# USER GUIDE

As an ANZ Transactive Trade\* company user, you will have the ability to create, edit and authorise transactions within this online application, based on your user credentials. You may also have the ability to create and maintain reference data; view and download reports; customise company specific reports; and create, view and respond to mail messages.

As a company administrator, authoriser or a user with full access, your user profile will require added security. This will be in the form of a VASCO security token as issued by ANZ, or ANZ Digital Key (ADK) which is an app that you can install on your mobile device.

The following guide will assist you in using the system application to meet your company requirements.

## ABOUT THIS GUIDE

\* ANZ Transactive Trade refers to ANZ Transactive Trade, ANZ Transactive APEA and ANZ Online.

This document covers the processing of Documentary Collections for ANZ Transactive Trade users.

It is recommended that users read this document in conjunction with the following guides available on the Trade Resource Central page:

- Trade Terms and Conditions
- User Guide
- File Format Guides
- Administrator Guide
- Processing Trade Transactions
  - *Documentary Collections (this document)*
  - Export Letters of Credit
  - Guarantees
  - Import Letters of Credit
  - Payables and Receivables Guide
  - Settlement Instruction Requests
  - Standby Letters of Credit
  - Trade Loans

## GETTING STARTED

### Trade Instrument Workflow

All ANZ Transactive Trade transactions transition through the following workflow process:

The above steps are described in detail in the following sections.

### Trade Instrument Statuses

As a transaction progresses through the workflow shown above, the status changes to reflect its' progress through the workflow.

Status	Description
<b>Started</b>	The transaction has been created, but not verified
<b>Ready to Authorise</b>	The transaction's data has been verified and the transaction is ready for authorisation
<b>Authorised</b>	The transaction has been authorised by all required authoriser(s). It is waiting for ANZ to process the transaction.
<b>Authorised Failed</b>	The Transaction Authorisation failed the required parameters. This could be the result of the same user attempting to authorise the transaction more than once, when the signing mandate requires multiple authorisers. <b>NOTE:</b> When a user presses the 'Edit Data' button to fix an authorisation problem for the transaction, the status of the transaction returns to 'Started'.
<b>Partially Authorised</b>	Your organisation requires multiple users to authorise each transaction, but not all required users have authorised the transaction yet.
<b>Processed by Bank</b>	ANZ has processed the transaction. The instrument status changes from 'Pending' to 'Active'.
<b>Cancelled by Bank</b>	ANZ has cancelled the transaction either, on behalf of the customer's request; no longer required prior to processing; technical issue, etc.,
<b>Returned by Bank</b>	ANZ has returned the transaction either, on behalf of the customer's request; no longer required prior to processing; requesting further information or documentation; technical issue, etc.,
<b>Deleted</b>	A user in your organisation has deleted the transaction before it was forwarded to ANZ for processing.

## Transaction and Action Buttons

Buttons will be presented to the user and will be dependent on the type of transaction and stage of the process flow. Some buttons will be specific to a user's security profile settings.

Buttons	Description
<b>Add More Documents</b>	Add additional documentation
<b>Add More Lines</b>	Add additional lines to a section to include more information
<b>Add Shipment</b>	Add additional details for multiple shipments
<b>Amendment Application</b>	Complete amendment in a .pdf format
<b>Attach Document</b>	Attach supporting documentation
<b>Authorise</b>	Approve the transaction and send to ANZ for processing
<b>Authorise and Delete</b>	Authorise a discrepancy notice and delete the message from the Mail list view
<b>Close</b>	Close out of the transaction
<b>Copy Instrument</b>	Create an instrument by copying from an existing created transaction
<b>Delete</b>	Delete the started transaction
<b>Download Saved Data</b>	Download the transaction in a .csv format
<b>Edit</b>	Transactions in a Ready to Authorise status can be edited, to correct data, add/delete documentation, etc.,
<b>Guarantee Application Form</b>	Transaction can be downloaded in a .pdf format
<b>LC Application Form</b>	Complete transaction in a .pdf format
<b>Print Settlement Instructions Details</b>	Instructions can be downloaded in a .pdf format
<b>Reply to Bank</b>	Respond to the bank with further instructions on how to manage the transaction or attaching supporting documentation
<b>Route Transaction</b>	Route transactions to another user in the organisation or subsidiary company
<b>Save</b>	Periodically save entered data in transactions and reference data fields
<b>Save &amp; Close</b>	Save and close out of the transaction screen
<b>Send for Repair</b>	A user reviewing the transaction before authorising, can send the transaction back to the initiator to correct the data input
<b>Standby Application Form</b>	Transaction can be downloaded in a .pdf format
<b>Verify Data</b>	Verify the data input in the transaction details fields. The system will return any errors or warnings for missing or inconsistent information. For successfully input data, the transaction will progress to the Ready to Authorise stage
<b>View Terms as Entered</b>	View the input data as entered upon creating and authorising the transaction

# PROCESSING TRADE INSTRUMENTS

## DOCUMENTARY COLLECTIONS

### New Collections

ANZ Transactive Trade can accommodate both Import and Export Documentary Collections. Once a documentary collection has been processed by ANZ, you will receive a notification.

You can view a Documentary Collection activity in one of two ways:

- Notifications, via the Homepage Dashboard or via the Notifications in the banner
- Transaction History

### View a Collection activity from the Notifications option

Steps	Action
1.	Select the Notifications (speech bubble) icon from the banner or the scroll to the Notifications options on the Homepage Dashboard
2.	Select the transaction for the collection instrument type
3.	Select the Collection Schedule (Import) or Collection Acknowledgement (Export) from the Documents section to view the details of the Documentary Collection

The screenshot shows the ANZ Transactive ACME Trading Company interface. The top navigation bar includes the ANZ logo, company name, and user information (John Citizen, Last Sign-In: 02 June 2020 at 03:04:33 AEST). The main navigation menu includes options like New Instruments, Transactions, Reports, Reference Data, Upload Centre, and Subsidiary Access. The Notifications icon in the top right is highlighted with a red box. The Notifications section is also highlighted with a red box. Below it, a table displays two transactions:

Date & Time	Instrument ID	Reference	Instrument Type	Transaction	Party	CCY	Amount
04 Jun 2020 04:23 PM	CO2367323073	OUTWARD 1	Export Collection	Issue	ACME Third Degree Trading	USD	25,000.00
04 Jun 2020 04:16 PM	CI2409093073	INWARD 1	Import Collection	Collect	ACME Third Degree Trading	USD	20,000.00
