SUMMARY - 2024 FIRST QUARTER (1Q24)

ANZ performance (1Q24 vs 1H23 quarterly average)	 1Q24 Group revenue was in line with the First Half FY23 quarterly average (1H23QA \$5.26b) with Non-Markets revenue broadly in line with the First Half FY23 average (1H23QA \$4.69b), assisted by growth in average interest earning assets The Institutional Division's Markets business had a good start to the year with revenues a little better than the First Half FY23 average (1H23QA \$575m) ANZ has demonstrated a proven ability over many years to manage our expenses well and while facing into ongoing inflationary pressures, we continue to execute on productivity initiatives to partially offset these headwinds Lending growth remains robust across our Australia Retail and Commercial franchises. Our investment in home loan processing capability and capacity and improved broker experience is providing ongoing benefits. We are continuing to grow our Australian Home Loan book profitably by continuing to offer reliable turnaround times, and in line with that we are competitive but not market leading on pricing. Lending growth was substantially self funded across both Divisions by deposits Our long-term focus on high quality customer selection and prudent risk appetite means credit quality remains strong, with the total provision charge of \$53m (for comparison to prior periods see slide 10) 	
Capital (at 31 Dec 23)	 APRA Level 2 CET1 ratio 13.06% or 11.86% on a pro forma basis (excludes Capital being held for the SUN acquisition and NOHC surplus capital) The December CET1 includes the impact of the FY23 dividend, paid in December 2023 (Slide 3) 	3
