IMPORTANT INFORMATION

FORWARD-LOOKING STATEMENTS

The material in this presentation contains general background information about the Group's activities current as at 12 November 2023. It is information given in summary form and does not purport to be complete.

It is not intended to be and should not be relied upon as advice to investors or potential investors, and does not take into account the investment objectives, financial situation or needs of any particular investor. These should be considered, with or without professional advice, when deciding if an investment is appropriate.

This presentation may contain forward-looking statements or opinions including statements regarding our intent, belief or current expectations with respect to the Group's business operations, market conditions, results of operations and financial condition, capital adequacy, sustainability objectives or targets, specific provisions and risk management practices. When used in the presentation, the words 'forecast', 'estimate', 'goal', 'target', 'indicator', 'plan', 'pathway', 'ambition', 'modelling', 'project', 'intend', 'anticipate', 'believe', 'expect', 'may', 'probability', 'risk', 'will', 'seek', 'would', 'could', 'should' and similar expressions, as they relate to the Group and its management, are intended to identify forward-looking statements or opinions. Those statements are usually predictive in character; or may be affected by inaccurate assumptions or unknown risks and uncertainties or may differ materially from results ultimately achieved. As such, these statements should not be relied upon when making investment decisions. These statements only speak as at the date of publication and no representation is made as to their correctness on or after this date. Forward-looking statements constitute 'forward-looking statements' for the purposes of the *United States Private Securities Litigation Reform Act of 1995*. The Group does not undertake any obligation to publicly release the result of any revisions to these forward-looking statements to reflect events or circumstances after the date hereof to reflect the occurrence of unanticipated events.

It also contains climate-related statements. Those statements should be read with the important notices in relation to the uncertainties, challenges and risks associated with climate-related information included at the end of this presentation pack.

VERSION HISTORY

Version	Date issued	Brief outline of change
1.0	13 November 2023	Version for publication
1.1	19 August 2024	Change: Restated Transport sub-sector aviation pathway as outlined in footnote on page 142

2023 FULL YEAR RESULTS

SHAYNE ELLIOTT

CHIEF EXECUTIVE OFFICER

Our purpose
is to shape a world where
people and communities
thrive

GROUP FINANCIAL RESULTS

	FY23	vs FY22
Statutory profit, \$ million	7,098	Flat
Cash Profit Continuing operations, \$ million		
Revenue	20,893	+13%
Cash Profit	7,405	+14%
Return on equity, %	10.9%	+54 bps
Earnings per share - basic, cents	247.1	+8%
Dividend per share¹, cents	175	+29 cents
NTA per share, \$	21.78	+5%
APRA Level 2 CET1 ratio, %	13.3	+105 bps
Collective Provision balance, \$b	4.03	+5%

1. Interim dividend of 81 cents, fully franked and final dividend of 94 cents, partially franked at 56%. The final dividend comprised an 81 cents dividend partially franked at 65% and an additional one-off unfranked dividend of 13 cents

ALL FOUR MAJOR DIVISIONS CONTRIBUTED TO A STRONG FY23 RESULT

Basis: Cash profit continuing operations

1. Australia Retail, Australia Commercial, Institutional & New Zealand represent 77% of Group capital with the balance of capital held in Pacific and Group Centre (including Asia Partnerships, Suncorp Bank acquisition and Non Bank Group)
2. Australia Retail ROE excludes ANZ Plus investment spend

Customer with a Savings Goal

Lower cost

More efficient, highly automated

Cost to Acquire

Cost to Serve¹

1. Variable costs include distribution, operations and product costs

AUSTRALIA COMMERCIAL – 26% ROE

Commercial customer contribution

- ~25% of total group revenue¹
- ~56% of customers have a Retail product
- Over 60% of Transactive Global users are Commercial customers

Commercial innovation

- ~25% reduction in Time to Yes & Time to Money²
- ~95% increase in digital account openings²
- ANZ Worldline³ launched Tap to Pay on iPhone

Commercial strength

- ~\$1.80 in deposits for every \$1.00 in loans
- ~81% of exposures fully are secured
- Return on RWA 7.17%, up 102bps

Momentum in Digital Solution

GoBiz Applications & Drawn FUM, Index Sep 22 = 100

Growth Rates FY23 vs FY22 / Sep 23 vs Sep 22

1. Including Commercial customer revenue in Institutional and Retail
2. Refers to Small Business Banking
3. ANZ and Worldline hold 49% and 51% interest respectively

NEW ZEALAND – 16% ROE¹

Market strength

- #1 market position in New Zealand, incl. Home Loans, Agri and Funds Management (KiwiSaver)
- Canstar Bank of the Year for Small Business
- Canstar Bank of the Year for Agriculture

Digital capability

- ~1.7m digitally active customers, up 5%
- ~81% of deposits² opened digitally
- ~1.2m customers are registered for Voice ID, up 13%

Well diversified and well managed

- Housing, Business & Agri portfolio diversification
- Completed BS11 project
- 0 bps avg loss rate in FY21 to FY23

Long term improvement in efficiency

Cost to income ratio %

'SCAM SAFE' FOR ANZ PLUS

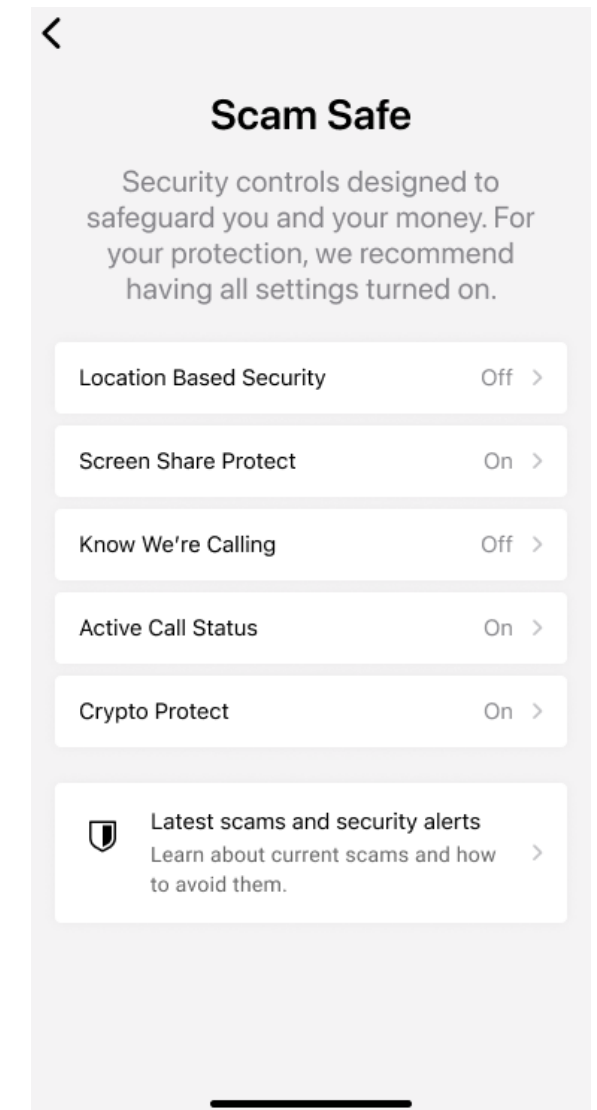

A suite of extra security controls for ANZ Plus

Greater control to customers, including permissions around use of their data to help detect fraud and scams

Education on related threats and how data is used to protect them

Controls around cryptocurrency exchange payments

Features expected to be made available progressively from mid November 2023

AUSTRALIA ECONOMY

GLOBAL TRENDS

Major trends

- Greater demands on government, more government debt
- Resilient corporate balance sheets
- Changing political structures
- More complex domestic and global politics
- Advances in technology and the advent of AI
- Acceleration of climate change, biodiversity and sustainability
- Ageing population
- Housing affordability

Challenges arising

- Heightened community expectations of business and government
- Government fiscal prioritisation
- Funding requirements (energy transition, infrastructure, defense)
- Competition for resources keeping asset prices and inflation high
- Rapid changes to workforce composition
- Intergenerational wealth transfers
- Higher interest rates for longer
- Hyper connectivity leads to faster and amplified reactions to events

CONSISTENT APPROACH

PRIORITIES ESTABLISHED 7 YEARS AGO REMAIN RELEVANT

1. Creating a simpler,
better balanced bank

2. Focusing on areas
where we can win

3. Building a superior everyday
experience to compete in the digital age

4. Driving a purpose and values led
transformation

FY24 PRIORITIES

1.

Continue to run
the Group
prudently

2

Further improve
productivity

3.

Grow ANZ Plus
customers,
deepen
engagement

4.

Invest more in
Commercial
strategy

5.

Further enhance
Sustainability,
Payments &
Currency
platforms

6.

Complete the
acquisition of
Suncorp Bank

DIVERSIFIED BUSINESS DELIVERING FOR OUR STAKEHOLDERS

2023 Full Year Performance

1. Gross Interest Income less interest expense paid to customers and fixed income investors. Divisional Net Interest Income shown prior to deduction of Major Bank Levy

2023 FULL YEAR RESULTS

FARHAN FARUQUI

CHIEF FINANCIAL OFFICER

OVERVIEW

FY23 Financial Performance

	FY23	vs FY22
Cash Profit	\$7.4b	+14%
Return on Equity	10.9%	+54bps
Risk Adj. Margins ¹	5.19%	+76bps

Balance Sheet

Customer Deposits	\$647b	+4%
Net Loans & Advances	\$707b	+5%
Collective Provision Balance	\$4.0b	+5%

Capital, Funding & Liquidity

CET1 Capital Ratio (Sep 23)	13.3%	+105bps
FY23 Term Wholesale Funding	\$37b³	+\$21b
NSFR	116%	-3%
LCR (2 nd half avg)	132%	+3%

Full Year Highlights, FY23 vs FY22

Revenue growth	+13%
Revenue growth across all major divisions	+4% to +26%
Met cost guidance ²	+5%
Low loss rate (FY23 Individual provision loss rate)	1 bp

Second Half Highlights

Revenue growth (2H23 vs 2H22)	+8% (+6% ex. Markets ¹)
Consistent revenue performance (2H23 vs 1H23)	-2% (+0.3% ex. Markets ¹)
Cost management (2H23 vs 1H23) ²	Flat
Total Shareholder Returns (6 months to 30 Sep 23)	16%

Basis: Cash profit continuing operations

1. Excludes Markets Business Unit
2. FX adjusted, excluding large / notable items
3. Excludes an additional \$3b of funding issued for FY24

FY23 CAPITAL ALLOCATION AND RETURN PROFILE

1. Group ROE reflects regulatory capital requirements of every division together with capital held in Pacific and Group Centre (including Asia Partnerships, Suncorp Bank acquisition and Non Bank Group)

2. Retail ROE presented excludes ANZ Plus investment spend

3. Subset of total Group profit. Excludes Profit / (Loss) from operations undertaken in Pacific and Group Centre

4. 4 year CAGR presented at a divisional level due to re-segmentation between Personal and Business and Agri in FY22

SHAREHOLDER RETURNS

Basis: Cash profit continuing operations

OPERATING INCOME

Basis: Cash profit continuing operations

1. Excludes Markets income (Markets Business Unit)
2. Excludes Markets income, Divestments and Other
3. Includes business divestments / closures (including ANZ Worldline partnership – gain on completion of the partnership arrangement in FY22) and property rationalisation, as detailed on pages 14-16 of ANZ Full Year 2023 Financial Report
4. Other includes realised gains on economic hedges, valuation adjustments from investments, and gains on sale of government securities in FY22

CUSTOMER DEPOSITS¹

Retail & Commercial

Australia Retail, \$b

Australia Commercial, \$b

New Zealand Division, \$b

Institutional

ANZ'S PARTNERSHIP WITH WORLDLINE

DELIVERING MARKET LEADING MERCHANT PLATFORM AND LAUNCHING TAP TO PAY

Partnership with Worldline

- Joint Venture with Worldline, a world class payments provider
- Provides ANZ small business, commercial and institutional customers in Australia with access to market-leading point-of-sale and online payment technology
- ANZ and Worldline hold 49% and 51% interest respectively

Deployment of market leading merchant platform

- New platform deployed in April 2023
- New customers onboarded with flexible customer led pricing options including fixed price bundled packages
- Customer migration from ANZ's platform to the new platform underway

Launched Tap to Pay on iPhone

- Launched in September 2023
- Allows Apple iPhone to accept contactless card payments using the Worldline Tap on Mobile app
- Simple application/onboarding experience with ability to transact the same day
- Leveraging built in features of the iPhone to keep businesses' and customer's data private and secure

Enabled Payments through Alipay+ and WeChat Pay

- Launched in September 2023
- Allows Apple iPhone to accept contactless card payments using the Worldline Tap on Mobile app
- Enabled through a single Worldline Move 5000 Eftpos terminal
- No additional hardware or payment terminal needed

INSTITUTIONAL – MARKETS INCOME COMPOSITION

Basis: Continuing Operations including Large / Notable items

CONSISTENCY OF MARKETS INCOME

Markets historical monthly income, \$m

Historical monthly revenue distribution (FY15-FY23)

Characteristics of monthly income distribution

- FY23 revenues were consistent with long run through-the-cycle performance expectations for the Markets business.
- Over the last 9 years, monthly revenue has followed close to a normal distribution, with average monthly income of ~\$170m and a standard deviation of ~\$48m. This stability is driven by a set of "core" customers who deal with ANZ Markets on a regular basis and across multiple geographies and products. This provides important diversification benefits to Group revenues.
- Franchise Income tends to be higher during periods that exhibit moderate levels of market volatility, and where market risks broadly follow directional trends. Moderate volatility encourages customer activity, while directional trends provide opportunities from more consistent trading revenues.
- Such conditions typically arise in traditionally "risk off"¹ environments but can also arise in the context of more positive sentiment as was generally the case in 1H23.
- The positive sentiment and directional trends of 1H23 were partially offset by less-directional trading conditions and plateauing interest rates in 2H23.

1. A risk-off environment is broadly defined as one where credit spreads widen, risk-free bond yields fall, equities sell off, volatility increases, and USD strengthens

ANZ GROUP CAPITAL

ANZ Group Capital Composition, \$b

- There is no material impact to capital ratios in ANZ Bank Group under the NOHC structure as the majority of Group capital remained in ANZ Bank Group. The ANZ Bank Group's capital requirements will continue to be determined by existing APRA requirements applied to ADIs
- ANZ Non-Bank Group capital is assessed by using an economic capital model (ECM). The Non-Bank Group is meeting APRA requirements of holding capital equivalent to or greater than the economic requirements

ANZ Bank Group Key Capital Ratios (%)	Sep 22	Mar 23 ¹	Sep 23 ¹
Level 2 CET1 capital ratio	12.3	13.2	13.3
Level 2 CET1 HoH mvmt	+76 bps	+89 bps	+16 bps
Level 2 CET1 capital ratio (pro forma for Suncorp Bank)	~11.1	~12.0	~12.1
Additional Tier 1 capital ratio	1.7	1.9	1.9
Tier 1 capital ratio	14.0	15.1	15.2
Tier 2 capital ratio	4.2	5.5	5.8
Total regulatory capital ratio	18.2	20.6	21.0
Leverage ratio	5.4	5.3	5.4
Risk weighted assets	\$454.7b	\$435.5b	\$433.3b
Level 1 CET1 capital ratio	12.0	12.9	13.2
Level 1 CET1 HoH mvmt	+94 bps	+90 bps	+28 bps
Level 2 vs Level 1 mvmt	-18 bps	-1 bps	-12 bps
Level 1 risk weighted assets	\$392.0b	\$370.4b	\$367.1b
Internationally comparable ratios ² (%)			
Leverage ratio	6.1	5.9	6.0
Level 2 CET1 capital ratio	19.2	19.4 ³	19.7

1. Mar 23 and Sep 23 capital balances include APRA Capital Reform updates which impact the calculation of credit RWA and operational RWA

2. Mar 23 and Sep 23 Internationally Comparable methodology aligns with The Australian Banking Association BASEL 3.1 Capital Comparison Study (Mar 2023). Sep 22 Internationally Comparable methodology aligns with APRA's information paper entitled 'International Capital Comparison Study' (13 July 2015).

3. March 2023 International capital ratios have been restated following a revision to the March 2023 International RWA from \$341.8 billion to \$334.4 billion

REGULATORY CAPITAL – 2H23 UPDATE

ANZ Bank Group Capital update

- Level 2 CET1 ratio of 13.3% (19.7% on an Internationally Comparable basis¹) or ~12.1% on a pro forma basis including Suncorp Bank acquisition and surplus capital in NOHC. This is above APRA's expectation of an 11% - 11.5% operating range
- RWA growth in 2H23 mainly reflects higher CRWA from Australia Retail division; partially offset by a reduction in Traded Market Risk RWA
- Leverage ratio of 5.4% (or 6.0% on an Internationally Comparable basis)
- Level 1 (L1) CET1 ratio of 13.2% or ~12.6% pro forma for the Suncorp Bank acquisition and surplus capital in the NOHC

ANZ Group Dividend

- Final dividend comprising an 81 cents per share dividend partially franked at 65% and an additional one-off unfranked dividend of 13 cents per share (total of 94 cents per share, 56% franked).

Regulatory update

- APRA's Additional Tier 1 Discussion paper was released in September and submissions are due on 15 November 2023
- ANZ is on track with RBNZ capital reform transition, including issuance of RBNZ compliant capital securities
- ANZ's current Tier 2 ratio is 5.8%, in excess of APRA's 1 January 2024 interim target of 5.0%, and well placed to meet the finalised Tier 2 capital requirement of 6.5% of RWA by 1 Jan 2026

APRA Level 2 Common Equity Tier 1 (CET1) ratio – 2H23 Movement, %

1. Internationally Comparable methodology aligns with The Australian Banking Association BASEL 3.1 Capital Comparison Study (Mar 2023)

REGULATORY CAPITAL – RISK WEIGHTED ASSETS

INTERNATIONALLY COMPARABLE¹ REGULATORY CAPITAL POSITION

Level 2 capital ratio (APRA vs internationally comparable)², %

APRA Level 2 CET1 Ratio – 30 September 2023		13.3%
Residential Mortgages	APRA requires cohort specific multipliers (i.e. 1.4x for Owner Occupier Principal and Interest & 1.7x for all Other mortgage types) and other adjustments that are not imposed by Basel	+ 1.3%
IRB Scaling Factor	APRA requires a scaling factor of 1.1 times for all Risk Weighted Assets, unlike Basel	+ 0.9%
New Zealand Exposures	APRA requires the use of Reserve Bank of New Zealand (RBNZ) capital rules to calculate the Credit Risk Weighted Assets for all New Zealand subsidiary credit exposures, which are generally more conservative than the Basel rules	+ 1.0%
Equity Investments & DTA	APRA requires 100% deduction from CET1, unlike Basel	+ 0.9%
IRRBB RWA	APRA includes IRRBB in Pillar 1 RWA, which is not a requirement under Basel	+ 1.1%
Non-Retail Loss Given Default	APRA specifies non-retail LGDs that are lower than Basel for sovereigns (5% or 25%) and critical infrastructure operators (25%), but higher for other general corporate exposures (50%)	+ 0.6%
Other Risk Weighted Assets	Includes impact of reversing APRA required 1.5x scalar for IPRE exposures and conservative supervisory slotting risk weights for project, object and commodity finance	+ 0.3%
Other Capital	Includes impact of reversing APRA required deductions from CET1 for capitalised expenses & deferred fee income	+ 0.3%
Basel III Internationally Comparable CET1 Ratio - 30 September 2023		19.7%

- Sep 23 and Mar 23 Internationally Comparable methodology aligns with The Australian Banking Association BASEL 3.1 Capital Comparison Study (Mar 2023). Sep 22 Internationally Comparable methodology aligns with APRA's information paper entitled 'International Capital Comparison Study' (13 July 2015)
- Sum of individual capital ratios may not be equal to Total Capital ratio due to rounding
- March 2023 International capital ratios have been restated following a revision to the March 2023 International RWA from \$341.8 billion to \$334.4 billion

BALANCE SHEET STRUCTURE¹

NSFR movement, %

Balance sheet composition, Sep 23

NSFR Composition, Sep 23 \$b

1. NSFR Required Stable Funding (RSF) and Available Stable Funding (ASF) categories and all figures shown are on a Level 2 basis per APRA prudential standard APS210

2. Includes Securities, Derivatives, Other Assets and net FX impacts

3. 'Other' includes Sovereign, and non-operational FI Deposits

4. 'Other' include Off Balance Sheet, Derivatives, and Fixed Assets

5. Includes FI/Bank deposits, Repo funding and other short dated liabilities

6. Includes Central Bank Term Funding (RBA TFF, RBNZ FLP/TLF)

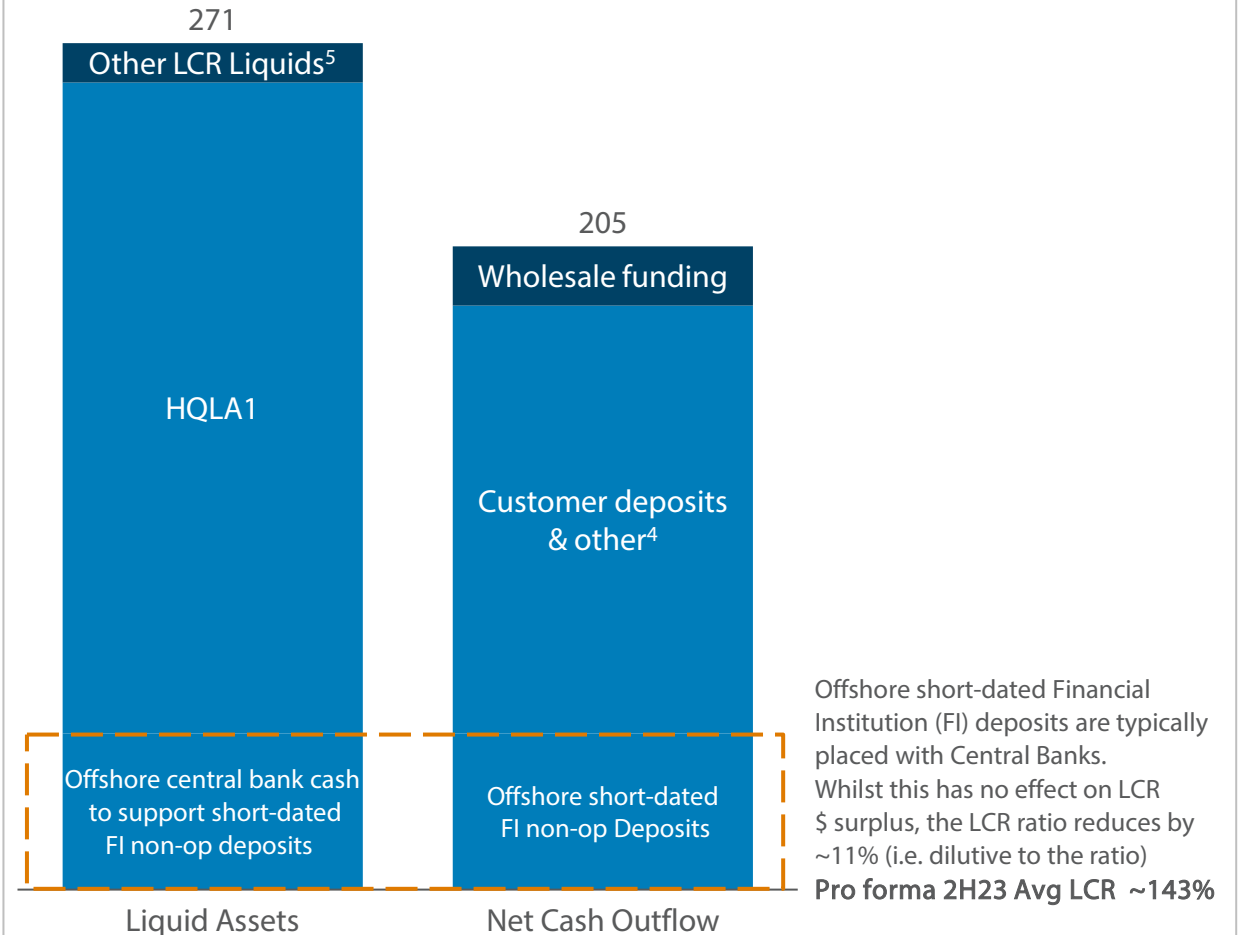

LIQUIDITY COVERAGE RATIO (LCR) SUMMARY¹

Movement in average LCR surplus², \$b

LCR composition, Average 2H23 \$b

1. All figures shown on a Level 2 basis as per APRA Prudential Standard APS210
2. LCR surplus excludes surplus liquids considered non-transferrable across the Group. As at 30 September 2023, this included \$14b of surplus liquids held in New Zealand
3. ANZ CLF has decreased to zero as of 1 January 2023
4. 'Other' includes off-balance sheet and cash inflows
5. Comprised of HQLA2 and Alternative Liquid Assets (ALA)

TERM WHOLESALE FUNDING PORTFOLIO¹

1. All figures based on historical FX and exclude AT1. Includes transactions with an original call or maturity date greater than 12 months as at the respective reporting date. Tier 2 maturity profile is based on the next callable date

TERM WHOLESALE FUNDING ISSUANCE¹

ANZ has access to a diverse range of wholesale funding

- FY23 term funding issuance of \$40b included ~\$3b of FY24 pre-funding
- ANZ has been able to take advantage of the growing domestic market, issuing ~\$19b of AUD & NZD debt in FY23, including a \$5.5b transaction in September 2023, the largest non-government AUD transaction
- ANZ expects FY24 funding needs of \$30-35b
- ANZ's future term funding issuance depends on market conditions, balance sheet needs and exchange rates, amongst other factors
- Total term wholesale funding outstanding (as at 30 September 2023) of ~\$114b (including TFF) has increased by 5% since September 2016

A growing domestic market drives larger benchmark deals

Average AUD senior unsecured benchmark deal size², \$b

ANZ has modest FY24 Term Funding Facility (TFF) maturities

\$b

The domestic market is ANZ's primary source of funding

Annual issuance by currency, A\$b

1. All figures based on historical FX and exclude AT1. Includes transactions with an original call or maturity date greater than 12 months as at the respective reporting date. Tier 2 maturity profile is based on the next callable date

2. Source: Bloomberg Peers include NAB, WBC and CBA

TOTAL LOSS-ABSORBING CAPACITY (TLAC) PROFILE¹

ANZ is well placed to meet APRA's final TLAC requirements

- ANZ's current Tier 2 ratio is 5.8%, in excess of APRA's 1 January 2024 Interim Target of 5.0%, and well placed to meet the finalised Tier 2 capital requirement of 6.5% of RWA by 1 January 2026
- Suncorp Bank related RWA requires ~\$2b of additional Tier 2 TLAC requirements by 1 January 2026
- ANZBGL has issued \$20.9b of Tier 2 since July 2019 across AUD, EUR, GBP, JPY, SGD and USD
- ANZBGL expects FY24 Tier 2 requirements of ~\$6b (inclusive of Suncorp Bank requirements)
- A growing proportion of Tier 2 is being issued in domestic markets (39% of total Tier 2 issuance in FY23)
- In addition to ANZBGL TLAC, ANZ NZ has modest Tier 2 requirements of 2% of ANZ NZ RWA by 2028 under RBNZ requirements. ANZ NZ's current Tier 2 ratio is 1.4%
- All Tier 2 calls remain subject to APRA approval
- APRA's Additional Tier 1 (AT1) Discussion paper was released in September and submissions are due on 15 November 2023

Tier 2 capital, Notional amount %

AT1 First Call date profile², Notional amount A\$b

Tier 2 capital amortisation profile³, \$m

1. Profile is AUD equivalent based on historical FX, excluding Perpetual Floating rate notes issued 30 October 1986, ANZ NZ \$600m floating rate notes issued September 2021 and ANZ NZ USD\$500m fixed rate notes issued August 2022. Comprises Tier 2 capital in the form of capital securities only (i.e. does not include other Tier 2 capital such as eligible General reserve for impairment of financial assets)
2. Profile is AUD equivalent based on historical FX. AT1 securities profiled to the first optional redemption date. No redemption may be made without the prior written approval of APRA. Approval is at the discretion of APRA and may or may not be given. There can be no certainty that APRA will provide its prior written approval for any such redemption. Holders should not expect that APRA's approval will be given for any redemption if requested by ANZ
3. Amortisation profile is modelled based on scheduled first call date for callable structures and in line with APRA's amortisation requirements for bullet structures

Total Group EAD¹	\$1,152b	\$1,163b			\$1,521m

1. EAD excludes amounts for 'Securitisation', and for 'Other assets' prior to March 2023 (included from March 2023 due to the implementation of APRA's new capital framework), whereas CRWA is inclusive of these asset classes, as per APS 330. EAD data provided is on a Post CRM basis, net of credit risk mitigation such as guarantees, credit derivatives, netting and financial collateral.
2. Excludes unsecured retail products which are 90+ DPD and treated as Impaired for APS330 reporting.

COMMERCIAL PROPERTY – SEGMENTS OF INTEREST

Outstandings by region, GLA \$b

Outstandings by sector, %

COMMERCIAL PROPERTY – SEGMENTS OF INTEREST

Commercial property collateral^{1,2}, %

Portfolio growth

- Predominately in Australia across a diversified portfolio of lending segments

Portfolio quality

- ~80% of exposures well secured
- >95% of unsecured exposure to investment grade customers, supported by diversified investment grade REITs or assets with stronger fundamentals, stable earnings profile, and low gearing
- International portfolio remains stable with exposure predominately to large, well rated names in Singapore and Hong Kong (SAR)

Portfolio approach

- ANZ exposure to office sector is predominantly Premium / A Grade (investment grade). Secondary (B&C grade) office exposure ~\$1.8b (2.7% of portfolio) with strong sponsor recourse, cross-collateralisation, and moderate gearing
- Residential development strategy is to support existing customers and grow selectively. These are experienced sponsors with technical capability and a track record of delivery. Strong developer and contractor selection is a well-entrenched discipline in the business
- Contractor risk remains high but ANZ's direct exposure to the sector is limited. Portfolio is comprised of larger exposures that are well secured and diversified smaller exposures

1. Commercial property collateral distribution based on limits (includes drawn and undrawn exposures)

2. Fully Secured: loan amount ≤100% of extended security value; Partially Secured: loan amount >100% of the extended security value

AUSTRALIA HOME LOANS – PORTFOLIO RESILIENCE

Fixed rate Home Loan expiry profile, \$b

For new ANZ fixed rate loans, serviceability is assessed as:

- if the standard variable rate (less customer discount) plus the 3% serviceability buffer is higher than the customer fixed rate, then the higher of the standard variable rate (less customer discount) plus the 3% serviceability buffer and the floor rate which is currently 5.1%
- else the higher of the customer fixed rate plus the 3% serviceability buffer and the floor rate which is currently 5.1%

ANZ flow borrowing capacity¹, FY23

30+ DPD at September 23 by fixed rate expiry month

The chart reflects the 30+ DPD as at Sep 23 for all fixed rate loans that expired in the specified month e.g. the 30+ DPD as at Sep 23 for all fixed rate loans that expired in Oct 22 is 0.7%

1. Majority of lending 'at capacity' is bridging finance while 'minimal capacity' reflects the proportion of customers with a borrowing capacity of less than \$50 of uncommitted monthly income (UMI). Borrowing capacity is determined after income and expense buffers and shading are applied, and based on verified income only therefore the customer's actual borrowing capacity will be higher than what is reflected in the chart

AUSTRALIA HOME LOANS – BOOK ORIGINATED AND ATTRIBUTES

ANZ interest rate buffer & floor

Home loan applications are assessed at the greater of the customer interest rate plus the interest rate buffer or an interest rate floor

	Feb 20	Feb 21	Nov 21	Current
Floor	5.25%	→ 5.1%	→	→
Buffer above customer rate	+2.5%	→	+3.0%	→

90+ DPD as a % of total portfolio balances⁵

1. Accounts with missing assessed rate information are grouped into customer rate \leq assessed rate based on the assumption that the assessed rate used in the mortgage assessment stage to account for borrower’s ability to repay at origination should be higher than the current interest rate

2. Buffers are calculated at customer level, incorporating all Retail debts within the customer cluster at ANZ, and all funds available in ANZ redraw, offset and transaction and savings accounts

3. Uncommitted monthly income (UMI) is determined after income and expense buffers and shading are applied, and based on verified income only

4. Includes Non Performing Loans. ANZ delinquencies are calculated on a missed payment basis for amortising and Interest Only loans. Australia Home Loans 90+ between Mar-20 and Jun-20 excludes eligible Home Loans accounts that had requested COVID-19 assistance but due to delays in processing had not had the loan repayment deferral applied to the account

CORPORATE PROFILE

CORPORATE PROFILE

ANZ traces its origins to the Bank of Australasia, which opened its first office in Sydney in 1835. The bank established a Melbourne office in 1838, where ANZ's world headquarters is located today at 833 Collins Street, Melbourne

- ANZ is a publicly listed company and was incorporated on 14 July 1977 in Australia. ANZ Group Holdings Limited is the main holding and operating company for the Group and our registered office is ANZ Centre, Level 9, 833 Collins Street, Docklands, Victoria, Australia
- ANZ is one of the top ten largest listed companies in Australia by market capitalisation, one of four major banks in Australia and the largest bank in New Zealand (by market share & total assets)
- ANZ operates in 29 markets across Australia, New Zealand, Asia, Pacific, Europe, America and the Middle East

Our purpose is to shape a world where people and communities thrive

Overview¹

ANZ Employees & Customers

- More than 40,000 ANZ people across 29 markets
- ~9.5m customers across Retail, Commercial and Institutional

ANZ Balance Sheet

- Total assets of \$1,106b, with \$707b in net loans and advances
- Total liabilities of \$1,036b, with \$647b in customer deposits

ANZ Ownership

- Market capitalisation of \$77b; 531k shareholders
- Retail shareholding: ~43% of ANZ's issued capital
- Institutional shareholding: ~57% of ANZ's issued capital

OUR PURPOSE & STRATEGY

Our purpose is to shape a world where people and communities thrive

It explains 'why' we exist and drives everything we do at ANZ, including the choices we make each day about those we serve and how we operate.

We bring our purpose to life through our strategy; to improve the financial wellbeing and sustainability of customers through excellent services, tools and insights that engage and retain them, and help positively change their behaviour.

Through our purpose we have elevated areas facing significant societal challenges aligned with our strategy and our reach which include commitments to:

- Improving the financial wellbeing of our people, customers and communities by helping them make the most of their money throughout their lives;
- Supporting household, business and financial practices that improve environmental sustainability;
- Improving the availability of suitable and affordable housing options for all Australians and New Zealanders

In particular, we want to help customers:

Save for, buy and own a liveable home

Start or buy and sustainably grow their business

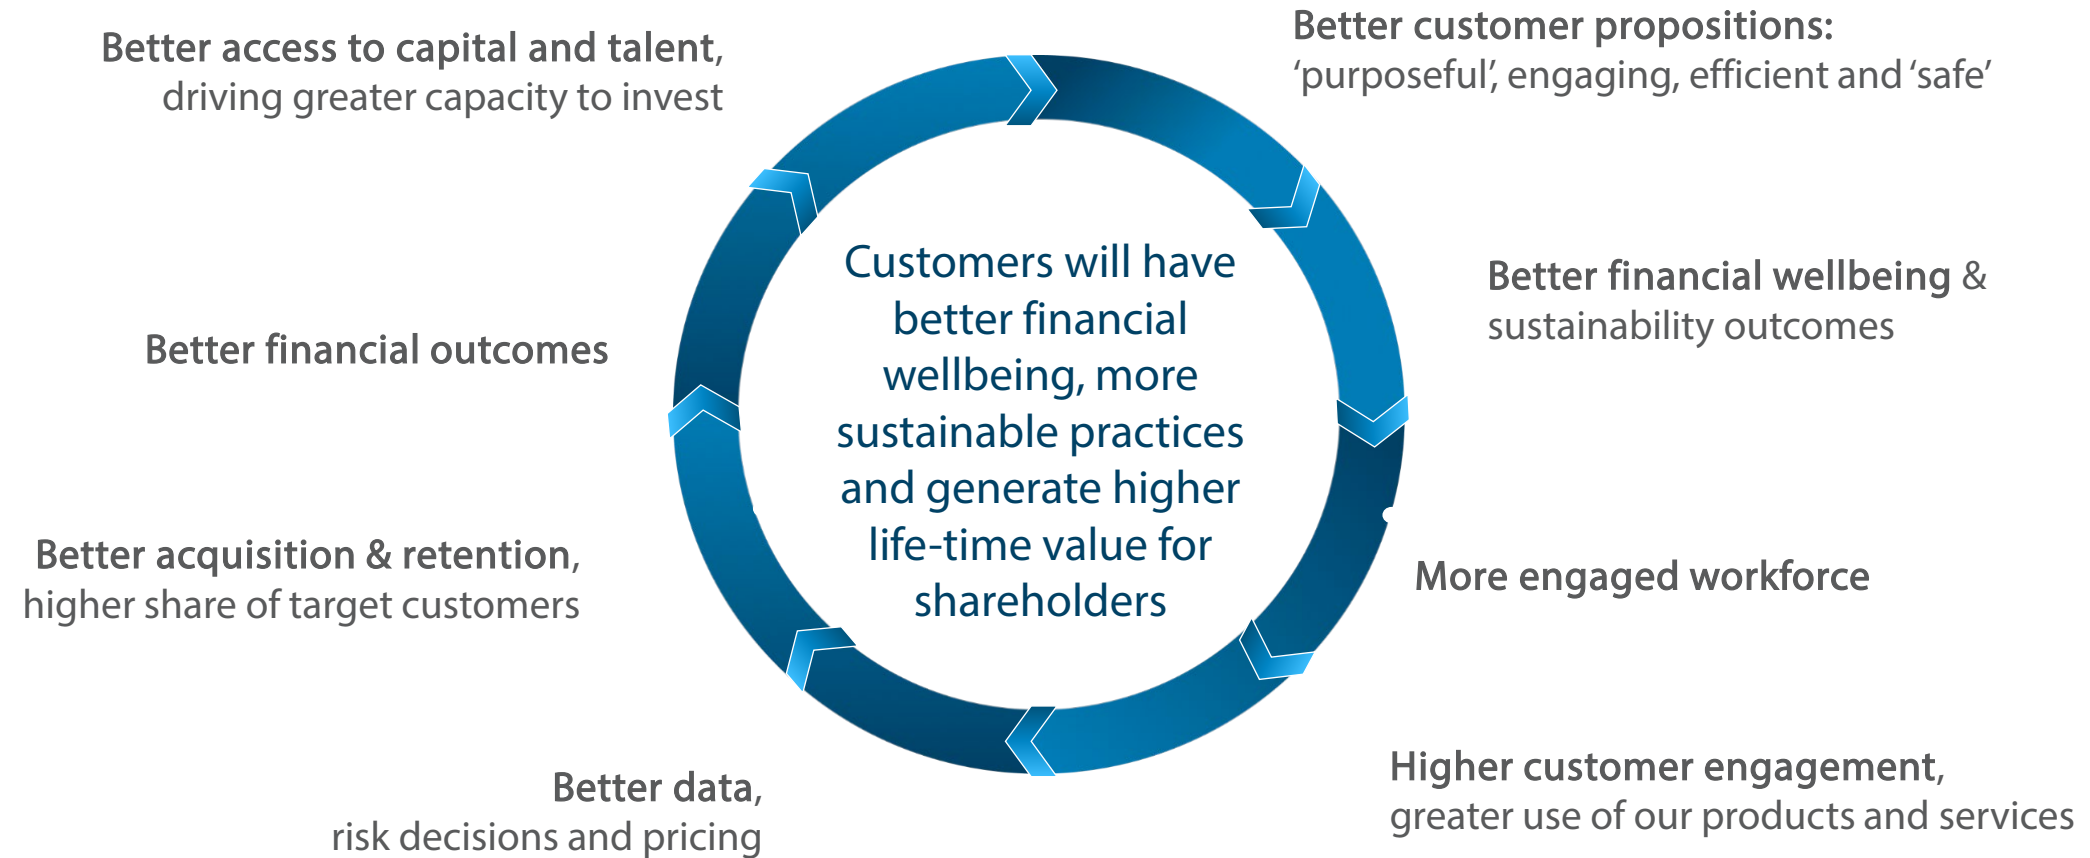

Move capital and goods around the region and sustainably grow their business

THE BANK WE'RE BUILDING

Value Creation Model

ANZ: THE BANK WE'RE BUILDING

'We are the Bank for those in Australia & New Zealand who want to buy and own a home or start, run, and grow a small business and for those larger businesses trading and investing in Asia Pacific'

'We work with the best partners to offer competitive and engaging solutions that make our customers' lives easier. We build loyalty by improving our customers' financial wellbeing and helping them run their businesses more sustainably'

'We embrace a world of constant change, by building a nimble, resilient organisation capable of anticipating needs, creating opportunities, and delivering what matters, quickly and safely'

Giving our customers access to

INVESTOR DISCUSSION PACK

ENVIRONMENT, SOCIAL & GOVERNANCE - CLIMATE

OUR APPROACH TO CLIMATE

OVERVIEW

Supporting our customers to transition

ANZ has chosen some key focus areas as part of our Environmental Sustainability Strategy

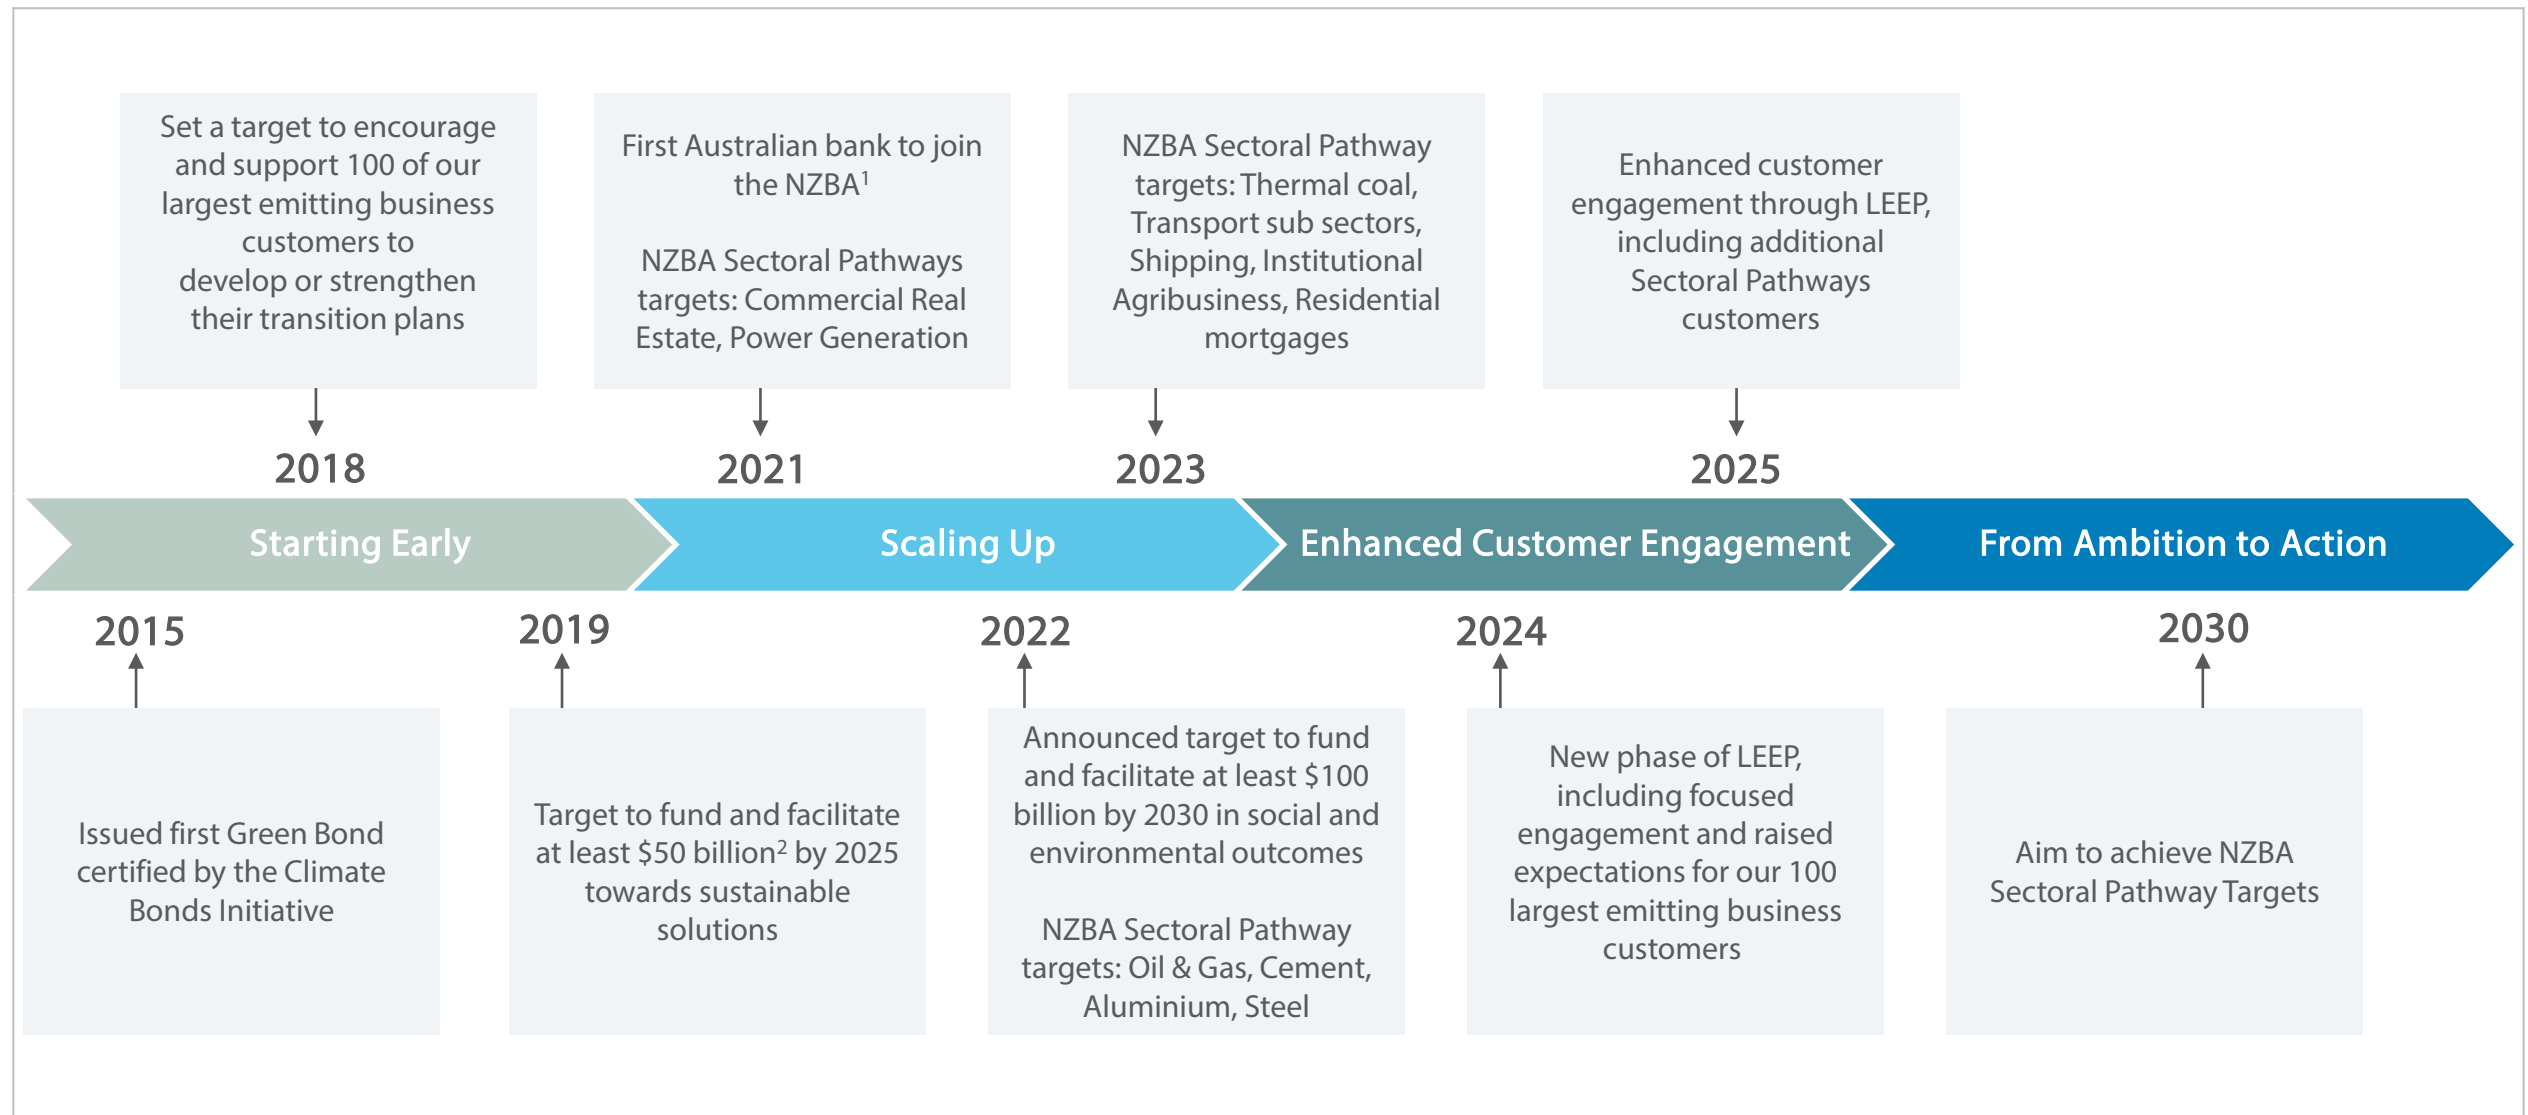

Focusing where we can make the most impact

- A new phase of customer engagement in 2024, triggered in part by the Safeguard Mechanism reform in Australia⁴
- The new Large Emitters Engagement Program (LEEP) will see us:
 - Focusing on our absolute 100 largest emitters
 - Raising our customer transition plan benchmarks
 - Expecting customers to obtain third-party assurance of emissions performance and targets
- The LEEP, together with sectoral pathways, are informing our credit decisions in high emitting sectors
- Expanding sectoral pathways, four new 2030 targets in two sectors: Thermal Coal and Transport (three sub-sectors)
- Consolidating commitments into a more explicit oil and gas (O&G) policy and enhancing it:
 - Targeting a reduction in upstream O&G exposure by ~40 per cent by end 2025⁵
 - O&G transition plans – customers must attain at least a 'well developed' (category B) plan by end 2025

1. Supporting sustainable resource extraction in areas such as iron ore, lithium, nickel, cobalt, rare earths, copper and bauxite
 2. Supporting basic materials production including green steel and low-carbon aluminium production
 3. Supporting new technology projects focused on upstream hydrogen and carbon capture use and storage
 4. [The Safeguard Mechanism in Australia \(cleanenergyregulator.gov.au\)](https://www.cleanenergyregulator.gov.au/)
 5. From a 2020 baseline. Subject to foreign exchange rates, given that a significant portion of our oil & gas exposures are denominated in USD

ANZ CLIMATE APPROACH - PROGRESS TOWARDS NET ZERO

1. Net Zero Banking Alliance

2. All amounts are in \$AUD unless otherwise stated

ENHANCED ASSESSMENT FRAMEWORK FOR OUR LARGEST EMITTING CUSTOMERS

Three key elements of a robust low carbon transition plan (governance, targets, disclosures)

Enhanced framework includes a sharper focus on whether our customers are implementing their plans, e.g., to achieve an 'A' rating customers will need to be 'on track' or 'almost on track' with meeting their scope 1 & 2 targets

Illustrative examples of characteristics of customers within each category are shown below

	Category A <i>'Advanced'</i>	Category B <i>'Well Developed'</i>	Category C <i>'Underdeveloped'</i>	Category D <i>'No public plans'</i>
Governance	<ul style="list-style-type: none"> ✓ Strong governance in place to manage climate risk ✓ Acknowledges climate risk is a material risk and opportunity 	<ul style="list-style-type: none"> ✓ Public climate change commitment 	<ul style="list-style-type: none"> ✓ Sustainability and climate risk discussed with senior leaders 	<ul style="list-style-type: none"> ➤ Acknowledges the need to develop a transition plan
Targets	<ul style="list-style-type: none"> ✓ Decarbonisation trajectory is on track for scope 1 & 2 "Paris-aligned" targets ✓ Discloses material scope 3 emissions ✓ Incorporates climate change performance into executive remuneration 	<ul style="list-style-type: none"> ✓ "Paris-aligned" 2030 emissions reductions targets¹ for scope 1 & 2 	<ul style="list-style-type: none"> ✓ Has targets to reduce 'emissions intensity' across some of its operations 	<ul style="list-style-type: none"> No public targets or other plans to reduce emissions ➤ Developing sustainability projects ➤ Developing sustainability framework
Disclosures	<ul style="list-style-type: none"> ✓ TCFD-aligned reporting 	<ul style="list-style-type: none"> ✓ TCFD-aligned reporting 	<ul style="list-style-type: none"> ➤ Moving towards TCFD-aligned reporting 	<ul style="list-style-type: none"> Has not reported against TCFD

➤ In Progress ✓ In place/ met

1. Energy customers will need to achieve at least a 'B' by end 2025 and disclose:
- Material scope 3 emissions and any progress towards reducing those emissions
 - How company strategy, targets and planned capital expenditure is aligned with the Paris goals

ENHANCED CUSTOMER ENGAGEMENT TO SUPPORT EMISSIONS REDUCTIONS

Increased focus on emission targets

- In FY24, a more challenging assessment framework applied to our 100 largest emitting business customers
- In FY25, remaining large emitters in our sectoral pathways captured in our engagement program
- By end 2025, continue to seek improved plans from Category C and D customers or look to reduce exposure

Each of the 100 of our largest emitting customers were engaged in FY23

- A positive change over a three-year period as customers built or strengthened their capacity to transition
- 64% of customers now with ‘well developed’ or ‘advanced’ transition plans (61% in 2022, 42% in 2021)
- It is timely to focus our efforts to ‘where we can make the most impact’

1. Climate Change Risk Assessment (CCRA) is an online tool that will be used to help guide customer engagement and assess and manage climate-related risks of certain customers in Institutional, including our largest emitting business customers

2. Additional Safeguard Mechanism customers if not already covered in our 100 largest emitters

3. Additional large emitters in sectoral pathways if not already covered in FY24, focusing on the most material exposures

4. Any remaining material corporate exposures in carbon-intensive sectors such as large agribusiness, or chemical manufacturers

BACKING THE TRANSITION THROUGH FINANCING SUSTAINABILITY

ANZ is supporting our customers through labelled and other financing products and services

Sustainable Finance

- ANZ's Sustainable Finance team is helping our customers by encouraging them to identify climate and nature-related risks and opportunities
- Sustainable financing includes deployment of capital into eligible green, social and sustainability initiatives
- Highlight: In June 2023, ANZ solely arranged and participated in a US\$280 million syndicated green loan for SK Battery America Inc.

Supporting customers' sustainability ambitions

- Supporting customers' sustainability ambitions through unlabelled¹ financing products and services, such as relationship lending, project and export finance, asset finance, loan syndications, advisory and markets solutions
- Highlight: ANZ provided a A\$40 million loan for the procurement of zero emission electric buses for a subsidiary of Kelsian Group Limited
- Highlight: Tilt Renewables, one of Australia's largest renewables energy generators, refinanced and increased their syndicated debt facility to \$2.6 billion. ANZ acted as the Joint Mandated Lead Arranger

During 2023 we participated in 111 sustainable finance deals with a total deal size of \$144b² compared to 127 deals with a total deal size of \$155b in 2022:

\$112b

(53 deals) from
International

\$22b

(35 deals) from
Australia

\$10b

(23 deals) from
New Zealand

- \$30b (26 deals) from Diversified Industries
- \$29b (11 deals) from Food, Beverage and Agriculture
- \$39b (38 deals) from Financial Institutions Group
- \$7b (16 deals) from Property and Health
- \$38b (21 deals) from Resources, Energy and Infrastructure

1. 'Unlabelled' refers to our existing banking products and services where no specific sustainability related label is applied

2. Of the 111 sustainable finance deals we participated in, \$7.9 billion was attributed to ANZ via our distribution capability, and \$8.2 billion via on balance sheet loans and other credit lines

3. Numbers do not add to \$144 billion due to rounding

SUPPORTING OUR COMMERCIAL CUSTOMERS SHIFT TO LOW CARBON BUSINESS MODELS AND HOMEOWNERS TO IMPROVE ENERGY EFFICIENCY

Helping commercial customers invest in energy efficiency

- Continuing to work with the Clean Energy Finance Corporation (CEFC) Energy Efficient Asset Finance Program to support Australian businesses invest in emission reducing infrastructure
- Since its launch in 2017, this program has helped finance more than \$279 million of investment in 1,240 clean energy technology deals
- Highlight: Tandy Group, a customer involved in concrete production, quarries, agricultural lime and potable water production in Queensland invested in sustainable equipment to reduce their carbon footprint

Supporting NZ business and retail customers implement sustainable initiatives

- New Zealand customers are using business and retail lending products to reduce their carbon footprint and improve their home's health and energy efficiency
- In New Zealand, we supported more than 6,400 households in lending through our Good Energy Home Loan¹ top up, while our business and agriculture customers invested more than NZ\$30 million in assets or projects that demonstrated environmental benefits through the ANZ Business Green Loan

Building internal capacity and helping customers with carbon credits

- ANZ's Environmental Markets team is building capability to help customers to devise innovative carbon credit acquisition strategies and to help relevant stakeholders bring high quality carbon credits to market and streamline carbon trading

1. anz.co.nz/personal/home-loans-mortgages/loan-types/good-energy/

EXPANDED SECTORAL PATHWAYS AND TARGETS¹

Sectoral Pathways and Targets backing customer decarbonisation

- As per NZBA, 2030 interim targets set for eight priority sectors
- Aimed at ensuring by end 2024 at least 75% of our lending portfolio emissions are on a net zero pathway
- Expanding sectoral pathways in 2023: new 2030 targets for **Thermal Coal** and **Transport** sub-sectors (Aviation, Shipping and Auto Manufacturing)

Existing Pathways	2030 Interim Target	Status
 Power Generation	50% reduction (2020 baseline)	On track
 Oil and Gas	26% reduction (2020 baseline)	On track
 Aluminium	30% reduction (2021 baseline)	Not on track
 Cement	20% reduction (2021 baseline)	On track
 Steel	28% reduction (2021 baseline)	Close to on track
 Large-scale Commercial real estate	60% reduction (2019 baseline)	On track
New Pathways		
 Thermal Coal	100% reduction (2020 baseline)	On track
 Transport sub-sector: Aviation	20% ² reduction (2019 baseline)	On track
 Transport sub-sector: Auto Manufacturing	29% reduction (2022 baseline)	On track
 Transport sub-sector: Shipping	10% reduction (2022 baseline)	On track
● >10% above pathway ● <=10% above pathway ● On or below pathway		

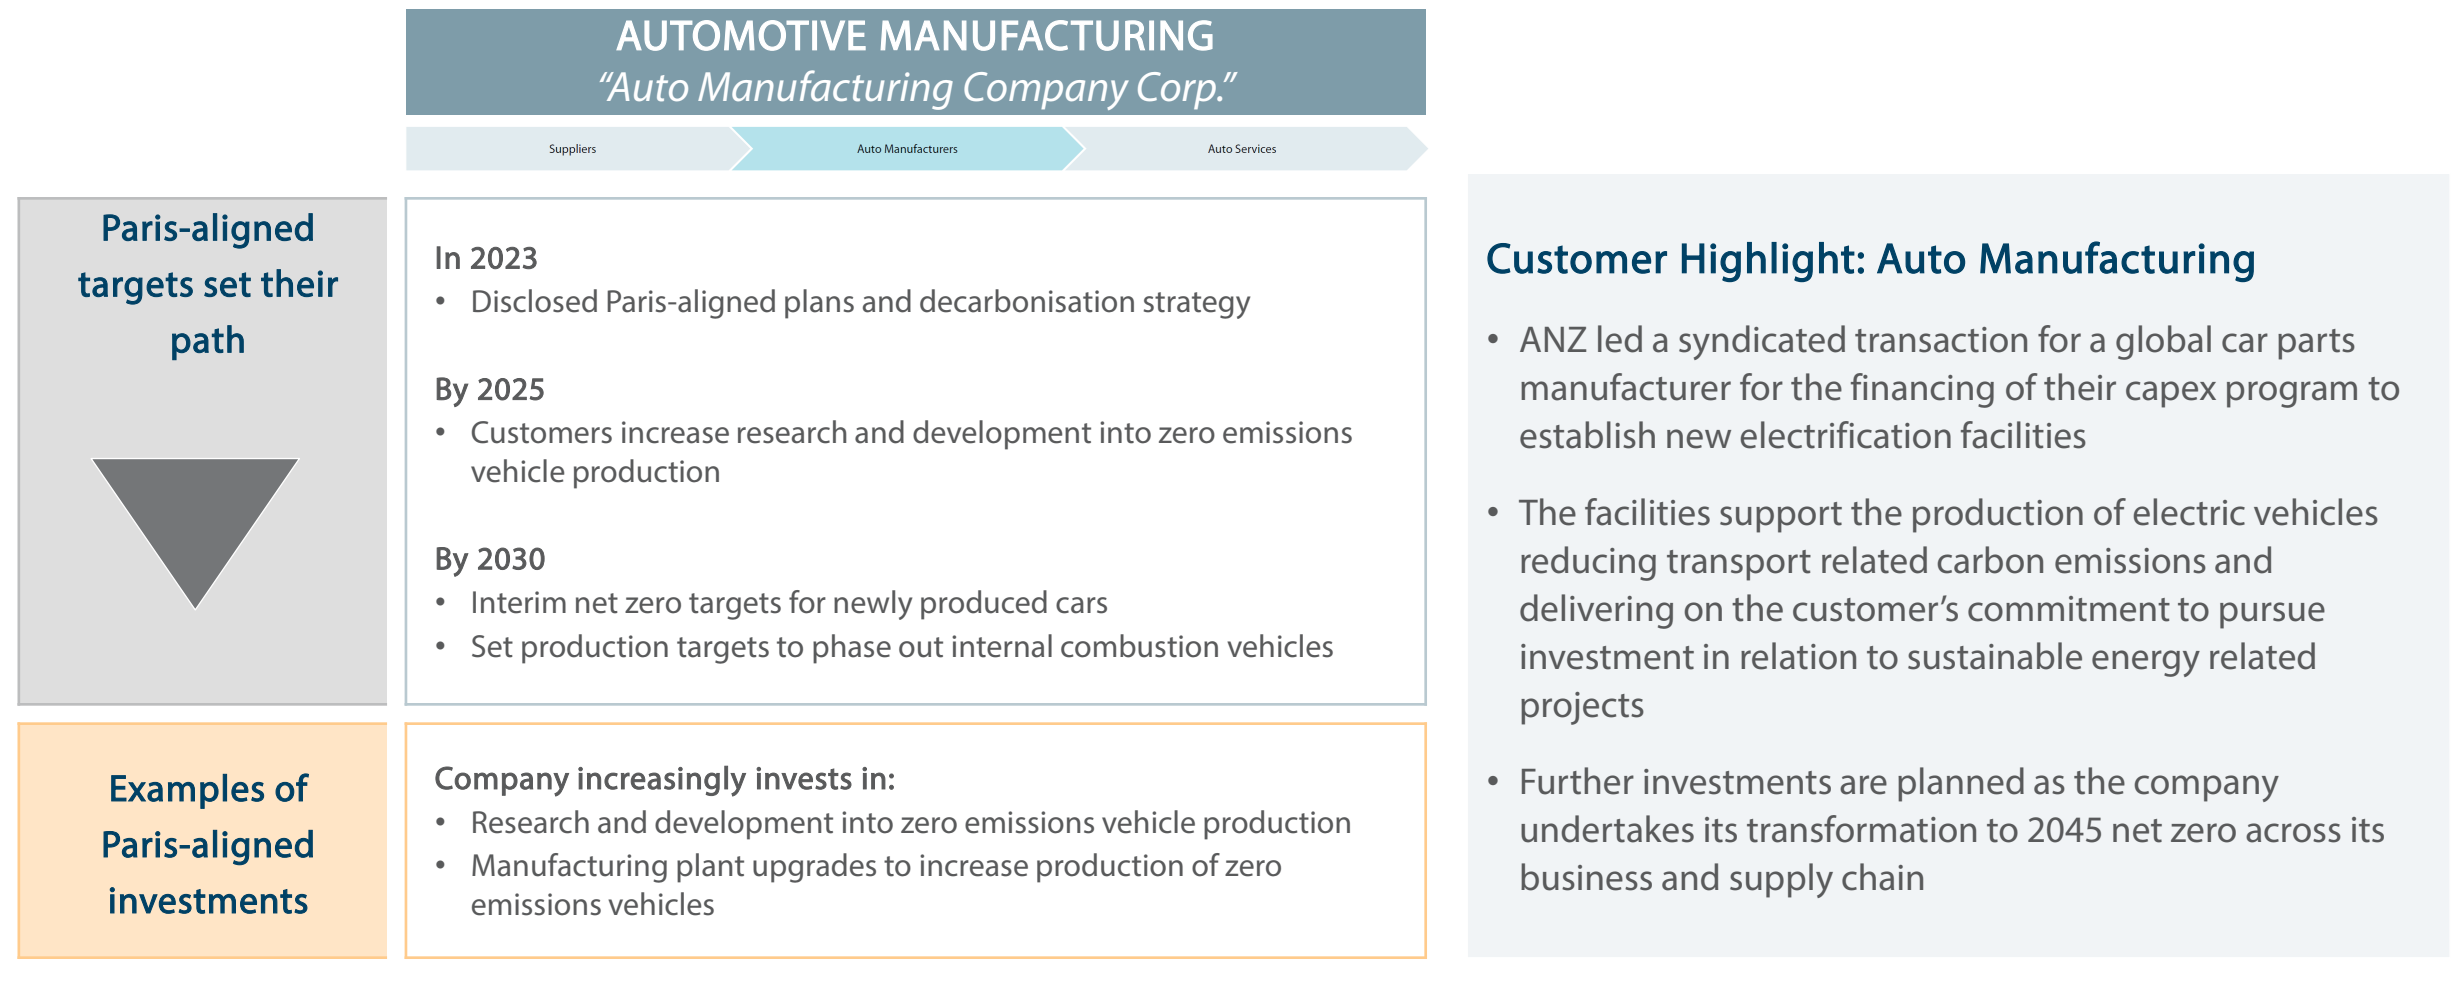

1. Please see the important information about forward-looking statements and climate-related information at the start and end of this presentation pack

2. We have restated this target due to an error. We previously stated that our 2030 emissions intensity target for aviation required a 30% reduction from our 2019 baseline whereas, in fact, it only requires a 20% reduction from our 2019 baseline. The target remains unchanged

BACKING CUSTOMER DECARBONISATION – NEW SECTORAL PATHWAYS AND TARGETS¹

By 2025 ANZ includes majority of auto manufacturing customers in LEEP

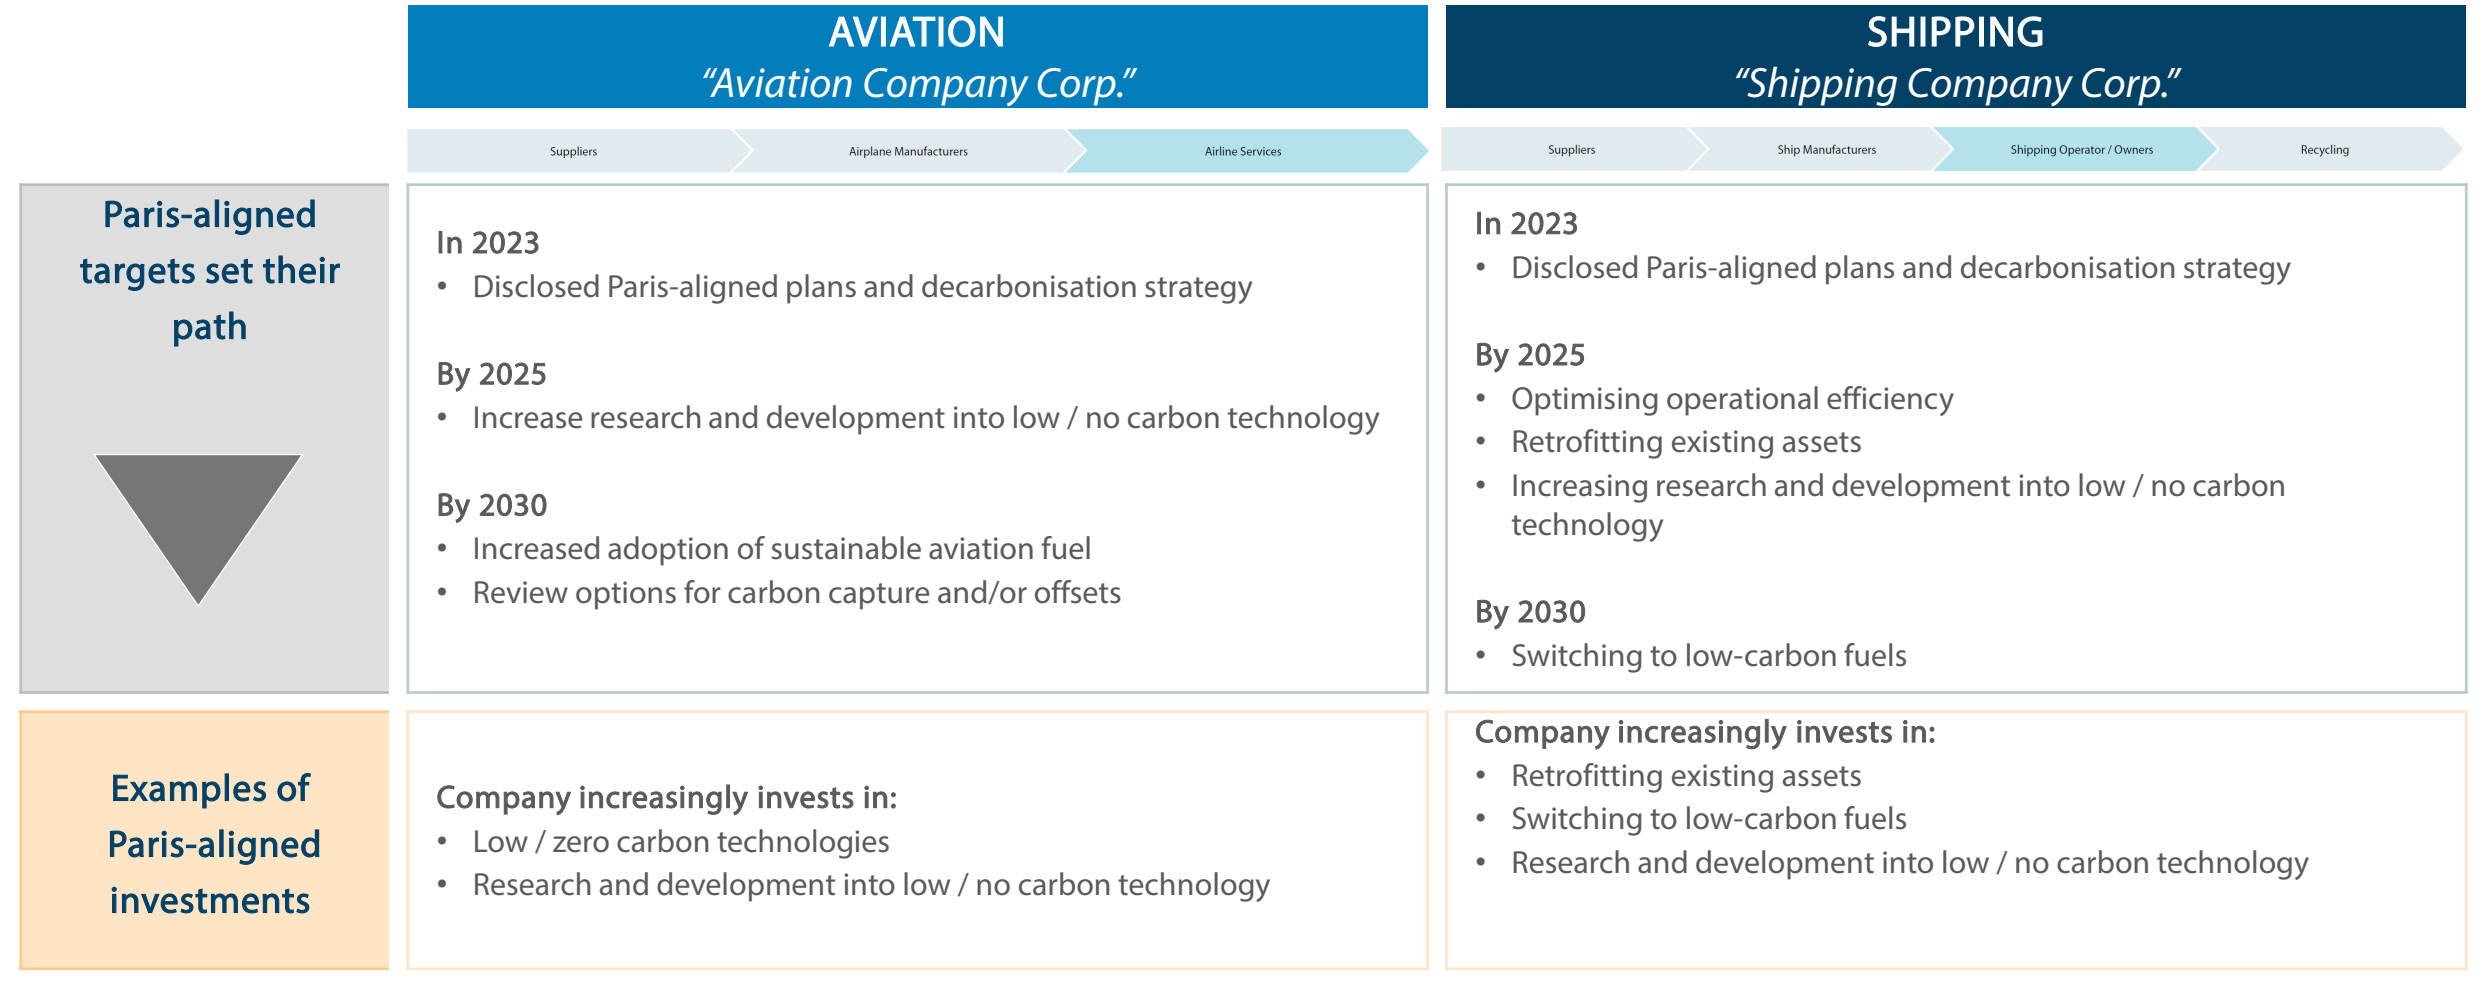

1. Please see the important information about forward-looking statements and climate-related information at the start and end of this presentation pack

BACKING CUSTOMER DECARBONISATION – NEW SECTORAL PATHWAYS AND TARGETS¹

By 2025 ANZ includes majority of Aviation and Shipping customers in LEEP

1. Please see the important information about forward-looking statements and climate-related information at the start and end of this presentation pack

BACKING CUSTOMER DECARBONISATION IN SECTORAL PATHWAYS¹

Sectoral Pathways and LEEP informing our credit decisions, enabling us to accelerate progress in carbon-intensive sectors

Oil & Gas (O&G)	Power Generation	Thermal Coal
Oil & Gas Policy <ul style="list-style-type: none"> Targeting a reduction in upstream O&G exposure by ~40% by 2025², complementing our existing financed emissions reduction target 	Renewable Energy Highlight <ul style="list-style-type: none"> ANZ has funded 2.3GW of greenfield renewables throughout our portfolio in FY23, including 1GW in Australia 	Thermal Coal exposure will continue to decline over time <ul style="list-style-type: none"> ANZ is targeting a reduction in Thermal Coal mining exposure by 100% by 2030 based on 2020 levels³
O&G customer transition plans <ul style="list-style-type: none"> New lending after FY25 will be dependent on customers meeting our transition plan expectations A customer approached us with a new financing request. They hadn't sufficiently progressed their transition plan, we declined to participate. We'll continue working with them, so they understand our expectations Another customer was able to show enough evidence of improvement with their transition plan. We felt comfortable participating in a new lending facility and will monitor their progress to seek further improvement by end of 2025 	Customer financing highlight <ul style="list-style-type: none"> ANZ arranged and provided financing and hedging for a large renewable infrastructure fund invested in wind farms The fund seeks to connect investors with the opportunity to participate directly in the energy transition The wind farm operator manages a globally diversified portfolio of renewable energy assets 	Customer engagement <ul style="list-style-type: none"> In addition to managing our thermal coal exposure, we are engaging with customers deriving revenue from mining-related activities A diversified mining sector customer approached ANZ mid 2022 to re-engage a lending relationship We have seen a significant shift in their sustainability journey and strategic response to the net zero transition This renewed approach persuaded ANZ to recommence engagement and resulted in ANZ providing a new loan facility in 2023

1. Please see the important information about forward-looking statements and climate-related information at the start and end of this presentation pack

2. Based on 2020 levels. Subject to foreign exchange rates, given that a significant portion of our oil & gas exposures are denominated in USD

3. Companies that generate the majority of their revenue from thermal coal (categorised into ANZSIC code 1102)

OUR RESOURCES PORTFOLIO

Movements in Oil and Gas and Thermal Coal Mining exposures

Some of the movements in our exposures this year can be attributed to APRA's capital reforms², which changed the factors applied to loan amounts used to determine our EAD, requiring more capital to be held for certain types of lending and other banking facilities, and less for others.

The impact on two sectors is outlined below:

- Our thermal coal mining exposure³ increased this year, almost entirely related to the impact of the capital reforms. The majority of our exposures to the thermal coal mining sector are made up of mining rehabilitation guarantees, which requires increased capital under the reforms. The increase was not due to new lending to the sector.
- Our upstream oil and gas exposures decreased in FY23, driven by the capital reforms, lower lending balances, and decreases in trade and markets exposures

1. Exposure at Default
2. APRA release minor amendments to capital frameworks for ADIs: <https://www.apra.gov.au/news-and-publications/apra-releases-minor-amendments-to-capital-framework-for-adis>
3. This exposure is to the ANZSIC code 1102, ie those customers for whom thermal coal mining is their predominant activity. It does not include other thermal coal mining exposure to diversified miners, which will be captured under other ANZSIC codes

146

CUSTOMER ENGAGEMENT TO SUPPORT BIODIVERSITY PROTECTION

Supporting customers to transition to nature positive outcomes

- ANZ seeks to support customers to transition to net zero and nature positive outcomes
- Positive engagement with 100 of our largest emitting business customers group on biodiversity, with increased customer awareness of biodiversity and an increasing willingness to improve holistic management approaches
- Our engagement is helping to refine our screening, improve our knowledge and enhance our capacity to further engage

Pilot of the TNFD 'LEAP' Framework

- In 2023, we participated in a pilot study of the TNFD¹ framework's application and provided feedback on the learnings and existing barriers to adopting and implementing the framework in the Australian context²
- Piloting the approach enabled ANZ to develop an understanding of how nature-related risks and opportunities are expected to be identified, assessed and disclosed in line with the TNFD

Large emitting business customers' approach to biodiversity

1. Taskforce on Nature-related Financial Disclosures

2. We acknowledge the Department of Climate Change, Energy, the Environment and Water for sponsoring the pilot study, which was facilitated by EY

2023 FULL YEAR RESULTS

INVESTOR DISCUSSION PACK

ENVIRONMENT, SOCIAL & GOVERNANCE - TARGETS, HOUSING AND FINANCIAL WELLBEING

OUR FY23 ESG PERFORMANCE AGAINST TARGETS

Target	Performance	Relevant SDGs
Have 30% or more of ANZ Plus Save customers set a savings goal, by end 2023.	<ul style="list-style-type: none"> 36% of ANZ Plus customers have created a goal 	
Establish seven new partnerships to expand the reach and improve the impact of MoneyMinded for disadvantaged communities, by end 2023	<ul style="list-style-type: none"> We have established 14 new MoneyMinded partnerships since October 2020. These partnerships have enabled us to deliver MoneyMinded to more lower income people across the markets we operate in to help improve their financial wellbeing 	
Fund and facilitate at least \$100 billion by end of 2030 in social and environmental outcomes through customer activities and direct investments. This includes initiatives that help lower carbon emissions, protect nature and biodiversity, increase access to affordable housing and promote financial wellbeing.	<ul style="list-style-type: none"> Since 1 April 2023, we have funded and facilitated approximately \$8.8 billion, across 54 transactions, of which \$4.1 billion is funded and \$4.7 billion is facilitated On 31 March 2023 ANZ concluded its \$50 billion by 2025 sustainable solutions target. We had funded and facilitated close to \$47 billion¹ across 387 transactions and were forecast to meet our \$50 billion target well in advance of 2025 	
Engage with 100 of our largest emitting business customers to encourage them to, by end 2024: strengthen their low carbon transition plans so that more customers achieve a 'well developed' or 'advanced' rating; and enhance their efforts to protect biodiversity.	<ul style="list-style-type: none"> We re-engaged with all 100 customers on their low carbon transition plans and efforts to protect biodiversity this year 64 customers now have 'well developed' or 'advanced plans' versus 42 in September 2021. We prioritised engagement with 'underdeveloped / starting out' and 'no public plans' rated customers (those with less developed or no public plans) to seek improvements in their plans. Seven customers have improved from 'no public plans' to 'underdeveloped / starting out' in 2023 For biodiversity, 54 customers have targets, policies or strategies in place to protect biodiversity, with 61 making disclosures of their efforts to protect biodiversity We are revising this target with a new phase of engagement with our largest emitting business customers commencing in FY24 triggered, in part, by the Safeguard Mechanism in Australia 	

See our 2023 ESG Supplement and Climate-related Financial Disclosures for the complete suite of FY23 ESG targets and details on full year performance

1. This number is a restatement from our 2023 Half Year unaudited disclosures made on 5 May 2023. The \$50 billion target was closed after reaching \$47.09 billion; the closing audited balance has since been confirmed as \$46.99 billion.

OUR FY23 ESG PERFORMANCE AGAINST TARGETS

Target	Performance	Relevant SDGs
<p>Improve the management of climate change risks through the following activities by end 2023:</p> <ul style="list-style-type: none"> - preparing a set of risk standards based on regulatory obligations, to be applied across all countries and territories where ANZ operates; - extending our Climate Change Risk Assessment (CCRA) methodology beyond our Project Finance business, starting with Institutional customers in higher emitting sectors such as resources and energy; and - developing a data strategy to inform our approach to sourcing and integrating climate data into sectoral transition pathways, scenario analysis, stress testing and analytics. This will include lessons learned from the New Zealand climate risk program. 	<ul style="list-style-type: none"> • We engaged an external provider to undertake an assessment comparing regulatory expectations across seven of the jurisdictions in which we operate: Australia, New Zealand, Singapore, Hong Kong, the United Kingdom, Europe and the USA. The assessment will help inform the integration of climate risk standards and obligations into our Non-Financial Risk Framework commencing from 2024. • The CCRA has been digitised and integrated into our credit risk assessment process via our Online Customer Profile platform, alongside our Social & Environmental Risk screening tool. • The CCRA is being expanded beyond our Project Finance business starting with Institutional energy sector customers subject to the enhanced due diligence process and customers in our Large Emitters Engagement Program. • The CCRA will continue to be rolled out to Institutional customers in a phased approach across 2024 and 2025. • An Environmental Sustainability (ES) data strategy has been developed and endorsed by Data Prioritisation Forum members. • We expect that the data strategy will help us to develop a more coordinated, centralised approach to climate data that can be shared across divisions and jurisdictions in which we operate 	

OUR FY23 ESG PERFORMANCE AGAINST TARGETS

Target	Performance	Relevant SDGs
<p>Reduce the direct impact of our business activities on the environment by:</p> <p>6.1 Reducing Scope 1 and 2 emissions by 85% by 2025 and 90% by 2030 (against 2015 baseline);</p> <p>6.2 Increasing renewable electricity to 100% by 2025*;</p> <p>6.3 Reducing water consumption by 40% by 2025 (against 2017 baseline);</p> <p>6.4 Reducing waste to landfill by 40% by 2025 (against 2017 baseline); &</p> <p>6.5 Reducing paper consumption (both office and customer paper use) by 70% by 2025 (against 2015 baseline).</p>	<ul style="list-style-type: none"> • 6.1 – Combined Scope 1 and 2 emissions have decreased by 80% against a 2015 baseline • 6.2 – 49% of electricity consumption associated with our operations came from renewable sources in 2023 • 6.3¹ – Global water consumption has decreased by 61% against a 2017 baseline • 6.4² – Waste to landfill generated by global operations has decreased by 71% since 2017 • 6.5³ – Paper consumption has decreased 71% since 2015 <p><i>N.B. Environmental reporting year is 1 July – 30 June, in line with the Australian regulatory reporting year</i></p>	
<p>Fund & facilitate AU\$10 billion of investment by 2030 to deliver more affordable, accessible and sustainable homes to buy and rent (Australia /New Zealand)</p>	<p>This year we have funded and facilitated an additional ~\$610 million, bringing our total since October 2018 to ~\$5.3 billion⁴.</p>	  

See our 2023 ESG Supplement and Climate-related Financial Disclosures for the complete suite of FY23 ESG targets and details on full year performance

1. Water: Although we are currently exceeding our 2025 target, this year we have seen normalisation of our water consumption towards pre-pandemic levels. We expect water consumption to increase in the coming year, due to an increase in staff returning to our workplaces
2. Waste: Although we are currently exceeding our 2025 target, waste to landfill generation increased by 4% since last year. This change was due to an increase in staff returning to our workplaces, which we expect to continue over the coming year
3. Paper: Although we are currently exceeding our 2025 target and have seen a 2% reduction in our paper consumption year on year, we expect paper consumption to increase in the coming year, due to an increase in staff returning to our workplaces
4. Includes ~\$4.4 billion disclosed in FY22, ~\$610 million achieved in FY23 and an additional ~\$288 million in deferred deals from FY22 that have not previously been disclosed

OUR FY23 ESG PERFORMANCE AGAINST TARGETS

Target	Performance	Relevant SDGs
Support more customers into healthier homes through discounted lending of NZ\$300m funds under management and 12,000 households by end 2025 (New Zealand).	<p>Since Oct 2020 we have supported 9,482 households into healthier homes and drawn down NZ\$379.09 million through:</p> <ul style="list-style-type: none"> • Our Healthy Home Loan package • Our Good Energy Home Loan Top Up • Interest-free Insulation Loans¹ <p>As at the end of Sep 23 we have achieved:</p> <ul style="list-style-type: none"> • 126% of our FY25 FUM target • 74% of our FY25 Household target 	  
Achieve the 17 actions in our Reconciliation Action Plan, by end 2024 (Australia)	<p>We continue to make good progress against the 17 actions in our RAP, delivering all objectives that fell due in 2023. This year, we:</p> <ul style="list-style-type: none"> • Launched a Commercial banking proposition, appointing two Indigenous Small Business Managers to work with our Indigenous Commercial customers. • Partnered with Indigenous Business Australia to host a one-day CEO Assessment Clinic for the leaders of six Indigenous businesses. • Spent \$11.7 million with Indigenous businesses (\$24.4 million since the RAP commenced). • Implemented a Cultural Learning Strategy designed to improve the cultural competency of Australia-based non-Indigenous employees to meet the needs of Aboriginal and Torres Strait Islander customers, employees and community partners. • Embedded First Nations design principles into the design concepts for key offices and branch refurbishments or new builds, in consultation with local Traditional Owners. • Developed and implemented ANZ's First Nations Recruitment, Retention and Professional Development Strategy (FY24 – FY26) to drive greater representation across all levels of the organization. • Partnered with BlackCard to provide cultural capability training to more than 280 Australia-based employees. • Delivered eight MoneyBusiness coach training sessions to community workers and financial counsellors working in remote communities. 	   

1. Product rolled off in July 22

DELIVERED \$5 BILLION OF HOUSING SUPPLY IN FIVE YEARS

>\$5b

Delivered ~\$5.3 billion into the housing sector, with ~\$610 million in 2023

ANZ's housing target is to fund and Facilitate at least \$10 billion of investment by end 2030¹

Supported the launch of a new project to market by specialist affordable housing fund manager Super Housing Partnership (SHP) and their venture partner, Assemble

SHP's first residential development comprises 362 apartments including 73 social, 73 affordable, 14 specialist disability accommodation and 202 private market rental homes

1. Including A\$750 million by end 2024. Target is to deliver homes to buy and rent that are more affordable, accessible or sustainable

FINANCIAL WELLBEING – CENTRAL TO OUR STRATEGY

ANZ is committed to improving the financial wellbeing of our people, customers and communities by helping them make the most of their money throughout their lives

Customer

- Strong uptake of ANZ Plus savings goal functionality with 36% of Plus customers having set a savings goal since October 2022¹
- Financial Wellbeing Hub content in Australia and New Zealand with personalised messaging
- Delivering proactive customer support including communications and webinars to help customers as they head into challenging economic times

Community

- Long running financial education programs - MoneyMinded, Saver Plus and MoneyBusiness – are delivered with government and community partners, reaching nearly 84,000 participants (927,500 since 2002)
- Training and employment opportunities to support economic participation for under-represented groups including Indigenous Traineeships, Given the Chance and Return to Work
- Signed the United Nations Environment Program Finance Initiative Commitment to Financial Health and Inclusion

Capability

- Regular research of Australian and New Zealand Financial Wellbeing with quarterly snapshots through the ANZ Roy Morgan Financial Wellbeing Indicator
- Enhancing capability in line with commitments in our Reconciliation Action Plan, Financial Inclusion Action Plan and new Accessibility and Inclusion Plan (2023 – 2025)
- Building internal capability with financial wellbeing and behavioural science expertise

1. As at 30 September 2023

IMPORTANT INFORMATION – CLIMATE-RELATED INFORMATION

This presentation may contain climate-related statements, including in relation to climate-related risks and opportunities, climate-related goals and ambitions, climate scenarios, emissions reduction pathways and climate projections. While the Group has prepared the statements in good faith, climate-related statements are subject to significant uncertainty, challenges and risks that may affect their usefulness, accuracy and completeness, including:

1. *Availability and reliability of data* – emissions and climate-related data may be incomplete, inconsistent, unreliable or unavailable (including information from the Group's clients), and it may be necessary to rely on assumptions, estimates or proxies where that is the case.
2. *Uncertain methodologies and modelling* – methodologies, frameworks and standards used for calculations of climate-related metrics, modelling and climate data are not universally applied, are rapidly evolving and subject to change. This may impact the data modelling, approaches, and targets used in preparation of this presentation.
3. *Complexity of calculations and estimates* – Estimating financed emissions (including allocating emissions to financing activities) and emissions reduction is complex and relies on assumptions and judgments, often made in respect of long periods of time. For facilitated emissions, suitable standards to allow financial institutions to calculate facilitated emissions are still under development as at October 2023.
4. *Changes to climate-related governing frameworks* - changes to climate-related policy, laws, regulations and market practices, standards and developments, including those resulting from legal proceedings and regulatory investigations.
5. *Lack of consistency in definitions and climate-science terminology subject to changes* – definitions and standards for climate-related data and assessment frameworks used across industries and jurisdictions may vary, and terminology and concepts relating to climate science and decarbonisation pathways may evolve and change over time. These inconsistencies and changes can also make comparisons between different organisations' climate targets and achievements difficult or inappropriate.
6. *Reliance on third parties for data or involvement* – the Group may need to rely on assistance, data or other information from external data and methodology providers or other third parties, which may also be subject to change and uncertainty. Additionally, action and continuing participation of third parties, such as stakeholders, may be required (including financial institutions and governmental and non-governmental organisations).

Due to these uncertainties, challenges and risks, statements, assumptions, judgments, calculations, estimates or proxies made or used by the Group may turn out to be incorrect, inaccurate or incomplete. You should conduct your own independent analysis and not rely on the information for investment decision-making. The information in this notice should be read with the qualifications, limitations and guidance included throughout this presentation, as well as the:

- ANZ Financed Emissions Calculation Methodology available anz.com/esgreport
- ANZ Greenhouse Gas Reporting and Carbon Offset Guidelines available anz.com/esgreport
- ANZ Social and Environmental Sustainability Target Methodology available anz.com/esgreport
