

ANZ
SUSTAINABLE DEVELOPMENT
GOALS BONDS (UPDATED)

USE OF PROCEEDS REPORT

AS AT 31 MARCH 2025

UPDATED JULY 2026*

***The statement on page 9 of this report has been corrected to say “The proceeds from ANZ’s SDG Bonds on issue have been fully allocated to Eligible and/or Eligible ANZ expenditures which align with **six** of the 11 selected SDGs” consistent with the rest of the report. The original report had incorrectly referred here to “**seven** of the 11 selected SDGs”. No other revisions to the original report have been made.*

Important Notices

1. This document has been prepared by Australia and New Zealand Banking Group Limited (ABN 11 005 357 522) ("**ANZ**") for the information of intended recipients only. This document is intended to be general background information on ANZ's and its affiliates' business current at the date of this document. This document is being given solely for information purposes. The information contained in this document has not been independently verified and no representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or opinions contained herein. All such representations and warranties, express or implied, are excluded to the extent permitted by law.
2. This document does not constitute or form part of and should not be construed as, an offer to sell or issue or the solicitation of an offer to buy or acquire any notes, securities or other financial products ("**Securities**") of ANZ or any other person in any jurisdiction or an inducement to enter into investment activity or to effect any transaction or to conclude any legal act of any kind.
3. The distribution of this document in certain jurisdictions may be restricted by law and persons into whose possession it and any document or other information referred to in it comes should inform themselves about and observe any such restrictions. Any failure to comply with these restrictions may constitute a violation of the securities laws of any such jurisdiction. This document is not directed at, or intended for distribution to or use by, any person or entity that is a citizen or resident or located in any locality, state, country or other jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation or which would require any registration or licensing within such jurisdiction.

Without limiting the foregoing, this document is not for release, publication or distribution in whole or in part in or into the United States of America.

4. The material in this document is not intended to be and should not be relied upon as advice to investors or potential investors and does not take into account the investment objectives, financial situation or needs of any particular investor. These should be considered with professional advice when deciding if an investment is appropriate. This document does not constitute financial product advice. Investors and prospective investors are required to make their own independent investigation and appraisal of the business and financial condition of ANZ, the nature of any Securities and any tax, legal, accounting and economic considerations relevant to an investment in any Securities. All investments entail risk and may result in both profits and losses. Neither ANZ nor any of its affiliates warrant, guarantee or stand behind the performance of any Securities. ANZ and its affiliates shall not have any liability whatsoever (in negligence or otherwise) for any loss howsoever arising from any use of this document or its contents or otherwise arising in connection with the document.
5. The information contained in this document is provided as at the date of this document and is subject to change without notice. Neither ANZ nor any of its affiliates intends or has any duty or obligation to supplement, amend, update or revise any of the information contained in this document, in particular, any forward-looking statements. Further, indications of past performance will not necessarily be repeated in the future and should be treated with appropriate caution.
6. This document may contain forward-looking statements or opinions including statements and opinions regarding ANZ's intent, belief or current expectations with respect to ANZ's business operations, market conditions, results of operations and financial condition, capital adequacy, sustainability objectives or targets, specific provisions and risk management practices and transactions that the ANZ is undertaking or may undertake. Those matters are subject to risks and uncertainties that could cause the actual results and financial position of ANZ to differ materially from the information presented herein. When used in this

document, the words 'forecast', 'estimate', 'goal', 'target', 'indicator', 'plan', 'pathway', 'ambition', 'modelling', 'project', 'intend', 'anticipate', 'believe', 'expect', 'may', 'probability', 'risk', 'will', 'seek', 'would', 'could', 'should' and similar expressions, as they relate to ANZ and its management, are intended to identify such forward-looking statements or opinions. Those statements and opinions are usually predictive in character; or may be affected by inaccurate assumptions or unknown risks and uncertainties; or may differ materially from results ultimately achieved. As such, these statements and opinions should not be relied upon when making investment decisions. There can be no assurance that actual outcomes will not differ materially from any forward-looking statements or opinions contained herein. These statements and opinions only speak as at the date of publication and no representation is made as to their correctness on or after this date. ANZ does not undertake any obligation to publicly release the result of any revisions to these forward-looking statements to reflect events or circumstances after the date hereof to reflect the occurrence of unanticipated events.

7. This document may contain climate-related statements, including in relation to climate-related risks and opportunities, climate-related goals and ambitions, climate scenarios, emissions reduction pathways and climate projections. While the statements were prepared in good faith, climate-related statements are subject to significant uncertainty, challenges and risks that may affect their usefulness, accuracy and completeness, including:
 - *Availability and reliability of data* – emissions and climate-related data may be incomplete, inconsistent, unreliable or unavailable (including information from ANZ's clients), and it may be necessary to rely on assumptions, estimates or proxies where that is the case.
 - *Uncertain methodologies and modelling* – methodologies, frameworks and standards used for calculations of climate-related metrics, modelling and climate data are not universally

applied, are rapidly evolving and subject to change. This may impact the data modelling, approaches, and targets used in preparation of this presentation.

- *Complexity of calculations and estimates* – Estimating financed or facilitated emissions (including allocating emissions to banking activities) and emissions reduction is complex and relies on assumptions and judgments, often made in respect of long periods of time.
- *Changes to climate-related governing frameworks* – changes to climate-related policy, laws, regulations and market practices, standards and developments, including those resulting from legal proceedings and regulatory investigations.
- *Lack of consistency in definitions and climate* – science terminology subject to changes – definitions and standards for climate-related data and assessment frameworks used across industries and jurisdictions may vary, and terminology and concepts relating to climate science and decarbonisation pathways may evolve and change over time. These inconsistencies and changes can also make comparisons between different organisations' climate targets and achievements difficult or inappropriate.
- *Reliance on third parties for data or involvement* – ANZ may need to rely on assistance, data or other information from external data and methodology providers or other third parties, which may also be subject to change and uncertainty. Additionally, action and continuing participation of third parties, such as stakeholders, may be required (including financial institutions and governmental and non-governmental organisations).

Due to these uncertainties, challenges and risks, statements, assumptions, judgments, calculations, estimates or proxies made or used by ANZ may turn out to be incorrect, inaccurate or incomplete. Investors should conduct their own independent analysis and not rely on the information for investment decision-making.

8. This document may contain data sourced from and the views of independent third parties. In replicating such data in this document, ANZ makes no representation, whether express or implied, as to the accuracy of such data. The replication of any views in this document should be not treated as an indication that ANZ agrees with or concurs with such views.
9. ANZ may report and describe in this document certain non-GAAP financial measures of ANZ. Non-GAAP financial measures are not calculated in accordance with International Financial Reporting Standards ("**IFRS**"). Non-GAAP financial measures should be considered in addition to, and not as substitutes for or superior to, financial measures of financial performance or financial position prepared in accordance with IFRS.
10. No assurance is given by ANZ that the use of the net proceeds from any Securities ("**Relevant Proceeds**") will satisfy, whether in whole or in part, any present or future investor expectations or requirements as regards any investment criteria or guidelines with which such investor or its investments are required to comply.
11. There can be no assurance that relevant eligible assets and eligible expenditures will be capable of being implemented in or substantially in such manner and/or in accordance with any timing

schedule or at all or with the results or outcome as originally expected or anticipated by ANZ and, accordingly, there is no assurance that the Relevant Proceeds will be totally or partially allocated to such eligible assets or eligible expenditures.

12. No assurance is given that the use of proceeds will satisfy any present or future investment criteria or guidelines with which an investor is required, or intends, to comply, in particular with regard to any direct or indirect environmental or sustainability impact of any eligible assets and eligible expenditures under ANZ's "ANZ SDG Bond Framework".
13. No assurance or representation is given as to the suitability or reliability for any purpose whatsoever of any opinion, assurance or certification of any third party (whether or not solicited by ANZ) which may be made available in connection with any Securities described in this document and in particular with any eligible assets to fulfil any environmental, sustainability and/or other criteria. For the avoidance of doubt, any such opinion, assurance or certification is not, nor should be deemed to be, a recommendation by ANZ or any other person to buy, sell or hold any Securities, may be subject to revision or withdrawal at any time and would only be current as of the date on which it was initially issued. Investors must determine for themselves the relevance of any such opinion, assurance or certification and/or the information contained therein and/or the provider of such opinion, assurance or certification for the purpose of any investment in any Securities.
14. Information contained in or otherwise accessible through the websites mentioned in this document does not form part of this document.

INTRODUCTION TO ANZ SDG BONDS

This report provides an update to investors as at 31 March 2025 on the use of proceeds of the Australia and New Zealand Banking Group Limited ("**ANZ**") Sustainable Development Goals Bonds ("**SDG Bonds**").

This report should be read in conjunction with the ANZ SDG Bond Framework dated November 2024¹ ("**Framework**"). Undefined capitalised terms have the meaning given in the Framework, unless the context otherwise requires.

As at 31 March 2025, ANZ had on issue four SDG Bonds with an aggregate principal amount of 5.65 billion (AUD equivalent²).

ANZ SDG BONDS ISSUANCE TIMELINE

ANZ has issued, and may, from time to time, issue other bonds, notes or debt securities and use their proceeds of issue to finance or refinance Eligible Assets and /or Eligible ANZ Expenditures ("**Other SDG Securities**"). ANZ may, from time to time, re-allocate or apportion at its discretion Eligible Assets and Eligible ANZ Expenditures among the SDG Bonds and Other SDG Securities.

¹ Version 4 of the ANZ SDG Bond Framework, available here: [sdg-bond-framework-november-2024.pdf](https://www.anz.com/australia-and-new-zealand-banking-group-limited/sustainable-development-goals-bonds-framework)

² For SDG Bonds issued in a currency other than AUD, proceeds are swapped back to AUD at the time of issuance. The AUD proceeds from this swap are recorded as the AUD equivalent proceeds for the SDG Bond.

HISTORICAL VOLUME OF ELIGIBLE ASSETS AND ELIGIBLE ANZ EXPENDITURES AND SDG BONDS (AUD EQUIVALENT)

The following chart shows the total volume (AUD M) of Eligible Assets and Eligible ANZ Expenditures as at 31 March 2025 and as at past reporting periods. 100% of proceeds from ANZ’s SDG Bonds were allocated to Eligible Assets and Eligible ANZ Expenditures at each issuance, and remain fully allocated as at 31 March 2025.

ANZ AND THE SUSTAINABLE DEVELOPMENT GOALS

On 1 January 2016, the United Nations [Sustainable Development Goals](#)³ (“**SDGs**”) came into effect. The 17 goals and 169 targets are aimed at addressing global challenges, including those related to poverty, inequality, climate change and environmental degradation by 2030.

ANZ supports the SDGs and believes that business has an important role to play in their achievement.

In 2019, ANZ became a founding signatory to the [UN Principles for Responsible Banking](#) (the “**Principles**”). Under the Principles, ANZ’s ultimate parent entity, ANZ Group Holdings Limited (ABN 16 659 510 791) (“**ANZGHL**” and, together with its subsidiaries, the “**Group**”) is required to set at least two targets that address ANZGHL’s most significant positive and negative impacts, aligned with the SDGs and the Paris Agreement⁴. Our targets are located in ANZGHL’s 2024 ESG Supplement and set out in ANZGHL’s UN Principles for Responsible Banking Self-Assessment available at anz.com.au/esgreport). ANZGHL has reported the Group’s progress towards implementing the Principles using the Reporting and Self-assessment Index, available in its ESG Data and Frameworks pack at anz.com/esgreport.

As an issuer of SDG Bonds, ANZ demonstrates alignment with the SDGs through use of proceeds and impact reporting, in addition to reporting progress towards implementing the Principles using the Reporting and Self-assessment Index, available in the 2024 ESG Data and Frameworks pack.

Through the ongoing management of the Framework, ANZ continues to develop its strategy to be a leader in the development of green and sustainable capital markets.

ANZ ESG REPORTING

The Group produces a suite of reports to meet the needs and requirements of a wide range of stakeholders including shareholders, customers, employees, regulators, non-government organisations and the community.

The 2024 ESG Supplement, 2024 ESG Data and Frameworks Pack, and 2024 Climate-related Financial Disclosures complement ANZGHL’s 2024 Annual Report and are available at anz.com/esgreport. Details of KPMG’s assurance, including the approach taken and conclusions, is provided within KPMG’s assurance statement on pages 75-76 of the 2024 ESG Supplement, pages 117-119 of the 2024 Climate-related Financial Disclosures and [here](#) for the United Nations Principles for Responsible Banking.

ANZGHL’s ESG Supplement outlines the Group’s purpose and values; approach to ESG governance and risk management; approach to the identification and prioritisation of material issues; stakeholder engagement and ESG targets. It also outlines the Group’s management of material ESG issues aligning with its focus areas of ethics, conduct and culture; environmental sustainability; housing; financial wellbeing; customer experience; information security; as well as other ESG issues that are of interest to ANZGHL’s investors and stakeholders.

³ The SDGs are a collection of 17 non-legally binding, interlinked global goals produced by the UN for countries and governments. The SDGs are included to show how ANZ’s strategy supports the SDGs. ANZ makes no representation, warranty, or assurance of any kind, express or implied and takes no responsibility or liability as to whether ANZ’s strategy furthers the objectives or achieves the purpose of the indicated SDG. Further information on the SDGs can be found at un.org/sustainabledevelopment/. The content of this publication has not been approved by the United Nations and does not reflect the views of the United Nations or its officials or Member States.

⁴ Paris Agreement: A legally binding international treaty on climate change adopted at the UN Climate Change Conference (COP21) in Paris in 2015. Its overarching goal is to hold “the increase in the global average temperature to well below 2°C above pre-industrial levels” and pursue efforts “to limit the temperature increase to 1.5°C above pre-industrial levels”.

ANZGHL's 2024 Climate-related Financial Disclosures describe the Group's progress towards implementing its Climate Change Commitment and how ANZGHL has been supporting customers to date. This lays the foundation for ANZGHL to deliver on its five year Climate and Environment Strategy, approved in October 2024 to support an effective and orderly transition in coming years. See the 2024 Climate-related Financial Disclosures for further details at anz.com/esgreport.

The Climate-related Financial Disclosures are prepared in accordance with the Task Force on Climate-related Financial Disclosures recommendations 2021 (TCFD). ANZ joined the Net-Zero Banking Alliance (NZBA) in 2021 and the 2024 Climate-related Financial Disclosures set out how the Group is taking action in line with our signatory statement.

ANZGHL's 2024 Corporate Governance Statement discloses how it has complied with the recommendations of the Australian Securities Exchange (ASX) Corporate Governance Council throughout the 2024 financial year and is available at anz.com/corporategovernance.

In addition, the five-year Climate and Environment (C&E) Strategy approved by the ANZGHL Board in October 2024, is set out within ANZGHL's [Climate-related Financial Disclosures](#).

ANZ SDG BOND FRAMEWORK

The Framework was developed to align with the International Capital Market Association's ("**ICMA**") Green Bond Principles ("**GBP**"), Social Bond Principles ("**SBP**") and the Sustainability Bond Guidelines ("**SBG**") that were current as at the date of the Framework. The proceeds of the SDG Bonds have been used to finance or refinance assets that align with ANZ's Eligible Categories and that promote any of the 11 SDGs which ANZ selected. ANZ recommends this report be read in conjunction with the Framework, which is available on the ANZ Debt Investor Centre [website](#).

ALLOCATION OF BOND PROCEEDS

The proceeds from ANZ's SDG Bonds on issue have been fully allocated to Eligible Assets and/or Eligible ANZ expenditures which align with six of the 11 selected SDGs. There are no unallocated proceeds.

The following charts illustrate the breakdown of Eligible Assets as at 31 March 2025.

ALLOCATION OF PROCEEDS BY SDG

31 MARCH 2025

Reporting Notes

- The volume of Eligible Assets and Eligible ANZ Expenditures is as at 31 March 2025, and is sourced from ANZ's SDG Bond Asset Register.
- There is no link between the Eligible Assets or Eligible ANZ Expenditures and the SDG Bonds themselves as set out in the pricing supplements for the SDG Bonds, dated 19 August 2020, 27 January 2021, 1 February 2023 and 29 January 2025.
- Figures and percentages related to bond proceeds may not be equal to the stated totals or 100% due to rounding.

		Energy efficiency	Smart meters		
			Electricity connection infrastructure		
	10.2	Socioeconomic advancement and empowerment	Financial education Programs	22.92	0.2%
	11.1, 11.2	Affordable housing	Social and affordable housing	7,381.01	51%
		Affordable basic infrastructure	Lower carbon transportation and supporting infrastructure		
		Clean transportation			
		Green Buildings	Buildings meeting green standards		
Total AUD million				14,465.60	100%

Notes

1. Assurance:

ANZ procured a reasonable assurance report dated 21 January 2025 (the "**EY Assurance**") from Ernst & Young ("**EY**") confirming that, in EY's opinion, ANZ's SDG bond post-issuance process meets in all material respects ICMA's SBG (2021), GBP (2021) and SBP (2023) requirements on use of proceeds, process for project evaluation and selection, management of proceeds and reporting. The EY Assurance was conducted on the contents of the use of proceeds and impact report as at 30 September 2024 and as such does not cover the contents of this report. Assurance is conducted annually and we expect the next assurance will be undertaken for the period ending 30 September 2025.

The EY Assurance can be found on the ANZ Debt Investor Centre [website](#).

2. Undisclosed Borrowers:

Borrower names are not disclosed in the table in the "Use of Proceeds" section of this report due to confidentiality restrictions.

3. Framework

This report has been prepared in accordance with the Framework, published November 2024. The current and preceding versions of the Framework can be found on the ANZ Debt Investor Centre [website](#).

Green Buildings are aligned with "SDG11 Sustainable Cities and Communities" in the Framework, rather than aligned with "SDG9 Industry, Innovation and Infrastructure", as they had been in preceding versions of the Framework.

Investor Feedback

ANZ is committed to transparency of reporting and disclosure in the green, social and sustainability bond market and welcomes investor feedback on the contents of this and future reports.
