.

NZ Subordinated Noteholders should not expect that the RBNZ's approval will be given for any redemption or purchase of NZ Subordinated Notes.

(a) *Bearer Notes*

Payments of principal and interest in respect of Bearer Notes shall, subject as mentioned below, be made against presentation and surrender of the relevant Receipts (in the case of payments of Instalment

- (i) payments in a Specified Currency other than euro will be made by transfer to an account in the relevant Specified Currency maintained by the payee with, or by a cheque in such Specified Currency drawn on, a bank in the Principal Financial Centre of the country of such Specified Currency (which (A) if the Specified Currency is New Zealand dollars shall be Wellington and Auckland; provided that where ANZNIL is the Issuer such account and bank shall be located outside of New Zealand, (B) if the Specified Currency is Australian dollars, shall be Sydney and (C) if the Specified Currency is Renminbi, shall be Hong Kong); and

(b) *Registered Notes*

- (i) Payments of principal (which for the purposes of this Condition 6(b) shall include final Instalment Amounts but not other Instalment Amounts) in respect of Registered Notes shall be made against presentation and surrender of the relevant Certificates at the specified office of any of the Transfer Agents or of the Registrar in the manner provided in sub-paragraph (ii) below.
- (ii) Interest (which for the purpose of this Condition 6(b) shall include all Instalment Amounts other than final Instalment Amounts) on Registered Notes shall be paid to the person shown on the Register at the close of business on the 15th day before the due date for payment thereof (the "**Record Date**"). Payments of interest in respect of each Registered Note shall be made in the relevant Specified Currency by cheque drawn on a bank in the Principal Financial Centre of the country of such Specified Currency (which (A) if the Specified Currency is New Zealand dollars shall be Wellington and Auckland provided that where ANZNIL is the Issuer such account and bank shall be located outside of New Zealand, and (B) if the Specified Currency is Australian dollars, shall be Sydney and (C) if the Specified Currency is Renminbi, shall be Hong Kong), and mailed to the holder (or the first-named of joint holders) of such Note at its address appearing in the Register. (c) *Payments in the United States*

Notwithstanding the foregoing, if any Bearer Notes are denominated in U.S. dollars, payments in respect thereof may be made at the specified office of any Paying Agent in New York City in the same manner as aforesaid if (i) the Issuer shall have appointed Paying Agents with specified offices outside the United States with the reasonable expectation that such Paying Agents would be able to make payment of the amounts on the Notes in the manner provided above when due, (ii) payment in full of such amounts at

all such offices is illegal or effectively precluded by exchange controls or other similar restrictions on payment or receipt of such amounts and (iii) such payment is then permitted by United States law, without involving, in the opinion of the Issuer, any adverse tax consequence to the Issuer.

(d) *Payments Subject to Fiscal Laws*

All payments are subject in all cases to (i) any applicable fiscal or other laws regulations and directives, and (ii) any withholding or deduction made for or on account of FATCA but without prejudice to the provisions of Condition 7 (*Taxation*). No commission or expenses shall be charged to the Noteholders or Couponholders in respect of such payments. For the avoidance of doubt, any amounts to be paid in respect of the Notes will be paid net of any deduction or withholding made for or on account of FATCA and, notwithstanding any other provision of these Conditions, no additional amounts will be required to be paid on account of any such deduction or withholding. References to Specified Currency will include any successor currency under applicable law.

(e) *Appointment of Agents*

The Fiscal Agent, the other Paying Agents (if any), the Registrar, the Transfer Agents and the Calculation Agent initially appointed by the Issuer and the Guarantor and their respective specified offices are listed below. The Fiscal Agent, the other Paying Agents (if any), the Registrar, Transfer Agents and the Calculation Agent act solely as agents of the Issuer and, if applicable, the Guarantor and do not assume any obligation or relationship of agency or trust for or with any Noteholder or Couponholder. The Issuer and, if applicable, the Guarantor reserves the right at any time to vary or terminate the appointment of the Fiscal Agent, any other Paying Agent, the Registrar, any Transfer Agent or the Calculation Agent and to appoint additional or other Paying Agents or Transfer Agents, provided that the Issuer and, if applicable, the Guarantor shall at all times maintain (i) a Fiscal Agent, (ii) a Registrar in relation to Registered Notes, (iii) a Transfer Agent in relation to Registered Notes (including a Transfer Agent having its specified office in London so long as any Registered Notes are listed on the Official List of the UK Financial Conduct Authority and admitted to trading on the London Stock Exchange), (iv) one or more Calculation Agent(s) where the Conditions so require, (v) Paying Agents having specified offices in at least two major European cities (including London so long as the Notes are listed on the Official List of the UK Financial Conduct Authority and admitted to trading on the London Stock Exchange), (vi) such other agents as may be required by the rules of any other listing authority, stock exchange and/or quotation system on which the Notes may be admitted to listing, trading and/or quotation, and (vii) so long as any Notes are held in the CMU Service, there will at all times be appointed a CMU lodging agent (the "**CMU Lodging Agent**") and a paying agent with a specified office in such place as required by the CMU Service (the "**CMU Paying Agent**").

In addition, the Issuer and, if applicable, the Guarantor shall forthwith appoint a Paying Agent in New York City in respect of any Bearer Notes denominated in U.S. dollars in the circumstances described in Condition 6(c).

Notice of any such change or any change of any specified office shall promptly be given to the Noteholders in accordance with Condition 14 (*Notices*).

(f) *Unmatured Coupons and Receipts and Unexchanged Talons*

- (i) In the case of Fixed Rate Notes, Bearer Notes should be surrendered for payment together with all unmatured Coupons (if any) appertaining thereto, failing which an amount equal to the face value of each missing unmatured Coupon (or, in the case of payment not being made in full, that proportion of the amount of such missing unmatured Coupon which the sum of principal so paid bears to the total principal due) will be deducted from the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, as the case may be, due for payment. Any amount so deducted will be paid in the manner mentioned above against surrender of such missing Coupon within a period of 10 years from the Relevant Date for the payment of such principal (whether or not such Coupon has become void pursuant to Condition 8 (*Prescription*)).
- (ii) In the case of Floating Rate Notes and Range Accrual Notes upon the due date for redemption of any Bearer Note, unmatured Coupons relating to such Note (whether or not attached) shall become void and no payment shall be made in respect of them.

- (iii) Upon the due date for redemption of any Bearer Note, any Talon relating to such Note (whether or not attached) shall become void and no Coupon shall be delivered in respect of such Talon.
- (iv) Upon the due date for redemption of any Bearer Note which is redeemable in instalments, all Receipts relating to such Note having an Instalment Date falling on or after such due date (whether or not attached) shall become void and no payment shall be made in respect of them.
- (v) Where any Bearer Note which provides that the relative Coupons are to become void upon the due date for redemption of those Notes is presented for redemption without all unmatured Coupons and any unexchanged Talon relating to it, and where any Bearer Note is presented for redemption without any unexchanged Talon relating to it, redemption shall be made only against the provisions of such indemnity as the Issuer may require.
- (vi) If the due date for redemption of any Notes is not a due date for payment of interest, interest accrued from the preceding due date for payment of interest or the Interest Commencement Date, as the case may be, shall only be payable against presentation (and surrender if appropriate) of the relevant Note or Certificate representing it, as the case may be. Interest accrued on a Note which only bears interest after its Maturity Date shall be payable on redemption of such Note against presentation of the relevant Note or Certificate representing it, as the case may be.

(g) *Talons*

On or after the Interest Payment Date for the final Coupon forming part of a Coupon sheet issued in respect of any Bearer Note, the Talon forming part of such Coupon sheet may be surrendered at the specified office of the Fiscal Agent in exchange for a further Coupon sheet (and if necessary another Talon for a further Coupon sheet) (but excluding any Coupons that may have become void pursuant to Condition 8 (*Prescription*)).

(h) *Non-Business Days*

If any date for payment in respect of any Note, Receipt or Coupon is not a Payment Business Day, the holder shall not be entitled to payment until (i) if "Following" is specified as the Payment Business Day Convention in the applicable Final Terms, the next following Payment Business Day or (ii), if "Modified Following" is specified as the Payment Business Day Convention in the applicable Final Terms, the next following Payment Business Day unless that Payment Business Day falls in the next calendar month, in which case the first preceding Payment Business Day. In this paragraph, "**Payment Business Day**" means a day (other than a Saturday or a Sunday) on which:

- (i) commercial banks and foreign exchange markets settle payments generally in such jurisdictions as shall be specified as "**Additional Financial Centres**" in the Final Terms, in London and Sydney where ANZBGL is the Issuer, in London, Auckland and Wellington where ANZ Bank New Zealand or ANZNIL is the Issuer and, where relevant, in the relevant place of presentation; and
- (ii) (in the case of a payment in a currency other than euro or Australian dollars where ANZBGL is the Issuer, or New Zealand dollars where ANZ Bank New Zealand or, as the case may be, ANZNIL is the Issuer, where payment is to be made by transfer in the relevant currency to an account maintained with a bank) foreign exchange transactions may be carried on in the relevant currency in the Principal Financial Centre of the country of such currency; or
- (iii) (in the case of a payment in euro) banks are open for business and carrying out transactions in euro in the jurisdiction in which the account specified by the payee is located and a day on which the T2 System is open; and
- (iv) in respect of Notes for which the Reference Rate specified in the applicable Final Terms is SOFR (Index Determination) or SOFR (Non-Index Determination), any weekday that is a U.S. Government Securities Business Day and is not a legal holiday in New York and each (if any) Additional Financial Centre(s) and is not a date on which banking institutions in those cities are authorised or required by law or regulation to be closed.

(i) *Euro and Redenomination*

References to euro are to the currency introduced at the start of the third stage of European economic and monetary union pursuant to Article 123 of the Treaty.

Unless otherwise specified in the Final Terms, Notes denominated in the currency (the "**Relevant Currency**") of a Member State that does not participate in the third stage of European economic and monetary union prior to the Issue Date of the relevant Notes may, at the election of the Issuer, be subject to redenomination in the manner set out below. In relation to such Notes the Issuer may, without the consent of the Noteholders or Couponholders, on giving at least 30 days' prior notice to Noteholders, the Fiscal Agent and each of the Paying Agents and Transfer Agents, designate a "**Redenomination Date**" for the Notes, being a date for payment of interest under the Notes falling on or after the date on which the relevant Member State commences participation in such third stage.

With effect from the Redenomination Date, notwithstanding the other provisions of the Conditions:

- (i) the Notes shall (unless already so provided by mandatory provisions of applicable law) be deemed to be redenominated in euro in the denomination of euro 0.01 with a principal amount for each Note equal to the principal amount of that Note in the Relevant Currency, converted into euro at the rate for conversion of the Relevant Currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations) provided that, if the Issuer determines that the then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, any listing authority, stock exchange and/or quotation system on which the Notes may be listed, the Fiscal Agent and each of the Paying Agents and Transfer Agents of such deemed amendment;
- (ii) if Notes in definitive form are required to be issued, they shall be issued at the expense of the Issuer in the denominations of euro 0.01, euro 1,000, euro 10,000, euro 100,000 and such other denominations as the Fiscal Agent shall determine and notify to Noteholders;
- (iii) if Notes in definitive form have been issued, all unmatured Receipts and Coupons denominated in the Relevant Currency (whether or not attached to the Notes) will become void with effect from the date on which the Issuer gives the notice (the "**Exchange Notice**") that replacement euro-denominated Notes, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Notes so issued will also become void on that date although those Notes will continue to constitute valid exchange obligations of the Issuer. New certificates in respect of euro-denominated Notes, Receipts and Coupons will be issued in exchange for Notes, Receipts and Coupons denominated in the Relevant Currency in such manner as the Fiscal Agent may specify and as shall be specified to Noteholders in the Exchange Notice;
- (iv) all payments in respect of the Notes (other than, unless the Redenomination Date is on or after such date as the Relevant Currency ceases to be a subdivision of the euro, payments of interest in respect of periods commencing before the Redenomination Date) will be made solely in euro. Such payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or by cheque; and
- (v) the amount of interest in respect of Notes will be calculated by reference to the aggregate principal amount of Notes presented (or, as the case may be, in respect of which Receipts or Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01.

In connection with such redenomination, the Issuer may, after consultation with the Fiscal Agent, make such other changes to the Conditions applicable to the relevant Notes as it may decide so as to conform them to the then market practice in respect of euro-denominated debt securities issued in the euromarkets which are held in international clearing systems. Any such changes will not take effect until the next following Interest Payment Date after they have been notified to the Noteholders in accordance with Condition 14 (*Notices*).

(j) *Payment of U.S. Dollar Equivalent in respect of CNY Notes*

Notwithstanding the foregoing, if by reason of Inconvertibility, Non transferability or Illiquidity, the Issuer is not able to satisfy payments of principal or interest in respect of any Notes which are denominated in Renminbi ("**CNY Notes**") when due in Renminbi in Hong Kong, the Issuer may, on giving not less than five or more than 30 calendar days' irrevocable notice to the Noteholders prior to the due date for payment, settle any such payment in U.S. dollars on the due date at the U.S. Dollar Equivalent of any such Renminbi-denominated amount.

"**Inconvertibility**" means the occurrence of any event that makes it impossible for the Issuer to convert any amount due in respect of the CNY Notes in the general Renminbi exchange market in Hong Kong, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after 8 August 2012 and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

"**Non transferability**" means the occurrence of any event that makes it impossible for the Issuer to transfer Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong or from an account outside Hong Kong to an account inside Hong Kong, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after 8 August 2012 and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

If neither rate is available, the Calculation Agent will determine the Spot Rate at or around 11.00 a.m. (Hong Kong time) on the Determination Date as the most recently available CNY/US dollar official fixing rate for settlement in two Determination Business Days reported by The State Administration of Foreign Exchange of the PRC, which is reported on the Reuters Screen Page CNY=SAEC.

(k) *Payment of U.S. Dollar equivalent in respect of Exotic Currencies*

If Exotic Currency Payments is specified to be applicable in the relevant Final Terms then, in the event that the Issuer is due to make a payment in an Exotic Currency in respect of any Note and the Exotic Currency is not available or it is impracticable to make the payment in the Exotic Currency due to circumstances beyond the Issuer's control as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, the Issuer will be entitled to satisfy in full its obligations in respect of such payment by making payment as soon as practicable in U.S. dollars on the basis of the spot exchange rate of U.S. dollars against the Exotic Currency offered in the London foreign exchange market as determined by the Calculation Agent referencing the Exotic Currency Reuters Screen Page at or around the Exotic Currency Relevant Time on the fifth London Business Day prior to such payment or, if such rate is not available on that day, the rate most recently available prior to such day.

7. **Taxation**

(a) *Withholding Tax*

Subject as provided below, all payments of principal and interest in respect of the Notes, the Receipts and the Coupons by or on behalf of the Issuer or, if applicable, the Guarantor shall be made free and clear

Any amounts withheld pursuant to an agreement with a taxing authority will be treated as required by law. In that event, the Issuer or (as the case may be) the Guarantor shall pay such additional amounts to the Noteholders, Couponholders and Receiptholders as shall result in receipt by those Noteholders, Couponholders and Receiptholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (i) presented for payment by or on behalf of a holder which is liable to such Taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of its having some connection with the jurisdiction of incorporation of the Issuer or, where the Issuer is acting through its branch outside its country of incorporation, the jurisdiction, country or territory in which the branch through which the Issuer is acting is located and/or, if applicable, the jurisdiction of incorporation of the Guarantor, other than the mere holding of such Note, Receipt or Coupon or the receipt of the relevant payment in respect thereof; or
- (ii) where ANZBGL is the Issuer, held by or on behalf of a holder who is an Australian resident or a non-resident who is engaged in carrying on business in Australia at or through a permanent establishment of that non-resident in Australia, if that person has not supplied an appropriate tax file number, Australian business number or other exemption details; or
- (iii) presented (or in respect of which the Certificate representing it is presented) for payment more than 30 days after the Relevant Date except to the extent that the holder of it would have been entitled to such additional amounts on presenting it for payment on the 30th such day; or
- (iv) in respect of which the holder thereof is an Offshore Associate of ANZBGL (acting other than in the capacity of a clearing house, paying agent, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act), where ANZBGL is the Issuer; or

- (vii) where such withholding or deduction is for or on account of New Zealand resident withholding tax, where either ANZ Bank New Zealand or ANZNIL is the Issuer or ANZ Bank New Zealand is the Guarantor; or
- (viii) presented for payment by, or a third party on behalf of, a holder if such withholding or deduction may be avoided by complying with any statutory requirement or by making a declaration of non-residence or other similar claim for exemption to any authority of or in New Zealand, unless the holder proves that he is not entitled so to comply or to make such declaration or claim, where either ANZ Bank New Zealand or ANZNIL is the Issuer or ANZ Bank New Zealand is the Guarantor; or

- (ix) presented for payment by, or a third party on behalf of, a holder that is a partnership, or a holder that is not the sole beneficial owner of the Note, Receipt or Coupon, or which holds the Note, Receipt or Coupon, in a fiduciary capacity, to the extent that any of the members of the partnership, the beneficial owner or the settlor or beneficiary with respect to the fiduciary would not have been entitled to the payment of an additional amount had each of the members of the partnership, the beneficial owner, settlor or beneficiary (as the case may be) received directly his beneficial or distributive share of the payment; or
- (x) presented for payment in New Zealand, where either ANZ Bank New Zealand or ANZNIL is the Issuer or ANZ Bank New Zealand is the Guarantor; or
- (xi) in respect of which the Taxes have been imposed or levied as a result of the holder of such Note, Receipt or Coupon being party to or participating in a scheme to avoid such Taxes, being a scheme which either ANZ Bank New Zealand or ANZNIL, where ANZ Bank New Zealand or ANZNIL is the Issuer, or ANZ Bank New Zealand, where ANZ Bank New Zealand is the Guarantor, was neither a party to nor participated in; or
- (xii) where such withholding or deduction is made for or on account of FATCA on payments to a Noteholder, Couponholder, Receiptholder, beneficial owner, or any agent having custody or control over a payment made by the Issuer, Guarantor or any agent in the chain of payment, including due to the failure of the Noteholder, Couponholder, Receiptholder, beneficial owner, or any agent having custody or control over a payment to comply with any requests for tax certifications or other identifying information regarding such Noteholder, Couponholder, Receiptholder, beneficial owner, or agent, or due to the failure to provide a waiver of any laws prohibiting the disclosure of such certifications, identifying information and other information in respect of the Notes to a taxing authority.

As used in these Conditions, "**Relevant Date**" in respect of any Note, Receipt or Coupon means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note (or relative Certificate), Receipt or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. References in these Conditions to (i) "**principal**" shall be deemed to include any premium payable in respect of the Notes, all Instalment Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Face Amounts and all other amounts in the nature of principal payable pursuant to Condition 5 (*Redemption, Purchase and Options*) or any amendment or supplement to it, (ii) "**interest**" shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 4 (*Interest and other Calculations*) or any amendment or supplement to it and (iii) "**principal**" and/or "**interest**" shall be deemed to include any additional amounts that may be payable under this Condition or any undertaking given in addition to or substitution for it under the Agency Agreement. Any additional amounts due in respect of the NZ Subordinated Notes will be subordinated in right of payment as described in Condition 10 (*Subordination*).

The remaining provisions of this Condition only apply to ANZNIL where ANZNIL is the Issuer and to ANZ Bank New Zealand where ANZ Bank New Zealand is the Issuer or the Guarantor. Where used in the remaining provisions of this Condition, "**interest**" means interest (as defined under New Zealand taxation legislation) for withholding tax purposes, which under current legislation includes the excess of the redemption amount over the issue price of any Note as well as coupon interest paid on such Note.

Where (i) ANZNIL is the Issuer or (ii) ANZ Bank New Zealand is the Issuer or the Guarantor, and ANZ Bank New Zealand or ANZNIL, as the case may be, is required to deduct New Zealand non-resident withholding tax in the case of any payments of interest to a holder of a Note or Coupon, ANZ Bank New Zealand or ANZNIL, as the case may be, may, and intend to (for so long as they do not incur any increased cost or detriment from so doing), relieve themselves of such obligation by using a procedure which permits borrowers such as ANZ Bank New Zealand or ANZNIL, as the case may be, to reduce the applicable rate of non-resident withholding tax to zero per cent. Under the current law, that procedure involves ANZ Bank New Zealand or ANZNIL, as the case may be, paying on their own respective

accounts a levy to the New Zealand revenue authorities (which is currently equal to two per cent. of such payments of interest).

ANZ Bank New Zealand and ANZNIL are required by law to deduct New Zealand resident withholding tax from the payment of interest to the holder of any Note on any Interest Payment Date or the Maturity Date, where:

- (A) the Holder is (i) a resident of New Zealand for New Zealand income tax purposes, or (ii) the Holder holds the notes for the purposes of a business the Holder carries on in New Zealand, through a fixed establishment (as defined in the Income Tax Act 2007 (New Zealand)) in New Zealand, or (iii) the Holder is a registered bank engaged in business in New Zealand through a fixed establishment (as defined in the Income Tax Act 2007 (New Zealand)) in New Zealand and is not associated with ANZ Bank New Zealand or ANZNIL (as applicable) (each a "**New Zealand Holder**"); and
- (B) at the time of such payment the New Zealand Holder does not hold "RWT-exempt status" (as defined in the Income Tax Act 2007 (New Zealand)) in respect of New Zealand resident withholding tax.

Prior to any Interest Payment Date or the Maturity Date, any New Zealand Holder:

- (A) must notify ANZ Bank New Zealand or ANZNIL, as the case may be, that the New Zealand Holder is the holder of a Note; and
- (B) must notify ANZ Bank New Zealand or ANZNIL, as the case may be, of any circumstances, and provide ANZ Bank New Zealand or ANZNIL, as the case may be, with any information that may enable ANZ Bank New Zealand or ANZNIL, as the case may be, to make payment of interest to the New Zealand Holder without deduction on account of New Zealand resident withholding tax.

The New Zealand Holder must notify ANZ Bank New Zealand or ANZNIL, as the case may be, prior to any Interest Payment Date or the Maturity Date, of any change in the New Zealand Holder's circumstances from those previously notified that could affect the payment or withholding obligations of ANZ Bank New Zealand or ANZNIL, as the case may be, in respect of this Note. By accepting payment of the full face amount of a Note or any interest thereon on any Interest Payment Date or the Maturity Date, the New Zealand Holder indemnifies ANZ Bank New Zealand or ANZNIL, as the case may be, for all purposes in respect of any liability ANZ Bank New Zealand or ANZNIL, as the case may be, may incur for not deducting any amount from such payment on account of New Zealand resident withholding tax.

Only a New Zealand Holder will be obliged to make the notification referred to above.

(b) *Taxing Jurisdiction*

If the Issuer or, if applicable, the Guarantor is, or becomes, subject at any time to any taxing jurisdiction(s) other than or in addition to its own jurisdiction of incorporation or the jurisdiction, country or territory in which the branch (if any) is located, references in Condition 5(b) and this Condition 7 shall be read and construed as including references to such other taxing jurisdiction(s).

8. **Prescription**

Claims against the Issuer and, if applicable, the Guarantor for payment in respect of the Notes, Receipts and Coupons (which, for this purpose, shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

9. Events of Default

(a) Notes (other than NZ Subordinated Notes)

If, in respect of any Notes (other than NZ Subordinated Notes), any of the following events ("**Events of Default**") occurs and is continuing, the holder of any Note of any Series issued by the Issuer may give written notice to the Fiscal Agent at its specified office that such Note is immediately repayable, whereupon it shall immediately become due and repayable at its Early Redemption Amount together with accrued interest to the date of payment unless, prior to the date that such written notice is received by the Fiscal Agent, the Issuer and/or, if applicable, the Guarantor shall have cured or otherwise made good all Events of Default in respect of the Notes of such Series:

- (i) default is made in the payment of any principal or Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount, Instalment Amount or Amortised Face Amount (in the case of a Zero Coupon Note) (whether becoming due upon redemption or otherwise) when due, in respect of any Note of such Series, and such default continues for a period of 15 days or interest when due, in respect of any Note of such Series, and such default continues for a period of 30 days; or
- (ii) the Issuer fails to perform or observe any of its obligations under any Note of such Series or, if applicable, the Guarantor fails to perform or observe any of its obligations under the Deed of Guarantee, in either case other than those specified in paragraph (i) above and in such case (except where such failure is incapable of remedy) such failure continues for a period of 30 days next following the service by any holder of any Note of such Series on the Issuer, the Guarantor (if applicable) and the Fiscal Agent of written notice requiring the same to be remedied; or
- (iii) otherwise than for the purpose of an amalgamation or reconstruction or merger within the meaning of these words under the laws of the Issuer's or, if applicable, the Guarantor's country of incorporation or, where ANZNIL is the Issuer, the United Kingdom, a resolution is passed that the Issuer or, as the case may be, the Guarantor be wound up or dissolved; or
- (iv) the Issuer or, if applicable, the Guarantor stops payment (within the meaning of Australian or any other applicable bankruptcy law) of its obligations; or
- (v) an encumbrancer takes possession of or a receiver is appointed of the whole or a substantial part of the undertaking and assets of the Issuer or, if applicable, the Guarantor and any such event is continuing for 45 days after its occurrence and would materially prejudice the performance by the Issuer or, as the case may be, the Guarantor of its obligations under the Notes of such Series or a distress or execution is levied or enforced upon or sued out against the whole or a substantial part of the undertaking and assets of the Issuer or, as the case may be, the Guarantor which would materially prejudice the performance of (i) the Issuer of its obligations under the Notes of such Series or, (ii) if applicable, the Guarantor of its obligations under the Deed of Guarantee, and in each case is not discharged within 60 days thereof; or
- (vi) proceedings shall have been initiated against the Issuer or, if applicable, the Guarantor under any applicable bankruptcy, reorganisation or other similar law and such proceedings shall not have been discharged or stayed within a period of 60 days; or
- (vii) the Issuer or, if applicable, the Guarantor shall initiate or consent to proceedings relating to itself under any applicable bankruptcy, insolvency, composition or other similar law (otherwise than for the purpose of amalgamation, reconstruction or merger (within the meaning of those words under the laws of the country of the Issuer's or, if applicable, the Guarantor's incorporation or, where ANZNIL is the Issuer, the United Kingdom) and such proceedings would materially prejudice the performance by (A) the Issuer of its obligations under the Notes of such Series or (B), if applicable, the Guarantor of its obligations under the Deed of Guarantee); or
- (viii) in respect of Notes issued by ANZNIL only, the Deed of Guarantee of the Notes is (A) not in full force and effect and, where capable of remedy, the Deed of Guarantee is not in full force and effect within seven days of the date the defect is first discovered or (B) claimed by the Guarantor not to be in full force and effect.

Any such notice by a holder of Notes to the Fiscal Agent shall specify the serial number(s) of the Notes concerned.

Notwithstanding any other provision of this Condition 9(a), no Event of Default in respect of any Notes shall occur solely on account of any failure by ANZBGL to perform or observe its obligations in relation to, or the taking of any process or proceeding in respect of any share, note or other security or instrument constituting Tier 1 Capital or Tier 2 Capital (as defined by APRA from time to time).

(b) *NZ Subordinated Notes*

The following are "**Events of Default**" with respect to NZ Subordinated Notes:

- (i) the commencement of liquidation of ANZ Bank New Zealand under:
 - (A) section 241(5) or section 317 of the Companies Act; or
 - (B) under any other legislation under which ANZ Bank New Zealand will irrevocably cease to be duly incorporated or to validly exist in New Zealand; and
- (ii) subject to Condition 4(v):
 - (A) default in the payment of interest on any NZ Subordinated Note when due, continued for 15 days; or
 - (B) default in the payment of principal of any NZ Subordinated Note when due, continued for 7 days.

Upon the occurrence of an Event of Default specified in paragraph (i) above, subject to the subordination provisions in Conditions 3(b) and 10 (*Subordination*), the Principal Amount of, and all accrued and unpaid interest, on the NZ Subordinated Notes will automatically become due and payable.

If an Event of Default contemplated by paragraph (ii) above with respect to any of the NZ Subordinated Notes occurs and is continuing, an NZ Subordinated Noteholder may only, in order to enforce the obligations of ANZ Bank New Zealand under such NZ Subordinated Notes, bring proceedings:

- (aa) to recover any amount then due and payable but unpaid on its NZ Subordinated Notes (subject to satisfaction of the solvency condition to payment in Condition 4(v));
- (bb) to obtain an order for specific performance of any other obligation in respect of its NZ Subordinated Notes; or
- (cc) for the liquidation of ANZ Bank New Zealand.

In accordance with Condition 3(b), until all Senior Creditors have been paid in full, an NZ Subordinated Noteholder must not claim in the liquidation of ANZ Bank New Zealand in competition with the Senior Creditors so as to diminish any distribution, dividend or payment which, but for that claim, the Senior Creditors would have been entitled to receive.

No remedy against ANZ Bank New Zealand, other than those referred to in this Condition 9(b), shall be available to the NZ Subordinated Noteholders or Couponholders or Receiptholders in respect of NZ Subordinated Notes, whether for the recovery of amounts owing in respect of the NZ Subordinated Notes or in respect of any breach by ANZ Bank New Zealand of any of its other obligations under or in respect of the NZ Subordinated Notes.

10. **Subordination**

In the event of the commencement of liquidation of ANZ Bank New Zealand constituting an Event of Default with respect to the NZ Subordinated Notes, there shall be payable with respect to the NZ Subordinated Notes, subject to the subordination provisions in Condition 3(b), an amount equal to the

Principal Amount of the NZ Subordinated Notes then outstanding, together with all accrued and unpaid interest thereon to the repayment date.

As a result of the subordination provisions, no amount will be payable in the liquidation of ANZ Bank New Zealand in New Zealand in respect of the NZ Subordinated Notes until all claims of Senior Creditors admitted in the liquidation proceeding have been satisfied in full. By subscription for, or transfer of, NZ Subordinated Notes to a Noteholder, that NZ Subordinated Noteholder will be taken to have agreed that no amount in respect of the NZ Subordinated Notes will be repaid until all the claims of the Senior Creditors admitted in the liquidation proceeding have been satisfied accordingly. Accordingly, if proceedings with respect to the liquidation of ANZ Bank New Zealand in New Zealand were to occur, the NZ Subordinated Noteholders could recover less relatively than the holders of Notes which are not subordinated and the holders of any prior ranking subordinated liabilities of ANZ Bank New Zealand.

If, in any such liquidation, the amount payable with respect to the NZ Subordinated Notes and any claims ranking equally with those NZ Subordinated Notes cannot be paid in full, those NZ Subordinated Notes and other claims ranking equally with those NZ Subordinated Notes will share relatively in any distribution of ANZ Bank New Zealand's assets in a liquidation in proportion to the respective amounts to which they are entitled. To the extent that NZ Subordinated Noteholders are entitled to any recovery with respect to the NZ Subordinated Notes in any liquidation, such NZ Subordinated Noteholders might not be entitled in such proceedings to a recovery in the Specified Currency in respect of such NZ Subordinated Notes (if other than New Zealand dollars) and might be entitled only to a recovery in New Zealand dollars.

11. Meeting of Noteholders, Modifications and Waiver

(a) Meetings of Noteholders

The Agency Agreement contains provisions for convening meetings of Noteholders of a Series to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Agency Agreement) of a modification or amendment of any of these Conditions. The quorum for any meeting of Noteholders shall be two or more persons holding or representing in the aggregate a clear majority in Principal Amount of the Notes for the time being outstanding, or at any adjourned meeting two or more persons being or representing Noteholders whatever the Principal Amount of the Notes held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to amend the dates of maturity or redemption of the Notes, any Instalment Date or any date for payment of interest or Interest Amounts on the Notes or the obligation of the Issuer to pay additional amounts pursuant to Condition 7 (*Taxation*), (ii) to reduce or cancel the Principal Amount of, or any Instalment Amount of, or any premium payable on redemption of, the Notes, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating any Interest Amount in respect of the Notes, (iv) if a Minimum and/or a Maximum Rate of Interest, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount is set out in the Final Terms, to reduce any such Minimum and/or Maximum, (v) to vary any method of, or basis for, calculating the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, including the method of calculating the Amortised Face Amount, (vi) to vary the currency or currencies of payment or Specified Denomination of the Notes, (vii) to take any steps that as specified in the Final Terms may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply, or (viii) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass the Extraordinary Resolution, in which case the necessary quorum at any adjourned meeting shall be two or more persons holding or representing in the aggregate not less than one-third in Principal Amount of the Notes for the time being outstanding. However, no modification, amendment or supplement to the terms of any Series of NZ Subordinated Notes, or any consent, waiver or other action that will have the effect of amending any Series of NZ Subordinated Notes shall be of any effect unless the RBNZ has been given at least five working days' prior notice of such modification, amendment, supplement, consent, waiver or other action (as applicable) by ANZ Bank New Zealand and ANZ Bank New Zealand has provided any information and supporting documentation required by the RBNZ's prudential regulatory requirements to the RBNZ including a signed opinion from ANZ Bank New Zealand's New Zealand legal counsel confirming that, once the modification, amendment, supplement, consent, waiver or other action (as applicable) is in effect, such NZ Subordinated Notes will

continue to qualify as Tier 2 Capital. ANZ Bank New Zealand would not be able to comply with the RBNZ notification requirement, and, consequently, no modification, amendment, supplement, consent, waiver or other action (as applicable) could be made or given, if the effect of any such amendment, modification, supplement, consent, waiver or other action (as applicable) would be that the NZ Subordinated Notes would no longer qualify as Tier 2 Capital. Any resolution duly passed (including an Extraordinary Resolution) shall be binding on all Noteholders of the relevant Series (whether or not they were present at the meeting at which such resolution was passed) and on all Couponholders of the relevant Series. The expression "**Extraordinary Resolution**" means a resolution passed at a meeting of Noteholders duly convened by a majority consisting of not less than three-quarters of the votes cast. All other resolutions, except for written resolutions, shall be passed at a meeting of Noteholders duly convened by a clear majority of the votes cast.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

(b) *Modification of the Agency Agreement, Deed of Covenant, Deed of Guarantee, Conditions and Final Terms*

The Agency Agreement, the Deed of Covenant, the Deed of Guarantee, the Conditions and any applicable Final Terms may be modified or amended by the Issuer and, in the case of the Deed of Guarantee, by ANZNIL and the Guarantor, in each case without the consent of the holders if, in the reasonable opinion of the Issuer (and in the case of the Deed of Guarantee, ANZNIL and the Guarantor), the modification or amendment is:

- (a) not materially prejudicial to the interests of the holders;
- (b) of a formal, minor or technical nature;
- (c) made to correct any manifest or proven error or omission;
- (d) made to comply with mandatory provisions of the law; or
- (e) made to cure, correct or supplement any defective provision or ambiguity,

provided that, in the case of NZ Subordinated Notes, any such modification or amendment to the Agency Agreement, the Deed of Covenant, the Conditions and the Final Terms that will have the effect of amending NZ Subordinated Notes, shall not be effective unless the RBNZ has been given at least five working days' prior notice of such modification or amendment (as applicable) by ANZ Bank New Zealand and ANZ Bank New Zealand has provided any information and supporting documentation required by the RBNZ's prudential regulatory requirements to the RBNZ including a signed opinion from ANZ Bank New Zealand's New Zealand legal counsel confirming that, once the modification or amendment (as applicable) is in effect, such NZ Subordinated Notes will continue to qualify as Tier 2 Capital. ANZ Bank New Zealand would not be able to comply with the RBNZ notification requirement and, consequently, no modification or amendment (as applicable) could be applied if the effect of any such amendment or modification (as applicable) would be that the NZ Subordinated Notes would no longer qualify as Tier 2 Capital.

Any such modification or amendment shall be binding on the holders and any such modification or amendment shall be notified to the holders in accordance with Condition 14 as soon as practicable thereafter.

12. **Replacement of Notes, Certificates, Receipts, Coupons and Talons**

If a Note, Certificate, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and listing authority, stock exchange and/or quotation system regulations, at the specified office of the Fiscal Agent (in case of Bearer Notes, Receipts, Coupons or Talons) and of the Registrar (in the case of Certificates) or such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of

whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Note, Certificate, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Certificates, Receipts, Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Notes, Certificates, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

13. Further Issues

Any Issuer may (provided, with respect to an issue of NZ Subordinated Notes, that ANZ Bank New Zealand has given the RBNZ at least 5 working days' prior notice and provided any information and supporting documentation required by the RBNZ's prudential regulatory requirements to the RBNZ) from time to time without the consent of the Noteholders or Couponholders create and issue further securities either having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them) and so that such further issue shall be consolidated and form a single Series with the outstanding securities of any Series (including the Notes) or upon such terms as the Issuer may determine at the time of their issue. Notes of more than one Series may be consolidated into one Series denominated in euro, even if one or more such Series was not originally denominated in euro, provided all such Series have been redenominated into euro and otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions. References in these Conditions to the Notes include (unless the context requires otherwise) any other securities issued pursuant to this Condition and forming a single Series with the Notes.

14. Notices

Notices to the holders of Registered Notes shall be (a) mailed to them (or, in the case of joint holders, to the first named) at their respective addresses in the Register and (b) published at <https://www.anz.com/debtinvestors/centre/programmes/anz-banking-group/euro-medium-term-note-programme-aus/> in respect of Notes issued by ANZBGL and at <https://www.anz.com/debtinvestors/centre/programmes/anz-bank-nz/euro-medium-term-note-programme-nz/> in respect of Notes issued by ANZ Bank New Zealand and ANZNIL;

Notices to the holders of Registered Notes shall be deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the later of the date of mailing and the date of first publication online;

Notices to the holders of Bearer Notes shall be, save where another means of effective communication has been specified herein or in the Final Terms, published at <https://www.anz.com/debtinvestors/centre/programmes/anz-banking-group/euro-medium-term-note-programme-aus/> in respect of Notes issued by ANZBGL and at <https://www.anz.com/debtinvestors/centre/programmes/anz-bank-nz/euro-medium-term-note-programme-nz/> in respect of Notes issued by ANZ Bank New Zealand and ANZNIL.

Notices to the holders of Bearer Notes shall be deemed to have been given on the date of first publication online. Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the holders of Bearer Notes in accordance with this Condition 14.

Notices to holders of all Notes which have been listed, admitted to trading on any stock exchange or listed on a quotation system will also be given in such manner and in such place as may be required by the rules and regulations of such listing authority stock exchange and/or quotation system.

Where the Notes are represented by a Global Note and such Global Note is held on behalf of a clearing system, the provisions of such Global Note shall prevail over the provisions of this Condition 14.

15. Currency Indemnity

If any sum due from the Issuer in respect of the Notes, Receipts or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which

the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, Receipts or Coupons, the Issuer shall indemnify each holder, on the written demand of such holder addressed to the Issuer and delivered to the Issuer or to the specified office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such holder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof. For the purposes of this Condition 15, it shall be sufficient for the Noteholder, Receiptholder or Couponholder, as the case may be, to demonstrate that it would have suffered a loss had an actual purchase been made. These indemnities constitute a separate and independent obligation from the Issuer's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Noteholder, Receiptholder or Couponholder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note, Coupon or Receipt or any other judgment or order.

16. **Governing Law, Jurisdiction and Service of Process**

(a) *Governing Law*

The Notes, the Receipts, the Coupons and the Talons and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law, except for the subordination provisions applicable to the NZ Subordinated Notes (including, without limitation, the provisions contained in Conditions 3(b), 4(v), 9(b) and 10 (*Subordination*)) which will be governed by, and construed in accordance with, the laws of New Zealand.

(b) *Jurisdiction*

The Issuer agrees for the benefit of the holders of Notes, Receipts, Coupons and Talons that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Notes and all matters connected with the Notes, Receipts, Coupons and Talons (including a dispute relating to any non-contractual obligation arising out of or in connection with them) (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, irrevocably submits to the jurisdiction of such courts.

(c) *Appropriate Forum*

The Issuer irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.

(d) *Service of Process*

The Issuer agrees that the process by which any Proceedings in England are begun may be served on it by being delivered to the officer in charge of the London Branch of Australia and New Zealand Banking Group Limited at its UK establishment office address from time to time, currently Level 12, 25 North Colonnade, London E14 5HZ. If such person is not or ceases to be effectively appointed to accept service of process on the Issuer's behalf, the Issuer shall appoint a further person in England to accept service of process on the Issuer's behalf and, failing such appointment, within 15 days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer or to the specified office of the Fiscal Agent. Nothing in this paragraph shall affect the right of any holder of Notes, Receipts, Coupons or Talons to serve process in any other manner permitted by law.

(e) *Non-exclusivity*

The submission to the jurisdiction of the courts of England shall not (and shall not be construed so as to) limit the right of any holder of Notes, Receipts, Coupons or Talons to take Proceedings in any other court of competent jurisdiction, nor shall the taking of Proceedings in any one or more jurisdictions preclude

the taking of Proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by law.

(f) *Consent to Enforcement etc.*

Subject to Condition 10 (*Subordination*), the Issuers consent generally in respect of any Proceedings to the giving of any relief or the issue of any process in connection with such Proceedings including (without limitation) the making, enforcement or execution against any property whatsoever (irrespective of its use or intended use) of any order or judgment which may be made or given in such Proceedings.

17. **Third Parties**

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999.

FORM OF THE NOTES

The summary of the forms and provisions of the Notes contained in this section is intended to be a guide only and is subject to change, including as a result of any amendments to the Agency Agreement and the forms of Notes and the terms of the relevant Final Terms. For further details regarding the forms of Notes and the provisions applicable to the Notes, purchasers and potential purchasers of Notes are advised to review the Agency Agreement and the relevant Notes. A supplemental agency agreement and CMU Notes (as defined in paragraph 6 below) in specific form will be prepared as and when there is an issuance of CMU Notes.

1. Initial Issue of Notes

Bearer Notes

Temporary Global Notes

Unless otherwise specified in the relevant Final Terms, each Series or Tranche of notes in bearer form ("**Bearer Notes**") will initially be represented by a temporary global note (a "**Temporary Global Note**") if:

- (a) Bearer Notes in definitive form are to be made available to Noteholders following the expiry of 40 days *after* the Issue Date of an identifiable Tranche of such Notes; or
- (b) such *Notes* are being issued in compliance with U.S. Treasury Regulation §1.163-5(c)(2)(i)(D) (the "**D Rules**"), as specified in the relevant Final Terms.

Permanent Global Notes

In all other cases, each Series or Tranche of Bearer Notes will be represented by a permanent global note (a "**Permanent Global Note**").

The Temporary Global Note or Permanent Global Note (as the case may be) initially representing each Series or Tranche of Bearer Notes will be deposited on the Issue Date thereof with a common depository (the "**Common Depository**") for Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, S.A. ("**Clearstream, Luxembourg**") (or, in the case of a Series or Tranche to be cleared through a clearing system other than Euroclear or Clearstream, Luxembourg (an "**Alternative Clearing System**", which expression shall include the CMU Service whenever the context permits) as agreed between the relevant Issuer, the Guarantor (if applicable), the Fiscal Agent and the relevant Dealers). Notwithstanding the foregoing, in the case of a Series or Tranche of Bearer Notes to be cleared through the CMU Service, the Temporary Global Note or Permanent Global Note (as the case may be) shall be deposited with a sub-custodian in Hong Kong for the CMU Service.

Registered Notes

As set forth in the Final Terms, each Series or Tranche of Notes in registered form ("**Registered Notes**") will be represented by either:

- (a) *Definitive Certificates*: one or more Certificates in definitive form which shall be delivered as agreed between the relevant Issuer, the Guarantor (if applicable) and the relevant Dealer(s); or
- (b) *Registered Global Notes*: one or more registered Global Notes ("**Registered Global Notes**" and each a "**Registered Global Note**" and, together with the Temporary Global Note and the Permanent Global Note, the "**Global Notes**" and each a "**Global Note**") without Coupons, deposited on the Issue Date with a Common Depository, and registered in the name of a nominee, for Euroclear and Clearstream, Luxembourg (or, in the case of a Series or Tranche to be cleared through an Alternative Clearing System, as agreed between the relevant Issuer, the Guarantor (if applicable), the Fiscal Agent, the Registrar and the relevant Dealer(s)). Notwithstanding the foregoing, in the case of a Series or Tranche of Registered Notes to be cleared through the CMU Service, the

Registered Global Note shall be deposited with a sub-custodian in Hong Kong for the CMU Service.

2. Clearing Systems

Upon the initial deposit of a Bearer Global Note with a Common Depository or registration of Registered Notes in the name of any nominee for Euroclear and Clearstream, Luxembourg and delivery of the relevant Registered Global Note to the Common Depository, Euroclear or Clearstream, Luxembourg will credit each subscriber with a principal amount of Notes equal to the principal amount thereof for which it has subscribed and paid.

Notes that are initially deposited with the Common Depository may (if indicated in the relevant Final Terms) also be credited to the accounts of subscribers with (if indicated in the relevant Final Terms) Alternative Clearing Systems through direct or indirect accounts with Euroclear and Clearstream, Luxembourg held by such Alternative Clearing Systems. Conversely, Notes that are initially deposited with an Alternative Clearing System may similarly be credited to the accounts of subscribers with Euroclear, Clearstream, Luxembourg or other Alternative Clearing Systems.

Each of the persons shown in the records of Euroclear, Clearstream, Luxembourg or any Alternative Clearing System as the holder of a Note represented by a Bearer Global Note or a Registered Global Note must look solely to Euroclear, Clearstream, Luxembourg or the Alternative Clearing System (as the case may be) for his share of each payment made by the relevant Issuer to the bearer of such Bearer Global Note or the holder of the underlying Registered Notes, as the case may be, and such payments and all other rights arising under the Bearer Global Notes or Registered Global Notes, will be subject to and in accordance with the respective rules and procedures of Euroclear, Clearstream, Luxembourg or such Alternative Clearing System (as the case may be). Such persons shall have no claim directly against the relevant Issuer in respect of payments due on the Notes for so long as the Notes are represented by such Bearer Global Note or Registered Global Note and such obligations of the relevant Issuer, or the Guarantor (if applicable), will be discharged by payment to the bearer of such Bearer Global Note or the holder of the underlying Registered Notes, as the case may be, in respect of each amount so paid.

Without prejudice to the generality of the above, if a Global Note is lodged with the CMU Service, the person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU Service in accordance with the CMU Rules as notified by the CMU Service to the CMU Lodging Agent in a relevant CMU Instrument Position Report or any other relevant notification by the CMU Service (which notification, in either case, shall be conclusive evidence of the records of the CMU Service save in the case of manifest error) shall be the only person(s) entitled to receive payments in respect of Notes represented by such Global Note and the relevant Issuer and the Guarantor, if applicable, will be discharged by payment to, or to the order of, such person(s) for whose account(s) interests in such Global Note are credited as being held in the CMU Service in respect of each amount so paid. Each of the persons shown in the records of the CMU Service, as the beneficial holder of a particular principal amount of Notes represented by such Global Note must look solely to the CMU Paying Agent for his share of each payment so made by the relevant Issuer in respect of such Global Note.

3. Exchange

Temporary Global Notes

Each Temporary Global Note in respect of a Tranche of Bearer Notes will be exchangeable, free of charge to the holder, on or after its Exchange Date:

- (a) *Bearer Notes in definitive form*: if the relevant Final Terms indicates that such Temporary Global Note is issued in compliance with U.S. Treasury Regulation §1.163-5(c)(2)(i)(C) (the "**C Rules**") or in a transaction to which TEFRA is not applicable, in whole, but not in part, for Bearer Notes in definitive form as described below; and
- (b) *Permanent Global Note*: otherwise, in whole or in part, upon certification as to non-US beneficial ownership in the form set out in the Agency Agreement, for interests in a Permanent Global Note or, if so *provided* in the relevant Final Terms, for Bearer Notes in definitive form, provided that the CMU Service may require that any such

exchange for interests in a Permanent Global Note is made in whole and not in part and, in such event, no such exchange will be effected until all relevant accountholders (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) (the "**CMU Members**") have so certified. Additionally, the CMU Service will not obtain certificates of non-US beneficial ownership from the CMU Members or provide any such certificates on behalf of CMU Members. The CMU Lodging Agent will collect such certificates from the relevant CMU Members identified from a relevant CMU Instrument Position Report obtained by request from the CMU Service for this purpose.

"Exchange Date" means, in relation to a Temporary Global Note, the day falling after the expiry of 40 days after the Issue Date of the Notes.

Permanent Global Notes

Each Permanent Global Note in respect of a Tranche of Bearer Notes will be exchangeable, free of charge to the holder, on or after its Exchange Date in whole but not in part for Bearer Notes in definitive form only in the following circumstances:

- (a) unless principal in respect of any Bearer Notes is not paid when due, by the relevant Issuer giving notice to the Noteholders and the Fiscal Agent of its intention to effect such exchange;
- (b) if the Final Terms provides that such Permanent Global Note is exchangeable at the request of the holder, by the holder giving notice to the Fiscal Agent of its election for such exchange; or
- (c) (i) if the Permanent Global Note is held on behalf of Euroclear or Clearstream, Luxembourg or any Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or in fact does so or (ii) upon or following any failure to pay principal in respect of any Bearer Notes when it is due and payable, by the holder giving notice to the Fiscal Agent of its election for such exchange.

"Exchange Date" means, in relation to a Permanent Global Note, a day falling not less than 60 days, or in the case of exchange following failure to pay principal in respect of any Bearer Notes when due 30 days, after that on which notice requiring exchange is given and on which commercial banks are open for business in the city in which the specified office of the Fiscal Agent is located and, except in the case of exchange pursuant to sub-paragraph (c)(i) above, in the cities in which Euroclear and Clearstream, Luxembourg, or any Alternative Clearing System (if applicable), are located.

A Permanent Global Note is not exchangeable in part except (provided that if the Permanent Global Note is held by or on behalf of Euroclear, Clearstream, Luxembourg or an Alternative Clearing System, such clearing system permits) upon or following any failure to pay principal in respect of the Notes when it is due and payable.

The exchange at the request of the holder, as described in paragraph (b) above, should not be expressed to be applicable if the Notes are issued in denominations comprising a minimum Specified Denomination (such as €100,000 (or its equivalent in another currency)) plus one or more higher integral multiples of another smaller amount (such as €1,000 (or its equivalent in another currency)). Furthermore, such denomination construction is not permitted in relation to any issue of Notes which is to be represented on issue by a Permanent Global Note in respect of a Tranche of Bearer Notes exchangeable for Bearer Notes in definitive form.

Registered Global Notes

Each Registered Global Note will only be exchangeable for Certificates in definitive form:

- (a) if the Notes represented by the Registered Global Note are held (directly or indirectly) on behalf of Euroclear or Clearstream, Luxembourg or an Alternative Clearing System and any such clearing system is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so;
- (b) upon or following any failure to pay principal in respect of any Notes when it is due and payable; or
- (c) with the consent of the relevant Issuer.

Delivery

On or after any due date for exchange of any Bearer Global Note or Registered Global Note, the holder of such Bearer Global Note or Registered Global Note may surrender the same or, in the case of a partial exchange, present it for endorsement to or to the order of the Fiscal Agent or Registrar, as the case may be, or as otherwise specified in the Bearer Global Note or Registered Global Note, as the case may be. Upon surrender of any Bearer Global Note or Registered Global Note, or the part thereof to be exchanged, the relevant Issuer will:

- (a) **Permanent Global Note** in the case of a Temporary Global Note exchangeable for a Permanent Global Note, deliver, or procure the delivery of, a Permanent Global Note in an aggregate principal amount equal to that of the whole or that part of a Temporary Global Note that is being exchanged or, in the case of a subsequent exchange, endorse, or procure the endorsement of, a Permanent Global Note to reflect such exchange; or
- (b) **Definitive Notes and Certificates** in the case of a Permanent Global Note or Registered Global Note exchangeable for Notes or Certificates in definitive form (unless such exchange is at the request of the relevant Issuer) at the cost of the relevant Noteholder, cause an equal aggregate principal amount of Notes or Certificates in definitive form to be executed and delivered to the Fiscal Agent or the Registrar, as the case may be, for completion, authentication and dispatch to the relevant Noteholders.

Bearer Notes in definitive form will be security-printed and Certificates in definitive form will be printed in accordance with any applicable legal and listing authority, stock exchange and/or quotation system requirements in or substantially in the form set out in the Schedules to the Agency Agreement.

On exchange in full of each Bearer Global Note, the relevant Issuer will, if the holder so requests, procure that it is cancelled and returned to the holder together with the relevant Notes in definitive form for which it was exchanged.

4. Legends

Each Bearer Note (including each Bearer Global Note), Talon and Coupon will bear the following legend:

"Any United States person who holds this obligation will be subject to limitations under the United States income tax laws, including the limitations provided in Sections 165(j) and 1287(a) of the Internal Revenue Code."

The sections of the U.S. Internal Revenue Code referred to in the legend provide that a United States taxpayer, with certain exceptions, will not be permitted to deduct any loss, and will not be eligible for capital gain treatment with respect to any gain realised, on any sale, exchange or redemption of Bearer Notes or any related Coupons.

5. Provision Relating to Notes Whilst Notes in Global Form

Each Bearer Global Note and Registered Global Note contains provisions that apply to the Notes that they represent, some of which modify the effect of the Conditions of the Notes set out in this Base Prospectus. The following is a summary of those provisions:

(a) **Payments**

No person shall be entitled to receive any payment in respect of the Notes represented by any Bearer Global Note that falls due on or after the Exchange Date of that Bearer Global Note unless, upon presentation, exchange for an interest in, as appropriate, a Permanent Global Note or for Bearer Notes in definitive form is improperly withheld or refused or, in the case of a Permanent Global Note, the relevant Issuer does not comply with or perform its obligations under any Bearer Note in definitive form. Payments on any Temporary Global Note issued in compliance with the D Rules before the Exchange Date will only be made against presentation of certification as to non-US beneficial ownership in the form set out in the Agency Agreement. All payments in respect of Bearer Notes will be made against presentation for endorsement and, if no further payment is due to be made in respect of such Notes, surrender of that Bearer Global Note to or to the order of the Fiscal Agent, or such other Paying Agent as shall have been notified to the Noteholders for such purpose. A record of each payment so made will be endorsed on each such Bearer Global Note, which endorsement will be *prima facie* evidence that such payment has been made in respect of the Notes.

In respect of a Global Note held through the CMU Service, any payments of principal, interest (if any) or any other amounts shall be made to the person(s) for whose account(s) interests in the relevant Global Note are credited (as set out in a CMU Instrument Position Report or any other relevant notification supplied to the CMU Lodging Agent by the CMU Service) and, save in case of final payment, no presentation of the relevant Global Note shall be required for such purpose.

So long as the Notes are represented by a Registered Global Note, the "**Record Date**" shall be the close of business (in the relevant clearing system) on the Clearing System Business Day before the due date for such payment where "**Clearing System Business Day**" means a day on which the relevant clearing system is open for business.

(b) **Prescription**

Claims against the relevant Issuer in respect of Notes issued by it that are represented by a Permanent Global Note will become void unless it is presented for payment within a period of 10 years (in the case of principal) and five years (in the case of interest) from the appropriate Relevant Date.

(c) **Meetings**

The holder of a Global Note or Registered Global Note shall (unless such Global Note or Registered Global Note represents only one Note) be treated as being two persons for the purposes of any quorum requirements at any meeting of Noteholders. At any such meeting, the holder of a Permanent Global Note shall be treated as having one vote in respect of each minimum Specified Denomination of Notes for which such Permanent Global Note may be exchanged.

(d) **Cancellation**

Cancellation of any Bearer Note represented by a Bearer Global Note that is required by the Conditions to be cancelled (other than upon its redemption) will be effected by reduction in the principal amount of the relevant Bearer Global Note and evidenced by the appropriate notation in the relevant schedule to such Bearer Global Note.

(e) **Purchase**

Bearer Notes represented by a Permanent Global Note may only be purchased by the relevant Issuer or any of its subsidiaries together with the rights to receive all future payments of interest and Instalment Amounts (if any) thereon.

(f) ***Each Issuer's Options***

Any option of the relevant Issuer provided for in the Terms and Conditions of any Notes issued by it while such Notes are represented by a Global Note shall be exercised by the relevant Issuer giving notice to the Noteholders within the time limits set out in, and containing the information required by, the Conditions, except that the notice shall not be required to contain the serial numbers of Notes drawn in the case of a partial exercise of an option and accordingly no drawing of Notes shall be required. In the event that any option of the relevant Issuer is exercised in respect of some but not all of the Notes of any Tranche or Series which are represented by a Global Note, the rights of accountholders with a clearing system in respect of the Notes will be governed by the standard procedures of Euroclear, Clearstream, Luxembourg or any Alternative Clearing System (as the case may be).

(g) ***Noteholders' Options***

Any option of the Noteholders provided for in the Terms and Conditions of any Notes while such Notes are represented by a Global Note may be exercised by the holder of the Global Note delivering to the Fiscal Agent, within the time limits relating to the deposit of Notes with a Paying Agent set out in the Conditions, a notice stating the principal amount of Notes in respect of which the option is exercised (but which shall not be required to state the serial numbers of such Notes) and at the same time presenting the Global Note to the Fiscal Agent or to a Paying Agent acting on behalf of the Fiscal Agent, for notation.

(h) ***Events of Default***

(i) *In respect of Notes issued by ANZBGL*

Each Bearer Global Note and Registered Global Note representing the Notes provides that the holder may from time to time exercise the right to declare the Notes represented by such Bearer Global Note or Registered Global Note due and repayable in the circumstances described in Condition 9 (*Events of Default*) in the section entitled "*Terms and Conditions of the Notes*" by stating in a notice to the Fiscal Agent the principal amount of such Bearer Global Note or Registered Global Note that is due and repayable. If principal in respect of any Note is not paid when due, the holder of a Bearer Global Note or Registered Global Note representing such Notes from time to time may elect in a notice to the Fiscal Agent for direct enforcement rights against ANZBGL under the terms of a Deed of Covenant executed as a deed by the Issuers on 21 November 2023 to come into effect in relation to the whole or a part of such Bearer Global Note or Registered Global Note in respect of which such failure to pay principal has occurred in favour of the persons entitled to such part of such Bearer Global Note or Registered Global Note, as the case may be, as accountholders with a clearing system. Following any such election, the specified portion of the Bearer Global Note or, as the case may be, the Registered Global Note and the corresponding entry in the register kept by the Registrar will become void, save to the extent that the appropriate direct enforceable rights shall fail to take effect for whatever reason. In the case of Bearer Global Notes, no such election may however be made on or before the Exchange Date unless the holder elects in such notice that the exchange for such Notes shall no longer take place.

(ii) *In respect of Notes issued by ANZ Bank New Zealand and ANZNIL*

Each Bearer Global Note and Registered Global Note provides that the holder may from time to time exercise the right to declare Notes represented by such Bearer Global Note or Registered Global Note due and repayable in the circumstances described in Condition 9 (*Events of Default*) in the section entitled "*Terms and Conditions of the Notes*" by stating in a notice to the Fiscal Agent the principal amount of such Bearer Global Note or Registered Global Note that is due and repayable. If principal in respect of any Note is not paid when due (but subject as provided below), the holder of a Bearer Global Note or Registered Global Note representing such Notes from time to time may elect in a notice to the Fiscal Agent for direct enforcement rights against the relevant Issuer under the terms of a Deed of Covenant executed as a deed by the Issuers on 21 November 2023

to come into effect in relation to the whole or a part of such Bearer Global Note or Registered Global Note in respect of which such failure to pay principal has occurred in favour of the persons entitled to such part of such Bearer Global Note or Registered Global Note, as the case may be, as accountholders with a clearing system. Following any such election, the specified portion of the Bearer Global Note or, as the case may be, the Registered Global Note and the corresponding entry in the register kept by the Registrar will become void, save to the extent that the appropriate direct enforceable rights shall fail to take effect for whatever reason. Save as provided in this paragraph and in the Deed of Covenant, no term of the Bearer Global Note or Registered Global Note may be enforceable by any person other than the holder. However, no such election may be made (A) in respect of Bearer Global Notes, on or before the Exchange Date unless the holder elects in such notice that the exchange for such Notes shall no longer take place, or (B) in respect of Notes represented by a Registered Global Note, unless the exchange of the whole or a part of the holding of Notes represented by that Registered Global Note shall have been improperly withheld or refused.

(i) **Notices**

So long as any Notes are represented by a Bearer Global Note and such Bearer Global Note is held on behalf of a clearing system, notices to the holders of such Notes may be given by delivery of the relevant notice to that clearing system for communication by it to entitled accountholders in substitution for publication as required by the Conditions. Such notices shall be deemed to have been given to the holders of the Notes in accordance with the Conditions on the date of delivery to that clearing system. In addition, so long as any Bearer Global Notes or Registered Global Notes are admitted to trading on the main market of the London Stock Exchange or to listing, trading and/or quotation by any other listing authority, stock exchange and/or quotation system (so long as such Bearer Global Notes or Registered Global Notes are admitted to trading on the main market of the London Stock Exchange or to listing, trading and/or quotation by any other listing authority, stock exchange and/or quotation system), notices shall also be published as may be required by the rules and regulations of such listing authority, stock exchange and/or quotation system and on the website of the Issuer at <https://www.anz.com/debtinvestors/centre/programmes/anz-banking-group/euro-medium-term-note-programme-aus/> in respect of Notes issued by ANZBGL and at <https://www.anz.com/debtinvestors/centre/programmes/anz-bank-nz/euro-medium-term-note-programme-nz/> in respect of Notes issued by ANZ Bank New Zealand and ANZNIL.

Notwithstanding the above, for so long as the Notes are represented by a Global Note and such Global Note is held on behalf of CMU Service, notices to the Noteholders may be given by delivery of relevant notice to the CMU Lodging Agent for communication to the CMU Members or to the person shown in a CMU Instrument Position Report issued by the CMU Service on the Business Day preceding the date of dispatch of such notice as holding interests in the Global Note.

(j) **CMU Lodging Agent**

So long as the Notes are represented by a Global Note and such Global Note is held on behalf of the CMU Service, any reference in this section (headed "Form of the Notes") to "Fiscal Agent" shall, whenever the context so permits, be deemed to mean the "**CMU Lodging Agent**".

ANZGHL is a NOHC and is authorised as such for the purposes of the Australian Banking Act. ANZGHL is listed, and ANZGHL ordinary shares are quoted, on the ASX. Group Centre division provides support to the operating divisions, including technology, property, risk management, financial management, treasury, strategy, marketing, human resources, corporate affairs, and shareholder functions. It also includes minority investments in Asia.

Suncorp Bank Acquisition

On 18 July 2022, the ANZ Group announced an agreement to purchase 100% of the shares in SBGH Limited, the immediate non-operating holding company of Suncorp Bank. The acquisition was subject to Australian Competition and Consumer Commission ("ACCC") authorisation or approval. The ACCC declined to grant authorisation for this acquisition in August 2023 and this decision is currently subject to review by the Australian Competition Tribunal. In addition, the acquisition remains subject to satisfaction of certain conditions, including Federal Treasurer approval and certain amendments to the State Financial Institutions and Metway Merger Act 1996 (QLD). ANZBGL will also have a termination right under the Suncorp Bank Sale Agreement if APRA issues a written communication to ANZBGL under or in connection with APS 222 Associations with Related Entities to the effect that ANZBGL must not proceed with completion of the acquisition. Assuming these conditions are satisfied, and merger approval is granted, it is expected to occur in mid-calendar year 2024. For further information, see risk factor "*Acquisitions and divestments may adversely affect the ANZBGL Group's Position*".

DESCRIPTION OF SUPERVISION AND REGULATION OF AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED

As a major banking group, the ANZBGL Group is subject to extensive regulation by regulatory agencies and security exchanges in each of the major markets where it operates. The ANZBGL Group is part of the ANZ Group (being ANZGHL together with its subsidiaries). ANZGHL is a non-operating holding company authorised by APRA (an "**authorised NOHC**") and the listed parent company of the ANZ Group. This section provides an overview of the regulation and supervision of the ANZBGL Group, focusing on Australia and the United States, as well as the ANZ Group. Except to the extent stated herein, all information disclosed in this "Description of Supervision and Regulation of Australia and New Zealand Banking Group Limited" section relates to the ANZBGL Group. Refer to the section headed "*Description of Supervision and Regulation of ANZ Bank New Zealand Limited and ANZ New Zealand (Int'l) Limited*" for an overview of the regulatory landscape in New Zealand.

OVERVIEW

APRA

ANZBGL and ANZGHL are APRA-regulated entities, with obligations under the Australian Banking Act and APRA prudential and reporting standards.

A summary of APRA's regulation of the ANZ Group is set out below.

- ANZGHL: is an authorised NOHC. It is required to comply with the conditions of its authorisation which are summarised below and include specific capital requirements. As an authorised NOHC, it is also subject to regulation under the Australian Banking Act and certain APRA prudential standards. As the head of a Level 3 group, it is required to ensure certain APRA prudential standards are applied appropriately throughout the ANZ Group (including the ANZ Bank Group and relevant members of the ANZ Non-Bank Group).
- ANZ Bank Group: includes the ANZ Group's entities that conduct banking business (including ANZBGL, ANZ Bank New Zealand and the other entities in the ANZ Group). ANZBGL is an ADI and the ANZ Bank Group is subject to the full suite of APRA prudential and reporting standards for ADIs, including standards in relation to capital adequacy and liquidity. Refer to "Australia" below for more information on the role of APRA as it applies to the ANZ Bank Group.
- ANZ Non-Bank Group: comprises the ANZ Group's entities that are not within the ANZ Bank Group. Subject to those requirements relating to APRA's authorisation, these entities are not subject to ADI-specific regulation, such as bank capital adequacy and liquidity requirements currently applied to ANZBGL. As noted above, ANZGHL is required to apply certain APRA prudential standards appropriately throughout the ANZ Group, including to relevant members of the ANZ Non-Bank Group being those where ANZGHL has considered it appropriate to do so to protect the ANZ Group or its customers or where APRA has required ANZGHL to do so.

ANZGHL is required to hold adequate capital to reflect the risks of the whole ANZ Group, including both the ANZ Bank Group and ANZ Non-Bank Group. The ANZ Bank Group's capital requirements, including those applicable to ANZBGL, are determined by existing APRA requirements.

As noted above, following the Restructure, ANZGHL is an APRA-regulated entity. APRA's authorisation of ANZGHL as an authorised NOHC under the Banking Act is subject to certain conditions, including the following:

- ANZ Bank HoldCo and ANZBGL must have an independent director who is not on the board of ANZGHL or any ANZ Non-Bank Group entity;
- ANZGHL itself must not undertake any activities other than for example, providing executive leadership across the ANZ Group, holding investments in subsidiaries, raising funds to invest in or support subsidiaries or to conduct its own activities or other activities required to achieve compliance with its prudential obligations, or other activities approved by APRA;

- ANZGHL must obtain APRA's no-objection confirmation prior to starting material activities in ANZ Non-Bank Group;
- ANZBGL must retain ownership of, or access to, all functions critical to its operations;
- non-regulated businesses of the ANZ Group must be financially and operationally separable from ANZBGL; and
- ANZGHL must ensure that the ANZ Non-Bank Group does not carry on any activities that pose excessive risk to the ADI (and ensure that the ANZ Bank Group transfers to the ANZ Non-Bank Group any activities that APRA notifies in writing to constitute an undue risk to the ADI).

APRA has the ability to review and modify these conditions at any time if it considers it appropriate to do so.

RBNZ

For a discussion of the regulation of ANZBGL and ANZ Bank New Zealand (or ANZ Bank New Zealand's subsidiaries) by RBNZ refer to "Australia" below and "Description of Supervision and Regulation of ANZ Bank New Zealand Limited and ANZ New Zealand (Int'l) Limited-The supervisory role of the RBNZ". ANZGHL is not an RBNZ regulated entity.

Other

A number of other regulators maintain oversight and regulation of the ANZ Group (including both the ANZ Bank Group and ANZ Non-Bank Group). In Australia, these regulators include:

- Australian Securities and Investments Commission ("**ASIC**") – in relation to corporations and securities matters;
- Australian Transaction Reports and Analysis Centre ("**AUSTRAC**") – in relation to anti-money laundering and counter-terrorism financing laws; and
- the Office of the Australia Information Commissioner ("**OAIC**") – in relation to privacy and freedom of information law.

In the United States, these regulators include the United States Federal Reserve and the Office of the Comptroller of the Currency.

AUSTRALIA

Prudential and Regulatory Supervision

The Supervisory Role of APRA

Since 1 July 1998, APRA has been responsible for the prudential and regulatory supervision of Australian ADIs, which include banks (including ANZBGL), credit unions, building societies, insurance companies and superannuation funds. Prior to this, the Australian banking industry was regulated by the Reserve Bank of Australia ("**RBA**"). The RBA has retained overall responsibility for monetary policy, financial system stability and payments system regulation. APRA draws authority from the Australian Prudential Regulation Authority Act 1998 of Australia. APRA is also responsible for prudential regulation and supervision of various other regulated entities, such as authorised NOHCs (including ANZGHL).

APRA requires ADIs to meet certain prudential requirements that are covered in a range of APRA Prudential Standards.

APRA discharges its responsibilities in part by requiring ADIs subject to its supervision to regularly provide it with reports that set forth a broad range of information, including financial and statistical data relating to their financial position and information in respect of prudential and other matters. APRA gives special attention to capital adequacy, liquidity, earnings, credit quality and associated loan loss

experience, concentration of risks, maturity profile of assets and liabilities, operational risks, market risks, interest rate risk in the banking book ("**IRRBB**"), exposures to related entities, outsourcing, funds management, governance, business continuity management, recovery and resolution planning, audit and related matters, securitisation activities and international banking operations. APRA may also exercise certain investigative powers if an ADI fails to provide information about its financial condition. Where APRA considers that an ADI may become unable to meet its obligations or may suspend payment (among other circumstances), APRA can take control of the ADI's business (including by appointment of a Banking Act statutory manager). APRA also has power to direct the ADI not to make payments in respect of its indebtedness. In addition, APRA has powers under the Financial Sector (Transfer and Restructure) Act 1999 of Australia to require the compulsory transfer of some or all of an ADI's assets and liabilities or its shares to another body specified by APRA (which need not in all cases be an ADI). Broadly, APRA may require such a transfer in circumstances including where the relevant Australian Minister declares that the transfer should occur, or APRA is satisfied that there has been a contravention of the Banking Act or regulations or instruments made under it or the ADI has informed APRA that it is likely to become unable to meet its obligations or is about to suspend payment, and certain other criteria are met, including that APRA is satisfied that the transfer is appropriate having regard to the interests of the financial sector as a whole. A counterparty to a contract with an ADI cannot rely solely on the fact that a Banking Act statutory manager is in control of the ADI's business or on the making of a direction or compulsory transfer order as a basis for denying any obligations to the ADI or for accelerating any debt under that contract, closing out any transaction relating to that contract or enforcing any security under that contract.

In carrying out its supervisory role, APRA supplements its analysis of statistical data collected from each ADI with selective "on site" visits and formal meetings with the ADI's senior management and the external auditor. APRA has also formalised a consultative relationship with each ADI's external auditor, with the agreement of the ADIs. The external auditor provides additional assurance to APRA that the information sourced from an ADI's accounting records and included in the ADI's APRA reporting is, in all material respects, reliable and in accordance with the relevant APRA Prudential and Reporting Standards. The external auditor also undertakes targeted reviews of specific risk management areas as selected by APRA. In addition, the board of directors of an ADI must make an annual declaration to APRA on risk management of the ADI in the form specified by applicable prudential standards.

Other Australian Regulators

In addition to APRA and its prudential and regulatory supervision, ANZBGL and its Australian subsidiaries are supervised and regulated in some respects by other regulators including ASIC, ACCC, AUSTRAC, OAIC and various securities exchanges.

ASIC is Australia's corporate, markets, financial services and consumer credit regulator. It regulates Australian companies, financial markets, financial services organisations and professionals who deal in and advise on investments, superannuation, insurance, deposit-taking and credit. As the consumer credit regulator, ASIC licenses and regulates people and businesses engaging in consumer credit activities (including banks, credit unions, finance companies, and mortgage and finance brokers). ASIC ensures that licensees meet required standards, including those related to responsibilities to consumers that are set out in the Australian National Consumer Credit Protection Act 2009. As the markets regulator, ASIC assesses how effectively authorised financial markets are complying with their legal obligations to operate fair, orderly and transparent markets. Since 1 August 2010, ASIC has had responsibility for the supervision of trading on Australia's domestic licensed equity, derivatives and futures markets. As the financial services regulator, ASIC licenses and monitors financial services businesses to ensure that they operate efficiently, honestly and fairly. These businesses typically deal in superannuation, managed funds, shares and company securities, derivatives and insurance. ANZBGL provides products and participates in markets regulated by ASIC.

The ACCC is an independent Commonwealth statutory authority that promotes competition and fair trading in the Australian marketplace to benefit consumers, businesses and the community. It also regulates some national infrastructure services. Its primary responsibility is to ensure that individuals and businesses, including the ANZ Group, comply with the Australian competition, fair trading and consumer protection laws.

AUSTRAC is Australia's financial intelligence agency and its anti-money laundering and counter-terrorism financing regulator. The ANZ Group is required to comply with certain anti-money laundering and counter-terrorism financing legislation and regulations under Australian law, including the Anti-Money Laundering and Counter-Terrorism Financing Act 2006 of Australia ("**AML Act**"). The AML Act is administered by AUSTRAC.

The OAIC is an independent agency within the Australian Attorney General's portfolio. Its primary functions are privacy, freedom of information and government information policy, with responsibilities including conducting investigations, reviewing decisions, handling complaints, and providing guidance and advice.

Secrecy obligations may apply from time to time under or in connection with applicable laws including, without limitation, anti-money laundering, whistleblowing and banking and prudential laws and regulations. Information subject to such secrecy obligations may not be publicly disclosed.

Capital and Liquidity

Capital

The common framework for determining the appropriate level of bank regulatory capital is set by the BCBS under a framework that is commonly known as "Basel III".

For calculation of minimum capital requirements under Pillar 1 ("**Capital Requirements**") of the Basel Accord, the ANZBGL Group has been accredited by APRA to use the Advanced Internal Ratings Based methodology for credit risk weighted assets and APS115 Capital Adequacy: Standardised Measurement Approach for operational risk weighted assets.

APRA has adopted the majority of Basel III capital reforms in Australia. APRA views the Basel III reforms as a minimum requirement and hence has not incorporated some of the concessions proposed in the Basel III rules and has also set higher requirements in other areas. As a result, Australian banks' Basel III reported capital ratios are not directly comparable with international peers. The Basel III reforms include: increased capital deductions from CET1 capital, an increase in capitalisation rates (including prescribed minimum capital buffers, fully effective from 1 January 2023), tighter requirements around new Additional Tier 1 ("**AT1**") and Tier 2 securities and transitional arrangements for existing AT1 and Tier 2 securities that do not conform to the new regulations.

For further discussion regarding capital regulatory developments, see "*Australian Regulatory Developments – Capital and Liquidity*" below.

Liquidity

ANZBGL's liquidity and funding risks are governed by a detailed policy framework that is approved by ANZBGL's Board Risk Committee. The management of the liquidity and funding positions and risks is overseen by the ANZBGL Group Asset and Liability Committee. ANZBGL's liquidity risk appetite is defined by the ability to meet a range of regulatory requirements and internal liquidity metrics mandated by ANZBGL's Board Risk Committee. The metrics cover a range of scenarios of varying duration and level of severity. This framework helps:

- provide protection against shorter-term but more extreme market dislocations and stresses;
- maintain structural strength in the balance sheet by ensuring that an appropriate amount of longer-term assets are funded with longer-term funding; and
- ensure no undue timing concentrations exist in the ANZBGL Group's funding profile.

A key component of this framework is the Liquidity Coverage Ratio ("**LCR**") that was implemented in Australia on 1 January 2015. The LCR is a severe short term liquidity stress scenario mandated by banking regulators including APRA. It was introduced as part of the Basel III international framework for liquidity risk measurement, standards and monitoring.

Additionally, since 1 January 2018 the ANZBGL Group has implemented APRA's Net Stable Funding Ratio ("NSFR") requirement. The ANZBGL Group's Level 2 NSFR was 116 per cent. as at 30 September 2023 (30 September 2022: 119 per cent.). ANZBGL seeks to observe strictly its prudential obligations in relation to liquidity and funding risk as required by APRA's prudential standard *APS 210 Liquidity* ("APS 210"), as well as the prudential requirements of overseas regulators on ANZBGL's offshore operations.

Capital Management and Liquidity within APRA's Regulations

For further details of the ANZBGL Group's capital management and liquidity, refer to Notes 14,16, 17 and 24 of ANZBGL's 2023 Audited Financial Statements and the sections entitled "Liquidity", "Funding" and "Capital Management" on pages 31 to 32 of the 2023 Annual Report of ANZBGL, which are incorporated by reference into this Base Prospectus.

Banking Executive Accountability Regime and Financial Accountability Regime

The Banking Executive Accountability Regime ("BEAR") was introduced in 2018 as a new responsibility and accountability framework for the directors and most senior executives in ADI groups. ANZBGL's obligations under the BEAR commenced on 1 July 2018.

Under the BEAR:

- ANZBGL is required to register individuals with APRA before appointing them to certain senior executive or director positions and maintain and provide APRA with a map of the roles and responsibilities of such persons across the ADI group, including ANZ Bank New Zealand, and to provide APRA with accountability statements for each of these senior executives or directors, detailing that individual's roles and responsibilities;
- where ANZBGL's registered senior executives and directors do not meet accountability obligations, APRA is empowered to disqualify those individuals as senior executives or directors without a court order (but subject to a right of administrative review in accordance with Part VI of the Banking Act);
- ANZBGL is obliged to set remuneration policies for directors and senior executives consistent with the BEAR's requirements, including for the deferral of certain components of that remuneration; and
- ANZBGL may be liable for substantial penalties for failing to comply with its BEAR obligations.

In September 2023 legislation came into force establishing the Financial Accountability Regime ("FAR"), which is intended to extend and replace the BEAR.

As with the BEAR, the FAR will apply to all the operations of ANZBGL.

The FAR establishes an accountability framework for certain entities in the banking, insurance and superannuation industries that are regulated by APRA, and persons who hold certain positions or have certain responsibilities within those entities. The FAR will ultimately directly regulate a wider group of APRA regulated entities than the BEAR. The FAR sets out a staged timeline for different types of entities to fall within the definition of 'accountable entities' for the purposes of the FAR and be regulated directly by the FAR. In accordance with that timeline:

- from 15 March 2024, each of ANZBGL (as an ADI) and ANZGHL (as an authorised NOHC of an ADI) will be accountable entities; and
- from 15 March 2025, any insurers or licensed superannuation trustees within the ANZBGL Group will be accountable entities.

The FAR is jointly administered by APRA and ASIC.

Under the FAR, the ANZBGL Group and certain senior personnel will be subject to, or impacted by, new or heightened accountability obligations. For example, the FAR will require each of ANZBGL and the other accountable entities to take reasonable steps to:

- conduct its business with honesty and integrity, and with due skill, care and diligence;
- deal with APRA and ASIC in an open, constructive and cooperative way;
- prevent adverse effects on its prudential standing or prudential reputation;
- ensure that certain directors, senior executives and other key personnel meet the above standards of conduct, and take reasonable steps to ensure compliance with applicable laws; and
- ensure that related entities whose business and activities materially and substantially affect the accountable entities in the ANZ Group comply with the FAR in the same way as the accountable entities themselves.

Crisis Management

Under the Banking Act, APRA has power to facilitate the orderly resolution of the entities it regulates (and certain of their subsidiaries and holding companies) in times of distress. Powers which could impact the ANZ Group include oversight, management and directions powers in relation to ANZBGL and other ANZ Group entities (including ANZGHL) and statutory management powers over regulated entities within the ANZ Group (including ANZGHL). The Banking Act includes provisions which are designed to give statutory recognition to the conversion or write-off of regulatory capital instruments (the "**Statutory Conversion and Write-Off Provisions**").

The Statutory Conversion and Write-Off Provisions apply in relation to regulatory capital instruments issued by certain financial sector entities (including ADIs, of which ANZBGL is one) that contain provisions for conversion or write-off for the purposes of APRA's prudential standards. Where the Statutory Conversion and Write-Off Provisions apply to an instrument, that instrument may be converted in accordance with its terms. This is so despite any law (other than specified laws, currently those relating to the ability of a person to acquire interests in an Australian corporation or financial sector entity), the constitution of the issuer or the conversion entity for the instrument, any contract to which the issuer is a party or the conversion entity for the instrument, and any listing rules, operating rules or clearing and settlement rules applicable to the instrument. In addition, the Banking Act includes a moratorium on the taking of certain actions, such as denying any obligation, accelerating any debt, closing out any transaction or enforcing any security, on grounds relating to the operation of the Statutory Conversion and Write-Off Provisions.

Australian Regulatory Developments – Capital and Liquidity

RBNZ Capital Requirements

The RBNZ's revised capital adequacy requirements for New Zealand banks, which are set out in the BPR documents are being implemented in stages during a transition period from October 2021 to July 2028.

The key requirements for ANZ Bank New Zealand still being implemented are as follows:

- ANZ Bank New Zealand's Tier 1 capital requirement will increase to 16 per cent. of RWA, of which up to 2.5 per cent. can be in the form of AT1 capital. ANZ Bank New Zealand's Total Capital requirement will increase to 18 per cent. of RWA, of which up to 2 per cent. can be Tier 2 capital. The increased capital ratio requirements are being implemented progressively from 1 July 2022 to 1 July 2028.
- AT1 capital must consist of perpetual preference shares, which may be redeemable. Tier 2 capital must consist of long-term subordinated debt.

The net impact on ANZBGL's Level 1 CET1 capital is approximately A\$1 billion to A\$1.5 billion between 30 September 2023 and the end of the transition period in 2028 (based on the ANZBGL Group's 30 September 2023 balance sheet). The amount could also vary over time subject to changes to the capital position in ANZ Bank New Zealand (e.g. from RWA growth, management buffer requirements, and potential dividend payments).

See "*Supervision and Regulation - New Zealand - Bank capital adequacy requirements*" for more information.

Capital Requirements – Unquestionably Strong

APRA implemented its final requirements in relation to capital adequacy and credit risk for ADIs on 1 January 2023. APRA is consulting on revisions to a number of prudential standards, being Interest Rate Risk in the Banking Book (IRRBB), Market Risk and Counterparty Credit Risk. Given the number of items that are yet to be finalised by APRA, the aggregate final outcome from all changes to APRA's prudential standards relating to their review of ADI's "unquestionably strong" capital framework remains uncertain.

APRA Total Loss Absorbing Capacity Requirements

In July 2019, APRA announced its decision on loss-absorbing capacity pursuant to which it will require Australian D-SIBs, including ANZBGL, to increase their Total Capital by 3 per cent. of RWA by January 2024. On 2 December 2021, APRA announced that it has finalised its loss-absorbing capacity requirements and stated that it will require Australian D-SIBs to increase their Total Capital by a further 1.5 per cent. of RWA by January 2026. Inclusive of the previously announced interim increase of 3 per cent., this will result in a total increase to the minimum Total Capital requirement of 4.5 per cent. of RWA. APRA expects the requirement to be satisfied predominantly with additional Tier 2 capital with an equivalent decrease in other senior funding. The amount of the additional Total Capital requirement will be based on the ANZBGL Group's actual RWA as at January 2026. APRA noted "Given changes to RWA from the ADI capital reforms, the lower end of the range in dollar terms broadly equates to a requirement of 4.5 percentage points of RWA under the new capital framework, in place from 2023".

APRA Discussion Paper on Additional Tier 1 Capital in Australia

APRA issued a discussion paper in September 2023 to explore options for, and seek feedback from stakeholders on, improving the effectiveness of Additional Tier 1 Capital in Australia. APRA has indicated that it intends to discuss its paper with relevant stakeholders and may formally consult in calendar year 2024 on any proposed amendments to prudential standards. At this stage, it is not possible to confirm what impact (if any) the options proposed by APRA may have on the ANZBGL Group.

Revisions to Related Entities Framework

In January 2022, APRA's amendment to APS222 Associations with Related Entities ("**APS222**") to reduce the limits for Australian ADIs' individual entity exposure to related ADIs (or overseas equivalents) from 50 per cent. of Level 1 Total Capital to 25 per cent. of Level 1 Tier 1 capital, and aggregate exposures from 150 per cent. of Level 1 Total Capital to 75 per cent. of Level 1 Tier 1 capital came into effect. The reduction in the above limits did not result in a material impact on the ANZBGL Group. See "Restrictions on ANZBGL's ability to provide financial support" below for more detail.

Restrictions on ANZBGL's ability to provide financial support

Effect of APRA's Prudential Standards

APRA's current or future requirements may have an adverse effect on ANZBGL's business, results of operations, liquidity, capital resources or financial condition.

APS222 sets minimum requirements for ADIs in Australia, including ANZBGL, in relation to the monitoring, management and control of risks which arise from associations with related entities and also includes maximum limits on intra-group financial exposures.

Under APS222, ANZBGL's ability to provide financial support to related entities (including ANZ Bank New Zealand) is subject to the following restrictions:

- ANZBGL should not undertake any third party dealings with the prime purpose of supporting the business of related entities;
- ANZBGL must not hold unlimited exposures (i.e., should be limited as to specified time or amount) to related entities (e.g., not provide a general guarantee covering any of the obligations of related entities) either in aggregate or at an individual entity level;
- ANZBGL must not enter into cross-default clauses whereby a default by a related entity on an obligation (whether financial or otherwise) triggers or is deemed to trigger a default of ANZBGL on its obligations; and
- the level of exposure, net of exposures deducted from capital, of ANZBGL's Level 1 Tier 1 capital base:
 - (i) to related ADIs or equivalents, such as ANZ Bank New Zealand, should not exceed 25 per cent. on an individual exposure basis or 75 per cent. in aggregate to all related ADIs or equivalents;
 - (ii) to other related entities:
 - (a) in the case of a regulated related entity, should not exceed 25 per cent. on an individual exposure basis; or
 - (b) in the case of any other (unregulated) related entity, should not exceed 15 per cent. on an individual exposure basis; and
 - (c) should not exceed in aggregate 35 per cent. to all non-ADIs or equivalent related entities.

ANZBGL's exposure to ANZ Bank New Zealand at 30 September 2023 is compliant with the APS222 limits.

In addition, APRA has confirmed that, from 1 January 2021, no more than 5 per cent. of ANZBGL's Level 1 Tier 1 capital base can comprise non-equity exposures to its New Zealand operations (including its subsidiaries incorporated in New Zealand, such as ANZ Bank New Zealand, and ANZBGL's New Zealand branch) during ordinary times. This limit does not include holdings of capital instruments or eligible secured contingent funding support provided to the ANZ Bank New Zealand Group during times of financial stress.

APRA has also confirmed that contingent funding support by ANZBGL to its ANZ Bank New Zealand operations during times of financial stress must be provided on terms that are acceptable to APRA. At present, only covered bonds meet APRA's criteria for contingent funding. APRA also requires that ANZBGL's total exposures to its New Zealand operations must not exceed 50 per cent. of ANZBGL's Level 1 Tier 1 capital base.

Effect of the Level 3 framework

In addition, certain requirements of APRA's Level 3 framework relating to, among other things, group governance and risk exposures became effective on 1 July 2017. This framework also requires the ANZBGL Group to limit its financial and operational exposures to subsidiaries (including ANZ Bank New Zealand).

In determining the acceptable level of exposure to a subsidiary, ANZBGL's Board of Directors should have regard to:

- the exposures that would be approved for third parties of broadly equivalent credit status; and

- the potential impact on ANZBGL's capital and liquidity positions and ability to continue operating in the event of a failure by the subsidiary.

These requirements are not expected to place additional restrictions on ANZBGL's ability to provide financial or operational support to its subsidiaries, including ANZ Bank New Zealand.

Regulatory Developments - Other

Self-assessment into frameworks and practices

In May 2018, APRA noted that all regulated financial institutions would benefit from conducting a self-assessment into their frameworks and practices in relation to governance, culture and accountability and that, for large financial institutions such as the ANZBGL Group, APRA will be seeking written assessments that have been reviewed and endorsed by their boards. APRA made these indications in light of the issues that were identified in the final report relating to the prudential inquiry into another major ADI, which was established to examine the frameworks and practices in relation to the governance, culture and accountability within that ADI group. ANZBGL submitted its written self-assessment to APRA on 30 November 2018. In August 2019, ANZBGL released an article from ANZBGL's Chairman detailing the actions (including development of a 'roadmap') being taken by ANZBGL to address the issues raised in its self-assessment report. ANZBGL's roadmap had five focus areas: culture; governance and accountability; management of operational risk; remediation; and simplification. A multi-year roadmap for the program was completed in 2022. APRA has required ANZBGL to hold an additional capital overlay of A\$500 million for operational risk (from 30 September 2019) until ANZBGL has effectively completed the planned uplift of its management of operational risk as outlined in ANZBGL's roadmap and those actions are having the desired effect on a sustained basis. APRA is conducting a review in 2023 of ANZBGL's progress towards a sustained improvement in its management of operational risk.

Residential mortgage lending practices

In recent years APRA has closely monitored residential mortgage lending practices and taken a number of steps aimed at strengthening residential mortgage lending standards across the banking industry.

In October 2021, APRA increased the minimum interest rate buffer it expects ADIs to use when assessing the serviceability of home loan applications, from at least 2.5 per cent. to at least 3 per cent. over the loan interest rate. APRA indicated that its decision reflects growing financial stability risks from ADIs' residential mortgage lending. APRA has made further revisions to its Credit Risk Management Framework for ADI residential mortgage lending, which came into effect in September 2022. Specifically, an ADI must ensure that it has the ability to limit the extent of lending in the following loan types:

- lending with a debt-to-income ratio greater than or equal to four times or six times;
- lending with a loan-to-valuation ratio greater than or equal to 80 per cent. or 90 per cent.;
- lending for the purposes of investment;
- lending on an interest-only basis; and
- lending with a combination of any two of the types specified in (a) to (d).

Changes in classifications for residential mortgage loans

The current classification of ANZBGL's residential mortgage loans, as reported to regulators and the market, is generally determined during the loan origination process (i.e., loan application, processing and funding), based on information provided by the customer or subsequently when a customer requests changes to the loan.

Classification of residential mortgage loans may change due to:

- incorrect classification at origination: to the extent that customers inaccurately advise ANZBGL of their circumstances at origination, there is a risk that loans may be incorrectly classified, and such loans may be reclassified;
- changes in customer circumstances: ongoing appropriateness of a given classification relies on the customer's obligation to advise ANZBGL of any changes in the customer's circumstances and on ANZBGL's ability to independently validate the information provided by its customers. To the extent that customers advise of any changes in their circumstances or when ANZBGL makes such a determination based on its verification processes, a loan may be reclassified;
- regulatory or other changes: the criteria for loan classifications, and their interpretation, may change for one or more reporting purposes, which may affect the classification of certain loans; and
- changes in ANZBGL's systems and processes.

Incorrect classification or re-classification of loans may affect a customer's ability to meet required repayments, such as when an owner-occupied property loan is re-classified to an investment property loan, which may attract a higher interest rate. The inability of customers to meet repayment obligations on re-classified loans may increase the risk of default on such loans, which may adversely affect the ANZBGL Group's Position.

UNITED STATES

ANZBGL is an indirect subsidiary of ANZGHL and a direct subsidiary of ANZ Bank HoldCo. ANZGHL is the non-operating holding company of ANZBGL. Each of ANZBGL, ANZGHL and ANZ Bank HoldCo has elected to be treated as a Financial Holding Company (a "**FHC**") by the Board of Governors of the Federal Reserve System (the "**FRB**"). A FHC is allowed to engage, or acquire companies engaged, in the U.S. in activities that are determined by the FRB and the Secretary of the Treasury to be financial in nature or incidental thereto, and, with FRB approval, activities that are determined by the FRB to be complementary to financial activities.

Under the Bank Holding Company Act of 1956 (the "**BHC Act**"), the activities of a FHC are subject to restrictions if it is determined that the FHC (including its U.S. branches and agencies and U.S. depository institution subsidiaries) ceases to be "well managed" or "well capitalised" as defined in FRB regulations, the FHC is the subject of an enforcement action requiring it to maintain a specific level of capital, or any U.S. depository institution subsidiary of the FHC fails to maintain at least a "Satisfactory" or better rating under the Community Reinvestment Act. The FRB is the "umbrella" supervisor with jurisdiction over FHCs, including ANZBGL ANZGHL and ANZ Bank HoldCo.

Each of ANZBGL, ANZGHL and ANZ Bank HoldCo is subject to U.S. federal laws and regulations, including the International Banking Act of 1978 (the "**IBA**"). Under the IBA, all branches and agencies of foreign banks in the United States, including ANZBGL's New York branch (the "**New York Branch**"), are subject to reporting and examination requirements similar to those imposed on domestic banks that are owned or controlled by U.S. bank holding companies. As a federally-licensed branch regulated primarily by the Office of the Comptroller of the Currency in the United States (the "**OCC**"), the New York Branch can engage in activities permissible for national banks, with the exception that the New York Branch may not accept retail deposits. As the New York Branch does not accept retail deposits (although it does accept institutional and corporate deposits) the New York Branch is not subject to the supervision of the Federal Deposit Insurance Corporation ("**FDIC**"). Although ANZBGL's U.S. bank subsidiary in Guam is no longer accepting new retail deposits and is currently in the process of being liquidated, it remains subject to supervision by the FDIC. Even following the completion of the currently progressing wind-down of the ANZBGL Group's operations in American Samoa, and liquidation of ANZBGL's U.S. bank subsidiary in Guam, each of ANZBGL, ANZGHL and ANZ Bank HoldCo will

continue to be subject to the BHC Act and their activities as FHCs would become subject to restrictions if one or more of ANZBGL ANZGHL or ANZ Bank HoldCo were to cease to be "well managed" or "well capitalised" or were to become the subject of an enforcement action requiring it to maintain a specific level of capital.

Under the IBA, the FRB has the authority to impose reserve requirements on deposits maintained by U.S. branches and agencies of foreign banks, including the New York Branch. The New York Branch must maintain its accounts and records separate from those of ANZBGL, ANZGHL and ANZ Bank HoldCo and must comply with such additional requirements as may be prescribed by the OCC. The IBA and the BHC Act also affect the ability of ANZBGL, ANZGHL and ANZ Bank HoldCo to engage in non-banking activities in the United States.

Under the IBA, a federal branch of a non-U.S. bank is subject to receivership by the OCC to the same extent as a national bank. The Comptroller may take possession of the business and property of a federal branch. The Comptroller has at its disposal a wide range of supervisory and enforcement tools for addressing violations of laws and regulations, and breaches of safety and soundness, which can be imposed upon federal branches. The Comptroller may remove federal branch management and assess civil money penalties. In certain circumstances, the Comptroller may also terminate a federal branch licence at its own initiative or at the recommendation of the FRB.

Each of ANZBGL, ANZGHL and ANZ Bank HoldCo is subject to certain provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 ("**Dodd-Frank**"). Dodd-Frank regulates many aspects of the business of banking in the United States and internationally.

Section 13 of the BHC Act and its implementing regulations, commonly referred to as the "**Volcker Rule**", among other things, generally prohibit banks and their affiliates from engaging in certain "proprietary trading" (but allows certain activities such as underwriting, market making-related and risk-mitigating hedging activities) and limits the sponsorship of, and investment in, certain private funds (including private equity funds and hedge funds), subject to certain important exceptions and exemptions.

Other Dodd-Frank regulations impose minimum margin requirements on uncleared swaps and security-based swaps, require the central execution and clearing of standardised over the counter derivatives on regulated trading platforms and clearing houses, set limits on the size of positions in certain types of derivatives, require the reporting of transaction data to regulated swap and security-based swap data repositories, and provide for heightened supervision of dealers and major market participants in the derivatives markets. ANZBGL is a provisionally registered swap dealer under the Commodity Exchange Act and Commodity Futures Trading Commission ("**CFTC**") regulations. While ANZBGL is not a registered security-based swap dealer with the U.S. Securities and Exchange Commission ("**SEC**"), it may register at such time as it is required or that it considers appropriate. In addition, other affiliated entities within the ANZBGL Group could become subject to swap dealer or security-based swap dealer registration, depending on the level of their swap or security-based swap dealing activities with counterparties that are U.S. persons and certain other categories of counterparties. Even if not required to be registered with the CFTC or the SEC, such entities are potentially subject to certain of the CFTC's or SEC's regulatory requirements, in connection with transactions that they enter into with counterparties that are U.S. persons and certain other categories of counterparties.

In 2020, the CFTC adopted rules regarding cross-border transactions which, among other things, permit "substituted compliance" by swap dealers located in non-U.S. jurisdictions with regulatory schemes determined by the CFTC to be comparable to its own. The CFTC has previously made such a determination with respect to certain aspects of Australian law and regulation pursuant to guidance issued by the CFTC prior to its adoption of the cross-border rules, and that determination remains in effect under the new rules. Pursuant to that determination, ANZBGL is able to rely on substituted compliance with certain Australian rules in lieu of compliance with corresponding CFTC rules.

U.S. prudential regulators, the CFTC and the SEC have implemented rules imposing initial and variation margin requirements on transactions in uncleared swaps and security-based swaps. As ANZBGL is a swap dealer supervised by the FRB and operates the New York Branch that is regulated by the OCC, it is required to comply with the uncleared swap margin rules promulgated by the FRB, Farm Credit Administration, FDIC, Federal Housing Financial Agency and the OCC. These rules impose

requirements to collect and post initial and variation margin in respect of in-scope trading with in-scope counterparties. The rules of the prudential regulators and the CFTC also allow non-U.S. swap dealers, such as ANZBGL, to comply with the applicable laws of non-U.S. jurisdictions in lieu of compliance with their margin rules if the prudential regulators make a determination of comparability with respect to such non-U.S. jurisdictions, or otherwise not to comply with U.S. margin rules, with respect to certain categories of transactions and counterparties.

As required by Dodd-Frank and implementing regulations, ANZBGL submitted its most recent U.S. resolution plan to the FRB and the FDIC in June 2022 which was prior to the Restructure. Following the Restructure, ANZGHL will submit U.S. resolution plans to the FRB and the FDIC. In October 2019, the FRB and the FDIC issued final rules that apply tailored requirements on resolution planning and a modification of the enhanced prudential standards applicable to foreign banking organisations, depending on the size of their U.S. operations and their risk profile. Under the final rules, ANZGHL will be required to submit a reduced resolution plan by 1 July 2025. Each of ANZBGL, ANZGHL and ANZ Bank HoldCo is subject to "enhanced prudential regulations" under Reg YY, Subpart N, which was adopted pursuant to Dodd-Frank Section 165, and which requires quarterly and annual certification of compliance with the financial and risk oversight requirements thereof.

ANZGHL conducts its debt capital markets activities in the United States through ANZ Securities, Inc. ("ANZSI"). ANZSI is a broker-dealer licensed by the SEC and supervised by the SEC and the Financial Industry Regulatory Authority ("FINRA"). ANZSI is also licensed in the states and territories where it does business. The SEC and FINRA have extensive compliance requirements that apply to ANZSI, including record-keeping, transaction and communications monitoring, supervision of ANZSI staff, internal policies and procedures, and many others that govern the day-to-day business of ANZSI. ANZSI is subject to periodic reviews of its operations by the SEC and FINRA.

FATCA requires financial institutions to undertake specific customer due diligence and provide information on account holders (including substantial owners for certain entities) who are U.S. citizens or tax residents to the United States Federal tax authority, the Internal Revenue Service, either directly or via local tax authorities. If the required customer data collection due diligence and provision of account holder information is not undertaken and provided in a manner and form meeting the applicable requirements, the ANZBGL Group and/or persons owning assets in accounts with Group members may be subjected to a 30 per cent. withholding tax on certain amounts. While such withholding may currently apply only to certain payments derived from sources within the United States, no such withholding will be imposed on any payments derived from sources outside the United States that are made prior to the date that is two years after the date on which final U.S. regulations defining the term "foreign passthru payment" are enacted. There is currently no proposed or final definition of "foreign passthru payment" (though legislative requirements and timeframes may be subject to change) and it is therefore impossible to know whether certain payments could possibly be treated as foreign passthru payments.

The discussion above reflects proposed U.S. regulations that eliminate withholding on certain gross proceeds payments and delay the effective date for withholding on payments from sources outside the United States. The U.S. Treasury Department has indicated that taxpayers may rely on the proposed regulations. The discussion assumes that the regulations will be finalised in their current form and will be effective retroactively.

In addition to FATCA, the U.S. may require the ANZBGL Group in certain circumstances to provide certain information to U.S. payers (withholding agents, custodians, etc.), and the ANZBGL Group and/or its customers may face withholding if the ANZBGL Group does not provide such information in compliance with the applicable rules and regulations. Moreover, even if the ANZBGL Group does provide the required information, withholding may still be applicable to certain U.S. source payments.

In the event that any country in which ANZBGL operates does not have or enforce an Intergovernmental Agreement with the United States, and that country has local law impediments preventing compliance with FATCA, the ANZBGL Group may also be subject to broader compliance issues, significant withholding exposure and other operational impacts.

A major focus of U.S. governmental policies affecting financial institutions has been combating money laundering, terrorist financing and violations of U.S. sanctions. The Uniting and Strengthening America

by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 (the "**Patriot Act**") substantially broadened the scope of U.S. anti-money laundering laws by imposing significant compliance and due diligence obligations, identifying crimes and stipulating penalties and expanding the extra-territorial jurisdiction of the U.S. The U.S. Treasury Department has issued a number of regulations implementing various requirements of the Patriot Act, and other U.S. laws with respect to sanctions, that apply to U.S. financial institutions, including certain U.S. non-bank subsidiaries and U.S. bank subsidiaries and branches of foreign banks such as ANZSI and the New York Branch.

Those regulations require financial institutions operating in the United States to maintain appropriate policies, procedures and controls to detect, prevent, and report money laundering and terrorist financing and to verify the identity of their customers. They also require financial institutions in the United States to operate in compliance with U.S. sanctions regimes. In addition, the U.S. bank regulatory agencies have imposed heightened standards and U.S. law enforcement authorities have been taking a more active role, resulting in intensified enforcement of such matters. Recent resolutions of enforcement actions involving other global financial institutions have involved the payment of substantial penalties, agreements with respect to future operation of their businesses and actions with respect to relevant personnel. Failure of a financial institution to maintain and implement adequate policies and procedures to combat money laundering and terrorist financing, and to comply with U.S. sanctions regimes, could have serious legal and reputational consequences for the financial institution, as well as result in the imposition of civil, monetary and criminal penalties.

In January 2021, the Anti-Money Laundering Act of 2020 ("**AMLA**") was enacted in the United States. The AMLA is intended to comprehensively reform and modernise U.S. anti-money laundering laws. Among other things, the AMLA codifies a risk-based approach to anti-money laundering compliance for financial institutions, requires the development of standards by the U.S. Department of the Treasury for evaluating technology and internal processes for anti-money laundering compliance and expands enforcement and investigation-related authority, including a significant expansion in the available sanctions for certain violations. Many of the statutory provisions in the AMLA will require additional rulemakings, reports and other measures, and the effects of the AMLA will depend on, among other things, rulemaking and implementation guidance.

OTHER REGULATORS

The ANZBGL Group has securities listed on certain securities exchanges. As a result, the ANZBGL Group must comply with a range of listing and corporate governance requirements in Australia, New Zealand and overseas.

In addition to the prudential capital oversight that APRA conducts over ANZBGL and its branch operations and the supervision and regulation described above, local banking operations in all of the ANZBGL offshore branches and banking subsidiaries are subject to host country supervision by their respective regulators, such as the RBNZ, the OCC, the FRB, the UK Prudential Regulation Authority, the Monetary Authority of Singapore, the Hong Kong Monetary Authority, the National Administration of Financial Regulation of the PRC (formerly the China Banking and Insurance Regulatory Commission) and other financial regulatory bodies in those countries and in other relevant countries. These regulators, among other things, may impose minimum capitalisation requirements on those operations in their respective jurisdictions.

The ANZBGL Group is also required to comply with certain anti-money laundering and counter-terrorism financing legislation and regulations under the local laws of all the countries in which it operates.

DESCRIPTION OF ANZ BANK NEW ZEALAND LIMITED

ANZ Bank New Zealand is an indirect subsidiary of ANZGHL, its ultimate parent company. ANZ Bank New Zealand is a registered bank under the BPS Act.

ANZ Bank New Zealand dates back to 1840, when the Union Bank of Australia opened a branch in Wellington, New Zealand. ANZBGL was formed through a series of mergers involving the Union Bank of Australia and its successors.

In 2003, ANZ Banking Group (New Zealand) Limited acquired NBNZ Holdings Limited and its consolidated subsidiaries including The National Bank of New Zealand Limited. In 2004, ANZ Banking Group (New Zealand) Limited amalgamated with The National Bank of New Zealand Limited and changed its name to ANZ National Bank Limited.

In 2012, ANZ National Bank Limited changed its name to ANZ Bank New Zealand Limited and combined its two banking brands (ANZ and The National Bank) under the ANZ brand.

In 2022, ANZBGL established a NOHC, ANZGHL, as the new listed parent holding company of the ANZBGL Group (and, as a result, ANZGHL is the ultimate parent company of the ANZ Bank New Zealand Group) by a scheme of arrangement and separated ANZBGL's banking and certain non-banking businesses into the ANZ Bank Group and ANZ Non-Bank Group. The ANZ Bank Group comprises ANZBGL and the majority of its present-day subsidiaries, including ANZ Bank New Zealand.

As at 30 June 2023, the ANZ Bank New Zealand Group had total assets of NZ\$191,718 million and is the largest full-service banking group measured by total assets compared to other registered banks in New Zealand, based on the "Bank Financial Strength Dashboard" published by the RBNZ.

As at 30 September 2023, ANZ Bank New Zealand held approximately 28 per cent. and the New Zealand branch of ANZBGL held less than 1 per cent. of the total assets held by registered banks in New Zealand, based on data series "S10 Banks: Balance Sheet for registered banks" published by the RBNZ. As at 30 September 2023, ANZ Bank New Zealand was supported by 103 branches with a customer base of over 2 million.

DESCRIPTION OF SUPERVISION AND REGULATION OF ANZ BANK NEW ZEALAND LIMITED AND ANZ NEW ZEALAND (INT'L) LIMITED

ANZ Bank New Zealand and ANZNIL are subject to extensive regulation by regulatory agencies and security exchanges in each of the major markets where they operate. This section provides an overview of the regulatory landscape applicable to ANZ Bank New Zealand and ANZNIL in their key market of New Zealand.

The supervisory role of the RBNZ

The BPS Act requires the RBNZ to exercise its powers of registration of banks and prudential supervision of registered banks (including ANZ Bank New Zealand) for the purposes of:

- promoting the maintenance of a sound and efficient financial system; and
- avoiding significant damage to the financial system that could result from the failure of a registered bank.

The RBNZ's policy around the registration of banks aims to ensure that only financial institutions of appropriate standing and repute are able to become registered banks. Subject to this requirement, the RBNZ has stated that it intends to keep to a minimum any impediments to the entry of new registered banks, in order to encourage competition in the banking system.

The RBNZ's supervisory functions are aimed at encouraging the soundness and efficiency of the financial system as a whole, and are not aimed at preventing individual bank failures or at protecting creditors. The RBNZ seeks to achieve this by drawing on and enhancing disciplines that are naturally present in the market.

The RBNZ places considerable emphasis on a requirement that banks regularly disclose information on financial performance and risk positions, and on a requirement that directors regularly attest to certain key matters. These measures are intended to strengthen market disciplines and to ensure that responsibility for the prudent management of banks lies with those whom the RBNZ considers are best placed to exercise that responsibility- the directors and management.

The main elements of the RBNZ's supervisory role include:

- requiring all banks to comply with certain minimum prudential requirements, which are applied through conditions of registration. These include constraints on connected exposures, minimum capital adequacy requirements and minimum standards for liquidity risk management, and are set out in more detail below;
- monitoring each registered bank's financial condition and compliance with conditions of registration, principally on the basis of published half-yearly disclosure statements and monthly reporting submitted privately to the RBNZ. This monitoring is intended to ensure that the RBNZ maintains familiarity with the financial condition of each bank and the banking system as a whole, and maintains a state of preparedness to invoke crisis management powers should this be necessary;
- consulting the senior management of registered banks;
- using crisis management powers available to it under the BPS Act to intervene where a bank distress or failure situation threatens the soundness of the financial system;
- assessing whether a bank is carrying on business prudently;
- issuing guidelines on overseeing banks' compliance with anti-money laundering and countering financing of terrorism requirements;
- monitoring banks' outsourcing arrangements to determine whether a registered bank's risks associated with outsourcing are appropriately managed;
- issuing guidelines on banks' internal capital adequacy process and liquidity policy;

- issuing guidelines on corporate governance; and
- maintaining close working relationships with parent bank supervisors (such as APRA in Australia) on bank-specific issues, policy issues and general matters relating to the condition of the financial system in New Zealand and in the countries where parent banks are domiciled.

Registered banks are required to issue half-yearly disclosure statements that contain comprehensive details, together with full financial statements at the full-year, and unaudited interim financial statements at the half-year. The financial statements are subject to full external audit at the end of each financial year and a limited scope review at the end of each financial half-year. Each bank director is required to sign his or her bank's disclosure statements and to make certain attestations. A bank and its directors may incur criminal and civil penalties if the bank's disclosure statement contains information that is held to be false or misleading.

The RBNZ publishes a quarterly "dashboard" of key information on registered banks on the RBNZ's website. The dashboard aims to improve the ability of the public and market participants to understand and act on information about such banks' financial strength and risk profile. The information is sourced from private reporting that banks provide to the RBNZ. Information relating to the ANZ Bank New Zealand Group published in the dashboard is not incorporated by reference herein and does not form part of this Base Prospectus. In some cases, information relating to the ANZ Bank New Zealand Group published in the dashboard has been classified and presented differently to the presentation in the ANZ Bank New Zealand consolidated financial statements.

New Zealand-incorporated banks are required to comply with the Basel III capital adequacy requirements, as modified to reflect New Zealand conditions. The RBNZ also requires domestic systemically important banks, including ANZ Bank New Zealand, to maintain a prudential capital buffer of 4.5 per cent. of RWA above the minimum ratios or face restrictions on distributions. This prudential capital buffer is progressively increasing to 9 per cent. of RWA in July 2028. See "*Bank capital adequacy requirements*" below for further information.

New Zealand-incorporated banks (including ANZ Bank New Zealand) are required to comply with BS13. A requirement of BS13 is that New Zealand-incorporated banks meet a minimum core funding ratio ("**CFR**") of 75 per cent., ensuring that at least a minimum proportion of bank funding is met through customer deposits, term wholesale funding and Tier 1 capital.

The RBNZ began a comprehensive review of BS13 in February 2022. This includes considering certain aspects of the Basel III liquidity standards. See "*RBNZ review of BS13*" below for further information.

The RBNZ also requires all registered banks to obtain and maintain a credit rating from an approved organisation and publish that rating in their disclosure statements.

In addition, the RBNZ has wide-reaching powers to obtain further information, data and forecasts in connection with its supervisory functions, and to require that information, data, and forecasts be audited.

It also possesses a number of crisis management powers. Those powers include recommending that a bank's registration be cancelled, investigating the affairs of a registered bank, requiring that a registered bank consults with the RBNZ, giving directions to a registered bank, removing, replacing or appointing a director of a registered bank or recommending that a registered bank be subject to statutory management.

If a registered bank is declared to be subject to statutory management, no person may, among other things:

- commence or continue any action or other proceedings including proceedings by way of counterclaim against that bank;
- issue any execution, attach any debt, or otherwise enforce or seek to enforce any judgment or order obtained in respect of that bank;
- take any steps to put that bank into liquidation; or
- exercise any right of set off against that bank.

As part of the RBNZ's supervisory powers, a person must obtain the written consent of the RBNZ before giving effect to a transaction resulting in that person acquiring or increasing a "significant influence" over a registered bank. "Significant influence" means the ability to appoint 25 per cent. or more of the board of directors of a registered bank or a qualifying interest (e.g., legal or beneficial ownership) in 10 per cent. or more of its voting securities.

In assessing applications for consent to acquire a significant influence over a registered bank, the RBNZ has stated that it will have regard to the same matters as are relevant in assessing an application for registration as a registered bank. In giving its consent, the RBNZ may impose such terms and conditions as it thinks fit.

Bank capital adequacy requirements

The RBNZ has revised its bank capital adequacy requirements applying to New Zealand locally incorporated registered banks, which are set out in the Banking Prudential Requirements ("**BPR**") documents. The new capital adequacy requirements are being implemented in stages during a transition period from October 2021 to July 2028. The key requirements still being implemented are:

- ANZ Bank New Zealand's Tier 1 capital requirement will increase to 16 per cent. of RWA, of which up to 2.5 per cent. can be in the form of AT1 Capital. ANZ Bank New Zealand's Total Capital requirement will increase to 18 per cent. of RWA, of which up to 2 per cent. can be Tier 2 Capital. The increased capital ratio requirements are being implemented progressively until 1 July 2028.
- AT1 capital must consist of perpetual preference shares, which may be redeemable. Tier 2 capital must consist of long-term subordinated debt.
- The Tier 1 capital requirement will include a CET1 prudential capital buffer of 9 per cent. of RWA. This will include: a 2 per cent. domestic, systemically important bank capital buffer; a 1.5 per cent. 'early-set' counter-cyclical capital buffer (which can be temporarily reduced to 0 per cent. following a financial crisis, or temporarily increased); and a 5.5 per cent. capital conservation buffer.
- Contingent capital instruments will no longer be treated as eligible regulatory capital. As at 30 September 2023, ANZ Bank New Zealand had approximately NZ\$1,238 million of AT1 instruments that will progressively lose eligible regulatory capital treatment over the transition period to 1 July 2028, should these instruments remain outstanding.

The RBNZ's reforms will result in a material increase in the level of capital that ANZ Bank New Zealand is required to hold. The reforms could have a material impact on ANZ Bank New Zealand and its business, including on its capital allocation and business planning.

RBNZ's revised outsourcing policy

Large New Zealand-incorporated banks, such as ANZ Bank New Zealand, must ensure their outsourcing arrangements comply with BS11 (the RBNZ's revised outsourcing policy).

All outsourcing arrangements were required to be compliant with BS11 by 1 October 2023. ANZ Bank New Zealand has completed its BS11 transition programme which has been verified by the RBNZ.

The BS11 requirements form part of ANZ Bank New Zealand's Conditions of Registration. If ANZ Bank New Zealand does not comply with its Condition of Registration in relation to outsourcing, the RBNZ could take enforcement action, such as putting further restrictions on ANZ Bank New Zealand's use of outsourcing.

Review of the Reserve Bank Act

The New Zealand Government has concluded a review of the Reserve Bank Act, which has since been renamed the BPS Act. Phase one of the review resulted in the enactment of the Reserve Bank of New Zealand (Monetary Policy) Amendment Act 2018, which made several changes to New Zealand's

monetary policy framework. Phase two involved a comprehensive review of the financial policy provisions of the Reserve Bank Act.

The BPS Act will be replaced with two separate pieces of legislation:

- The Reserve Bank of New Zealand Act 2021 fully commenced in July 2022, replacing parts of the BPS Act that relate to the RBNZ's high-level objectives, powers, functions, governance and funding arrangements. Among other things, the Reserve Bank of New Zealand Act 2021:
 - establishes a new statutory governance board responsible for all decision-making, except decisions made by the Monetary Policy Committee; and
 - introduces an overarching financial stability objective of protecting and promoting the stability of New Zealand's financial system (in addition to the economic objectives and central bank objective).
- The Deposit Takers Act 2023 will, among other things:
 - create a single regulatory regime for all bank and non-bank deposit takers;
 - introduce a DCS, which will protect up to NZ\$100,000 per depositor, per licensed deposit taker, if a pay-out event is triggered;
 - strengthen accountability requirements for directors of deposit takers;
 - broaden the RBNZ's supervision and enforcement tools; and
 - strengthen and clarify the RBNZ's crisis resolution framework (which in substance carries over the key statutory management powers from the BPS Act but places those powers (where practicable) directly in the hands of the RBNZ as resolution authority).

The Deposit Takers Act 2023 was enacted in July 2023. The RBNZ is now undertaking a multi-year work programme to develop policy, standards and regulations to support the commencement of the Deposit Takers Act 2023 regime in 2028. Until the Deposit Takers Act 2023 fully commences, the current regulatory framework for banks is continuing under the BPS Act.

The DCS will be funded by collecting levies from deposit takers, including ANZ Bank New Zealand, and is targeted for initial implementation in late 2024, ahead of the rest of the Deposit Takers Act 2023 coming into effect. In 2023, the Reserve Bank consulted on the development of regulations to support the DCS, including a levy framework, and intends to publish a consultation summary by the end of 2023.

Conduct regulations for financial institutions

The FMCIA Act was enacted in June 2022 and will come into force on 31 March 2025. When it comes into force it will require financial institutions (including registered banks, licensed insurers and non-bank deposit takers) that are in the business of providing relevant services and associated products to:

- obtain a license under Part 6 of the Financial Markets Conduct Act 2013;
- comply with a fair conduct principle (requiring them to treat consumers fairly, including by paying due regard to their interests);
- establish, implement, maintain and comply with an effective fair conduct programme to operationalise the fair conduct principle, and publish a summary of the fair conduct programme; and
- comply with regulations that regulate sales incentives for staff and others who are involved in providing a relevant service.

The FMCIA Act will implement a broad conduct regime that can be expanded over time with further obligations on regulated entities.

RBNZ review of BS13

The RBNZ is undertaking a comprehensive review of BS13. The key issues covered by the review include:

- a potential move towards the Basel III's liquidity framework;
- eligibility requirements for liquid assets in New Zealand;
- the availability of liquid assets in New Zealand;
- the possible establishment of a committed liquidity facility by the RBNZ;
- current and future arrangements for banks to use liquid assets as collateral when transacting with the RBNZ;
- how liquidity requirements should be applied across the spectrum of deposit takers;
- whether liquidity requirements should be applied to foreign bank branches; and
- whether liquidity requirements should be used as a macro-prudential tool.

The first two rounds of consultation of the review are complete. The review is expected to involve a further two rounds of consultation and a quantitative impact study. An updated liquidity policy is currently scheduled to be released in 2025.

Cyber resilience guidance and information sharing consultation

In April 2021, the RBNZ released guidance that outlines its expectations on cyber resilience for regulated entities (including ANZ Bank New Zealand). The guidance aims to raise awareness of, and ultimately promote, the cyber resilience of the financial sector, especially at the board and senior management level. This guidance draws upon leading international and national cybersecurity standards and guidelines and is intended to provide high-level principle-based recommendations for entities.

In May 2023, the RBNZ opened industry consultation on its proposed approach to improve the collection of cyber-related information. The RBNZ proposed the collection of data in three areas:

- a material cyber incident reporting requirement that mandates regulated entities to report all material cyber incidents to the RBNZ within 72 hours after detection;
- reporting of all cyber incidents, regardless of materiality, on a periodic basis; and
- a periodic survey on the cyber resilience of regulated entities based on the RBNZ's cyber resilience guidance.

ANZ Bank New Zealand participated in the consultation process, which closed in July 2023. The RBNZ has confirmed it is working closely with the FMA to ensure alignment between prudential and conduct regulation in this area. The RBNZ is expected to publish its cyber incident reporting requirements in late 2023.

Debt serviceability restrictions

In April 2023, the RBNZ released its finalised debt-to-income restriction framework, which will set limits on the amount of debt borrowers can take relative to their income. Any debt-to-income restrictions will be implemented no earlier than March 2024. The RBNZ intends to consult on the calibration and implementation of debt-to-income restrictions for residential lending early in 2024. As at the date of this Base Prospectus, it is uncertain what impact the proposed debt-to-income restrictions may have on the ANZ Bank New Zealand Group.

Loan-to-value ratio restrictions

From 1 June 2023, New Zealand registered banks are required to restrict new "non-property investment residential mortgage lending" (which is standard residential mortgage lending secured over only owner-occupied residential property) over 80 per cent. Loan to value ratio ("**LVR**") to no more than 15 per cent. (compared to 10 per cent. previously) of the total dollar value of new non-property investment residential

mortgage lending and to also restrict new "property investment residential mortgage lending" (which is standard residential mortgage lending that is not non-property investment residential mortgage lending) over 65 per cent. (compared to 60 per cent. previously) LVR to no more than 5 per cent. of the total dollar value of new property investment residential mortgage lending. The impact to the ANZ Bank New Zealand Group's residential mortgage portfolio as a result of these two changes is not expected to be material.

Climate-related disclosures

The Financial Sector (Climate-related Disclosures and Other Matters) Amendment Act 2021 amended the Financial Markets Conduct Act 2013 with effect from 27 October 2022. The amendments require the ANZ Bank New Zealand Group to produce climate statements for the financial year ending 30 September 2024, in accordance with climate reporting standards issued by the New Zealand External Reporting Board. The ANZ Bank New Zealand Group is actively preparing to produce climate statements in accordance with this timetable.

Competition market study

The New Zealand Government directed the Commerce Commission to commence a market study into competition in the New Zealand retail banking sector in June 2023. The study is considering consumer behaviours and preferences, barriers to new competitors entering or expanding in the personal banking market, barriers to new or innovative products and services, and barriers that limit a consumer's ability to switch banks. As part of the study, the Commerce Commission will examine bank profitability and other financial measures to assess competition in the sector. The study is focussed on personal banking services such as home loans and deposit accounts (including current savings and overdraft facilities). The Commerce Commission released a preliminary issues paper on 10 August 2023, in which the Commerce Commission indicated that its initial view of the existing research was that New Zealand banks appeared more profitable than in comparable economies over the past decade, raising questions about the intensity of competition, including for personal banking services. The Commerce Commission is expected to issue its final report after the market study's completion in August 2024.

Open banking

At the date of this Base Prospectus, there is no regulatory requirement to provide third-party financial service providers open access to consumer banking, transaction, and other financial data held by registered banks in New Zealand. In June 2023, the New Zealand Government released an exposure draft of a bill for consultation which contemplates the introduction of a CDR in New Zealand. This was followed in August 2023 by a Commerce Commission consultation to understand if it has a role through the Retail Payment System Act 2022 to remove access barriers to bank transfers to enable more innovative payment options.

For the purposes of this condition of registration, the ratios identified must be calculated in accordance with the Reserve Bank of New Zealand documents entitled "Liquidity Policy" (BS13) dated July 2022 and "Liquidity Policy Annex: Liquid Assets" (BS13A) dated July 2022.

14. That the bank has an internal framework for liquidity risk management that is adequate in the bank's view for managing the bank's liquidity risk at a prudent level, and that, in particular:

Loan information litigation

In September 2021, a representative proceeding was brought against ANZ Bank New Zealand, alleging breaches of disclosure requirements under consumer credit legislation in respect of variation letters sent to certain loan customers. ANZ Bank New Zealand is defending the allegations. The proceeding is still at an early stage. The High Court has ruled that the plaintiffs may bring the proceeding as an opt-out representative action on behalf of a class, being customers who entered into a home loan or personal loan with ANZ Bank New Zealand between 6 June 2015 and 28 May 2016 and requested a variation to that loan during that period. Aspects of the decision are being appealed by both parties.

SUBSCRIPTION AND SALE

Subject to the terms and on the conditions contained in an Amended and Restated Programme Agreement dated 21 November 2023 (as further amended, restated, supplemented and/or updated from time to time, the "**Programme Agreement**") between the Issuers, the Guarantor and the Dealers, the Notes will be offered from time to time by the relevant Issuer to the Dealers. However, each Issuer reserves the right to issue Notes directly on its own behalf to Dealers who are appointed as Dealers in respect of specified Tranches only or to other subscribers procured by it. The Notes may be sold at prevailing market prices, or at prices related thereto, at the time of such sale, as determined by the relevant Dealer. The Notes may also be issued by an Issuer through the Dealers, acting as agents of the relevant Issuer. The Programme Agreement also provides for Notes to be issued in syndicated Tranches that are jointly and severally underwritten by two or more Dealers.

The Dealers are entitled in certain circumstances to be released and discharged from their obligations under the Programme Agreement prior to the closing of the issue of the Notes, including in the event that certain conditions precedent are not delivered or met to their satisfaction on the relevant issue date. In this situation, the issuance of the Notes may not be completed. Investors will have no rights against the relevant Issuer, Guarantor (if applicable) or Dealers in respect of any expense incurred or loss suffered in these circumstances.

The relevant Issuer will pay each relevant Dealer a commission as agreed between such Issuer and the Dealer, which commission may be deducted from the net proceeds payable to such Issuer on the closing of any series of Notes.

Each Issuer has severally agreed to indemnify the Dealers against certain liabilities in connection with the offer and sale of the Notes issued by such Issuer. The Programme Agreement entitles the Dealers to terminate any agreement that they make to subscribe Notes in certain circumstances prior to payment for such Notes being made to the relevant Issuer.

The Issuers have agreed to reimburse the Arranger for certain of its expenses incurred in connection with the establishment of the Programme, and the Dealers for certain of their activities in connection with the Programme.

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuers and their affiliates in the ordinary course of business. In addition, in the ordinary course of business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities may involve securities and/or instruments of the Issuers or Issuers' affiliates. Certain of the Dealers or their affiliates that have a lending relationship with an Issuer routinely hedge their credit exposure to the relevant Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Notes issued under the Programme. Any such short positions could adversely affect future trading prices of such Notes. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

Important Notice to CMIs (include private banks) pursuant to Paragraph 21 of the Code

This notice to CMIs (including private banks) is a summary of certain obligations the SFC Code imposes on CMIs, which require the attention and cooperation of other CMIs (including private banks). Certain CMIs may also be acting as OCs for the relevant CMI Offering and are subject to additional requirements under the SFC Code. The application of these obligations will depend on the role(s) undertaken by the relevant Dealer(s) in respect of each CMI Offering.

Prospective investors who are the directors, employees or major shareholders of any Issuer, the Guarantor, a CMI or its group companies would be considered under the SFC Code as having an Association with the relevant Issuer, the Guarantor, the CMI or the relevant group company. CMIs should

specifically disclose whether their investor clients have any Association when submitting orders for the relevant Notes. In addition, private banks should take all reasonable steps to identify whether their investor clients may have any Associations with the relevant Issuer, the Guarantor or any CMI (including its group companies) and inform the relevant Dealers accordingly.

CMIs are informed that, unless otherwise notified, the marketing and investor targeting strategy for the relevant CMI Offering includes institutional investors, sovereign wealth funds, pension funds, hedge funds, family offices and high net worth individuals, in each case, subject to the selling restrictions and any MiFID II product governance language or any UK MiFIR product governance language set out elsewhere in this Base Prospectus and/or the applicable Pricing Supplement or Final Terms.

CMIs should ensure that orders placed are bona fide, are not inflated and do not constitute duplicated orders (i.e. two or more corresponding or identical orders placed via two or more CMIs). CMIs should enquire with their investor clients regarding any orders which appear unusual or irregular. CMIs should disclose the identities of all investors when submitting orders for the relevant Notes (except for omnibus orders where underlying investor information may need to be provided to any OCs when submitting orders). Failure to provide underlying investor information for omnibus orders, where required to do so, may result in that order being rejected. CMIs should not place "X-orders" into the order book.

CMIs should segregate and clearly identify their own proprietary orders (and those of their group companies, including private banks as the case may be) in the order book and book messages.

CMIs (including private banks) should not offer any rebates to prospective investors or pass on any rebates provided by any Issuer and/or the Guarantor. In addition, CMIs (including private banks) should not enter into arrangements which may result in prospective investors paying different prices for the relevant Notes. CMIs are informed that a private bank rebate may be payable as stated above and in the applicable Pricing Supplement or Final Terms, or otherwise notified to prospective investors.

The SFC Code requires that a CMI disclose complete and accurate information in a timely manner on the status of the order book and other relevant information it receives to targeted investors for them to make an informed decision. In order to do this, those Dealers in control of the order book should consider disclosing order book updates to all CMIs.

When placing an order for the relevant Notes, private banks should disclose, at the same time, if such order is placed other than on a "principal" basis (whereby it is deploying its own balance sheet for onward selling to investors). Private banks who do not provide such disclosure are hereby deemed to be placing their order on such a "principal" basis. Otherwise, such order may be considered to be an omnibus order pursuant to the SFC Code. Private banks should be aware that placing an order on a "principal" basis may require the relevant affiliated Dealer(s) (if any) to categorise it as a proprietary order and apply the "proprietary orders" requirements of the SFC Code to such order and will result in that private bank not being entitled to, and not being paid, any rebate.

In relation to omnibus orders, when submitting such orders, CMIs (including private banks) that are subject to the SFC Code should disclose underlying investor information in respect of each order constituting the relevant omnibus order (failure to provide such information may result in that order being rejected). Underlying investor information in relation to omnibus orders should consist of:

- The name of each underlying investor;
- A unique identification number for each investor;
- Whether an underlying investor has any "Associations" (as used in the SFC Code);
- Whether any underlying investor order is a "Proprietary Order" (as used in the SFC Code);
- Whether any underlying investor order is a duplicate order.

Underlying investor information in relation to omnibus order should be sent to the Dealers named in the relevant Final Terms or Pricing Supplement, as applicable.

To the extent information being disclosed by CMIs and investors is personal and/or confidential in nature, CMIs (including private banks) agree and warrant: (A) to take appropriate steps to safeguard the

transmission of such information to any OCs; and (B) that they have obtained the necessary consents from the underlying investors to disclose such information to any OCs. By submitting an order and providing such information to any OCs, each CMI (including private banks) further warrants that they and the underlying investors have understood and consented to the collection, disclosure, use and transfer of such information by any OCs and/or any other third parties as may be required by the SFC Code, including to any Issuer, the Guarantor, relevant regulators and/or any other third parties as may be required by the SFC Code, for the purpose of complying with the SFC Code, during the bookbuilding process for the relevant CMI Offering. CMIs that receive such underlying investor information are reminded that such information should be used only for submitting orders in the relevant CMI Offering. The relevant Dealers may be asked to demonstrate compliance with their obligations under the SFC Code, and may request other CMIs (including private banks) to provide evidence showing compliance with the obligations above (in particular, that the necessary consents have been obtained). In such event, other CMIs (including private banks) are required to provide the relevant Dealer with such evidence within the timeline requested.

By placing an order, prospective investors (including any underlying investors in relation to omnibus orders) are deemed to represent to the Dealers that it is not a Sanctions Restricted Person. A "**Sanctions Restricted Person**" means an individual or entity (a "**Person**"): (a) that is, or is directly or indirectly owned or controlled by a Person that is, described or designated in (i) the most current "Specially Designated Nationals and Blocked Persons" list (which as of the date hereof can be found at: <http://www.treasury.gov/ofac/downloads/sdnlist.pdf>) or (ii) the Foreign Sanctions Evaders List (which as of the date hereof can be found at: <http://www.treasury.gov/ofac/downloads/fse/fselist.pdf>) or (iii) the most current "Consolidated list of persons, groups and entities subject to EU financial sanctions" (which as of the date hereof can be found at: https://eas.europa.eu/headquarters/headquartershomepage_en/8442/Consolidated%20list%20of%20sanctions); or (b) that is otherwise the subject of any sanctions administered or enforced by any Sanctions Authority, other than solely by virtue of: (i) their inclusion in the most current "Sectoral Sanctions Identifications" list (which as of the date hereof can be found at: <https://www.treasury.gov/ofac/downloads/ssi/ssilist.pdf>) (the "**SSI List**"), (ii) their inclusion in Annexes 3, 4, 5 and 6 of Council Regulation No. 833/2014, as amended by Council Regulation No. 960/2014 (the "**EU Annexes**"), (iii) their inclusion in any other list maintained by a Sanctions Authority, with similar effect to the SSI List or the EU Annexes, (iv) them being the subject of restrictions imposed by the U.S. Department of Commerce's Bureau of Industry and Security ("**BIS**") under which BIS has restricted exports, re-exports or transfers of certain controlled goods, technology or software to such individuals or entities; (v) them being an entity listed in the Annex to the new Executive Order of 3 June 2021 entitled "Addressing the Threat from Securities Investments that Finance Certain Companies of the People's Republic of China" (known as the Non-SDN Chinese Military- Industrial Complex Companies List), which amends the Executive Order 13959 of 12 November 2020 entitled "Addressing the threat from Securities Investments that Finance Chinese Military Companies"; or (vi) them being subject to restrictions imposed on the operation of an online service, Internet application or other information or communication services in the United States directed at preventing a foreign government from accessing the data of U.S. persons; or (c) that is located, organized or a resident in a comprehensively sanctioned country or territory, including Cuba, Iran, North Korea, Syria, the Crimea region of Ukraine, the Donetsk's People's Republic or Luhansk People's Republic. "**Sanctions Authority**" means: (a) the United States government; (b) the United Nations; (c) the European Union (or any of its member states); (d) the United Kingdom; (e) any other equivalent governmental or regulatory authority, institution or agency which administers economic, financial or trade sanctions; and (f) the respective governmental institutions and agencies of any of the foregoing including, without limitation, the Office of Foreign Assets Control of the U.S. Department of the Treasury, the United States Department of State, the United States Department of Commerce and His Majesty's Treasury.

United States

Neither the Notes nor the Guarantee have been or will be registered under the Securities Act or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons, except pursuant to an exemption from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act. Each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that, except as permitted by the Programme Agreement, it has not offered or sold Notes, and will not offer or sell Notes (i) as part of their distribution at any time or (ii) otherwise until 40

days after the later of the commencement of the offering of the Notes comprising the relevant Tranche and the completion of the distribution of the Notes comprising the relevant Tranche, as determined and certified to the Fiscal Agent or the relevant Issuer by such Dealer (or, in the case of a sale of a Tranche of Notes to or through more than one Dealer, by each of such Dealers as to the Notes of such Tranche purchased by or through it, in which case the Fiscal Agent or the relevant Issuer shall notify each such Dealer when all such Dealers have so certified), within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Rule 903 of Regulation S under the Securities Act. Accordingly, each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree, that none of it, its affiliates or any persons acting on its or their behalf have engaged or will engage in any directed selling efforts (as defined in Regulation S under the Securities Act) with respect to the Notes, and it and they have complied and will comply with any applicable offering restrictions requirement of Regulation S. Each Dealer has agreed that, and each further Dealer appointed under the Programme will be required to agree that, at or prior to the confirmation of any sale of Notes, it will have sent to each distributor, dealer or person receiving a selling concession, fee or other remuneration that purchases Notes from it or through it during the distribution compliance period (as defined in Regulation S under the Securities Act) a confirmation or notice to substantially the following effect:

"Neither the Notes covered hereby nor the Guarantee have been or will be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**"), or with any securities regulatory authority of any state or other jurisdiction of the United States, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering of the Notes comprising the relevant Tranche and the completion of the distribution of the Notes comprising the relevant Tranche as determined and certified by [*Name of Dealer or Dealers, as the case may be*], except, in either case, in accordance with Rule 903 of Regulation S under the Securities Act. Terms used above have the meaning given to them by Regulation S under the Securities Act."

Each Dealer has agreed, and each further Dealer appointed under the Programme will be required to agree, to notify the Fiscal Agent and the relevant Issuer when it has completed its distribution of the Notes of any Tranche. In addition, until 40 days after the later of the commencement of the offering of the Notes comprising the relevant Tranche and the completion of the distribution of the Notes comprising the relevant Tranche, any offer or sale of Notes within the United States by a Dealer (whether or not participating in the offering) may violate the registration requirements of the Securities Act.

In addition, unless the Final Terms or the subscription agreement relating to one or more Tranches specifies that the applicable Tax Equity and Fiscal Responsibility Act of 1982 ("**TEFRA**") exemption is either "C Rules" or "not applicable", each Dealer has represented and agreed, and each further Dealer appointed under the Programme will be required to represent and agree that:

With the exception of the approval by the FCA of this Base Prospectus as a base prospectus issued in compliance with the UK Prospectus Regulation, no action has been taken in any country or jurisdiction by any Issuer, the Guarantor or the Dealers that would permit a public offering of any of the Notes, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required.

The Programme Agreement provides that each Dealer will (to the best of its knowledge and belief) comply with all applicable securities laws and regulations in each jurisdiction in which it purchases, offers, sells or delivers Notes or has in its possession or distributes this Base Prospectus, any Drawdown Prospectus, any Final Terms or any other offering material, in all cases at its own expense.

The Programme Agreement also provides that the Dealers shall not be bound by any of the restrictions relating to any specific jurisdiction (set out above) to the extent that such restrictions shall, as a result of change(s) or change(s) in official interpretation, after the date hereof, of applicable laws and regulations, no longer be applicable but without prejudice to the obligations of the Dealers described in the paragraph headed "General" above.

Persons into whose hands this Base Prospectus or any Final Terms comes are, and each Noteholder is, required by the Issuers, the Guarantor and the Dealers to comply with all applicable laws and regulations in each country or jurisdiction in or from which they purchase, offer, sell or deliver Notes or have in their possession or distribute such offering material, in all cases at their own expense.

TAXATION

The tax laws of the investor's state and of the relevant Issuer's state of incorporation might have an impact on the income received from the Notes. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries.

General

Neither ANZBGL, ANZ Bank New Zealand nor ANZNIL, nor any of the Dealers makes any comment about the treatment for taxation purposes of payments or receipts in respect of the Notes. Each investor contemplating acquiring Notes under the Programme is advised to consult a professional adviser in connection with the consequences relating to the acquisition, retention and disposition of Notes.

Australia

The comments below are of a general nature and are based on the provisions currently in force in Australia. They relate only to the position of persons who are the absolute beneficial owners of their Notes issued by ANZBGL (other than through an offshore branch, in which case such persons should consider the tax implications of the jurisdiction in which the relevant branch is located) and are based on the assumption that the only instruments issued by ANZBGL under the Programme are debt interests or debentures that are not equity interests for Australian taxation purposes. Noteholders who are in doubt as to their personal tax position should consult their professional advisers. Statutory references are references to a section of the *Income Tax Assessment Act 1936* or the *Income Tax Assessment Act 1997* of Australia (the "**Australian Tax Act**").

1. Australian withholding tax

Interest withholding tax – section 128F exemption

Under the Programme, the Notes may be issued out of the head office of ANZBGL or through foreign branches of ANZBGL.

To the extent the Notes are issued out of a foreign branch of ANZBGL under the Programme in the course of carrying on business at or through a permanent establishment outside of Australia, any interest paid on the Notes by ANZBGL should not be subject to Australian interest withholding tax.

Interest or an amount that is included in the extended definition of interest in section 128A on the Notes issued by ANZBGL is exempt from Australian interest withholding tax under section 128F of the Australian Tax Act if the following conditions are met:

- (a) ANZBGL is either:
 - (i) a resident of Australia when it issues the Notes and when interest (as defined in section 128A(1AB)) is paid on the Notes; or
 - (ii) a non-resident of Australia when it issues the Notes and when interest (as defined in section 128A(1AB)) is paid on the Notes and the Notes are issued and the interest is paid on the Notes by ANZBGL in carrying on business at or through a permanent establishment in Australia;
- (b) the Notes are debentures for the purposes of section 128F; and
- (c) the Notes are issued by ANZBGL in a manner which satisfies the public offer test.

The public offer test is satisfied if the Notes are issued by ANZBGL as a result of being offered for issue:

- (a) to at least 10 persons each of whom:
 - (i) is carrying on a business of providing finance, or investing, or dealing in securities, in the course of operating in financial markets; and

- (ii) is not known, or suspected, by ANZBGL to be an associate (as defined in section 128F) of any of the other persons; or
- (b) to at least 100 persons whom it is reasonable for ANZBGL to regard as having acquired debentures or debt interests in the past or being likely to be interested in acquiring debentures or debt interests; or
- (c) as a result of being accepted for listing on a stock exchange, where ANZBGL had previously entered into an agreement with a dealer, manager or underwriter in relation to the placement of the Notes, requiring ANZBGL to seek such a listing; or
- (d) as a result of negotiations being initiated publicly in electronic form, or in another form, that is used by financial markets for dealing in instruments similar to the Notes; or
- (e) to a dealer, manager or underwriter in relation to the placement of the Notes who, under an agreement with ANZBGL, offered the Notes for sale within 30 days in a way covered by any of paragraphs (a) to (d) above.

In relation to the issue of a Global Note by ANZBGL, the "**public offer**" test will be satisfied if the Global Note falls within the definition of "**global bond**" set out in section 128F(10). Broadly speaking, this will be the case if the following requirements are satisfied:

- (a) the Global Note describes itself as a global bond or a global note; and
- (b) it is issued to a clearing house (as defined in section 128F(9)) or to a person as trustee or agent for, or otherwise on behalf of, one or more clearing houses; and
- (c) in connection with the issue of the Global Note, the clearing house or houses confer rights in relation to the Global Note on other persons and will record the existence of the rights; and
- (d) before the issue of the Global Note, ANZBGL or a dealer, manager or underwriter in relation to the placement of debentures, on behalf of ANZBGL, announces that, as a result of the issue, such rights will be able to be created; and
- (e) the announcement is made in a way or ways covered by any of paragraphs (a) to (e) of section 128F(3) (reading a reference in those paragraphs to "**debenture**" as if it were a reference to the rights referred to in paragraph (d) above and a reference to the "**company**" as if it included a reference to the dealer, manager or underwriter); and
- (f) under the terms of the Global Note, interests in the Global Note are able to be surrendered, whether or not in particular circumstances, in exchange for other debentures issued by ANZBGL, that are not themselves global notes.

The public offer test is not satisfied if at the time of issue, ANZBGL knows, or had reasonable grounds to suspect, that the Notes, or an interest in the Notes, issued by ANZBGL was being, or would later be, acquired directly or indirectly by an Offshore Associate (as defined in the section entitled "*Subscription and Sale – Australia*") of ANZBGL acting other than in the capacity of a dealer, manager or underwriter in relation to the placement of the Notes or a clearing house, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act.

The exemption under section 128F does not apply to interest paid by ANZBGL in respect of a Note if, at the time of payment, ANZBGL knows, or has reasonable grounds to suspect, that the investor is an Offshore Associate (as defined in the section entitled "*Subscription and Sale – Australia*") of ANZBGL (acting other than in the capacity of a clearing house, paying agent, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act).

ANZBGL proposes to issue Notes in a manner which will satisfy the requirements of section 128F of the Australian Tax Act.

Interest withholding tax – Exemptions under tax treaties

The Australian Government has concluded double tax conventions ("**Specified Treaties**") with foreign jurisdictions (each a "**Specified Country**") that contain certain exemptions from Australian IWT. The Specified Treaties apply to interest derived by a resident of a Specified Country.

The Specified Treaties effectively prevent interest withholding tax applying to interest derived by:

- governments of the Specified Countries and certain governmental authorities and agencies in a Specified Country; and
- certain unrelated (1) banks, and (2) other financial institutions which substantially derive their profits by carrying on a business of raising and providing finance and which are resident in the Specified Country (interest paid under a back-to-back loan or economically equivalent arrangement will not qualify for this exemption),

by reducing the interest withholding tax rate to zero.

The Specified Treaties are in force in a number of jurisdictions including, for example, the United States and the United Kingdom.

Withholding tax in respect of Notes in bearer form

Section 126 of the Australian Tax Act imposes a type of withholding tax on the payment of interest on bearer Notes issued by ANZBGL if ANZBGL fails to disclose the names and addresses of the holders to the Australian Taxation Office. A withholding rate of 45 per cent. currently applies. Section 126 does not apply to a payment on a bearer Note which, although not being interest at general law, is included in the extended definition of interest in section 128A. Section 126 does not apply to the payment of interest on bearer Notes held by non-residents who do not carry on business at or through a permanent establishment in Australia, where the issue of those Notes satisfied the requirements of section 128F of the Australian Tax Act. Additionally, section 126 does not apply where interest withholding tax is payable. In limited circumstances, where ANZBGL fails to disclose the relevant details of Holders of bearer Notes to the Australian Taxation Office, interest withholding tax may apply pursuant to section 128B(9C) rather than section 126. The Australian Taxation Office has confirmed that it considers "the holder of the debenture", for the purposes of section 126, to be the person in possession of the debenture. Consequently, where residents of Australia or non-residents carrying on a business at or through a permanent establishment in Australia hold bearer Notes through (for example) the Euroclear or Clearstream systems, the Australian Taxation Office will view the operator of the relevant system as the holder of those bearer Notes.

TFN/ABN withholding tax

Section 12-140 of Schedule 1 to the Taxation Administration Act 1953 of Australia (the "**Tax Administration Act**") imposes a type of withholding tax on the payment of interest on certain registered securities unless the relevant payee has quoted an Australian tax file number ("**TFN**"), (in certain circumstances) an Australian Business Number ("**ABN**") or proof of some other exception (as appropriate). The rate of withholding tax is currently 47 per cent. Assuming the requirements of section 128F of the Australian Tax Act are satisfied with respect to the Notes issued by ANZBGL, then the requirements of section 12-140 do not apply to payments to a holder of those Notes in registered form who is not a resident of Australia and not holding those Notes in the course of carrying on business at or through a permanent establishment in Australia. Payments to other classes of holders of Notes issued by ANZBGL in registered form may be subject to a withholding where the holder of those Notes does not quote a TFN, ABN or provide proof of an appropriate exemption (as appropriate).

Payment of additional amounts

If, where ANZBGL is the Issuer, ANZBGL is compelled by law at any time to withhold or deduct an amount in respect of any present or future taxes or duties of whatever nature imposed or levied by or on behalf of Australia or any authority therein having the power to tax, it will, subject to certain exceptions set out in Condition 7 (*Taxation*) (*Terms and Conditions of the Notes*), pay such additional amounts as will result in the payment to the Noteholders concerned of the sum which would otherwise have been payable on the Notes.

ANZBGL will not be liable to account to an investor for any deduction or withholding on account of any duties or taxes where those duties or taxes are imposed or levied by or on behalf of Australia or any authority therein having the power to tax by virtue of, among other things (see Condition *(Taxation)* *(Terms and Conditions of the Notes)* for further details), the investor being an Offshore Associate (as defined in the Section entitled "*Subscription and Sale – Australia*") of ANZBGL (acting other than in the capacity of a clearing house, paying agent, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act), or as a result of the investor being a party to or participating in a scheme to avoid such duties or taxes, being a scheme which ANZBGL neither was a party to nor participated in.

2. **Other tax matters**

ANZBGL has been advised by its Australian counsel that, under current Australian law:

- (a) subject to compliance with the requirements of the Australian Tax Act referred to above, payments of:
 - (i) principal;
 - (ii) interest; or
 - (iii) amounts included in the extended definition of interest in section 128A(1AB),

to a holder of a Note or Coupon issued by ANZBGL who is a non-resident of Australia, and who during the taxable year has not engaged in trade or business at or through a permanent establishment within Australia, will not be subject to Australian income tax;

- (b) a holder of a Note or Coupon issued by ANZBGL who is a non-resident of Australia and who during the taxable year has not carried on business at or through a permanent establishment within Australia, will not be subject to Australian income or capital gains tax on gains realised during that year on sale or redemption of such Notes, provided such gains do not have an Australian source under common law or statutory source rules. A gain arising on the sale of a Note or Coupon issued by ANZBGL by a non-Australian resident holder to another non-Australian resident where the Note or Coupon is sold outside Australia and all negotiations are conducted and all documentation is executed outside Australia would not be regarded as having an Australian source under common law;
- (c) Subdivision 12-FB of Schedule 1 of the Tax Administration Act imposes a withholding obligation in respect of certain payments, to be prescribed by regulation that are made to non-residents of Australia.

The Tax Administration Act expressly provides that the regulations will not apply to interest and other payments which are already subject to the current interest withholding tax rules or specifically exempt from those rules. Further, regulations may only be made if the responsible minister is satisfied the specified payments are of a kind that could reasonably relate to assessable income of foreign residents. ANZBGL has been advised by its Australian counsel that they do not expect the regulations to apply to repayments of principal under the Notes, as such amounts are not generally income or gains. The possible application of any regulations to the proceeds of any sale of the Notes will need to be monitored;

- (d) the Notes issued by ANZBGL will not be subject to death, estate or succession duties imposed by Australia or by any instrumentality thereof or therein, if held outside Australia at the time of death; and
- (e) no ad valorem stamp duty, registration or similar taxes are payable in Australia on the issue or redemption of the Notes by ANZBGL or the transfer of the Notes.

Taxation of Financial Arrangements

The Australian Government has enacted a specific regime for the taxation of financial arrangements (referred to as "**TOFA**") which can affect the taxation of financial instruments such as Notes. ANZBGL has elected for the TOFA regime to apply to certain financial arrangements, such as the Notes, acquired on or after 1 July 2009. Alternative taxation rules will continue to apply to Notes held by taxpayers that are not subject to the TOFA regime because they do not meet certain threshold requirements. The TOFA

regime does not contain any measures that would override the exemption from Australian interest withholding tax available under section 128F of the Australian Tax Act in respect of interest payable on the Notes.

New Zealand

The following is a summary of the New Zealand withholding tax treatment at the date of this Base Prospectus in relation to payments of interest in respect of Notes issued on or after 30 March 2017. The comments do not deal with other New Zealand tax aspects of acquiring, holding or disposing of Notes. The comments are based on the current New Zealand tax law and published practice, which law or practice may be subject to subsequent change (potentially with retrospective effect). Each investor contemplating acquiring Notes is advised to consult a professional adviser in connection with the consequences relating to the acquisition, retention and disposition of Notes.

Resident Withholding Tax

ANZ Bank New Zealand and ANZNIL are required by law to deduct New Zealand resident withholding tax from the payment of interest, including amounts deemed to be interest, to the Holder of any Note on any interest payment date or the maturity date, and, similarly, ANZ Bank New Zealand is required to make such deductions from payments under the Guarantee to the extent such payments constitute interest for New Zealand tax purposes where:

- (a) the Holder is (i) a resident of New Zealand for New Zealand income tax purposes, or (ii) the Holder holds the Notes for the purposes of a business the Holder carries on in New Zealand, through a fixed establishment (as defined in the Income Tax Act 2007 (New Zealand)) in New Zealand, or (iii) the Holder is a registered bank engaged in business in New Zealand through a fixed establishment (as defined in the Income Tax Act 2007 (New Zealand)) in New Zealand and is not associated with ANZ Bank New Zealand or ANZNIL (as applicable) (each a "**New Zealand Holder**"); and
- (b) at the time of such payment the New Zealand Holder does not hold "RWT-exempt status" (as defined in the Income Tax Act 2007 (New Zealand)) in respect of New Zealand resident withholding tax.

Prior to any interest payment date or the maturity date, any New Zealand Holder:

- (a) must notify ANZ Bank New Zealand or ANZNIL, as the case may be, that the New Zealand Holder is the Holder of a Note; and
- (b) must notify ANZ Bank New Zealand or ANZNIL, as the case may be, of any circumstances, and provide ANZ Bank New Zealand or ANZNIL, as the case may be, with any information, that may enable ANZ Bank New Zealand or ANZNIL, as the case may be, to make the payment of interest to the New Zealand Holder without deduction on account of New Zealand resident withholding tax.

The New Zealand Holder must notify ANZ Bank New Zealand or ANZNIL, as the case may be, prior to any interest payment date or the maturity date, of any change in the New Zealand Holder's circumstances from those previously notified that could affect ANZ Bank New Zealand's or ANZNIL's, as the case may be, payment or withholding obligations in respect of any Note. By accepting payment of the full face amount of a Note or any interest thereon on any interest payment date or the maturity date, the New Zealand Holder will be deemed to have indemnified ANZ Bank New Zealand or ANZNIL, as the case may be, for all purposes in respect of any liability which ANZ Bank New Zealand or ANZNIL, as the case may be, may incur for not deducting any amount from such payment on account of New Zealand resident withholding tax.

Non-Resident Withholding Tax

New Zealand law requires a deduction on account of non-resident withholding tax to be made from the payment of interest to any Holder who is not a New Zealand Holder. Where such deduction is required, ANZ Bank New Zealand and ANZNIL intend (for so long as they do not incur any increased cost or detriment from so doing and are legally able to do so) to reduce the applicable rate of non-resident

withholding tax to zero per cent. by registering the Programme with the New Zealand Inland Revenue and paying, on its own account, a levy equal to two per cent. of the relevant interest payment.

Other taxes

No ad valorem stamp, issue, registration or similar taxes are payable in New Zealand in connection with the issue of the Notes or the Guarantee. Furthermore, a transfer of or agreement to transfer the Notes or the Guarantee executed outside of New Zealand will not be subject to New Zealand stamp duty.

United Kingdom

A. Introduction

The following is a summary of the United Kingdom withholding taxation treatment at the date hereof in relation to payments of principal and interest in respect of the Notes. It is based on current law and the published practice of H.M. Revenue and Customs ("**HMRC**") which may be subject to change, sometimes with retrospective effect. The comments do not deal with other United Kingdom tax aspects of acquiring, holding or disposing of Notes. The comments relate only to the position of persons who are absolute beneficial owners of the Notes and related Coupons and Talons (if any). Prospective Noteholders should be aware that the particular terms of issue of any series of Notes as specified in the relevant Final Terms may affect the tax treatment of that and other series of Notes. The following is a general guide and should be treated with appropriate caution. It is not intended as tax advice and it does not purport to describe all of the tax considerations that may be relevant to a prospective purchaser. Noteholders who are in any doubt as to their tax position should consult their professional advisers. Noteholders who may be liable to taxation in jurisdictions other than the United Kingdom in respect of their acquisition, holding or disposal of the Notes are particularly advised to consult their professional advisers as to whether they are so liable (and if so under the laws of which jurisdictions), since the following comments relate only to certain United Kingdom taxation aspects of payments in respect of the Notes. In particular, Noteholders should be aware that they may be liable to taxation under the laws of other jurisdictions in relation to payments in respect of the Notes even if such payments may be made without withholding or deduction for or on account of taxation under the laws of the United Kingdom.

B. UK Withholding Tax on UK Source Interest

B.1 Interest on Notes may be paid by the relevant Issuer without withholding or deduction for or on account of United Kingdom income tax except in circumstances where such interest has a United Kingdom source ("**UK Interest**"). Interest on Notes may have a United Kingdom source where, for example, the Notes are issued by an Issuer acting through a branch or permanent establishment in the United Kingdom, the Notes are secured on assets situated in the United Kingdom or the interest is paid out of funds maintained in the United Kingdom. Notes which carry a right to UK Interest are referred to in this United Kingdom taxation section as the "**UK Notes**".

B.2 UK Notes will constitute "quoted Eurobonds" provided they are and continue to be "listed on a recognised stock exchange" (within the meaning of section 1005 of the Income Tax Act 2007 (the "**Income Tax Act**") for the purposes of section 987 of the Income Tax Act) or admitted to trading on a "multilateral trading facility" operated by a "regulated recognised stock exchange" (within the meaning of those terms in section 987 of the Income Tax Act). Provided that the UK Notes are and continue to be quoted Eurobonds, payments of interest on the UK Notes may be made without withholding or deduction for or on account of United Kingdom Income Tax.

The London Stock Exchange is a recognised stock exchange for these purposes. In the case of UK Notes to be traded on the London Stock Exchange, the UK Notes will be treated as "listed on a recognised stock exchange" if the UK Notes are included in the Official List of the FCA (within the meaning of Part 6 of the FSMA) and admitted to trading on the London Stock Exchange.

B.3 In addition to the exemption set out in B.2 above, interest on UK Notes may be paid without withholding or deduction for or on account of United Kingdom income tax if the relevant Issuer is a "bank" for the purposes of section 878 of the Income Tax Act 2007 and so long as such payments are made by the relevant Issuer in the ordinary course of its business. Neither ANZ

Bank New Zealand nor ANZNIL qualifies as a bank for these purposes. However, ANZBGL has confirmed that when acting through its London branch, it is a bank for these purposes.

- B.4 In cases falling outside the exemptions described in B.2 and B.3 above, interest on UK Notes may fall to be paid under deduction of United Kingdom income tax at the basic rate (currently 20 per cent.) subject to such other exemptions or relief as may be available. However, this withholding will not apply if the relevant interest is paid on UK Notes with a maturity date of less than one year from the date of issue and which are not issued under arrangements the effect of which is to render such Notes part of a borrowing with a total term of a year or more.

C. Payments by Guarantor

If the Guarantor makes any payments in respect of interest on UK Notes (or other amounts due under UK Notes other than the repayment of amounts subscribed for such UK Notes) such payments may be subject to United Kingdom withholding tax at the basic rate (currently 20 per cent.) subject to such exemptions or relief as may be available. Such payments by the Guarantor may not be eligible for the exemptions described in B above.

D. Payments under Deed of Covenant

Any payments made by an Issuer under the Deed of Covenant may not qualify for the exemptions from UK withholding tax described in B above.

E. Other Rules Relating to United Kingdom Withholding Tax

1. Notes may be issued at an issue price of less than 100 per cent. of their principal amount. Any discount element on any such Notes may, depending on a number of other factors (including whether or not the payment is considered to have a UK source), be subject to any United Kingdom withholding tax pursuant to the provisions mentioned in B above, subject to the potential exemptions mentioned in B above.
2. Where Notes are to be, or may fall to be, redeemed at a premium, as opposed to being issued at a discount, then any such element of premium may constitute a payment of interest. Payments of such interest are subject to United Kingdom withholding tax.
3. Where interest has been paid under deduction of United Kingdom income tax, Noteholders who are not resident in the United Kingdom may be able to recover all or part of the tax deducted if there is an appropriate provision in any applicable double taxation treaty.
4. The references to **interest** in this United Kingdom taxation section mean "interest" as understood in United Kingdom tax law. The statements do not take any account of any different definitions of "interest" or "principal" which may prevail under any other law or which may be created by the terms and conditions of the Notes or any related documentation (e.g. see Condition 7 (*Taxation*) of the Notes).
5. Where a payment on a Note does not constitute (or is not treated as) interest for United Kingdom tax purposes and the payment has a United Kingdom source, it may be subject to United Kingdom withholding tax if, for example, it constitutes (or is treated as) an annual payment, a manufactured payment, rent or royalties for United Kingdom tax purposes. Where a payment is subject to United Kingdom withholding tax, depending on the nature of the payment (which will be determined by, among other things, the terms and conditions specified by the Final Terms of the Note), the payment may fall to be made under deduction of United Kingdom tax (the rate of withholding generally being 20 per cent.), subject to any exemption from withholding which may apply and to such relief as may be available.
6. The above description of the United Kingdom withholding tax position assumes that there will be no substitution of an Issuer and does not consider the tax consequences of any such substitution.

FATCA Withholding

A 30 per cent. withholding may be imposed on certain payments to certain non-U.S. financial institutions that fail to comply with information collection and reporting requirements, certification requirements, or any other relevant requirements in respect of their accountholders that are tax residents in the U.S. (including certain non-U.S. entities that are controlled by U.S. tax residents). Accountholders subject to such information collection/reporting or certification requirements may include holders of certain Notes, and the Issuer may be required to withhold on a portion of any payment made under such Notes. In addition, the Issuer may be required to withhold on a portion of any payment under any Note that is made to a non-U.S. financial institution that has not agreed to comply with these information reporting requirements or has been found to be non-compliant in its execution of the obligations by the U.S. IRS. Such withholding may be imposed at any point in a chain of payments if a payee fails to comply with U.S. information collection, reporting, certification and related requirements. Accordingly, Notes held through a non-compliant institution may be subject to withholding even if the holder of the Note otherwise would not be subject to withholding. However, under proposed U.S. Treasury regulations, such withholding will not apply to payments made before the date that is two years after the date on which final regulations defining the term "foreign passthru payment" are enacted. Moreover, except with respect to Subordinated Notes, such withholding would only apply to notes issued at least six months after the date on which final regulations defining the term "foreign passthru payment" are enacted.

While a Reporting United Kingdom, Australian or New Zealand Financial Institution (as defined in the relevant intergovernmental agreement with the United States) that complies with its obligations under the applicable intergovernmental agreement will generally not be subject to FATCA withholding on amounts it receives, and will not generally be required to make FATCA withholding from payments it makes with respect to the Notes (other than in certain prescribed circumstances), FATCA withholding on counterparty or third party dealings may indirectly affect the Reporting Financial Institution.

Prospective investors should consult their tax advisers and their banks or brokers regarding the possibility of this withholding.

Provision of information and certifications pursuant to FATCA and CRS compliance requirements

FATCA and the CRS require certain financial institutions to collect and report information regarding certain accounts (which may include the Notes) to their tax authority by following related account opening information collection and due diligence procedures. Noteholders may be requested to provide certain information and certifications to ensure compliance with FATCA and the CRS, as necessary.

USE OF PROCEEDS AND A GENERAL DESCRIPTION OF THE ANZ SDG BOND FRAMEWORK

Use of Proceeds

Unless otherwise specified in the applicable Final Terms, the net proceeds from the issue of any Notes will be used by the relevant Issuer (in the case of ANZBGL and ANZ Bank New Zealand) for its general corporate purposes. Where ANZNIL is the Issuer, ANZNIL will on-lend the net proceeds of the issue of the Notes to ANZ Bank New Zealand, for ANZ Bank New Zealand's general corporate purposes.

Use of Proceeds of SDG Bonds

In the case of Notes issued by ANZBGL as SDG Bonds, the applicable Final Terms may provide that ANZBGL intends to apply the net proceeds from an issue of SDG Bonds to finance or refinance, in whole or in part project finance or corporate loans or loans labelled as green, social or sustainability loans made to projects and/or businesses or ANZBGL's own operating or capital expenditures.

Framework

In August 2020, ANZBGL published an ANZ SDG Bond Framework in which ANZBGL described its approach to the issue of green, social or sustainability bonds, to be aligned to the United Nations SDGs.

The Framework is available on ANZBGL's website at <https://www.anz.com/debtinvestors/centre/green-sustainability-bonds/>. However, the Framework and this website is not incorporated into, nor does it form part of, this Base Prospectus.

While ANZBGL is under no obligation to update the Framework, the Framework, any second or third party opinions and any periodic progress reports prepared by ANZBGL, as well as other documentation related to SDG Bonds and/or the Framework (whether or not prepared by ANZBGL or at its request), may be amended, updated, supplemented, replaced and/or withdrawn from time to time and any subsequent version(s) may differ from the description given in this Base Prospectus. Potential investors in an SDG Bond should access the latest version of each relevant document available. Any such amendment, update, supplement, replacement and/or withdrawal may affect any Tranche of SDG Bonds.

Eligible assets

Eligible assets are determined by ANZBGL in its absolute discretion to fall within one or more of the eligible categories and meet the process for evaluation and selection in accordance with the Framework.

Payment of any principal or interest in respect of any SDG Bonds will be made from ANZBGL's general funds and will not be directly linked to or depend on the performance or credit standing of any eligible asset (or the performance of ANZBGL in respect of any SDG, ESG or similar targets).

The term of any eligible assets to which the net proceeds in respect of a Tranche of SDG Bonds may be allocated under the Framework may be shorter or longer than the term of such SDG Bonds.

Eligible assets may mature, be sold, repaid, prepaid or otherwise expire before or after the maturity date of a Tranche of SDG Bonds.

In the case of any net proceeds in respect of a Tranche of SDG Bonds allocated to an eligible asset that matures, is sold, repaid or prepaid or otherwise expires before the maturity date of such SDG Bonds, ANZBGL intends as at the date of this Base Prospectus to use an amount equal to the portion of the net proceeds in respect such SDG Bonds that was allocated to that eligible asset in accordance with the Framework.

If any eligible asset remains outstanding after the maturity date of a Tranche of SDG Bonds, ANZBGL will not be required to terminate the funding of such eligible asset by the net proceeds of such SDG Bonds on the maturity date of the SDG Bonds.

ANZBGL may, from time to time and at its sole discretion, re-allocate or apportion eligible assets among SDG Bonds.

As at the date of this Base Prospectus, eligible categories are set out in the Framework.

Documents available

Subject to applicable law, copies of the Framework and any second or third party opinions (if any) (subject to consent and confidentiality requirements) and periodic progress reports prepared by ANZBGL may be obtained by investors from ANZBGL's website, at <https://www.anz.com/debtinvestors/centre/green-sustainability-bonds/>.

None of the Framework, any second or third party opinion, any other certification, assurance, report, opinion or assurance relating to the Framework and/or SDG Bonds, any document referred to in any of the foregoing and the contents of any website referred to herein or therein, is or will be incorporated into, or form part of, this Base Prospectus.

FORM OF FINAL TERMS

Set out below is the Form of Final Terms which will be completed for each Tranche of Notes issued under the Programme which have a minimum denomination of at least €100,000 (or its equivalent in another currency).

PROHIBITION OF SALES TO EEA RETAIL INVESTORS The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the "**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended by the European Union (Withdrawal Agreement) Act 2020 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

[MiFID II product governance / Professional investors and eligible counterparties only target market – Solely for the purposes of [the Dealer's/the Managers/each relevant Manager's] product approval process as [a] MiFID II [(as defined below)] "manufacturer[s]", the target market assessment completed by the relevant [Dealer/Managers/Manager] in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, "**MiFID II**")][MiFID II]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (an "**EU distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, an EU distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels. The Issuer is not subject to MiFID II and any implementation thereof by an EU Member State. The Issuer is therefore not a "manufacturer" for the purposes of the MiFID Product Governance Rules under EU Delegated Directive 2017/593 and has no responsibility or liability for identifying a target market, or any other product governance obligation set out in MiFID II, for financial instruments it issues (including the foregoing target market assessment for the Notes described in this legend).]

[UK MiFIR product governance / Professional investors and eligible counterparties only target market – Solely for the purposes of [the Dealer's/the Managers/each relevant Manager's] product approval process as [a] UK MiFIR [(as defined below)] "manufacturer[s]", the target market assessment completed by the relevant [Dealer/Managers/Manager] in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of United Kingdom domestic law by virtue of the EUWA ("**UK MiFIR**"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or

recommending the Notes (a "UK distributor") should take into consideration the manufacturer['s/s'] target market assessment; however, a UK distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "UK MiFIR Product Governance Rules") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels. The Issuer is not subject to UK MiFIR. The Issuer is therefore not a "manufacturer" for the purposes of the UK MiFIR Product Governance Rules and has no responsibility or liability for identifying a target market, or any other product governance obligation set out in UK MiFIR, for financial instruments it issues (including the foregoing target market assessment for the Notes described in this legend.)

The Non PR Notes are unsecured direct obligations of the relevant Issuer and may be issued as unsubordinated Notes ("**Unsubordinated Notes**") or, where ANZBGL is the Issuer, as subordinated Notes ("**Subordinated Notes**") as specified in the applicable Pricing Supplement (see "*Overview of the Programme*"). Non PR Notes may be issued in (i) bearer form, or (ii) registered form as specified in the relevant Pricing Supplement. Each Series of Non PR Notes in bearer form will be represented on issue by a temporary global note in bearer form (a "**Temporary Global Note**") or a permanent global note in bearer form (a "**Permanent Global Note**") and each Temporary Global Note and Permanent Global Note,

a "**Bearer Global Note**"). Non PR Notes in registered form will be represented by a global registered certificate (a "**Registered Global Note**") or by registered certificates in definitive form (each a "**Certificate**"), one Certificate being issued in respect of each Noteholder's entire holding of Registered Notes of one Series. Bearer Global Notes and Registered Global Notes (each a "**Global Note**") may be deposited on the issue date with a common depository on behalf of Euroclear Bank SA/NV ("**Euroclear**") and Clearstream Banking, S.A. ("**Clearstream, Luxembourg**"). Global Notes may also be deposited with alternative clearing systems subject to the appointment of relevant agents and completion of required documentation, including a sub-custodian in Hong Kong for the Central Moneymarkets Unit Service operated by the Hong Kong Monetary Authority (the "**CMU Service**"). The provisions governing the exchange of interests in Bearer Global Notes or Registered Global Notes for other Global Notes and for Notes and Certificates in definitive form, respectively, are described in "Form of the Notes".

ANZGHL does not (i) issue Non PR Notes under the Programme; (ii) guarantee ANZBGL's obligations generally or in connection with the Non PR Notes; (iii) have any obligations in respect of the Non PR Notes issued under the Programme other than Subordinated Notes issued by ANZBGL; or (iv) have any obligations in respect of Subordinated Notes issued by ANZBGL under this Programme, except to the extent that such Subordinated Notes are subject to Conversion into Ordinary Shares as defined in and as provided in the Terms and Conditions of the Non PR Notes.

The Non PR Notes will not be deposit liabilities or protected accounts (as defined in the Banking Act). A "protected account" is broadly an account kept by an account-holder with an authorised deposit-taking institution ("**ADI**") (i) where the ADI is required to pay the account-holder, on demand or at an agreed time, the net credit balance of the account; or (ii) that is otherwise prescribed by regulation. Protected accounts include current accounts, saving accounts and term deposit accounts. Protected accounts must be recorded in Australian currency and must not be kept at a foreign branch of an ADI. ANZBGL is an ADI but ANZ Bank New Zealand and ANZNIL are not ADIs in Australia.

The Non PR Notes are not guaranteed or insured by any government, government agency or compensation scheme of Australia, New Zealand or any jurisdiction.

Non PR Notes issued by ANZ Bank New Zealand or ANZNIL do not represent deposits or other liabilities of ANZBGL, nor is an investment in Non PR Notes issued by ANZ Bank New Zealand or ANZNIL guaranteed by ANZBGL. Non PR Notes issued by ANZ Bank New Zealand and ANZNIL are subject to risks affecting the relevant Issuer, including the risk that the relevant Issuer does not make payments of interest or principal when due in respect of the Non PR Notes.

There are references in the Base Prospectus to the credit ratings of the Issuers and the Non PR Notes. A credit rating is not a recommendation to buy, sell or hold the Non PR Notes and may be subject to revision, suspension or withdrawal at any time by the relevant rating agency.

Credit ratings in respect of the Non PR Notes or the Issuers are for distribution only to a person who is not a "retail client" within the meaning of section 761G of the Corporations Act 2001 of Australia (the "**Corporations Act**") and is also a sophisticated investor, professional investor or other investor in respect of whom disclosure is not required under Part 6D.2 or Chapter 7 of the Corporations Act and, in all cases, in such circumstances as may be permitted by applicable law in any jurisdiction in which an investor may be located. Anyone who is not such a person is not entitled to receive the Information Memorandum and anyone who receives the Information Memorandum must not distribute it to any person who is not entitled to receive it.

These statements and opinions only speak as at the date of publication and no representation is made as to their correctness on or after this date. Neither the ANZBGL Group nor the ANZ Bank New Zealand Group undertake any obligation to publicly release the result of any revisions to these forward-looking statements to reflect events or circumstances after the date of this Information Memorandum or to reflect the occurrence of unanticipated events.

No Australian retail product distribution conduct

This Information Memorandum and the Non PR Notes are not for distribution to any person in Australia who is a retail client for the purposes of section 761G of the Corporations Act. No target market determination has been or will be made for the purposes of Part 7.8A of the Corporations Act.

In connection with the issue of any Tranche (as defined in Conditions of the Notes) of Non PR Notes, the Dealer or Dealers (if any) named in the Pricing Supplement as the Stabilising Manager (the "Stabilising Manager(s)") (or persons acting on behalf of any Stabilising Manager(s)) may over-allot Notes or effect transactions with a view to supporting the market price of the Notes at a level higher than that which might otherwise prevail. However, stabilisation may not necessarily occur. Any stabilisation action may begin on or after the date on which adequate public disclosure of the terms of the offer of the relevant Tranche of Notes is made and, if begun, may cease at any time, but it must end no later than the earlier of 30 days after the issue date of the relevant Tranche of Notes and 60 days after the date of the allotment of the relevant Tranche of Notes. Any stabilisation action or over-allotment must be conducted by the relevant Stabilising Manager(s) (or person(s) acting on behalf of any Stabilising Manager(s)) in accordance with all applicable laws (including without limitation the Competition and Consumer Act 2010 of Australia and the Corporations Act) and rules and outside Australia and New Zealand (and not on any market in Australia or New Zealand).

In this Information Memorandum, unless otherwise specified, references to a "**Member State**" are references to a Member State of the European Economic Area, references to "**A\$**", "**\$**", "**dollars**", "**Australian dollars**" or "**€**" are to the lawful currency of Australia, references to "**euro**" or "**€**" are to the currency introduced at the start of the third stage of European economic and monetary union, and as defined in Article 2 of Council Regulation (EC) No. 974/98 of 3 May 1998 on the introduction of the euro, as amended from time to time, references to "**NZ\$**" are to the lawful currency of New Zealand, references to "**Sterling**" are to the lawful currency of the United Kingdom, references to "**US\$**" or "**US dollars**" are to the lawful currency of the United States, and references to "**Yen**" are to the lawful currency of Japan.

The "**Guarantee**" means the ANZ Bank New Zealand guarantee in favour of ANZNIL (described on page 83 of the Base Prospectus).

In this Information Memorandum, unless otherwise specified, capitalised terms have the meaning given to them in the Terms and Conditions of the Non PR Notes.

The Non PR Notes may not be a suitable investment for all investors.

Each potential investor in any Non PR Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Non PR Notes and the information contained or incorporated by reference in this Information Memorandum or any applicable supplement;
- have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Non PR Notes and the impact such an investment will have on its overall investment portfolio;
- have sufficient financial resources and liquidity to bear all of the risks of an investment in the Non PR Notes, including Non PR Notes with principal or interest payable in one or more currencies, or where the currency for principal or interest payments is different from the potential investor's currency;
- understand thoroughly the terms of the Non PR Notes and be familiar with the behaviour of any relevant indices and financial markets; and
- be able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

The Non PR Notes are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured and appropriate addition of risk to their overall portfolios. A potential investor should not invest in the Notes unless it has the expertise (either alone or with a financial adviser) to evaluate how the Notes will perform under changing conditions, the resulting effects on the value of the Non PR Notes and the impact this investment will have on the potential investor's overall investment portfolio.

Notes issued as "SDG Bonds"

In September 2015, the United Nations' General Assembly formally established 17 sustainable development goals (the "**SDGs**"), as part of the 2030 Agenda for Sustainable Development. The SDGs set a common framework for public and private stakeholders to set their agendas and define their policies and strategies over a 15-year period.

ANZBGL may issue Notes described as "SDG Bonds". "**SDG Bonds**" are a Tranche of Notes which may be issued by ANZBGL where the applicable Pricing Supplement provides that ANZBGL intends to apply an amount equal to the net proceeds from an issue of such Notes to eligible assets as may be defined from time to time in an ANZ SDG bond framework. ANZBGL's current SDG bond framework is dated 20 August 2020 but it may be updated, supplemented and/or replaced from time to time (the "**Framework**") and any subsequent version(s) may differ from any description given in this Information Memorandum. The Framework is not incorporated into and does not form part of this Information Memorandum.

The Dealers and the Arranger have not undertaken, nor are they responsible for, any assessment of the "Eligible Assets" as may be defined from time to time in the Framework or the application, impact or monitoring of the use of proceeds for any Notes issued by ANZBGL as SDG Bonds.

None of ANZBGL, the Arranger or any Dealer accepts any responsibility for any social, environmental and sustainability assessment of any Notes issued as SDG Bonds or makes any representation or warranty or assurance whether such Notes will meet any investor expectations or requirements regarding such "green", "sustainable", "social" or similar labels (including in relation to Regulation (EU) 2020/852 on the establishment of a framework to facilitate sustainable investment (the "**EU Taxonomy Regulation**") and any related technical screening criteria, the proposed European Green Bond Regulation, Regulation (EU) 2019/2088 on sustainability-related disclosures in the financial services sector ("**SFDR**") and any implementing legislation and guidelines, or any similar legislation in the United Kingdom) or any requirements of such labels as they may evolve from time to time. Neither the Arranger nor any Dealer is responsible for the use or allocation of proceeds for any Notes issued as SDG Bonds, nor the impact or monitoring of such use of proceeds nor do the Arranger or any of the Dealers undertake to ensure that there are at any time sufficient eligible assets to allow for allocation of a sum equal to the net proceeds of the issue of such SDG Bonds in full.

In respect of any SDG Bonds, no representation or assurance is given by ANZBGL, the Arranger or the Dealers as to the suitability of any such SDG Bonds to fulfil any present or future investor expectations or requirements with respect to sustainability or other investment criteria or guidelines which any investor is, or its investments are, required to comply with.

In the event any such SDG Bonds are, or are intended to be, listed, or admitted to trading on a dedicated "green", "sustainable", "social" or other equivalently-labelled segment of a stock exchange or securities market, no representation or assurance is given by ANZBGL, the Dealers or the Arranger that such listing or admission will be obtained or maintained for the lifetime of the SDG Bonds.

Second and third party opinions, assurances and certifications in respect of SDG Bonds

The Dealers and the Arranger have not reviewed the Framework or any second or third party opinions, nor do they accept any responsibility as to the accuracy and completeness of the information contained in such documents or in any opinion, assurance, certification, assessment or other report in connection with the Framework and/or SDG Bonds. Potential investors in SDG Bonds must determine for themselves the relevance of any such opinion, assurance or certification and/or the information contained therein and/or the provider of such opinion, assurance or certification for the purpose of any investment in SDG Bonds.

No assurance or representation is given by ANZBGL, the Arranger, the Dealers or any other person as to the suitability or reliability for any purpose whatsoever of any opinion, assurance or certification of any third party (whether or not solicited by ANZBGL) which may be made available in connection with the issue of SDG Bonds and in particular with any eligible assets (including any second or third party opinions) to fulfil any sustainable development goal, environmental, sustainability, social and/or other criteria. For the avoidance of doubt, any such opinion, assurance or certification is not, nor should it be deemed to be, a recommendation by ANZBGL, the Arranger, the Dealers or any other person to buy, sell or hold SDG Bonds and such opinions, assurances and certifications may not reflect the potential impact of all risks related to the structure, market and other factors that may affect the value of SDG Bonds, and they may be revised or withdrawn at any time. Additionally, any such opinion, assurance or certification (i) is only current as of the date on which it was initially issued and the criteria and/or considerations that formed the basis of such opinion, assurance or certification may change at any time, (ii) only provides an opinion, assurance or certification on certain environmental and related considerations and (iii) is not intended to address any credit, market or other aspects of an investment in SDG Bonds including, without limitation, market price, marketability, investor preference or suitability of any security to fulfil any specific investment criteria. The criteria and/or considerations that formed the basis of any such opinion, assurance or certification may change at any time and the opinion, assurance or certification may be amended, updated, supplemented, replaced and/or withdrawn. Prospective investors must determine for themselves the relevance of any such opinion, assurance or certification and/or the information contained therein.

Any second or third party opinion, and any other opinion provided in relation to SDG Bonds is a statement of opinion, not a statement of fact. Second or third party opinion providers may not be subject to any specific regulatory or other regime or oversight and any opinions provided are provided for information purposes only and on a no liability basis. As at the date of this Information Memorandum, the providers of such opinions, assurances and certifications are not subject to any specific regulatory or other regime or oversight.

This Information Memorandum is valid for one year from the date hereof and may be supplemented from time to time at the absolute discretion of the Issuer. This Information Memorandum and any Supplemental Information Memorandum and any Supplemental Base Prospectus (which is deemed incorporated by reference into this Information Memorandum) are available for viewing at <https://www.anz.com/debtinvestors/centre/programmes/anz-banking-group/euro-medium-term-note-programme-aus/> in respect of ANZBGL and at <https://www.anz.com/debtinvestors/centre/programmes/anz-bank-nz/euro-medium-term-note-programme-nz/> in respect of ANZ Bank New Zealand and ANZNIL.

ANZBGL Ranking Table (Non PR Notes)

If ANZBGL becomes insolvent and is unable to pay its debts, an administrator or liquidator would be expected to make distributions to its creditors in accordance with a statutory order of priority. A simplified diagram illustrating the expected ranking of the Non PR Notes compared to other creditors of ANZBGL is set out below¹:

	Type of obligation	Examples of obligations/securities	
<p>Higher ranking/ earlier priority/ first to be repaid</p> 	Secured debt and liabilities preferred by law	Senior ranking secured obligations (such as collateralised liabilities to central banks and clearing houses). Liabilities which the Banking Act provides are to be paid out of ANZBGL's assets in Australia in priority to liabilities in respect of Notes, including protected accounts in Australia (such as current accounts, savings accounts and term deposit accounts and certain liabilities to APRA and debts to the RBA); other liabilities preferred in a winding up, such as debts due to the RBA, costs of the winding up and certain employee entitlements.	
	The Unsubordinated Notes	Unsubordinated unsecured debt	The Unsubordinated Notes, other bonds and notes, trade and general creditors. (Note: covered bonds are an unsecured claim on ANZBGL but are secured over certain assets of the ANZBGL Group).
	The Subordinated Notes	Basel III compliant Tier 2 Capital instruments	The Subordinated Notes and other Tier 2 Capital instruments issued by ANZBGL. (Note: if a Subordinated Note is Converted, any ordinary shares that a Holder receives on Conversion will rank equally with other ordinary shares of ANZGHL. If a Subordinated Note is Written-Off, Holders have no further claims on ANZBGL or ANZGHL (even though Ordinary Shares will still be on issue), and they are likely to be worse off than holders of ordinary shares in ANZBGL or Ordinary Shares
		Preference shares and other equally ranked instruments	Additional Tier 1 Capital instruments (such as capital notes and convertible preference shares) and other obligations ranking senior only to ordinary shares.
		Ordinary shares	Ordinary shares in ANZBGL
<p>Lower ranking/ later priority/ last to be repaid</p>			

¹ This is a very simplified capital structure of ANZBGL and does not include every type of security or other obligation issued by ANZBGL. ANZBGL has the right to issue further debt, deposits or other obligations or securities of any kind at any time. Subordinated Notes do not limit the amount of senior debt, deposits or other obligations or securities that may be incurred or issued by ANZBGL at any time.

Additional disclosure in respect of Subordinated Notes issued by ANZBGL

The following additional disclosures are relevant to Non PR Notes that are Subordinated Notes issued by ANZBGL. All capitalised terms used herein and not otherwise defined shall have the meanings assigned to them in the Terms and Conditions of the Non PR Notes.

Status and subordination of Subordinated Notes

The Subordinated Notes constitute direct, unsecured and subordinated obligations of ANZBGL ranking equally among themselves. In the event of the winding-up of ANZBGL and prior to the commencement of the winding-up of ANZBGL, the principal amount of, any interest on, and any other payments, including additional amounts, in respect of the Subordinated Notes will rank behind all claims of Senior Creditors, *pari passu* with Equal Ranking Securities and ahead of Junior Ranking Securities.

"Equal Ranking Securities" means any present or future instrument that ranks in a winding-up of ANZBGL as the most junior claim in the winding-up of ANZBGL ranking senior to Junior Ranking Securities, and includes any instruments issued as Relevant Tier 2 Securities.

"Junior Ranking Securities" means any present or future instrument:

- (i) issued as Tier 1 Capital; and
- (ii) that by its terms is, or is expressed to be, subordinated in a winding up of ANZBGL to the claims of Subordinated Noteholders and holders of Equal Ranking Securities.

"Senior Creditors" means all present and future creditors of ANZBGL (including but not limited to depositors of ANZBGL) whose claims:

- (i) would be entitled to be admitted in the winding up of ANZBGL; and
- (ii) are not in respect of Equal Ranking Securities or Junior Ranking Securities.

Prior to the winding-up of ANZBGL, the obligation of ANZBGL to make payments (including of any principal, additional amounts and interest) on the Subordinated Notes will be conditional on ANZBGL being Solvent at the time of, and immediately after, such payment by ANZBGL. Any such failure to pay will not be considered an event of default for the purposes of the Subordinated Notes.

Further, the Subordinated Notes will be mandatorily Converted into the ordinary shares of ANZGHL ("**Ordinary Shares**") or Written-Off (as specified in the applicable Pricing Supplement) where this is determined by APRA to be necessary on the grounds that APRA considers that ANZBGL would otherwise become non-viable or APRA determines that without a public sector injection of capital or equivalent support ANZBGL would become non-viable as further described below under "Subordinated Notes are subject to Mandatory Conversion in the event of a Non-Viability Trigger Event."

A Non-Viability Trigger Event could occur before or after ANZBGL is in a winding up. Where the Subordinated Notes of a Holder are Converted into Ordinary Shares, Holders have the claims of a holder of Ordinary Shares. If, following a Non-Viability Trigger Event, Subordinated Notes are Written-Off, Holders have no claim at all on ANZBGL or ANZGHL, notwithstanding whether any Ordinary Shares or Junior Ranking Securities remain outstanding.

The Subordinated Notes are complex financial instruments and may not be a suitable investment for all investors.

The Subordinated Notes are complex financial instruments, which include features which, since 1 January 2013, are required for the Subordinated Notes to qualify as ANZBGL's Tier 2 Capital under APRA's prudential standards. As a result, an investment in the Subordinated Notes will involve certain increased risks. Each potential investor in the Subordinated Notes must determine the suitability of such investment in the Subordinated Notes (or the Ordinary Shares to be issued if Conversion is required) in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Subordinated Notes, the merits and risks of investing in the Subordinated Notes, the rights attaching to the

Subordinated Notes, when and how the Subordinated Notes may be Converted or Written-Off and the information contained or incorporated by reference in this Information Memorandum;

- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Subordinated Notes and the impact the Subordinated Notes (or the Ordinary Shares to be issued if Conversion is required) will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Subordinated Notes (or the Ordinary Shares to be issued if Conversion is required), including the risk associated with a Conversion or Write-Off or where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Subordinated Notes, such as the provisions governing a Conversion or Write-Off with respect to Subordinated Notes (including, in particular the uncertainty as to the circumstances under which a Non-Viability Trigger Event will or may be deemed to occur), and be familiar with the behaviour of any relevant financial markets and their potential impact on the likelihood of certain events under the Subordinated Notes occurring; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

A potential investor should not invest in the Subordinated Notes unless it has the knowledge and expertise (either alone or with a financial adviser) to evaluate how the Subordinated Notes will perform under changing conditions and their resulting effects on the likelihood of a Conversion or Write-Off and the value of the Subordinated Notes, and the impact this investment will have on the potential investor's overall investment portfolio. Prior to making an investment decision, potential investors should consider carefully, in light of their own financial circumstances and investment objectives, all the information contained in this Information Memorandum or incorporated by reference herein.

An investor holding Subordinated Notes may lose some or all of its investment should ANZBGL become insolvent

Although Subordinated Notes may pay a higher rate of interest than comparable Notes which are not subordinated, there is a significant risk that an investor holding Subordinated Notes may lose some or all of its investment should ANZBGL become insolvent.

The terms of the Notes do not limit the amount of the liabilities ranking senior to any Subordinated Notes which may be incurred or assumed by ANZBGL from time to time, whether before or after the date of issue of the relevant Subordinated Notes.

If ANZBGL is declared insolvent and a winding up proceeding is initiated, it will be required to pay the holders of senior debt and meet its obligations to all its other creditors (including unsecured creditors but excluding any obligations in respect of Subordinated Notes) in full before it can make any payments on any Subordinated Notes. If this occurs, ANZBGL may not have enough assets remaining after these payments to pay amounts due under the relevant Subordinated Notes.

In addition, all Subordinated Notes will provide that, prior to the winding up of ANZBGL, ANZBGL is only permitted to make payments on such Subordinated Notes if it is solvent at the time of such payment and if it would be solvent immediately after any such payment. Any such failure to pay will not be considered an Event of Default for the purposes of the Subordinated Notes.

An investor holding Subordinated Notes has limited remedies available for non-payment of amounts owing and for other breaches of ANZBGL's obligations

If ANZBGL fails to pay principal on the Subordinated Notes on its due date, or fails to pay interest on the Subordinated Notes within 30 days of its due date, a Subordinated Noteholder may commence proceedings to recover the amount owing, provided that ANZBGL will not, by virtue of the institution of any such proceedings (other than any winding up proceedings), be obliged to pay any principal or interest or any other payments in respect of the Subordinated Notes:

- (a) sooner than such amounts would otherwise be payable and not until after the claims of other creditors of ANZBGL have been paid; and

- (b) if ANZBGL is not solvent at the time of, or would not be solvent immediately after, the payment of such amount.

In addition to taking such actions upon any such failure to pay principal or interest, a Subordinated Noteholder may commence a proceeding in the State of Victoria, Australia (but not anywhere else) for a winding up. The making of an order for a winding up is in the discretion of the court.

The remedies of a holder in respect of any failure of ANZGHL to issue the Ordinary Shares are limited in accordance with the terms of the Subordinated Notes and the Deed of Undertaking, which provide that holders have no rights against ANZGHL in respect of the Subordinated Notes other than (and subject always to where Write-Off applies) to seek specific performance of the obligation to issue the Ordinary Shares. The making of an order for specific performance is in the discretion of the court.

No other remedy will be available to a holder of Subordinated Notes against ANZBGL, whether for the recovery of amounts owing in respect of, or for a breach by ANZBGL of its obligations under or in respect of, the Subordinated Notes.

An investor holding Subordinated Notes has limited rights to accelerate principal under the Subordinated Notes

A Subordinated Noteholder may not declare the principal amount of the Subordinated Notes to be due and payable prior to their stated maturity, other than on the occurrence of a winding up.

Redemption of the Subordinated Notes

Subordinated Notes may be redeemed at the option of ANZBGL before their stated Maturity Date, as described below under the risk factor entitled "*Redemption is subject to certain conditions, including the prior written approval of APRA*".

ANZBGL may at its option redeem Subordinated Notes at the Early Redemption Amount together with interest accrued to the date fixed for redemption on any Optional Redemption Date as specified in the applicable Pricing Supplement. The Optional Redemption Date may not be before the fifth anniversary of the Issue Date of the relevant Subordinated Note.

Further, ANZBGL may at its option redeem all, but not some only, of the Subordinated Notes at the Early Redemption Amount together with interest accrued to the date fixed for redemption for certain taxation reasons. These include where ANZBGL has or will become obliged to pay additional amounts, where (if the Pricing Supplement so specifies) ANZBGL or the consolidated tax group of which it is a member would be exposed to more than a *de minimis* amount of other taxes, levies, imposts, charges and duties (including stamp and transaction duties) imposed by any authority together with any related interest, penalties and expenses in connection with them, assessments or other governmental charges in connection with any Subordinated Notes or where if the Pricing Supplement so specifies ANZBGL determines that interest payable on any Subordinated Note is not, or may not be, allowed as a deduction for the purposes of Australian income tax (in each case, where ANZBGL did not expect such event to occur on the Issue Date of the Subordinated Notes).

ANZBGL may at its option redeem all, but not some only, of the Subordinated Notes at the Early Redemption Amount together with interest accrued to the date fixed for redemption if a Regulatory Event occurs.

Where prior to any such redemption, a Subordinated Note has been Written-Off or Converted in part, the Early Redemption Amount payable in respect of that Subordinated Note will be reduced and calculated on the Principal Amount of that Subordinated Note as reduced on the date of the Write-Off or Conversion.

Redemption and amendment is subject to certain conditions, including the prior written approval of APRA

ANZBGL may not redeem any Subordinated Note prior to the Maturity Date or purchase, or procure that any of its Related Entities purchase, any Subordinated Notes without the prior written approval of APRA. Investors in Subordinated Notes should not expect that APRA's approval will be given for any redemption or purchase of a Subordinated Note. Additionally, ANZBGL will not be permitted to redeem any Subordinated Note unless:

- (a) the Subordinated Notes are replaced concurrently or beforehand with Regulatory Capital of the same or better quality and the replacement of the Subordinated Notes is done under conditions that are suitable for ANZBGL's income capacity; or
- (b) APRA is satisfied that ANZBGL's capital position at Level 1, Level 2 and, if applicable, Level 3 is well above its minimum capital requirements after ANZBGL elects to redeem the Subordinated Notes.

APRA has stated that, consistent with its prudential requirements, where it considers any replacement capital to be more expensive (including because of higher credit margins), APRA may not approve a redemption unless the issuer of the notes satisfies it as to the economic and prudential rationale for the redemption and that the redemption will not create an expectation that other regulatory capital instruments will be redeemed in similar circumstances. The matters to which APRA may have regard in considering whether to give its approval are not limited and may change.

In the case of Subordinated Notes, any modification, amendment, supplement, consent, waiver or other action which may affect the eligibility of the Subordinated Notes as Tier 2 Capital cannot be made without the prior written approval of APRA. In addition, any Successor Rate, Alternative Rate, Adjustment Spread, or Benchmark Amendments in respect of Subordinated Notes will be subject to the prior written approval of APRA having been obtained in each case. Subordinated Noteholders should note that APRA's approval may not be given for any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments it considers to have the effect of increasing the Interest Rate contrary to applicable prudential standards.

No set-off in relation to Subordinated Notes

Neither ANZBGL nor a Subordinated Noteholder has any contractual right to set off any sum at any time due and payable to a Subordinated Noteholder or ANZBGL (as applicable) under or in relation to the Subordinated Notes against amounts owing by the Subordinated Noteholder to ANZBGL or by ANZBGL to the Subordinated Noteholder (as applicable).

Governing Law

The Subordinated Notes will be governed by English law, except that the subordination, Conversion and Write-Off provisions applicable to the Subordinated Notes will be governed by, and construed in accordance with, the laws of the State of Victoria and the Commonwealth of Australia.

The Deed of Undertaking will be governed by, and construed in accordance with, the laws of the State of Victoria and the Commonwealth of Australia.

Subordinated Notes are subject to mandatory Conversion or Write-Off in the event of a Non-Viability Trigger Event

Subordinated Notes issued by ANZBGL are subject to mandatory Conversion into ordinary shares of ANZGHL (or a successor) or Write-Off (as specified in the applicable Pricing Supplement) if a Non-Viability Trigger Event occurs. A Non-Viability Trigger Event occurs when APRA has provided a written determination to ANZBGL that the conversion or write-off of Relevant Securities is necessary because without either such conversion or write-off or a public sector injection of capital, ANZBGL would become non-viable.

If "Conversion – Applicable" is selected under the relevant Pricing Supplement, and (i) a Non-Viability Trigger Event occurs that does not involve a requirement for a public sector injection of capital, on the date of such event, ANZBGL will be required to Convert some or all of the Principal Amount of the

Subordinated Notes into Ordinary Shares, or (ii) a Non-Viability Trigger Event occurs that involves a requirement for a public sector injection of capital, on the date of such event, ANZBGL will be required to Convert all of the Principal Amount of the Subordinated Notes into Ordinary Shares. If Conversion has not been effected within five Business Days after the Non-Viability Trigger Event for any reason, ANZBGL will be required to Write-Off the relevant Principal Amount of the Subordinated Notes.

If "Write-Off – Applicable" is selected under the relevant Pricing Supplement and (i) a Non-Viability Trigger Event occurs that does not involve a requirement for a public sector injection of capital, on the date of such event, ANZBGL will be required to Write-Off some or all of the Principal Amount of the Subordinated Notes, or (ii) a Non-Viability Trigger Event occurs that involves a requirement for a public sector injection of capital, on the date of such event, ANZBGL will be required to Write-Off all of the Principal Amount of the Subordinated Notes.

Where a Write-Off occurs, the rights of the relevant investor in relation to the relevant Principal Amount of a Subordinated Note are immediately and irrevocably terminated and written-off and the investor will lose that investment and will not receive any compensation.

A Non-Viability Trigger Event may be associated with financial difficulty of ANZBGL and occur contemporaneously with severe market conditions in Australia more generally, and such events are likely to be adverse to investors in the Subordinated Notes.

See sections entitled "*Description of Supervision and Regulation of Australia and New Zealand Banking Group Limited — Australian Regulatory Developments — Crisis Management*" and "*Risk Factors - Regulatory changes or a failure to comply with laws, regulations or policies may adversely affect the ANZBGL Group's Position*" for information on the Statutory Conversion and Write-Off Provisions (as defined therein).

The circumstances under which APRA would determine that ANZBGL is non-viable are uncertain

It is a requirement under APRA's prudential standards that the terms of any subordinated debt, in order to be eligible for inclusion as regulatory capital, contain provisions for conversion or write-off in the event of non-viability. Whether ANZBGL is non-viable is determined by APRA. The prudential standards do not define non-viability and APRA has not provided specific guidance on how it would determine non-viability. Non-viability could be expected to include a serious impairment of ANZBGL's financial position. However, it is possible that APRA's view of non-viability may not be confined to solvency or capital measures and APRA's position on these matters may change over time. APRA has indicated that non-viability is likely to arise prior to the insolvency of an ADI. Non-viability may be significantly impacted by a number of factors, including factors which impact the business, operation and financial condition of ANZBGL, such as systemic and non-systemic macro-economic, environmental and operational factors.

An investor holding Subordinated Notes subject to mandatory Conversion may receive on Conversion Ordinary Shares worth significantly less than the principal amount of the investor's Subordinated Notes; such Ordinary Shares may be subject to restrictions on transfer in the absence of a prospectus or equivalent disclosure

A Non-Viability Trigger Event could occur at any time. It could occur on dates not previously contemplated by investors or which may be unfavourable in light of then-prevailing market conditions or investors' individual circumstances or timing preferences.

Potential investors in Subordinated Notes should understand that, if a Non-Viability Trigger Event occurs and Subordinated Notes are Converted into Ordinary Shares, investors are obliged to accept the Ordinary Shares (subject to the provisions for issue of Ordinary Shares to a nominee described below) even if they do not at the time consider such shares to be an appropriate investment for them and despite any change in the financial position of ANZBGL or ANZGHL since the issue of the Subordinated Notes or any disruption to the market for those Ordinary Shares or to capital markets generally. Investors holding Subordinated Notes subject to Conversion upon the occurrence of a Non-Viability Trigger Event have no right to elect to have Subordinated Notes Written-Off instead of Converted.

There may be no market in Ordinary Shares received on Conversion and investors may not be able to sell the Ordinary Shares at a price equal to the value of their investment and as a result may suffer loss.

Furthermore, the sale of Ordinary Shares issued upon Conversion of the Subordinated Notes may also be restricted by applicable Australian law, including restrictions under the Corporations Act on the sale of Ordinary Shares to investors within 12 months of their issue (except where certain exemptions apply) on account of the Subordinated Notes and the Ordinary Shares being issued without ANZGHL as the issuer of the Ordinary Shares having made prospectus or equivalent disclosure as required by the Corporations Act. The restrictions may apply to sales by any nominee for investors as well as sales by investors and by restricting sales investors may suffer loss. The application of that restriction will turn on whether ANZGHL as the issuer of the Ordinary Shares has provided sufficient disclosure to make the Ordinary Shares freely tradeable, as to which neither ANZBGL nor ANZGHL has any affirmative obligation.

The number of Ordinary Shares that an investor holding Subordinated Notes subject to mandatory conversion will receive on Conversion is dependent on formulae in the Conditions as supplemented by the applicable Pricing Supplement which may have the effect that the value of those Ordinary Shares is less than the principal amount of the investor's Subordinated Notes

Except where the applicable Pricing Supplement specifies that Alternative Conversion Number applies, the number of Ordinary Shares that an investor will receive for a Principal Amount of Subordinated Notes will be calculated in accordance with a formula which provides for a calculation based on a discounted five Business Day VWAP subject to a maximum conversion number.

The period for calculating VWAP is retrospective, and means the period of five Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Trigger Event Date. The Ordinary Shares may not be listed. They may not have been listed for some period of time, for example, if ANZGHL is acquired by another entity and delisted. The Ordinary Shares may not be able to be sold at prices representing their VWAP. In particular, VWAP prices will be based wholly or partly on trading days which occurred before the Non-Viability Trigger Event.

The maximum conversion number is based on a price of 20 per cent. of the Issue Date VWAP which, in summary, means the VWAP during the period of 20 Business Days preceding the issue date of the Subordinated Notes. The price at which such number of Ordinary Shares may be sold when determined on the basis of the VWAP may be significantly less than the principal amount of Subordinated Notes Converted, especially where the number is limited to the maximum conversion number.

Since the maximum conversion number is calculated by reference to the applicable Issue Date VWAP, this number may be higher or lower than the maximum conversion number applicable to other Relevant Securities, depending on the date on which those securities were issued.

The Non-Viability Determination may require some or all Relevant Securities be converted. Where it requires only some be converted, in determining the number of Subordinated Notes that are Converted, ANZBGL first takes into account the conversion of Relevant Tier 1 Securities and then treats Relevant Tier 2 Securities (including the Subordinated Notes) on an approximately pro-rata basis or as further described in the Conditions. Where all Relevant Securities are required to be converted, all Relevant Tier 2 Securities and Relevant Tier 1 Securities may be converted at the same time. In this circumstance, the effect is that the rights attaching to Relevant Tier 1 Securities would not be cancelled, limited or subject to loss absorption before Relevant Tier 2 Securities (including Subordinated Notes) are themselves subject to loss absorption. The Banking Act does not impose on APRA a requirement to ensure that, in the exercise of its powers, holders of regulatory capital securities (such as Subordinated Notes) are no worse off than they would be in an insolvency. The number of Ordinary Shares a holder will receive is determined by the conversion formula applicable to the Subordinated Notes and not by APRA or by their ranking in a winding up if APRA were not to issue a non-viability determination.

Holders should be aware that:

- There is no obligation on ANZBGL to issue, or maintain on issue, any Relevant Tier 1 Securities or Relevant Tier 2 Securities that it has issued or may decide to issue in the future. As a result, if a Non-Viability Trigger Event requiring the Conversion of some but not all Subordinated Notes occurs, the relative impact on the Subordinated Notes will depend on the amount of Relevant Securities other than the Subordinated Notes (if any) that are on issue at that time.

- There is no requirement that the rights attaching to Ordinary Shares be cancelled or limited before Relevant Securities (including Subordinated Notes) are subject to loss absorption.

Where Subordinated Notes are required to be Converted at or around the same time as the conversion of other Relevant Securities, the VWAP used to calculate the number of Ordinary Shares issued on Conversion of Subordinated Notes may be the same as the VWAP used to calculate the number of Ordinary Shares issued on conversion of other Relevant Securities. Therefore, it is possible that Subordinated Noteholders may receive the same number or fewer Ordinary Shares per Subordinated Note than would be received by holders of other Relevant Securities (including Relevant Tier 1 Securities that are expressed to rank junior to the Subordinated Notes in the event that ANZBGL becomes insolvent).

Holders should also be aware that a Non-Viability Trigger Event may occur more than once. For example, as a result of a Non-Viability Trigger Event, a partial conversion of some Relevant Securities may occur and yet fail to restore ANZBGL to viability. In that case, if a further Non-Viability Trigger Event occurs, the Relevant Securities that remain on issue (which may include Subordinated Notes) may be subject to loss absorption in circumstances where there has been a further deterioration in the financial position of ANZBGL and holders of those Relevant Securities may have a worse outcome than holders of the Relevant Securities that were previously subject to loss absorption.

Where the Pricing Supplement applicable to the Subordinated Notes specifies that the Alternative Conversion Number is applicable, the number of Ordinary Shares which the investor will receive is fixed at that number. The number may be minimal and have a market value that is significantly less than the principal amount of the Subordinated Notes Converted.

Upon the occurrence of a Non-Viability Trigger Event, investors will bear the risk of depreciation of the Australian dollar against the Specified Currency of the Subordinated Notes

Ordinary Shares trade and are expected to trade, as applicable, primarily in Australian dollars and so, where Subordinated Notes are denominated in a Specified Currency other than Australian dollars, the equivalent value of Ordinary Shares in the Specified Currency of the Subordinated Notes may fluctuate depending on the exchange rate between the Specified Currency and Australian dollars (or any other currency in which Ordinary Shares may trade). For example, if the Australian dollar depreciates relative to the Specified Currency, the value of Ordinary Shares in the Specified Currency will decrease.

As the Maximum Conversion Number is calculated based on the market price of Ordinary Shares and the exchange rate in respect of the Australian dollar and the Specified Currency in the 20 Business Day period prior to the date of issue of the Subordinated Notes, any depreciation of the Australian dollar against the Specified Currency by the time that the VWAP is calculated for the purpose of determining the Conversion Number may make it more likely that the Maximum Conversion Number will apply (especially if accompanied by a deterioration in the market price of Ordinary Shares at the time of a Non-Viability Trigger Event). See the risk factor entitled "*The number of Ordinary Shares that an investor holding Subordinated Notes subject to mandatory conversion will receive on Conversion is dependent on formulae in the Conditions as supplemented by the applicable Pricing Supplement which may have the effect that the value of those Ordinary Shares is less than the principal amount of the investor's Subordinated Notes*" for more detail of the risks to Holders of the Maximum Conversion Number applying.

In addition, the variable number of Ordinary Shares issued to you on the occurrence of a Non-Viability Trigger Event is calculated by reference to the prevailing exchange rate in respect of the Australian dollar and the Specified Currency at the time of Conversion. Following the Non-Viability Trigger Event there may be a delay in you receiving Ordinary Shares and/or a delay in the nominee selling the Ordinary Shares issued on your behalf, or converting the cash consideration from any such sale into the Specified Currency, in accordance with the terms of the Subordinated Notes during which time the exchange rate of Australian dollars against the Specified Currency may further decline.

No interest or other compensation is payable in the event of a loss by an investor due to foreign currency conversions.

As a result, the realisable value in the Specified Currency of Ordinary Shares issued, or the proceeds from any sale of such Ordinary Shares, following a Non-Viability Trigger Event could be substantially

lower than that implied by the exchange rate in respect of the Australian dollar and the Specified Currency at the time of a Non-Viability Trigger Event.

The number of Ordinary Shares that an investor holding Subordinated Notes subject to mandatory Conversion will receive on Conversion will not be adjusted for certain corporate actions of ANZGHL

If the applicable Pricing Supplement specifies that Alternative Conversion Number applies, the Alternative Conversion Number may be no more than the Maximum Conversion Number. If the Alternative Conversion Number does not apply, the number of Ordinary Shares that an investor will receive on Conversion cannot be greater than a maximum conversion number based on 20 per cent. of the Issue Date VWAP (as described above). The Issue Date VWAP is adjusted for only limited corporate actions of ANZGHL, namely bonus issues, divisions and similar transactions. Accordingly, as a result of other corporate actions of ANZGHL, an investor in Subordinated Notes may receive on Conversion Ordinary Shares worth significantly less than the Principal Amount of the investor's Subordinated Notes. The terms of the Subordinated Notes do not restrict corporate actions that ANZGHL may undertake.

Where the Pricing Supplement applicable to the Subordinated Notes specifies that the Alternative Conversion Number is applicable, the number of Ordinary Shares which the investor will receive is fixed at that number and is not adjusted for any corporate action.

In certain circumstances, an investor holding Subordinated Notes subject to Conversion may not receive Ordinary Shares, only the proceeds thereof, as the Ordinary Shares would be issued upon Conversion to the nominee for immediate sale, which sale is likely to occur when market conditions are not favourable

If an investor holding Subordinated Notes subject to Conversion (i) notifies ANZBGL that it does not wish to receive Ordinary Shares as a result of the Conversion; (ii) has an address outside of Australia or is a person whom ANZBGL may otherwise believe is not a resident of Australia; (iii) is a Clearing System Holder; (iv) does not provide Australian securities account information to ANZBGL prior to the Trigger Event Date; or (v) where a FATCA Withholding (as defined below) is required to be made in respect of the Ordinary Shares issued on the Conversion, the Ordinary Shares that the investor would receive on Conversion will instead be issued to a nominee (which may not be ANZBGL or any of its Related Entities (which has the meaning given by APRA from time to time)), who will sell the Ordinary Shares on behalf of that investor. The nominee will have no duty to seek a fair market price, or to engage in an arm's length transaction in such sale, and market conditions are likely to have deteriorated following the Non-Viability Trigger Event that caused the Conversion.

To enable ANZGHL to issue Ordinary Shares to an investor on Conversion, investors need to have appropriate securities accounts in Australia for the receipt of Ordinary Shares and to provide to ANZBGL prior to the Trigger Event Date, their name and address and certain security holder account and other details. Investors should understand that a failure to provide this information to ANZBGL by the Trigger Event Date may result in ANZGHL issuing the Ordinary Shares to a nominee which, if the information is not provided to the nominee no later than 30 days after the Trigger Event Date, will sell the Ordinary Shares and pay the net proceeds to the investors. In this situation, investors will have no rights against ANZBGL or ANZGHL in relation to the Conversion and will not be able to trade in any Ordinary Shares issued to the nominee.

Other Relevant Securities are likely to contain similar provisions for the issue of Ordinary Shares to a nominee on conversion and for the nominee to sell the Ordinary Shares. The larger the volume of Ordinary Shares that is required to be issued to a nominee for sale on Conversion, the more difficult it may be for any nominee to sell such Ordinary Shares. There is a risk that the market price for Ordinary Shares may be adversely affected in such circumstances.

In addition, there is a risk that ANZBGL may be unable to appoint a nominee to receive Ordinary Shares to be issued on conversion within five Business Days of the Trigger Event Date. If ANZGHL does not issue the Ordinary Shares on Conversion of Subordinated Notes within five Business Days after the Trigger Event Date for any reason, the relevant Subordinated Notes will be Written-Off with effect on and from the Trigger Event Date. This would include the case where ANZBGL has failed to appoint a nominee where required.

An investor holding Subordinated Notes subject to mandatory Conversion will not receive Ordinary Shares if Conversion is not effected within five Business Days after the Trigger Event Date for any reason (including if ANZBGL is prevented from Converting Subordinated Notes or, if applicable, ANZGHL is prevented from issuing Ordinary Shares, by law)

If "Conversion – Applicable" is selected in the relevant Pricing Supplement, ANZBGL is required to Convert a Principal Amount of Subordinated Notes, however, if the Conversion is not effected within five Business Days after the Trigger Event Date for any reason (including where ANZBGL is prevented from Converting Subordinated Notes, or, if applicable, ANZGHL is prevented from issue Ordinary Shares, in each case, by applicable law, court order or government action), the Conversion will not occur and the rights of investors in relation to those Subordinated Notes will be Written-Off and immediately and irrevocably terminated with effect on and from the Trigger Event Date. In this situation also, investors will lose some or all of the value of their investment and will not receive any compensation.

The rules and regulations of the ASX in certain circumstances limit ANZGHL's ability, without shareholder approval, to issue Ordinary Shares and other equity securities (which may include convertible notes) without the approval of holders of Ordinary Shares. If the issue or Conversion of Subordinated Notes would contravene that limit, then ANZBGL may be prevented from Converting Subordinated Notes or ANZGHL may be prevented from issuing Ordinary Shares and, in each case, such Subordinated Notes may be required to be Written-Off.

There are provisions of Australian law that are relevant to the ability of any person to acquire interests in ANZGHL beyond the limits prescribed by those laws.

The Financial Sector (Shareholdings) Act 1998 of Australia restricts ownership by people (together with their associates) of a financial sector company, such as ANZGHL to a 20 per cent. stake. A shareholder may apply to the Australian Treasurer to extend their ownership beyond 20 per cent., but approval will not be granted unless the Treasurer is satisfied that a holding by that person greater than 20 per cent. is in the national interest.

Mergers, acquisitions and divestments of Australian public companies listed on ASX (such as ANZGHL) are regulated by detailed and comprehensive legislation and the rules and regulations of ASX. These provisions include restrictions on the acquisition and sale of relevant interests in certain shares in an Australian listed company under the Corporations Act and a requirement that acquisitions of certain interests in Australian listed companies by foreign interests are subject to review and approval by the Treasurer. In addition, Australian law also regulates acquisitions which would have the effect, or be likely to have the effect, of substantially lessening competition in a market, or in a state or in a territory of, Australia.

Subordinated Noteholders should take care to ensure that by acquiring any Subordinated Notes which provide for such Subordinated Notes to be Converted to Ordinary Shares (taking into account any Ordinary Shares into which they may Convert), they do not breach any applicable restrictions on the ownership of interests in ANZGHL. If the acquisition or conversion of such Subordinated Notes by the Subordinated Noteholder or a nominee would breach those restrictions ANZBGL may be prevented from Converting such Subordinated Notes or ANZGHL may be prevented from issuing Ordinary Shares and, in each case, where Conversion is required, such Subordinated Notes may be required to be Written-Off.

Prior to the issue of Ordinary Shares, Holders will not have any rights with respect to Ordinary Shares, but any Ordinary Shares that would be received by Holders upon Conversion would be subject to changes made to ANZGHL's constitution with respect to Ordinary Shares

Subordinated Noteholders have no voting or other rights in relation to Ordinary Shares until Ordinary Shares are issued to them. In addition, the Subordinated Notes do not confer on Subordinated Noteholders any right to subscribe for new securities in ANZGHL, or to participate in any bonus issue of securities. The rights attaching to Ordinary Shares if Ordinary Shares are issued will be the rights attaching to Ordinary Shares at that time. Subordinated Noteholders have no right to vote on or otherwise to approve any changes to ANZGHL's constitution in relation to the Ordinary Shares that may in the future be issued to them. Therefore, Subordinated Noteholders will not be able to influence decisions that may have adverse consequences for them.

The Ordinary Share price may fluctuate, particularly at the time a Non-Viability Trigger Event is likely, which could materially impact the value of the Ordinary Shares Holders receive upon Conversion

The market price of Ordinary Shares will fluctuate due to various factors, including investor perceptions, domestic and worldwide economic conditions and ANZGHL's financial performance and position. In addition, because the financial performance of ANZBGL is material to ANZGHL, a Non-Viability Trigger Event is likely to be accompanied by a deterioration in the market price of the Ordinary Shares. The VWAP during the relevant period before the date of Conversion that is used to calculate the number of Ordinary Shares that Subordinated Noteholders receive may differ from the Ordinary Share price on or after the date of Conversion. This means that the value of Ordinary Shares received is likely to be less than anticipated when the Subordinated Notes were issued or thereafter.

In addition, the greater the amount of Relevant Securities (including the Subordinated Notes) that are required to be converted upon the occurrence of a Non-Viability Trigger Event, the more likely the market price of Ordinary Shares may be adversely affected as a result of the conversion.

Other events and conditions may affect the ability of Subordinated Noteholders or the nominee to trade or dispose of the Ordinary Shares issued on Conversion such as, for example, the willingness or ability of the ASX to accept the Ordinary Shares issued on Conversion for listing or any practical issues which affect that listing, any disruption to the market for the Ordinary Shares or to capital markets generally, the availability of purchasers of Ordinary Shares and any costs or practicalities associated with trading or disposing of Ordinary Shares at that time, or laws of general application, including securities law and laws relating to the holding of shares and other interests in financial institutions, which limit a person's ability to acquire or dispose of Ordinary Shares. In addition, a Subordinated Noteholder may not be able to trade the Ordinary Shares if, in accordance with the terms of the Subordinated Notes, the Ordinary Shares are issued to a nominee. See the risk factor entitled "*In certain circumstances, an investor holding Subordinated Notes subject to Conversion may not receive Ordinary Shares, only the proceeds thereof, as the Ordinary Shares would be issued upon Conversion to the nominee for immediate sale, which sale is likely to occur when market conditions are not favourable*".

Approved NOHC event

Where ANZBGL is acquired by an Approved NOHC, at its option ANZBGL may, without further authority, but with the prior approval of APRA, amend the Conditions of the Subordinated Notes so that holders of Subordinated Notes will be obliged to accept Approved NOHC Ordinary Shares and will not receive Ordinary Shares upon a Conversion of Subordinated Notes. Potential investors should be aware that Subordinated Noteholders will not have a right to vote on any proposal to approve, implement or give effect to a merger or a similar transaction.

In January 2023, ANZBGL implemented the Restructure that resulted in ANZGHL becoming the new listed parent company of the ANZ Group in place of ANZBGL. As a result, the terms of the Subordinated Notes provide that ANZGHL will be the issuer of any Ordinary Shares issued on Conversion, and you will have no rights to receive ordinary shares in ANZBGL upon Conversion.

An investor holding Subordinated Notes subject to a Write-Off will lose some or all of the value of their investment

If "Write-Off – Applicable" is selected in the relevant Pricing Supplement, the rights of investors (including their rights to receive payment of interest both in the future and as unpaid as at the Trigger Event Date) will be Written-Off and irrevocably terminated. In this situation, investors will also lose some or all of the value of their investment and will not receive any compensation.

The Deed of Undertaking, which governs ANZGHL's obligation to issue Ordinary Shares upon Conversion of Subordinated Notes, is governed by Australian law and would be enforced in Australian courts

In the event that a Non-Viability Trigger Event occurs, the Deed of Undertaking governs the obligations of ANZGHL to issue any Ordinary Shares to be issued by ANZGHL upon Conversion of Subordinated Notes. If, in respect of a Conversion of Subordinated Notes, ANZGHL fails to issue Ordinary Shares in respect of the relevant principal amount of such Subordinated Notes in accordance with the terms of the

Subordinated Notes, the sole right of the Holder of Subordinated Notes in respect of Subordinated Notes or portion thereof that are subject to Conversion is its right to be issued Ordinary Shares upon Conversion in accordance with the terms of the Deed of Undertaking and the remedy of such Holder in respect of ANZGHL's failure to issue the Ordinary Shares is limited to seeking an order for specific performance of ANZGHL's obligation to issue the Ordinary Shares to the Holder or the nominee. As a result, in those circumstances, a Holder will have no recourse against ANZBGL, and ANZBGL does not have an obligation to procure Ordinary Shares to be issued upon Conversion.

In addition, the Deed of Undertaking is governed by Australian law. As a result, the arrangements for enforcement of the Deed of Undertaking may differ from those applicable to enforcement of obligations governed by laws of other jurisdictions.

Description of rights and liabilities attaching to ordinary shares in ANZGHL

The rights and liabilities attaching to the ordinary shares in ANZGHL issued on Conversion of Subordinated Notes are set out in the constitution of ANZGHL ("**Constitution**") and are also regulated by the Corporations Act, ASX Listing Rules and the general law. A summary of the key rights attaching to the ordinary shares in ANZGHL is as follows. Eligible investors who wish to inspect the Constitution may do so during normal business hours on any weekday (Saturdays, Sundays and public holidays excepted), at the offices of the Paying Agents, Deutsche Bank AG at Winchester House, 1 Great Winchester Street, London EC2N 2DB, United Kingdom, at the registered office of ANZGHL and at <https://www.anz.com/content/dam/anzcom/shareholder/anz-group-holdings-limited-constitution.pdf>.

Voting rights

Subject to any rights or restrictions attached to any shares or class of shares, a registered holder of an ordinary shares in ANZGHL ("**Shareholder**") is entitled to attend and vote at a general meeting of ANZGHL. Any resolution being considered at a general meeting is decided on a show of hands unless a poll is held. On a show of hands, each Shareholder present has one vote.

On a poll, each Shareholder has one vote for each ordinary shares in ANZGHL. Partly paid ordinary shares in ANZGHL confer that fraction of a vote which is equal to the proportion which the amount paid bears to the total issue price of the ordinary shares in ANZGHL.

General meetings

Notice of a general meeting must be given to each Shareholder in accordance with the Corporations Act. Each Shareholder is entitled to receive notices, financial statements and other documents required to be provided to Shareholders under the Constitution, Corporations Act and ASX Listing Rules.

Dividend entitlement

Subject to the Corporations Act, the Constitution and the terms of issue of ordinary shares in ANZGHL, the board of directors of ANZGHL ("**Board**") may resolve to pay dividends on Ordinary Shares which are considered by the Board to be appropriate, in proportion to the capital paid up on the ordinary shares in ANZGHL held by each Shareholder (subject to the rights of holders of shares carrying preferred rights including Subordinated Notes).

Dividend reinvestment plan and bonus option plan

Shareholders who are eligible may participate in ANZGHL's dividend reinvestment plan or bonus option plan, as in force from time to time, in accordance with (and subject to) the rules of those plans. Shareholders who are subject to the laws of a country or place other than Australia may not be eligible to participate, because of legal requirements that apply in that country or place or in Australia. Until the Board otherwise determines, participation in ANZGHL's dividend reinvestment plan and bonus option plan is not available directly or indirectly to any entity or person (including any legal or beneficial owner of ordinary shares in ANZGHL) who is (or who is acting on behalf of or for the account or benefit of an entity or person who is) in or resident in the United States (including its territories or possessions) or Canada.

Rights of shareholders on a winding-up of ANZGHL

If ANZGHL is wound up and its property is more than sufficient to pay all debts, share capital of ANZGHL and expenses of the winding-up, the excess must be divided among Shareholders in proportion to the capital paid up on the ordinary shares in ANZGHL at the commencement of the winding-up (subject to the rights of holders of shares carrying preferred rights on winding-up including Subordinated Notes). A partly paid ordinary shares in ANZGHL is counted as a fraction of a fully paid ordinary share in ANZGHL equal to the proportion which the amount paid on it bears to the total issue price of the ordinary share in ANZGHL.

However, with the sanction of a special resolution, the liquidator may divide among Shareholders the assets of ANZGHL in kind and decide how the division is to be carried out or vest assets in trustees of any trusts for the benefit of Shareholders as the liquidator thinks appropriate.

Transfer of ordinary shares

Ordinary shares in ANZGHL may be transferred by any means permitted by the Corporations Act or by law. The Board may decline to register a transfer where permitted to do so under the ASX Listing Rules or the settlement operating rules of the ASX ("**ASX Settlement Operating Rules**"), or where registration of the transfer is forbidden by the Corporations Act, ASX Listing Rules or ASX Settlement Operating Rules. In addition, subject to the Corporations Act, ASX Listing Rules and ASX Settlement Operating Rules, the Board may decline to register a transfer if registration would create a new holding of less than a marketable parcel under the ASX Listing Rules.

Issues of further shares

Subject to the Constitution, Corporations Act and ASX Listing Rules, the Board may issue or grant options in respect of ordinary shares in ANZGHL on such terms as the Board decides. The Board may also issue preference shares, including redeemable preference shares, or convertible notes with preferred, deferred or special rights or restrictions in relation to dividends, voting, return of capital and participation in surplus on a winding-up of ANZGHL.

Variation of the Constitution

The Constitution can only be modified by a special resolution in accordance with the Corporations Act. Under the Corporations Act, for a resolution to be passed as a special resolution it must be passed by at least 75 per cent. of the votes cast by members entitled to vote on the resolution.

Variation of rights

ANZGHL may only modify or vary the rights attaching to any class of shares with the prior approval, by a special resolution, of the holders of shares in that class at a meeting of those holders, or with the written consent of the holders of at least 75 per cent. of the issued shares of that class.

Subject to the terms of issue, the rights attached to a class of shares are not treated as varied by the issue of further shares which rank equally with that existing class for participation in profits and assets of ANZGHL.

Australian taxation: Considerations relating to Subordinated Notes

The taxation consequences which may arise on the Conversion of Subordinated Notes into Ordinary Shares are complex. In some cases, any gain or loss on the conversion may be disregarded under the Australian Tax Act. There are also a range of tax consequences which may apply to holders of Ordinary Shares, or particular holders of Ordinary Shares, in holding, acquiring or disposing of Ordinary Shares. Holders should seek their own taxation advice if their Subordinated Notes are Converted into Ordinary Shares.

Stamp duty:

No ad valorem stamp duty, registration or similar taxes are payable on the issue or transfer of Ordinary Shares (including an issue of shares as a result of Conversion) provided that:

- if all the shares in the issuer of the Ordinary Shares are quoted on the Australian Securities Exchange at the time of issue or transfer of the Ordinary Shares, no person, either directly or when aggregated with interests held by associates of that person, obtains an interest in the issuer of the Ordinary Shares of 90 per cent. or more; or
- if not all the shares in the issuer of the Ordinary Shares are quoted on the Australian Securities Exchange at the time of issue or transfer of the Ordinary Shares, no person, either directly or when aggregated with interests held by associates of that person, obtains an interest in the issuer of the Ordinary Shares of 50 per cent. or more.

The stamp duty legislation generally requires the interests of associates to be added in working out whether the relevant threshold is reached. In some circumstances, the interests of unrelated entities can also be aggregated together in working out whether the relevant threshold is reached.

FATCA

In addition, any amounts to be paid on the Subordinated Notes will be paid and any Ordinary Shares to be issued to a holder on Conversion of a Subordinated Note will be issued to the holder, net of any deduction or withholding imposed or required pursuant to Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (the "**Code**"), any current or future regulations or official interpretations thereof, any agreement entered into pursuant to Section 1471(b) of the Code, or any fiscal or regulatory legislation, rules or practices adopted pursuant to any intergovernmental agreement entered into in connection with the implementation of such Sections of the Code, and no additional amounts will be required to be paid and no additional Ordinary Shares would be required to be issued on account of any such deduction or withholding.

The Pricing Supplement for this Note (or the relevant provisions thereof) is endorsed on this Note and completes these Conditions and may specify other terms and conditions which shall, to the extent so specified or to the extent inconsistent with these Conditions, replace or modify these Conditions for the purposes of this Note. References herein to the "**Pricing Supplement**" are to the Pricing Supplement (or the relevant provisions thereof) endorsed on this Note.

Words and expressions defined in the Agency Agreement or used in the Pricing Supplement shall have the same meanings where used in these Conditions unless the context otherwise requires or unless otherwise stated and provided that, in the event of inconsistency between the Agency Agreement and the

Pricing Supplement, the Pricing Supplement will prevail.

1. **Form, Denomination and Title**

The Notes are issued (i) in bearer form ("**Bearer Notes**") or (ii) in registered form ("**Registered Notes**"), in each case in the Specified Currency and the Specified Denomination(s). All Registered Notes shall have the same Specified Denomination. "**Specified Denomination**" means the amount specified as such in (or calculated in accordance with the provisions of) the relevant Pricing Supplement as it may be adjusted, in the case of the Subordinated Notes, in accordance with Condition 5A.4.

This Note is a Fixed Rate Note, a Floating Rate Note, a Zero Coupon Note, a Range Accrual Note, an Index Linked Interest Note, an Index Linked Redemption Note, an Instalment Note, a Dual Currency Note, a Subordinated Note, a combination of any of the foregoing or any other relevant type of Note (as permitted by these Conditions), depending upon the Interest Basis or Redemption/Payment Basis shown in the Pricing Supplement. Notes issued as Subordinated Notes must not be Zero Coupon Notes, Range Accrual Notes, Inverse Floating Rate Notes, Index Linked Interest Notes, Index Linked Redemption Notes, Instalment Notes, Dual Currency Notes, CMS Rate Notes or any combination of any of the foregoing.

Bearer Notes are serially numbered and are issued with Coupons (and, where appropriate, a Talon) attached, save in the case of Zero Coupon Notes in which case references to interest (other than in relation to interest due after the Maturity Date), Coupons and Talons in these Conditions are not applicable. Instalment Notes are issued with one or more Receipts attached.

Registered Notes are represented by registered certificates ("**Certificates**") and, save as provided in Condition 2(c), each Certificate shall represent the entire holding of Registered Notes by the same holder.

Title to the Bearer Notes and the Receipts, Coupons and Talons shall pass by delivery. Title to the Registered Notes shall, subject to mandatory rules of law, pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the "**Register**"). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Certificate, Note, Receipt, Coupon or Talon shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or interest in it, any writing on it (or on the Certificate representing it) or its theft or loss (or that of the related Certificate) and no person shall be liable for so treating the holder.

In these Conditions, "**Noteholder**" means the bearer of any Bearer Note and the Receipts relating to it or the person in whose name a Registered Note is registered, "**Unsubordinated Noteholder**" means the Noteholder of a Unsubordinated Note and the Receipts relating to it, "**Subordinated Noteholder**" means the Noteholder of a Subordinated Note issued by ANZBGL and the Receipts relating to it, and "**holder**" (in relation to a Note, Receipt, Coupon or Talon) means the bearer of any Bearer Note, Receipt, Coupon or Talon or the person in whose name a Registered Note is registered.

2. **Exchange and Transfers of Notes**

(a) *Exchange of Notes*

Registered Notes may not be exchanged for Bearer Notes and vice versa. Bearer Notes of one Specified Denomination may not be exchanged for Bearer Notes of another Specified Denomination. *Transfer of Registered Notes*

Registered Notes may be transferred upon the surrender (at the specified office of the Registrar or any Transfer Agent) of the Certificate representing such Registered Notes to be transferred, together with the form of transfer endorsed on such Certificate duly completed and executed and such other evidence as the Registrar or Transfer Agent may reasonably require. In the case of a transfer of part only of a holding of Registered Notes represented by one Certificate, a new Certificate shall be issued to the transferee in respect of the part transferred and a further new Certificate in respect of the balance of the holding not transferred shall be issued to the transferor.

(b) *Exercise of Options or Partial Redemption in Respect of Registered Notes*

In the case of an exercise of an Issuer's or Noteholder's option in respect of, or a partial redemption of, a holding of Registered Notes represented by a single Certificate, a new Certificate shall be issued to the holder to reflect the exercise of such option or in respect of the balance of the holding not redeemed. In the case of a partial exercise of an option resulting in Registered Notes of the same holding having different terms, separate Certificates shall be issued in respect of those Notes of that holding that have the same terms. New Certificates shall only be issued against surrender of the existing Certificates to the Registrar or any Transfer Agent. In the case of a transfer of Registered Notes to a person who is already a holder of Registered Notes, a new Certificate representing the enlarged holding shall only be issued against surrender of the Certificate representing the existing holding.

(c) *Delivery of New Certificates*

Each new Certificate to be issued pursuant to Condition 2(b) or (c) shall be available for delivery five business days after receipt of the request for exchange, form of transfer or Exercise Notice or surrender of the Certificate for exchange. Delivery of the new Certificate(s) shall be made at the specified office of the Transfer Agent or of the Registrar (as the case may be) to whom delivery or surrender of such request for exchange, form of transfer, Exercise Notice or Certificate shall have been made or, at the option of the holder making such delivery or surrender as aforesaid and as specified in the relevant request for exchange, form of transfer, Exercise Notice or otherwise in writing, be mailed by uninsured post at the risk of the holder entitled to the new Certificate to such address as may be so specified, unless such holder requests otherwise and pays in advance to the relevant Agent (as defined in the Agency Agreement) the costs of such other method of delivery and/or such insurance as it may specify. In this Condition 2(d), "**business day**" means a day, other than a Saturday or Sunday, on which banks are open for business in the location of the specified office of the Registrar or the relevant Transfer Agent (as the case may be).

(d) *Exchange Free of Charge*

Exchange and transfer of Notes and Certificates on registration, transfer, partial redemption or exercise of an option shall be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any tax, duty or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Issuer, the Registrar or the relevant Transfer Agent may require).

(e) *Closed Period*

No Noteholder may require the transfer of a Registered Note to be registered (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Note, (ii) during the period of 15 days before any date on which Notes may be called for redemption by the Issuer at its option pursuant to Condition 5(e), (iii) after any such Note has been called for redemption or (iv) during the period of seven days ending on (and including) any Record Date.

3. **Status and Guarantee**

The Notes may be unsubordinated Notes ("**Unsubordinated Notes**") or, where the Issuer is ANZBGL, subordinated Notes ("**Subordinated Notes**") as specified in the relevant Pricing Supplement.

None of the Notes are deposit liabilities or protected accounts of ANZBGL for the purposes of the Banking Act 1959 of Australia (the "**Banking Act**").

(a) *Unsubordinated Notes*

The Unsubordinated Notes and the Receipts and Coupons relating to them constitute direct, unconditional and unsecured obligations of the Issuer and (save for certain debts of the Issuer required to be preferred by law, including but not limited to, where the Issuer is ANZBGL, those referred to in Division 2 and 2AA of Part II of the Banking Act and section 86 of the Reserve Bank Act 1959 of Australia) rank *pari passu* among themselves and equally with all other unsubordinated, unsecured obligations of the Issuer.

The debts which are preferred by law to the claim of a Noteholder in respect of a Note, including by virtue of the provisions referred to in the above paragraph of Condition 3, will be substantial and are

not limited by the Conditions of the Notes. Without limitation to other applicable laws, in the case of Notes issued by ANZBGL, section 13A(3) of the Banking Act provides that, in the event ANZBGL becomes unable to meet its obligations or suspends payment, its assets in Australia are to be available to meet ANZBGL's liabilities in the following order: (i) liabilities to the Australian Prudential Regulation Authority ("APRA") in respect of any payments that APRA makes or is liable to make to (A) holders of protected accounts under the Banking Act or (B) a body corporate pursuant to a determination made by APRA in connection with a transfer of the ADI's business to that body corporate (where that transfer includes liabilities of the ADI in respect of protected accounts) under the Financial Sector (Transfer and Restructure) Act 1999 of Australia, (ii) debts in respect of costs of APRA in certain circumstances, (iii) ANZBGL's liabilities in Australia in relation to protected accounts (as defined in the Banking Act) kept with ANZBGL, (iv) debts due to the Reserve Bank of Australia ("RBA"), (v) liabilities under certain certified industry support contracts; and (vi) all other liabilities of ANZBGL in their order of priority apart from section 13A(3). Changes to applicable law may extend the debts required to be preferred by law.

The Unsubordinated Notes rank senior to the Issuer's subordinated obligations, including, where the Issuer is ANZBGL, the Subordinated Notes.

(b) *Subordinated Notes — ANZBGL*

The Subordinated Notes and the Receipts and Coupons relating to them may only be issued by ANZBGL, and will constitute direct, unsecured and subordinated obligations of ANZBGL. In the event of the winding-up of ANZBGL (see Condition 10 (*Subordination*)) and prior to the commencement of the winding-up of ANZBGL (see Condition 4(v)) the Principal Amount of, any interest on, and any other payments, including additional amounts, in respect of the Subordinated Notes will rank behind all claims of Senior Creditors, and subject to Conditions 5A to 5C (inclusive) *pari passu* with Equal Ranking Securities and ahead of Junior Ranking Securities.

"**Equal Ranking Securities**" means any present or future instrument that ranks in a winding-up of ANZBGL as the most junior claim in the winding-up of ANZBGL ranking senior to Junior Ranking Securities, and includes any instruments issued as Relevant Tier 2 Securities.

"**Junior Ranking Securities**" means any present or future instrument:

- (i) issued as Tier 1 Capital; and
- (ii) that by its terms is, or is expressed to be, subordinated in a winding up of ANZBGL to the claims of Subordinated Noteholders and holders of Equal Ranking Securities.

"**Senior Creditors**" means all present and future creditors of ANZBGL (including but not limited to depositors of ANZBGL whose claims:

- (i) would be entitled to be admitted in the winding up of ANZBGL; and
- (ii) are not in respect of Equal Ranking Securities or Junior Ranking Securities.

Neither ANZBGL nor a Subordinated Noteholder has any contractual right to set off any sum at any time due and payable to a Subordinated Noteholder or ANZBGL (as applicable) under or in relation to the Subordinated Notes against amounts owing by the Subordinated Noteholder to ANZBGL or by ANZBGL to the Subordinated Noteholder (as applicable).

The Subordinated Notes do not limit the amount of liabilities ranking senior to the Subordinated Notes which may be hereafter incurred or assumed by ANZBGL.

Claims of Subordinated Noteholders are also subject to the priority of certain debts preferred by law (in respect of which please see the description provided in Condition 3(a) above).

(c) *Guarantee — by ANZ Bank New Zealand (in respect of Notes issued by ANZNIL)*

Where the relevant Issuer is ANZNIL, the Guarantor has in the Deed of Guarantee unconditionally and irrevocably guaranteed the due and punctual payment of all amounts due by ANZNIL under or in respect of the Notes as and when the same shall become due and payable. This Guarantee of the Notes constitutes

direct, unconditional and unsecured obligations of the Guarantor which (save for certain debts of the Guarantor required to be preferred by law) will at all times rank *pari passu* among themselves and equally with all other unsecured obligations (other than subordinated obligations) of the Guarantor. The Notes issued by ANZ Bank New Zealand and ANZNIL are not guaranteed by ANZBGL.

4. Interest and other Calculations

(a) Interest on Fixed Rate Notes

- (i) Each Fixed Rate Note bears interest on its outstanding Principal Amount from, and including, the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. Such Interest Payment Date(s) is/are either shown in the Pricing Supplement as specified Interest Payment Dates or, if no Interest Payment Date(s) is/are specified in the Pricing Supplement, Interest Payment Date shall mean each date which falls the number of months or other period shown in the Pricing Supplement as the specified Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.
- (ii) If a Fixed Coupon Amount or a Broken Amount is specified in the Pricing Supplement, the amount of interest payable on each Interest Payment Date will amount to the Fixed Coupon Amount or, if applicable, the Broken Amount so specified and in the case of the Broken Amount will be payable on the particular Interest Payment Date(s) specified in the Pricing Supplement.
- (iii) *Calculation of Interest Amount:* The Interest Amount payable in respect of each Note for any period for which a Fixed Coupon Amount or Broken Amount is not specified in the Pricing Supplement shall be calculated by applying the Rate of Interest to the Calculation Amount for such Note, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest unit of the Specified Currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen, and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Note divided by the Calculation Amount. For this purpose, a "unit" means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means 0.01 euro, as the case may be.
- (iv) *Business Day Convention:* If "Business Day Convention – Adjusted" is specified to be applicable in the relevant Pricing Supplement, (a) any Interest Payment Date otherwise falling on a day which is not a Business Day (as defined in Condition 4(r) below) will be postponed or brought forward (as applicable) in accordance with the Business Day Convention set out in the relevant Pricing Supplement (as described below) and (b) the amount of interest payable on such Interest Payment Date will be adjusted accordingly and the provisions of subparagraphs (i) and (j) (excluding the determination and notification of the Rate of Interest) below shall apply, *mutatis mutandis*, as though references to "Floating Rate Notes" were to "Fixed Rate Notes" and references to "Interest Amounts" were to amounts of interest payable in respect of Fixed Rate Notes. If "Business Day Convention – No Adjustment" is specified to be applicable in the relevant Pricing Supplement, any Interest Payment Date otherwise falling on a day which is not a Business Day will be postponed or brought forward (as applicable) in accordance with the Business Day Convention set out in the relevant Pricing Supplement (as described below) and there will be no corresponding adjustment of the amount of interest payable on such Interest Payment Date.

(b) Interest on Floating Rate Notes and Index Linked Interest Notes

- (i) *Interest Payment Dates:* Each Floating Rate Note and Index Linked Interest Note bears interest on its outstanding Principal Amount from, and including, the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date. Such Interest Payment Date(s) is/are either shown in the Pricing Supplement as specified Interest Payment Dates or, if no Interest Payment Date(s) is/are specified in the Pricing Supplement, Interest Payment Date shall mean each date which falls the number of months or other period shown in the Pricing Supplement as the specified Interest Period after the preceding Interest Payment Date or, in the case of the first Interest Payment Date, after the Interest Commencement Date.

- (ii) *Business Day Convention*: If any date referred to in these Conditions that is specified to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then that date will be adjusted in accordance with the Business Day Convention specified in the relevant Pricing Supplement. If "No Adjustment of Interest Amounts" is specified to be applicable in the relevant Pricing Supplement then notwithstanding the bringing forward or postponement (as applicable) of an Interest Payment Date as a result of the application of the Business Day Convention set out in the relevant Pricing Supplement, the Interest Amount in respect of the relevant Interest Period and each subsequent Interest Period shall be calculated as aforesaid on the basis of the original Interest Payment Dates without adjustment in accordance with the applicable Business Day Convention.
- (iii) *Rate of Interest for Floating Rate Notes*: The Rate of Interest in respect of Floating Rate Notes, other than in the case of (x) BBSW Notes or BKBM Notes, provisions in respect of which are set out in Condition 4(d) and Condition 4(e) below, (y) CMS Rate Notes, provisions in respect of which are set out in Condition 4(f) below and (z) Inverse Floating Rate Notes, provisions in respect of which are set out in Condition 4(g) below (unless in each case the relevant Pricing Supplement specifies otherwise), for each Interest Accrual Period shall be determined in the manner specified in the Pricing Supplement and the provisions below relating to either ISDA Determination or Screen Rate Determination shall apply depending upon which is specified in the Pricing Supplement.

(A) *ISDA Determination for Floating Rate Notes*

If ISDA Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate. For the purposes of this sub-paragraph (A), "**ISDA Rate**" for an Interest Accrual Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under an interest rate swap transaction if the Calculation Agent were acting as Calculation Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (i) if the Pricing Supplement specifies either "2006 ISDA Definitions" or "2021 ISDA Definitions" as the applicable ISDA Definitions:
 - (A) the Floating Rate Option is as specified in the relevant Pricing Supplement;
 - (B) the Designated Maturity, if applicable, is a period specified in the relevant Pricing Supplement; and
 - (C) the relevant Reset Date, unless otherwise specified in the relevant Pricing Supplement, has the meaning given to it in the ISDA Definitions; and
 - (D) the definition of 'Fallback Observation Day' in the ISDA Definitions shall be deemed deleted in its entirety and replaced with the following: 'Fallback Observation Day' means, in respect of a Reset Date and the Calculation Period (or any Compounding Period included in that Calculation Period) to which that Reset Date relates, unless otherwise agreed, the day that is five Business Days preceding the related Payment Date;
 - (E) if the specified Floating Rate Option is an Overnight Floating Rate Option, Compounding is specified to be applicable in the relevant Pricing Supplement and:
 - (1) if Compounding with Lookback is specified as the Compounding Method in the relevant Pricing Supplement then (a) Compounding with Lookback is the Overnight Rate Compounding Method and (b) Lookback is the number of Applicable Business Days specified in the relevant Pricing Supplement;

 - (F) if the specified Floating Rate Option is an Overnight Floating Rate Option, Averaging is specified to be applicable in the relevant Pricing Supplement and:
 - (1) if Averaging with Lookback is specified as the Averaging Method in the relevant Pricing Supplement then (a) Averaging with Lookback is the Overnight Rate Averaging Method and (b) Lookback is the number of Applicable Business Days specified in the relevant Pricing Supplement;

- (ii) references in the ISDA Definitions to:
 - (A) "Confirmation" shall be references to the relevant Pricing Supplement;

In respect of Floating Rate Notes other than Floating Rate Notes where the Reference Rate specified in the applicable Pricing Supplement is SONIA, (Non-Index Determination), SONIA (Index Determination), SOFR (Non-Index Determination), SOFR (Index Determination), €STR (Non-Index Determination) or €STR (Index Determination):

- (x) if Screen Rate Determination is specified in the applicable Pricing Supplement as the manner in which the Rate of Interest is to be determined, the Rate of Interest for each Interest Accrual Period shall be (subject to Condition 4(o) (*Benchmark Replacement*) and Condition 4(p) (*Effect of Benchmark Transition Event*)) (as determined by the Calculation Agent) on the following basis:
 - (I) if the Reference Rate is a composite quotation or a quotation customarily supplied by one entity, the Calculation Agent will determine the Reference Rate for the Specified Maturity and the Specified Currency which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date; or
 - (II) in any other case, the Calculation Agent will determine the arithmetic mean of the Reference Rates for the Specified Maturity and the Specified Currency which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (y) if sub-paragraph (x)(I) applies and no Reference Rate for the Specified Maturity and the Specified Currency appears on the Relevant Screen Page at the Relevant Time on the Interest Determination Date or if sub-paragraph (x)(II) applies and fewer than two Reference Rates appear on the Relevant Screen Page at the Relevant Time on the Interest Determination Date or if, in either case, the Relevant Screen Page is unavailable, subject as provided below:
 - (A) the Issuer will appoint a Reference Banks Agent and the Reference Banks Agent will, at the request of the Issuer, request the principal Relevant Financial Centre office of each of the Reference Banks (or such of them, being at least two, as are so quoting) to provide a quotation of the Reference Rate for the Specified Maturity and the Specified Currency at approximately the Relevant Time on the Interest Determination Date to leading banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time and will provide such responses to the Calculation Agent; and

- (B) the Calculation Agent will determine the arithmetic mean of such quotations.
- (z) if paragraph (y) above applies and the Reference Banks Agent advises the Calculation Agent that fewer than two Reference Banks are so quoting the Reference Rate for the Specified Maturity and the Specified Currency, subject as provided below, the Calculation Agent shall determine the arithmetic mean of the rates per annum (expressed as a percentage) quoted by at least two out of five leading banks selected by the Reference Banks Agent (after consultation with the Issuer) in the Principal Financial Centre of the country of the Specified Currency and in an amount that is representative for a single transaction in that market at that time, in each case as selected by the Reference Banks Agent (after consultation with the Issuer), at or about the Relevant Time for a period commencing on the Effective Date equivalent to the relevant Interest Accrual Period, for loans in the Specified Currency to leading banks carrying on business in (I) Europe, or (II) (if the Reference Banks Agent advises the Calculation Agent that fewer than two of such banks are so quoting to such leading banks in Europe), the Principal Financial Centre, in either case, as provided by the Reference Banks Agent to the Calculation Agent; provided, however, that if fewer than two of such banks are so quoting to such leading banks or the Reference Banks Agent or the Calculation Agent (as the case may be) is unable to determine a rate or (as the case may be) the Calculation Agent is unable to determine an arithmetic mean in accordance with the above provisions on any Interest Determination Date, the Rate of Interest shall be the Rate of Interest determined on the previous Interest Determination Date (after readjustment for any difference between any Margin, Rate Multiplier or Maximum Rate of Interest or Minimum Rate of Interest applicable to the preceding Interest Accrual Period and to the relevant Interest Accrual Period).
- (C) *Screen Rate Determination for Floating Rate Notes where the Reference Rate specified in the applicable Pricing Supplement is SONIA (Non-Index Determination):*

Where the Reference Rate is specified in the applicable Pricing Supplement as being "SONIA (Non-Index Determination)", the Rate of Interest for each Interest Period will, as provided below, be Compounded Daily SONIA as calculated by the Calculation Agent (or the person specified in the applicable Pricing Supplement as the party responsible for calculating the Rate of Interest).

"**Compounded Daily SONIA**" means, in relation to any Interest Period, the rate of return of a daily compound interest investment (with the daily Sterling Overnight Index Average (SONIA) as the reference rate for the calculation of interest) and will be calculated by the Calculation Agent (or the person specified in the applicable Pricing Supplement as the party responsible for calculating the Rate of Interest) on the Interest Determination Date, as follows, and the resulting percentage will be rounded if necessary to the fifth decimal place, with 0.000005 being rounded upwards:

$$\left[\prod_{i=1}^{d_o} \left(1 + \frac{SONIA_{i-pLBD} \times n_i}{365} \right) - 1 \right] \times \frac{365}{d}$$

where:

"**d**" is the number of calendar days in the relevant Interest Accrual Period;

"**do**" is the number of London Banking Days in the relevant Interest Accrual Period;

"**p**", for any Interest Accrual Period, the number of London Banking Days included in the Observation Look-Back Period, as specified in the applicable Pricing Supplement, which shall, unless otherwise agreed with the Calculation Agent (or such other person specified in the applicable Pricing Supplement as the party responsible for calculating the Rate of Interest), be no less than five London Banking Days;

the "**SONIA reference rate**", in respect of any London Banking Day, is a reference rate equal to the daily Sterling Overnight Index Average ("**SONIA**") rate for such London Banking Day as provided by the administrator of SONIA to authorised distributors and as then published on the Relevant Screen Page or, if the Relevant Screen Page is unavailable, as otherwise published by such authorised distributors (on the London Banking Day immediately following such London Banking Day); and

"**SONIA_{i-pLBD}**" means, in respect of any London Banking Day falling in the relevant Observation Period, the SONIA reference rate for the London Banking Day falling "**p**" London Banking Days prior to the relevant London Banking Day "**i**".

In the event that the Rate of Interest cannot be determined in accordance with the foregoing provisions, the Rate of Interest shall be (i) that determined as at the last preceding Interest Determination Date (though substituting, where a different Margin or Maximum Rate of Interest or Minimum Rate of Interest is to be applied to the relevant Interest Accrual Period from that which applied to the last preceding Interest Accrual Period, the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to the relevant Interest Accrual Period, in place of the Margin or Maximum Rate of Interest or Minimum Rate of Interest relating to that last preceding Interest Accrual Period) or (ii) if there is no such preceding Interest Determination Date, the initial Rate of Interest

which would have been applicable to such Series of Notes for the first Interest Accrual Period had the Notes been in issue for a period equal in duration to the scheduled first Interest Accrual Period but ending on (and excluding) the Interest Commencement Date (but applying the Margin and any Maximum Rate of Interest or Minimum Rate of Interest applicable to the first Interest Period).

If the relevant Series of Notes become due and payable in accordance with Condition 9, the final Interest Determination Date shall, notwithstanding any Interest Determination Date specified in the applicable Pricing Supplement, be deemed to be the date on which such Notes became due and payable and the Rate of Interest on such Notes shall, for so long as any such Note remains outstanding, be that determined on such date.

If the relevant SONIA Compounded Index is not published or displayed by the administrator of the SONIA reference rate or other information service by 5.00 p.m. (London time) (or, if later, by the time falling one hour after the customary or scheduled time for publication thereof in accordance with the then-prevailing operational procedures of the administrator of the Reference Rate or of such other information service, as the case may be) on the relevant Interest Determination Date, the Rate of Interest shall be calculated for the Interest Period for which the SONIA Compounded Index is not available as if "SONIA (Non-Index Determination)" were specified as applicable in the Pricing Supplement and for these purposes the "Observation Look-Back Period" shall be deemed to be equal to the Relevant Number of Business Days, as if that alternative election had been made in the applicable Pricing Supplement. For the avoidance of doubt, if a Benchmark Disruption Event has occurred in respect of the relevant SONIA Compounded Index, the provisions of Condition 4(o) (*Benchmark Replacement*) shall apply.

Reference Banks at approximately the CMS Reference Time on the Interest Determination Date in respect of such Interest Period by the Reference Banks Agent (at the request of the Issuer) requesting the principal Relevant Financial Centre office of each of the CMS Reference Banks to provide Mid-Market Quotations. If at least five Mid-Market Quotations are provided, the Reference Banks Agent shall provide these to the Calculation Agent who will determine the arithmetic mean of Mid-Market Quotations so provided by discarding the highest of such Mid-Market Quotations (or in event of equality, one of the highest) and lowest of such Mid-Market Quotations (or in event of equality, one of the lowest). If four Mid-Market Quotations are provided, the Reference Banks Agent shall provide these to the Calculation Agent who will determine the arithmetic mean of such Mid-Market Quotations provided. All calculations of the arithmetic mean of the relevant number of Mid-Market Quotations provided pursuant to this paragraph will be rounded to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards; and

- (ii) If less than four Mid-Market Quotations are provided, the CMS Rate for that Interest Determination Date will be the same as the rate used for the prior Interest Reset Period.

save that, in determining a notional interest rate or swap rate for the purposes of paragraphs (A)-(D) above, references in Condition 4(b)(iii)(B), Condition 4(b)(iii)(C), Condition 4(b)(iii)(D), Condition 4(b)(iii)(E) Condition 4(b)(iii)(F), Condition 4(b)(iii)(G), Condition 4(b)(iii)(H), Condition 4(d), Condition 4(e) and Condition 4(f) to "Interest Determination Date" shall be deemed to be references to "each Calculation Day"

provided that:

- (a) subject to paragraph (b) below, if a Calculation Day is not a business day in the Relevant Financial Centre, the rate for such day shall be determined in respect of the immediately preceding business day in the Relevant Financial Centre; and
- (b) if a Calculation Day falls in the Cut-Off Period, the rate for that day shall be the rate on the business day in the Relevant Financial Centre that immediately precedes the Cut-Off Period.

"Relevant Fraction" means, in respect of each Interest Accrual Period, an amount calculated by the Calculation Agent in accordance with the following formula:

$$N1/N2$$

where:

"N1" means the number of Calculation Days in the Interest Accrual Period where (i) if Single Range Accrual Note is specified as applicable and Constant Maturity Swap Spread is specified as not applicable in the relevant Pricing Supplement, then the Reference Rate; or (ii) if Single Range Accrual Note is specified as applicable and Constant Maturity Swap Spread is specified as applicable then the Constant Maturity Swap Spread, or (iii) if Dual Range Accrual Note is specified as applicable in the relevant Pricing Supplement, then each Reference Rate or the Reference Rate and a Constant Maturity Swap Spread if applicable, in each case, as specified in the applicable Pricing Supplement is or are:

"N2" means the actual number of Calculation Days in the Interest Accrual Period.

"**Second CMS Spread Reference Rate**" means the CMS swap rate for the applicable CMS Currency as specified in the applicable Pricing Supplement and determined in accordance with the Conditions.

"**Specified Fixed Rate**" means the per annum rate specified in the applicable Pricing Supplement.

A Subordinated Note cannot be a Range Accrual Note.

(i) *Zero Coupon Notes*

Where a Note, the Interest Basis of which is specified in the Pricing Supplement to be Zero Coupon, is repayable prior to the Maturity Date and is not paid when due, the amount due and payable prior to the Maturity Date shall be the Early Redemption Amount of such Note, unless otherwise specified in the Pricing Supplement. As from the Maturity Date, the Rate of Interest for any overdue principal of such a Note shall be a rate per annum (expressed as a percentage) equal to the Amortisation Yield. A Subordinated Note cannot be a Zero Coupon Note.

(j) *Dual Currency Notes*

In the case of Dual Currency Notes, if the rate or amount of interest is to be determined by reference to a Rate of Exchange or a method of calculating Rate of Exchange, the rate or amount of interest payable shall be determined in the manner specified in the Pricing Supplement. A Subordinated Note cannot be a Dual Currency Note.

(k) *Accrual of Interest*

Interest shall cease to accrue on each Note on the due date for redemption unless, upon due presentation, payment is improperly withheld or refused, in which event interest shall continue to accrue (after, as well as before, judgment) at the Rate of Interest in the manner provided in this Condition 4 to the Relevant Date.

(l) *Margin, Maximum/Minimum Rates of Interest, Instalment Amounts and Redemption Amounts, Rate Multipliers and Rounding*

- (i) If any Margin or Rate Multiplier is specified in the Pricing Supplement (either (A) generally, or (B) in relation to one or more Interest Accrual Periods), an adjustment shall be made to all Rates of Interest, in the case of (A), or the Rates of Interest for the specified Interest Accrual Periods, in the case of (B), calculated in accordance with (b) or (c) above, by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying such Rate Multiplier, subject always to the next paragraph;
- (ii) If any Maximum Rate of Interest or Minimum Rate of Interest, Instalment Amount or Redemption Amount is specified in the Pricing Supplement, then any Rate of Interest, Instalment Amount or Redemption Amount shall be subject to such maximum or minimum, as the case may be;
- (iii) Subject to the requirements of applicable law, for the purposes of any calculations required pursuant to these Conditions (unless otherwise specified), (A) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (B) all figures shall be rounded to seven decimal places (with halves being rounded up) and (C) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of Yen, which shall be rounded down to the nearest Yen. For these purposes "**unit**" means, with respect to any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, with respect to euro, means 0.01 euro, as the case may be; and

(m) *Calculations*

Unless otherwise specified in the Pricing Supplement, the amount of interest payable in respect of any Note for any period shall be calculated by multiplying the product of the Rate of Interest and the outstanding Principal Amount of such Note by the Day Count Fraction, unless an Interest Amount (or a formula for its calculation) is specified in the Pricing Supplement in respect of such period, in which case the amount of interest payable in respect of such Note for such period shall equal such Interest Amount (or be calculated in accordance with such formula). Where any Interest Period comprises two or more Interest Accrual Periods, the amount of interest payable in respect of such Interest Period shall be the sum of the amounts of interest payable in respect of each of those Interest Accrual Periods.

(n) *Determination and Publication of Rate of Interest, Interest Amounts, Final Redemption Amounts and Instalment Amounts*

As soon as practicable after the Relevant Time on each Interest Determination Date or such other time on such date as the Calculation Agent may be required to calculate any rate or amount or Instalment Amount, obtain any quotation or make any determination or calculation, it shall determine such rate and calculate the Interest Amounts in respect of each Specified Denomination of the Notes for the relevant Interest Accrual Period, calculate the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or Instalment Amount, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amounts for each Interest Accrual Period and the relevant Interest Payment Date and, if required to be calculated, the Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount or any Instalment Amount to be notified to the Fiscal Agent, the Issuer, the Guarantor (if applicable), each of the Paying Agents, the Noteholders, the Registrar, any other Calculation Agent appointed in respect of the Notes that is to make a further calculation upon receipt of such information and, if the Notes are listed on a stock exchange (and/or admitted to listing, trading and/or quotation on any other listing authority, stock exchange and/or quotation system) and the rules of such listing authority, stock exchange and/or quotation system so require, such listing authority, stock exchange and/or quotation system as soon as possible after their determination but in no event later than (i) the commencement of the relevant Interest Accrual Period, if determined prior to such time in the case of notification to such exchange of a Rate of Interest and Interest Amount, or (ii) in all other cases, the fourth Business Day after such determination. Where any Interest Payment Date or Interest Accrual Period is subject to adjustment pursuant to Condition 4(a)(iv) or Condition 4(b)(ii), the Interest Amounts and the Interest Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Accrual Period. If the Calculation Amount is less than the minimum Specified Denomination, the Calculation Agent shall not be obligated to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Note having the minimum Specified Denomination. If the Notes become due and payable under Condition 9 (*Events of Default*), the accrued interest and the Rate of Interest payable in respect of the Notes shall nevertheless continue to be calculated as previously in accordance with this Condition but no publication of the Rate of Interest or the Interest Amount so calculated need be made. The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent(s) or such other person specified in the applicable Pricing Supplement as the party responsible for making any such calculation or determination shall (in the absence of manifest error) be final and binding upon all parties.

(o) *Benchmark Replacement*

This Condition 4(o) (*Benchmark Replacement*) applies where the relevant Reference Rate specified in the applicable Pricing Supplement is a rate other than SOFR (Non-Index Determination) or SOFR (Index Determination). Notwithstanding the provisions above in Conditions 4(b), (d), (e), (f) and (g), if the Issuer (in consultation with the Calculation Agent (or the person specified in the applicable Pricing Supplement as the party responsible for calculating the Rate of Interest)) determines that a Benchmark Disruption Event has occurred when any Rate of Interest (or the relevant component part thereof) remains to be determined by reference to such Reference Rate affected by the Benchmark Disruption Event, then the following provisions shall apply:

(i) **Independent Adviser**

The Issuer shall use its reasonable endeavours to appoint and consult with an Independent Adviser, as soon as reasonably practicable, with a view to the Independent Adviser determining a Successor Rate, failing which an Alternative Rate (in accordance with Condition 4(o)(ii)) and, in either case, an Adjustment Spread if any (in accordance with Condition 4(o)(iv)) and any Benchmark Amendments (in accordance with Condition 4(o)(v)).

(ii) **Successor Rate or Alternative Rate**

If the Independent Adviser, following consultation with the Issuer and acting in good faith and in a commercially reasonable manner, determines, no later than the IA Determination Cut-off Date that: (A) there is a Successor Rate, then it shall notify the Calculation Agent and the Calculation Agent shall use such Successor Rate (subject to adjustment as provided in Condition 4(o)(iv)) in place of the Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 4(o)); or (B) there is no Successor Rate but that there is an Alternative Rate, then it shall notify the Calculation Agent and the Calculation Agent shall use such Alternative Rate (subject to adjustment as provided in Condition 4(o)(iv)) in place of the Reference Rate to determine the Rate of Interest (or the relevant component part thereof) for all future payments of interest on the Notes (subject to the subsequent operation of this Condition 4(o)).

(iii) **Issuer Determination**

If the Issuer is unable to appoint an Independent Adviser, or if the Independent Adviser appointed by it fails to determine a Successor Rate or Alternative Rate prior to the IA Determination Cut-off Date, then, if it elects to do so, the Issuer (acting in good faith and in a commercially reasonable manner) may determine a Successor Rate or Alternative Rate for the purposes of Condition 4(o)(ii);

(iv) **Adjustment Spread**

If the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, determines (i) that an Adjustment Spread is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) and (ii) the quantum of, or a formula or methodology for determining, such Adjustment Spread, then the Independent Adviser (or the Issuer as the case may be) shall notify the Calculation Agent of such Adjustment Spread and the Calculation Agent shall apply it to the Successor Rate or the Alternative Rate (as the case may be).

(v) **Benchmark Amendments**

If any Successor Rate, Alternative Rate or Adjustment Spread is determined in accordance with this Condition 4(o) and the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, determines (i) that amendments to these Conditions and/or the Agency Agreement and/or any other agreement or document relating to the Notes are necessary to ensure the proper operation of such Successor Rate, Alternative Rate and/or Adjustment Spread (such amendments, the "Benchmark Amendments") and (ii) the terms of the Benchmark Amendments, then the Issuer shall, subject to giving notice thereof in accordance with Condition 4(o)(vi), without any requirement for the consent or approval of Noteholders, at the Issuer's expense, vary these Conditions and/or the Agency Agreement and/or any other agreement or document relating to the Notes as is necessary to give effect to such Benchmark Amendments with effect from the date specified in such notice. The Fiscal Agent and/or each other party to an applicable agreement shall not be obliged to concur if in their opinion doing so would impose more onerous obligations on them or expose them to any additional duties, responsibilities or liabilities or reduce or amend their rights and/or the protective provisions afforded to them in these Conditions or in any other document to which they are a party in any way. For the avoidance of doubt, no consent of the Noteholders of the relevant Series shall be required in connection with effecting the Benchmark Amendments or such other changes, including for the execution of any documents or the taking of other steps by the Issuer or any of the parties to the Agency Agreement (if required). In

connection with any such variation in accordance with this Condition 4(o)(v), the Issuer shall comply with the rules of any stock exchange on which the Notes are for the time being listed or admitted to trading.

(vi) **Notices, etc.**

Any Successor Rate, Alternative Rate, Adjustment Spread and the specific terms of any Benchmark Amendments, determined under this Condition 4(o) will be notified promptly, and in any event not later than the fifth Business Day prior to the Interest Determination Date by the Issuer to the Fiscal Agent, the Calculation Agent, and each other party to the Agency Agreement and the Noteholders. Such notice shall be irrevocable and shall specify the effective date of the Benchmark Amendments, if any, and will be binding on the Issuer, the Fiscal Agent, the Calculation Agent and each other party to the Agency Agreement and the Noteholders.

(vii) **Survival of Reference Rate**

Without prejudice to the provisions of this Condition 4(o), the Reference Rate and the fallback provisions provided for in Condition 4(b)(iii)(B) will continue to apply unless and until the Calculation Agent has been notified of the Successor Rate or the Alternative Rate (as the case may be), and any Adjustment Spread and Benchmark Amendments, in accordance with Condition 4(o)(v).

For the avoidance of doubt and notwithstanding any other provision of this Condition 4(o), in determining any Adjustment Spread or other relevant methodology for the purposes of Condition 4(o)(iii), the Issuer shall not and shall not be obliged to apply and may discount any Adjustment Spread or methodology the application of which may constitute it an administrator for the purposes of Regulation (EU) 2016/1011 or Regulation (EU) 2016/1011 as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended.

In the case of Subordinated Notes only, any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments determined in accordance with Condition 4(o)(ii), (iii), (iv) or (v) (*Benchmark Replacement*), will be subject to the prior written approval of APRA having been obtained in each case.

Subordinated Noteholders should note that APRA's approval may not be given for any Successor Rate, Alternative Rate, Adjustment Spread or Benchmark Amendments it considers to have the effect of increasing the Interest Rate contrary to applicable prudential standards.

For the purposes of this Condition 4(o) (*Benchmark Replacement*):

"**Adjustment Spread**" means either a spread (which may be positive or negative), or the formula or methodology for calculating a spread, in either case, which the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, determines is required to be applied to the Successor Rate or the Alternative Rate (as the case may be) to reduce or eliminate, to the extent reasonably practicable in the circumstances, any economic prejudice or benefit (as the case may be) to Noteholders as a result of the replacement of the Reference Rate with the Successor Rate or the Alternative Rate (as the case may be) and is the spread, formula or methodology which:

- (i) in the case of a Successor Rate, is formally recommended in relation to the replacement of the Reference Rate with the Successor Rate by any Relevant Nominating Body; or (if no such recommendation has been made, or in the case of an Alternative Rate);
- (ii) the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), acting in good faith and in a commercially reasonable manner, is recognised or acknowledged as being the industry standard for over-the-counter derivative transactions or is in customary market usage in the debt capital market for transactions which reference the Reference Rate, where such rate has been replaced by the Successor Rate or the Alternative Rate (as the case may be) (or if the Independent Adviser (or the Issuer as the case may be) determines that no such industry standard is recognised or acknowledged);

- (iii) the Independent Adviser following consultation with the Issuer (or the Issuer as the case may be), in its discretion, and acting in good faith and in a commercially reasonable manner, determines to be appropriate.

"**Alternative Rate**" means an alternative benchmark or screen rate which the Independent Adviser (or the Issuer as the case may be) determines in accordance with Condition 4(o)(ii) has replaced the Reference Rate in customary market usage in the international debt capital markets for the purposes of determining rates of interest (or the relevant component part thereof) for the same interest period and in the same Specified Currency as the Notes.

"**Benchmark Amendments**" has the meaning given to it in Condition 4(o)(v).

- (ii) the Issuer determines after consulting with the Independent Adviser (if so appointed) that, a change in the generally accepted market practice in the international debt capital markets to refer to a Reference Rate is endorsed in a public statement by a Relevant Nominating Body, despite the continued existence of the applicable Reference Rate.

"**Reference Rate**" means the originally-specified benchmark or screen rate (as applicable) used to determine the Rate of Interest (or any component part thereof) on the Notes or any Successor Rate or Alternative Rate which has been determined in relation to such benchmark or screen rate (as applicable) pursuant to the operation of this Condition.

(i) **Benchmark Replacement**

For the avoidance of doubt and notwithstanding any other provision of this Condition 4(p) (*Effect of Benchmark Transition Event*) in determining any Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment or for the purposes of making any other determination for the purposes of this Condition, the Issuer shall not and shall not be obliged to apply and may discount any factor or methodology the application of which may constitute it an administrator for the purposes of Regulation (EU) 2016/1011 in the European Union or as it forms part of UK domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended.

In the case of Subordinated Notes only, any Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment determined in accordance with this Condition 4(p) (*Effect of Benchmark Transition Event*), will be subject to the prior written approval of APRA having been obtained in each case.

Subordinated Noteholders should note that APRA's approval may not be given for any Benchmark Replacement, Benchmark Replacement Conforming Changes or Benchmark Replacement Adjustment it considers to have the effect of increasing the Interest Rate contrary to applicable prudential standards.

For the purposes of this Condition 4(p) (*Effect of Benchmark Transition Event*):

"**Benchmark**" means, initially, the relevant Reference Rate specified in the applicable Pricing Supplement where such Reference Rate is specified to be SOFR (Index Determination) or SOFR (Non-Index Determination); provided that if the Issuer or its designee determines on or prior to the Reference Time that a Benchmark Transition Event and its related Benchmark Replacement Date have occurred with respect to SOFR (Index Determination) or SOFR (Non-Index Determination) (or the published daily SOFR or SOFR Index used in the calculation thereof), as applicable, or the then-current Benchmark, then "Benchmark" means the applicable Benchmark Replacement.

law or regulation of the Commonwealth of Australia, or any official administrative pronouncement or action or judicial decision interpreting or applying such laws or regulations, which amendment, clarification or change is effective, or pronouncement, action or decision is announced, after the Issue Date; or

- (ii) a written statement from APRA after the Issue Date,

that, in each case, ANZBGL is not or will not be entitled to treat all Subordinated Notes of a Series as Tier 2 Capital, provided that, in each case, on the Issue Date of the Subordinated Notes, ANZBGL did not expect that matters giving rise to the Regulatory Event would occur.

(d) *Early Redemption of Zero Coupon Notes*

- (i) The Early Redemption Amount payable in respect of any Zero Coupon Note that does not bear interest prior to the Maturity Date, the Early Redemption Amount of which is not linked to an index and/or a formula, upon redemption of such Note pursuant to Condition 5(b) or (c) or upon it becoming due and payable as provided in Condition 9 (*Events of Default*), shall be the Amortised Face Amount (calculated as provided below) of such Note unless otherwise specified in the Pricing Supplement.
- (ii) Subject to the provisions of sub-paragraph (iii) below, the "**Amortised Face Amount**" of any such Note shall be the scheduled Final Redemption Amount of such Note on the Maturity Date discounted to the date of its early redemption at a rate per annum (expressed as a percentage) equal to (A) where Compound Interest is specified in the Pricing Supplement, the "**Amortisation Yield**" (which, if none is set out in the Pricing Supplement, shall be such rate as would produce an Amortised Face Amount equal to the Issue Price of the Notes if such Notes were discounted back from the Maturity Date to the Issue Date) compounded annually, or (B) where Linear Interest is specified in the Pricing Supplement, an amount per Calculation Amount calculated in accordance with the following formula:

$$\text{Amortised Face Amount} = \text{Calculation Amount} + (\text{Accreting Payment Amount} \times A) + B$$

Where:

"**A**" means the aggregate number of Accreting Payment Periods that precede the Final Accreting Payment Period;

"**Accreting Payment Amount**" means the amount per Calculation Amount specified in the Pricing Supplement;

"**Accreting Payment Period**" means a period specified in the Pricing Supplement;

"**B**" means, in respect of the Final Accreting Payment Period, the Accreting Payment Amount multiplied by the Day Count Fraction;

"**Early Redemption Date**" means in respect of this Condition 5(d) the date on which the Notes are redeemed prior to the Maturity Date; and

"**Final Accreting Payment Period**" means a period specified in the Pricing Supplement.

Where such calculation referred to in sub-paragraph (A) of this sub-paragraph (ii) is to be made for a period of less than one year, it shall be made on the basis of the Day Count Fraction set out in the Pricing Supplement.

- (iii) If the Early Redemption Amount payable in respect of any such Note upon its redemption pursuant to Condition 5(b) or (c) or upon it becoming due and payable as provided in Condition 9 (*Events of Default*) is not paid when due, the Early Redemption Amount due and payable in respect of such Note shall be the Amortised Face Amount of such Note as defined in sub-paragraph (ii) above, except that such sub-paragraph shall have effect as though the reference therein, in the case of sub-paragraph (A), to the date on which the Note becomes due and payable or, in the case of sub-paragraph (B), the Early Redemption Date, were replaced by a reference to

the Relevant Date. The calculation of the Amortised Face Amount in accordance with this subparagraph shall continue to be made (after, as well as before, judgment) until the Relevant Date, unless the Relevant Date falls on or after the Maturity Date, in which case the amount due and payable shall be the scheduled Final Redemption Amount of such Note on the Maturity Date together with any interest that may accrue in accordance with Condition 4(k).

(e) *Redemption at the Option of the Issuer and Exercise of Issuer's Options*

If a Call Option is included in the Pricing Supplement and subject to Condition 5(i) in the case of any Subordinated Note, the Issuer may, on giving not less than five or more than 30 days' irrevocable notice (subject to such other notice period as may be specified in the Pricing Supplement under "Option Exercise Date(s)") to the Noteholders redeem, or exercise any Issuer's option (as may be described in the Pricing Supplement) in relation to, all or, if so provided, some of the Notes on any Optional Redemption Date (which, in the case of a Subordinated Note, may not be before the fifth anniversary of the Issue Date of that Subordinated Note). Any such redemption of Notes shall be at their Optional Redemption Amount together with interest accrued to the date fixed for redemption. Any such redemption or exercise of the Issuer's option shall only relate to Notes of a Principal Amount at least equal to the Minimum Redemption Amount to be redeemed specified in the Pricing Supplement and no greater than the Maximum Redemption Amount to be redeemed specified in the Pricing Supplement.

All Notes in respect of which any such notice is given shall be redeemed, or the Issuer's option shall be exercised, on the date specified in such notice in accordance with this Condition.

In the case of a partial redemption or a partial exercise of an Issuer's option, the notice to Noteholders shall also contain the certificate numbers of the Notes to be redeemed or in respect of which such option has been exercised, which shall have been drawn in such place as may be fair and reasonable in the circumstances, having regard to prevailing market practices and in such manner as it deems appropriate, subject to compliance with any applicable laws and stock exchange requirements. So long as the Notes are admitted to listing, trading and/or quotation on any listing authority, stock exchange and/or quotation system and the rules of the relevant listing authority, stock exchange and/or quotation system so require, the Issuer shall, once in each year in which there has been a partial redemption of the Notes, cause to be published in a leading newspaper of general circulation in London (which is expected to be the *Financial Times*), or as specified by such other listing authority, stock exchange and/or quotation system, a notice specifying the aggregate principal amount of Notes outstanding and a list of the Notes drawn for redemption but not surrendered.

(f) *Redemption at the Option of Noteholders and Exercise of Noteholders' Options*

If a Put Option is specified in the Pricing Supplement, the Issuer shall, at the option of the holder of such Note, upon the holder of such Note giving not less than 15 nor more than 30 days' notice to the Issuer (subject to such other notice period as may be specified in the Pricing Supplement, under "Option Exercise Date(s)"), redeem such Note on the Optional Redemption Date(s) so provided at its Optional Redemption Amount together with interest accrued to the date fixed for redemption.

To exercise such option or any other Noteholder's option that may be set out in the Pricing Supplement the holder must deposit (in the case of Bearer Notes) such Note (together with all unmatured Receipts and Coupons and unexchanged Talons) with any Paying Agent or (in the case of Registered Notes) the Certificate representing such Note(s) with the Registrar or any Transfer Agent at its specified office, together with a duly completed option exercise notice ("**Exercise Notice**") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable) within the notice period. No Note or Certificate so deposited and option exercised may be withdrawn (except as provided in the Agency Agreement) without the prior consent of the Issuer, except that such Note or Certificate will be returned to the relevant Noteholder by the Paying Agent, the Registrar or Transfer Agent with which it has been deposited if, prior to the due date for its redemption or the exercise of the option, the Note becomes immediately due and payable or if upon due presentation payment of the redemption moneys is not made or exercise of the option is denied.

A Put Option may not be specified in the Pricing Supplement in respect of Subordinated Notes.

(g) *Purchases*

Where ANZBGL is the Issuer of this Note, ANZBGL is taken to represent as at the date of issue of this Note, that it does not know, or have any reasonable grounds to suspect, that this Note or any interest in this Note is being or will later be, acquired either directly or indirectly by an Offshore Associate of ANZBGL (acting other than in the capacity of a dealer, manager or underwriter in relation to the placement of this Note or a clearing house, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act 2001 of Australia ("**Corporations Act**")).

"**Offshore Associate**" means an associate (as defined in section 128F of the Australian Tax Act) of ANZBGL that is either a non-resident of Australia which does not acquire the Notes in carrying on a business at or through a permanent establishment in Australia or, alternatively, a resident of Australia that acquires the Notes in carrying on business at or through a permanent establishment outside of Australia.

Except in the case of Subordinated Notes, the Issuer, the Guarantor and any of their respective subsidiaries may, to the extent permitted by applicable laws and regulations, at any time purchase Notes (provided that all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise. Notes so purchased by the Issuer, the Guarantor or any of their respective subsidiaries may be surrendered by the purchaser through the Issuer to the Fiscal Agent or any Paying Agent for cancellation or may at the option of the Issuer, the Guarantor or the relevant subsidiary be held or resold.

In the case of Subordinated Notes, subject to Condition 5(i), ANZBGL and any of its Related Entities may, to the extent permitted by applicable laws and regulations, at any time purchase Subordinated Notes (provided that all unmatured Receipts and Coupons and unexchanged Talons relating thereto are attached thereto or surrendered therewith) in the open market or otherwise. Subordinated Notes so purchased by ANZBGL or any of its Related Entities may be surrendered by the purchaser through ANZBGL to the Fiscal Agent or any Paying Agent for cancellation or may at the option of ANZBGL or the relevant Related Entity be held or resold.

(h) *Cancellation*

All Notes redeemed by the Issuer or surrendered by the purchaser through the Issuer for cancellation pursuant to Condition 5(f) shall be surrendered for cancellation, in the case of Bearer Notes, by surrendering each such Note together with all unmatured Receipts and Coupons and all unexchanged Talons to, or to the order of, the Fiscal Agent and, in the case of Registered Notes, by surrendering the Certificate representing such Notes to the Registrar and, in each case, if so surrendered, shall, together with all Notes redeemed by the Issuer, be cancelled forthwith (together with all unmatured Receipts and Coupons and unexchanged Talons attached thereto or surrendered therewith). Any Notes so surrendered for cancellation may not be reissued or resold and the obligations of the Issuer in respect of any such Notes shall be discharged.

(i) *Approval of APRA*

Notwithstanding anything to the contrary in this Condition 5, ANZBGL may not (i) redeem any Subordinated Notes under paragraph (b), (c) or (e) above or (ii) prior to the Maturity Date purchase, or procure that any of its Related Entities purchase, any Subordinated Notes under paragraph (g) above, without the prior written approval of APRA and ANZBGL will not be permitted to redeem any Subordinated Notes unless:

- (a) the Subordinated Notes are replaced concurrently or beforehand with Regulatory Capital of the same or better quality and the replacement of the Subordinated Notes is done under conditions that are sustainable for ANZBGL's income capacity; or
- (b) APRA is satisfied that ANZBGL's capital position at Level 1, Level 2 and, if applicable, Level 3 (each as defined in Condition 5E.1 below) is well above its minimum capital requirements after ANZBGL elects to redeem the Subordinated Notes.

Subordinated Noteholders should not expect that APRA's approval will be given for any redemption or purchase of Subordinated Notes.

5A. Conversion or Write-Off of Subordinated Notes on Non-Viability Trigger Event

5A.1. Application to Subordinated Notes only

Conditions 5A, 5B and 5C apply only to Subordinated Notes. Schedule 1 to these Conditions (including the defined terms contained in Schedule 1) shall be deemed to form part of, and be incorporated in, Condition 5B.

5A.2 Non-Viability Trigger Event

A "Non-Viability Trigger Event" means the earlier of:

- (i) the issuance to ANZBGL of a written determination from APRA that conversion or write-off of Relevant Securities is necessary because, without it, APRA considers that ANZBGL would become non-viable; or
- (ii) a determination by APRA, notified to ANZBGL in writing, that without a public sector injection of capital, or equivalent support, ANZBGL would become non-viable,

each such determination being a "Non-Viability Determination".

5A.3 Conversion or Write-Off of Subordinated Notes on Trigger Event Date

If a Non-Viability Trigger Event occurs:

- (i) on the Trigger Event Date, subject only to Condition 5B.5, such Principal Amount of the Subordinated Notes will immediately Convert or be Written-Off (whichever is applicable as specified in the Pricing Supplement) as is required by the Non-Viability Determination provided that:
 - (a) where the Non-Viability Trigger Event occurs under Condition 5A.2(i) and such Non-Viability Determination does not require all Relevant Securities to be converted into Ordinary Shares or written-off, such Principal Amount of the Subordinated Notes shall Convert or be Written-Off (whichever is applicable as specified in the Pricing Supplement) as is sufficient (determined by ANZBGL in accordance with Condition 5A.3(ii)) to satisfy APRA that ANZBGL is viable without further conversion or write-off; and
 - (b) where the Non-Viability Trigger Event occurs under Condition 5A.2(ii), all the Principal Amount of the Subordinated Notes will immediately Convert or be Written-Off (whichever is applicable as specified in the Pricing Supplement);
- (ii) ANZBGL will determine the Principal Amount of Subordinated Notes which must be Converted or Written-Off (as applicable) in accordance with Condition 5A.3(i)(a), on the following basis:
 - (a) first, convert into Ordinary Shares or write-off all Relevant Tier 1 Securities; and
 - (b) secondly, if conversion into Ordinary Shares or write-off of all Relevant Tier 1 Securities is not sufficient to satisfy the requirements of Condition 5A.3(i)(a) (and provided that as a result of the conversion or write-off of Relevant Tier 1 Securities APRA has not withdrawn the Non-Viability Determination), Convert or Write-Off (as applicable) a Principal Amount of Subordinated Notes and convert into Ordinary Shares or write-off a number or principal amount of other Relevant Tier 2 Securities on an approximately pro-rata basis or in a manner that is otherwise, in the opinion of ANZBGL, fair and reasonable (subject to such adjustment as ANZBGL may determine to take into account the effect on marketable parcels and the need to round to whole numbers the number of Ordinary Shares and the authorised denominations of the Principal Amount of any Subordinated Note or the number or principal amount of other Relevant Tier 2 Securities remaining on issue, and the need to effect the conversion immediately) and, for the

purposes of this Condition 5A.3(ii)(b), where the specified currency of the principal amount of Relevant Tier 2 Securities is not the same for all Relevant Tier 2 Securities, ANZBGL may treat them as if converted into a single currency of ANZBGL's choice at such rate of exchange as ANZBGL in good faith considers reasonable,

provided that such determination does not impede or delay the immediate Conversion or Write-Off (as applicable) of the relevant Principal Amount of Subordinated Notes;

- (iii) on the Trigger Event Date, ANZBGL shall determine the Subordinated Notes or portions thereof as to which the Conversion or Write-Off (as applicable) is to take effect and in making that determination may make any decisions with respect to the identity of the Subordinated Noteholders at that time as may be necessary or desirable to ensure Conversion or Write-Off (as applicable) occurs in an orderly manner, including disregarding any transfers of Subordinated Notes that have not been settled or registered at that time provided that such determination does not impede or delay the immediate Conversion or Write-Off (as applicable) of the relevant Principal Amount of Subordinated Notes;
- (iv) ANZBGL must give notice of its determination pursuant to Condition 5A.3(iii) (a "**Trigger Event Notice**") as soon as practicable to the Subordinated Noteholders, which must specify:
 - (a) the Trigger Event Date;
 - (b) the Principal Amount of the Subordinated Notes Converted or Written-Off (as applicable); and
 - (c) the relevant number or principal amount of other Relevant Securities converted or written-off;
- (v) none of the following events shall prevent, impede or delay the Conversion or Write-Off (as applicable) of Subordinated Notes as required by Condition 5A.3(i):
 - (a) any failure or delay in the conversion or write-off of other Relevant Securities;
 - (b) any failure or delay in giving a Trigger Event Notice;
 - (c) any failure or delay by a Subordinated Noteholder or any other party in complying with the provisions of Condition 5A.4;
 - (d) any requirement to select or adjust the number or Principal Amount of Subordinated Notes to be Converted or Written-Off (as applicable) in accordance with Condition 5A.3(ii)(b) or 5A.3(iii); and
 - (e) in the case of Conversion only, any failure or delay in quotation of Ordinary Shares to be issued on Conversion.

If a Non-Viability Determination takes effect, ANZBGL must perform the obligations in respect of the determination immediately on the day it is received by ANZBGL, whether or not such day is a Business Day.

Each Subordinated Noteholder irrevocably authorises ANZBGL to sign any document or transfer or do any other thing as may in ANZBGL's opinion be necessary or desirable to effect any transfer of the Subordinated Notes the subject of the Conversion.

5A.4 Conversion or Write-Off of a whole or of a portion of a Subordinated Note

If a Principal Amount of a Subordinated Note is required to be Converted or Written-Off, the following provisions apply:

- (i) ANZBGL shall notify the Fiscal Agent (in the case of a Bearer Note) or the Registrar (in the case of a Registered Note) of the Principal Amount of such Subordinated Note that has been Converted or Written-Off (whether in whole or in part) and instruct the Fiscal Agent (in the case of a Bearer Note) or the Registrar (in the case of a Registered Note) to reflect this Conversion

or Write-Off (as applicable) in any relevant form of note or certificate and the Register (as applicable) so that the Principal Amount of such Subordinated Note is reduced, in the case of a Subordinated Note Converted or Written-Off in whole, to zero, or, in the case of a Subordinated Note which is Converted or Written-Off in part, to an amount equal to the non-Converted or non-Written-Off (as applicable) portion of the Principal Amount of such Subordinated Note;

- (ii) in the case of a Subordinated Note which is Converted or Written-Off only in part:
 - (a) where the date of the Conversion or Write-off is not an Interest Payment Date, the amount of interest payable in respect of that Subordinated Note on each Interest Payment Date falling after that date will be reduced and calculated on the Principal Amount of that Subordinated Note as reduced on that date;
 - (b) for the purposes of any interest calculation, the Interest Amount, the Fixed Coupon Amount, Broken Amount, the Calculation Amount and any related amount in respect of that Subordinated Note shall be reduced in the same proportion as the Principal Amount Converted or Written-Off in respect of that Subordinated Note bears to the Principal Amount of that Subordinated Note before such Conversion or Write-Off;
 - (c) the Early Redemption Amount, the Final Redemption Amount, the Optional Redemption Amount, the Specified Denomination and Principal Amount or any related amount shall be reduced in the same proportion as the Principal Amount Converted or Written-Off in respect of that Subordinated Note bears to the Principal Amount of that Subordinated Note before such Conversion or Write-Off; and
- (iii) if a definitive note or certificate has been issued to the relevant Subordinated Noteholder in respect of such Subordinated Note, then, if ANZBGL so requires, such Subordinated Noteholder shall surrender such definitive note or certificate to ANZBGL (or, if ANZBGL so directs, to the Registrar) and, in the case of a Subordinated Note which is Converted or Written-Off only in part, ANZBGL shall deliver to the Subordinated Noteholder, a new definitive note or certificate for a Subordinated Note with a Principal Amount equal to the non-Converted or non-Written-Off (as applicable) portion of the Principal Amount of such Subordinated Note.

5B. Conversion of Subordinated Notes

5B.1 Conversion of Subordinated Notes on Trigger Event Date

Unless "Write-Off Applicable" is specified in the relevant Pricing Supplement, Condition 5B shall apply to the Subordinated Notes and, notwithstanding any other provision in these Conditions, on the Trigger Event Date the relevant Principal Amount (as determined under Condition 5A.3) of the Subordinated Notes will Convert immediately and irrevocably.

On and from the Trigger Event Date, subject to Conditions 5B.5 and 5B.6(iii)(c) ANZBGL and ANZGHL shall treat any Subordinated Noteholder of any Subordinated Note or portion thereof which is required to be Converted as the holder of the relevant number of Ordinary Shares and will take all such steps, including updating any register, required to record the Conversion and the issuance of such Ordinary Shares.

5B.2 Provision of information

Where a Principal Amount of Subordinated Notes is required to be Converted under Condition 5B, a Subordinated Noteholder of such Subordinated Notes or portion thereof that are subject to Conversion wishing to receive Ordinary Shares must, no later than the Trigger Event Date (or, in the case where Condition 5B.4(vii) applies, within 30 days of the date on which Ordinary Shares are issued upon such Conversion), have provided to ANZBGL:

- (i) its name and address (or the name and address of any person in whose name it directs the Ordinary Shares to be issued) for entry into any register of title and receipt of any certificate or holding statement in respect of any Ordinary Shares;

- (ii) the security account details of such Subordinated Noteholder in CHESS (being the Clearing House Electronic Subregister System of Australia operated by the ASX or its affiliates or successors) or such other account to which the Ordinary Shares may be credited; and
 - (iii) such other information as is reasonably requested by ANZBGL for the purposes of enabling ANZGHL to issue the Conversion Number of Ordinary Shares to such Subordinated Noteholder,
- and ANZBGL has no duty to seek or obtain such information.

5B.3 Failure to Convert

Subject to Condition 5B.4 and Condition 5B.5, if, in respect of a Conversion of Subordinated Notes, ANZGHL fails to issue, on the Trigger Event Date, the Conversion Number of Ordinary Shares in respect of the relevant Principal Amount of such Subordinated Notes to, or in accordance with the instructions of, the relevant Subordinated Noteholder on the Trigger Event Date or any other nominee where Condition 5B.4 applies, the Principal Amount of such Subordinated Notes which would otherwise be subject to Conversion shall remain on issue and outstanding until:

- (i) the Ordinary Shares are issued to, or in accordance with the instructions of, the Subordinated Noteholder of such Subordinated Notes; or
- (ii) such Subordinated Notes are Written-Off in accordance with these Conditions;

provided, however, that the sole right of the Subordinated Noteholder in respect of Subordinated Notes or portion thereof that are subject to Conversion is its right to be issued Ordinary Shares upon Conversion (subject to its compliance with Condition 5B.2 or to receive the proceeds from their sale pursuant to Condition 5B.4, as applicable) and the remedy of such Subordinated Noteholder in respect of ANZGHL's failure to issue the Ordinary Shares is limited (subject always to Condition 5B.5) to seeking an order for specific performance of ANZGHL's obligation to issue the Ordinary Shares to the Subordinated Noteholder or where Condition 5B.4 applies to the nominee and to receive such proceeds of sale, in each case, in accordance with the terms of the Subordinated Notes. This Condition 5B.3 does not affect the obligation of ANZGHL to issue the Ordinary Shares when required in accordance with these Conditions.

5B.4 Issue to nominee

If, in respect of a Subordinated Note and a Subordinated Noteholder of that Subordinated Note, the Subordinated Note or portion thereof is required to be Converted and:

- (i) the Subordinated Noteholder has notified ANZBGL that it does not wish to receive Ordinary Shares as a result of the Conversion (whether entirely or to the extent specified in the notice), which notice may be given at any time prior to the Trigger Event Date;
- (ii) the Subordinated Notes are held by a Subordinated Noteholder whose address in the register is a place outside Australia or who ANZBGL otherwise believes may not be a resident of Australia (a "**Foreign Holder**");
- (iii) the holder of that Subordinated Note is a Clearing System Holder;
- (iv) for any reason (whether or not due to the fault of the Subordinated Noteholder) ANZBGL has not received the information required by Condition 5B.2 prior to the Trigger Event Date and the lack of such information would prevent ANZGHL from issuing the Ordinary Shares to the Subordinated Noteholder on the Trigger Event Date; or
- (v) a FATCA Withholding is required to be made in respect of the Ordinary Shares issued on the Conversion,

then, on the Trigger Event Date:

- (vi) where Condition 5B.4(i), 5B.4(ii) or 5B.4(v) applies, ANZGHL shall issue the Ordinary Shares to the Subordinated Noteholder only to the extent (if at all) that:

- (a) where Condition 5B.4(i) applies, the Subordinated Noteholder has notified ANZBGL that it wishes to receive them;
 - (b) where Condition 5B.4(ii) applies, ANZBGL is satisfied that the laws of both the Commonwealth of Australia and the Foreign Holder's country of residence permit the issue of Ordinary Shares to the Foreign Holder (but as to which ANZBGL is not bound to enquire), either unconditionally or after compliance with conditions which ANZBGL in its absolute discretion regards as acceptable and not unduly onerous; and
 - (c) where Condition 5B.4(v) applies, the issue is net of the FATCA Withholding;
- and, to the extent ANZGHL is not obliged to issue Ordinary Shares to the Subordinated Noteholder, ANZGHL will issue the balance of the Ordinary Shares to the nominee in accordance with Condition 5B.4(vii); and
- (vii) otherwise, subject to applicable law, ANZGHL will issue the balance of Ordinary Shares in respect of the Subordinated Noteholder to a competent nominee (which may not be ANZBGL or any of its Related Entities) and will promptly notify such Subordinated Noteholder of the name of and contact information for the nominee and the number of Ordinary Shares issued to the nominee on its behalf and, subject to applicable law and:
 - (a) subject to Condition 5B.4(vii)(b), the nominee will as soon as reasonably possible and no later than 35 days after issue of the Ordinary Shares sell those Ordinary Shares and pay a cash amount equal to the net proceeds received, after deducting any applicable brokerage, stamp duty and other taxes and charges, to the Subordinated Noteholder;
 - (b) where Condition 5B.4(iii) or 5B.4(iv) applies, the nominee will hold such Ordinary Shares and will transfer Ordinary Shares to such Subordinated Noteholder (or, where paragraph (iii) applies, the person for whom the Clearing System Holder holds the Subordinated Note) promptly after such Subordinated Noteholder provides the nominee with the information required to be provided by such Subordinated Noteholder under Condition 5B.2 (as if a reference in Condition 5B.2 to ANZBGL is a reference to the nominee and a reference to the issue of Ordinary Shares is a reference to the transfer of Ordinary Shares) but only where such information is provided to the nominee within 30 days of the date on which Ordinary Shares are issued to the nominee upon Conversion of such Subordinated Note and failing which the nominee will sell the Ordinary Shares and pay the proceeds to such Subordinated Noteholder in accordance with Condition 5B.4(vii)(a); and
 - (c) where Condition 5B.4(v) applies, the nominee shall deal with Ordinary Shares the subject of a FATCA Withholding and any proceeds of their disposal in accordance with FATCA;
 - (viii) nothing in this Condition 5B.4 shall affect the Conversion of the Subordinated Notes of a Subordinated Noteholder who is not a person to which any of Condition 5B.4(i) to 5B.4(v) (inclusive) applies; and
 - (ix) for the purposes of this Condition 5B.4, none of ANZBGL, ANZGHL or the nominee owes any obligations or duties to the Subordinated Noteholders in relation to the price at which Ordinary Shares are sold or has any liability for any loss suffered by a Subordinated Noteholder as a result of the sale of Ordinary Shares.

5B.5 Write-Off of Subordinated Notes if Conversion is not effected within 5 Business Days after a Trigger Event Date

Notwithstanding any other provision of Condition 5B and provided that "Write-Off – Applicable" is not specified in the relevant Pricing Supplement, where Subordinated Notes are required to be Converted on the Trigger Event Date and Conversion of the relevant Principal Amount of the Subordinated Notes that are subject to Conversion has not been effected within five Business Days after the relevant Trigger Event Date for any reason (including an Inability Event):

- (i) the relevant Principal Amount of each Subordinated Note which, but for this Condition 5B.5, would be Converted, will not be Converted and instead will be Written-Off with effect on and from the Trigger Event Date; and
- (ii) ANZBGL shall notify the Subordinated Noteholders as promptly as practically possible that Conversion of the relevant Principal Amount of the Subordinated Notes has not occurred and that such Principal Amount of the Subordinated Notes has been Written-Off.

5B.6 Subordinated Noteholder acknowledgements

Each Subordinated Noteholder irrevocably:

- (i) consents to becoming a member of ANZGHL upon the Conversion of the relevant Principal Amount of Subordinated Notes as required by this Condition 5B and agrees to be bound by the constitution of ANZGHL, in each case in respect of the Ordinary Shares issued to such Subordinated Noteholder on Conversion;
- (ii) acknowledges and agrees that it is obliged to accept Ordinary Shares upon a Conversion of the Principal Amount of Subordinated Notes it holds notwithstanding anything that might otherwise affect a Conversion of such Principal Amount of Subordinated Notes including:
 - (a) any change in the financial position of the Issuer or ANZGHL since the issue of such Subordinated Notes;
 - (b) any disruption to the market or potential market for the Ordinary Shares or to capital markets generally; or
 - (c) any breach by ANZBGL or ANZGHL of any obligation in connection with such Subordinated Notes;
- (iii) acknowledges and agrees that where Condition 5A.3 applies:
 - (a) there are no other conditions to a Non-Viability Trigger Event occurring as and when provided in Condition 5A.2;
 - (b) Conversion must occur immediately on the occurrence of a Non-Viability Trigger Event and that may result in disruption or failures in trading or dealings in the Subordinated Notes;
 - (c) it will not have any rights to vote in respect of any Conversion and that the Subordinated Note does not confer a right to vote at any meeting of members of ANZBGL or ANZGHL; and
 - (d) the Ordinary Shares issued on Conversion may not be quoted at the time of issue, or at all;
- (iv) acknowledges and agrees that where Condition 5B.5 applies, no conditions or events will affect the operation of that Condition and such Subordinated Noteholder will not have any rights to vote in respect of any Write-Off under that Condition and has no claim against ANZBGL or ANZGHL, arising in connection with the application of that Condition;
- (v) acknowledges and agrees that such Subordinated Noteholder has no right to request a Conversion of any Principal Amount of any Subordinated Notes or to determine whether (or in what circumstances) the Principal Amount of Subordinated Notes it holds is Converted;
- (vi) acknowledges and agrees that none of the following shall prevent, impede or delay the Conversion or (where relevant) Write-Off of the Principal Amount of Subordinated Notes:
 - (a) any failure to or delay in the conversion or write-off of other Relevant Securities;
 - (b) any failure or delay in giving a Trigger Event Notice or other notice required by this Condition 5B;

- (c) any failure or delay in quotation of the Ordinary Shares to be issued on Conversion;
 - (d) any failure or delay by a Subordinated Noteholder or any other party in complying with the provisions of Condition 5A.4;
 - (e) any requirement to select or adjust the number or Principal Amount of Subordinated Notes to be Converted in accordance with Condition 5A.3(ii)(b) or 5A.3(iii); and
- (vii) acknowledges and agrees that if, in respect of a Conversion, ANZGHL has issued the Conversion Number of Ordinary Shares to the Subordinated Noteholder but the Subordinated Note or portion thereof has not been transferred free from encumbrance to or as directed by ANZGHL, the Subordinated Note or such portion shall be Written-Off in accordance with Condition 5B.7 without prejudice to the issue of the Ordinary Shares.

5B.7 Meaning of "Written-Off"

For the purposes of Condition 5B, "*Written-Off*" shall mean that, in respect of a Subordinated Note or portion thereof that is otherwise subject to Conversion and a Trigger Event Date:

- (i) the Subordinated Note or portion thereof that is otherwise subject to Conversion will not be Converted on that date and will not be Converted or redeemed under these Conditions on any subsequent date; and
- (ii) with effect on and from the Trigger Event Date, the rights of the relevant Subordinated Noteholder of the Subordinated Note or portion thereof (including any right to receive any payment thereunder including payments of principal and interest both in the future and accrued but unpaid as at the Trigger Event Date) in relation to such Subordinated Note or portion thereof are immediately and irrevocably terminated and written-off; and

"**Write-Off**" has a corresponding meaning.

5C Write-Off of Subordinated Notes

5C.1 Write-Off of Subordinated Notes on Trigger Event Date

If "Write-Off – Applicable" is specified in the relevant Pricing Supplement, Condition 5C shall apply to the Subordinated Notes and on the Trigger Event Date the rights of the Subordinated Noteholder of the relevant Subordinated Notes in relation to the relevant Principal Amount (as determined under Condition 5A.3) of the Subordinated Notes are Written-Off (as that term is defined for the purposes of Condition 5C).

Each Subordinated Noteholder irrevocably acknowledges and agrees that no conditions or events will affect the operation of this Condition 5C and such Subordinated Noteholder will not have any rights to vote in respect of any Write-Off under this Condition 5C.1.

5C.2 Meaning of "Written-Off"

(i) *Euro and Redenomination*

References to euro are to the currency introduced at the start of the third stage of European economic and monetary union pursuant to Article 123 of the Treaty.

Unless otherwise specified in the Pricing Supplement, Notes denominated in the currency (the "**Relevant Currency**") of a Member State that does not participate in the third stage of European economic and monetary union prior to the Issue Date of the relevant Notes may, at the election of the Issuer, be subject to redenomination in the manner set out below. In relation to such Notes the Issuer may, without the consent of the Noteholders or Couponholders, on giving at least 30 days' prior notice to Noteholders, the Fiscal Agent and each of the Paying Agents and Transfer Agents, designate a "**Redenomination Date**" for the Notes, being a date for payment of interest under the Notes falling on or after the date on which the relevant Member State commences participation in such third stage.

With effect from the Redenomination Date, notwithstanding the other provisions of the Conditions:

- (i) the Notes shall (unless already so provided by mandatory provisions of applicable law) be deemed to be redenominated in euro in the denomination of euro 0.01 with a principal amount for each Note equal to the principal amount of that Note in the Relevant Currency, converted into euro at the rate for conversion of the Relevant Currency into euro established by the Council of the European Union pursuant to the Treaty (including compliance with rules relating to rounding in accordance with European Community regulations) provided that, if the Issuer determines that the then market practice in respect of the redenomination into euro 0.01 of internationally offered securities is different from the provisions specified above, such provisions shall be deemed to be amended so as to comply with such market practice and the Issuer shall promptly notify the Noteholders, any listing authority, stock exchange and/or quotation system on which the Notes may be listed, the Fiscal Agent and each of the Paying Agents and Transfer Agents of such deemed amendment;
- (ii) if Notes in definitive form are required to be issued, they shall be issued at the expense of the Issuer in the denominations of euro 0.01, euro 1,000, euro 10,000, euro 100,000 and such other denominations as the Fiscal Agent shall determine and notify to Noteholders;
- (iii) if Notes in definitive form have been issued, all unmatured Receipts and Coupons denominated in the Relevant Currency (whether or not attached to the Notes) will become void with effect from the date on which the Issuer gives the notice (the "**Exchange Notice**") that replacement euro-denominated Notes, Receipts and Coupons are available for exchange (provided that such securities are so available) and no payments will be made in respect of them. The payment obligations contained in any Notes so issued will also become void on that date although those Notes will continue to constitute valid exchange obligations of the Issuer. New certificates in respect of euro-denominated Notes, Receipts and Coupons will be issued in exchange for Notes, Receipts and Coupons denominated in the Relevant Currency in such manner as the Fiscal Agent may specify and as shall be specified to Noteholders in the Exchange Notice;
- (iv) all payments in respect of the Notes (other than, unless the Redenomination Date is on or after such date as the Relevant Currency ceases to be a subdivision of the euro, payments of interest in respect of periods commencing before the Redenomination Date) will be made solely in euro. Such payments will be made in euro by credit or transfer to a euro account (or any other account to which euro may be credited or transferred) specified by the payee or by cheque; and
- (v) the amount of interest in respect of Notes will be calculated by reference to the aggregate principal amount of Notes presented (or, as the case may be, in respect of which Receipts or Coupons are presented) for payment by the relevant holder and the amount of such payment shall be rounded down to the nearest euro 0.01.

In connection with such redenomination, the Issuer may, after consultation with the Fiscal Agent, make such other changes to the Conditions applicable to the relevant Notes as it may decide so as to conform them to the then market practice in respect of euro-denominated debt securities issued in the euromarkets which are held in international clearing systems. Any such changes will not take effect until the next following Interest Payment Date after they have been notified to the Noteholders in accordance with Condition 14 (*Notices*).

"**Inconvertibility**" means the occurrence of any event that makes it impossible for the Issuer to convert any amount due in respect of the CNY Notes in the general Renminbi exchange market in Hong Kong, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after 8 August 2012 and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

"**Non transferability**" means the occurrence of any event that makes it impossible for the Issuer to transfer Renminbi between accounts inside Hong Kong or from an account inside Hong Kong to an account outside Hong Kong or from an account outside Hong Kong to an account inside Hong Kong, other than where such impossibility is due solely to the failure of the Issuer to comply with any law, rule or regulation enacted by any Governmental Authority (unless such law, rule or regulation is enacted after 8 August 2012 and it is impossible for the Issuer, due to an event beyond its control, to comply with such law, rule or regulation);

"**Spot Rate**" means the spot CNY/US dollar exchange rate for the purchase of U.S. dollars with Renminbi in the over-the-counter Renminbi exchange market in Hong Kong for settlement in two Determination Business Days, as determined by the Calculation Agent at or around 11.00 a.m. (Hong Kong time) on the Determination Date, on a deliverable basis by reference to Reuters Screen Page TRADCNY3, or if no such rate is available, on a non-deliverable basis by reference to Reuters Screen Page TRADNDF. If neither rate is available, the Calculation Agent will determine the Spot Rate at or around 11.00 a.m. (Hong Kong time) on the Determination Date as the most recently available CNY/US dollar official fixing rate for settlement in two Determination Business Days reported by The State Administration of Foreign Exchange of the PRC, which is reported on the Reuters Screen Page CNY=SAEC.

(k) *Payment of U.S. Dollar equivalent in respect of Exotic Currencies*

If Exotic Currency Payments is specified to be applicable in the relevant Pricing Supplement then, in the event that the Issuer is due to make a payment in an Exotic Currency in respect of any Note and the Exotic Currency is not available or it is impracticable to make the payment in the Exotic Currency due to circumstances beyond the Issuer's control as determined by the Calculation Agent acting in good faith and in a commercially reasonable manner, the Issuer will be entitled to satisfy in full its obligations in respect of such payment by making payment as soon as practicable in U.S. dollars on the basis of the spot exchange rate of U.S. dollars against the Exotic Currency offered in the London foreign exchange market as determined by the Calculation Agent referencing the Exotic Currency Reuters Screen Page at or around the Exotic Currency Relevant Time on the fifth London Business Day prior to such payment or, if such rate is not available on that day, the Calculation Agent will reference the rate most recently available prior to such day.

Any payment made in U.S. dollars in accordance with the foregoing paragraph will not constitute an Event of Default (as defined in Condition 9 (*Events of Default*)). The communications, opinions, determinations, calculations, quotations and decisions given, expressed, made or obtained by the Calculation Agent hereunder shall be at its sole discretion and shall (in the absence of manifest error, wilful default or bad faith) be conclusive for all purposes and binding on the Issuer, the Paying Agents, and the holders of the Notes or Coupons.

For this purpose:

"Exotic Currency" means the Specified Currency, being either Mexican peso, Turkish lira or South African rand, as specified in the Pricing Supplement.

"Exotic Currency Relevant Time" means the time specified in the Pricing Supplement.

"Exotic Currency Reuters Screen Page" means the Reuters screen page specified in the Pricing Supplement.

"London Business Day" means a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments generally in London.

(l) *Discretion of Calculation Agent*

All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of the provisions of this Condition 6 (*Payments and Talons*) by the Calculation Agent will (in the absence of a manifest error) be binding on the Issuer, the Paying Agents and the holders of the Notes or Coupons and (in the absence of negligence, wilful default, bad faith or fraud) no liability to any such person shall attach to the Calculation Agent in connection with the exercise or non-exercise by it of its powers and duties for such purposes.

7. **Taxation**

(a) *Withholding Tax*

Subject as provided below, all payments of principal and interest in respect of the Notes, the Receipts and the Coupons by or on behalf of the Issuer or, if applicable, the Guarantor shall be made free and clear of, and without withholding or deduction for, any taxes, duties, assessments or governmental charges of whatever nature imposed, levied, collected, withheld or assessed by or within the jurisdiction of incorporation of the Issuer and/or, where the Issuer is acting through its branch outside its country of incorporation, the jurisdiction, country or territory in which the branch through which the Issuer is acting as specified in the relevant Pricing Supplement is located or, if applicable, the jurisdiction of incorporation of the Guarantor or by any authority therein or thereof having power to tax (together, "**Taxes**"), unless such withholding or deduction is required by law or made for or on account of FATCA. Any amounts withheld pursuant to an agreement with a taxing authority will be treated as required by law. In that event, the Issuer or (as the case may be) the Guarantor shall pay such additional amounts to the Noteholders, Couponholders and Receiptholders as shall result in receipt by those Noteholders, Couponholders and Receiptholders of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable with respect to any Note, Receipt or Coupon:

- (i) presented for payment by or on behalf of a holder which is liable to such Taxes, duties, assessments or governmental charges in respect of such Note, Receipt or Coupon by reason of its having some connection with the jurisdiction of incorporation of the Issuer or, where the Issuer is acting through its branch outside its country of incorporation, the jurisdiction, country or territory in which the branch through which the Issuer is acting as specified in the relevant Pricing Supplement is located and/or, if applicable, the jurisdiction of incorporation of the Guarantor, other than the mere holding of such Note, Receipt or Coupon or the receipt of the relevant payment in respect thereof; or
- (ii) where ANZBGL is the Issuer, held by or on behalf of a holder who is an Australian resident or a non-resident who is engaged in carrying on business in Australia at or through a permanent establishment of that non-resident in Australia, if that person has not supplied an appropriate tax file number, Australian business number or other exemption details; or
- (iii) presented (or in respect of which the Certificate representing it is presented) for payment more than 30 days after the Relevant Date except to the extent that the holder of it would have been entitled to such additional amounts on presenting it for payment on the 30th such day; or
- (iv) in respect of which the holder thereof is an Offshore Associate of ANZBGL (acting other than in the capacity of a clearing house, paying agent, custodian, funds manager or responsible entity of a registered scheme within the meaning of the Corporations Act), where ANZBGL is the Issuer; or
- (v) in respect of which the Taxes have been imposed or levied as a result of the holder of such Note, Receipt or Coupon being party to or participating in a scheme to avoid such Taxes, being a scheme which ANZBGL, where ANZBGL is the Issuer, was neither a party to nor participated in; or
- (vi) in respect of Bearer Notes only, if the holder of such Note, Receipt or Coupon or any entity which directly or indirectly has an interest in or right in respect of such Note, Receipt or Coupon is a resident of Australia, or a non-resident who is engaged in carrying on business in Australia at or through a permanent establishment of that non-resident in Australia (the expressions "**resident of Australia**", "**non-resident**" and "**permanent establishment**" having the meanings given to them by the Australian Tax Act) if, and to the extent that, section 126 of the Australian Tax Act (or any equivalent provisions) requires ANZBGL, where ANZBGL is the Issuer, to pay income tax in respect of interest payable on such Note, Receipt or Coupon and the income tax would not be payable were the holder or such entity not such a resident of Australia or non-resident; or
- (vii) where such withholding or deduction is for or on account of New Zealand resident withholding tax, where either ANZ Bank New Zealand or ANZNIL is the Issuer or ANZ Bank New Zealand is the Guarantor; or
- (viii) presented for payment by, or a third party on behalf of, a holder if such withholding or deduction may be avoided by complying with any statutory requirement or by making a declaration of non-residence or other similar claim for exemption to any authority of or in New Zealand, unless the holder proves that he is not entitled so to comply or to make such declaration or claim, where either ANZ Bank New Zealand or ANZNIL is the Issuer or ANZ Bank New Zealand is the Guarantor; or
- (ix) presented for payment by, or a third party on behalf of, a holder that is a partnership, or a holder that is not the sole beneficial owner of the Note, Receipt or Coupon, or which holds the Note, Receipt or Coupon, in a fiduciary capacity, to the extent that any of the members of the partnership, the beneficial owner or the settlor or beneficiary with respect to the fiduciary would not have been entitled to the payment of an additional amount had each of the members of the partnership, the beneficial owner, settlor or beneficiary (as the case may be) received directly his beneficial or distributive share of the payment; or
- (x) presented for payment in New Zealand, where either ANZ Bank New Zealand or ANZNIL is the Issuer or ANZ Bank New Zealand is the Guarantor; or
- (xi) in respect of which the Taxes have been imposed or levied as a result of the holder of such Note, Receipt or Coupon being party to or participating in a scheme to avoid such Taxes, being a scheme which either ANZ Bank New Zealand or ANZNIL, where ANZ Bank New Zealand or ANZNIL

is the Issuer, or ANZ Bank New Zealand, where ANZ Bank New Zealand is the Guarantor, was neither a party to nor participated in; or

- (xii) where such withholding or deduction is made for or on account of FATCA on payments to a Noteholder, Couponholder, Receiptholder, beneficial owner, or any agent having custody or control over a payment made by the Issuer, Guarantor or any agent in the chain of payment, including due to the failure of the Noteholder, Couponholder, Receiptholder, beneficial owner, or any agent having custody or control over a payment to comply with any requests for tax certifications or other identifying information regarding such Noteholder, Couponholder, Receiptholder, beneficial owner, or agent, or due to the failure to provide a waiver of any laws prohibiting the disclosure of such certifications, identifying information and other information in respect of the Notes to a taxing authority.

As used in these Conditions, "**Relevant Date**" in respect of any Note, Receipt or Coupon means the date on which payment in respect of it first becomes due or (if any amount of the money payable is improperly withheld or refused) the date on which payment in full of the amount outstanding is made or (if earlier) the date seven days after that on which notice is duly given to the Noteholders that, upon further presentation of the Note (or relative Certificate), Receipt or Coupon being made in accordance with the Conditions, such payment will be made, provided that payment is in fact made upon such presentation. References in these Conditions to (i) "**principal**" shall be deemed to include all Instalment Amounts, Final Redemption Amounts, Early Redemption Amounts, Optional Redemption Amounts, Amortised Face Amounts and all other amounts in the nature of principal payable pursuant to Condition 5 (*Redemption, Purchase and Options*) or any amendment or supplement to it, (ii) "**interest**" shall be deemed to include all Interest Amounts and all other amounts payable pursuant to Condition 4 (*Interest and other Calculations*) or any amendment or supplement to it and (iii) "**principal**" and/or "**interest**" shall be deemed to include any additional amounts that may be payable under this Condition or any undertaking given in addition to or substitution for it under the Agency Agreement. Any additional amounts due in respect of the Subordinated Notes will be subordinated in right of payment as described in Condition 10 (*Subordination*).

The remaining provisions of this Condition only apply to ANZNIL where ANZNIL is the Issuer and to ANZ Bank New Zealand where ANZ Bank New Zealand is the Issuer or the Guarantor. Where used in the remaining provisions of this Condition, "**interest**" means interest (as defined under New Zealand taxation legislation) for withholding tax purposes, which under current legislation includes the excess of the redemption amount over the issue price of any Note as well as coupon interest paid on such Note.

Where (i) ANZNIL is the Issuer or (ii) ANZ Bank New Zealand is the Issuer or the Guarantor, and ANZ Bank New Zealand or ANZNIL, as the case may be, is required to deduct New Zealand non-resident withholding tax in the case of any payments of interest to a holder of a Note or Coupon, ANZ Bank New Zealand or ANZNIL, as the case may be, may, and intend to (for so long as they do not incur any increased cost or detriment from so doing), relieve themselves of such obligation by using a procedure which permits borrowers such as ANZ Bank New Zealand or ANZNIL, as the case may be, to reduce the applicable rate of non-resident withholding tax to zero per cent. Under the current law, that procedure involves ANZ Bank New Zealand or ANZNIL, as the case may be, paying on their own respective accounts a levy to the New Zealand revenue authorities (which is currently equal to two per cent. of such payments of interest).

ANZ Bank New Zealand and ANZNIL are required by law to deduct New Zealand resident withholding tax from the payment of interest to the holder of any Note on any Interest Payment Date or the Maturity Date, where:

- (A) the Holder is (i) a resident of New Zealand for New Zealand income tax purposes, or (ii) the Holder holds the notes for the purposes of a business the Holder carries on in New Zealand, through a fixed establishment (as defined in the Income Tax Act 2007 (New Zealand) in New Zealand, or (iii) the Holder is a registered bank engaged in business in New Zealand through a fixed establishment (as defined in the Income Tax Act 2007 (New Zealand)) in New Zealand and is not associated with ANZ Bank New Zealand or ANZNIL (as applicable) (each a "**New Zealand Holder**"); and

- (B) at the time of such payment the New Zealand Holder does not hold "RWT-exempt status" (as defined in the Income Tax Act 2007 (New Zealand)) in respect of New Zealand resident withholding tax.

Prior to any Interest Payment Date or the Maturity Date, any New Zealand Holder:

- (A) must notify ANZ Bank New Zealand or ANZNIL, as the case may be, that the New Zealand Holder is the holder of a Note; and
- (B) must notify ANZ Bank New Zealand or ANZNIL, as the case may be, of any circumstances, and provide ANZ Bank New Zealand or ANZNIL, as the case may be, with any information that may enable ANZ Bank New Zealand or ANZNIL, as the case may be, to make payment of interest to the New Zealand Holder without deduction on account of New Zealand resident withholding tax.

The New Zealand Holder must notify ANZ Bank New Zealand or ANZNIL, as the case may be, prior to any Interest Payment Date or the Maturity Date, of any change in the New Zealand Holder's circumstances from those previously notified that could affect the payment or withholding obligations of ANZ Bank New Zealand or ANZNIL, as the case may be, in respect of this Note. By accepting payment of the full face amount of a Note or any interest thereon on any Interest Payment Date or the Maturity Date, the New Zealand Holder indemnifies ANZ Bank New Zealand or ANZNIL, as the case may be, for all purposes in respect of any liability ANZ Bank New Zealand or ANZNIL, as the case may be, may incur for not deducting any amount from such payment on account of New Zealand resident withholding tax.

Only a New Zealand Holder will be obliged to make the notification referred to above.

(b) *Taxing Jurisdiction*

If the Issuer or, if applicable, the Guarantor is, or becomes, subject at any time to any taxing jurisdiction(s) other than or in addition to its own jurisdiction of incorporation or the jurisdiction, country or territory in which the branch (if any) specified in the relevant Pricing Supplement is located, references in Condition 5(b) and this Condition 7 shall be read and construed as including references to such other taxing jurisdiction(s).

8. **Prescription**

Claims against the Issuer and, if applicable, the Guarantor for payment in respect of the Notes, Receipts and Coupons (which, for this purpose, shall not include Talons) shall be prescribed and become void unless made within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date in respect of them.

9. **Events of Default**

(a) *Unsubordinated Notes*

If any of the following events ("**Events of Default**") occurs and is continuing, the holder of any Unsubordinated Note of any Series issued by the Issuer may give written notice to the Fiscal Agent at its specified office that such Unsubordinated Note is immediately repayable, whereupon it shall immediately become due and repayable at its Early Redemption Amount together with accrued interest to the date of payment unless, prior to the date that such written notice is received by the Fiscal Agent, the Issuer and/or, if applicable, the Guarantor shall have cured or otherwise made good all Events of Default in respect of the Unsubordinated Notes of such Series:

- (i) default is made in the payment of any principal or Final Redemption Amount, Early Redemption Amount, Optional Redemption Amount, Instalment Amount or Amortised Face Amount (in the case of a Zero Coupon Note) (whether becoming due upon redemption or otherwise) when due, in respect of any Unsubordinated Note of such Series, and such default continues for a period of 15 days or interest when due, in respect of any Unsubordinated Note of such Series, and such default continues for a period of 30 days; or

- (ii) the Issuer fails to perform or observe any of its obligations under any Unsubordinated Note of such Series or, if applicable, the Guarantor fails to perform or observe any of its obligations under the Deed of Guarantee, in either case other than those specified in paragraph (i) above and in such case (except where such failure is incapable of remedy) such failure continues for a period of 30 days next following the service by any holder of any Unsubordinated Note of such Series on the Issuer, the Guarantor (if applicable) and the Fiscal Agent of written notice requiring the same to be remedied; or
- (iii) otherwise than for the purpose of an amalgamation or reconstruction or merger within the meaning of these words under the laws of the Issuer's or, if applicable, the Guarantor's country of incorporation or, if applicable, the laws of the jurisdiction, country or territory in which the branch through which the Issuer is acting as specified in the relevant Pricing Supplement is located, a resolution is passed that the Issuer or, as the case may be, the Guarantor be wound up or dissolved; or
- (iv) the Issuer or, if applicable, the Guarantor stops payment (within the meaning of Australian or any other applicable bankruptcy law) of its obligations; or
- (v) an encumbrancer takes possession of or a receiver is appointed of the whole or a substantial part of the undertaking and assets of the Issuer or, if applicable, the Guarantor and any such event is continuing for 45 days after its occurrence and would materially prejudice the performance by the Issuer or, as the case may be, the Guarantor of its obligations under the Unsubordinated Notes of such Series or a distress or execution is levied or enforced upon or sued out against the whole or a substantial part of the undertaking and assets of the Issuer or, as the case may be, the Guarantor which would materially prejudice the performance of (i) the Issuer of its obligations under the Unsubordinated Notes of such Series or, (ii) if applicable, the Guarantor of its obligations under the Deed of Guarantee, and in each case is not discharged within 60 days thereof; or
- (vi) proceedings shall have been initiated against the Issuer or, if applicable, the Guarantor under any applicable bankruptcy, reorganisation or other similar law and such proceedings shall not have been discharged or stayed within a period of 60 days; or
- (vii) the Issuer or, if applicable, the Guarantor shall initiate or consent to proceedings relating to itself under any applicable bankruptcy, insolvency, composition or other similar law (otherwise than for the purpose of amalgamation, reconstruction or merger (within the meaning of those words under the laws of the country of the Issuer's or, if applicable, the Guarantor's incorporation or, if applicable, the laws of the jurisdiction, country or territory in which the branch through which the Issuer is acting as specified in the relevant Pricing Supplement is located), and such proceedings would materially prejudice the performance by (A) the Issuer of its obligations under the Unsubordinated Notes of such Series or (B), if applicable, the Guarantor of its obligations under the Deed of Guarantee); or
- (viii) in respect of Notes issued by ANZNIL only, the Deed of Guarantee of the Notes is (A) not in full force and effect and, where capable of remedy, the Deed of Guarantee is not in full force and effect within seven days of the date the defect is first discovered or (B) claimed by the Guarantor not to be in full force and effect.

Any such notice by a holder of Unsubordinated Notes to the Fiscal Agent shall specify the serial number(s) of the Unsubordinated Notes concerned.

Notwithstanding any other provision of this Condition 9(a) no Event of Default in respect of any Unsubordinated Notes shall occur solely on account of any failure by ANZBGL to perform or observe its obligations in relation to, or the taking of any process or proceeding in respect of any share, note or other security or instrument constituting Tier 1 Capital or Tier 2 Capital (as defined by APRA from time to time).

(b) *Subordinated Notes Issued by ANZBGL*

The following are "**Events of Default**" with respect to Subordinated Notes:

- (i) (a) the making of an order by a court of the State of Victoria, Commonwealth of Australia or a court with appellate jurisdiction from such court which is not successfully appealed or permanently stayed within 60 days of the entry of such order; or
- (b) the valid adoption by ANZBGL's shareholders of an effective resolution,
- in each case for the winding-up of ANZBGL (other than under or in connection with a scheme of amalgamation or reconstruction not involving bankruptcy or insolvency);
- (ii) subject to Condition 4(v):
- (a) default in the payment of interest on any Subordinated Note when due, continued for 30 days; or
- (b) default in the payment of principal of any Subordinated Note when due.

Upon the occurrence of an Event of Default specified in paragraph (i) above, subject to the subordination provisions, the Principal Amount of, and all accrued and unpaid interest, on the Subordinated Notes will automatically become due and payable.

If an Event of Default contemplated by paragraph (ii) above with respect to any of the Subordinated Notes occurs and is continuing, a Subordinated Noteholder may only, in order to enforce the obligations of ANZBGL under such Subordinated Notes:

- (y) notwithstanding the provisions of paragraph (z) below, institute proceedings in the State of Victoria, Commonwealth of Australia (but not elsewhere) for the winding-up of ANZBGL (all subject to, and in accordance with, the terms of Condition 10 (*Subordination*)); or
- (z) institute proceedings for recovery of the money then due, provided that ANZBGL will not, by virtue of the institution of any such proceedings (other than proceedings for the winding-up of ANZBGL), be obliged to pay any sums representing principal or interest in respect of such Subordinated Notes sooner than the same would otherwise have been payable by it and provided that ANZBGL is Solvent at the time of, and will be Solvent immediately after, the making of any such payment.

No remedy against ANZBGL, other than those referred to in this paragraph (b), shall be available to the Subordinated Noteholders or Couponholders or Receiptholders in respect of Subordinated Notes, whether for the recovery of amounts owing in respect of the Subordinated Notes or in respect of any breach by ANZBGL of any of its other obligations under or in respect of the Subordinated Notes.

10. **Subordination**

In the event of the winding-up of ANZBGL constituting an Event of Default with respect to the Subordinated Notes, there shall be payable with respect to the Subordinated Notes, subject to the subordination provisions discussed above (see Condition 3 (*Status and Guarantee*)), an amount equal to the Principal Amount of the Subordinated Notes then outstanding, together with all accrued and unpaid interest thereon to the repayment date.

As a result of the subordination provisions, no amount will be payable in the winding-up of ANZBGL in Australia in respect of the Subordinated Notes until all claims of Senior Creditors admitted in the winding-up proceeding have been satisfied in full. By subscription for, or transfer of, Subordinated Notes to a Noteholder, that Subordinated Noteholder will be taken to have agreed that no amount in respect of the Subordinated Notes will be repaid until all the claims of the Senior Creditors admitted in the winding-up proceeding have been satisfied accordingly. Accordingly, if proceedings with respect to the winding-up of ANZBGL in Australia were to occur, the Subordinated Noteholders could recover less relatively than the holders of deposit liabilities or protected accounts, the Unsubordinated Noteholders, the holders of prior ranking subordinated liabilities of ANZBGL. For the avoidance of doubt, the Subordinated Notes do not constitute deposit liabilities or protected accounts of ANZBGL.

If, in any such winding-up, the amount payable with respect to the Subordinated Notes and any claims ranking equally with those Subordinated Notes cannot be paid in full, those Subordinated Notes and other claims ranking equally with those Subordinated Notes will share relatively in any distribution of ANZBGL's assets in a winding-up in proportion to the respective amounts to which they are entitled. To the extent that Subordinated Noteholders are entitled to any recovery with respect to the Subordinated Notes in any winding-up, such Subordinated Noteholders might not be entitled in such proceedings to a recovery in the Specified Currency in respect of such Subordinated Notes (if other than Australian dollars) and might be entitled only to a recovery in Australian dollars.

11. Meeting of Noteholders, Modifications and Waiver

(a) Meetings of Noteholders

The Agency Agreement contains provisions for convening meetings of Noteholders of a Series to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution (as defined in the Agency Agreement) of a modification or amendment of any of these Conditions. The quorum for any meeting of Noteholders shall be two or more persons holding or representing in the aggregate a clear majority in Principal Amount of the Notes for the time being outstanding, or at any adjourned meeting two or more persons being or representing Noteholders whatever the Principal Amount of the Notes held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to amend the dates of maturity or redemption of the Notes, any Instalment Date or any date for payment of interest or Interest Amounts on the Notes or the obligation of the Issuer to pay additional amounts pursuant to Condition 7 (*Taxation*), (ii) to reduce or cancel the Principal Amount of, or any Instalment Amount of, or any premium payable on redemption of, the Notes, (iii) to reduce the rate or rates of interest in respect of the Notes or to vary the method or basis of calculating the rate or rates or amount of interest or the basis for calculating any Interest Amount in respect of the Notes, (iv) if a Minimum and/or a Maximum Rate of Interest, Instalment Amount, Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount is set out in the Pricing Supplement, to reduce any such Minimum and/or Maximum, (v) to vary any method of, or basis for, calculating the Final Redemption Amount, Early Redemption Amount or Optional Redemption Amount, including the method of calculating the Amortised Face Amount, (vi) to vary the currency or currencies of payment or Specified Denomination of the Notes, (vii) to take any steps that as specified in the Pricing Supplement may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply, or (viii) to modify the provisions concerning the quorum required at any meeting of Noteholders or the majority required to pass the Extraordinary Resolution, in which case the necessary quorum at any adjourned meeting shall be two or more persons holding or representing in the aggregate not less than one-third in Principal Amount of the Notes for the time being outstanding. However, the prior written approval of APRA is required to modify, amend or supplement the terms of any Series of Subordinated Notes, or to give any consents or waivers or take other actions in respect of any Series of Subordinated Notes, where such modification, amendment, supplement, consent, waiver or other action may affect the eligibility of the Subordinated Notes as Tier 2 Capital. Any resolution duly passed (including an Extraordinary Resolution) shall be binding on all Noteholders of the relevant Series (whether or not they were present at the meeting at which such resolution was passed) and on all Couponholders of the relevant Series. The expression "**Extraordinary Resolution**" means a resolution passed at a meeting of Noteholders duly convened by a majority consisting of not less than three-quarters of the votes cast. All other resolutions, except for written resolutions, shall be passed at a meeting of Noteholders duly convened by a clear majority of the votes cast.

In addition, a resolution in writing signed by or on behalf of all Noteholders who for the time being are entitled to receive notice of a meeting of Noteholders will take effect as if it were an Extraordinary Resolution. Such a resolution in writing may be contained in one document or several documents in the same form, each signed by or on behalf of one or more Noteholders.

(b) Modification of the Agency Agreement, Deed of Covenant, Deed of Guarantee, Deed of Undertaking, Conditions and Pricing Supplement

The Agency Agreement, the Deed of Covenant, the Deed of Guarantee, the Conditions and any applicable Pricing Supplement may be modified or amended by the Issuer and, in the case of the Deed of Guarantee, by ANZNIL and the Guarantor and, in the case of the Deed of Undertaking, by ANZGHL, in each case without the consent of the holders if, in the reasonable opinion of the Issuer (and in the case of the Deed

of Guarantee, ANZNIL and the Guarantor and, in the case of the Deed of Undertaking, ANZGHL), the modification or amendment is:

- (a) not materially prejudicial to the interests of the holders;
- (b) of a formal, minor or technical nature;
- (c) made to correct any manifest or proven error or omission;
- (d) made to comply with mandatory provisions of the law; or
- (e) made to cure, correct or supplement any defective provision or ambiguity,

provided that any such modification or amendment to the Agency Agreement, the Deed of Covenant, the Conditions, the Deed of Undertaking and the Pricing Supplement which may affect the eligibility of Subordinated Notes as Tier 2 Capital has the prior written approval of APRA.

Any such modification or amendment shall be binding on the holders and any such modification or amendment shall be notified to the holders in accordance with Condition 14 as soon as practicable thereafter.

12. Replacement of Notes, Certificates, Receipts, Coupons and Talons

If a Note, Certificate, Receipt, Coupon or Talon is lost, stolen, mutilated, defaced or destroyed, it may be replaced, subject to applicable laws, regulations and listing authority, stock exchange and/or quotation system regulations, at the specified office of the Fiscal Agent (in case of Bearer Notes, Receipts, Coupons or Talons) and of the Registrar (in the case of Certificates) or such other Paying Agent or Transfer Agent, as the case may be, as may from time to time be designated by the Issuer for the purpose and notice of whose designation is given to Noteholders, in each case on payment by the claimant of the fees and costs incurred in connection therewith and on such terms as to evidence, security and indemnity (which may provide, *inter alia*, that if the allegedly lost, stolen or destroyed Note, Certificate, Receipt, Coupon or Talon is subsequently presented for payment or, as the case may be, for exchange for further Coupons, there shall be paid to the Issuer on demand the amount payable by the Issuer in respect of such Notes, Certificates, Receipts, Coupons or further Coupons) and otherwise as the Issuer may require. Mutilated or defaced Notes, Certificates, Receipts, Coupons or Talons must be surrendered before replacements will be issued.

13. Further Issues

Any Issuer may (and, in the instance of an issue of Subordinated Notes by ANZBGL, if ANZBGL has obtained the prior approval of APRA) from time to time without the consent of the Noteholders or Couponholders create and issue further securities either having the same terms and conditions as the Notes in all respects (or in all respects except for the first payment of interest on them) and so that such further issue shall be consolidated and form a single Series with the outstanding securities of any Series (including the Notes) or upon such terms as the Issuer may determine at the time of their issue. Notes of more than one Series may be consolidated into one Series denominated in euro, even if one or more such Series was not originally denominated in euro, provided all such Series have been redenominated into euro and otherwise have, in respect of all periods subsequent to such consolidation, the same terms and conditions. References in these Conditions to the Notes include (unless the context requires otherwise) any other securities issued pursuant to this Condition and forming a single Series with the Notes.

14. Notices

Notices to the holders of Registered Notes shall be (a) mailed to them (or, in the case of joint holders, to the first named) at their respective addresses in the Register and (b) published at <https://www.anz.com/debtinvestors/centre/programmes/anz-banking-group/euro-medium-term-note-programme-aus/> in respect of Notes issued by ANZBGL and at <https://www.anz.com/debtinvestors/centre/programmes/anz-bank-nz/euro-medium-term-note-programme-nz/> in respect of Notes issued by ANZ Bank New Zealand and ANZNIL.

Notices to the holders of Registered Notes shall be deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the later of the date of mailing and the date of first publication online.

Notices to the holders of Bearer Notes shall be, save where another means of effective communication has been specified herein or in the Pricing Supplement, published at <https://www.anz.com/debtinvestors/centre/programmes/anz-banking-group/euro-medium-term-note-programme-aus/> in respect of Notes issued by ANZBGL and at <https://www.anz.com/debtinvestors/centre/programmes/anz-bank-nz/euro-medium-term-note-programme-nz/> in respect of Notes issued by ANZ Bank New Zealand and ANZNIL.

Notices to the holders of Bearer Notes shall be deemed to have been given on the date of first publication online. Couponholders shall be deemed for all purposes to have notice of the contents of any notice given to the holders of Bearer Notes in accordance with this Condition 14.

Notices to holders of all Notes which have been listed, admitted to trading on any stock exchange or listed on a quotation system will also be given in such manner and in such place as may be required by the rules and regulations of such listing authority stock exchange and/or quotation system.

15. **Currency Indemnity**

If any sum due from the Issuer in respect of the Notes, Receipts or the Coupons or any order or judgment given or made in relation thereto has to be converted from the currency (the "**first currency**") in which the same is payable under these Conditions or such order or judgment into another currency (the "**second currency**") for the purpose of (a) making or filing a claim or proof against the Issuer, (b) obtaining an order or judgment in any court or other tribunal or (c) enforcing any order or judgment given or made in relation to the Notes, Receipts or Coupons, the Issuer shall indemnify each holder, on the written demand of such holder addressed to the Issuer and delivered to the Issuer or to the specified office of the Fiscal Agent, against any loss suffered as a result of any discrepancy between (i) the rate of exchange used for such purpose to convert the sum in question from the first currency into the second currency and (ii) the rate or rates of exchange at which such holder may in the ordinary course of business purchase the first currency with the second currency upon receipt of a sum paid to it in satisfaction, in whole or in part, of any such order, judgment, claim or proof. For the purposes of this Condition 15, it shall be sufficient for the Noteholder, Receiptholder or Couponholder, as the case may be, to demonstrate that it would have suffered a loss had an actual purchase been made. These indemnities constitute a separate and independent obligation from the Issuer's other obligations, shall give rise to a separate and independent cause of action, shall apply irrespective of any indulgence granted by any Noteholder, Receiptholder or Couponholder and shall continue in full force and effect despite any other judgment, order, claim or proof for a liquidated amount in respect of any sum due under any Note, Coupon or Receipt or any other judgment or order.

16. **Governing Law, Jurisdiction and Service of Process**

(a) *Governing Law*

The Notes, the Receipts, the Coupons and the Talons and any non-contractual obligations arising out of or in connection with them are governed by, and shall be construed in accordance with, English law, except for the subordination, Conversion and Write-Off provisions of the Subordinated Notes (including, without limitation, the provisions contained in Conditions 3(b), 4(v), 5A, 5B, 5C, 5D, 5E, 9(b) and 10 (*Subordination*)) which will be governed by, and construed in accordance with, the laws of the State of Victoria and the Commonwealth of Australia.

(b) *Jurisdiction*

The Issuer agrees for the benefit of the holders of Notes, Receipts, Coupons and Talons that the courts of England shall have jurisdiction to hear and determine any suit, action or proceedings, and to settle any disputes, which may arise out of or in connection with the Notes and all matters connected with the Notes, Receipts, Coupons and Talons (including a dispute relating to any non-contractual obligation arising out of or in connection with them) (respectively, "**Proceedings**" and "**Disputes**") and, for such purposes, irrevocably submits to the jurisdiction of such courts.

(c) *Appropriate Forum*

The Issuer irrevocably waives any objection which it might now or hereafter have to the courts of England being nominated as the forum to hear and determine any Proceedings and to settle any Disputes, and agrees not to claim that any such court is not a convenient or appropriate forum.

(d) *Service of Process*

The Issuer agrees that the process by which any Proceedings in England are begun may be served on it by being delivered to the officer in charge of the London Branch of Australia and New Zealand Banking Group Limited at its UK establishment office address from time to time, currently Level 12, 25 North Colonnade, London E14 5HZ. If such person is not or ceases to be effectively appointed to accept service of process on the Issuer's behalf, the Issuer shall appoint a further person in England to accept service of process on the Issuer's behalf and, failing such appointment, within 15 days, any Noteholder shall be entitled to appoint such a person by written notice addressed to the Issuer and delivered to the Issuer or to the specified office of the Fiscal Agent. Nothing in this paragraph shall affect the right of any holder of Notes, Receipts, Coupons or Talons to serve process in any other manner permitted by law.

(e) *Non-exclusivity*

The submission to the jurisdiction of the courts of England shall not (and shall not be construed so as to) limit the right of any holder of Notes, Receipts, Coupons or Talons to take Proceedings in any other court of competent jurisdiction, nor shall the taking of Proceedings in any one or more jurisdictions preclude the taking of Proceedings in any other jurisdiction (whether concurrently or not) if and to the extent permitted by law.

(f) *Consent to Enforcement etc.*

Subject to Condition 10 (*Subordination*), the Issuer consents generally in respect of any Proceedings to the giving of any relief or the issue of any process in connection with such Proceedings including (without limitation) the making, enforcement or execution against any property whatsoever (irrespective of its use or intended use) of any order or judgment which may be made or given in such Proceedings.

17. Third Parties

No person shall have any right to enforce any term or condition of the Notes under the Contracts (Rights of Third Parties) Act 1999.

SCHEDULE 1 TO THE TERMS AND CONDITIONS OF THE NON PR NOTES

1. Conversion

If ANZBGL must Convert a Principal Amount of a Subordinated Note in accordance with the Conditions, then, subject to this Schedule and Condition 5D.2 and unless the Pricing Supplement specifies that the Alternative Conversion Number applies, the following provisions apply (provided, in all cases, that where a Subordinated Note is required to be Converted only in part, references in this Schedule to the "**Subordinated Note**" shall be taken to be references to the "**Affected Subordinated Note**" as defined in Condition 5A.4(ii)):

- (a) The Subordinated Note will be automatically transferred free from any encumbrance to or as directed by ANZGHL on the Trigger Event Date.
- (b) ANZGHL will allot and issue on the Trigger Event Date a number of Ordinary Shares in respect of the Principal Amount of that Subordinated Note equal to the Conversion Number, where the Conversion Number (but subject to the Conversion Number being no more than the Maximum Conversion Number) is a number calculated according to the following formula:

$$\text{Conversion Number} = \frac{\text{Principal Amount}}{((1 - CD) \times VWAP)}$$

where:

"CD" means the conversion discount specified in the applicable Pricing Supplement;

"VWAP" (expressed in dollars and cents or equivalent in the case of a Specified Currency other than Australian dollars) means the VWAP during the VWAP Period and where the "Maximum Conversion Number" means a number calculated according to the following formula:

$$\text{Maximum Conversion Number} = \frac{\text{Principal Amount}}{\text{Issue Date VWAP} \times 0.2}$$

- (c) on the Trigger Event Date the rights of each Subordinated Noteholder (including to payment of interest with respect to such Principal Amount, both in the future and as accrued but unpaid as at the Trigger Event Date) in relation to each Subordinated Note or portion thereof that is being Converted will be automatically transferred for an amount equal to the Principal Amount of that Subordinated Note that is being Converted and that Principal Amount will be applied in accordance with the Deed of Undertaking by way of payment for subscription for the Ordinary Shares to be allotted and issued under Section 1(b) of this Schedule and the Deed of Undertaking. Each Subordinated Noteholder is taken to have irrevocably directed that any amount payable under Section 1 of this Schedule is to be applied as provided for in Section 1 of this Schedule and no Subordinated Noteholder has any right to payment in any other way;
- (d) any calculation under Section 1(b) of this Schedule shall be, unless the context requires otherwise, be rounded to four decimal places provided that if the total number of additional Ordinary Shares to be allotted to a Subordinated Noteholder in respect of the aggregate Principal Amount of the Subordinated Notes it holds which is being Converted includes a fraction of an Ordinary Share, that fraction of an Ordinary Share will be disregarded;
- (e) the rights attaching to Ordinary Shares issued as a result of Conversion do not take effect until 5.00pm (Melbourne, Australia time) on the Trigger Event Date (unless another time is required for Conversion on that date). At that time all other rights conferred or restrictions imposed on that Subordinated Note under the Conditions will no longer have effect to the extent of the Principal Amount of that Subordinated Note being Converted (except for the right to receive the Ordinary Shares as set forth in Section 1 of this Schedule and Condition 5B and except for rights relating to interest which is payable but has not been paid on or before the Trigger Event Date which will continue) and

- (f) under the arrangements as agreed between, among others, ANZGHL, ANZBGL and relevant members of the ANZ Group, deal with the Securities being Converted so that they are converted into ANZBGL Ordinary Shares and terminated (the "**Related Conversion Steps**").

2. **Adjustments to VWAP**

For the purposes of calculating VWAP in the Conditions:

- (a) where, on some or all of the Business Days in the relevant VWAP Period, Ordinary Shares have been quoted on the Australian Securities Exchange as cum dividend or cum any other distribution or entitlement and the relevant Principal Amount of Subordinated Notes will Convert into Ordinary Shares after the date those Ordinary Shares no longer carry that dividend or any other distribution or entitlement, then the VWAP on the Business Days on which those Ordinary Shares have been quoted cum dividend or cum any other distribution or entitlement shall be reduced by an amount ("**Cum Value**") equal to:
- (i) (in case of a dividend or other distribution), the amount of that dividend or other distribution including, if the dividend or other distribution is franked, the amount that would be included in the assessable income of a recipient of the dividend or other distribution who is both a resident of Australia and a natural person under the Tax Act;
 - (ii) (in the case of any other entitlement that is not a dividend or other distribution under Section 2(a)(i) of this Schedule which is traded on the Australian Securities Exchange on any of those Business Days), the volume weighted average sale price of all such entitlements sold on the Australian Securities Exchange during the VWAP Period on the Business Days on which those entitlements were traded; or
 - (iii) (in the case of any other entitlement which is not traded on the Australian Securities Exchange during the VWAP Period), the value of the entitlement as reasonably determined by the directors of ANZGHL; and
- (b) where, on some or all of the Business Days in the VWAP Period, Ordinary Shares have been quoted on the Australian Securities Exchange as ex dividend or ex any other distribution or entitlement, and the relevant Principal Amount of Subordinated Notes will Convert into Ordinary Shares which would be entitled to receive the relevant dividend or other distribution or entitlement, the VWAP on the Business Days on which those Ordinary Shares have been quoted ex dividend or ex any other distribution or entitlement shall be increased by the Cum Value.

3. **Adjustments to VWAP for divisions and similar transactions**

- (a) Where during the relevant VWAP Period there is a change in the number of the Ordinary Shares on issue as a result of a division, consolidation or reclassification of ANZGHL's share capital (not involving any cash payment or other distribution (or compensation) to or by holders of Ordinary Shares) (a "**Reorganisation**"), in calculating the VWAP for that VWAP Period the daily VWAP applicable on each day in the relevant VWAP Period which falls before the date on which trading in Ordinary Shares is conducted on a post Reorganisation basis shall be adjusted by multiplying such daily VWAP by the following formula:

$$\frac{A}{B}$$

where:

A means the aggregate number of Ordinary Shares immediately before the Reorganisation; and

B means the aggregate number of Ordinary Shares immediately after the Reorganisation.

- (b) Any adjustment made in accordance with Section 3(a) of this Schedule will, absent manifest error, be effective and binding on Subordinated Noteholders under these Conditions and these Conditions will be construed accordingly. Any such adjustment must be promptly notified to all Subordinated Noteholders.

4. **Adjustments to Issue Date VWAP**

For the purposes of determining the Issue Date VWAP, corresponding adjustments to VWAP will be made in accordance with Section 2 and Section 3 of this Schedule during the 20 Business Day period over which VWAP is calculated for the purposes of determining the Issue Date VWAP. On and from the Issue Date adjustments to the Issue Date VWAP:

- (a) may be made in accordance with Sections 5 to 7 of this Schedule (inclusive); and
(b) if so made, will cause an adjustment to the Maximum Conversion Number.

5. **Adjustments to Issue Date VWAP for bonus issues**

- (a) Subject to Section 5(b) of this Schedule below, if at any time after the Issue Date ANZGHL makes a pro rata bonus issue of Ordinary Shares to holders of Ordinary Shares generally, the Issue Date VWAP will be adjusted immediately in accordance with the following formula:

$$V = V_0 \times \frac{RD}{RD + RN}$$

where:

V means the Issue Date VWAP applying immediately after the application of this formula;

V₀ means the Issue Date VWAP applying immediately prior to the application of this formula;

RN means the number of Ordinary Shares issued pursuant to the bonus issue; and

RD means the number of Ordinary Shares on issue immediately prior to the allotment of new Ordinary Shares pursuant to the bonus issue.

- (b) Section 5(a) of this Schedule does not apply to Ordinary Shares issued as part of a bonus share plan, employee or executive share plan, executive option plan, share top up plan, share purchase plan or a dividend reinvestment plan.
- (c) For the purpose of Section 5(a) of this Schedule, an issue will be regarded as a pro rata issue notwithstanding that ANZGHL does not make offers to some or all holders of Ordinary Shares with registered addresses outside Australia, provided that in so doing ANZBGL is not in contravention of the ASX Listing Rules.
- (d) No adjustments to the Issue Date VWAP will be made under this Section 5 of this Schedule for any offer of Ordinary Shares not covered by Section 5(a) of this Schedule, including a rights issue or other essentially pro rata issue.
- (e) The fact that no adjustment is made for an issue of Ordinary Shares except as covered by Section 5(a) of this Schedule shall not in any way restrict ANZGHL from issuing Ordinary Shares at any time on such terms as it sees fit nor require any consent or concurrence of any Subordinated Noteholders.

6. **Adjustment to Issue Date VWAP for divisions and similar transactions**

- (a) If at any time after the Issue Date, a Reorganisation occurs, ANZBGL shall adjust the Issue Date VWAP by multiplying the Issue Date VWAP applicable on the Business Day immediately before the date of any such Reorganisation by the following formula:

$$\frac{A}{B}$$

where:

A means the aggregate number of Ordinary Shares immediately before the Reorganisation; and

B means the aggregate number of Ordinary Shares immediately after the Reorganisation.

- (b) Any adjustment made by ANZBGL in accordance with Section 6(a) of this Schedule will, absent manifest error, be effective and binding on Subordinated Noteholders under these Conditions and these Conditions will be construed accordingly.
- (c) Each Subordinated Noteholder acknowledges that ANZGHL may, consolidate, divide or reclassify securities so that there is a lesser or greater number of Ordinary Shares at any time in its absolute discretion without any such action requiring any consent or concurrence of any Subordinated Noteholders.

7. **No Adjustment to Issue Date VWAP in certain circumstances**

Despite the provisions of Section 5 and Section 6 of this Schedule, no adjustment shall be made to the Issue Date VWAP where such adjustment (rounded if applicable) would be less than one per cent. of the Issue Date VWAP then in effect.

8. **Announcement of adjustment to Issue Date VWAP**

ANZBGL will notify Subordinated Noteholders (an "**Adjustment Notice**") of any adjustment to the Issue Date VWAP under this Schedule within ten Business Days of ANZBGL determining the adjustment and the adjustment set out in the announcement will be final and binding.

9. **Ordinary Shares**

Each Ordinary Share issued or arising upon Conversion ranks pari passu with all other fully paid Ordinary Shares. Subordinated Noteholders agree not to trade Ordinary Shares issued on Conversion (except as permitted by the Corporations Act, other applicable laws and the ASX Listing Rules) until ANZGHL has taken such steps as are required by the Corporations Act, other applicable laws and the ASX Listing Rules for the Ordinary Shares to be freely tradeable without such further disclosure or other action and agree to allow ANZGHL to impose a holding lock or to refuse to register a transfer in respect of Ordinary Shares until such time.

10. **Listing Ordinary Shares issued on Conversion**

ANZGHL shall use all reasonable endeavours to list the Ordinary Shares issued upon Conversion of the Subordinated Notes on the Australian Securities Exchange.

11. **Alternative Conversion Number**

If ANZBGL must Convert a Principal Amount of a Subordinated Note in accordance with the Conditions and the Pricing Supplement specifies that the Alternative Conversion Number applies, then:

- (a) Section 1 of this Schedule applies on the basis that the Conversion Number for the purposes of Section 1(b) of this Schedule is the number of Ordinary Shares specified in the Pricing Supplement as the Alternative Conversion Number (subject to the Alternative Conversion Number being no more than the Maximum Conversion Number as determined in accordance with Section 1(b) of this Schedule); and

- (b) Sections 2 to 8 (inclusive) of this Schedule do not apply to the Alternative Conversion Number.

12. Definitions

For the purposes of this Schedule the following terms shall have the following meanings:

"**Affected Subordinated Note**" has the meaning given in Condition 5A.4(ii).

"**ASX Operating Rules**" means the market operating rules of the Australian Securities Exchange as amended, varied or waived (whether in respect of ANZBGL, ANZGHL or generally) from time to time.

"**Cum Value**" has the meaning given in Section 2 of this Schedule.

"**Issue Date VWAP**" means, in respect of Subordinated Notes of a Series, the VWAP during the period of 20 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the first date on which any Subordinated Notes of that Series were issued, as adjusted in accordance with Sections 4 to 7 (inclusive) of this Schedule.

"**Reorganisation**" has the meaning given in Section 3 of this Schedule.

"**Tax Act**" means:

- (i) the Income Tax Assessment Act 1936 of Australia or the Income Tax Assessment Act 1997 of Australia as the case may be and a reference to any section of the Income Tax Assessment Act 1936 of Australia includes a reference to that section as rewritten in the Income Tax Assessment Act 1997 of Australia; and
- (ii) any other Act setting the rate of income tax payable and any regulation promulgated under it.

"**VWAP**" means, subject to any adjustments under this Schedule, the average of the daily volume weighted average sale prices (such average being rounded to the nearest full cent) of Ordinary Shares sold on the Australian Securities Exchange during the VWAP Period or on the relevant days and where the currency of the Principal Amount in respect of the Subordinated Note is not Australian dollars, with each such daily price converted into the Specified Currency on the basis of the spot rate of exchange for the sale of Australian Dollars against the purchase of the relevant Specified Currency in the Sydney foreign exchange market quoted by any leading bank selected by ANZBGL on the relevant calculation date, but does not include any "Crossing" transacted outside the "Open Session State" or any "Special Crossing" transacted at any time, each as defined in the ASX Operating Rules, or any overseas trades or trades pursuant to the exercise of options over Ordinary Shares;

"**VWAP Period**" means the period of five Business Days or such other period specified in the applicable Pricing Supplement on which trading in Ordinary Shares took place immediately preceding (but not including) the Trigger Event Date.

13. Interpretation

In respect of Ordinary Shares, if the principal securities exchange on which the Ordinary Shares are listed becomes other than the Australian Securities Exchange, unless the context otherwise requires a reference to the Australian Securities Exchange shall be read as a reference to that principal securities exchange and a reference to the ASX Listing Rules, the ASX Operating Rules or any term defined in any such rules, shall be read as a reference to the corresponding rules of that exchange or corresponding defined terms in such rules (as the case may be).

SCHEDULE B

FORM OF PRICING SUPPLEMENT

The form of Pricing Supplement that will be issued in respect of each Tranche of Non PR Notes, subject only to the possible deletion of non-applicable provisions, is set out below:

THIS PRICING SUPPLEMENT WILL BE ISSUED IN RESPECT OF NOTES WHICH ARE NOT ADMITTED TO THE OFFICIAL LIST OF THE UK FINANCIAL CONDUCT AUTHORITY OR TO ANY OTHER UNITED KINGDOM REGULATED MARKET OR EUROPEAN ECONOMIC AREA REGULATED MARKET OR OFFERED TO THE PUBLIC IN THE UNITED KINGDOM FOR THE PURPOSES OF THE UK PROSPECTUS REGULATION OR IN THE EUROPEAN ECONOMIC AREA FOR THE PURPOSES OF THE EU PROSPECTUS REGULATION. THE PRICING SUPPLEMENT HAS NOT BEEN REVIEWED OR APPROVED BY THE UK FINANCIAL CONDUCT AUTHORITY AND DOES NOT CONSTITUTE A PROSPECTUS FOR THE PURPOSES OF THE UK PROSPECTUS REGULATION.

PROHIBITION OF SALES TO EEA RETAIL INVESTORS The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); or (ii) a customer within the meaning of Directive (EU) 2016/97 (as amended, the "**Insurance Distribution Directive**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently no key information document required by Regulation (EU) No 1286/2014 (as amended, the "**EU PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the EU PRIIPs Regulation.

PROHIBITION OF SALES TO UK RETAIL INVESTORS The Notes are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the United Kingdom (the "**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018, as amended by the European Union (Withdrawal Agreement) Act 2020 ("**EUWA**"); or (ii) a customer within the meaning of the provisions of the Financial Services and Markets Act 2000 (as amended, the "**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014 as it forms part of domestic law by virtue of the EUWA. Consequently no key information document required by Regulation (EU) No 1286/2014 as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the Notes or otherwise making them available to retail investors in the UK has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

[MiFID II product governance / Professional investors and eligible counterparties only target market –Solely for the purposes of [the Dealer's/the Managers/each relevant Manager's] product approval process as [a] MiFID II [(as defined below)] "manufacturer[s]", the target market assessment completed by the relevant [Dealer/Managers/Manager] in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in [Directive 2014/65/EU (as amended, "**MiFID II**")][MiFID II]; and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (an "**EU distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, an EU distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels. The Issuer is not subject to MiFID II and any implementation thereof by an EU Member State. The Issuer is therefore not a "manufacturer" for the purposes of the MiFID Product Governance Rules under EU Delegated Directive 2017/593 and has no

responsibility or liability for identifying a target market, or any other product governance obligation set out in MiFID II, for financial instruments it issues (including the foregoing target market assessment for the Notes described in this legend).]

[UK MiFIR product governance / Professional investors and eligible counterparties only target market – Solely for the purposes of [the Dealer's/the Managers'/each relevant Manager's] product approval process as [a] UK MiFIR [(as defined below)] "manufacturer[s]", the target market assessment completed by the relevant [Dealer/Managers/Manager] in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is only eligible counterparties as defined in the FCA Handbook Conduct of Business Sourcebook ("**COBS**"), and professional clients, as defined in Regulation (EU) No 600/2014 as it forms part of United Kingdom domestic law by virtue of the EUWA ("**UK MiFIR**"); and (ii) all channels for distribution of the Notes to eligible counterparties and professional clients are appropriate. [*Consider any negative target market*]. Any person subsequently offering, selling or recommending the Notes (a "**UK distributor**") should take into consideration the manufacturer['s/s'] target market assessment; however, a UK distributor subject to the FCA Handbook Product Intervention and Product Governance Sourcebook (the "**UK MiFIR Product Governance Rules**") is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer['s/s'] target market assessment) and determining appropriate distribution channels. The Issuer is not subject to UK MiFIR. The Issuer is therefore not a "manufacturer" for the purposes of the UK MiFIR Product Governance Rules and has no responsibility or liability for identifying a target market, or any other product governance obligation set out in UK MiFIR, for financial instruments it issues (including the foregoing target market assessment for the Notes described in this legend).]
