IMPORTANT NOTICES

About this Prospectus

This Prospectus relates to the offer by Australia and New Zealand Banking Group Limited (ABN 11 005 357 522) (ANZ) of mandatorily convertible subordinated perpetual securities (ANZ Capital Notes 7 or Notes) to raise \$1 billion with the ability to raise more or less.

This Prospectus is dated 15 February 2022 and was lodged with ASIC on that date. This Prospectus expires on 15 February 2023 and no Notes will be issued on the basis of this Prospectus after that date.

ASIC and ASX take no responsibility for the contents of this Prospectus nor for the merits of the investment to which this Prospectus relates.

This Prospectus also contains information in relation to the Reinvestment Offer. Neither ANZ nor any other person is providing any investment advice or making any recommendation to Eligible CN2 Holders in respect of the Reinvestment Offer through this Prospectus.

ANZ Capital Notes 7 are higher risk than deposits

ANZ Capital Notes 7 are issued by ANZ under the Note Terms and Holders have no claim on ANZ except as provided in those Note Terms.

ANZ Capital Notes 7 are not:

- deposit liabilities of ANZ;
- protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or of the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act; or
- guaranteed or insured by any government, government agency, compensation scheme or by any other person.

The risks associated with the Notes (which are summarised in Section 1.5 and detailed in Section 6) could result in the loss of your investment and associated income. The investment performance of the Notes is not guaranteed by ANZ.

A comparison of the differences between the Notes and deposits is contained in Section 1.4.

Defined words and expressions

Some capitalised words and expressions used in this Prospectus have defined meanings. The Glossary in Appendix B defines these words and expressions. The definitions specific to the Notes are in clause 17.2 of the Note Terms in Appendix A.

Exposure period

The Corporations Act prohibits ANZ from processing Applications in the seven day period after 15 February 2022 (which may be extended by ASIC for up to a further seven days), being the date on which this Prospectus was lodged with ASIC. This period is referred to as the **Exposure Period**. The purpose of the Exposure Period

is to enable this Prospectus to be examined by market participants before the Offer Period commences. No Applications received will be accepted until after the expiry of the Exposure Period.

How to access this Prospectus

This Prospectus can be obtained electronically from capitalnotes.anz.com. ANZ will not be providing paper copies of this Prospectus.

This Prospectus is only available to you if you are accessing and downloading it in Australia. If you access an electronic copy of this Prospectus you should ensure that you download and read the entire Prospectus.

How to apply

All Applications (both for the New Money Offer and the Reinvestment Offer) must be submitted through a Syndicate Broker and you should contact your Syndicate Broker for instructions on how to apply once the Offer opens.

The Offer does not contain a specific offer for ANZ securityholders (unlike previous retail hybrid security offers by ANZ) and Eligible CN2 Holders cannot apply directly to ANZ to participate in the Reinvestment Offer.

For more information on who is eligible to apply for Notes under the Offer and how to make an Application – read Section 4.

Application Forms

The Corporations Act prohibits any person from passing an Application Form to another person unless it is attached to or accompanied by a printed copy of this Prospectus or the complete and unaltered electronic version of this Prospectus.

Providing personal information

You will be asked to provide personal information to ANZ (directly or via its agents) if you apply for the Notes. See Sections 4.3 and 8.10 for information on how ANZ (and its agents) collect, hold, use and disclose this personal information.

No representations other than in this Prospectus

You should rely only on information in this Prospectus.

No person is authorised to provide any information or to make any representation in connection with the Offer that is not contained in this Prospectus. Any information or representation not contained in this Prospectus may not be relied upon as having been authorised by ANZ in connection with the Offer.

The financial information provided in this Prospectus is for information purposes only and is not a forecast of operating results to be expected in future periods.

GUIDANCE FOR INVESTORS

<p>Read this Prospectus in full</p>	<p>This Prospectus is important and you should read it in its entirety.</p> <p>In considering whether to apply for Notes, it is important that:</p> <ul style="list-style-type: none"> • if you are a Retail Investor, you are within the Notes Target Market. The Notes Target Market is set out in Section 4.1. If you are a Retail Investor, you can only apply for the Notes if you are within the Notes Target Market and have received professional advice in relation to your application (see below for further details); and • you consider all risks and other information regarding an investment in Notes in light of your particular investment objectives and circumstances, as the Offer and the information in this Prospectus do not take into account those objectives and circumstances.
<p>Understand the risks</p>	<p>The Notes are complex, involve increased risks (outlined below) compared to other less risky and less complex bank investments such as deposits and are not suitable for investors outside the Notes Target Market. You should not see the Notes as an alternative to investments such as deposits.</p> <p>The overall complexity of the Notes may make the Note Terms difficult to understand.</p> <p>The Notes are not guaranteed or insured by any government, government agency, compensation scheme or by any other person.</p> <p>If ANZ encounters severe financial difficulty, the Notes may be Converted into Ordinary Shares or Written-Off and you may suffer a loss of your investment as a consequence.</p> <p>Distributions on the Notes may not be paid.</p> <p>The Notes may never Convert or be Redeemed and may remain on issue indefinitely.</p> <p>The market price of Notes may move up and down.</p> <p>The liquidity of the Notes may be low and you may be unable to sell Notes.</p> <p>If you do not fully understand how the Note Terms work or the risks associated with the Notes, you should not invest in them.</p>
<p>Speak to your Syndicate Broker or professional adviser</p>	<p>If you wish to apply for Notes, you must speak to your Syndicate Broker. All Applications must be submitted through a Syndicate Broker. No Applications can be made directly to ANZ.</p> <p>If you are a Retail Investor and you wish to participate in the Offer, you must seek professional advice as to whether you are within the Notes Target Market and whether the investment in the Notes is suitable in light of your particular objectives, financial situation and needs.</p> <p>If you have any questions about the Offer, the Notes or the Notes Target Market, you should also contact your Syndicate Broker or seek advice from a professional adviser who is licensed by ASIC to give that advice.</p> <p>ASIC has published guidance on how to choose a professional adviser on its MoneySmart website. You can also search 'choosing a financial adviser' at moneysmart.gov.au.</p>
<p>Consider the ASIC guidance for Retail Investors</p>	<p>ASIC has warned investors to be cautious in relation to investments in hybrid securities (such as the Notes). Investors should consider the ASIC guidance on hybrid securities which is published on ASIC's MoneySmart website. You can find this guidance by searching 'hybrid securities and notes' at moneysmart.gov.au. The guidance includes a series of questions you should ask before you invest in hybrid securities.</p>
<p>Learn more about investing in bank hybrid securities</p>	<p>ANZ has developed a website containing an introductory guide to bank hybrid securities which may assist you to better understand bank hybrid securities, their features and their risks. The guide explains the different ways you may invest in a bank, including by depositing money or investing in securities issued by a bank.</p> <p>The guide is available at shareholder.anz.com/education/hybrids.</p>
<p>Obtain further information about ANZ and ANZ Capital Notes 7</p>	<p>ANZ is subject to regular reporting and disclosure obligations under the Corporations Act and the Listing Rules. ANZ must notify ASX immediately (subject to certain exceptions) if it becomes aware of information about ANZ that a reasonable person would expect to have a material effect on the price or value of its securities including ANZ Capital Notes 7.</p> <p>Copies of documents lodged with ASIC which are publicly available can be obtained from ASIC's website asic.gov.au (a fee may apply) and ANZ's ASX announcements may be viewed at asx.com.au.</p>
<p>Enquiries</p>	<p>If you have any questions in relation to the Offer or an Application, please call the ANZ Information Line on 1800 113 399 (within Australia) or +61 3 9415 4010 (international) (Monday to Friday – 8.30am to 5.30pm) or contact your Syndicate Broker or other professional adviser who is licensed by ASIC to give such advice.</p>

SECTION 01

INVESTMENT OVERVIEW

THIS SECTION PROVIDES A SUMMARY OF THE KEY FEATURES AND RISKS OF ANZ CAPITAL NOTES 7.

IF YOU WISH TO APPLY FOR NOTES, IT IS IMPORTANT THAT YOU FIRST READ THIS PROSPECTUS (INCLUDING THE NOTES TARGET MARKET) IN FULL. IF YOU HAVE ANY QUESTIONS ABOUT THE OFFER, THE NOTES OR THE NOTES TARGET MARKET, YOU SHOULD CONTACT YOUR SYNDICATE BROKER OR SEEK ADVICE FROM A PROFESSIONAL ADVISER WHO IS LICENSED BY ASIC TO GIVE THAT ADVICE.

1.1 KEY FEATURES OF THE OFFER AND ANZ CAPITAL NOTES 7

Topic	Summary	Where to find more information
Issuer	Australia and New Zealand Banking Group Limited (ABN 11 005 357 522) (ANZ).	Section 5
Type of instrument	<p>ANZ Capital Notes 7 are:</p> <ul style="list-style-type: none"> • fully paid – at \$100 per Note; • convertible – in certain circumstances, the Notes will Convert into Ordinary Shares; • redeemable and resaleable – in certain circumstances, ANZ may be permitted to repay the Face Value of the Notes or transfer the Notes to a third party (but there are significant restrictions on repayment or transfer of the Notes); • non-cumulative – Distributions are discretionary and unpaid Distributions do not accumulate. Holders will not have any right to compensation if ANZ does not pay a Distribution; • perpetual – the Notes do not have any fixed maturity date and could remain on issue indefinitely if they are not Converted or Redeemed (in which case you would not receive your capital back or be issued any Ordinary Shares); • unsecured – they are not guaranteed or secured, are not deposit liabilities of ANZ and are not protected accounts for the purposes of the Banking Act; • subordinated – although they have priority over Ordinary Shares and rank equally with Equal Ranking Instruments, they are subordinated to the claims of Senior Creditors (including ANZ depositors) in a winding-up; • exposed to Trigger Events – where a Trigger Event occurs (which includes where ANZ encounters severe financial difficulty), the Notes are subject to Conversion into Ordinary Shares or Write Off, in which case Holders are likely to suffer loss; and • listed – ANZ will apply for Notes to be listed on ASX and Notes are expected to trade under ASX code “ANZPJ”. <p>The Note Terms are complex and derive from the detailed capital requirements which APRA applies to these instruments, including that the Notes absorb losses by being Converted or Written Off where a Trigger Event (including severe financial difficulty) occurs. In this way, the Notes and ANZ’s other regulatory capital instruments help to protect ANZ’s depositors and Senior Creditors from losses ANZ may incur.</p> <p>ANZ’s ability to pay a Distribution or to Convert, Redeem or Resell the Notes at its option are in each case subject to a number of restrictions, including, in the case of payment of a Distribution, APRA not objecting to the Distribution and, in the case of Conversion, Redemption or Resale, APRA giving its prior written approval to the Conversion, Redemption or Resale.</p>	
Offer size	<p>\$1 billion, with the ability to raise more or less.</p> <p>There is no minimum subscription amount under the Offer.</p>	
Face Value	\$100 per Note. This is the price you need to pay to apply for each Note under this Prospectus.	

Topic	Summary	Where to find more information
Purpose of the Offer	ANZ is issuing the Notes to help meet the capital requirements for ADIs set by APRA. APRA requires ANZ to maintain a level of regulatory capital to help promote the stability of ANZ and protect ANZ's depositors and other creditors.	
Regulatory treatment	APRA has confirmed that the Notes will constitute Additional Tier 1 Capital for the purposes of ANZ's regulatory capital requirements.	
Use of proceeds	ANZ will use the proceeds of the Offer to refinance CN2 and for general corporate purposes.	
Distributions	<p>Distributions are cash payments on the Notes which are scheduled to be paid quarterly until all Notes are Converted or Redeemed.</p> <p>The Distribution Rate is calculated in accordance with the following formula:</p> <p>Distribution Rate = (BBSW Rate + Margin) x (1 – Tax Rate)</p> <p>Where:</p> <ul style="list-style-type: none"> • Margin is the margin determined under the Bookbuild (expected to be in the range of 2.7% to 2.9%); and • Tax Rate is the Australian corporate tax rate applicable to the franking account of ANZ as at the relevant Distribution Payment Date. As at the date of this Prospectus, the Tax Rate is 30%. 	Section 2.1
Franking	<p>Distributions paid on the Notes are expected to be franked at the same rate as dividends on Ordinary Shares.</p> <p>The effect of the Distributions being franked is to reduce the cash amount received by Holders on each Distribution Payment Date by an amount equal to the relevant level of franking. If a Distribution is not fully franked, ANZ will pay an additional amount in cash to compensate the Holder for the unfranked component.</p> <p>If Distributions are franked, the value and availability of franking credits to a Holder will depend on that Holder's particular circumstances and the tax rules that apply at the time of each Distribution. The availability of franking credits is not guaranteed and will depend on a number of factors, including the level of profits generated by the ANZ Group that will be subject to tax in Australia. Holders should refer to the Australian taxation summary in Section 7.</p>	Section 2.1.3
Payment of Distributions	<p>Payments of Distributions are at the absolute discretion of ANZ, which means ANZ does not have to pay them. Distributions are also only payable if the Payment Conditions are satisfied.</p> <p>Distributions are non-cumulative which means that unpaid Distributions do not accumulate and Holders will not have any right to compensation if ANZ does not pay a Distribution. Failure to pay a Distribution when scheduled will not constitute an event of default.</p> <p>If a Distribution is not paid in full on a Distribution Payment Date, subject to certain exceptions, ANZ cannot pay or resolve to pay any Ordinary Share Dividend, or undertake any Buy-Back (as defined in the Note Terms) or Capital Reduction, until and including the next Distribution Payment Date (unless the Distribution is paid in full within 3 Business Days of the Distribution Payment Date).</p>	Sections 2.1.5 – 2.1.9

1.1 KEY FEATURES OF THE OFFER AND ANZ CAPITAL NOTES 7 (CONT)

Topic	Summary	Where to find more information
Distribution Payment Dates	<p>The Distribution Payment Dates are, generally, 20 March, 20 June, 20 September and 20 December.</p> <p>The first Distribution is scheduled to be paid on 20 June 2022. You should note that the first Distribution Period is shorter than the normal Distribution Period.</p>	Section 2.1.5
Do ANZ Capital Notes 7 have a maturity date?	<p>Holders should be aware that the Notes do not have a fixed maturity date. While the Notes are scheduled to Convert into Ordinary Shares on 20 September 2031,⁵ that Conversion is subject to conditions which may never be met. Accordingly, if the Notes are not Exchanged (via Conversion, Redemption or Resale), they could remain on issue indefinitely. Holders have no right to request or require an Exchange.</p> <p>It is expected that the Notes will be quoted on ASX. Unless an Exchange occurs, Holders would need to sell their Notes on ASX at the prevailing market price to realise their investment. That market price may be less than the Face Value, or there may be no liquid market in the Notes which may result in the Holders suffering a loss.</p>	Sections 2.2 – 2.5

1.2 SUMMARY OF CERTAIN EVENTS THAT MAY OCCUR WHILE THE ANZ CAPITAL NOTES 7 ARE ON ISSUE

The diagram and table below summarise certain events that may occur while the ANZ Capital Notes 7 are on issue, and what Holders may receive if those events occur. The events depend on a number of factors including ANZ's share price, the occurrence of contingencies and in some cases election by ANZ. As a result the events may not occur.

⁵ Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

What can happen?	When does this happen?	Is APRA approval needed? ⁶	Do conditions apply?	What value will you receive for each Note if this happens?	In what form will that value be provided?
Mandatory Conversion	On 20 September 2031 ⁷ (if the Mandatory Conversion Conditions are satisfied on that date) or the first Distribution Payment Date after that date on which the Mandatory Conversion Conditions are satisfied	No	Yes	Approximately \$101 ⁸	Variable number of Ordinary Shares
Optional Conversion	20 March 2029, 20 June 2029 or 20 September 2029	Yes	Yes	Approximately \$101 ⁸	Variable number of Ordinary Shares
Optional Redemption	20 March 2029, 20 June 2029 or 20 September 2029	Yes	Yes	\$100	Cash
Optional Resale	20 March 2029, 20 June 2029 or 20 September 2029	Yes	No	\$100	Cash
Conversion in other circumstances	If a Tax Event or Regulatory Event occurs	Yes	Yes	Approximately \$101 ^{8,9}	Variable number of Ordinary Shares
	If a Change of Control Event occurs	No	Yes	Approximately \$101 ^{8,9}	Variable number of Ordinary Shares
	If a Trigger Event occurs	No	No	Depending on the market price of the Ordinary Shares, Holders are likely to receive significantly less than approximately \$101 ^{10, 11, 12}	Variable number of Ordinary Shares, capped at the Maximum Conversion Number ¹²
Redemption in other circumstances	If a Tax Event or Regulatory Event occurs	Yes	Yes	\$100 ⁸	Cash
Resale in other circumstances	If a Tax Event or Regulatory Event occurs	Yes	No	\$100 ⁸	Cash

6 Holders should not expect that APRA's approval will be given if requested.

7 Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

8 On the basis of the Conversion calculations, the value of Ordinary Shares received on Conversion may be worth more or less than approximately \$101. The number of Ordinary Shares that Holders will receive will not be greater than the Maximum Conversion Number.

9 If an Exchange occurs on a day that is not a scheduled quarterly Distribution Payment Date, Holders whose Notes are being Exchanged will also receive a Distribution in respect of these Notes for the period from the immediately preceding Distribution Payment Date to (but excluding) the date on which the Exchange occurs (at ANZ's discretion and provided the conditions to payment are met).

10 Section 6.1.9 provides further detail on the circumstances in which Holders are likely to receive significantly less than \$101 following Conversion due to a Trigger Event.

11 If a Note is Written Off, that Note will not be Converted or Exchanged, all rights (including to Distributions) in respect of that Note will be terminated, and the Holder will not have their capital repaid.

12 However, if the Notes are not Converted for any reason (including an Inability Event) into Ordinary Shares within 5 Business Days after a Trigger Event Conversion Date, the Notes will be Written Off, meaning the Notes will never Convert or be Exchanged, all rights (including to Distributions) in respect of the Notes will be terminated and the Holder will not have their capital repaid.

1.3 RANKING OF NOTES IN A WINDING-UP OF ANZ

The table below illustrates how the Notes would rank upon a winding-up of ANZ, if they are on issue at the time. In the table, a 'higher ranking' obligation is one which will be paid out of ANZ's available assets in a winding-up before obligations with a lower ranking. It may be that lower ranking securityholders, including Holders, will only have part or none of their obligations paid (in the case of Holders, the claim for the Face Value), as there may be insufficient assets remaining to do so after higher ranking obligations have been paid.

As shown in the table below, in a winding-up of ANZ, the Notes rank ahead of Ordinary Shares, equally among themselves, equally with Equal Ranking Instruments (including ANZ Capital Securities) and behind all Senior Creditors of ANZ, including depositors.

		Examples	Examples of existing ANZ obligations and securities ¹³
 <p>Higher ranking/ earlier priority</p>	Senior creditors	Liabilities preferred by law and secured debt	Liabilities in Australia in relation to protected accounts under the Banking Act (generally, savings accounts and term deposits) and other liabilities preferred by law including employee entitlements and secured creditors
		Unsubordinated unsecured debt	Bonds and notes, trade and general creditors. This includes covered bonds which are an unsecured claim on ANZ, though they are secured over assets that form part of the Group
		Subordinated unsecured debt	Subordinated unsecured debt obligations
	Equal ranking obligations	Preference shares and other equally ranked instruments	ANZ Capital Notes 7 and ANZ Capital Securities (in each case if they have not been exchanged for Ordinary Shares) Where Notes are Exchanged for Ordinary Shares, Holders have the claims of holders of Ordinary Shares. If, following a Trigger Event, Notes are Written Off, Holders have no claim at all on ANZ, and they are likely to be worse off than holders of Ordinary Shares
Lower ranking/ later priority	Lower ranking obligations	Ordinary Shares	Ordinary Shares

¹³ This is a very simplified capital structure of ANZ and does not include every type of security or other obligation issued by ANZ. ANZ has the right to issue further debt, deposits or other obligations or securities of any kind at any time. ANZ Capital Notes 7 do not limit the amount of senior debt, deposits or other obligations or securities that may be incurred or issued by ANZ at any time.

1.4 DIFFERENCES BETWEEN THE NOTES AND OTHER TYPES OF INVESTMENTS IN ANZ

ANZ Capital Notes 7 are different from and higher risk than term deposits. They are also different from ANZ Capital Securities (including CN2 and CN6) and Ordinary Shares. You should consider these differences in light of your investment objectives, financial situation and particular needs (including financial and taxation issues) before deciding to apply for Notes. A table highlighting the key differences between the Notes and CN2 is set out in Section 3.2.

	Term deposit	CN6	ANZ Capital Notes 7	Ordinary Shares
Protected under the Financial Claims Scheme	Yes ¹⁴	No	No	No
Margin	Varies from product to product	3.00%	2.7% to 2.9%, to be determined under the Bookbuild	N/A
Distribution/dividend rate	Fixed	Floating	Floating	Variable – as determined by ANZ
Distribution/dividend payment dates	Often at the end of term or per annum	Quarterly	Quarterly	Generally half-yearly – as determined by ANZ in its absolute discretion
Conditions to payment of distributions/dividends	None, subject to applicable laws and any specific conditions	Yes, subject to ANZ's absolute discretion and payment conditions	Yes, subject to ANZ's absolute discretion and Payment Conditions	Yes, subject to ANZ's absolute discretion and applicable laws and regulations
Distribution/dividend restriction if distribution/dividend not paid	No	Yes, applies to Ordinary Shares until the next quarterly distribution payment date	Yes, applies to Ordinary Shares until the next quarterly Distribution Payment Date	No
Frankable distribution/dividend	No – interest payments are not franked	Frankable and grossed up for a non franked portion	Frankable and grossed up for a non franked portion	Frankable
Quoted on ASX	No	Yes, quoted as "ANZPI"	Yes, ANZ Capital Notes 7 are expected to be quoted as "ANZPJ"	Yes – quoted as "ANZ"
Term	Often between 1 month and 5 years	Perpetual, subject to mandatory conversion into Ordinary Shares on 20 September 2030 (approximately 9.25 years after its issue date)	Perpetual, subject to Mandatory Conversion into Ordinary Shares on 20 September 2031 ¹⁵ (approximately 9.5 years after the Issue Date)	Perpetual
Mandatory conversion into Ordinary Shares	No	Yes	Yes	N/A

¹⁴ This is subject to a limit, currently fixed at \$250,000 for the aggregate of the customer's accounts with an ADI declared subject to the Financial Claims Scheme.

¹⁵ Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

	Term deposit	CN6	ANZ Capital Notes 7	Ordinary Shares
APRA written approval required for conversion, redemption or resale (if applicable)	N/A	Yes ¹⁶	Yes ¹⁷	N/A
ANZ's early conversion option	No	Yes	Yes See Section 2.3	N/A
ANZ's early redemption option	No	Yes	Yes See Section 2.3	No

Voting rights	N/A	No right to vote at general meeting of holders of Ordinary Shares	No right to vote at general meeting of holders of Ordinary Shares	Right to vote at general meeting of holders of Ordinary Shares
Ranking	Refer to Section 1.3			

1.5 KEY RISKS OF ANZ CAPITAL NOTES 7

Before deciding whether to apply for Notes, you should consider whether the Notes are a suitable investment for you. There are risks associated with investing in Notes and in ANZ. Many of those risks are outside the control of ANZ and its Directors. The key risks are detailed in Section 6 and you should read that section in full before deciding to invest. The table below outlines the key risks associated with an investment in the Notes.

Topic	Summary	Where to find more information
ANZ Capital Notes 7 are not deposit liabilities or protected accounts	ANZ Capital Notes 7 are not deposit liabilities of ANZ, are not protected accounts for the purposes of the Banking Act or any other accounts with ANZ and are not guaranteed or insured by any person.	Section 6.1.14
Financial market conditions and liquidity of Notes	<p>The market price of the Notes may move up or down due to various factors that affect financial market conditions. It is possible that the Notes may trade at a market price below their Face Value of \$100. This means that Holders who seek to sell their Notes at that time may do so at a loss.</p> <p>The liquidity of the Notes may be low and the market for the Notes may be volatile. This means that Holders may not be able to sell their Notes at an acceptable price, at or above Face Value or at all. The market for the Notes may be less liquid and/or more volatile than the market for Ordinary Shares or other securities issued by ANZ or other entities.</p>	Sections 6.1.1 and 6.1.2

¹⁶ Except for conversion on a mandatory conversion date, common equity capital trigger event, non-viability trigger event or change of control event (each as defined in the CN6 terms).

¹⁷ Except for Conversion on a Mandatory Conversion Date, Common Equity Capital Trigger Event, Non-Viability Trigger Event or Change of Control Event.

Topic	Summary	Where to find more information
Distributions may not be paid	<p>There is a risk that Distributions may not be paid.</p> <p>If a Distribution is not paid in full on a Distribution Payment Date, Holders have no claim or entitlement in respect of non-payment nor any right to receive that Distribution at any later time. Non-payment is not an event of default.</p>	Section 6.1.5
Changes in Distribution Rate	<p>The Distribution Rate will move up or down over time as a result of movements in the BBSW Rate. There is a risk that the Distribution Rate may become less attractive when compared to the rates of return available on other investments.</p>	Section 6.1.7
Mandatory Conversion may not occur on the Mandatory Conversion Date	<p>ANZ Capital Notes 7 have no fixed maturity date but will Convert into Ordinary Shares on 20 September 2031¹⁸ if the Mandatory Conversion Conditions are satisfied, unless Notes are otherwise Exchanged on or before that date.</p> <p>If these conditions are not met on 20 September 2031,¹⁹ Conversion will occur on the next Distribution Payment Date on which they are satisfied. There is a risk that Conversion will not occur because the Mandatory Conversion Conditions are not satisfied.</p> <p>If the Mandatory Conversion Conditions are never satisfied there is a risk that the Notes may never Convert and could remain on issue indefinitely.</p>	Sections 2.2.2 and 6.1.8
Holders have no right to request early Exchange	<p>Holders have no right to request that their Notes be Exchanged. Unless their Notes are Exchanged, to realise their investment, Holders would need to sell their Notes on the ASX at the prevailing market price. That price may be less than the Face Value, and there may be no liquid market in the Notes. The Note Terms contain no events of default.</p>	Section 6.1.10
Mandatory Conversion or Write Off following a Trigger Event	<p>If a Trigger Event occurs and Notes are Converted, the number of Ordinary Shares a Holder will receive for each Note is limited to the Maximum Conversion Number. This means that, depending on the market price of Ordinary Shares at the time, Holders are likely to receive significantly less than approximately \$101 worth of Ordinary Shares per Note and to suffer loss as a consequence. Where Conversion is not effected within five Business Days after the Trigger Event Conversion Date for any reason (including an Inability Event), the Notes will be Written Off. This means that those Notes will never Convert or be Exchanged and all rights (including to Distributions and to Face Value in respect of those Notes) will be terminated with effect on and from the Trigger Event Conversion Date. A Holder's investment will lose all of its value, they will not have their capital repaid and they will not receive any compensation.</p> <p>A Trigger Event may occur at any time.</p>	Sections 2.5 and 6.1.9
Ranking in a winding-up of ANZ	<p>On a winding-up of ANZ, the Notes rank for payment ahead of Ordinary Shares, equally among themselves, equally with Equal Ranking Instruments (including ANZ Capital Securities), and behind all Senior Creditors, including depositors. This means that, on a winding-up, there is a risk that Holders will lose all or some of their investment. If the Notes have been Converted into Ordinary Shares prior to a winding-up of ANZ, the Ordinary Shares received on Conversion will rank equally with other Ordinary Shares and a holder's claim in a winding-up of ANZ will therefore rank lower than it would have if the Notes had not been Converted. If Notes are Written Off, those Notes will never Convert or be Exchanged and Holders will not have their capital repaid at all.</p>	Section 6.1.14
ANZ may issue further securities	<p>There is no limit on the amount of senior debt, deposits or other obligations or securities that may be incurred or issued by ANZ at any time, which may affect a Holder's ability to be repaid on a winding-up of ANZ.</p>	Section 6.1.19

¹⁸ Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

¹⁹ Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

Fluctuation in Ordinary Share price	<p>The market price of Ordinary Shares will move up or down due to various factors, including investor perceptions, domestic and worldwide economic conditions, ANZ's financial performance and position, and transactions affecting the share capital of ANZ. As a result, the price used to calculate the number of Ordinary Shares received by Holders upon Conversion may be different to the market price of the Ordinary Shares when they are issued or thereafter.</p> <p>The COVID-19 pandemic has, and will likely continue to, severely impact global, regional and national economies and markets. The expected duration and magnitude of the COVID-19 pandemic and its potential impacts on the economy and the market price for Ordinary Shares are unclear.</p>	Sections 6.1.2, 6.1.4 and 6.1.8
ANZ's financial performance and position	<p>The market price of the Notes (and the Ordinary Shares into which they can Convert) may be affected by ANZ's financial performance and position. For specific risks associated with an investment in ANZ, see Section 6.2.</p> <p>ANZ's financial performance and position may also affect the credit ratings associated with ANZ's securities, which may impact the market price and liquidity of the Notes. ANZ's credit rating may be revised, withdrawn or suspended by ratings agencies at any time.</p>	Section 6.2

2.1 DISTRIBUTIONS

ANZ Capital Notes 7 are expected to pay quarterly floating rate non-cumulative Distributions, which are expected to be franked at the same rate as dividends on Ordinary Shares and accordingly Holders are expected to receive a combination of cash Distributions and franking credits until all Notes are Converted, Redeemed or Written Off. Payment of the Distributions is at ANZ’s discretion and subject to the payment not resulting in ANZ breaching APRA’s capital adequacy requirements or becoming (or being likely to become) insolvent, or APRA objecting to the payment (the **Payment Conditions**). The Payment Conditions are described in Section 2.1.6 below.

Distributions on Notes are based on a floating rate and are non-cumulative. This means that if a Distribution or part of a Distribution is not paid on a Distribution Payment Date, Holders have no claim or entitlement in respect of non-payment nor any right to receive that Distribution at any later time. All payments of Distributions are subject to applicable law.

<p>2.1.1 How will the Distribution Rate be calculated?</p>	<p>The Distribution Rate for each Distribution Period will be set on the first Business Day of each Distribution Period and will be calculated using the following formula:</p> <p>Distribution Rate = (BBSW Rate + Margin) x (1 – Tax Rate) where:</p> <p>BBSW Rate means the BBSW Rate on the first Business Day of the Distribution Period – see Section 2.1.4;</p> <p>Margin is the margin determined under the Bookbuild (expected to be in the range of 2.7% to 2.9%); and</p> <p>Tax Rate is the Australian corporate tax rate applicable to the franking account of ANZ as at the relevant Distribution Payment Date. As at the date of this Prospectus, the Tax Rate is 30%, although the Tax Rate may change in future years – see Section 6.1.17.</p> <p>For example, assuming the BBSW Rate on the first Business Day of the Distribution Period is 0.07% per annum and assuming the Margin is 2.70% per annum, then the Distribution Rate for that Distribution Period would be calculated as follows:</p> <table border="0" style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 60%;">BBSW Rate</td> <td style="text-align: right;">0.0700% per annum</td> </tr> <tr> <td>Plus the Margin</td> <td style="text-align: right;">+ 2.7000% per annum</td> </tr> <tr> <td colspan="2"><hr/></td> </tr> <tr> <td>Equivalent unfranked distribution rate</td> <td style="text-align: right;">2.7700% per annum</td> </tr> <tr> <td>Multiplied by (1 – Tax Rate)</td> <td style="text-align: right;">x 0.70</td> </tr> <tr> <td colspan="2"><hr/></td> </tr> <tr> <td>Indicative Distribution Rate</td> <td style="text-align: right;">1.9390% per annum</td> </tr> </table>	BBSW Rate	0.0700% per annum	Plus the Margin	+ 2.7000% per annum	<hr/>		Equivalent unfranked distribution rate	2.7700% per annum	Multiplied by (1 – Tax Rate)	x 0.70	<hr/>		Indicative Distribution Rate	1.9390% per annum	<p>Clause 3.1 of the Note Terms</p>

2.1.2 How will the Distribution be calculated for each Distribution Period?	<p>Distributions scheduled to be paid on each Distribution Payment Date will be calculated using the following formula:</p> $\text{Distribution} = \frac{\text{Face Value} \times \text{Distribution Rate} \times N}{365}$ <p>where:</p> <p>Face Value means \$100 per Note;</p> <p>Distribution Rate means the rate (expressed as a percentage per annum) calculated as set out in Section 2.1.1; and</p> <p>N means the number of days in the Distribution Period calculated as set out in the Note Terms.</p> <p>For example, if the Distribution Rate was 1.9390% per annum and assuming Distributions on the Notes are fully franked, then the cash Distribution on each Note for that Distribution Period (if the Distribution Period was for 91 days) would be calculated as follows:</p> <table border="0" data-bbox="443 927 1203 1128"> <tr> <td>Indicative Distribution Rate</td> <td>1.9390% per annum</td> </tr> <tr> <td>Multiplied by the Face Value</td> <td>x \$100.00</td> </tr> <tr> <td>Multiplied by the number of days in the Distribution Period²⁰</td> <td>x 91</td> </tr> <tr> <td>Divided by 365</td> <td>÷ 365</td> </tr> <tr> <td>Indicative fully franked cash Distribution payment for the Distribution Period per Note</td> <td>\$0.4834</td> </tr> </table> <p>Where Distributions are not fully franked, an additional cash payment is made to compensate for the unfranked component. Details of the additional payment are set out in Section 2.1.3.</p> <p>The above example is for illustrative purposes only. Actual Distributions may be higher or lower than this example.</p> <p>The Distribution Rate for the first Distribution Period will be set on the Issue Date and will include the Margin determined under the Bookbuild. You should note that the Distribution Period for the first Distribution is a shorter period of 88 days and Distribution Periods will otherwise generally be 90 to 92 days.</p>	Indicative Distribution Rate	1.9390% per annum	Multiplied by the Face Value	x \$100.00	Multiplied by the number of days in the Distribution Period ²⁰	x 91	Divided by 365	÷ 365	Indicative fully franked cash Distribution payment for the Distribution Period per Note	\$0.4834	Clauses 3.1, 13 and 17.2 of the Note Terms

2.1 DISTRIBUTIONS (CONT)		
<p>2.1.4 What is the BBSW Rate?</p>	<p>The BBSW Rate is a benchmark 3 month floating interest rate for the Australian money market. It is used as a reference for the pricing, rate-setting and valuation of Australian dollar financial securities and is administered by ASX and is published on various information services. It changes to reflect supply and demand in the cash and currency markets. The BBSW Rate for each Distribution Period is set on the first Business Day of the relevant Distribution Period.</p> <p>The graph below illustrates the movement in the BBSW Rate over the last 15 years. The rate on 2 February 2022 was 0.0700% per annum.</p>  <p>The above graph is for illustrative purposes only and does not indicate, guarantee or forecast the actual BBSW Rate. The actual BBSW Rate for the first and subsequent Distribution Periods may be higher or lower than the rates in the above graph.</p> <p>If ANZ determines that BBSW has been affected by a “Reference Rate Disruption Event”, ANZ may select an alternative reference rate that it considers appropriate and make other related changes to the Terms (subject, in each case, to APRA’s prior written approval). Broadly, a “Reference Rate Disruption Event” occurs where BBSW has been discontinued or has ceased to be generally accepted in the Australian market for securities such as the Notes. ANZ is required to act in good faith and in a commercially reasonable manner in selecting an alternative reference rate, and may consult with sources that it considers appropriate, but may otherwise exercise its discretion.</p> <p>It is possible for BBSW to become negative. If BBSW becomes negative, the negative amount will be taken into account in calculating the Distribution Rate. If the Distribution Rate was negative as a result, Holders would not receive a distribution and there would be no obligation on Holders to pay ANZ. For example, if the BBSW Rate is negative 1.00% per annum, the Margin is 2.7000% per annum and the Australian corporate tax rate is 30%, then the Distribution Rate will be 1.1900% per annum, calculated as follows:</p> $\text{Distribution Rate} = (-1.00\% + 2.7000\%) \times (1 - 30\%) = 1.1900\%$ <p>The above example is for illustrative purposes only. Actual Distributions may be higher or lower than this example.</p>	<p>Clause 3.1 of the Note Terms</p>

2.1.5 When are the Distribution Payment Dates?	<p>Subject to ANZ's absolute discretion and the Payment Conditions, Distributions are payable quarterly in arrears on the Distribution Payment Dates. The first Distribution Payment Date is 20 June 2022.</p> <p>Subsequent Distribution Payment Dates occur on 20 March, 20 June, 20 September and 20 December each year. If any of these dates are not Business Days, then the Distribution Payment Date will occur on the next Business Day.</p> <p>In addition, if Exchange occurs on a day that is not a scheduled Distribution Payment Date (other than an Exchange as a result of a Trigger Event, in which case all rights to payment of Distributions are terminated), Holders whose Notes are being Exchanged will also receive a Distribution in respect of those Notes for the period from the immediately preceding Distribution Payment Date to (but excluding) the date on which Exchange occurs, subject to ANZ's absolute discretion and the Payment Conditions.</p>	Clauses 3.3, 3.5 and 17.2 of the Note Terms
2.1.6 What are the Payment Conditions?	<p>Distributions may not always be paid. The payment of each Distribution is subject to ANZ's absolute discretion and no Payment Condition existing in respect of the relevant Distribution Payment Date.</p> <p>A Payment Condition will exist where:</p> <ul style="list-style-type: none"> the payment of Distributions will result in ANZ (on a Level 1 basis) or the ANZ Group (on a Level 2 basis or, if applicable, a Level 3 basis) not complying with APRA's then current capital adequacy requirements; the payment of Distributions would result in ANZ becoming, or being likely to become, insolvent for the purposes of the Corporations Act; or APRA objects to the payment of the Distribution. <p>All payments are subject to applicable law.</p>	Clauses 3.3, 13.9 and 17.2 of the Note Terms
2.1.7 What is the Distribution Restriction and when will it apply?	<p>If for any reason a Distribution has not been paid in full on a Distribution Payment Date (the Relevant Distribution Payment Date), ANZ must not, subject to certain exceptions, without approval of a Special Resolution, until and including the next quarterly Distribution Payment Date:</p> <ul style="list-style-type: none"> resolve to pay or pay any Ordinary Share Dividend; or undertake any Buy-Back (as defined in the Note Terms) or Capital Reduction, <p>unless the Distribution is paid in full within 3 Business Days of the Relevant Distribution Payment Date.</p>	Clauses 3.7 and 3.8 of the Note Terms
2.1.8 Are any deductions made on the Distributions?	<p>ANZ may deduct from any Distribution payable in accordance with the Note Terms the amount of any tax required by law to be deducted in respect of such amount.</p> <p>ANZ may also make a deduction on account of FATCA and is not required to pay an additional amount (or take any further action) where it has made a deduction on account of tax or FATCA.</p>	Clauses 13.10 and 13.11 of the Note Terms

2.1.9 How will Distributions be paid?	<p>Distributions are scheduled to be paid to Holders whose details are recorded with the Registry on the relevant Record Date (as defined in the Note Terms).</p> <p>Distributions and any other amount payable will be paid by:</p> <ul style="list-style-type: none"> • electronic transfer to an Australian dollar bank account maintained in Australia with a financial institution nominated by the Holder; or • at ANZ's option, if no such account is nominated, sending a cheque to the address of the Holder. <p>In order to receive a payment, a Holder will need to notify the Registry by close of business on the relevant Record Date (as defined in the Note Terms) of an Australian dollar bank account maintained in Australia with a financial institution to which payment should be made. If the Holder does not so notify the Registry, or the payment does not complete, the amount will be held as a non-interest bearing deposit until such account is nominated, claims may no longer be made in respect of that amount or ANZ deals with the amount in accordance with the laws relating to unclaimed moneys.</p>	Clause 13 of the Note Terms

2.2 MANDATORY CONVERSION

ANZ Capital Notes 7 do not have a maturity date but are scheduled to be Converted into Ordinary Shares on 20 September 2031²² if the Notes have not been Exchanged prior to that date, provided that certain conditions are met. These conditions may never be satisfied and therefore Notes may never Convert into Ordinary Shares.

2.2.1 When is the Mandatory Conversion Date?	The Mandatory Conversion Date is 20 September 2031 ²³ or if the Mandatory Conversion Conditions are not satisfied on that date, the first Distribution Payment Date on which the Mandatory Conversion Conditions are satisfied.	Clause 4.2 of the Note Terms

²² Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

2.2 MANDATORY CONVERSION (CONT)		
<p>2.2.2 What are the Mandatory Conversion Conditions?</p>	<p>Conversion will not occur unless all the Mandatory Conversion Conditions are satisfied.</p> <p>The Mandatory Conversion Conditions are:</p> <ul style="list-style-type: none"> • First Mandatory Conversion Condition: the VWAP on the 25th Business Day before a potential Mandatory Conversion Date is greater than 56.00% of the Issue Date VWAP. • Second Mandatory Conversion Condition: the VWAP during the period of 20 Business Days in which trading in Ordinary Shares took place before a potential Mandatory Conversion Date is greater than 50.51% of the Issue Date VWAP. • Third Mandatory Conversion Condition: no Delisting Event applies to Ordinary Shares in respect of the possible Mandatory Conversion Date. Broadly, a Delisting Event occurs when ANZ is delisted, its Ordinary Shares have been suspended from trading for a certain period, or ANZ is prevented by applicable law or any other reason from Converting Notes. <p>The following diagram illustrates the operation of the conditions.</p> <p>Note: These dates are subject to adjustments to account for any days where trading in Ordinary Shares does not occur.</p>	<p>Clauses 4.3, 6.1 and 17.2 of the Note Terms</p>

2.2 MANDATORY CONVERSION (CONT)								
<p>2.2.3 What are the reasons for the Mandatory Conversion Conditions?</p>	<p>It is intended that upon Mandatory Conversion of a Note, the Holder receives Ordinary Shares worth approximately \$101 that are capable of being sold on ASX.</p> <p>There is a cap on the maximum number of shares that Holders can be issued on conversion of an instrument such as ANZ Capital Notes 7 due to Prudential Standards and ratings agency requirements. The maximum number is based on the Issue Date VWAP of Ordinary Shares and, in the case of Mandatory Conversion, is set by dividing the Face Value of the Notes by 50% of the Issue Date VWAP.</p> <p>If the price of Ordinary Shares were to fall significantly and there were no Mandatory Conversion Conditions, the number of Ordinary Shares that you would receive might be limited by that cap and in that case the value of those Ordinary Shares would be likely to be less than \$101. In order to give Holders some protection against receiving Ordinary Shares worth less than approximately \$101, the First and Second Mandatory Conversion Conditions have been included, so that where the VWAP of Ordinary Shares has fallen to less than the specified percentage of the Issue Date VWAP, Mandatory Conversion is deferred.</p> <p>So that Holders receive Ordinary Shares on Conversion that are capable of being sold on ASX, the Third Mandatory Conversion Condition has been included. Essentially, it provides that if Ordinary Shares are not listed, Mandatory Conversion is deferred.</p>							
<p>2.2.4 Until when is Mandatory Conversion deferred if the Mandatory Conversion Conditions are not satisfied?</p>	<p>If any of the Mandatory Conversion Conditions are not satisfied, Mandatory Conversion is deferred until the next Distribution Payment Date on which all of the Mandatory Conversion Conditions are satisfied. Since the Mandatory Conversion Conditions may never be satisfied, Mandatory Conversion may never occur.</p>	<p>Clauses 4.2 and 4.3 of the Note Terms</p>

2.2 MANDATORY CONVERSION (CONT)		
2.2.6 What is the Issue Date VWAP?	The Issue Date VWAP is the VWAP during the period of 20 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the first date on which Notes were issued, subject to certain adjustments (described in Section 2.2.7 below).	Clause 17.2 of the Note Terms
2.2.7 What adjustments to the Issue Date VWAP are made to account for changes to ANZ's capital and what is their effect?	<p>The Issue Date VWAP may be adjusted to reflect a consolidation, division or reclassification of Ordinary Shares and pro rata bonus issues as set out in the Note Terms (but not other transactions, including rights issues, which may affect the capital of ANZ). Since the First Mandatory Conversion Condition and Second Mandatory Conversion Condition are expressed in terms of percentages of the Issue Date VWAP, an adjustment alters the VWAP of Ordinary Shares at which those conditions would be satisfied.</p> <p>However, no adjustment shall be made to the Issue Date VWAP where such adjustment (rounded if applicable) would be less than one per cent of the Issue Date VWAP then in effect.</p>	Clauses 6.2 to 6.8 of the Note Terms

2.3 OPTIONAL EXCHANGE BY ANZ

ANZ Capital Notes 7 have no fixed maturity but ANZ may choose to Exchange all or some ANZ Capital Notes 7 on an Optional Exchange Date or after a Tax Event or Regulatory Event occurs, in each case if APRA has given its approval and certain conditions are met. In addition, ANZ (or any Related Entity of ANZ) may at any time purchase Notes in the open market or otherwise, at any price (subject to the prior written approval of APRA).

2.3.1 What does Exchange mean?	<p>Exchange means:</p> <ul style="list-style-type: none"> Notes are Converted into a variable number of Ordinary Shares with a value²⁴ of approximately \$101 per Note; Notes are Redeemed for \$100 per Note; Notes are Resold to a purchaser nominated by ANZ (that cannot be ANZ or a Related Entity of ANZ) for \$100 per Note; or a combination of the above. <p>No Exchange elected by ANZ will occur without APRA's prior written approval and unless certain conditions are met.</p> <p>Holder should not expect that APRA will give its approval for any Exchange.</p>	Clauses 5, 6, 7, 8 and 17.2 of the Note Terms
2.3.2 When are the Optional Exchange Dates?	The Distribution Payment Date falling on 20 March 2029, 20 June 2029 or 20 September 2029.	Clause 17.2 of the Note Terms
2.3.3 What is a Tax Event?	<p>Broadly, a Tax Event will occur if ANZ receives professional advice that, as a result of:</p> <ul style="list-style-type: none"> a change in the tax law in Australia; an administrative pronouncement or ruling affecting taxation in Australia; or a challenge by a taxing authority in Australia in connection with the Notes, <p>on or after the Issue Date (and which on the Issue Date was not expected by ANZ to occur), there is more than an insubstantial risk which the Directors determine to be unacceptable that ANZ would be exposed to more than a de minimis adverse tax consequence or increased cost in relation to Notes being on issue or any Distribution would not be a frankable distribution for tax purposes.</p>	Clauses 5.1 and 17.2 of the Note Terms

²⁴ Based on the VWAP during a period, being 20 Business Days, on which trading in Ordinary Shares took place immediately preceding the Exchange Date. The VWAP of Ordinary Shares during the relevant period before the Exchange Date that is used to calculate the number of Ordinary Shares that Holders receive may differ from the Ordinary Share price on or after the Exchange Date. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

<p>2.3.4 What is a Regulatory Event?</p>	<p>Broadly, a Regulatory Event will occur if:</p> <ul style="list-style-type: none"> • ANZ receives legal advice that, as a result of a change of Australian law or regulation or any statement of APRA on or after the Issue Date (and which on the Issue Date was not expected by ANZ to occur) (a Regulatory Change), <ul style="list-style-type: none"> – additional requirements (which are more than de minimis) would be imposed on ANZ; or – there would be a negative impact on ANZ in relation to Notes which is more than de minimis, and which the Directors determine to be unacceptable; or • the Directors determine that, as a result of a Regulatory Change, ANZ is not or will not be entitled to treat all Notes as Additional Tier 1 Capital. 	<p>Clauses 5.1 and 17.2 of the Note Terms</p>
<p>2.3.5 Are there restrictions on which Exchange Method ANZ may choose?</p>	<p>Yes. Please see Sections 2.3.6 and 2.3.8 below. In addition, where there is an Exchange on an Optional Exchange Date and the Exchange Method is Conversion, the Exchange Notice must be given no earlier than 25 Business Days before the Optional Exchange Date. Where the Exchange Method is Redemption or Resale, the notice period is only 5 Business Days.</p>	<p>Clause 5.2 of the Note Terms</p>
<p>2.3.6 What are the conditions or restrictions on Conversion as the Exchange Method?</p>	<p>If ANZ wishes to Exchange Notes by Converting them, there are two types of restrictions which apply:</p> <ul style="list-style-type: none"> • Restrictions on choosing to Convert ANZ may not choose to Convert Notes if on the second Business Day before the date on which an Exchange Notice is to be sent: <ul style="list-style-type: none"> – the VWAP is less than or equal to 22.50% of the Issue Date VWAP; or – a Delisting Event has occurred. • Restrictions on completing the Conversion If ANZ has sent an Exchange Notice, ANZ must not Convert the Notes if the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition would not be satisfied in respect of the Exchange Date. This restriction is tested as if the Exchange Date were a possible Mandatory Conversion Date and as if the Second Mandatory Conversion Condition referred to 20.21% of the Issue Date VWAP. If that occurs, ANZ will notify Holders and the Conversion will be deferred until the next Distribution Payment Date on which the Mandatory Conversion Conditions would be satisfied. <p>The percentages used in the above conditions are derived from market precedents and the cap on the number of Ordinary Shares that are permitted to be issued in these circumstances under the Prudential Standards and ratings agency requirements. The cap in the case of Conversion in these circumstances is set by dividing the Face Value of the Notes by 20% of the Issue Date VWAP.</p>	<p>Clauses 5.2, 5.4 and 5.5 of the Note Terms</p>
<p>2.3.7 How many Ordinary Shares will Holders receive if Conversion is the Exchange Method?</p>	<p>If the Notes are Converted on an Optional Exchange Date or following a Tax Event or Regulatory Event, Holders will receive a variable number of Ordinary Shares with a value of approximately \$101 (based on a VWAP during a period of 20 Business Days in which trading in Ordinary Shares took place before the Conversion date).</p>	<p>Clauses 5 and 6 of the Note Terms</p>

<p>2.3.8 Are there any restrictions on Redemption?</p>	<p>ANZ may only elect to Redeem Notes with APRA's prior written approval. <p>2.3.9 What happens on Resale?</p>	<p>ANZ may only elect to Resell Notes with APRA's prior written approval. If ANZ elects for Notes to be Resold, subject to payment by the Purchaser of the Face Value of those Notes, the Holder's Notes will be transferred to the Purchaser on the Exchange Date. If the Purchaser does not pay the Face Value of any Notes, these Notes will not be transferred and the Holder has no claim against ANZ as a result of the non-payment.</p> <p>ANZ may appoint one or more Purchasers for the Resale on such terms as may be agreed between ANZ and the Purchaser and to the extent that any such terms may cause the Notes to cease to be Additional Tier 1 Capital, with the prior written approval of APRA. These may include terms as to:</p> <ul style="list-style-type: none"> • the conditions of any Resale; • the substitution of another entity as Purchaser; and • the terms (if any) on which any Notes acquired by a Purchaser may be dealt with. <p>If ANZ appoints more than one Purchaser in respect of a Resale, all or any of the Notes held by a Holder which are being Resold may be purchased by any one or any combination of the Purchasers, as determined by ANZ.</p> <p>ANZ may not appoint itself or a Related Entity as a Purchaser.</p>	<p>Clause 8 of the Note Terms</p>
<p>2.3.10 What factors will influence ANZ's decision to Exchange the Notes?</p>	<p>ANZ will consider a number of factors when determining whether to Exchange all or some Notes on an Optional Exchange Date or after a Tax Event or Regulatory Event occurs. Those factors will include, among other things, ANZ's regulatory capital requirements and financial condition at the time, the market conditions prevailing at the time and the cost to ANZ of replacing the Notes with another form of Additional Tier 1 Capital.</p>

2.4 CONVERSION FOLLOWING A CHANGE OF CONTROL EVENT

If a Change of Control Event occurs, ANZ must give a notice to Convert all ANZ Capital Notes 7 on issue into a number of Ordinary Shares.

2.4.1 When will a Change of Control Event occur?	Broadly, a Change of Control Event occurs if steps are taken to acquire control of ANZ by a takeover bid or a scheme of arrangement and certain further approvals or conditions needed for the acquisition to occur or be implemented have been met.	Clauses 4.10 and 17.2 of the Note Terms
2.4.2 What happens on a Change of Control Event?	If a Change of Control Event occurs, ANZ must, subject to certain further restrictions, give a Change of Control Conversion Notice to Convert each Note into a number of Ordinary Shares with a value of approximately \$101 (based on the VWAP during a period, usually 20 Business Days, on which trading in Ordinary Shares took place immediately preceding (but not including) the Business Day before the Change of Control Conversion Date). ²⁵	Clauses 4.10 and 17.2 of the Note Terms
2.4.3 What are the restrictions on Conversion on a Change of Control Conversion Date?	Following the occurrence of a Change of Control Event, ANZ may not proceed to Convert Notes if, on the date on which Conversion is to occur (Change of Control Conversion Date), certain further restrictions apply. These Conversion restrictions on the Change of Control Conversion Date apply if the Second Mandatory Conversion Condition (applied as if it referred to 20.21% of the Issue Date VWAP) or the Third Mandatory Conversion Condition would not be satisfied in respect of the Change of Control Conversion Date as if the Change of Control Conversion Date were a possible Mandatory Conversion Date. The percentages used in the above conditions are derived from market precedents and the cap on the number of Ordinary Shares that are permitted to be issued in these circumstances under the Prudential Standards and ratings agency requirements.	Clause 4.10 of the Note Terms
2.4.4 What happens if Conversion does not occur on a Change of Control Conversion Date?	If ANZ has given a Change of Control Conversion Notice but the restrictions prevent Conversion, ANZ will give a new Change of Control Conversion Notice to Convert the Notes on the next Distribution Payment Date (under clause 3.5(a) of the Note Terms). Conversion will not occur if the restrictions described in Section 2.4.3 apply on that date. This process will be repeated until a Conversion occurs.	Section 2.4.3 Clause 4.10 of the Note Terms

²⁵ If Conversion occurs as a result of a Change of Control Event, the period for calculating the VWAP may be less than 20 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Business Day before the Change of Control Conversion Date. See clause 17.2 (definition of "VWAP Period") of the Note Terms. The VWAP during the relevant period before the Change of Control Conversion Date that is used to calculate the number of Ordinary Shares that Holders receive may differ from the Ordinary Share price on or after the Change of Control Conversion Date. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

2.5 AUTOMATIC CONVERSION FOLLOWING A TRIGGER EVENT		

ANZ Capital Notes 7 are required to be Converted following the occurrence of a Trigger Event.

The Mandatory Conversion Conditions do not apply to a Conversion following a Trigger Event. The number of Ordinary Shares that Holders will receive on a Conversion in these circumstances will not be greater than the Maximum Conversion Number.

A Trigger Event may occur where ANZ encounters severe financial difficulty. In the event of a Conversion following a Trigger Event, depending on the market price of Ordinary Shares at the relevant time, Holders are likely to receive Ordinary Shares that are worth significantly less than approximately \$101 for each Note they hold and to suffer loss as a consequence. If the Notes are not Converted for any reason (including an Inability Event) they will be Written Off, which means those Notes will never be Converted or Exchanged, all rights in relation to those Notes will be terminated, and Holders will not have their capital repaid.

<p>2.5.1 What is a Trigger Event?</p>	<p>There are two types of Trigger Events:</p> <ul style="list-style-type: none"> • a Common Equity Capital Trigger Event; and • a Non-Viability Trigger Event. <p>Common Equity Capital Trigger Event</p> <p>A Common Equity Capital Trigger Event will occur if, at any time ANZ determines, or APRA has notified ANZ in writing that it believes, that a Common Equity Capital Ratio is equal to or less than 5.125%.</p> <p>ANZ must immediately notify APRA in writing if it makes such a determination.</p> <p>The Common Equity Capital Ratio is the ratio of Common Equity Tier 1 Capital of the ANZ Level 1 Group or the ANZ Level 2 Group (as applicable) (including Ordinary Shares, retained earnings and certain reserves but net of Common Equity Tier 1 Capital Deductions) to the risk weighted assets of the ANZ Level 1 Group or the ANZ Level 2 Group respectively, as prescribed by APRA.</p> <p>See Section 5.4 for more information about ANZ's Common Equity Capital Ratio.</p> <p>A Non-Viability Trigger Event</p> <p>A Non-Viability Trigger Event will occur if, at any time:</p> <ul style="list-style-type: none"> • APRA notifies ANZ in writing that conversion or write off of Relevant Securities is necessary because, without it, APRA considers that ANZ would become non-viable; or • APRA notifies ANZ in writing that it has determined that without a public sector injection of capital (or equivalent support) ANZ would become non-viable. <p>APRA has not provided specific guidance on when it will consider an entity to be non-viable. However, APRA has indicated that non-viability is likely to arise prior to the insolvency of an ADI. Non-viability could be expected to include serious impairment of ANZ's financial position and insolvency; however, it is possible that APRA's definition of non-viable may not necessarily be confined to solvency or capital measures and APRA's position on these matters may change over time.</p>	<p>Sections 5.4 and 6.1.9</p> <p>Clauses 4.5, 4.6, 4.9 and 17.2 of the Note Terms</p>

2.5 AUTOMATIC CONVERSION FOLLOWING A TRIGGER EVENT (CONT)		
<p>2.5.2 What happens following a Trigger Event?</p>	<p>ANZ may be required to Convert a number of Notes into Ordinary Shares following the occurrence of a Trigger Event. If a Trigger Event occurs, ANZ must Convert the Notes immediately on that day. ANZ must notify Holders as soon as practicable of that event occurring, but the Conversion occurs whether or not that notice is given. Conversion in these circumstances is not subject to the Mandatory Conversion Conditions (or any other conditions) and so cannot be stopped for those reasons.</p> <p>If Conversion has not been effected within 5 Business Days after the Trigger Event Conversion Date for any reason (including an Inability Event), the Notes will be Written Off with effect on and from the Trigger Event Conversion Date and a Holder will suffer loss as a consequence.</p> <p>If a Note is Written Off:</p> <ul style="list-style-type: none"> the Note will not be Converted on that date and will not be Exchanged on any other date; and the relevant Holder's rights (including to payment of Distributions and Face Value) in relation to such Note are immediately and irrevocably terminated and written off. 	<p>Clauses 4.7, 4.8, 4.9, 6.1 and 6.13 of the Note Terms</p>
<p>2.5.3 How many Ordinary Shares will Holders receive if Notes are Converted on a Trigger Event Conversion Date?</p>	<p>If Notes are Converted on a Trigger Event Conversion Date, Holders will receive a number of Ordinary Shares per Note that is equivalent to the number calculated using the following formula, being subject to a cap so that the number of Ordinary Shares received is limited to the Maximum Conversion Number:</p> $\frac{\text{Face Value}}{99\% \times \text{VWAP}}$ <p>The cap imposed by the Maximum Conversion Number is likely to mean that fewer, and possibly significantly fewer, Ordinary Shares would be received by a Holder than if this cap did not exist. This is explained further in Section 2.5.4.</p> <p>The VWAP for this purpose is the VWAP during the 5 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Trigger Event Conversion Date (when the price of Ordinary Shares may be low).</p> <p>In the above calculation there is a small Conversion discount since selling costs are likely to apply to the sale of Ordinary Shares on ASX.</p>	<p>Clauses 6.1 to 6.7 of the Note Terms</p>
<p>2.5.4 What is the Maximum Conversion Number?</p>	<p>The Maximum Conversion Number in the case of a Trigger Event is determined using the following formula:</p> $\frac{\text{Face Value}}{\text{Issue Date VWAP} \times 0.2}$ <p>This formula is derived from market precedents and the cap on the number of Ordinary Shares that are permitted to be issued in these circumstances under the Prudential Standards and ratings agency requirements.</p> <p>This means that, depending on the market price of Ordinary Shares at the relevant time, a Holder is likely to receive significantly less than approximately \$101 worth of Ordinary Shares per Note and is likely to suffer a loss as a consequence.</p>

<p>2.5.5 Is there a worked example illustrating how many Ordinary Shares a Holder will receive on Conversion following a Trigger Event?</p>	<p>This example illustrates how many Ordinary Shares a Holder will receive per Note following Conversion on a Trigger Event Conversion Date assuming the VWAP is \$4.50 and the Issue Date VWAP is \$27.00.</p> <p>This example is for illustrative purposes only. <p>2.5.6 How many Notes need to be Converted or Written Off on the occurrence of a Trigger Event?</p>	<p>If a Trigger Event occurs, ANZ must convert or write off sufficient Relevant Securities (including some or all Notes) to restore the Common Equity Capital Ratio to a percentage above 5.125%, or to satisfy APRA that ANZ is viable without further conversion or write off (as applicable).</p> <p>If ANZ is required to Convert some Notes, ANZ will endeavour to Convert Notes and convert into Ordinary Shares or write off other Relevant Securities on an approximately pro-rata basis or in a manner that is otherwise, in the opinion of ANZ, fair and reasonable. This is subject to such adjustment as ANZ may determine to take account of the effect on marketable parcels and the need to round to whole numbers the number of Ordinary Shares and any Notes or other Relevant Securities remaining on issue. In addition, where the Relevant Securities are in different currencies, ANZ may treat the Relevant Securities as if converted into a single currency at rates of exchange it considers reasonable. However, this determination must not impede the immediate Conversion of the relevant number of Notes.</p> <p>Holders should be aware that:</p> <ul style="list-style-type: none"> • Relevant Securities such as Notes, CN2, CN3, CN4, CN5 and CN6 will be converted or written off before any Tier 2 Capital instruments are converted or written off; • ANZ has no obligation to maintain on issue any Relevant Securities and does not, and may never, have on issue Relevant Securities which require them to be converted or written off before the Notes or in full; and • where a Non-Viability Trigger Event occurs because APRA determines that, without a public sector injection of capital or equivalent support, ANZ would become non-viable, all the Notes will be Converted. <p>The Conversion of Notes into Ordinary Shares on the Trigger Event Conversion Date following the occurrence of a Trigger Event is not subject to the Mandatory Conversion Conditions described in Section 2.2.2 being satisfied. This means that, due to the application of the Maximum Conversion Number, depending on the market price of Ordinary Shares at the time, Holders are likely to receive significantly less than approximately \$101 worth of Ordinary Shares per Note and to suffer loss as a consequence.</p>	<p>Clauses 4.8, 4.9 and 9.11 of the Note Terms</p>

<p>2.6.4 What is an Approved NOHC Event?</p>	<p>An Approved NOHC Event is an event initiated by the Directors which would result in ANZ having an ultimate holding company which is a "non-operating holding company" within the meaning of the Banking Act (NOHC) and where, following the occurrence of that event:</p> <ul style="list-style-type: none"> • the ordinary shares of the NOHC are listed on ASX; and • the NOHC agrees to Convert the Notes into Ordinary Shares in the NOHC in place of ANZ's obligation to Convert the Notes into Ordinary Shares. <p>If an Approved NOHC Event occurs, the Note Terms may be amended to enable the substitution of the Approved NOHC as the issuer of ordinary shares on Conversion (including following the Mandatory Conversion Date). <p>2.6.6 What if a Holder is not resident in Australia?</p>	<p>If the Register indicates that a Holder's address is outside of Australia (or ANZ believes that a Holder may not be a resident of Australia) (such a Holder, a Foreign Holder) and that Foreign Holder's Notes are to be Converted, ANZ is entitled in certain circumstances to issue the relevant Ordinary Shares to a nominee (who may not be ANZ or a Related Entity of ANZ) who will sell those Ordinary Shares and pay a cash amount equal to the net proceeds to the Foreign Holder.</p>	<p>Clauses 6.10 and 17.2 of the Note Terms</p>
<p>2.6.7 What happens if FATCA Withholding is required to be made?</p>	<p>Where a FATCA Withholding would be required or permitted to be made in respect of Ordinary Shares issued on Conversion of Notes, ANZ may either issue the Ordinary Shares which the Holder is obliged to accept to the Holder of the Notes net of FATCA Withholding and issue the balance of Ordinary Shares to a nominee or issue the Ordinary Shares which the Holder is obliged to accept entirely to a nominee. In each case, the nominee (which may not be ANZ or a Related Entity of ANZ) will sell the Ordinary Shares issued to it, deal with any proceeds of their disposal in accordance with FATCA and, where the Ordinary Shares have been issued entirely to the nominee, pay a cash amount equal to the proceeds of their disposal net of any FATCA Withholding and other amounts as specified in the Note Terms to the Holder.</p>	<p>Clause 6.11 of the Note Terms</p>
<p>2.6.8 Where Ordinary Shares are issued to a nominee, does the nominee or ANZ have any duties on a sale?</p>	<p>None of ANZ or the nominee owes any obligations or duties to Holders in relation to the price at which Ordinary Shares are sold or has any liability for any loss suffered by a Holder as a result of the sale of Ordinary Shares.</p>	<p>Clause 6.14 of the Note Terms</p>
<p>2.6.9 Is there a time limit on claims in respect of the Notes?</p>	<p> Holders should be aware that ANZ is entitled to refuse any claim against it for a payment under a Note where the claim is made more than 10 years (in the case of Face Value) or 5 years (in the case of Distributions and other amounts) from the date on which payment first became due.</p>	<p>Clause 13.4 of the Note Terms</p>

ABOUT THE REINVESTMENT OFFER

THIS SECTION SETS OUT:

THE OPTIONS AVAILABLE TO CN2 HOLDERS;

THE DIFFERENCE BETWEEN CN2 AND ANZ CAPITAL NOTES 7;

FURTHER INFORMATION ABOUT PARTICIPATING IN THE REINVESTMENT OFFER AND HOW TO REINVEST YOUR CN2 REDEMPTION PROCEEDS INTO ANZ CAPITAL NOTES 7; AND

THE RISKS ASSOCIATED WITH PARTICIPATING IN THE REINVESTMENT OFFER.

Topic	Summary
3.1 THE REINVESTMENT OFFER	
3.1.1 What are CN2?	CN2 (or ANZ Capital Notes 2) are fully paid, non-cumulative, convertible, transferable, redeemable, subordinated, perpetual, unsecured notes that were issued by ANZ on 31 March 2014. CN2 trade on the ASX under the ASX code "ANZPE".
3.1.2 What is happening to CN2?	<p>On 15 February 2022, ANZ issued a redemption notice in accordance with the CN2 terms. The redemption notice confirms that on 24 March 2022, ANZ will redeem all CN2 for their face value of \$100 per CN2 (CN2 Redemption Price). If you are an Eligible CN2 Holder and participate in the Reinvestment Offer, your CN2 Redemption Proceeds will be applied to subscribe for Notes (see below for further details).</p> <p>The redemption notice is irrevocable (except as provided by the CN2 terms) but the CN2 Redemption may not occur for a number of reasons, including if a trigger event occurs under the CN2 terms or APRA revokes its approval of the CN2 Redemption.</p> <p>If the CN2 Redemption does not occur, except as a result of a trigger event occurring in respect of the CN2, CN2 holders will continue to hold their CN2.</p> <p>To facilitate the CN2 Redemption, the CN2 will cease trading on ASX on 14 March 2022.</p> <p>A final distribution of \$1.1403 per CN2 is scheduled to be paid by ANZ in respect of all CN2 on 24 March 2022 (subject to the payment conditions in the CN2 terms and ANZ's absolute discretion) (Final CN2 Distribution). The record date for the Final CN2 Distribution is 7.00pm on 16 March 2022. All holders of CN2 on the record date will be entitled to receive the Final CN2 Distribution, including Eligible CN2 Holders who participate in the Reinvestment Offer.</p>
3.1.3 What is the Reinvestment Offer?	<p>The Reinvestment Offer is an invitation to Eligible CN2 Holders to apply to have some or all of their CN2 Redemption Proceeds reinvested into Notes.²⁶</p> <p>If you are an Eligible CN2 Holder and you participate in the Reinvestment Offer, your CN2 Redemption Proceeds that you reinvest into Notes will be used to fund the Application Payment for the Notes. Those CN2 Redemption Proceeds will not be paid to you.</p> <p>Eligible CN2 Holders are not required to participate in the Reinvestment Offer and there is no guarantee Applications under the Reinvestment Offer will be accepted.</p>

²⁶ The market price of CN2 is subject to change from time to time and CN2 holders may be able to sell or dispose of their CN2 at a price higher or lower than the price they would receive for the CN2 under the CN2 Redemption (being \$100 per CN2). The current market price of CN2 is available at the ASX website (asx.com.au).

3.3 WHAT ARE THE RISKS ASSOCIATED WITH PARTICIPATING IN THE REINVESTMENT OFFER AND ACQUIRING NOTES?

There are certain risks associated with participating in the Reinvestment Offer and acquiring Notes, which include:

- the CN2 Redemption Price of \$100 per CN2 (which does not include the Final CN2 Distribution) may be less than the ASX trading price of CN2 (which may include an amount representing the accrued portion of the Final CN2 Distribution). Rather than participating in the Reinvestment Offer, Eligible CN2 Holders may obtain a better financial outcome by selling their CN2 on-market and investing the proceeds in ANZ Capital Notes 7 (although any Application may be scaled back);
- if you are an Eligible CN2 Holder and you apply for Notes under the Offer (pursuant to the Reinvestment Offer or otherwise), you may receive an allocation of ANZ Capital Notes 7. As such, you will be subject to the risks associated with an investment in ANZ Capital Notes 7 and in ANZ, many of which are outside the control of ANZ and its Directors. These risks are outlined in Section 6 and should be considered before you apply under the Offer (including under the Reinvestment Offer); and
- participation in the Reinvestment Offer does not involve a simple rollover into a similar investment. ANZ Capital Notes 7 and CN2 have different benefits and risks, which must be evaluated separately. For a description of the key differences between the two securities, see Section 3.2.

TO APPLY FOR NOTES;

WHO THE OFFER IS MADE TO;

DETAILS OF THE BOOKBUILD
AND ALLOCATION POLICY;

DETAILS OF ASX QUOTATION
AND TRADING; AND

OTHER INFORMATION RELEVANT
TO YOUR APPLICATION.

4.1 NOTES TARGET MARKET

ANZ has made a target market determination for ANZ Capital Notes 7 in accordance with its obligations under the DDO Regime (**Target Market Determination**). The Target Market Determination is available at capitalnotes.anz.com.

The Target Market Determination describes, among other things, the class of Retail Investors that comprise the target market for ANZ Capital Notes 7 (**Notes Target Market**) being investors who:

- are seeking to acquire an investment product with the ability to generate income;
- are **not** seeking capital growth;
- are able to bear the risks associated with an investment in ANZ Capital Notes 7 (which are summarised in Section 1.5 and detailed in Section 6), in particular, the lack of certainty as to payment of distributions and the potential loss of some or all of the capital invested in ANZ Capital Notes 7;
- do not require certainty as to repayment of capital invested within a specific investment timeframe; and
- seek the ability to dispose of ANZ Capital Notes 7 by sale on a licensed securities exchange at the price available on the exchange.

If you are a Retail Investor and wish to apply for Notes:

- you must seek professional advice as to whether you are within the Notes Target Market and whether the investment in the Notes is suitable in light of your particular objectives, financial situation and needs; and
- you can only apply for the Notes if you are within the Notes Target Market and you have received personal advice from a licensed professional adviser.

If you have any questions about the Offer, the Notes or the Notes Target Market, you should also contact your Syndicate Broker or seek advice from a professional adviser who is licensed by ASIC to give that advice.

4.2 APPLYING FOR ANZ CAPITAL NOTES²⁹

All Applications must be submitted through a Syndicate Broker. No Applications can be made directly to ANZ.

The Offer does not contain a specific offer for ANZ securityholders (unlike previous retail hybrid security offers by ANZ) and Eligible CN2 Holders cannot apply directly to ANZ to participate in the Reinvestment Offer.

Who may apply?	Clients of Syndicate Brokers who are either a Wholesale Investor, or a Retail Investor within the Notes Target Market who has received personal advice from a licensed professional adviser.
When to apply	Completed Applications must be received by your Syndicate Broker in sufficient time for your Syndicate Broker to process your Application on your behalf by the relevant Closing Date.
How to apply	<ul style="list-style-type: none"> • You must contact your Syndicate Broker for instructions on how to apply. • If you are applying under the Reinvestment Offer: <ul style="list-style-type: none"> – you must apply to reinvest a minimum of 50 CN2 in Notes (unless you hold less than that amount of CN2); – if you hold less than 50 CN2, you can still apply to participate in the Reinvestment Offer, but you must apply to reinvest all of your CN2 in Notes; and – an Application Payment is not necessary as your CN2 Redemption Proceeds will be applied to the Application Payment to the extent required. • If you are applying under the New Money Offer: <ul style="list-style-type: none"> – your Application must be for a minimum of 50 Notes (\$5,000); and – an Application Payment will be necessary. Contact your Syndicate Broker for instructions on how to make the Application Payment.

²⁹ The key dates for the Offer are indicative only and may change without notice. ANZ and the Joint Lead Managers may reduce or extend any Closing Date without notice, or withdraw the Offer at any time before ANZ Capital Notes 7 are issued.

4.2.1 No cooling off rights

No cooling off rights apply to an Application for Notes. You cannot withdraw your Application once it has been lodged, except as permitted under the Corporations Act.

4.2.2 Representations, warranties and acknowledgements

When lodging your Application, you will be required to give certain representations, warranties and acknowledgements to ANZ. In particular, if you are a Retail Investor, you will be required to represent to ANZ that you have received personal advice from a qualified financial adviser in relation to your acquisition of ANZ Capital Notes 7.

4.2.3 Brokerage and stamp duty

No brokerage or stamp duty is payable on your Application. You may have to pay brokerage, but will not have to pay any stamp duty, on any later sale of your Notes on ASX after Notes have been quoted on ASX.

4.2.4 Refunds

If you apply for Notes under the Offer and are not allotted any Notes or you are allotted fewer Notes than the number that you applied and paid for as a result of a scale back, all or some of your Application Payment (as applicable) will be refunded to you (without interest) as soon as practicable after the Issue Date. For further information on potential scale back – see Section 4.4.3.

In the event that the Offer does not proceed for any reason, all applicants will have their Application Payments refunded (without interest) as soon as practicable.

4.3 PROVISION OF PERSONAL INFORMATION

The information about you included as part of your Application is used for the purposes of processing your Application and, if your Application is successful, to administer your Notes. For information about the acknowledgements and privacy statement in relation to personal information that you provide to ANZ by completing an Application – see Section 8.10.

4.4 BOOKBUILD AND ALLOCATION POLICY

4.4.1 Bookbuild

The Bookbuild will be conducted by the Joint Lead Managers in consultation with ANZ. In the Bookbuild, participants will be invited to lodge bids for a number of Notes. The Bookbuild will be conducted before the Opening Date to determine the Margin and firm Allocations of Notes to Bookbuild participants. The Bookbuild will be conducted in the manner contemplated in this Prospectus and otherwise on the terms and conditions agreed to by ANZ and the Joint Lead Managers in the Offer Management Agreement.

4.4.2 Settlement

The Joint Lead Managers have agreed with ANZ to bid into the Bookbuild on a broker firm basis. This means that each Joint Lead Manager (other than ANZ Securities) is responsible for ensuring that payment is made for all Notes allocated to them or at their direction.

The Offer Management Agreement may be terminated by the Joint Lead Managers in certain circumstances. If the Offer Management Agreement is terminated, Bookbuild participants can withdraw their firm Allocations. For details of the fees payable under the Offer Management Agreement – see Section 8.5.

4.4.3 Allocation Policy

Allocations to Syndicate Brokers will be determined by ANZ in consultation with the Joint Lead Managers following completion of the Bookbuild.

Allocations to applicants by a Syndicate Broker (including in respect of allocations under the Reinvestment Offer) are at the discretion of that Syndicate Broker. It is possible for Applications to be scaled back by a Syndicate Broker. ANZ takes no responsibility for any allocation, scale back or rejection that is decided by a Syndicate Broker.

Allocations to Institutional Investors will be determined by ANZ Securities and ANZ following completion of the Bookbuild.

4.5 ASX QUOTATION, CONFIRMATION STATEMENTS AND OTHER INFORMATION

4.5.1 ASX quotation

ANZ will apply to ASX for Notes to be quoted on ASX. If ASX does not grant permission for Notes to be quoted within three months after the date of this Prospectus, Notes will not be issued and all Application Payments will be refunded (without interest) to applicants as soon as practicable.

It is expected that Notes will begin trading on ASX on a normal settlement basis on 25 March 2022 under ASX code "ANZPJ".

You are responsible for confirming your holding before trading in Notes. If you are a successful applicant and sell your Notes before receiving your Confirmation Statement, you do so at your own risk.

You may call the ANZ Information Line on 1800 113 399 (within Australia) or +61 3 9415 4010 (international) (Monday to Friday – 8:30am to 5:30pm) or your Syndicate Broker, after the Issue Date to enquire about your Allocation.

4.5.2 Confirmation Statements

ANZ has applied for Notes to participate in CHESS. No certificates will be issued for Notes. ANZ expects that Confirmation Statements for issuer sponsored holders and confirmations for CHESS holders will be despatched to successful applicants by 31 March 2022.

4.5.3 Provision of bank account details for Distributions

ANZ's current policy is that Distributions will be paid in Australian dollars by direct credit into nominated Australian financial institution accounts (excluding credit card accounts) for Holders with a registered address in Australia. For all other Holders, ANZ's current policy is that Distributions will be paid by Australian dollar cheque.

4.5.4 Provision of Tax File Number or Australian Business Number

If you are a successful applicant who has not already quoted your TFN or ABN and you are issued any Notes, then you may be contacted in relation to quoting your TFN, ABN or both.

The collection and quotation of TFNs and ABNs are authorised, and their use and disclosure is strictly regulated, by tax laws and the Privacy Act. If collected, ANZ will only use and disclose your TFN or ABN in accordance with those laws and to fulfil its obligations in connection with the Notes.

You are not required to provide your TFN or ABN. However, if you decline to provide this information, ANZ may be required to withhold Australian tax at the maximum marginal tax rate plus the Medicare levy (currently being 47%) on the unfranked part of any Distribution unless you have provided:

- your TFN or, in certain circumstances, your ABN; or
- notification that you are exempt from providing this information.

Further, successful applicants who do not have an address in Australia registered with the Registry, or who direct the payment of any Distribution to an address outside of Australia, may have an amount deducted for Australian withholding tax from any Distribution paid, to the extent that the Distribution is not fully franked.

SECTION 05

**ABOUT
ANZ**

THIS SECTION SETS OUT:

A DESCRIPTION OF ANZ'S BUSINESS INCLUDING SUMMARY FINANCIAL INFORMATION;

FINANCIAL INFORMATION DEMONSTRATING THE EFFECT OF THE OFFER ON ANZ; AND

A DESCRIPTION OF ANZ'S CAPITAL MANAGEMENT AND CAPITAL RATIOS, FUNDING AND LIQUIDITY.

5.1 OVERVIEW OF ANZ

The ANZ Group began its Australian operations in 1835 and its New Zealand operations in 1840. ANZ is a public company limited by shares incorporated in Australia and was registered in the State of Victoria on 14 July 1977. ANZ's registered office is located at Level 9, 833 Collins Street, Docklands, Victoria, 3008, Australia and the telephone number is +61 3 9683 9999. Its Australian Company Number is 005 357 522.

The ANZ Group provides a broad range of banking and financial products and services to retail, small business, corporate and institutional customers. Geographically, its operations span Australia, New Zealand, a number of countries in the Asia Pacific region, the United Kingdom, France, Germany and the United States.

As at 30 September 2021, the ANZ Group had total assets of approximately A\$978.9 billion, and shareholders' equity excluding non-controlling interests of approximately A\$63.7 billion. ANZ's principal ordinary share listing and quotation is on the ASX. Its ordinary shares are also quoted on the New Zealand Stock Exchange (NZX). At the close of trading on 30 September 2021, ANZ had a market capitalisation of approximately A\$79.5 billion which ranked among the top six largest companies listed on the ASX.

Principal activities of the ANZ Group

The Group operates on a divisional structure with five continuing divisions: Australia Retail and Commercial, Institutional, New Zealand, Pacific, and TSO and Group Centre.

The divisions reported below are consistent with operating segments as defined in AASB 8 Operating Segments and with internal reporting provided to the chief operating decision maker, being the Chief Executive Officer.

As of 30 September 2021, the principal activities of the five continuing divisions were:

Australia Retail and Commercial

The Australia Retail and Commercial division comprises the following business units:

- **Retail:** which provides products and services to consumer customers in Australia via the branch network, mortgage specialists, contact centres, a variety of self-service channels (digital and internet banking, website, ATMs and phone banking) and third party brokers.
- **Commercial and Private Bank:** which provides a full range of banking products and financial services, including asset financing, across the following customer segments: medium to large commercial customers, small business owners and high net worth individuals and family groups, in addition to financial planning services provided by salaried financial planners and investment lending secured by approved securities.

Institutional

The Institutional division services governments, global institutional and corporate customers via the following business units:

- **Transaction Banking:** which provides customers with working capital and liquidity solutions including documentary trade, supply chain financing, commodity financing as well as cash management solutions, deposits, payments and clearing.
- **Corporate Finance:** which provides customers with loan products, loan syndication, specialised loan structuring and execution, project and export finance, debt structuring and acquisition finance and corporate advisory services.
- **Markets:** which provides customers with risk management services in foreign exchange, interest rates, credit, commodities and debt capital markets in addition to managing the Group's interest rate exposure and liquidity position.

New Zealand

The New Zealand division comprises the following business units:

- **Personal (previously Retail):** which provides a full range of banking and wealth management services to consumer and private banking customers. It delivers services via internet and app-based digital solutions and network of branches, mortgage specialists, relationship managers and contact centres.
- **Business (previously Commercial):** which provides a full range of banking services including small business banking, through digital, branch and contact centre channels, and traditional relationship banking and sophisticated financial solutions through dedicated managers. These cover privately owned small, medium and large enterprises, the agricultural business segment, government and government-related entities.

Pacific

The Pacific division provides products and services to retail customers, small to medium-sized enterprises, institutional customers and governments located in the Pacific Islands. Products and services include retail products provided to consumers, traditional relationship banking and sophisticated financial solutions provided to business customers through dedicated managers.

TSO and Group Centre

TSO and Group Centre division provides support to the operating divisions, including technology, group operations, shared services, property, risk management, financial management, strategy, marketing, human resources and corporate affairs. The Group Centre includes residual components of Group divestments, Group Treasury, Shareholder Functions and minority investments in Asia.

5.2 ANZ GROUP STRATEGY

Our strategy is focused on improving the financial wellbeing of our customers; by providing excellent services, tools and insights that engage and retain customers and positively change their behaviour.

In particular, we want to help customers:

- save for, buy and own a sustainable, liveable and affordable home;
- start or buy and sustainably grow their business; and
- move capital and goods around the region and sustainably grow their business.

We will achieve our strategy through:

- **Propositions** our customers love – with easy to use services that evolve to meet their changing needs. Through better use of data, we will be able to provide valuable insights about our customers and how they can improve their financial wellbeing and sustainability over their lifetime, enabling us to create superior propositions.
- Flexible and resilient digital banking **Platforms** – powering our customers and made available for others to power the industry. Platforms underpin our own propositions and will increasingly underpin those of our customers, notably other banks or institutional corporations.
- **Partnerships** that unlock new value – with ecosystems that help customers further improve their financial wellbeing and sustainability. We recognise that no one institution can do everything or innovate at the pace necessary to satisfy customers' needs – strong relationships with partners is therefore vital.
- **Purpose** and values-led people – who drive value by caring about our customers and the outcomes we create. Our people listen, learn and adapt and do the right thing the first time, delivering the outcomes that address financial and sustainability challenges.

Building the financial wellbeing and sustainability of our customers creates a positive cycle of benefits. It directly benefits customers and also grows shareholder returns; it leads to a strong and positive reputation; it ultimately means it costs less to acquire customers; and it grows loyalty, which in turn generates better returns – delivering more capital so we can invest in building a better bank and continue to improve the lives of our customers.

5.3 FINANCIAL INFORMATION ABOUT ANZ

5.3.1 2021 Financial Year

The Group's statutory profit after tax for the year ended 30 September 2021 attributable to the shareholders of ANZ was \$6,162 million, compared to \$3,577 million for the year ended 30 September 2020, an increase of 72%. The dividend for the year ended 30 September 2021 was 142 cents per Ordinary Share (fully franked) compared to 60 cents per Ordinary Share (fully franked) for the year ended 30 September 2020, an increase of 137%.

5.3.2 2022 Pillar 3 update

ANZ released its Pillar 3 and a market update for the 3 months to 31 December 2021 on 7 February 2022.

Further information is available at shareholder.anz.com/announcements.

5.3.3 Historical results

The profit information in Section 5.3.1 is historical information and is not a forecast of results to be expected in future periods.

5.3.4 Impact of the Offer on ANZ's consolidated balance sheet

The issue of the Notes will increase the Group's subordinated debt and cash by approximately \$985 million (\$1 billion gross proceeds of the Offer, less approximately \$15 million of Offer costs) with no impact on the Group's net assets or shareholders' equity.

If all CN2 are redeemed by ANZ on 24 March 2022, the Group's subordinated debt and cash would reduce by approximately \$1.61 billion, with no impact on the Group's net assets or shareholders' equity.

On a net basis, the Offer of the Notes and the redemption of all of the CN2 would reduce the Group's subordinated debt and cash by approximately \$625 million. The Offer of the Notes and the redemption of all of the CN2 will not have a material impact on the Group's financial position.

The impact has been prepared in accordance with the measurement and recognition requirements of Australian Accounting Standards and other mandatory reporting requirements in Australia.

If ANZ raises more or less than \$1 billion under the Offer, the figures referred to above will be impacted accordingly.

5.4 CAPITAL ADEQUACY

5.4.1 Prudential regulation

APRA is the prudential regulator of the Australian financial services industry.

ANZ is regulated by APRA because of its status as an ADI. APRA's Prudential Standards aim to ensure that ADIs (including ANZ) remain adequately capitalised to support the risks associated with their activities, absorb losses and to generally protect Australian depositors.

To ensure that ADIs are adequately capitalised on both a standalone and group basis, APRA adopts a tiered approach to the measurement of an ADI's capital adequacy by assessing the ADI's financial strength at three levels:

- **Level 1** – the ADI on a standalone basis (i.e. ANZ and specified subsidiaries which are considered to form the ADI's Extended Licensed Entity). This is the ANZ Level 1 Group;
- **Level 2** – the consolidated banking group (i.e. the consolidated group less certain subsidiaries and associates that are excluded under APRA's Prudential Standards). This is the ANZ Level 2 Group; and
- **Level 3** – the conglomerate group at its widest level; that is, ANZ and all its related bodies corporate. This would also include a NOHC if applicable.

ANZ must also comply with a common framework issued by the Basel Committee for the calculation of capital adequacy, and the risk weighting of assets, for banks worldwide (the **Basel Framework**). The objective of the Basel Framework is to develop capital adequacy guidelines that are more accurately aligned with the individual risk profile of banks.

The Basel Framework requires ADIs to hold a certain level of regulatory capital against its risk weighted assets (**RWA**). An ADI calculates its RWA number by weighting its assets (through applying a percentage factor) to reflect the risk of loss to the ADI from those assets, in particular from non-payment.

For more information on ANZ's and the Group's capital ratios as at 31 December 2021 and the effect of the Offer, see Sections 5.4.6 and 5.4.7.

5.4.2 Basel III Framework

ANZ has been accredited by APRA to use the Advanced Internal Ratings Based (**IRB**) methodology for calculating credit RWA, the Internal Models Approach (IMA) for market risk including interest rate risk in the banking book (IRRB) and the Advanced Measurement Approach for calculating the operational RWA equivalent. The credit risk weightings for a bank accredited to use the IRB methodology are generally lower than the weightings applied to a bank that does not have that accreditation and so must use a standard set of risk weightings set by APRA (the **standardised approach**). APRA views Basel III requirements as a minimum standard and has accordingly set higher requirements in some areas for ADIs using the IRB methodology (**IRB ADIs**).

5.4.3 Prudential Capital Classification

APRA currently classifies an ADI's regulatory capital into three tiers for supervisory purposes – referred to as Common Equity Tier 1 Capital, Additional Tier 1 Capital and Tier 2 Capital.

Common Equity Tier 1 Capital comprises the highest quality components of capital and includes shareholders' equity adjusted for items which APRA does not allow as regulatory capital or classifies as lower forms of regulatory capital. The ratio of Common Equity Tier 1 Capital to RWA is called the Common Equity Capital Ratio.

Additional Tier 1 Capital comprises certain securities not classified as Common Equity Tier 1 Capital but with loss absorbing characteristics including that, at the time of "non-viability" of an ADI, these instruments will be either converted to ordinary shares or written off (such as ANZ Capital Securities and the ANZ Capital Notes 6). Additional Tier 1 Capital together with Common Equity Tier 1 Capital constitutes Tier 1 Capital and the ratio of Tier 1 Capital to RWA is called the Tier 1 Capital Ratio.

Tier 2 Capital consists of subordinated instruments and, whilst a lesser form of capital than Tier 1 Capital, still has a capacity to absorb losses and contributes to the overall capital framework. Tier 2 Capital will also be converted to ordinary shares or written off at the time of 'non-viability' of an ADI. Tier 2 Capital together with Tier 1 Capital constitutes Total Capital and the ratio of Total Capital to RWA is called the Total Capital Ratio.

APRA has confirmed that the Notes will constitute Additional Tier 1 Capital for the purposes of ANZ's regulatory capital requirements.

5.4.4 APRA's Common Equity Capital Ratio requirements

Minimum Capital Ratios

Subject to APRA's changes to its capital requirements discussed in section 5.4.5 below, APRA's Basel III Prudential Standards currently require a minimum Common Equity Capital Ratio of 4.5%, although APRA may require ADIs, such as ANZ, to maintain a higher capital ratio which may not be disclosed (**Prudential Capital Ratio** or **PCR**). APRA also currently requires ADIs to hold Common Equity Tier 1 Capital buffers (**Combined Capital Buffers**) consisting of:

- a capital conservation buffer (**CCB**) of 2.5%, unless APRA determines otherwise; plus
- an additional capital buffer of 1.0% from 1 January 2016 given APRA has determined that ANZ is an important bank to the Australian financial system (otherwise known as a 'domestic systemically important bank' or a **D-SIB**); plus
- a counter-cyclical capital buffer (**CCyB**). In respect of Australian exposures the buffer is currently 0%, although it may vary over time up to 2.5% in response to market conditions and APRA has provided guidance that the CCyB would be set at the default rate of 1.0% for Australia

on the commencement of the new capital framework on 1 January 2023 (refer to section 5.4.5 below).

Regulators in some jurisdictions in which ANZ operates have set counter-cyclical capital buffers that apply to exposures in that jurisdiction, and as such apply to ANZ. As at 31 December 2021, the weighted average aggregate of non-Australian counter-cyclical capital buffers that apply to ANZ was 0%.

Volatility in the Common Equity Capital Ratios can be expected to arise in the future reflecting the build-up of current year earnings in normal conditions which increase the ratio and the subsequent payment of Ordinary Share Dividends (generally in July and December of each year) which decrease the ratio.

References to the minimum capital ratio, which is the aggregate of the PCR and the Combined Capital Buffers (**Minimum Capital Ratio**), applicable under APRA's Prudential Standards are to general minima applying under the APRA Prudential Standards, rather than specific minima applying to ANZ.

The differences between the Common Equity Capital Ratios for the ANZ Level 1 Group and ANZ Level 2 Group relate principally to the capital held within offshore banking subsidiaries and the treatment of insurance and funds management subsidiaries at Level 1. So long as ANZ is able to apply the Group's capital management strategy to those subsidiaries, including repatriating dividends from those subsidiaries (with the approval of the local regulator), ANZ would expect that those capital ratios would move in a similar way. However, there are instances where the Level 1 and Level 2 capital ratios may diverge and regulatory developments (such as those described below) may increase the divergence.

The ANZ Level 1 Group's Common Equity Capital Ratio has been impacted by the reduced dividends from its New Zealand subsidiary as a result of the RBNZ's restrictions on the amount of dividends that New Zealand banks could pay as well as the RBNZ's requirements for New Zealand banks to hold more capital. The Level 1 and Level 2 Common Equity Capital Ratios may also diverge further as APRA's proposed revisions to the capital treatment of an ADI's banking and insurance subsidiaries at Level 1 are implemented. These regulatory developments are described in more detail in section 5.4.5 below.

Restrictions on the Payment of Distributions

If the Common Equity Capital Ratio for an ADI on a Level 1 or Level 2 basis falls below the Minimum Capital Ratio, which is currently 8% under APRA's Prudential Standards for a D-SIB (although it may be higher for individual ADIs), then the ADI is limited in the amount of relevant current year post-tax earnings (adjusted to add back expenses for Tier 1 Capital Distributions (as defined below) paid in the immediately preceding 12 months) that it can pay as discretionary bonuses to staff; distributions on Additional Tier 1 Capital instruments (including the Notes) and dividends and share buy-backs on Ordinary Shares (**Tier 1 Capital Distributions**).

The amount of adjusted current year post tax earnings that can be paid as Tier 1 Capital Distributions (including Distributions on the Notes) (**Maximum Distributable Amount**) is limited in accordance with the table below, after taking into account other Tier 1 Capital Distributions paid in the 12-month period immediately preceding the relevant payment date and actual and forecast capital raisings agreed with APRA.

The Combined Capital Buffer is divided into four quartiles for determining the maximum percentage of adjusted current year post-tax earnings that an ADI is able to distribute when its Common Equity Capital Ratio falls within the relevant quartile:

Common Equity Capital Ratio	Maximum Distributable Amount
Above the top of the Combined Capital Buffers (>PCR + Combined Capital Buffers)	100%
Within the fourth quartile of the Combined Capital Buffers (>PCR + 0.75% of the Combined Capital Buffers to ≤PCR + Combined Capital Buffers)	60%
Within the third quartile of the Combined Capital Buffers (>PCR + 0.50% of the Combined Capital Buffers to ≤PCR + 0.75% of the Combined Capital Buffers)	40%
Within the second quartile of the Combined Capital Buffers (>PCR + 0.25% of the Combined Capital Buffers to ≤PCR + 0.50% of the Combined Capital Buffers)	20%
Within the first quartile of the Combined Capital Buffers (PCR to ≤PCR + 0.25% of the Combined Capital Buffers)	0%

An ADI may apply to APRA to make payments in excess of the Maximum Distributable Amount. APRA will only grant approval where it is satisfied that an ADI has established measures to raise capital equal to or greater than the amount above the constraint that it wishes to distribute. Australian Corporations law does not limit the sources of payment of Distributions on the Notes to the profits of a particular year or period.

The Minimum Capital Ratio for a D-SIB, and so the point at which the Maximum Distributable Amount applies, may increase as a result of the APRA capital reforms referred to in section 5.4.5 below. Section 5.4.5 also sets out the implications of any increase.

5.4.5 Regulatory Developments

Unquestionably strong capital requirements

The Australian Government completed a comprehensive inquiry into Australia's financial system in 2014 (the Financial Services Inquiry or **FSI**) which included a number of key recommendations that could have an impact on regulatory capital levels. APRA's key initiatives in support of the recommendations include:

- In July 2017, APRA released an information paper outlining its assessment on the additional capital required for the Australian banking sector to be considered 'unquestionably strong' as originally outlined in the FSI final report in December 2014. APRA indicated that in the case of the four major Australian DSIBs, this equated to a benchmark Common Equity Capital Ratio, under the current capital adequacy framework, of at least 10.5% from 1 January 2020.
- APRA released its final requirements in relation to capital adequacy and credit risk capital requirements for ADIs in November 2021 for implementation from January 1, 2023 (**APRA capital reforms**). This follows the consultation process that began in December 2020 when APRA released a consultation paper regarding proposed changes to the capital framework for ADIs aimed at embedding "unquestionably strong" levels of capital, improving the flexibility of the framework, and improving the transparency of ADI capital strength. Key aspects of APRA's final requirements are:
 - increased alignment with internationally agreed Basel standards for non-residential mortgages exposures;
 - implementing more risk-sensitive risk weights for residential mortgage lending;
 - introduction of the Basel II capital floor that limits the RWA outcome for IRB ADIs to no less than 72.5% of the RWA outcome under the standardised approach;
 - improving the flexibility of the capital framework through the introduction of a default level of the countercyclical capital buffer ("CCyB") and increasing the capital conservation buffer ("CCB") for IRB ADIs. This will have the effect of increasing the Minimum Capital Ratio (incorporating the higher Combined Capital Buffers) from 8% to approximately 10 to 10.25%, although the final outcome is uncertain and subject to the finalisation of the APRA capital reforms requirements;
 - improving the transparency and comparability of ADIs' capital ratios, including by requiring IRB ADIs to also publish their capital ratios under the standardised approach; and

- implementing a minimum leverage ratio for IRB ADIs at 3.5%. APRA's "Leverage Ratio" compares Tier 1 Capital to the "exposure measure" (expressed as a percentage) as defined by APRA Prudential Standard APS110. It is designed as a non-risk based supplement or backstop to the current risk based capital requirements and is intended to restrict the build-up of excessive leverage in the banking system.

APRA has indicated that the above changes will likely result in a decrease in RWA, but this will be offset by the increased capital allocation to the Combined Capital Buffers. APRA has also indicated that, as ADIs are currently meeting the "unquestionably strong" benchmarks, it is not APRA's intention to require ADIs to raise additional capital. Accordingly, APRA has therefore sought to calibrate the proposed capital requirements for ADIs, measured in dollar terms, to be consistent at an industry level with the existing "unquestionably strong" capital benchmarks for ADIs under the current capital framework. The impact of these proposed changes on individual ADIs (including ANZ), however, will vary depending on the final form of requirements implemented by APRA and outcomes of the applicable model accreditation process with APRA.

As such, subject to finalisation of the APRA capital reform requirements, the impact of these changes on the excess Common Equity Tier 1 Capital that ANZ holds at any time for both the Level 1 and Level 2 Groups over the following Common Equity Tier 1 ratio benchmarks are as follows:

- the excess over 5.125%, which is the point at which a Common Equity Capital Trigger Event would occur, may increase; and
- the excess over the point at which the Maximum Distributable Amount starts, may be reduced mainly reflecting the increased regulatory capital buffer requirements.

However, APRA also stated that "capital buffers are designed to allow for banks to operate within the regulatory buffer range in periods of stress, to absorb losses and continue lending without breaching minimum requirements: this is the intent of the capital framework. Regulatory buffers can be used if needed, and APRA does not expect banks to maintain targets above the buffer range in a severe stress".

APRA's proposed revisions to ADI's capital adequacy requirements

In August 2021, APRA released the final version of prudential standard APS111 Capital Adequacy: Measurement of Capital, which came into effect on 1 January 2022. The most material change from the current APS111 is in relation to the treatment of capital investments for each banking and insurance subsidiary at Level 1 with the tangible component of the investment changing from a 400% risk weighting to:

- a 250% risk weighting up to an amount equal to 10% of ANZ's net Level 1 Common Equity Tier 1 Capital; and
- the remainder of the investment being treated as a Common Equity Tier 1 Capital Deduction.

ANZ is reviewing the implications for its current investments. The net impact on the Group is unclear and will depend upon a number of factors including:

- the capitalisation of the affected subsidiaries at the time of implementation; and
- the effect of management actions being pursued that have the potential to materially offset the impact of these changes.

Based on ANZ's current investment in its affected subsidiaries and in the absence of any offsetting management actions, the implementation of these changes imply a reduction in the Common Equity Capital Ratio of the ANZ Level 1 Group of up to approximately \$2.5 billion (approximately 0.7%). However, ANZ believes that this outcome is unlikely and, post-implementation of the management actions, the net capital impact could be minimal. There is no impact on the Common Equity Capital Ratio for the ANZ Level 2 Group arising from these changes.

The RBNZ review of capital requirements

In December 2019, the RBNZ announced its capital review policy decisions for New Zealand banks. In November 2020, the RBNZ released for consultation its draft Banking Prudential Requirements for these capital policy changes. The key requirements include:

- a tier 1 capital requirement of 16% of RWA for ANZ's New Zealand banking subsidiary ANZ Bank New Zealand Limited (**ANZ New Zealand**) of which up to 2.5% of this could be in the form of additional tier 1 capital. ANZ New Zealand's total capital requirement remains at 18% of RWA of which up to 2% can be tier 2 capital;
- redeemable preference shares are allowable as additional tier 1 capital;
- increasing RWA outcomes for IRB banks to approximately 90% of what would be calculated under the standardised approach; and
- implementation over a transition period concluding on 1 July 2028.

The net impact on the Group is expected to be an increase in required Common Equity Tier 1 Capital of approximately \$1 billion between 30 September 2021 and the end of the transition period in 2028 (based on the Group's 30 September 2021 balance sheet). This amount could vary over time subject to changes to capital requirements in ANZ New Zealand (for example, from RWA growth or management buffer requirements), potential dividend payments and the final form of implementation of APRA's prudential standard APS111 Capital Adequacy: Measurement of Capital.

RBNZ announcement on actions to support the banking system

In April 2020, the RBNZ announced that to further support the stability of the financial system during the period of economic uncertainty brought about by the COVID-19 pandemic, New Zealand's retail banks agreed with the RBNZ that during that period there would be no payment of dividends on ordinary shares and that they should not redeem non-common equity tier 1 capital instruments.

In March 2021, the RBNZ announced that these restrictions on dividends and the redemption of non-common equity tier 1 capital instruments would be eased. As a result, ANZ New Zealand is now able to pay up to 50% of its earnings as dividends to shareholders. These restrictions will remain in place until 1 July 2022, at which point the RBNZ intends to remove the restrictions, subject to prevailing economic conditions.

APRA Guidance on Capital Management

In response to the COVID-19 pandemic, APRA provided guidance on capital management, including as to its expectations in relation to dividends. In December 2020, APRA updated its guidance, whereby from the 2021 calendar year, APRA will no longer hold ADIs to a minimum level of earnings retention but ADIs will need to maintain vigilance and careful planning in capital management, including conducting regular stress testing and assurance on the capacity to continue to lend. APRA also stated that the onus will be on boards to carefully consider the sustainable rate for dividends, taking into account the outlook for profitability, capital and economic environment.

The impact of regulatory developments is uncertain

Given the number of items that are yet to be finalised by APRA and the RBNZ, the final outcome of APRA's Unquestionably Strong capital requirements and any further changes to APRA's or the RBNZ's prudential standards, the impact of these regulatory developments on the Group remains uncertain.

5.4.6 The ANZ Group's Common Equity Capital Ratio

The Common Equity Capital Ratios of the ANZ Level 1 and Level 2 Groups were 11.2% and 11.6% at 31 December 2021 respectively. The December 2021 position incorporates the impacts from payment of the Final 2021 Group dividends, amongst other movements in the capital base. At 30 September 2021, the Common Equity Capital Ratios of the ANZ Level 1 and Level 2 Groups were 12.0% and 12.3% respectively.

ANZ is currently targeting a Common Equity Capital Ratio above 10.5%, although this may change following finalisation of the regulatory developments referred to in section 5.4.5 above. ANZ gives no assurance as to what its Common Equity Capital Ratio for the ANZ Level 1 Group or ANZ Level 2 Group will be at any time. These ratios may be significantly impacted by the currently proposed or future regulatory changes, unexpected events affecting ANZ's business, operations and financial condition, any acquisitions or capital reductions and by APRA's prescriptions for the determination of the ratios at Level 1 or Level 2. Following the finalisation of the prudential standards described in section 5.4.5 above, ANZ's Common Equity Capital Ratios, and the buffers of Common Equity Tier 1 Capital ANZ holds above the Common Equity Capital Trigger and Minimum Capital Ratio, may differ from current levels.

ANZ announced on 19 July 2021 that it intended to buy-back up to \$1.5 billion of its Ordinary Shares on-market as part of its capital management plan. As at 31 January 2022, ANZ had bought back \$1.015 billion of its Ordinary Shares. On 7 February 2022, ANZ announced that its capital position continues to provide flexibility to return further surplus capital to shareholders and that ANZ is considering increasing the size of its current on-market buy-back which would have the effect of reducing ANZ's Common Equity Capital Ratios. Any decision to return surplus capital will balance the importance of capital efficiency against maintaining an appropriately strong balance sheet and continued monitoring of the economic situation.

As at 31 December 2021, ANZ had \$2.8 billion and \$4.9 billion of Common Equity Tier 1 Capital for the ANZ Level 1 Group and ANZ Level 2 Group respectively in excess of 10.5%. The 31 December 2021 capital position incorporates the impacts from payment of the Group's 2021 Final dividend of 72 cents per share (equivalent to \$2.0 billion in Common Equity Tier 1 Capital).

The Common Equity Tier 1 Capital in excess of 10.5% is reduced to \$2.2 billion and \$4.4 billion respectively if adjusted for \$588 million of the outstanding on-market share buyback at 31 December 2021 required to complete the \$1.5 billion amount announced on 19 July 2021.

However, assuming ANZ had a Level 1 and Level 2 Common Equity Capital Ratio of 10.5% as at 31 December 2021, this would have equated to approximately \$21.2 billion and \$23.2 billion of surplus Common Equity Tier 1 Capital for the ANZ Level 1 Group and ANZ Level 2 Group respectively in excess of a Common Equity Tier 1 Capital Ratio of 5.125% which is the point at which a Common Equity Capital Trigger Event would occur.

The graphs below show ANZ's current and historic Common Equity Capital Ratios at Level 1 and Level 2, highlighting the amount of Common Equity Tier 1 Capital held (in percentage terms):

- between the current Minimum Capital Ratio of 8.0% and 10.5%; and
- between 10.5% and ANZ's actual Common Equity Tier 1 Capital applying at that time.

Currently, the Common Equity Capital Ratio for the ANZ Level 1 Group is lower than for the ANZ Level 2 Group and so is the binding constraint when considering the impact of certain actions on ANZ's capital ratios. However, in the future and in certain circumstances the Level 2 ratio may become the binding constraint.

5.4.7 Proforma consolidated capital adequacy position as at 31 December 2021

The purpose of the proforma capital adequacy ratios set out in the table below is to present the regulatory capital adequacy position of the ANZ Level 2 Group as at 31 December 2021 adjusted for the effect of the proposed issue of \$1 billion of Notes under the Offer net of a redemption of the \$1.61 billion of CN2 on 24 March 2022.

In the proforma adjustments contained in the table below:

- the fourth and fifth columns show the reduction in the 31 December 2021 capital adequacy ratios adjusting for the completion of the \$1.5 billion of on-market share purchase announced on 19 July 2021, of which \$588 million (of the \$1.5 billion) remained outstanding as at 31 December 2021;
- the sixth and seventh columns show the reduction in the capital adequacy ratios if all the CN2 were redeemed;
- the eighth column shows the impact of the Offer of \$1 billion of Notes less Common Equity Tier 1 Capital Deductions of approximately \$15 million, being the estimated costs of the Offer; and
- the last column shows the net effect of all of the above adjustments on the 31 December 2021 capital adequacy ratios.

If there is an over or under-subscription for the Notes, the Tier 1 Capital Ratio and Total Capital Ratio will be adjusted for the amount of the over or under-subscription and associated transaction costs. ANZ's capital adequacy ratios will also be impacted by organic capital growth, changes in provisions and RWA growth since 31 December 2021.

1 The capital adequacy ratios contained in this table have been rounded to the nearest decimal place. Any discrepancies in the sum of the ratios in this table are due to rounding.

2 The summarised consolidated capital adequacy ratios of the ANZ Level 2 Group as at 31 December 2021 are extracted from the ANZ Basel III Pillar 3 Disclosure as at 31 December 2021 (which are not subject to KPMG's audit or review processes).

The adjustments in the table above in respect of the ANZ Level 2 Group would have had a similar effect on the ANZ Level 1 Group ratios as at 31 December 2021 on a proforma basis. The Tier 1 Capital Ratio and Total Capital Ratio for the ANZ Level 1 Group as at 31 December 2021 would have reduced by 0.41% as a result of a redemption of all the CN2 and increased by 0.25% as a result of an issue of \$1 billion of Notes.

5.5 FUNDING AND LIQUIDITY

5.5.1 Existing framework

Liquidity risk is the risk that an ADI is unable to meet its payment obligations as they fall due, including repaying depositors or maturing wholesale debt, or that an ADI has insufficient capacity to fund increases in assets. The timing mismatch of cash flows and the related liquidity risk is inherent in all banking operations and is closely monitored by ANZ and managed in accordance with the risk appetite set by the Board.

ANZ's liquidity and funding risks are governed by a detailed policy framework that is approved by ANZ's Board Risk Committee. The management of the liquidity and funding positions and risks is overseen by the Group Asset and Liability Committee. ANZ's liquidity risk appetite is defined by the ability to meet a range of regulatory requirements and internal liquidity metrics mandated by ANZ's Board Risk Committee. The metrics cover a range of scenarios of varying duration and level of severity. This framework helps:

- provide protection against shorter-term but more extreme market dislocations and stresses;
- maintain structural strength in the balance sheet by ensuring that an appropriate amount of longer-term assets are funded with longer-term funding; and
- ensure no undue timing concentrations exist in the Group's funding profile.

A key component of this framework is the Liquidity Coverage Ratio (LCR) that was implemented in Australia on 1 January 2015. The LCR is a severe short-term liquidity stress scenario, introduced as part of the Basel III international framework for liquidity-risk measurement, standards and monitoring. As part of meeting the LCR requirements, ANZ has a Committed Liquidity Facility (CLF) with the RBA. The CLF was established as a solution to a High Quality Liquid Asset (HQLA) shortfall in the Australian marketplace and provides an alternative form of RBA-qualifying liquid assets. The total amount of the CLF available to a qualifying ADI is set annually by APRA. In September 2021, APRA wrote to ADIs to advise that APRA and the RBA consider there to be sufficient HQLA for ADIs to meet their LCR requirements, and therefore the use of the CLF should no longer be required beyond 2022. From 1 January 2021, ANZ's CLF is \$10.7 billion (2020 calendar year end: \$35.7 billion). Consistent with APRA's requirement, ANZ's CLF will decrease to zero through equal reductions on 1 January, 30 April, 31 August and 31 December 2022. This reduction will be managed as part of ANZ's funding plans over this period.

In addition to the LCR, ANZ is also required to meet APRA's requirements with respect to the Net Stable Funding Ratio (NSFR). The NSFR is a ratio of the amount of available stable funding relative to the amount of required stable funding and banks were required to meet a minimum ratio requirement of 100% from 1 January 2018.

ANZ seeks to strictly observe its prudential obligations in relation to liquidity and funding risk as required by APRA Prudential Standard APS 210, as well the prudential requirements of overseas regulators on ANZ's offshore operations.

5.5.2 Liquidity Ratio

ANZ's Level 2 Group average LCR for the quarter to 31 December 2021 was 132.7%, above the minimum requirement of 100%.

SECTION 06

INVESTMENT RISKS

THIS SECTION DESCRIBES SOME OF THE POTENTIAL RISKS ASSOCIATED WITH AN INVESTMENT IN ANZ CAPITAL NOTES 7 AND IN ANZ.

THE SELECTION OF RISKS HAS BEEN BASED ON AN ASSESSMENT OF A COMBINATION OF THE PROBABILITY OF THE RISK OCCURRING AND THE IMPACT OF THE RISK IF IT DID OCCUR. THERE IS NO GUARANTEE OR ASSURANCE THAT THE IMPORTANCE OF DIFFERENT RISKS WILL NOT CHANGE OR OTHER RISKS EMERGE.

BEFORE APPLYING FOR NOTES, YOU SHOULD CONSIDER WHETHER NOTES ARE A SUITABLE INVESTMENT FOR YOU.

THERE ARE RISKS ASSOCIATED WITH AN INVESTMENT IN NOTES AND IN ANZ, MANY OF WHICH ARE OUTSIDE THE CONTROL OF ANZ AND ITS DIRECTORS. THESE RISKS INCLUDE THOSE IN THIS SECTION AND OTHER MATTERS REFERRED TO IN THIS PROSPECTUS.

6.1 RISKS ASSOCIATED WITH INVESTING IN ANZ CAPITAL NOTES 7

6.1.1 Liquidity

There may be no liquid market for Notes. Additionally, the market for Notes may be less liquid than the market for Ordinary Shares or other securities issued by ANZ or other entities. Holders who wish to sell their Notes may be unable to do so at an acceptable price, or at all, if insufficient liquidity exists in the market for Notes. If the Notes are traded after they are issued, they may trade at a discount to their initial offering price, depending upon prevailing interest rates, the market for similar securities, general economic conditions and the financial condition of ANZ and the Group. There may be a limited number of buyers when you decide to sell the Notes. This may affect the price you receive for Notes or the ability to sell Notes at all.

Notes are expected to Convert into Ordinary Shares on 20 September 2031³⁰ (subject to certain conditions being satisfied) unless Notes are otherwise Exchanged on or before that date. Where Notes are Converted, there may be no liquid market for Ordinary Shares at or after the time of Conversion or the market for Ordinary Shares may be less liquid than that for securities issued by other entities at the time of Conversion.

6.1.2 Financial Market conditions

The market price of Notes may move up or down due to various factors, including investor perceptions, worldwide economic conditions, credit spreads, movements in the market price of Ordinary Shares or senior or subordinated debt, the occurrence or potential occurrence of a Trigger Event or factors resulting in ANZ deciding or not being permitted to make payments on the Notes, the method of calculating the outstanding amount (if any) of the Notes following a Conversion or Write Off, the outstanding amount of Notes, the risk of early redemption following a Tax Event or Regulatory Event, ANZ's financial condition and results of operations, investor confidence and market liquidity, the level, direction and volatility of market interest rates generally and factors that may affect ANZ's financial performance and position. Notes may trade at a market price below the Face Value.

The market price of Notes may be more sensitive than that of Ordinary Shares to changes in interest rates and credit spreads. Increases in relevant interest rates or ANZ's credit spread may adversely affect the market price of Notes. In recent years markets have become more volatile. Volatility risk is the potential for fluctuations in the price of securities, sometimes markedly and over a short period. Investing in volatile conditions implies a greater level of volatility risk for investors than an investment in a more stable market. The volatility can be seen in the following chart which shows the average trading price of selected ANZ Capital Securities quoted on the ASX compared to an adjusted ANZ ordinary share price.

You should carefully consider this additional volatility risk before making any investment in Notes.

The Ordinary Shares held as a result of any Conversion of Notes will, following Conversion, rank equally with existing Ordinary Shares. Accordingly, the ongoing value of any Ordinary Shares received upon Conversion will depend upon the market price of Ordinary Shares after the Mandatory Conversion Date or other date on which Notes are Converted. That market is also subject to the factors outlined above and may also be volatile.

AVERAGE TRADING PRICES OF SELECTED ANZ CAPITAL SECURITIES COMPARED TO AN ADJUSTED ANZ ORDINARY SHARE PRICE

30 Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

6.1.3 Exposure to ANZ's financial performance and position

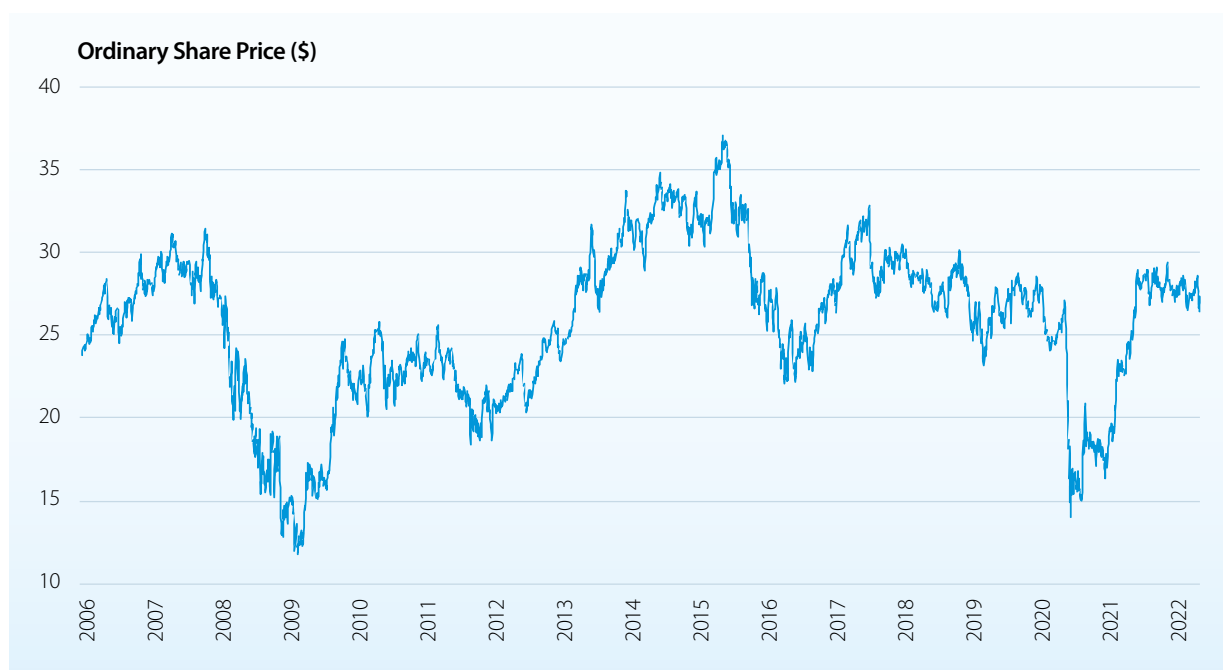

If the Group's financial performance or position declines, or if market participants anticipate that it may decline, an investment in Notes could decline in value even if Notes have not been Converted. Accordingly, when you evaluate whether to invest in Notes, you should carefully evaluate the investment risks associated with an investment in ANZ – see Section 6.2.

6.1.4 Fluctuation in Ordinary Share Price

Upon Conversion (other than Conversion resulting from a Trigger Event – see Section 6.1.9), Holders will receive approximately \$101 worth of Ordinary Shares per Note (based on the VWAP during the 20 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Mandatory Conversion Date or other date on which Notes are Converted). The market price of Ordinary Shares will move up or down due to various factors, including investor perceptions, domestic and worldwide economic conditions and ANZ's or the Group's financial performance and position – see Section 6.1.2. In addition, a Trigger Event is likely to be accompanied by a deterioration in the market price of the Ordinary Shares. The VWAP during the relevant period before the date of Conversion that is used to calculate the number of Ordinary Shares that Holders receive may differ from the Ordinary Share price on or after the date of Conversion. This means that the value of Ordinary Shares received may be more or less than anticipated when they are issued or thereafter.

The COVID-19 pandemic has, and will likely continue to, severely impact global, regional and national economies and markets. The expected duration and magnitude of the COVID-19 pandemic and its potential impacts on the economy and the market price for Ordinary Shares are unclear.

TRADING PRICES OF ORDINARY SHARES

Other events and conditions may affect the ability of Holders to trade or dispose of the Ordinary Shares issued on Conversion, for example, the willingness or ability of ASX to accept the Ordinary Shares issued on Conversion for listing or any practical issues which affect that listing, any disruption to the market for the Ordinary Shares or to capital markets generally, the availability of purchasers for Ordinary Shares and any costs or practicalities associated with trading or disposing of Ordinary Shares at that time, or laws of general application, including securities law and laws relating to the holding of shares and other interests in financial institutions, which limit a person's ability to acquire or dispose of Ordinary Shares.

6.1.5 Distributions may not be paid

There is a risk that Distributions will not be paid. There is no obligation for ANZ to pay Distributions. Distributions will only be paid at ANZ's discretion. ANZ could exercise its discretion not to pay Distributions at any time and for any reason. The payment of Distributions is also subject to the Payment Conditions – see Section 2.1.6. The Payment Conditions require, among other things, that (1) making the payment will not result in ANZ not complying with APRA's current capital adequacy arrangements, (2) making the payment would not result in ANZ becoming, or being likely to become, insolvent for the purposes of the Corporations Act and (3) APRA not objecting to the Distribution being paid. There is a risk that one or more elements of the Payment Conditions will not be satisfied, and there is therefore a risk that a Distribution may not be paid in full or at all.

The Prudential Standards also impose restrictions on the proportion of profits that can be paid through ordinary dividends, Additional Tier 1 capital distributions (including Distributions on the Notes) and discretionary staff bonuses if the Common Equity Capital Ratio falls into its Combined Capital Buffers – see Section 5.4.4.

Distributions may not be paid if APRA objects to the payment of discretionary capital distributions. APRA stated, in response to the significant disruption caused by the COVID-19 pandemic, that it expected ADIs (such as ANZ) to take a measured approach to capital distributions until the economic outlook was clearer. While this guidance is not expected to prohibit ANZ from paying Distributions, there is the risk that if the economic outlook remains negative or uncertain for a prolonged period of time, APRA may object to the payment of a Distribution.

The Note Terms contain no events of default and, accordingly, failure to pay a Distribution when scheduled will not constitute an event of default. Further, in the event that ANZ does not pay a Distribution when scheduled, a Holder:

- has no right to apply for ANZ to be wound up, or placed in administration, or to cause a receiver or a receiver and manager to be appointed in respect of ANZ merely on the grounds that ANZ does not pay a Distribution when scheduled; and
- may not exercise any right of set-off and will have no offsetting rights or claims on ANZ.

Distributions are non-cumulative, and therefore if a Distribution is not paid Holders will have no recourse whatsoever to payment from ANZ and will not receive payment of that Distribution.

However, if ANZ does not pay a Distribution in full on a Distribution Payment Date, then the Distribution Restriction applies to ANZ unless the Distribution is paid in full within 3 Business Days of that date. The Distribution Restriction only restricts distributions in respect of Ordinary Shares.

The restriction only applies until and including the next quarterly Distribution Payment Date. The dates for distribution with respect to Ordinary Shares are determined

by ANZ, generally occur twice a year and do not bear a fixed relation to the Distribution Payment Dates for Notes. Accordingly, as soon as the Distribution Restriction ceases to apply (as will be the case if the next scheduled Distribution is paid in full) ANZ will not be restricted from making a distribution on its Ordinary Shares – see Section 2.1.7 for more details. Where an Approved NOHC is substituted as the issuer of ordinary shares on Conversion, there is no restriction on the Approved NOHC declaring or paying a dividend on or, buying back or reducing capital on its ordinary shares if ANZ does not pay a Distribution on a Note (see Section 2.6.4).

Changes in regulations applicable to ANZ, or its other obligations, may impose additional requirements which prevent ANZ from paying a Distribution in additional circumstances. Restrictions on the proportion of profits that can be paid through ordinary dividends, additional Tier 1 capital distributions (including Distributions on ANZ Capital Notes 7) and discretionary staff bonuses will apply if the Common Equity Capital Ratio falls into the Combined Capital Buffer. For further information, see Sections 5.4 and 6.1.9.

Refer to section 5.4.5 for details of APRA's capital reform requirements which will increase the Minimum Capital Ratio (mainly reflecting the increased regulatory capital buffers) and reduce the amount of Common Equity Tier 1 Capital in excess of the point at which the Maximum Distributable Amount applies.

6.1.6 Distributions may not be fully franked

ANZ expects Distributions to be franked at the same rate as dividends on Ordinary Shares. ANZ currently franks Ordinary Shares at 100%. The level of franking may vary over time and Distributions may be partially, fully or not franked. There is no guarantee that ANZ will have sufficient franking credits in the future to frank Distributions.

If a Distribution is unfranked or partially franked, the amount of the cash Distribution paid on the Distribution Payment Date for that Distribution will be increased to compensate for the unfranked component, subject to the Payment Conditions – see Sections 2.1.3 and 2.1.6.

The value and availability of franking credits to a Holder will differ depending on the Holder's particular tax circumstances. Holders should be aware that the potential value of any franking credits does not accrue at the same time as the receipt of any cash Distribution. Holders should also be aware that the ability to use the franking credits, either as an offset to a tax liability or by claiming a refund after the end of the income year, will depend on the individual tax position of each Holder and the tax rules that apply at the time. The laws relating to the availability of franking and franking credits may change.

Holders should be aware that they will not receive any compensation or "gross up" if they are denied the benefit of franking credits on their Distributions for any reasons.

Holders should also refer to the Taxation Summary in Section 7, seek professional advice in relation to their tax position and monitor any changes on an ongoing basis.

6.1.7 Changes in Distribution Rate

The Distribution Rate is calculated for each Distribution Period by reference to the BBSW Rate, which is influenced by a number of factors and varies over time. The Distribution Rate will move (both increasing and decreasing) over time as a result of movements in the BBSW Rate – see Section 2.1.4.

As the Distribution Rate moves, there is a risk that it may become less attractive when compared to the rates of return available on other securities issued by ANZ or other entities.

It is possible for the BBSW Rate to be negative. If this occurs, the negative amount will be taken into account in calculating the Distribution Rate. Even if the Distribution Rate is calculated to be negative, there will be no obligation on Holders to pay ANZ.

ANZ does not guarantee any particular rate of return on Notes. Changes in the corporate tax rate will also affect the Distribution Rate. If the corporate tax rate were to change, the cash amount of Distributions and the amount of any franking credits will change.

6.1.8 ANZ Capital Notes 7 are perpetual and Mandatory Conversion may not occur on the Scheduled Mandatory Conversion Date or at all

Notes are expected to Convert into Ordinary Shares on 20 September 2031³¹ (subject to certain conditions being satisfied) unless Notes are otherwise Exchanged on or before that date. However, there is a risk that Conversion will not occur because the Mandatory Conversion Conditions are not satisfied due to, for example, a large fall in the Ordinary Share price relative to the Issue Date VWAP, or if Ordinary Shares cease to be quoted on ASX, or have been suspended from trading for at least five consecutive Business Days prior to, and remain suspended on, the Mandatory Conversion Date. The Ordinary Share price may be affected by transactions affecting the share capital of ANZ, such as rights issues, placements, returns of capital, certain buy-backs and other corporate actions. The Issue Date VWAP is adjusted only for transactions by way of the consolidation, division or reclassification of Ordinary Shares and pro rata bonus issues of Ordinary Shares as described in clause 6 of the Note Terms and not for other transactions, including rights issues, placements, returns of capital, buy-backs or special dividends. The Note Terms do not limit the transactions which ANZ may undertake with respect to its share capital and any such action may affect whether Conversion will occur and may adversely affect the position of Holders.

If Mandatory Conversion does not occur on the Scheduled Mandatory Conversion Date, Mandatory Conversion would then occur on the first Distribution Payment Date following the Scheduled Mandatory Conversion Date on which all of the Mandatory Conversion Conditions are satisfied unless Notes are otherwise Exchanged on or

before that date. If Mandatory Conversion does not occur on a possible Mandatory Conversion Date, Distributions may continue to be paid on Notes so long as they are on issue, subject to the Payment Conditions.

However, Notes are a perpetual instrument. If the Ordinary Share price deteriorates significantly and never recovers, it is possible that the Mandatory Conversion Conditions will never be satisfied and, if this occurs, Notes will never Convert.

6.1.9 Conversion on account of a Trigger Event

There are two types of Trigger Events:

- a Common Equity Capital Trigger Event; and
- a Non-Viability Trigger Event.

ANZ must Convert Notes into Ordinary Shares if at any time a Trigger Event occurs. This could be before or after the Scheduled Mandatory Conversion Date. Accordingly, any such Conversion on account of a Trigger Event may occur on dates not previously contemplated by Holders, which may be disadvantageous in light of market conditions or their individual circumstances and may not coincide with their individual preference in terms of timing.

The Common Equity Capital Trigger Event is based on APRA's definition of the Common Equity Capital Ratio which means (i) in respect of the ANZ Level 1 Group, the ratio of Common Equity Tier 1 Capital to risk weighted assets of the ANZ Level 1 Group and (ii) in respect of the ANZ Level 2 Group, the ratio of Common Equity Tier 1 Capital to risk weighted assets of the ANZ Level 2 Group, in each case, as prescribed by APRA from time to time.

The Common Equity Capital Ratio may be significantly impacted by a number of factors, including factors which affect the business, operation and financial condition of ANZ, and by APRA's prescriptions for the determination of the ratios at Level 1 or Level 2. Accordingly, there is a risk that ANZ's Common Equity Capital Ratio falls to 5.125% or below and that as a result, Notes Convert into Ordinary Shares before the Scheduled Mandatory Conversion Date.

The Non-Viability Trigger Event means the earlier of:

- the issuance of a notice in writing by APRA to ANZ that conversion or write off of Relevant Securities is necessary because, without it, APRA considers that ANZ would become non-viable; or
- a determination by APRA, notified to ANZ in writing, that without a public sector injection of capital, or equivalent support, ANZ would become non-viable.

APRA has not provided specific guidance on when it will consider an entity to be non-viable. However, APRA has indicated that non-viability is likely to arise prior to the insolvency of an ADI. Non-viability could be expected to include serious impairment of APRA's financial position and insolvency; however, it is possible that APRA's definition of non-viable may not necessarily be confined to solvency or capital measures and APRA's position on

31 Due to the Business Day convention, the Mandatory Conversion Date is deferred from 20 September 2031 to 22 September 2031.

these matters may change over time. As the occurrence of a Non-Viability Trigger Event is at the discretion of APRA, there can be no assurance given as to the factors and circumstances that might give rise to this event.

Non-viability may be significantly impacted by a number of factors, including factors which affect the business, operation and financial condition of ANZ. For instance, systemic and non-systemic macroeconomic, environmental and operational factors, globally and in Australia and New Zealand may affect the viability of ANZ.

Conversion resulting from the occurrence of a Trigger Event is not subject to the Mandatory Conversion Conditions or other conditions. This is likely to mean that Holders would receive significantly less than \$101 worth of Ordinary Shares per Note (and suffer loss as a consequence) because:

- the number of Ordinary Shares issued per Note is limited to the Maximum Conversion Number and this number of Ordinary Shares may have a value of less than \$101;
- if the number of Ordinary Shares to be issued is calculated, based on VWAP, to be less than the Maximum Conversion Number, the VWAP may differ from the Ordinary Share price on or after the Trigger Event Conversion Date. In particular, VWAP prices will be based on trading days which occurred before the Trigger Event Conversion Date;
- the Ordinary Shares received on Conversion as well as ANZ's Ordinary Shares generally may not be listed and so may not be able to be sold at prices reflecting their values (calculated based on VWAP) or at all; and/or
- the Maximum Conversion Number may be adjusted to reflect a consolidation, division or reclassification of Ordinary Shares and pro rata bonus issues as set out in the Note Terms. However, no adjustment will be made to it on account of other transactions which may affect the price of Ordinary Shares, including for example rights issues, returns of capital, buy-backs or special dividends. The Note Terms do not limit the transactions that ANZ may undertake with respect to its share capital and any such action may increase the risk that Holders receive only the Maximum Conversion Number and so may adversely affect the position of Holders.

If, following a Trigger Event, Conversion has not been effected within five Business Days after the Trigger Event Conversion Date for any reason (including where ANZ is prevented from Converting the Notes by applicable law or order of any court or action of any government authority (including regarding the insolvency, winding-up or other external administration of ANZ) or other reason (an **Inability Event**), Notes which would otherwise be Converted, will not be Converted, but instead, the rights of the Holder (including to the payment of Distributions and Face Value) in relation to such Notes will be immediately and irrevocably written off and terminated with effect on and from the Trigger Event Conversion Date and Holders will suffer loss as a result.

The laws under which an Inability Event may arise include laws relating to the insolvency, winding-up or other external administration of ANZ. Those laws and the grounds on which a court or government authority may make orders preventing the Conversion of Notes may change and the change may be adverse to the interests of Holders.

Holders should be aware that:

- Relevant Securities such as Notes will be converted or written off before any Tier 2 Capital instruments are converted or written off;
- ANZ has no obligation to maintain on issue any Relevant Securities and does not, and may never, have on issue Relevant Securities which require them to be converted or written off before Notes or in full;
- where a Non-Viability Trigger Event occurs because APRA determines that, without a public sector injection of capital or equivalent support, ANZ would become non-viable, all the Notes will be Converted;
- the greater the amount of Relevant Securities and Tier 2 Capital instruments that are required to be converted, the more likely the market price of Ordinary Shares may be adversely affected as a result of the conversion; and
- Relevant Securities are likely to have different maximum conversion numbers depending upon the price of Ordinary Shares at the time those instruments were issued. A holder of Capital Notes 7 who receives the Maximum Conversion Number of Ordinary Shares on Conversion of their Notes may receive fewer Ordinary Shares per Note than a holder of another Relevant Security the terms of which provide for a higher maximum conversion number.

6.1.10 Exchange and Exchange Method may be at ANZ's option

ANZ may (subject to APRA's prior written approval) elect to Exchange some or all Notes on an Optional Exchange Date or on the occurrence of a Tax Event or a Regulatory Event, in accordance with the Note Terms. Holders have no right to request or require an Exchange.

Any such Exchange at ANZ's option may occur on dates not previously contemplated by Holders, which may be disadvantageous in light of market conditions or their individual circumstances and may not coincide with their individual preference in terms of timing. This also means that the period for which Holders will be entitled to the benefit of the rights attaching to Notes (such as Distributions) is unknown.

Subject to certain conditions, ANZ also has in many cases a discretion to elect which Exchange Method will apply to an Exchange. The method chosen by ANZ may be disadvantageous to Holders and may not coincide with their individual preference in terms of whether they receive Ordinary Shares or cash on the relevant date.

For example, if APRA approves an election by ANZ to Redeem or Resell the Notes, Holders will receive cash equal to \$100 per Note rather than Ordinary Shares and, accordingly, they will not benefit from any subsequent

increases in the Ordinary Share price after the Redemption or Resale occurs. In addition, where Holders receive cash on Redemption or Resale, the rate of return at which they could reinvest their funds may be lower than the Distribution Rate at the time. Where Holders receive Ordinary Shares on Conversion, they will have the same rights as other Shareholders, which are different to the rights attaching to Notes.

If ANZ elects to Resell Notes but the purchaser does not pay the Face Value of any Notes on the Exchange Date, those Notes will not be transferred and a Holder has no claim on ANZ as a result of that non-payment.

6.1.11 Conversion on Change of Control Event

If a Change of Control Event occurs, ANZ is required to Convert all Notes in accordance with the Note Terms (see Clause 4.10 of the Note Terms). ANZ must, subject to Clause 4.10 of the Note Terms, give a Change of Control Conversion Notice to Convert the Notes.

The Notes cannot Convert on the occurrence of a Change of Control Event if the restrictions on Conversion described in Section 2.4.3 apply.

If the restrictions prevent Conversion, ANZ will, as noted in Section 2.4.4, give a new Change of Control Conversion Notice which will specify Conversion as the Exchange Method for Conversion on the next Distribution Payment Date (under Clause 3.5(a) of the Note Terms). Conversion will not occur if the restrictions described in Section 2.4.3 apply on that date. This process will be repeated for each Distribution Payment Date (under Clause 3.5(a) of the Note Terms) until a Conversion occurs. If these restrictions continue to apply, there is a risk that the Notes remain on issue following the occurrence of a Change of Control Event.

6.1.12 Optional Exchange by ANZ is subject to certain events occurring

If ANZ wishes to Exchange Notes, APRA's prior written approval is required. Holders should not expect that APRA will give its approval to any Exchange.

The choice of Conversion as the Exchange Method is subject to the level of the Ordinary Share price on the second Business Day before the date on which an Exchange Notice is to be sent by ANZ (or, if trading in Ordinary Shares did not occur on that date, the last Business Day prior to that date on which trading in the Ordinary Shares occurred).

If the VWAP on that date is less than or equal to 22.50% of the Issue Date VWAP, ANZ is not permitted to choose Conversion as the Exchange Method. Also if a Delisting Event has occurred in respect of that date, ANZ is not permitted to choose Conversion as the Exchange Method.

The conditions to Conversion on the Exchange Date are that the Second Mandatory Conversion Condition (as if it referred to 20.21% of the Issue Date VWAP) and the Third Mandatory Conversion Condition must both be satisfied in respect of the Exchange Date as if the Exchange Date were a possible Mandatory Conversion Date.

If the conditions to Conversion on the Exchange Date are not satisfied, ANZ will notify Holders and the Conversion will be deferred until the first Distribution Payment Date (under Clause 3.5(a) of the Note Terms) following that Exchange Date on which the Mandatory Conversion Conditions would be satisfied as if that Distribution Payment Date were a possible Mandatory Conversion Date.

The choice of Redemption as the Exchange Method is subject to the condition that the Notes that are the subject of the Exchange, are replaced concurrently or beforehand with Tier 1 Capital of the same or better quality and the replacement of the Notes is done under conditions that are sustainable for ANZ's income capacity, or that APRA is satisfied that the capital position of the ANZ Level 1 Group, the ANZ Level 2 Group and, if applicable, the ANZ Level 3 Group is well above its minimum capital requirements after ANZ elects to Redeem Notes.

6.1.13 Conversion conditions

The only conditions to Conversion are, in the case of Mandatory Conversion, the Mandatory Conversion Conditions and, in the case of Conversion following a Change of Control Event or an Exchange at ANZ's option, the conditions expressly applicable to such Conversion under Clauses 4.10 or 5 of the Note Terms (as the case may be). No other conditions will affect the Conversion except as expressly provided by the Note Terms – see Clause 9.10(e) of the Note Terms.

Other events and conditions may affect the ability of Holders to trade or dispose of the Ordinary Shares issued on Conversion, for example, the willingness or ability of ASX to accept the Ordinary Shares issued on Conversion for listing or any practical issues which affect that listing, any disruption to the market for the Ordinary Shares or to capital markets generally, the availability of purchasers for Ordinary Shares and any costs or practicalities associated with trading or disposing of Ordinary Shares at that time.

Furthermore, as set out in Section 6.1.9, Conversion following a Trigger Event is not subject to any conditions.

6.1.14 Restrictions on rights and ranking in a winding-up of ANZ

Notes are not deposit liabilities of ANZ and the payment of Distributions and payment on Redemption or Resale is not guaranteed by ANZ. Notes are not protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act. Notes are not guaranteed or insured by any government, government agency or compensation scheme of Australia or any other jurisdiction. A Holder has no claim on ANZ in respect of Notes except as provided in the Note Terms. Notes are unsecured.

In the event of a winding-up of ANZ, and assuming Notes have not been Converted or Written Off, Holders will be entitled to claim for an amount equal to the Face Value. The claim for this amount ranks ahead of Ordinary Shares, equally with the ANZ Capital Securities and any other Equal Ranking Instruments, but behind all senior ranking securities and instruments and all depositors and other creditors. Claims in respect of Notes are subordinated and, notwithstanding a winding-up of ANZ, rank as Preference Shares as set out in the Note Terms. However, the claim of Holders in a winding-up will be adversely affected if a Trigger Event occurs. If, following a Trigger Event, Notes are Converted into Ordinary Shares, Holders will have a claim as an Ordinary Shareholder. If, following a Trigger Event, Notes are Written Off, those Notes will never be Converted or Exchanged, all rights in relation to those Notes will be terminated and Holders will not have their capital repaid.

If there is a shortfall of funds on a winding-up of ANZ to pay all amounts ranking senior to and equally with Notes, there is a significant risk that Holders will not receive all (or any part of) an amount equal to the Face Value in a winding-up of ANZ. Although the Notes may pay a higher rate of distribution than comparable instruments which are not subordinated, there is a significant risk that a Holder will lose all or some of their investment should ANZ become insolvent.

6.1.15 Changes to credit ratings

ANZ's cost of funds, margins, access to capital markets and competitive position and other aspects of its performance may be affected if it fails to maintain credit ratings (including any long-term credit ratings or the ratings assigned to any class of its securities).

Real or anticipated changes in the credit rating of ANZ will generally affect any trading market for, or trading value of, the Notes.

A credit rating is subject to suspension, reduction or withdrawal at any time by the assigning rating agency. Any suspension, reduction or withdrawal of a rating by a rating agency could reduce the liquidity or market value of the Notes or Ordinary Shares received on Conversion of Notes.

6.1.16 Regulatory classification

APRA has provided confirmation that Notes will, once issued, constitute Additional Tier 1 Capital. However, if as a result of a change of Australian law or regulation or any statement of APRA, APRA subsequently determines that all of the Notes are not or will not qualify as Additional Tier 1 Capital, ANZ may decide that a Regulatory Event has occurred. A Regulatory Event will not arise where at the Issue Date ANZ expected the event would occur.

A Regulatory Event will allow Exchange of all or some Notes on issue at the option of ANZ (subject to APRA's prior written approval). For the risks attaching to ANZ's discretion to Exchange in certain specified circumstances see Section 6.1.10.

6.1.17 Australian tax consequences

A general outline of the tax consequences of investing in Notes for certain potential investors is set out in the Taxation Summary in Section 7. This discussion is in general terms and is not intended to provide specific advice addressing the circumstances of any particular potential investor. Accordingly, potential investors should seek independent advice concerning their own individual tax position.

Broadly, if a change is made to the Australian tax law or practice and that change leads to a more than insubstantial risk of:

- a more than insignificant increase in ANZ's costs in relation to Notes; or
- a distribution on Notes not being frankable,

ANZ is entitled to Exchange all or some Notes (subject to APRA's prior written approval – see Section 6.1.10). ANZ will not be entitled to Exchange in these circumstances if ANZ expected the event on the Issue Date.

If the corporate tax rate were to change, the cash amount of Distributions and the amount of any franking credits will change. For instance, if the tax rate decreases the cash amount of any Distribution ANZ may pay would increase and the franking credits attached to that Distribution would decrease.

ANZ has applied for a class ruling from the Australian Taxation Office for confirmation of certain Australian tax consequences for Holders as discussed in the Taxation Summary in Section 7.

6.1.18 Accounting standards

A change in accounting standards by either the International Accounting Standards Board or Australian Accounting Standards Board may affect the reported earnings and financial position of ANZ in future financial periods. This may adversely affect the ability of ANZ to pay Distributions.

6.1.19 Future issues or redemptions of securities by ANZ

Notes do not in any way restrict ANZ from:

- issuing further securities of any kind (whether ranking with, in priority to or junior to or having different rights from the Notes);
- incurring or guaranteeing further indebtedness; or
- redeeming, buying back, converting, returning capital or converting any securities, other than the Notes (except as described in Section 2.1.7).

ANZ's obligations under Notes rank subordinate and junior in right of payment and in a winding-up to ANZ's obligations to holders of senior ranking securities and instruments, and its depositors and other creditors, including subordinated creditors. Accordingly, ANZ's obligations under Notes will not be satisfied unless it can satisfy in full all of its other obligations ranking senior to Notes.

The Notes do not restrict ANZ from issuing securities of any kind (whether ranking with, in priority to or junior to or having different rights from the Notes). Accordingly, ANZ may in the future issue securities that:

- rank for dividends or payments of capital (including on the winding-up of ANZ) equal with, behind or ahead of Notes;
- have the same or different dividend, interest or distribution rates as Notes;
- have payment tests and distribution restrictions or other covenants which affect Notes (including by restricting circumstances in which Distributions can be paid on Notes or Notes can be Redeemed); or
- have the same or different terms and conditions as Notes.

ANZ may incur further indebtedness and may issue further securities including further Tier 1 Capital securities before, during or after the issue of Notes. For example, as part of its ongoing capital management program, ANZ continually considers the issuance of Tier 1 Capital securities in domestic and offshore markets.

An investment in Notes carries no right to participate in any future issue of securities (whether equity, Additional Tier 1 Capital, subordinated or senior debt or otherwise) by ANZ.

No prediction can be made as to the effect, if any, which the future issue of securities by ANZ may have on the market price or liquidity of Notes or of the likelihood of ANZ making payments on Notes.

Similarly, Notes do not restrict ANZ from redeeming or otherwise repaying its other existing securities, including other existing securities which rank equally with or junior to Notes (other than to the extent the Distribution Restrictions apply).

ANZ may redeem or otherwise repay existing securities including existing equal or junior ranking Tier 1 Capital securities before, during or after the issue of Notes. An investment in Notes carries no right to be Redeemed or otherwise repaid at the same time as ANZ redeems or otherwise repays other securities (whether equity, Additional Tier 1 Capital, subordinated or senior debt or otherwise).

No prediction can be made as to the effect, if any, which the future redemption or repayment by ANZ of existing securities may have on the market price or liquidity of Notes or on ANZ's financial position or performance.

6.1.20 Imposition of Non-Operating Holding Company

Certain events are categorised under the Note Terms as Approved NOHC Events. Where an Approved NOHC Event occurs and certain other conditions are satisfied, the Approved NOHC Event will not trigger a Conversion of Notes but will instead allow ANZ to make amendments to substitute the Approved NOHC as the issuer of the ordinary shares issued on Conversion and will permit ANZ to make certain other amendments to the Note Terms. Accordingly, potential investors should be aware that, if an Approved NOHC Event occurs and a substitution of the issuer of the ordinary shares on Conversion is effected under the Note Terms, Holders will be obliged to accept the Approved NOHC Ordinary Shares and will not receive Ordinary Shares on Conversion.

Potential investors should also be aware that Holders may not have a right to vote on any proposal to approve, implement or give effect to a NOHC Event.

ANZ has made no decision to implement a NOHC.

Following an Approved NOHC Event, ANZ would continue to be regulated by APRA. However, depending on the structure of the acquirer following an Approved NOHC Event and the capital framework which APRA determines to apply to it, the composition of ANZ's three capital measurement levels may be affected, which in turn may affect the likelihood of ANZ being able to make Distributions on Notes.

After an Approved NOHC Event Holders will remain noteholders in ANZ with the same rights to Distributions and to payment in a winding-up of ANZ as before the Approved NOHC Event, but on Conversion Holders will receive ordinary shares in the Approved NOHC and not Ordinary Shares in ANZ. However, potential investors should be aware that, although there may be circumstances where a Distribution Restriction applies to ANZ where ANZ does not pay a Distribution on a Note (see Section 2.1.7 and 6.1.5), after an Approved NOHC Event has occurred, the Approved NOHC would not be subject, under the Note Terms, to a restriction on the payment of distributions on its share capital where ANZ fails to pay a Distribution on a Note. Notes will remain quoted on ASX, but ANZ's Ordinary Shares may cease to be quoted.

Where an Approved NOHC Event is accompanied by a transfer of assets from ANZ or a subsidiary to the Approved NOHC or another subsidiary of the Approved NOHC, ANZ may as a result have reduced assets which may affect its credit rating and its ability to meet the claims of its creditors and shareholders (including Holders). Holders do not have any claim on the assets of the Approved NOHC or any other subsidiary of the Approved NOHC other than following Conversion as a holder of ordinary shares in the Approved NOHC.

6.1.21 Shareholding limits and nominee sales

The Financial Sector (Shareholdings) Act 1998 (Cth) restricts ownership by people (together with their associates) of an Australian bank, such as ANZ, to a 20% stake. A shareholder may apply to the Australian Treasurer to extend their ownership beyond 20%, but approval will not be granted unless the Treasurer is satisfied that a holding by that person greater than 20% is in the national interest.

Mergers, acquisitions and divestments of Australian public companies listed on ASX (such as ANZ) are regulated by detailed and comprehensive legislation and the rules and regulations of ASX. These provisions include restrictions on the acquisition and sale of relevant interests in certain shares in an Australian listed company under the Corporations Act and a requirement that acquisitions of certain interests in Australian listed companies by foreign interests are subject to review and approval by the Treasurer. In addition, Australian law also regulates acquisitions which would have the effect, or be likely to have the effect, of substantially lessening competition in a market, or in a state or in a territory of, Australia.

Holder should take care to ensure that by acquiring any Notes (taking into account any Ordinary Shares into which they may Convert), Holders do not breach any applicable restrictions on ownership.

If the Register indicates that a Holder's address is outside of Australia (or ANZ believes that a Holder may not be a resident of Australia) (such a Holder, a **Foreign Holder**) and that Foreign Holder's Notes are to be Converted, ANZ is entitled in certain circumstances to issue the relevant Ordinary Shares to a nominee (who may not be ANZ or a Related Entity of ANZ) who will sell those Ordinary Shares and pay a cash amount equal to the net proceeds to the Foreign Holder. There is a risk that ANZ may not be able to appoint a nominee as the ability to appoint a nominee may depend, among other things, upon the availability of a suitable person to act as nominee.

Where a FATCA Withholding would be required or permitted to be made in respect of Ordinary Shares issued on Conversion of Notes, ANZ may either issue the Ordinary Shares which the Holder is obliged to accept to the Holder of the Notes net of FATCA Withholding and issue the balance of Ordinary Shares to a nominee or will issue the Ordinary Shares which the Holder is obliged to accept entirely to a nominee. In each case, the nominee (which may not be ANZ or a Related Entity of ANZ) will sell the Ordinary Shares issued to it, deal with any proceeds of their disposal in accordance with FATCA and, where the Ordinary Shares have been issued entirely to the nominee, pay a cash amount equal to the proceeds of their disposal net of any FATCA Withholding and other amounts as specified in the Note Terms to the Holder.

None of ANZ or the nominee owes any obligations or duties to Holders in relation to the price at which Ordinary Shares are sold or has any liability for any loss suffered by a Holder as a result of the sale of Ordinary Shares.

6.1.22 Powers of a Banking Act Statutory Manager and of APRA

In certain circumstances APRA may appoint a statutory manager to take control of the business of an ADI, such as ANZ. Those circumstances are defined in the Banking Act and include (but are not limited to):

- where the ADI becomes unable to meet its obligations or suspends payment;
- where the ADI informs APRA that it considers it is likely to become unable to meet its obligations, or is about to suspend payment;
- where APRA considers that, in the absence of external support:
 - the ADI may become unable to meet its obligations;
 - the ADI may suspend payment;
 - it is likely that the ADI will be unable to carry on banking business in Australia consistently with the interests of its depositors; or
 - it is likely that the ADI will be unable to carry on banking business in Australia consistently with the stability of the financial system in Australia; or
- where, in certain circumstances, the ADI is in default of compliance with a direction by APRA to comply with the Banking Act or regulations made under it and the Federal Court of Australia authorises APRA to assume control of the ADI's business.

The powers of a Banking Act statutory manager include the power to alter an ADI's constitution, to issue, cancel or sell shares (or rights to acquire shares) in the ADI and to vary or cancel rights or restrictions attached to shares in a class of shares in the ADI. The Banking Act statutory manager is authorised to do so despite the Corporations Act, the ADI's constitution, any contract or arrangement to which the ADI is party or the Listing Rules. The Banking Act statutory manager may also dispose of the whole or part of an ADI's business. In the event that a Banking Act statutory manager is appointed to ANZ in the future, these broad powers of a Banking Act statutory manager may be exercised in a way which adversely affects the rights attaching to the Notes and the position of Holders.

APRA may, in certain circumstances, require ANZ to transfer all or part of its business to another entity under the Financial Sector (Transfer and Restructure) Act 1999 (Cth) (the **FSTR Act**).

A transfer under the FSTR Act overrides anything in any contract or agreement to which ANZ is party and thus may have an adverse effect on ANZ's ability to comply with its obligations under the Notes and the position of Holders.

In addition, Holders should be aware that secrecy obligations may apply to action taken by APRA. This means that information about action taken by APRA (including in exercise of its powers under the Banking Act) may not be publicly disclosed.

6.1.23 Amendment of Note Terms

ANZ may, in certain circumstances, amend the Note Terms without the consent of Holders. ANZ may also amend the Note Terms if the amendment has been approved by a Special Resolution of Holders. However, no amendment to the Note Terms is permitted without APRA's prior written approval if such amendment may affect the classification of ANZ Capital Notes 7 as Additional Tier 1 Capital on a Level 1, Level 2 or (if applicable) Level 3 basis. This applies regardless of whether such amendment would require Holder approval. Amendments under these powers are binding on all Holders despite the fact that a Holder may not agree with the amendment.

6.1.24 No rights with respect to Ordinary Shares

Holders have no voting or other rights in relation to Ordinary Shares until Ordinary Shares are issued to them. In addition, the Notes do not confer on Holders any right to subscribe for new securities in ANZ or to participate in any bonus issue of securities. The rights attaching to Ordinary Shares if Ordinary Shares are issued will be the rights attaching to Ordinary Shares at that time. Holders have no right to vote on or otherwise to approve any changes to ANZ's constitution in relation to the Ordinary Shares that may in the future be issued to them. Therefore, Holders will not be able to influence decisions that may have adverse consequences for them.

6.1.25 Design and Distribution Obligations

On 5 April 2019, the Treasury Laws Amendment (Design and Distribution Obligations and Product Intervention Powers) Act 2019 (**DDO Legislation**) was enacted. The DDO Legislation imposes additional obligations on ANZ regarding the design and distribution of certain financial products offered to Retail Investors (including capital notes), and grants product intervention powers to ASIC if it believes significant consumer detriment may occur. The DDO Legislation is supplemented by the Corporations Amendment (Design and Distribution Obligations) Regulations 2019 (**DDO Regulations**), which were enacted in December 2019.

The design and distribution obligations in the DDO Legislation do not apply to secondary market trading of ANZ Capital Notes 7.

The DDO Legislation also gives ASIC a significant, proactive power to issue a product intervention order if it believes that a financial product has resulted in or will, or is likely to, result in significant detriment to Retail Investors (the **Product Intervention Power**). It is uncertain whether ASIC would perceive there to be any significant consumer detriment in relation to ANZ Capital Notes 7 or similar securities. The DDO Legislation requires ASIC to undertake a consultation process before it exercises the Product Intervention Power.

The impact of these new obligations remains untested, however there is a risk that they may adversely impact the issue, distribution and reinvestment of financial products in the future, including instruments like ANZ Capital Notes 7. These changes may also affect the liquidity of funding instruments (including instruments like ANZ Capital Notes 7), if they lead to a material reduction in future issuance volumes or secondary trading activity by investors.

6.2 PRINCIPAL RISKS AND UNCERTAINTIES ASSOCIATED WITH ANZ

6.2.1 Introduction

The ANZ Group's activities are subject to risks, including risks arising from the coronavirus (**COVID-19**) pandemic, that can adversely impact its business, operations, results of operations, reputation, prospects, liquidity, capital resources, financial performance and financial condition (together, the **Group's Position**). Certain risks and uncertainties that the ANZ Group may face are summarised below.

Additional risks and uncertainties that the ANZ Group is unaware of, or that the ANZ Group currently deems to be immaterial, may also become important factors that affect it. If any of the listed or unlisted risks actually occur, the ANZ Group's Position could be materially and adversely affected, with the result that the trading price of the ANZ Group's equity or debt securities (including the Notes) could decline, and investors could lose all or part of their investment.

6.2.2 Risk arising from the COVID-19 pandemic and future outbreaks of other communicable diseases or pandemics

The outbreak of the novel strain of coronavirus in late 2019, specifically identified as SARS-CoV-2, with the disease referred to as "COVID-19", has resulted in governments worldwide enacting emergency measures to combat the spread of the virus. Governments, including those in Australia and New Zealand, have imposed wide ranging restrictions on, suspensions of, or advice against, regional and international travel, events and meetings and many other normal activities and undertaken substantial and costly monetary and fiscal interventions designed to stabilise sovereign nations and financial markets. While certain restrictions have been lifted or modified, governments may in the foreseeable future reintroduce prior restrictions or implement and introduce further measures to contain the spread of COVID-19. For example, in July 2021, the Greater Sydney region of NSW was placed into a protracted lockdown. In addition, although globally and domestically COVID-19 vaccines are being deployed, there are uncertainties associated with the long-term effectiveness of such vaccines and the success of

nationwide vaccination programmes. The uncertainties of the COVID-19 pandemic have also increased as a result of the recent spread of new strains of the virus, such as the 'Delta' and 'Omicron' variants. Further variants may develop that require different government responses and greater restrictions to those adopted to date. Consequently, the duration, severity and impact of the COVID-19 pandemic, as well as the effectiveness of government and central bank responses to the pandemic, remain subject to significant uncertainties.

Major disruptions to community health and economic activity continue to have wide ranging negative effects across most business sectors in Australia, New Zealand and globally, which in turn has impacted demand for the ANZ Group's products and services and resulted in a deterioration of the quality of the ANZ Group's credit portfolio. Additionally, many of the ANZ Group's borrowers have been and continue to be negatively impacted by the COVID-19 pandemic and the ANZ Group is exposed to an increased risk of credit loss from borrowers, particularly in the following sectors: transportation (including airlines and shipping); tourism and travel (including accommodation, food and beverage); entertainment; education; retail; and property (particularly shopping malls and hotels). See Notes 1 and 17 of the consolidated financial statements for the financial year ended 30 September 2021 as set out in the ANZ Group's 2021 Annual Report (**2021 Financial Statements**).

Despite initial concerns about the negative impacts of the COVID-19 pandemic and the threat of a long-term recession, most commercial property markets in the ANZ Group's core property markets have been resilient in large part due to government stimulus, record low interest rates and strong investor interest (debt and equity) seeking long-term defensive assets. However, some segments of the economy have experienced more direct and ongoing consequences from the COVID-19 pandemic (e.g. with respect to mobility and tourism) and in these segments cash flows have been impaired and are more volatile, which has impacted serviceability and asset valuations. Furthermore, a highly competitive commercial construction sector, coupled with COVID-19 related supply chain disruption and labour mobility constraints could result in a decline in profit margins, and could also, impact contractors' and sub-contractors' cash flows, working capital needs and liquidity, which may present a completion risk to the ANZ Group's commercial property development financing activities.

In response to the COVID-19 pandemic, the ANZ Group established a range of accommodations and measures, such as loan payment deferral, designed to assist its personal and business customers but there can be no assurance that these accommodations and measures will be sufficient to prevent or mitigate further hardship, or ensure the delivery of the ANZ Group's products and services, and there is a risk that the Group's Position may be materially and adversely affected. For example, there can be no guarantee that at the conclusion of the deferral or suspension period, customers will be able to

recommence their loan repayment obligations, leading to a potential increase in credit risk related losses, which could have a material adverse effect on the Group's Position. See Notes 1 and 17 of the 2021 Financial Statements. These accommodations and measures, and any future accommodations and measures, while supporting the ANZ Group's customers, may in turn have a negative impact on the Group's Position, may negatively impact the ANZ Group's net interest margin, and may result in the ANZ Group assuming a greater level of risk than it would have under ordinary circumstances and the Group's Position may be materially and adversely affected as a result.

Significant requests for assistance from retail and small business customers have been received by the ANZ Group's customer service team. These requests may grow if there are further outbreaks and the ANZ Group is continuing to address additional resourcing and process changes to enable it to support its customers. Whilst there have been signs of improvement, in the longer term, asset values may start to deteriorate if a large quantity of retail and business customers liquidate their investments, which may also be exacerbated by the cessation of government assistance, either during, or immediately after, the crisis or due to a decrease in demand for these assets. In both scenarios loan-to-value ratios are expected to be impacted.

Substantially reduced global economic activity has caused substantial volatility in the financial markets and such volatility may continue and is expected to continue, to have a significant impact on the global economy and global markets, as well as on the economies of Australia and New Zealand. Travel restrictions, border controls, social distancing measures, quarantine protocols and other containment measures have contributed, and may continue to contribute, to restricted economic activity in Australia, New Zealand and elsewhere around the world and suppress demand for commodities, interrupt the supply chain for industries, dampen consumer confidence and suppress business earnings and growth prospects, all of which could contribute to ongoing volatility in global financial markets.

Many countries have, at times, experienced large declines in gross domestic product (**GDP**) as they restrict activities to manage the spread of the virus, with sharp increases in unemployment rates. These declines in GDP could be exacerbated by further outbreaks, such as due to the emergence of new variants of the virus. Governments have responded, and some continue to respond, with fiscal stimulus packages/measures as well as traditional and unconventional monetary easing and regulatory forbearance that is designed to offset at least some of the worst effects of the COVID-19 pandemic. While such stimulus measures do not prevent the decrease in economic activity stemming from the widespread movement restrictions aimed at stalling the spread of the virus, they have contributed to economic recovery when restrictions were eased. There may also be further fluctuations in economic activity when economic support policies are withdrawn.

The Australian and New Zealand Governments and their agencies pursued (and may continue to pursue) policies to promote lending by financial institutions. These actions may support providers that compete with the ANZ Group. Given the importance of a functioning and competitive banking sector, and the Australian and New Zealand Governments' ongoing desire to pursue a pro-growth agenda in response to the economic disruption caused by the COVID-19 pandemic, it is anticipated that over the longer term the level of competition in the financial services sector will remain a focus area for the Australian and New Zealand Governments. Policy reform in this area may result in increased competitive pressure in the ANZ Group's key markets which may adversely affect the Group's Position.

A deterioration of public finances of sovereigns in response to the COVID-19 pandemic combined with pre-existing sovereign risk may lead to further increased volatility and widening credit spreads. In March 2020 there was a substantial impact to market liquidity across most asset classes as market volatility significantly increased. Whilst this level of market volatility has not been repeated since, there is still uncertainty surrounding any future impact on financial markets. The ANZ Group's assessment of its valuation of assets and liabilities considers internal and external information, which includes assessing the ongoing impact of the COVID-19 pandemic, and related responses of governments, regulators and businesses, on the carrying values of the ANZ Group's assets. There is a high degree of uncertainty associated with the duration and impact of the COVID-19 pandemic which may affect the recoverability of the ANZ Group's assets in future periods.

The COVID-19 pandemic has also affected, and can be expected to continue to impact, the ANZ Group's ability to continue its operations without interruption or delays due to closure of and restricted access to premises, contagion management and travel restrictions. Any related illness or quarantine of the ANZ Group's employees or contractors or suspension of the ANZ Group's business operations at its branches, stores or offices could affect the Group's Position. The COVID-19 pandemic has resulted in the adoption of the virtual working environment as 'business as usual' and the ANZ Group has focused on the well-being of staff given the pressures of working from home including the risk of ongoing impacts of the COVID-19 pandemic and potential impacts that it may have on employee mental well-being, including the ability to perform duties and operational activities appropriately. Conduct risk, however, may be heightened because of remote working through its impact on employees' behaviour and/or the ANZ Group's systems and processes (or through its impact on the ANZ Group's ability to monitor such matters). The risk of customer harm over the next twelve months is likely to be shaped by the economic and social impact of the pandemic, and a prioritised area of focus for the ANZ Group is mitigating the risk of unfair treatment of borrowers, including those

in financial difficulties. As the economy begins to move towards recovery and governments' or the ANZ Group's COVID-19 related support measures are wound back, individual customers still enduring hardship may suffer detriment if the ANZ Group cannot provide tailored support and sustainable arrangements based on individual circumstances.

In addition, the COVID-19 pandemic has also increased geopolitical risk. Continuing tensions between countries, including between Australia and China, and policy uncertainty could result in further downturns to the domestic and global economies, which in turn could have a material adverse impact on the Group's Position or its ability to execute its strategic initiatives. See Section 6.2.3.

The ongoing ramifications of the COVID-19 pandemic remain highly uncertain and, as of the date of this Prospectus, it is difficult to predict the further spread or duration of the COVID-19 pandemic, including whether there will be further outbreaks and whether and to what extent vaccines or other medical treatments will be effective in curtailing the effects of the COVID-19 pandemic.

All or any of the negative conditions related to the COVID-19 pandemic described above may cause a further reduction in demand for the ANZ Group's products and services and/or an increase in loan and other credit defaults, bad debts, and impairments and/or an increase in the cost of the ANZ Group's operations. Should any of these occur, the ANZ Group's Position could be materially adversely affected.

Actions taken by regulators in response to the COVID-19 pandemic have impacted, and may continue to impact, the ANZ Group. As an example, in Australia, APRA revised its guidance for ADIs on capital management (including capital distributions) and, in New Zealand, RBNZ made the decision to restrict the payment of dividends on ordinary shares by New Zealand incorporated registered banks during the period of economic uncertainty caused by the COVID-19 pandemic.

To the extent the COVID-19 pandemic continues to adversely affect the Group's Position, it may also have the effect of heightening many of the other risks described in this Section 6.2.

6.2.3 Risk arising from change in political and general business and economic conditions, including disruption in regional or global credit and capital markets

The ANZ Group's financial performance is primarily influenced by the political and economic conditions and the level of business activity in the major countries and regions in which the ANZ Group or its customers or counterparties operate, trade or raise funding including, without limitation, Australia, New Zealand, the Asia Pacific region, the United Kingdom (**UK**), Europe and the United States (the **Relevant Jurisdictions**).

The political, economic and business conditions that prevail in the ANZ Group's operating and trading markets are affected by, among other things, domestic and international economic events, developments in global financial markets, political perspectives, opinions and related events and natural disasters.

Global political conditions that impact the global economy have led to, and may continue to result in extended periods of increased political and economic uncertainty and volatility in the global financial markets, which could adversely affect the Group's Position. Relatively recent examples of events that have affected (and may continue to affect) global political conditions include the United Kingdom ceasing to be a member of the European Union (EU) and the European Economic Area on 31 January 2020 (commonly referred to as "Brexit"), and global trade developments relating to, among other things, the imposition or threatened imposition of trade tariffs and levies by major countries, including the United States, China and other countries that are Australia's and New Zealand's significant trading partners and allies.

Following the end of the Brexit transition period on 30 December 2020, aspects of the relationship between the UK and the EU have been governed by the EU-UK Trade and Cooperation Agreement (**TCA**). The TCA came into effect on 1 May 2021, following its provisional application. The TCA sets out a number of preferential arrangements in areas such as trade in goods and in services, digital trade and intellectual property, but many matters pertaining to the provision of financial services remain uncertain. There are a number of remaining uncertainties regarding, among other things, post-Brexit protocols and arrangements among the parties involved.

Trade, and broader geopolitical, relationships between the United States and some of its trading partners, such as China, remain volatile. The implementation of trading policies or divergent regulatory frameworks by Australia's and New Zealand's key trading partners and allies may adversely impact the demand for Australia's and New Zealand's exports and may lead to declines in global economic growth. In particular, China is one of Australia's and New Zealand's major trading partners and a significant driver of commodity demand and prices in many of the markets in which the ANZ Group and its customers operate. Any heightening of geopolitical tensions and the occurrence of events that adversely affect China's economic growth and Australia's and New Zealand's economic relationship with China, including the implementation of additional tariffs and other protectionist trade policies, could adversely affect Australian or New Zealand economic activity, and, as a result, could adversely affect the Group's Position.

Instability in global political conditions, including in the United States, has contributed to economic uncertainty and declines in market liquidity and could increase

volatility in the global financial markets and negatively impact consumer and business activity within the markets in which the ANZ Group or its customers or counterparties operate, or result in the introduction of new and/or divergent regulatory frameworks that the ANZ Group will be required to adhere to.

Should economic conditions in markets in which the ANZ Group or its customers or counterparties operate deteriorate, asset values in the housing, commercial or rural property markets could decline, unemployment could rise and corporate and personal incomes could suffer. Deterioration in global markets, including equity, property, currency and other asset markets, may impact the ANZ Group's customers and the security the ANZ Group holds against loans and other credit exposures, which may impact the ANZ Group's ability to recover loans and other credit exposures. Should any of these occur, the Group's Position could be materially adversely affected.

The ANZ Group's financial performance may also be adversely affected if the ANZ Group is unable to adapt its cost structures, products, pricing or activities in response to a drop in demand or lower than expected revenues. Similarly, higher than expected costs (including credit and funding costs) could be incurred because of adverse changes in the economy, general business conditions or the operating environment in the countries or regions in which the ANZ Group or its customers or counterparties operate. Should any of these occur, the Group's Position could be materially adversely affected.

Globally, inflationary pressures are currently elevated with increased uncertainty in regards to the future impact on monetary policies settings. Higher inflation, interest rates and levels of uncertainty can have broad ranging impacts on confidence, economic and market conditions.

6.2.4 Risk related to real estate markets in Australia, New Zealand or other markets

Residential and commercial property lending, together with real estate development and investment property finance, constitute important businesses of the ANZ Group. Major sub-segments within the ANZ Group's lending portfolio include:

- residential housing loans (owner occupier and investment); and
- commercial real estate loans (investment and development).

Since 2009, the world's major central banks have embarked upon unprecedented monetary policy stimulus. The resulting weight of funds searching for yield continues to be a significant driver underlying property markets in the ANZ Group's core property jurisdictions (Australia, New Zealand, Singapore and Hong Kong). However, although values for completed tenanted properties and residential house prices, particularly in metropolitan east coast Australian regions rose steadily

until 2018, the fall in Australian house prices in 2018 was the largest since the global financial crisis. In the latter part of 2019 and early 2020, property prices across Australia had started to increase, and although this trend was disrupted by COVID-19, property prices in Australia have risen again in the most recent fiscal year.

Similarly, in New Zealand residential property prices have steadily increased with median prices increasing to a record high in October 2021. In response, the New Zealand Government has introduced a range of initiatives aimed at limiting further price increases, such as mandating that the RBNZ consider the impact on housing when making monetary and financial policy decisions; creating a NZ\$3.8 billion fund to accelerate housing supply in the short to medium term by investing in infrastructure like roads and pipes to homes; extending the 'bright-line' test (which is akin to a capital gains tax on investment property if sold within 10 years from date of purchase, previously 5 years); the removal of interest deductibility from 1 October 2021 for residential property investors who hold their investments (acquired on or after 27 March 2021) on capital account as well as phasing out its application on existing residential investments (with concessions for businesses and for "new builds"); and pledging to help Kāinga Ora (the Crown entity responsible for housing and communities) borrow an additional NZ\$2 billion to increase land acquisitions to boost housing supply. These measures are intended to moderate the rate of New Zealand residential property price increases.

Longer term, given a prolonged period of asset price inflation and record low interest rates, the ANZ Group's portfolio of commercial property loans may become more susceptible to a sudden and material increase in interest rates, which could cause a decline in interest coverage ratios and asset values, which could increase refinance risk and necessitate equity contributions towards debt reduction.

6.2.5 Risk related to acquisitions and/or divestments

The ANZ Group regularly examines a range of corporate opportunities, including acquisitions and divestments, with a view to determining whether those opportunities will enhance the ANZ Group's strategic position and financial performance.

Integration (or separation) of an acquired (or divested) business can be complex and costly, sometimes including combining (or separating) relevant accounting and data processing systems, and management controls, as well as managing relevant relationships with employees, customers, regulators, counterparties, suppliers and other business partners.

Integration (or separation) efforts could create inconsistencies in standards, controls, procedures and policies, as well as diverting management attention and resources. There is also the risk of counterparties making claims in respect of completed or uncompleted transactions against the ANZ Group that could adversely affect the Group's Position. There can also be no assurance that any acquisition (or divestment) would have the anticipated positive results around cost or cost savings, time to integrate and overall performance. All or any of these factors could adversely affect the ANZ Group's ability to conduct its business successfully and impact the ANZ Group's operations or results. Additionally, there can be no assurance that employees, customers, counterparties, suppliers and other business partners of newly acquired (or retained) businesses will remain post-acquisition (or post-divestment). Further, there is a risk that completion of an agreed transaction may not occur whether in the form originally agreed between the parties or at all, including due to failure of the counterparty to satisfy its completion conditions or because other completion conditions such as obtaining relevant regulatory or other approvals are not satisfied. Should any of these integration or separation risks occur, this could adversely affect the Group's Position.

Transactions that the ANZ Group has previously announced but not yet completed include a proposed merchant acquiring joint venture arrangement with Worldline, a European payment systems provider. Completion of this transaction, which remains subject to satisfaction of one or more conditions, is expected to occur during the first half of calendar year 2022.

6.2.6 Risk that the ANZ Group is exposed to credit loss

As a financial institution, the ANZ Group is exposed to the risks associated with extending credit to other parties, including incurring credit-related losses that can occur as a result of a counterparty being unable or unwilling to honour its contractual obligations. Credit losses can and have resulted in financial services organisations realising significant losses and in some cases failing altogether.

Whilst the risk of credit-related losses has increased as a result of the impact of the COVID-19 pandemic, the risk of credit-related losses may further increase as a result of a number of factors, including deterioration in the financial condition of the economies in which the ANZ Group or its customers or counterparties operate, a sustained high level of unemployment in the markets in which the ANZ Group or its customers or counterparties operate, a deterioration of the financial condition of the ANZ Group's customers or counterparties, a reduction in the value of assets the ANZ Group holds as collateral, and a reduction in the market value of the counterparty instruments and obligations it holds.

Less favourable business or economic conditions, whether generally or in a specific industry sector or geographic region, as well as the occurrence of events such as natural disasters or pandemics, could cause customers or counterparties to fail to meet their obligations in accordance with agreed terms.

Some of the ANZ Group's customers and counterparties in or with exposures to the below mentioned sectors are increasingly vulnerable:

- industries impacted by the COVID-19 pandemic particularly those referred to in Section 6.2.2;
- industries exposed to the unwinding of government stimulus packages and/or timing of the opening of borders (both domestic and international) as well as industries reliant on consumer discretionary spending;
- the commercial property sector (including construction and contractors) which is exposed to a decline in investor demand for large scale inner city apartment buildings and a material decline in net migration. In some markets, commercial contractors and sub-contractors may face cash flow/liquidity issues over the next 12 to 24 months as current projects run off and their forward books are diminished. The residential development sector is experiencing supply chain issues, increased costs and labour mobility issues. Earnings for hotel accommodation and certain retail sectors are still being impacted by reduced mobility and the extent of longer-term implications for some offices remains uncertain due to the shift to remote working arrangements;
- industries at risk of sanctions, geopolitical tensions or trade disputes (e.g. technology, agriculture and communications) and/or declining global growth and disruption to global supply chains;
- customers and industries exposed to disruption from physical climate risk (e.g. bushfires, floods, storms and drought), and transition risk (e.g. industry exposed to carbon reduction requirements and resulting changes in demand for goods and services or liquidity); and
- industries exposed to the volatility of the United States Dollar as well as the Australian Dollar and New Zealand Dollar.

The ANZ Group is also subject to the risk that its rights against third parties may not be enforceable in certain circumstances, which may result in credit losses. Should material credit losses occur to the ANZ Group's credit exposures, this may adversely affect the Group's Position.

Credit risk may also arise from certain derivative, clearing and settlement contracts that the ANZ Group enters into, and from the ANZ Group's dealings with, and holdings of, debt securities issued by other banks, financial institutions, companies, governments and government bodies where the financial conditions of such entities are affected by economic conditions in global financial markets.

In addition, in assessing whether to extend credit or enter into other transactions with customers and/or counterparties, the ANZ Group relies on information provided by or on behalf of customers and/or counterparties, including financial statements and other financial information. The ANZ Group may also rely on representations of customers and independent consultants as to the accuracy and completeness of that information. The ANZ Group's financial performance could be negatively impacted to the extent that it relies on information that is incomplete, inaccurate or materially misleading.

The ANZ Group holds provisions for credit impairment that are determined based on current information and subjective and complex judgements of the impairment within the ANZ Group's lending portfolio. If the information upon which the assessment is made proves to be inaccurate or if the ANZ Group fails to analyse the information correctly, the provisions made for credit impairment may be insufficient, which may adversely affect the ANZ Group's Position.

6.2.7 Risk arising from regulatory changes or a failure to comply with laws, regulations or policies

The ANZ Group's businesses and operations are highly regulated. The pace of regulatory change has accelerated in recent years. The ANZ Group is subject to a substantial and increasing number of laws, regulations and policies, including industry self-regulation, in the Relevant Jurisdictions in which it carries on business or obtains funding and is supervised by a number of different authorities in each of these jurisdictions. The volume of changes, and resources allocated to the regulation and supervision of financial services groups, such as the ANZ Group, and the enforcement of laws against them, including through litigation, has increased substantially in recent years, including in response to community concern regarding the conduct of financial services groups in Australia and New Zealand. As a result, the regulation and supervision of, and enforcement against, financial services groups, including the ANZ Group has become increasingly extensive, complex and costly across the Relevant Jurisdictions. Such regulation, supervision and enforcement continue to evolve.

The COVID-19 pandemic has had, and may continue to have, an impact on the regulation and supervision of, and enforcement against, financial services groups such as the ANZ Group. Any future ramifications of the COVID-19 pandemic remain uncertain and, as of the date of this Prospectus, difficult to predict. There have been delays and deferrals to the implementation of regulatory reforms in Australia and New Zealand and a re-ranking of priorities, including enforcement priorities.

Such delays and deferrals could impact the ANZ Group's ability to manage regulatory change and increase the risk of the ANZ Group not complying with new regulations when they come into effect.

The ongoing COVID-19 pandemic also has the potential to complicate the ANZ Group's dealings with its regulators in a number of ways. In particular, disruptions to the ANZ Group's business, operations, third party contractors and suppliers resulting from the COVID-19 pandemic may increase the risk that the ANZ Group will not be able to satisfy its regulatory obligations or processes and/or address outstanding issues, potentially increasing the prospect of a regulator taking adverse action against the ANZ Group. Although there is continuing engagement with regulators with respect to banking industry wide loan repayment deferrals and assistance to customers to get back to making their repayments, the ANZ Group remains susceptible to regulatory action where it fails to satisfy its regulatory obligations.

6.2.8 Risk arising from litigation and contingent liabilities

From time to time, the ANZ Group may be subject to material litigation, regulatory actions, legal or arbitration proceedings and other contingent liabilities that may adversely affect the ANZ Group's Position.

The ANZ Group had contingent liabilities as at 30 September 2021 in respect of the matters outlined in Note 33 of the 2021 Financial Statements.

Note 33 includes, among other things, descriptions of:

- regulatory and customer exposures;
- benchmark/rate actions;
- capital raising actions;
- consumer credit insurance litigation;
- Esanda dealer car loan litigation;
- OnePath superannuation litigation;
- New Zealand loan information litigation;
- the Royal Commission;
- security recovery actions; and
- warranties and indemnities.

In recent years there has been an increase in the number of matters on which the ANZ Group engages with its regulators. There have also been significant increases in the nature and scale of regulatory investigations, surveillance and reviews, civil and criminal enforcement actions (whether by court action or otherwise), formal and informal inquiries, regulatory supervisory activities and the quantum of fines issued by regulators, particularly against financial institutions both in Australia and globally. The ANZ Group has received various notices and requests for information from its regulators as part of both industry-wide and ANZ Group-specific reviews and has also made disclosures to its regulators at its own instigation. The nature of these interactions can be wide ranging and, for example, include or have included a range of matters including responsible lending practices, regulated lending requirements, product suitability and distribution, interest and fees and the entitlement to charge them, customer

remediation, wealth advice, insurance distribution, pricing, competition, conduct in financial markets and financial transactions, capital market transactions, anti-money laundering and counter-terrorism financing obligations, reporting and disclosure obligations and product disclosure documentation. There may be exposures to customers which are additional to any regulatory exposures. These could include class actions, individual claims or customer remediation or compensation activities. The outcomes and total costs associated with such reviews and possible exposures remain uncertain.

There is a risk that contingent liabilities may be larger than anticipated or that additional litigation, regulatory actions, legal or arbitration proceedings or other contingent liabilities may arise.

6.2.9 Risk relating to operational risk events

Operational risk is the risk of loss and/or non-compliance with laws resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk, cyber risk, conduct and culture risk, and the risk of reputational loss or damage arising from inadequate or failed internal processes, people, and/or systems, but excludes strategic risk.

Operational risk categories include but are not limited to:

- internal fraud (for example, involving employees or contractors);
- external fraud (for example, fraudulent loan applications or ATM skimming);
- employment practices, loss of key staff, inadequate workplace safety and failure to effectively implement employment policies;
- impacts on clients, products and business practices (for example, misuse of customer data or anti-competitive behaviour);
- business disruption (including systems failures);
- reputational risk;
- cyber risk;
- conduct and culture risks;
- damage to physical assets;
- execution, delivery and process management (for example, processing errors or data management failures); and
- financial crime.

Loss from operational risk events may adversely affect the Group's Position. Such losses can include fines, penalties, loss or theft of funds or assets, legal costs, customer compensation, loss of shareholder value, reputation loss, loss of life or injury to people, and loss of property and/or information.

Pursuant to APRA requirements, the ANZ Group must also maintain "operational risk capital" reserves in the event future operational events occur.

COVID-19 related challenges have resulted in a number of changes to how the ANZ Group undertakes its operations including adapting to remote working arrangements. The ANZ Group always follows the direction of the relevant government authority regarding permitted places of work. Depending on the environment, this might mean all staff work remotely, or staff are permitted to work from the office under defined workplace occupancy restrictions. Although technology has been successfully deployed to ensure remote working capabilities are available to the relevant staff, greater reliance on digital channels creates heightened risks associated with cyber-attacks and the impact those attacks might have on the ANZ Group's systems and service availability, which could affect the ANZ Group's technology assets as well as third party technology suppliers and critical services on which the ANZ Group relies, such as telecommunications operators.

All or any of the impacts described above may cause a reduction in productivity or delays in completing important activities or increased regulatory scrutiny, which could subsequently result in customer remediation activities, or fines, all of which may adversely affect the Group's Position.

6.2.10 Risk relating to the inability to attract, develop, motivate and retain the ANZ Group's people to meet current and future business needs

Key executives, employees and directors play an integral role in the operation of the ANZ Group's business and its pursuit of its strategic objectives. The unexpected departure of an individual in a key role, or the ANZ Group's failure to recruit and retain an appropriately skilled and qualified person into these roles, could have an adverse effect on the Group's Position. These risks may be further exacerbated by the ongoing impacts of the COVID-19 pandemic, including on employee well-being, social and employment choices.

6.2.11 Risk associated with information security including cyber-attacks

The primary focus of information security is to protect information and technology systems from disruptions to confidentiality, integrity or availability. As a bank, the ANZ Group handles a considerable amount of personal and confidential information about its customers and its own internal operations, from the multiple geographies in which the ANZ Group operates. This information is processed and stored on both internal and third party hosted environments. Any failure of security controls operated by the ANZ Group or its third parties could adversely affect the ANZ Group's business.

The risks to systems and information are inherently higher in certain countries where, for example, political threats or targeted cyber-attacks by terrorist or criminal organisations are greater.

The ANZ Group is conscious that cyber threats, such as advanced persistent threats, distributed denial of service, malware and ransomware, are continuously evolving, becoming more sophisticated and increasing in volume. The COVID-19 pandemic has increased the number of staff working offsite for an extended period, which may increase information security risks to the ANZ Group. Cyber criminals may attempt to take advantage through pursuing exploits in end point security, spreading malware, and increasing phishing attempts.

Additionally, failures in the ANZ Group's cybersecurity policies, procedures or controls, could result in loss of data or other sensitive information (including as a result of an outage) and may cause associated reputational damage. Any of these events could result in significant financial losses (including costs relating to notification of, or compensation for customers), regulatory investigations or sanctions or may affect the ANZ Group's ability to retain and attract customers, and thus may adversely affect the Group's Position.

6.2.12 Risk arising from impact of future climate events, geological events, plant, animal and human diseases and other extrinsic events

The ANZ Group and its customers are exposed to climate-related events. These events include severe storms, drought, fires, cyclones, hurricanes, floods and rising sea levels. The ANZ Group and its customers may also be exposed to other events such as geological events (including volcanic seismic activity or tsunamis), plant, animal and human diseases or a pandemic such as COVID-19, which is causing significant impacts on the ANZ Group's operations and its customers.

Parts of Australia are prone to, and have recently experienced, extreme climate events such as severe drought conditions, bushfires in 2019 and 2020, and severe flooding in 2021. The impact of these events can be widespread, extending beyond primary producers to customers of the ANZ Group who are suppliers to the agricultural sector, and to those who reside in, and operate businesses within, impacted communities. The impact of these losses on the ANZ Group may be exacerbated by a decline in the value and liquidity of assets held as collateral, which may impact the ANZ Group's ability to recover its funds when loans default.

Depending on their frequency and severity, these extrinsic events may continue to interrupt or restrict the provision of some local services such as the ANZ Group branch or business centres or ANZ Group services, and may also adversely affect the ANZ Group's financial condition or collateral position in relation to credit facilities extended to customers, which in turn may adversely affect the Group's Position.

New regulations or guidance relating to climate change, as well as the perspectives of shareholders, employees and other stakeholders regarding climate change, may affect whether and on what terms and conditions the ANZ Group engages in certain activities or offer certain products.

SECTION 07

TAXATION SUMMARY

THIS SECTION CONTAINS A SUMMARY OF THE AUSTRALIAN TAX CONSEQUENCES FOR POTENTIAL HOLDERS AND PARTICIPATING CN2 HOLDERS, AND IS BASED ON AUSTRALIAN TAX LAW AND ADMINISTRATIVE PRACTICE AS AT THE DATE OF THIS PROSPECTUS. THIS SUMMARY IS NECESSARILY GENERAL IN NATURE AND IS NOT INTENDED TO BE DEFINITIVE TAX ADVICE TO POTENTIAL HOLDERS OR PARTICIPATING CN2 HOLDERS. ACCORDINGLY, EACH POTENTIAL HOLDER AND EACH PARTICIPATING CN2 HOLDER SHOULD SEEK THEIR OWN TAX ADVICE, WHICH IS SPECIFIC TO THEIR PARTICULAR CIRCUMSTANCES, AS TO THE TAX CONSEQUENCES OF INVESTING IN, HOLDING AND DISPOSING OF NOTES OR PARTICIPATING IN THE REINVESTMENT OFFER.

7.1 SUMMARY OF AUSTRALIAN TAX CONSEQUENCES FOR HOLDERS

7.1.1 Introduction

The following is a summary of the Australian tax consequences for certain Resident Holders and Non Resident Holders who subscribe for Notes under the Offer and hold them on capital account for tax purposes.

This summary is not exhaustive and the actual tax consequences of your investment may differ depending on your particular circumstances. You should seek your own professional tax advice regarding the consequences of acquiring, holding or disposing of Notes in your particular circumstances.

In particular, this summary does not consider the consequences for Holders who:

- acquire Notes otherwise than under the Offer;
- hold Notes in their business of securities trading, dealing in securities or otherwise hold their Notes on revenue account or as trading stock;
- are subject to the "taxation of financial arrangements" provisions in Division 230 of the Tax Act in relation to their Notes;
- in relation to a Resident Holder, hold their Notes through a permanent establishment outside of Australia; or
- in relation to a Non Resident Holder, hold their Notes through a permanent establishment in Australia.

This summary is not intended to be, nor should it be construed as being, investment, legal or tax advice to any particular Holder.

This summary is based on Australian tax laws and regulations, interpretations of such laws and regulations, and administrative practice as at the date of this Prospectus.

7.1.2 Class ruling sought on the Notes

ANZ has applied to the ATO for a public class ruling confirming certain Australian tax consequences for Resident Holders. The class ruling will not become operative until it is published in the Government Gazette.

When issued, copies of the class ruling will be available from the ATO's website (ato.gov.au) and ANZ's website (anz.com).

It is expected that, when issued, the class ruling will:

- only be binding on the Commissioner of Taxation if the Offer is carried out in the specific manner described in the class ruling;
- only apply to Resident Holders that are within the class of entities specified in the class ruling, which is expected to be Resident Holders who acquire their Notes through the Offer and hold them on capital account for tax purposes. Therefore, the class ruling will not apply to Resident Holders who hold their Notes as trading stock or on revenue account or who are subject to the "taxation of financial arrangements" provisions in Division 230 of the Tax Act in relation to their Notes (which will generally not apply to the "financial arrangements" of individuals unless an election has been made for those rules to apply);
- only rule on tax laws applicable as at the date the class ruling is issued; and
- not consider the tax consequences of a Conversion of Notes on a Trigger Event occurring.

7.1.3 Distributions on Notes

The Notes should be classified as non-share equity interests for Australian income tax purposes.

(a) Resident Holders

Distributions should be treated as non-share dividends that are frankable.

Resident Holders should be required to include the amounts of any Distributions in their assessable income.

Generally, provided that a Resident Holder is a "qualified person" and the ATO does not seek to apply any anti-avoidance rules to effectively deny the benefit of franking credits to the Resident Holder, the Resident Holder:

- should include the amount of the Distribution as well as an amount equal to the franking credits attached to the Distribution in their assessable income in the income year in which they received the Distribution; and
- should qualify for a tax offset equal to the franking credits attached to the Distribution.

Where Resident Holders who are individuals or complying superannuation entities are entitled to tax offsets, those offsets should either be applied against their income tax liability for the relevant income year, or give rise to tax refunds to the extent that the tax offsets exceed the tax that is otherwise payable by the Resident Holders. Resident Holders that are companies are not entitled to refunds of excess tax offsets, but should be entitled to a credit in their franking account, subject to the qualifications mentioned above and discussed further below.

A Resident Holder should be a “qualified person” if the “holding period rule” and the “related payments rule” are satisfied. Generally:

- to satisfy the “holding period rule”, a Holder must have held their Notes “at risk” for a continuous period of at least 90 days (excluding the days of acquisition and disposal) within a period beginning on the day after the day on which they are acquired and ending on the 90th day after they become ex-distribution. To be held “at risk”, a Holder must retain 30% or more of the risks and benefits associated with holding their Notes. Where a Holder undertakes risk management strategies in relation to their Notes (e.g. by the use of limited recourse loans, options or other derivatives), the Holder’s ability to satisfy the “at risk” requirement of the “holding period rule” may be affected; and
- under the “related payments rule”, if a Holder (or an associate) is obliged to make a “related payment” (essentially a payment passing on the benefit of the Distribution) in respect of a Distribution, the Holder must hold the Notes “at risk” for at least 90 days (excluding the days of acquisition and disposal) within each period beginning 90 days before, and ending 90 days after, they become ex-distribution.

A Resident Holder who is an individual is automatically treated as a “qualified person” for these purposes if the total amount of the tax offsets in respect of all franked amounts to which the Resident Holder is entitled in an income year does not exceed \$5,000. This is referred to as the “small shareholder rule”. However, a Resident Holder will not be a “qualified person” under the small shareholder rule if “related payments” have been made, or will be made, in respect of such amounts.

There are anti-avoidance rules which can deny the benefit of franking credits to Resident Holders in certain situations, the most significant of which is in section 177EA of the Tax Act. It is anticipated that the Commissioner of Taxation will not apply any of these anti-avoidance rules to deny the benefit of franking credits to Resident Holders in relation to Distributions payable on the Notes.

(b) Non Resident Holders

Distributions should not be subject to Australian non-resident dividend withholding tax to the extent the Distributions are fully franked.

To the extent an unfranked or partially franked Distribution is paid to Non Resident Holders, withholding tax will generally be payable on the unfranked portion. The rate of withholding tax is generally 30%. However, Non Resident Holders may be entitled to a reduction in the rate of withholding tax if they are resident in a country which has a double taxation agreement with Australia.

7.1.4 Disposal of Notes

(a) Disposal other than through Conversion

(1) Resident Holders

The Commissioner of Taxation’s view is expected to be that the Notes are not “traditional securities” for the purposes of the Tax Act. On that basis, any gain or loss for a Resident Holder on disposal of Notes should be taxed under the CGT provisions. Holders should refer to the class ruling on this point.

A disposal of Notes on-market, or through a Redemption or Resale, will be a CGT event.

Resident Holders may make a capital gain or capital loss, depending on whether the capital proceeds from the disposal are more than the cost base for their Notes, or whether the capital proceeds are less than the reduced cost base for their Notes, respectively. Capital losses can generally only be offset against capital gains, but can be carried forward for use in a later year. Holders should seek their own tax advice in relation to whether any such capital loss may be applied to offset capital gains in their particular circumstances.

The capital proceeds from a Redemption will be equal to the Face Value of a Note, unless the market value of the Note (determined as if its Redemption had not occurred or been proposed) is greater or less than the Face Value. In that case, the greater or lesser market value amount will be deemed to be the capital proceeds, instead of the Face Value actually received. Based on recently published guidance from the ATO, where all of the Notes are Redeemed on an Optional Exchange Date, the ATO should accept that the market value of each Note (and therefore the Redemption capital proceeds) is equal to the Face Value of the Note. The Redemption proceeds should not be treated as a dividend on the basis that they will be debited against an amount standing to the credit of ANZ’s non-share capital account.

The capital proceeds from a Resale of a Note to a Purchaser will be equal to the Face Value of the Note, assuming that the Resident Holder is dealing at arm’s length with the Purchaser.

The capital proceeds from an on-market disposal of a Note will be the sale price of the Note.

A Resident Holder’s CGT cost base (or reduced cost base) for each Note they acquire should include the \$100 issue price of the Note and should also include certain non-deductible incidental costs (e.g. brokerage or advisory fees) associated with acquiring and/or disposing of the Note.

For CGT purposes, each Note should be taken to have been acquired by a Resident Holder on the date that the Notes are allotted and issued to that Resident Holder.

If Notes have been owned for at least 12 months prior to the disposal (excluding the days of acquisition and disposal), a Resident Holder (other than a company) may be entitled to receive CGT discount treatment in respect of any gain arising on disposal of Notes, such that a percentage of the gain is not included in assessable income. The discount percentage is applied to the amount of the capital gain after offsetting any current year or carried forward capital losses. The discount percentages are 50%, 50% and 33⅓% for Resident Holders who are individuals, trusts and complying superannuation entities respectively.

Resident Holders who dispose of their Notes within 12 months of acquiring them, or who dispose of Notes under an agreement entered into within 12 months of acquiring them, will not receive CGT discount treatment. Companies are generally not entitled to obtain CGT discount treatment.

The Government has announced that “managed investment trusts” (MITs) and “attribution managed investment trusts” (AMITs) will not be entitled to the CGT discount at the trust level. This change was previously scheduled to apply from 1 July 2020, but has now been delayed and will instead apply for income years commencing on or after the date that is three months from the date of Royal Assent of the enabling legislation. While it is not certain when this change will come into effect, the Government has indicated that it is committed to legislating this measure. Once this change comes into effect, MITs and AMITs that derive capital gains will continue to be able to distribute those amounts as capital gains that may be subject to the CGT discount in the hands of those beneficiaries who are entitled to the CGT discount. Investors should monitor any potential changes on an ongoing basis.

(2) Non Resident Holders

As the Commissioner’s view is expected to be that the Notes are not “traditional securities”, Non Resident Holders should generally not be taxable on any gain realised on disposal of their Notes, as the Notes should generally not be “taxable Australian property” for the purposes of the CGT provisions.

(b) Disposal through Conversion

Under specific provisions of the Tax Act, any capital gain or capital loss that would arise on Conversion should be disregarded. The consequence of this is that the capital gain or capital loss is effectively deferred, with a Holder’s cost base in the Ordinary Shares acquired on Conversion reflecting the Holder’s cost base in their Notes. This outcome applies both to Resident Holders and Non Resident Holders.

For CGT purposes, the Ordinary Shares acquired on Conversion will be taken to have been acquired on the date of Conversion, including for the purposes of calculating the 12 month ownership period required for the CGT discount concession (see Section 7.1.4(a) above).

7.1.5 Provision of TFN and/or ABN

ANZ is required to deduct withholding tax from the unfranked part (if any) of Distributions in respect of the Notes, at the highest marginal tax rate plus the Medicare levy (currently being 47%), unless a TFN or an ABN has been quoted by a Holder, or a relevant exemption applies (and has been notified to ANZ).

7.1.6 GST

Holders should not be liable for GST in respect of the acquisition, sale, Conversion, Redemption or Resale of Notes, other than in respect of brokerage or similar fees.

7.1.7 Stamp duty

Holders should not be liable for stamp duty on the issue, sale, Conversion, Redemption or Resale of Notes.

7.2 SUMMARY OF CERTAIN AUSTRALIAN TAX CONSEQUENCES FOR CN2 HOLDERS

We have set out below some high-level comments in respect of certain Australian tax resident CN2 holders regarding the redemption of the CN2 and the Reinvestment Offer, where those holders are subject to Class Ruling CR 2014/22 (which sets out certain Australian tax consequences for certain Australian tax residents who invested in CN2 in the initial offering) and hold their CN2 on capital account.

This summary is not exhaustive, the actual tax consequences may differ depending on your particular circumstances, and you should seek your own professional tax advice. In particular, this summary does not consider the consequences for CN2 Holders who:

- acquired their CN2 otherwise than under the initial offering;
- hold their CN2 in their business of securities trading, dealing in securities or otherwise hold their CN2 on revenue account or as trading stock;
- are not Australian residents for tax purposes;
- are Australian tax residents but acquired and/or hold their CN2 through a permanent establishment outside of Australia; or
- are or will be subject to the "taxation of financial arrangements" provisions in Division 230 of the Tax Act in relation to their holding of CN2 or the Notes that they will acquire under the Reinvestment Offer.

7.2.1 Final CN2 Distribution

Holders of CN2, including Eligible CN2 Holders who participate in the Reinvestment Offer, will receive the Final CN2 Distribution that is expected to be paid on 24 March 2022, subject to the payment conditions in the CN2 terms and ANZ's absolute discretion.

The tax treatment of the Final CN2 Distribution should be the same as the treatment of other distributions received on the CN2, as outlined in Class Ruling CR 2014/22. On this basis, provided that a CN2 holder is a "qualified person" (see the general comments in Section 7.1.3 and Class Ruling CR 2014/22), a CN2 holder should generally include the amount of the Final CN2 Distribution as well as an amount equal to any franking credits attached to the Final CN2 Distribution in their assessable income and should qualify for a tax offset equal to the franking credits.

7.2.2 Redemption of CN2

A CGT event will occur for CN2 holders upon redemption of the CN2. This will apply to all CN2 holders (i.e. both Eligible CN2 Holders who participate in the Reinvestment Offer and CN2 holders that do not participate in the Reinvestment Offer).

CN2 holders may make a capital gain or capital loss on the redemption of their CN2, depending on whether the capital proceeds from the disposal are more than the CGT cost base for their CN2, or whether the capital proceeds are less than the reduced cost base for their CN2, respectively. Capital losses can generally only be offset against capital gains, but can be carried forward for use in a later year.

Based on recently published guidance from the ATO, the ATO should accept that the market value of each CN2 (and therefore the redemption capital proceeds) is equal to the \$100 face value of the CN2. The redemption proceeds should not be treated as a dividend on the basis that they will be debited against an amount standing to the credit of ANZ's non-share capital account.

A CN2 holder's CGT cost base (or reduced cost base) for each CN2 should include the amount they paid to acquire the CN2 and may also include certain other non-deductible incidental costs (e.g. brokerage or advisory fees) associated with acquiring and/or disposing of the CN2. If the CN2 have been owned for at least 12 months prior to the redemption (excluding the days of acquisition and disposal), a CN2 holder (other than a company) may be entitled to receive CGT discount treatment in respect of any gain arising on redemption of CN2, such that a percentage of the gain is not included in assessable income. The discount percentage is applied to the amount of the capital gain after offsetting any current year or carried forward capital losses. The discount percentages are 50%, 50% and 33⅓% for CN2 holders who are individuals, trusts and complying superannuation entities respectively.

Companies are generally not entitled to obtain CGT discount treatment. We also refer to the proposed changes to the CGT discount rules for MITs and AMITs discussed in Section 7.1.4(a) above.

7.2.3 Cost base of Notes acquired under the Reinvestment Offer

The amount of the redemption price for CN2 that is applied in subscribing for Notes under the Reinvestment Offer should be included in a Holder's cost base (and reduced cost base) for the purposes of determining any future capital gain or capital loss on the disposal of Notes on-market, or through a Conversion, Redemption or Resale (see Section 7.1.4 above).

SECTION 08

ADDITIONAL INFORMATION

THIS SECTION SETS OUT A NUMBER OF OTHER MATTERS THAT MAY NOT HAVE BEEN ADDRESSED IN DETAIL ELSEWHERE IN THIS PROSPECTUS. THESE INCLUDE THE INCORPORATION BY REFERENCE OF A SUMMARY OF THE OFFER MANAGEMENT AGREEMENT AND THE RIGHTS ATTACHING TO ORDINARY SHARES THAT MAY BE ISSUED ON CONVERSION, THE DISCLOSURE OF INTERESTS OF THE DIRECTORS AND ADVISERS AND THE RELIEF THAT REGULATORS HAVE GRANTED TO ANZ IN RESPECT OF THE OFFER.

8.1 REPORTING AND DISCLOSURE OBLIGATIONS

ANZ is admitted to the official list of ASX and is a disclosing entity for the purposes of the Corporations Act. As a disclosing entity, it is subject to regular reporting and disclosure obligations under the Corporations Act and Listing Rules. Broadly, these obligations require ANZ to prepare both yearly and half yearly financial statements and to report on its operations during the relevant accounting period, and to obtain an audit or review report from its auditor.

Copies of these and other documents lodged with ASIC which are publicly available may be obtained from ASIC's website asic.gov.au (a fee may apply).

ANZ must ensure that ASX is continuously notified of information about specific events and matters as they arise for the purposes of ASX making the information available to the Australian securities market. In this regard, ANZ has an obligation under the Listing Rules (subject to certain exceptions) to notify ASX immediately of any information concerning it of which it becomes aware, which a reasonable person would expect to have a material effect on the price or value of its quoted securities.

8.2 AVAILABILITY OF DOCUMENTS

ANZ will provide a copy of any of the following documents free of charge to any person who requests a copy during the Offer Period:

- the annual financial report for the year ended 30 September 2021;
- any continuous disclosure notices given by ANZ in the period after the lodgement of the annual financial report of ANZ for the year ended 30 September 2021 and before lodgement of this Prospectus with ASIC; and
- the Constitution.

The financial report for the year ended 30 September 2021, together with copies of continuous disclosure notices lodged with ASX are available at asx.com.au or at anz.com/shareholder/centre/investor-toolkit/asx-announcements.

The Constitution is available at anz.com/corporategovernance.

All written requests for copies of the above documents should be addressed to:

Docklands VIC 3008

8.3 INCORPORATION BY REFERENCE

The following documents are incorporated by reference into this Prospectus:

- A summary of the principal provisions of the OMA ANZ has entered into with the Joint Lead Managers under which the Joint Lead Managers have agreed to manage the Offer, including the Bookbuild and the Allocation processes in relation to the Offer, for certain fees which are described in Section 8.5 (**OMA Summary**). The OMA Summary contains information on ANZ's obligations in relation to the conduct of the Offer, the representations, warranties and undertakings provided by ANZ under the OMA and the circumstances in which a Joint Lead Manager may terminate the OMA.
- A non-exhaustive summary of the key rights attaching to Ordinary Shares (**Ordinary Share Summary**). The Ordinary Share Summary contains, among other things, information on the rights of Ordinary Shareholders to:
 - receive dividends;
 - participate in ANZ's dividend reinvestment plan or bonus option plan;
 - participate in or vote at ANZ's general meetings; and
 - transfer Ordinary Shares.

The OMA Summary and the Ordinary Share Summary can be obtained free of charge during the Offer Period from capitalnotes.anz.com or by making a written request addressed to:

Investor Relations Department
Australia and New Zealand Banking Group Limited

Level 10
833 Collins Street
Docklands VIC 3008

8.4 CONSENTS

8.4.1 Directors

Each Director of ANZ has given and has not, before the lodgement of this Prospectus with ASIC, withdrawn their consent to the lodgement of this Prospectus with ASIC.

8.4.2 Other Consenting Parties

Each of the parties (referred to as **Consenting Parties**) who are named below:

- has not made any statement in this Prospectus or any statement on which a statement made in this Prospectus is based;
- to the maximum extent permitted by law, expressly disclaims and takes no responsibility for any statements or omissions from this Prospectus, other than the reference to its name and/or any statement or report included in this Prospectus with the consent of that Consenting Party; and
- has given and has not, before the lodgement of this Prospectus with ASIC, withdrawn its written consent to be named in this Prospectus in the form and context in which it is named.

8.5 INTERESTS OF ADVISERS

ANZ Securities, Commonwealth Bank of Australia, E&P Corporate Advisory, Morgan Stanley, Morgans, National Australia Bank, Ord Minnett, Shaw and Partners, UBS and Westpac have acted as Joint Lead Managers to the Offer, in respect of which they will receive fees from ANZ. The fees received will be as follows:

- other than in respect of Allocations to Institutional Investors, each Joint Lead Manager will receive a selling fee of 0.75% of valid Applications received in respect of its Broker Firm Amount;
- ANZ Securities will receive a selling fee of 0.5% of valid Applications received in respect of Allocations to certain Institutional Investors; and
- each Joint Lead Manager will also receive a base fee of 0.5% of valid Applications received in respect of its Broker Firm Amount.

Under the terms of the OMA, the Joint Lead Managers may pay fees on behalf of ANZ to financial services licensees and representatives (**Brokers**) for procuring subscriptions of Notes by their clients, among other things.

Under the OMA, the amount of the fee payable to a Broker by a Joint Lead Manager may not exceed the amount of the selling fee, unless that Broker is an affiliate of the Joint Lead Manager, in which case the amount of the fee payable to that Broker by a Joint Lead Manager may not exceed the aggregate of the amount of the selling fee and the base fee received by the Joint Lead Manager from ANZ as described above.

Brokers may in turn rebate fees to other Brokers for procuring applications for Notes by their clients, among other things. The amount of the fee paid to a Broker by another Broker may not exceed the amount of the fee they received.

³² A liability of ANZ Securities is neither a deposit with, nor a liability of, ANZ. ANZ Securities is a separate entity from ANZ and is not an ADI.

For the purposes of the fees described above **“Broker Firm Amount”** means, in relation to a Joint Lead Manager, the number of Notes allocated on a firm basis to that Joint Lead Manager and its Affiliates under the Bookbuild.

KPMG Transaction Services (a division of KPMG Financial Advisory Services (Australia) Pty Ltd) has provided due diligence services on certain financial disclosures in this Prospectus. In respect of this work, ANZ estimates that it will pay approximately \$82,500 (excluding disbursements and GST) to KPMG Transaction Services for work up to the date of this Prospectus. Further amounts may be paid to KPMG Transaction Services under its normal time based charges.

King & Wood Mallesons has acted as Australian legal adviser to ANZ in relation to the Offer, assisting with the due diligence and verification program and performing due diligence on required legal matters. In respect of this work, ANZ estimates that it will pay approximately \$335,000 (excluding disbursements and GST) to King & Wood Mallesons for work up to the date of this Prospectus. Further amounts may be paid to King & Wood Mallesons under its normal time based charges.

Greenwoods & Herbert Smith Freehills Pty Ltd has acted as Australian taxation adviser to ANZ in relation to the Offer. In respect of this work, ANZ estimates that it will pay approximately \$65,000 (excluding disbursements and GST) to Greenwoods & Herbert Smith Freehills Pty Ltd for work up to the date of this Prospectus. Further amounts may be paid to Greenwoods & Herbert Smith Freehills Pty Ltd under its normal time based charges.

Except as set out in this Prospectus, no person named in this Prospectus as performing a function in a professional, advisory or other capacity in connection with the preparation or distribution of this Prospectus, a promoter of ANZ or broker to the Offer:

- holds, at the time of lodgement of this Prospectus with ASIC, or has held in the two years before lodgement of this Prospectus with ASIC, an interest in:
 - the formation or promotion of ANZ;
 - the Offer; or
 - any property acquired or proposed to be acquired by ANZ in connection with the formation or promotion of ANZ or the Offer; or
- has paid or agreed to pay any amount, and no one has given or agreed to give any benefit for services provided by that person, in connection with the formation or promotion of ANZ or the Offer.

The Joint Lead Managers and their respective affiliates are involved in a wide range of financial services and businesses in respect of which they may receive fee and other benefits and out of which conflicting interests or duties may arise. These services may include securities trading, brokerage activities or the provision of finance, including in respect of securities of, or loans to, ANZ Group entities. The Joint Lead Managers have represented to the Issuer that they will manage any conflicts in connection with their role as Joint Lead Managers in compliance with their legal obligations.

8.6 INTERESTS OF DIRECTORS

Details of the Directors' holdings in Ordinary Shares and other securities of ANZ are disclosed to, and available from, the ASX at asx.com.au.

The Directors (and their related parties) may acquire Notes offered under this Prospectus (including under the Reinvestment Offer to the extent they hold CN2) subject to the Listing Rules (including any waivers as described in Section 8.7).

Other than as set out in this Prospectus, no Director or proposed Director holds, at the time of lodgement of this Prospectus with ASIC, or has held in the two years before lodgement of this Prospectus with ASIC, an interest in:

- the formation or promotion of ANZ;
- the Offer; or
- any property acquired or proposed to be acquired by ANZ in connection with the formation or promotion of ANZ or the Offer.

Other than as set out in this Prospectus, at the time of lodgement of this Prospectus with ASIC, no one has paid or agreed to pay any amount, and no one has given or agreed to give any benefit, to any Director or proposed Director:

- to induce that person to become, or qualify as, a Director; or
- for services provided by that person in connection with the formation or promotion of ANZ or the Offer.

The Constitution contains provisions about the remuneration of the Directors. As remuneration for their services as Directors, the non-executive Directors are paid an amount of remuneration determined by the Board, subject to a maximum annual aggregate amount determined by Shareholders in a general meeting. The maximum annual aggregate amount has been set at \$4,000,000. Each Director may also be paid additional remuneration for performance of extra services and is entitled to reimbursement of reasonable out-of-pocket expenses. The remuneration of the Managing Director and CEO may be fixed by the Board. The remuneration may consist of salary, bonuses or any other elements but must not be a commission on or percentage of profits or operating revenue.

ANZ has entered into a Director's Access Insurance and Indemnity Deed with each Director. Under that deed, a Director is entitled (among other things) to be indemnified against liabilities incurred as a Director to the extent permitted by law. Subject to and so far as may be permitted under applicable law, they are also permitted to be indemnified under the Constitution and ANZ may enter and pay premiums on directors and officers liability insurance policies for their benefit.

8.7 ASX RELIEF

ASX has granted the following waivers and confirmations to ANZ in connection with the Offer:

- confirmation that Listing Rule 3.20.2 and Appendix 3A will not apply to the Conversion of Notes following the occurrence of a Trigger Event;
- confirmation that the Note Terms are appropriate and equitable for the purposes of Listing Rule 6.1;
- confirmation that the ASX does not consider the Notes to be preference securities for the purposes of Listing Rules 6.4 – 6.7;
- confirmation that the terms of the APRA constraints on the payment of Distributions do not amount to a removal of a right to a distribution for the purposes of Listing Rule 6.10;
- confirmation that Conversion, Redemption, Resale or Write Off by ANZ as provided in the Note Terms is appropriate and equitable for the purposes of Listing Rule 6.12; and
- a waiver of Listing Rule 10.11 to permit Directors (and their associates) to participate in the Offer, without Shareholder approval, on the following conditions:
 - the Directors (and their associates) are collectively restricted to applying for no more than 0.20% of the total number of Notes issued under the Offer;
 - ANZ releases the terms of the waiver to the market; and
 - when Notes are issued, ANZ announces to the market the total number of Notes issued to the directors of ANZ (and their associates) in aggregate; and
- confirmation that the timetable for the Offer is acceptable.

8.8 ASIC RELIEF

ANZ obtained relief from section 734(2) of the Corporations Act to enable it to provide its securityholders with details on the structure of the Offer before the release of this Prospectus.

8.9 FOREIGN SELLING RESTRICTIONS

As at the date of this Prospectus, no action has been taken to register or qualify Notes or the Offer or to otherwise permit a public offering of Notes outside Australia.

The distribution of this Prospectus outside Australia may be restricted by law. If you come into possession of this Prospectus outside Australia, then you should seek advice on, and observe, any such restrictions. Any failure to comply with such restrictions may violate securities laws. This Prospectus does not constitute an offer or invitation in any jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or invitation.

In particular, Notes have not been and will not be registered under the US Securities Act or the securities laws of any state of the United States, and may not be offered or sold in the United States or to, or for the account or benefit of, a US Person.

Any offer, sale or resale of Notes in the United States by a dealer (whether or not participating in the Offer) may violate the registration requirements of the US Securities Act.

Notes may be offered in a jurisdiction outside Australia under the Offer where such offer is made in accordance with the laws of that jurisdiction.

Each person submitting an Application will be deemed to have acknowledged that it is aware of the restrictions referred to in this Section 8.9 and to have represented and warranted that it is able to apply for and acquire Notes in compliance with those restrictions.

8.10 PRIVACY STATEMENT

If you apply for Notes, you will be asked to provide personal information to ANZ and its agents. ANZ and its agents will seek to ensure that they collect, hold, use and disclose that personal information in accordance with the Privacy Act and ANZ's Privacy Policy, to assess and process your Application, to service your needs as a Holder, to provide facilities and services that you request, to carry out appropriate administration of your investment, to identify, prevent or investigate any fraud, unlawful activity or misconduct (or suspected fraud, unlawful activity or misconduct) and to identify you or your controlling persons (where applicable) and may include tax residency details and/or tax residency status and other information required under any Australian or foreign legislation, regulation or treaty or pursuant to any tax regime or intergovernmental agreement for tax purposes. Without this information ANZ would not be able to do these things. Company and tax laws, including the Anti-Money Laundering and Counter-Terrorism Financing Act (Cth), the Financial Sector (Collection of Data) Act (Cth), the Corporations Act, the Taxation Administration Act (Cth), the Tax Act, and the Tax Laws Amendment (Implementation of the Common Reporting Standard) Act 2016 (Cth), requires various items of personal information to be collected.

To do these things, ANZ may (subject to applicable law) disclose your personal information to:

- its agents, contractors or third party service providers to whom ANZ outsources services such as mailing and registry functions;
- its related bodies corporate or their agents, contractors or third party service providers; and
- regulatory bodies, government agencies, law enforcement bodies and courts.

You consent to ANZ using your personal information to keep you informed about ANZ's business activities, progress and development and bring to your attention a range of products and services offered by ANZ. You can contact ANZ or the Registry on 1800 113 399 (within

Australia) or +61 3 9415 4010 (international) (Monday to Friday – 8:30am to 5:30pm) to withdraw your consent to ANZ using or disclosing your personal information in the way described in the previous sentence. It is important that you contact ANZ or the Registry if you do not consent to this use because, by investing in Notes, you will be taken to have otherwise consented.

ANZ may disclose information to recipients which are located outside Australia. You can find details about the location of some of these recipients in ANZ's Privacy Policy and at anz.com/privacy.

If you do not provide the information requested, your Application may not be able to be processed efficiently, if at all.

Under the Privacy Act, you may request access to your personal information held by or on behalf of ANZ. You can request access to your personal information or obtain further information about ANZ's management of your personal information by contacting the Registry or ANZ.

ANZ's Privacy Policy (available at anz.com/privacy) contains information about:

- the circumstances in which ANZ may collect personal information from other sources (including from a third party);
- how to access personal information and seek correction of personal information; and
- how you can raise concerns that ANZ has breached the Privacy Act or an applicable code and how ANZ will deal with those matters.

If the Registry's record of your personal information is incorrect or out of date, it is important that you contact ANZ or the Registry so that your records can be corrected. To assist ANZ with this, please contact ANZ or the Registry if any of the details you have provided have changed.

8.11 CORPORATIONS ACT

This Prospectus is issued by ANZ under section 713 of the Corporations Act (as modified by ASIC Corporations (Regulatory Capital Securities) Instrument 2016/71).

APPENDIX A
NOTE
TERMS

**THIS APPENDIX A CONTAINS
THE FULL NOTE TERMS.**

1 ANZ CAPITAL NOTES

1.1 ANZ Capital Notes 7

ANZ Capital Notes 7 are fully paid mandatorily convertible subordinated perpetual securities (**ANZ Capital Notes 7 or Notes**) in the form of unsecured notes issued by ANZ. ANZ Capital Notes 7 are issued in registered form by entry in the Register. They are issued, and may be Exchanged, according to these Note Terms.

ANZ Capital Notes 7 are not deposit liabilities of ANZ, are not protected accounts for the purposes of the depositor protection provisions in Division 2 of Part II of the Banking Act or of the Financial Claims Scheme established under Division 2AA of Part II of the Banking Act, are not any other kind of account with ANZ and are not guaranteed or insured by any government, government agency or compensation scheme in Australia or any other jurisdiction or by any other person.

1.2 Face value

The denomination and face value of each Note (**Face Value**) is \$100.

2 TITLE AND TRANSFER

2.1 Title

Title to a Note passes when details of the transfer are entered in the Register.

2.2 Register conclusive as to ownership

Entries in the Register in relation to a Note constitute conclusive evidence that the person so entered is the absolute owner of the Note subject to correction for fraud or error.

2.3 Non-recognition of interests

Except as required by law and as provided in this clause 2.3, ANZ must treat the person whose name is entered in the Register as the Holder in respect of a Note as the absolute owner of that Note.

No notice of any trust, Encumbrance or other interest in, or claim to, any Note will be entered in the Register. Neither ANZ nor the Registry need take notice of any trust, Encumbrance or other interest in, or claim to, any Note, except as ordered by a court of competent jurisdiction or required by law, and no trust, Encumbrance or other interest in, or claim to, any Note will in any way affect any provision of these Note Terms.

This clause 2.3 applies whether or not a payment has been made when scheduled on a Note and despite any notice of ownership, trust or interest in the Note.

2.4 Joint Holders

Where two or more persons are entered in the Register as the joint holders of a Note, they are taken to hold the Note as joint tenants with rights of survivorship, but the Registry is not bound to register more than three persons as joint holders of a Note.

2.5 Dealings in whole

At all times, the Notes may be held or transferred only in whole Notes.

2.6 Transfer

- (a) A Holder may transfer a Note:
 - (i) while the Note is lodged in CHESS, in accordance with the ASX Settlement Operating Rules;
 - (ii) at any other time:
 - (A) by a proper transfer under any other computerised or electronic system recognised by the Corporations Act; or
 - (B) by any proper or sufficient instrument of transfer of marketable securities under applicable law.
- (b) The Registry must register a transfer of a Note to or by a person who is entitled to make or receive the transfer as a consequence of:
 - (i) death, bankruptcy, liquidation or winding-up of a Holder; or
 - (ii) a vesting order by a court or other body with power to make the order on receiving the evidence that the Registry or ANZ requires.

3 DISTRIBUTIONS

3.1 Distributions

Subject to these Note Terms, each Note entitles the Holder on a Record Date to receive on the relevant Distribution Payment Date a cash distribution (**Distribution**) calculated according to the following formula:

$$\text{Distribution} = \frac{\text{Face Value} \times \text{Distribution Rate} \times N}{365}$$

where:

Distribution Rate (expressed as a percentage per annum) is calculated according to the following formula:

$$\text{Distribution Rate} = (\text{BBSW Rate} + \text{Margin}) \times (1 - \text{Tax Rate})$$

where:

BBSW Rate means:

- (a) subject to paragraph (b), BBSW; and
- (b) if ANZ determines that a Reference Rate Disruption Event has occurred, then, subject to APRA's prior written approval, ANZ:
 - (i) shall use as the reference rate such Alternative Reference Rate as it may determine;

- (ii) shall make such adjustments to these Note Terms as it determines are reasonably necessary to calculate Distributions in accordance with such Alternative Reference Rate; and
- (iii) in making the determinations under paragraphs (i) and (ii) above:
 - (A) shall act in good faith and in a commercially reasonable manner;
 - (B) may consult with such sources of market practice as it considers appropriate; and
 - (C) may otherwise make such determination in its discretion.

Holders should note that APRA's approval may not be given for any Alternative Reference Rate (or related adjustments) it considers to have the effect of increasing the rate of Distributions contrary to applicable prudential standards.

For the purposes of the foregoing:

- (c) **BBSW Rate** means, for a Distribution Period:
 - (i) the rate (expressed as a percentage per annum) designated "**BBSW**" in respect of prime bank eligible securities having a tenor of 3 months which rate ASX (or its successor as administrator of that rate) publishes through information vendors at approximately 10:30am (Sydney time) (or such other time at which such rate is accustomed to be so published) on the Determination Date; or
 - (ii) if ANZ determines that such rate (expressed as a percentage per annum) as is described in paragraph (i) above:
 - (A) is not published by midday (or such other time that ANZ considers appropriate on that day); or
 - (B) is published, but is affected by an obvious error, such other rate (expressed as a percentage per annum) that ANZ determines as appropriate having regard to comparable indices then available.
- (d) "**Determination Date**" means:
 - (i) in the case of the first Distribution Period, on the Issue Date; and
 - (ii) in the case of any other Distribution Period, on the first Business Day of that Distribution Period;
- (e) "**Reference Rate Disruption Event**" means that, in ANZ's opinion, the rate described in paragraph (a) above:
 - (i) has been discontinued or otherwise ceased to be calculated or administered; or
 - (ii) is no longer generally accepted in the Australian market as a reference rate appropriate to floating rate debt securities of a tenor and interest period comparable to that of Notes; and

- (f) "**Alternative Reference Rate**" means a rate other than the rate described in paragraph (a) above that is generally accepted in the Australian market as the successor to BBSW, or if there is no such rate:
 - (i) a reference rate that is, in ANZ's opinion, appropriate to floating rate debt securities of a tenor and interest period most comparable to that of Notes; or
 - (ii) such other reference rate as ANZ considers appropriate having regard to available comparable indices.

Margin (expressed as a percentage per annum) means the margin determined under the Bookbuild;

Tax Rate (expressed as a decimal) means the Australian corporate tax rate applicable to the franking account of ANZ as at the relevant Distribution Payment Date; and

N means in respect of:

- (a) the first Distribution Payment Date, the number of days from (and including) the Issue Date until (but not including) the first Distribution Payment Date; and
- (b) each subsequent Distribution Payment Date, the number of days from (and including) the preceding Distribution Payment Date until (but not including) the relevant Distribution Payment Date.

3.2 Franking adjustments

If any Distribution is not franked to 100% under Part 3-6 of the Tax Act (or any provisions that revise or replace that Part), the Distribution will be calculated according to the following formula:

$$\text{Distribution} = \frac{D}{(1 - [\text{Tax Rate} \times (1 - F)])}$$

where:

D means the Distribution calculated under clause 3.1;

Tax Rate has the meaning given in clause 3.1; and

F means the applicable Franking Rate.

3.3 Payment of a Distribution

Each Distribution is subject to:

- (a) ANZ's absolute discretion; and
- (b) no Payment Condition existing in respect of the relevant Distribution Payment Date.

3.4 Distributions are non-cumulative

- (a) Distributions are non-cumulative. If all or any part of a Distribution is not paid because of clause 3.3 or because of any applicable law, ANZ has no liability to pay the unpaid amount of the Distribution and Holders have no claim or entitlement in respect of such non-payment and such non-payment does not constitute an event of default.
- (b) No interest accrues on any unpaid Distributions and the Holders have no claim or entitlement in respect of interest on any unpaid Distributions.

3.5 Distribution Payment Dates

Subject to this clause 3, Distributions in respect of a Note will be payable in arrears on the following dates (each a **Distribution Payment Date**):

- (a) each 20 March, 20 June, 20 September and 20 December commencing on 20 June 2022 until (but not including) the date on which a Redemption or Conversion of that Note occurs in accordance with these Note Terms (a **Scheduled Distribution Payment Date**); and
- (b) each date on which a Conversion, Redemption or Resale of that Note occurs, in each case in accordance with these Note Terms.

If a Distribution Payment Date is a day which is not a Business Day, then the Distribution Payment Date will be the next day which is a Business Day.

3.6 Record Dates

A Distribution is only payable on a Distribution Payment Date to those persons registered as Holders on the Record Date for that Distribution.

3.7 Restrictions in the case of non-payment

If for any reason a Distribution has not been paid in full on a Distribution Payment Date (the **Relevant Distribution Payment Date**), ANZ must not, without approval of a Special Resolution, until and including the next Distribution Payment Date:

- (a) resolve to pay or pay any Ordinary Share Dividend; or
- (b) undertake any Buy-Back or Capital Reduction,

unless the Distribution is paid in full within 3 Business Days of the Relevant Distribution Payment Date.

3.8 Exclusions from restrictions in case of non-payment

The restrictions in clause 3.7 do not apply:

- (a) to a Buy-Back or Capital Reduction in connection with any employment contract, employee share scheme, benefit plan or other similar arrangement with or for the benefit of any one or more employees, officers, directors or consultants of ANZ or any Controlled Entity; or
- (b) to the extent that at the time a Distribution has not been paid on the relevant Distribution Payment Date, ANZ is legally obliged to pay on or after that date an Ordinary Share Dividend or complete on or after that date a Buy-Back or Capital Reduction.

Nothing in these Note Terms prohibits ANZ or a Controlled Entity from purchasing ANZ Shares (or an interest therein) in connection with transactions for the account of customers of ANZ or customers of entities that ANZ Controls or, with the prior written approval of APRA, in

connection with the distribution or trading of ANZ Shares in the ordinary course of business. This includes (for the avoidance of doubt and without affecting the foregoing) any acquisition resulting from:

- (a) taking security over ANZ Shares in the ordinary course of business; and
- (b) acting as trustee for another person where neither ANZ nor any entity it Controls has a beneficial interest in the trust (other than a beneficial interest that arises from a security given for the purposes of a transaction entered into in the ordinary course of business).

4 MANDATORY CONVERSION

4.1 Mandatory Conversion

Subject to the occurrence of a Trigger Event, on the Mandatory Conversion Date ANZ must Convert all (but not some) Notes on issue at that date into Ordinary Shares in accordance with clause 6 and this clause 4.

4.2 Mandatory Conversion Date

The **Mandatory Conversion Date** will be the earlier of:

- (a) 20 September 2031 (the **Scheduled Mandatory Conversion Date**); and
- (b) the first Distribution Payment Date after the Scheduled Mandatory Conversion Date (a **Subsequent Mandatory Conversion Date**),

(each a **Relevant Date**) on which the Mandatory Conversion Conditions are satisfied.

4.3 Mandatory Conversion Conditions

The Mandatory Conversion Conditions for each Relevant Date are:

- (a) the VWAP on the 25th Business Day immediately preceding (but not including) the Relevant Date (the **First Test Date**, provided that if no trading in Ordinary Shares took place on that date, the First Test Date is the first Business Day before the 25th Business Day immediately preceding (but not including) the Relevant Date on which trading in Ordinary Shares took place) is greater than 56.00% of the Issue Date VWAP (the **First Mandatory Conversion Condition**);
- (b) the VWAP during the period of 20 Business Days on which trading in Ordinary Shares took place immediately preceding (but not including) the Relevant Date (the **Second Test Period**) is greater than 50.51% of the Issue Date VWAP (the **Second Mandatory Conversion Condition**); and
- (c) no Delisting Event applies in respect of the Relevant Date (the **Third Mandatory Conversion Condition** and, together with the First Mandatory Conversion Condition and the Second Mandatory Conversion Condition, the **Mandatory Conversion Conditions**).

4.4 Non-Conversion Notices

If:

- (a) the First Mandatory Conversion Condition is not satisfied in relation to a Relevant Date, ANZ will notify Holders between the 25th and the 21st Business Day before the Relevant Date; or
- (b) the Second Mandatory Conversion Condition or the Third Mandatory Conversion Condition is not satisfied in relation to a Relevant Date, ANZ will notify Holders on or as soon as practicable after the Relevant Date, in either case that Mandatory Conversion will not (or, as the case may be, did not) occur on the Relevant Date (a **Non-Conversion Notice**).

4.5 Common Equity Capital Trigger Event

A **Common Equity Capital Trigger Event** means ANZ determines, or APRA has notified ANZ in writing that it believes, that a Common Equity Capital Ratio is equal to or less than 5.125%. ANZ must immediately notify APRA in writing if it makes a determination under this clause 4.5.

4.6 Non-Viability Trigger Event

A **Non-Viability Trigger Event** means the earlier of:

- (a) the issuance of a notice in writing by APRA to ANZ that conversion or write off of Relevant Securities is necessary because, without it, APRA considers that ANZ would become non-viable; or
- (b) a determination by APRA, notified to ANZ in writing, that without a public sector injection of capital, or equivalent support, ANZ would become non-viable.

4.7 Trigger Event Conversion Date

A **Trigger Event Conversion Date** means:

- (a) in the case of a Common Equity Capital Trigger Event, the date on which the determination or notification is made under clause 4.5; and
- (b) in the case of a Non-Viability Trigger Event, the date on which APRA notifies ANZ of such Non-Viability Trigger Event as contemplated in clause 4.6.

4.8 Conversion on Trigger Event Conversion Date

If a Trigger Event occurs:

- (a) on the Trigger Event Conversion Date, subject only to clause 4.9(c), so many of the Notes will immediately Convert as is:
 - (i) in the case of a Common Equity Capital Trigger Event, sufficient (as determined by ANZ in accordance with paragraph (b) below) to increase the relevant Common Equity Capital Ratio to a percentage above 5.125% determined by ANZ in consultation with APRA; or

- (ii) in the case of a Non-Viability Trigger Event, required by APRA's notice under clause 4.6 and, where such notice does not require all Relevant Securities to be converted into Ordinary Shares or written off, sufficient (determined by ANZ in accordance with paragraph (b) below) to satisfy APRA that ANZ is viable without further conversion or write off.

If a Non-Viability Trigger Event under clause 4.6(b) occurs, all the Notes are required to be Converted:

- (b) in determining the number of Notes which must be Converted in accordance with this clause, ANZ will:
 - (i) first, convert into Ordinary Shares or write off Relevant Securities whose terms require or permit them to be converted into Ordinary Shares or written off either before Conversion of Notes or in full; and
 - (ii) secondly, if conversion into Ordinary Shares or write off of those Relevant Securities is not sufficient to satisfy the requirements of clause 4.8(a)(i) or 4.8(a)(ii) (as applicable), subject to clause 4.8(e)(iv):
 - (A) ANZ will endeavour to Convert Notes and convert into Ordinary Shares or write off other Relevant Securities on an approximately pro-rata basis or in a manner that is otherwise, in the opinion of ANZ, fair and reasonable (subject to such adjustment as ANZ may determine to take into account the effect on marketable parcels and the need to round to whole numbers the number of Ordinary Shares and any Notes or other Relevant Securities remaining on issue); and
 - (B) where the currency of the principal amount of Relevant Securities is not the same for all Relevant Securities, ANZ may treat the Relevant Securities as if converted into a single currency of ANZ's choice at such rate of exchange for each such currency as ANZ in good faith considers reasonable;

- (c) on the Trigger Event Conversion Date ANZ must determine the Holders whose Notes will be Converted at the time on that date that the Conversion is to take effect and in making that determination may make any decisions with respect to the identity of the Holders at that time and date as may be necessary or desirable to ensure Conversion occurs immediately in an orderly manner, including disregarding any transfers of Notes that have not been settled or registered at that time;

- (d) ANZ must give notice of that event (a **Trigger Event Notice**) as soon as practicable to Holders which must specify:
- (i) the Trigger Event Conversion Date;
 - (ii) the number of Notes Converted; and
 - (iii) the relevant number of other Relevant Securities converted or written off;
- (e) despite any other provision in this clause 4.8, none of the following events shall prevent, impede or delay the immediate Conversion of Notes as required by clause 4.8(a):
- (i) any failure or delay in the conversion or write off of other Relevant Securities;
 - (ii) any failure or delay in giving a Trigger Event Notice;
 - (iii) any failure or delay in quotation of Ordinary Shares to be issued on Conversion; and
 - (iv) any requirement to select or adjust the number of Notes to be Converted or any right to make determinations in accordance with clause 4.8(b)(ii) or 4.8(c);
- (f) from the Trigger Event Conversion Date, subject to clauses 6.13 and 10.2, ANZ shall treat the Holder of any Note which is required to be Converted as the holder of the relevant number of Ordinary Shares and will take all such steps, including updating any register, required to record the Conversion.

4.9 Priority of Conversion obligations

- (a) Conversion on account of the occurrence of a Trigger Event is not subject to the matters described in clause 4.3 as Mandatory Conversion Conditions.
- (b) A Conversion required on account of a Trigger Event takes place on the date, and in the manner, required by clause 4.8, notwithstanding anything in clauses 4.1, 4.10, 5 or 9.
- (c) If Conversion has not been effected within 5 Business Days after the relevant Trigger Event Conversion Date for any reason (including an Inability Event), Conversion of those Notes on account of the Trigger Event will not occur and those Notes shall be Written Off in accordance with clause 6.13 and the provisions of clauses 4.8(b), 4.8(c) and 4.8(d) shall apply in respect of that Write Off and those Notes as if each reference in those clauses to "Conversion" or "Convert" were a reference to "Write Off".

4.10 Mandatory Conversion on Change of Control

- (a) If a Change of Control Event occurs, ANZ must notify Holders as soon as practicable after becoming aware of that event by providing a notice to Holders (a **Change of Control Conversion Notice**) and Convert all (but not some only) Notes on the Change of Control Conversion Date, subject to and in accordance with this clause 4 and clause 6.
- (b) A Change of Control Conversion Notice must specify:
 - (i) the details of the relevant Change of Control Event;
 - (ii) the date on which Conversion is to occur (the **Change of Control Conversion Date**), which must be:
 - (A) the Business Day prior to the date reasonably determined by ANZ to be the last date on which holders of Ordinary Shares can participate in the bid or scheme concerned or such other earlier date as ANZ may reasonably determine having regard to the timing for implementation of the bid or scheme concerned; or
 - (B) such later date as APRA may require; and
 - (iii) whether any Distribution will be paid on the Change of Control Conversion Date.
- (c) A Change of Control Conversion Notice is taken to be revoked and Conversion will not occur if, on the Change of Control Conversion Date:
 - (i) the Second Mandatory Conversion Condition (calculated as if it referred to 20.21% of the Issue Date VWAP); or
 - (ii) the Third Mandatory Conversion Condition, would not be satisfied, in each case, determined as if each reference to "Relevant Date" in those conditions were a reference to the "Change of Control Conversion Date".
- (d) If clause 4.10(c) applies, ANZ must:
 - (i) notify Holders as soon as practicable that Conversion will not (or did not) occur (a **Deferred Change of Control Conversion Notice**); and
 - (ii) subject to this clause 4.10, give a new Change of Control Conversion Notice on or before the 25th Business Day prior to the immediately succeeding Scheduled Distribution Payment Date (under clause 3.5(a)) which is at least 25 Business Days after the date on which the Deferred Change of Control Conversion Notice was given.
- (e) If a new Change of Control Conversion Notice is revoked, clause 4.10(d) shall be reapplied in respect of each subsequent Distribution Payment Date (under clause 3.5(a)) until a Conversion occurs.
- (f) Nothing in this clause 4.10 limits the operation of clause 4.8.

5 OPTIONAL EXCHANGE BY ANZ

5.1 Optional Exchange by ANZ

ANZ may by notice to Holders (an **Exchange Notice**) elect to Exchange:

- (a) all or some Notes on an Exchange Date following the occurrence of a Tax Event or a Regulatory Event; or
- (b) all or some Notes on an Optional Exchange Date.

An Exchange Notice once given is irrevocable, subject to clauses 4.8 and 4.9.

5.2 Contents of Exchange Notice

An Exchange Notice must specify:

- (a) the details of any Tax Event or Regulatory Event to which the Exchange Notice relates;
- (b) the date on which Exchange is to occur (the **Exchange Date**), which:
 - (i) in the case of a Tax Event or a Regulatory Event, will be the last Business Day of the month following the month in which the Exchange Notice was given by ANZ unless ANZ determines an earlier Exchange Date having regard to the best interests of Holders as a whole and the relevant event; or
 - (ii) in the case of an Optional Exchange Date, the Optional Exchange Date which must fall:
 - (A) no earlier than 25 Business Days after the date on which the Exchange Notice is given, where the Exchange Method is Conversion; and
 - (B) no earlier than 5 Business Days after the date on which the Exchange Notice is given, where the Exchange Method is Redemption or Resale;
- (c) the Exchange Method, which may not be Redemption unless either:
 - (i) Notes the subject of the Exchange are replaced concurrently or beforehand with Tier 1 Capital of the same or better quality and the replacement of the Notes is done under conditions that are sustainable for ANZ's income capacity; or
 - (ii) APRA is satisfied that the capital position of the ANZ Level 1 Group, the ANZ Level 2 Group and, if applicable, the ANZ Level 3 Group is well above its minimum capital requirements after ANZ elects to Redeem the Notes;
- (d) if less than all Outstanding Notes are subject to Exchange, which Notes are subject to Exchange; and
- (e) whether any Distribution will be paid on the Exchange Date.

5.3 Exchange Method

If ANZ elects to Exchange Notes in accordance with this clause 5, it must, subject to APRA's prior written approval and clause 5.2(c) and clause 5.4, elect which of the following (or which combination of the following) it intends to do in respect of Notes (the **Exchange Method**):

- (a) Convert Notes into Ordinary Shares in accordance with clause 6;
- (b) Redeem Notes in accordance with clause 7; or
- (c) Resell Notes in accordance with clause 8.

If ANZ issues an Exchange Notice to Exchange only some Notes, ANZ must endeavour to treat Holders on an approximately proportionate basis, but may discriminate to take account of the effect on holdings which would be Non-marketable Parcels and other considerations.

5.4 Restrictions on election by ANZ of Conversion as Exchange Method

ANZ may not elect Conversion as the Exchange Method in respect of an Exchange under this clause 5 if:

- (a) on the second Business Day before the date on which an Exchange Notice is to be sent by ANZ (or, if trading in Ordinary Shares did not occur on that date, the last Business Day prior to that date on which trading in Ordinary Shares occurred) (the **Non-Conversion Test Date**) the VWAP on that date is less than or equal to 22.50% of the Issue Date VWAP (the **First Optional Conversion Restriction**); or
- (b) a Delisting Event applies in respect of the Non-Conversion Test Date (the **Second Optional Conversion Restriction** and, together with the First Optional Conversion Restriction, the **Optional Conversion Restrictions**).

5.5 Conditions to Conversion occurring once elected by ANZ

If ANZ has given an Exchange Notice in which it has elected Conversion as the Exchange Method but, if the Exchange Date were a Relevant Date for the purposes of clause 4, either the Second Mandatory Conversion Condition (as if it referred to 20.21% of the Issue Date VWAP) or the Third Mandatory Conversion Condition would not be satisfied in respect of that date, then, notwithstanding any other provision of these Note Terms:

- (a) the Exchange Date will be deferred until the first Distribution Payment Date (under clause 3.5(a)) on which the Mandatory Conversion Conditions would be satisfied if that Distribution Payment Date were a Relevant Date for the purposes of clause 4 (the **Deferred Conversion Date**);
- (b) ANZ must Convert the Notes on the Deferred Conversion Date (unless the Notes are earlier Exchanged in accordance with these Note Terms); and
- (c) until the Deferred Conversion Date, all rights attaching to the Notes will continue as if the Exchange Notice had not been given.

ANZ will notify Holders on or as soon as practicable after an Exchange Date in respect of which this clause 5.5 applies that Conversion did not occur on that Exchange Date (a **Deferred Conversion Notice**).

5.6 Purchases

ANZ or any Related Entity of ANZ may at any time purchase the Notes in the open market or otherwise and at any price or consideration, subject to the prior written approval of APRA.

Holders should not expect that APRA's approval will be given for any purchase of Notes under these Note Terms.

6 CONVERSION MECHANICS

6.1 Conversion

If ANZ elects to Convert Notes or must Convert Notes in accordance with these Note Terms, then, subject to this clause 6 and clause 11, the following provisions apply:

- (a) ANZ will allot and issue on the Mandatory Conversion Date, the Trigger Event Conversion Date, the Exchange Date or the Change of Control Conversion Date (as the case may be) a number of Ordinary Shares in respect of each Note held by the Holder equal to the Conversion Number, where the Conversion Number (but subject to the Conversion Number being no more than the Maximum Conversion Number) is a number calculated according to the following formula:

$$\text{Conversion Number} = \frac{\text{Face Value}}{(99\% \times \text{VWAP})}$$

where:

VWAP (expressed in dollars and cents) means the VWAP during the VWAP Period and where the

Maximum Conversion Number means a number calculated according to the following formula:

$$\text{Maximum Conversion Number} = \frac{\text{Face Value}}{\text{Issue Date VWAP} \times \text{Relevant Number}}$$

where **Relevant Number** means:

- (i) if Conversion is occurring on a Mandatory Conversion Date, 0.5; and
- (ii) if Conversion is occurring at any other time, 0.2;
- (b) each Holder's rights (including to payment of Face Value and Distributions other than the Distribution, if any, payable on a date when Conversion is required that is not a Trigger Event Conversion Date) in relation to each Note that is being Converted will be immediately and irrevocably terminated for an amount equal to the Face Value of that Note and ANZ will apply that Face Value by way of payment for subscription for the Ordinary Shares to be allotted and issued under clause 6.1(a). Each Holder is taken to have irrevocably directed that any amount payable under this clause 6.1 is to be applied as provided for in this clause 6.1 and no Holder has any right to payment in any other way;

- (c) if the total number of additional Ordinary Shares to be allotted to a Holder in respect of their aggregate holding of Notes upon Conversion includes a fraction of an Ordinary Share, that fraction of an Ordinary Share will be disregarded; and
- (d) the rights attaching to Ordinary Shares issued as a result of Conversion do not take effect until 5:00pm (Melbourne time) on the Mandatory Conversion Date, the Trigger Event Conversion Date (unless another time is required for Conversion on that date), the Exchange Date or the Change of Control Conversion Date (as the case may be). At that time all other rights conferred or restrictions imposed on that Note under these Note Terms will no longer have effect (except for rights relating to a Distribution which is payable but has not been paid on or before a date when Conversion is required that is not a Trigger Event Conversion Date which will continue).

6.2 Adjustments to VWAP

For the purposes of calculating VWAP in these Note Terms:

- (a) where, on some or all of the Business Days in the relevant VWAP Period, Ordinary Shares have been quoted on ASX as cum dividend or cum any other distribution or entitlement and Notes will Convert into Ordinary Shares after the date those Ordinary Shares no longer carry that dividend or any other distribution or entitlement, then the VWAP on the Business Days on which those Ordinary Shares have been quoted cum dividend or cum any other distribution or entitlement shall be reduced by an amount (**Cum Value**) equal to:
- (i) in case of a dividend or other distribution, the amount of that dividend or other distribution including, if the dividend or other distribution is franked, the amount that would be included in the assessable income of a recipient of the dividend or other distribution who is both a resident of Australia and a natural person under the Tax Act;
- (ii) in the case of any other entitlement that is not a dividend or other distribution under clause 6.2(a)(i) which is traded on ASX on any of those Business Days, the volume weighted average sale price of all such entitlements sold on ASX during the VWAP Period on the Business Days on which those entitlements were traded; or
- (iii) in the case of any other entitlement which is not traded on ASX during the VWAP Period, the value of the entitlement as reasonably determined by the Directors; and
- (b) where, on some or all of the Business Days in the VWAP Period, Ordinary Shares have been quoted on ASX as ex dividend or ex any other distribution or entitlement, and Notes will Convert into Ordinary Shares which would be entitled to receive the relevant dividend or other distribution or entitlement, the VWAP on the Business Days on which those Ordinary Shares have been quoted ex dividend or ex any other distribution or entitlement shall be increased by the Cum Value.

6.3 Adjustments to VWAP for divisions and similar transactions

Where during the relevant VWAP Period there is a change in the number of the Ordinary Shares on issue as a result of a division, consolidation or reclassification of ANZ's share capital (not involving any cash payment or other distribution (or compensation) to or by Ordinary Shareholders) (a **Reorganisation**), in calculating the VWAP for that VWAP Period the daily VWAP applicable on each day in the relevant VWAP Period which falls before the date on which trading in Ordinary Shares is conducted on a post Reorganisation basis shall be adjusted by multiplying such VWAP by the following formula:

$$\frac{A}{B}$$

where:

A means the aggregate number of Ordinary Shares immediately before the Reorganisation; and

B means the aggregate number of Ordinary Shares immediately after the Reorganisation.

6.4 Adjustments to Issue Date VWAP

For the purposes of determining the Issue Date VWAP, adjustments to VWAP will be made in accordance with clause 6.2 and clause 6.3 during the VWAP Period for the Issue Date VWAP. On and from the Issue Date, adjustments to the Issue Date VWAP:

- (a) may be made in accordance with clauses 6.5 to 6.7 (inclusive); and
- (b) if so made, will correspondingly affect the application of the Mandatory Conversion Conditions, the Optional Conversion Restrictions, and cause an adjustment to the Maximum Conversion Number.

6.5 Adjustments to Issue Date VWAP for bonus issues

- (a) Subject to clause 6.5(b) below, if ANZ makes a pro rata bonus issue of Ordinary Shares to holders of Ordinary Shares generally, the Issue Date VWAP will be adjusted immediately in accordance with the following formula:

$$V = V_0 \times \frac{RD}{RD + RN}$$

where:

V means the Issue Date VWAP applying immediately after the application of this formula;

V₀ means the Issue Date VWAP applying immediately prior to the application of this formula;

RN means the number of Ordinary Shares issued pursuant to the bonus issue; and

RD means the number of Ordinary Shares on issue immediately prior to the allotment of new Ordinary Shares pursuant to the bonus issue.

- (b) Clause 6.5(a) does not apply to Ordinary Shares issued as part of a bonus share plan, employee or executive share plan, executive option plan, share top up plan, share purchase plan or a dividend reinvestment plan.
- (c) For the purpose of clause 6.5(a), an issue will be regarded as a pro rata issue notwithstanding that ANZ does not make offers to some or all holders of Ordinary Shares with registered addresses outside Australia, provided that in so doing ANZ is not in contravention of the ASX Listing Rules.
- (d) No adjustments to the Issue Date VWAP will be made under this clause 6.5 for any offer of Ordinary Shares not covered by clause 6.5(a), including a rights issue or other essentially pro rata issue.
- (e) The fact that no adjustment is made for an issue of Ordinary Shares except as covered by clause 6.5(a) shall not in any way restrict ANZ from issuing Ordinary Shares at any time on such terms as it sees fit nor require any consent or concurrence of any Holders.

6.6 Adjustment to Issue Date VWAP for divisions and similar transactions

- (a) If at any time after the Issue Date, a Reorganisation occurs, ANZ shall adjust the Issue Date VWAP by multiplying the Issue Date VWAP applicable on the Business Day immediately before the date of any such Reorganisation by the following formula:

$$\frac{A}{B}$$

where:

A means the aggregate number of Ordinary Shares immediately before the Reorganisation; and

B means the aggregate number of Ordinary Shares immediately after the Reorganisation.

- (b) Each Holder acknowledges that ANZ may consolidate, divide or reclassify securities so that there is a lesser or greater number of Ordinary Shares at any time in its absolute discretion without any such action requiring any consent or concurrence of any Holders.

6.7 No adjustment to Issue Date VWAP in certain circumstances

Despite the provisions of clauses 6.5 and 6.6, no adjustment shall be made to the Issue Date VWAP where such adjustment (rounded if applicable) would be less than one percent of the Issue Date VWAP then in effect.

6.8 Announcement of adjustment to VWAP or Issue Date VWAP

ANZ will notify Holders (an **Adjustment Notice**) of any adjustment to the VWAP or the Issue Date VWAP under this clause 6 within 10 Business Days of ANZ determining the adjustment and the adjustment set out in the announcement will be final and binding on all Holders and these Note Terms will be construed accordingly.

6.9 Ordinary Shares

Each Ordinary Share issued upon Conversion ranks *pari passu* with all other fully paid Ordinary Shares.

6.10 Foreign Holders

Where Notes held by a Foreign Holder are to be Converted, unless ANZ is satisfied that the laws of the Foreign Holder's country of residence permit the issue of Ordinary Shares to the Foreign Holder (but as to which ANZ is not bound to enquire), either unconditionally or after compliance with conditions which ANZ in its absolute discretion regards as acceptable and not unduly onerous, the Ordinary Shares which the Foreign Holder is obliged to accept will be issued to a nominee (which may not be ANZ or a Related Entity of ANZ) who will sell those Ordinary Shares and pay a cash amount equal to the Proceeds to the Foreign Holder.

6.11 FATCA Withholding on Conversion

Where a FATCA Withholding would be required or permitted to be made in respect of Ordinary Shares issued on Conversion of Notes, the Ordinary Shares which the Holder is obliged to accept will be issued, at ANZ's election, either:

- (a) to the Holder of the Notes net of FATCA Withholding, and the balance of the Ordinary Shares (if any) will be issued to a nominee; or
- (b) entirely to a nominee,

and in each case, the nominee (which may not be ANZ or a Related Entity of ANZ) will sell the Ordinary Shares issued to it, deal with any proceeds of their disposal in accordance with FATCA and, where paragraph (b) applies pay a cash amount equal to the Proceeds net of any FATCA Withholding to the Holder.

6.12 Listing Ordinary Shares issued on Conversion

ANZ shall use all reasonable endeavours to list the Ordinary Shares issued upon Conversion of the Notes on ASX.

6.13 Write Off

Notwithstanding clause 9.1(a), if Conversion has not been effected within 5 Business Days after the relevant Trigger Event Conversion Date for any reason (including an Inability Event), each Note which, but for clause 4.9(c) and this clause 6.13, would be Converted, will be Written Off with effect on and from the Trigger Event Conversion Date.

In this clause 6.13, **Written Off** means that, in respect of a Note and a Trigger Event Conversion Date:

- (a) the Note will not be Converted on that date and will not be Converted, Redeemed or Resold under these Note Terms on any subsequent date; and
- (b) the relevant Holders' rights (including to payment of Distributions and Face Value) in relation to such Note are immediately and irrevocably terminated and written off.

6.14 No duties on sale

For the purposes of clauses 6.10 and 6.11, none of ANZ or the nominee owes any obligations or duties to Holders in relation to the price at which Ordinary Shares are sold or has any liability for any loss suffered by a Holder as a result of the sale of Ordinary Shares.

7 REDEMPTION MECHANICS

7.1 Redemption mechanics to apply to Redemption

If, subject to APRA's prior written approval and compliance with the conditions in clause 5.2(c), ANZ elects to Redeem Notes in accordance with these Note Terms, the provisions of this clause 7 apply to that Redemption.

Holders should not expect that APRA's approval will be given for any Exchange of Notes under the Note Terms.

7.2 Redemption

Notes will be Redeemed by payment on the Exchange Date of the Face Value to the Holder.

7.3 Effect of Redemption on Holders

On the Exchange Date the only right Holders will have in respect of Notes will be to obtain the Face Value payable in accordance with these Note Terms. Upon the Face Value being paid (or taken to be paid in accordance with clause 13.3), all other rights conferred, or restrictions imposed, by the Notes will no longer have effect.

8 RESALE ON EXCHANGE DATE

- (a) If, subject to APRA's prior written approval, ANZ elects to Resell Notes in accordance with these Note Terms, the provisions of this clause 8 apply to that Resale.
- (b) ANZ may appoint one or more Purchasers for the Resale on such terms as may be agreed between ANZ and the Purchaser (and to the extent that any such terms may cause the Notes to cease to be Additional Tier 1 Capital, with the prior written approval of APRA) including:
 - (i) as to the conditions of any Resale, the procedures for settlement of such Resale and the circumstances in which the Exchange Notice specifying Resale as the Exchange Method may be amended, modified, added to or restated;
 - (ii) as to the substitution of another entity (not being ANZ or a Related Entity of ANZ) as Purchaser if, for any reason, ANZ is not satisfied that the Purchaser will perform its obligations under this clause 8; and
 - (iii) as to the terms (if any) on which any Notes acquired by a Purchaser may be redeemed, converted or otherwise dealt with.
- (c) If ANZ appoints more than one Purchaser in respect of a Resale, all or any of the Notes held by a Holder which are being Resold may be purchased by any one or any combination of the Purchasers, as determined by ANZ.
- (d) ANZ may not appoint itself or any Related Entity of ANZ as a Purchaser.
- (e) If ANZ issues an Exchange Notice specifying Resale as the Exchange Method:
 - (i) each Holder is taken irrevocably to offer to sell the relevant number of their Notes to the Purchaser on the Exchange Date for a cash amount per Note equal to the Face Value;
 - (ii) subject to payment by the Purchaser of the Face Value to Holders, all right, title and interests in the relevant number of Notes will be transferred from the Holders to the Purchaser on the Exchange Date; and
 - (iii) if the Purchaser does not pay the Face Value to the relevant Holders on the Exchange Date, the Exchange Notice specifying Resale as the Exchange Method will be void as it relates to that Purchaser, the relevant number of Notes will not be transferred to the Purchaser, those Notes are not Resold on that date and a Holder has no claim on ANZ as a result of that non-payment.
- (f) Clause 13 will apply to payments by the Purchaser as if the Purchaser was ANZ. If any payment to a particular Holder is not made or treated as made on the Exchange Date because of any error by or on behalf of the Purchaser, the relevant Notes of that Holder will not be transferred until payment is made but the transfer of all other relevant Notes will not be affected by the failure.

9 GENERAL RIGHTS IN RESPECT OF NOTES

9.1 Ranking in a winding-up

- (a) If an order is made by a court of competent jurisdiction in Australia (other than an order successfully appealed or permanently stayed within 30 days), or an effective resolution passed, for the winding-up of ANZ in Australia, the Notes are redeemable for the Face Value in accordance with this clause 9.1.
- (b) In a winding-up of ANZ in Australia, a Note confers upon the Holder, subject to clauses 4.8 and 6.13, the right to payment in cash of the Face Value on a subordinated basis in accordance with clause 9.1(c), but no further or other claim on ANZ in the winding-up of ANZ in Australia, including with respect to any unpaid Distribution.
- (c) Holders will rank for payment of the Face Value in a winding-up of ANZ in Australia:
 - (i) in priority to Ordinary Shares;
 - (ii) equally among themselves and with all Equal Ranking Instruments with respect to priority of payment in a winding-up; and
 - (iii) junior to the claims of all Senior Creditors with respect to priority of payment in a winding-up in that:
 - (A) all claims of Senior Creditors must be paid in full (including in respect of any entitlement to interest under section 563B of the Corporations Act) before the claims of the Holders are paid; and
 - (B) until the Senior Creditors have been paid in full, the Holders must not claim in the winding-up of ANZ in competition with the Senior Creditors so as to diminish any distribution, dividend or payment which, but for that claim, the Senior Creditors would have been entitled to receive, so that the Holder receives, for each Note it holds, an amount equal to the amount it would have received if, in the winding-up of ANZ, it had held an issued and fully paid Preference Share.

9.2 No charge

Nothing in clause 9.1 or clause 9.3 shall be taken to:

- (a) create a charge or security interest on or over any right of the Holder; or
- (b) require the consent of any Senior Creditor to any amendment of these Note Terms made in accordance with clause 14.

9.3 Agreements of Holders as to subordination

Each Holder irrevocably agrees:

- (a) that clause 9.1 is a debt subordination for the purposes of section 563C of the Corporations Act;
- (b) that it does not have, and waives to the maximum extent permitted by law, any entitlement to interest under section 563B of the Corporations Act to the extent that a holder of a Preference Share would not be entitled to such interest;
- (c) not to exercise any voting or other rights as a creditor in the winding-up of ANZ in any jurisdiction:
 - (i) until after all Senior Creditors have been paid in full; or
 - (ii) otherwise in a manner inconsistent with the subordination contemplated by clause 9.1;
- (d) that it must pay or deliver to the liquidator any amount or asset received on account of its claim in the winding-up of ANZ in respect of a Note in excess of its entitlement under clause 9.1; and
- (e) that the debt subordination effected by clause 9.1 is not affected by any act or omission of ANZ or a Senior Creditor which might otherwise affect it at law or in equity.

9.4 Calculations and rounding of payments

Unless otherwise specified in these Note Terms:

- (a) all calculations of amounts payable in respect of a Note will be rounded to four decimal places; and
- (b) for the purposes of making payment to a Holder in respect of the Holder's aggregate holding of Notes, any fraction of a cent will be disregarded.

9.5 No set-off or offsetting rights

A Holder:

- (a) may not exercise any right of set-off against ANZ in respect of any claim by ANZ against that Holder; and
- (b) will have no offsetting rights or claims on ANZ if ANZ does not pay a Distribution when scheduled under the Note Terms. ANZ may not exercise any right of set-off against a Holder in respect of any claim by that Holder against ANZ.

9.6 No security

Notes are unsecured.

9.7 Shortfall on winding-up

If, upon a return of capital on a winding-up of ANZ, there are insufficient funds to pay in full the Face Value and the amounts payable in respect of any other instruments in ANZ ranking equally with Notes on a winding-up of ANZ, Holders and the holders of any such other instruments will share in any distribution of assets of ANZ in proportion to the amounts to which they are entitled respectively.

9.8 No other claim

Notes do not confer on the Holders any claim on ANZ in a winding-up beyond payment of the Face Value.

9.9 Power of Attorney

- (a) Each Holder appoints each of ANZ, its officers and any External Administrator of ANZ (each an Attorney) severally to be the attorney of the Holder with power in the name and on behalf of the Holder to sign all documents and transfers and do any other thing as may in the Attorney's opinion be necessary or desirable to be done in order for the Holder to observe or perform the Holder's obligations under these Note Terms including, but not limited to, effecting any transfer or Conversion of Notes, making any entry in the Register or exercising any voting power in relation to any consent or approval required for Conversion, Redemption or Resale or in respect of an Approved NOHC Event or the transfer of Notes to an Approved NOHC as contemplated by clause 14.2.
- (b) The power of attorney given in this clause 9.9 is given for valuable consideration and to secure the performance by the Holder of the Holder's obligations under these Note Terms and is irrevocable.

9.10 Holder acknowledgments

Each Holder irrevocably:

- (a) upon Conversion of a Note in accordance with clause 6, consents to becoming a member of ANZ and agrees to be bound by the Constitution, in each case in respect of the Ordinary Shares issued on Conversion (or, where an Approved NOHC Substitution Notice has been given, consents to becoming a member of that Approved NOHC and agrees to be bound by its constitution);
- (b) acknowledges and agrees that an Approved NOHC may be substituted for ANZ as provider of ordinary shares on Conversion and that if such a substitution is effected on the terms provided by the amendment in accordance with clause 14.2, the Holder is obliged to accept ordinary shares in that Approved NOHC on a Conversion, and will not receive Ordinary Shares;
- (c) acknowledges and agrees that any amendment made in accordance with clause 14.2 to effect the substitution of an Approved NOHC as the issuer of ordinary shares on Conversion does not require the consent of Holders;
- (d) acknowledges and agrees that it is obliged to accept ordinary shares upon a Conversion notwithstanding anything that might otherwise affect a Conversion of Notes including:
 - (i) any change in the financial position of ANZ or any Approved NOHC since the Issue Date;
 - (ii) any disruption to the market or potential market for the ordinary shares or to capital markets generally;

- (iii) any breach by ANZ or any Approved NOHC of any obligation in connection with Notes; and
- (iv) any dispute as to the calculation of the Common Equity Capital Ratio or the occurrence of a Non-Viability Trigger Event;
- (e) acknowledges and agrees that:
 - (i) where clause 4.8 applies, there are no other conditions to Conversion occurring as and when provided in clauses 4.5 to 4.9 (inclusive);
 - (ii) the only conditions to a Mandatory Conversion are the Mandatory Conversion Conditions;
 - (iii) the only conditions to a Conversion pursuant to clause 4.10 or on account of an Exchange under clause 5 are the conditions expressly applicable to such Conversion as provided in clauses 4.10 and 5 of these Note Terms and no other conditions or events will affect Conversion; and
 - (iv) the Holder should not expect that APRA's approval will be given for any Exchange of Notes under the Note Terms;
- (f) agrees to provide to ANZ any information necessary to give effect to a Conversion and, if applicable, to surrender any certificate relating to the Notes on the occurrence of the Conversion;
- (g) acknowledges and agrees that a Holder has no right to request an Exchange; and
- (h) acknowledges it has no remedies on account of a failure by ANZ to issue Ordinary Shares in accordance with clause 6 other than (and subject always to clause 4.9) to seek specific performance of the obligation to issue the Ordinary Shares.

9.11 No other rights

- (a) Notes do not confer any claim on ANZ except as set out in these Note Terms.
- (b) Notes do not confer on Holders any right to subscribe for new securities in ANZ or to participate in any bonus issues of securities of ANZ.
- (c) Nothing in these Note Terms prevents ANZ from:
 - (i) issuing securities of any kind (whether ranking equally with, in priority to or junior to or having different rights from the Notes);
 - (ii) except as provided in clause 3.7, redeeming, buying back, converting, returning capital on or converting any securities, other than the Notes; or
 - (iii) the incurring or guaranteeing by ANZ of any indebtedness upon such terms as ANZ thinks fit in its sole discretion.

9.12 CHESS

The Notes will be entered in and dealt with in CHESS. While the Notes remain in CHESS:

- (a) the rights and obligations of a person holding Notes; and
- (b) all dealings (including transfers and payments) in relation to the Notes within CHESS,

will be subject to and governed by the ASX Settlement Operating Rules (but without affecting any provisions in these Note Terms which may affect the eligibility of the Notes as Additional Tier 1 Capital).

No certificates will be issued to Holders unless ANZ determines that certificates should be available or are required by law.

9.13 Independent obligations

Each entry in the Register constitutes a separate and individual acknowledgement to the relevant Holder of the indebtedness of ANZ to the relevant Holder. The Holder to whom those obligations are owed is entitled to enforce them without having to join any other Holder or any predecessor in title of a Holder.

10 VOTING AND OTHER RIGHTS

10.1 Meetings

Meetings of Holders may be held in accordance with the Meeting Provisions. A meeting may consider any matter affecting the interests of Holders, including any amendment to these Note Terms proposed by ANZ in accordance with clause 14.

10.2 No voting

Notes do not confer on Holders a right to vote at any meeting of members of ANZ.

10.3 No right to apply for the winding-up of ANZ

Each Holder acknowledges and agrees that a Holder has no right to apply for ANZ to be wound up, or placed in administration, or to cause a receiver, or a receiver and manager, to be appointed in respect of ANZ in any jurisdiction merely on the grounds that ANZ does not pay a Distribution when scheduled in respect of Notes.

10.4 No events of default

Each Holder acknowledges and agrees that these Note Terms contain no events of default. Accordingly (but without limitation) failure to pay in full, for any reason, a Distribution on the scheduled Distribution Payment Date will not constitute an event of default.

11 APPROVED NOHC EVENTS AND SUBSTITUTION

11.1 ANZ may give Approved NOHC Substitution Notice

If:

- (a) an Approved NOHC Event is proposed to occur; and
- (b) the Approved NOHC agrees for the benefit of Holders:
 - (i) to deliver Approved NOHC Ordinary Shares under all circumstances when ANZ would have otherwise been obliged to deliver Ordinary Shares on a Conversion, subject to the same terms and conditions as set out in these Note Terms as amended by this clause 11; and
 - (ii) to use all reasonable endeavours and furnish all such documents, information and undertakings as may be reasonably necessary in order to procure quotation of all Approved NOHC Ordinary Shares issued under these Note Terms (with all necessary modifications) on the securities exchanges on which the other Approved NOHC Ordinary Shares are quoted at the time of a Conversion,

ANZ may give a notice (an **Approved NOHC Substitution Notice**) to Holders (which, if given, must be given as soon as practicable before the Approved NOHC Event and in any event no later than 10 Business Days before the Approved NOHC Event occurs) specifying the amendments to these Note Terms which will be made in accordance with clause 14.2 to effect the substitution of an Approved NOHC as the issuer of ordinary shares on Conversion (the **Approved NOHC Substitution Terms**).

An Approved NOHC Substitution Notice, once given, is irrevocable.

11.2 Consequences of Approved NOHC Substitution Notice

If ANZ gives an Approved NOHC Substitution Notice to Holders in accordance with clause 11.1, the Approved NOHC Substitution Terms will have effect on and from the date specified in the Approved NOHC Substitution Notice.

11.3 No obligation to Substitute

A Holder has no right to require ANZ to give an Approved NOHC Substitution Notice.

12 NOTICES

12.1 Notices to Holders

All notices, certificates, consents, approvals, waivers and other communications in connection with a Note to the Holders must be in writing and may be:

- (a) sent by prepaid post (airmail if appropriate) or left at the address of the relevant Holder (as shown in the Register at the close of business on the day which is 3 Business Days before the date of the relevant notice or communication) or sent by email to the email address (if any) nominated by that person;

- (b) given by an advertisement published in the Australian Financial Review or The Australian; or
- (c) in the case of a Non-Conversion Notice, a Deferred Conversion Notice, a Deferred Change of Control Conversion Notice, an Exchange Notice, a Change of Control Conversion Notice, a Trigger Event Notice, an Adjustment Notice, an Approved NOHC Substitution Notice and an ANZ Details Notice, given to Holders by ANZ publishing the notice on its website and announcing the publication of the notice to ASX.

12.2 Non-receipt of notices by Holders

The non-receipt of a notice by a Holder or an accidental omission to give notice to a Holder will not invalidate the giving of that notice either in respect of that Holder or generally.

12.3 Notices to ANZ

All notices or other communications by a Holder to ANZ in respect of these Note Terms must be:

- (a) in legible writing or typing and in English;
- (b) addressed as shown below

Attention: Company Secretary
Australia and New Zealand
Banking Group Limited

Address: ANZ Centre Melbourne
Level 9, 833 Collins Street
Docklands 3008 Victoria Australia
Email address: cosec@anz.com

or to such other address or email address as ANZ notifies to Holders as its address or email address (as the case may be) for notices or other communications in respect of these Note Terms from time to time (an **ANZ Details Notice**);

- (c) signed by the person making the communication or by a person duly authorised by that person; and
- (d) delivered or posted by prepaid post to the address, or sent by email to the email address, specified in clause 12.3(b).

12.4 Receipt

A notice or other communication will be taken to be received:

- (a) if sent by email, the earlier of:
 - (i) the time when the sender receives confirmation of receipt from the intended recipient or an automated message confirming delivery; and
 - (ii) four hours after the time sent (as recorded on the device from which the sender sent the email) (or, if sent on a day that is not a Business Day or after 5:00pm (Melbourne time), 9:00am (Melbourne time) on the next Business Day) unless the sender receives an automated message that the email has not been delivered;
- (b) if sent by post, six Business Days after posting if posted to an address in Australia and 10 Business Days after posting if posted to an address outside of Australia;

- (c) if published by an announcement on ASX, when the announcement is made on ASX; and
- (d) if published in a newspaper, on the first date that publication has been made in the chosen newspaper.

13 PAYMENTS

13.1 Payments to Holders on the Record Date

Distributions are only payable on a Distribution Payment Date to those persons registered as Holders on the Record Date for that Distribution payment.

13.2 Manner of payment to Holders

Payments will be made by ANZ in its absolute discretion by:

- (a) crediting on the relevant payment date the amount due to an Australian dollar bank account maintained in Australia with a financial institution (excluding credit card accounts), notified by the Holder to the Registry by close of business on the Record Date in respect of that payment; or
- (b) at ANZ's option if no such account is notified, by sending a cheque through the post at the Holder's risk directed to:
 - (i) the address of the Holder (or in the case of a jointly held Note, the address of the joint Holder named first in the Register); or
 - (ii) to any other address the Holder (or in the case of a jointly held Note, all the joint Holders) directs in writing.

A cheque sent through the post on or before the date for payment is taken to have been received on the payment date.

13.3 Uncompleted payments

If:

- (a) a Holder has not notified the Registry of an Australian dollar bank account maintained with a financial institution (excluding credit card accounts) to which payments in respect of the Notes may be credited; or
- (b) the transfer of any amount for payment to the credit of the nominated account does not complete for any reason, the amount of the uncompleted payment will be held in a special purpose account maintained by ANZ or the Registry until:
 - (i) the Holder nominates a suitable Australian dollar account maintained in Australia with a financial institution to which the payment may be credited or ANZ elects to pay the amount by cheque;
 - (ii) ANZ determines as permitted by clause 13.4 to refuse any claim in respect of that amount in which case ANZ may treat that amount as its own; or
 - (iii) ANZ is entitled or obliged to deal with the amount in accordance with the law relating to unclaimed moneys.

Where this clause 13.3 applies the amount payable in respect of the Notes shall be treated as having been paid on the date scheduled for payment. A Holder is not entitled to any interest in respect of the account in which uncompleted payments are held or in respect of any delay in payment.

13.4 Time limit on claims

ANZ is entitled to refuse any claim against it for a payment under a Note where the claim is made more than 10 years (in the case of Face Value) or 5 years (in the case of Distributions and other amounts) from the date on which payment first became due.

13.5 Determination and calculation final

Except where there is fraud or a manifest error, any determination or calculation which ANZ makes in accordance with these Note Terms is final and binds ANZ, the Registry and each Holder.

13.6 Payment to joint Holders

A payment to any one of joint Holders will discharge ANZ's liability in respect of that payment.

13.7 Payment on Business Days

If a payment is to be made to an account on a Business Day on which banks are not open for business in the place the account is located, payment will be made on the next day on which banks are open for business in that place, and no additional interest is payable in respect of that delay in payment. Nothing in this clause applies to any payment referred to in clause 6.1(b).

13.8 No interest accrues

No interest accrues on any unpaid amount in respect of any Note.

13.9 Payments subject to law

All payments are subject to applicable law.

13.10 Taxation deductions and withholdings

ANZ or the Purchaser, as applicable, may make any deduction or withholding from any amount payable in respect of the Notes (or upon or with respect to the issue of any Ordinary Shares upon a Conversion), as required by law or any agreement with a governmental authority. If any such deduction or withholding has been paid to the relevant governmental authority and the balance paid (or, in the case of a Conversion, Ordinary Shares issued) to the relevant Holder, then the full amount payable (or, in the case of a Conversion, the Conversion Number of Ordinary Shares) to such Holder shall be deemed to have been duly paid and satisfied (or, in the case of a Conversion, issued) by ANZ or the Purchaser, as applicable.

If any withholding or deduction arises, ANZ or the Purchaser, as applicable, will not be required to pay any further amounts or issue any further Ordinary Shares on account of such withholding or deduction or otherwise reimburse or compensate, or make any payment to, a Holder or a beneficial owner of Notes for or in respect of any such withholding or deduction.

13.11 FATCA

Without limiting clause 13.10, ANZ or the Purchaser, as applicable, may withhold or make deductions from payments or from the issue of Ordinary Shares to a Holder where it is required to do so under or in connection with FATCA, or where it has reasonable grounds to suspect that the Holder or a beneficial owner of Notes may be subject to FATCA, and may deal with such payment and any Ordinary Shares in accordance with FATCA. If any withholding or deduction arises under or in connection with FATCA, ANZ will not be required to pay any further amounts or issue any further Ordinary Shares on account of such withholding or deduction or otherwise reimburse or compensate, or make any payment to, a Holder or a beneficial owner of Notes for or in respect of any such withholding or deduction.

ANZ, in its absolute discretion, may require information from a Holder to be provided to any relevant authority, to determine the applicability of any withholding under or in connection with FATCA.

13.12 Tax File Number

Without limiting clause 13.10, ANZ will, if required, withhold an amount from payments of Distributions on the Notes at the highest marginal tax rate plus the highest Medicare levy if a Holder has not supplied an appropriate tax file number, Australian business number or exemption details.

14 AMENDMENT OF THESE NOTE TERMS

14.1 Amendment without consent

Subject to complying with all applicable laws and clause 14.4, ANZ may amend these Note Terms without the authority, assent or approval of Holders where the amendment in the reasonable opinion of ANZ:

- (a) is made to correct a manifest error;
- (b) is of a formal, minor or technical nature;
- (c) is necessary to comply with any law, the provisions of any statute or the requirements of any statutory authority;
- (d) is made in accordance with ANZ's adjustment rights in clause 6;
- (e) is expedient for the purpose of enabling the Notes to be listed or to remain listed on a securities exchange (including, without limitation, in connection with any change in the principal securities exchange on which Ordinary Shares are listed) or lodged in a clearing system or to remain lodged in a clearing system or to be offered for sale or for subscription under the laws for the time being in force in any place;
- (f) amends any date or time period stated, required or permitted in connection with any Mandatory Conversion or Exchange in a manner necessary to facilitate the Mandatory Conversion or Exchange; or
- (g) in any other case, will not materially adversely affect the rights of Holders as a whole.

14.2 Amendment without consent for Substitution of an approved NOHC

Subject to complying with all applicable laws and clause 14.4, if the circumstances described in clauses 11.1(a) and 11.1(b) apply, without the authority, assent or approval of Holders, ANZ may give an Approved NOHC Substitution Notice which:

- (a) amends the definition of "Conversion" in clause 6 such that, unless APRA otherwise agrees, on the date Notes are to be Converted:
 - (i) each Note that is being Converted will be automatically transferred by each Holder free from Encumbrance to the Approved NOHC on the date the Conversion is to occur;
 - (ii) each Holder (or nominee where clause 6.10 applies) will be issued a number of Approved NOHC Ordinary Shares equal to the Conversion Number; and
 - (iii) as between ANZ and the Approved NOHC each Note held by the Approved NOHC as a result of the transfer will be automatically Converted into Ordinary Shares in a number such that the total number of Ordinary Shares held by the Approved NOHC increases by the number which equals the number of Approved NOHC Ordinary Shares issued by the Approved NOHC to Holders on Conversion; and
- (b) makes such other amendments as in ANZ's reasonable opinion are necessary and appropriate to effect the substitution of an Approved NOHC as the provider of the ordinary shares on Conversion in the manner contemplated by these Note Terms and consistent with the requirements of APRA in relation to Additional Tier 1 Capital, including without limitation:
 - (i) amendments and additions to the definition of "ANZ Group", "Franking Rate", "Ordinary Shares", "Regulatory Event" and "Tax Event";
 - (ii) amendments to the mechanics for adjusting the Conversion Number; and
 - (iii) any term defining the rights of Holders if the Conversion is not effected which is appropriate for the Notes to remain as Tier 1 Capital.

14.3 Amendment with consent

Without limiting clause 14.1 or clause 14.2, but subject to clause 14.4, ANZ may amend these Note Terms if the amendment has been approved by a Special Resolution.

14.4 APRA approval

No amendment to these Note Terms is permitted without APRA's prior written approval if such amendment may affect the classification of Notes as Additional Tier 1 Capital on a Level 1, Level 2 or (if applicable) Level 3 basis. This applies regardless of whether such amendment would require Holder approval.

14.5 Meanings

In this clause 14, amend includes modify, cancel, alter or add to, and amendment has a corresponding meaning.

15 QUOTATION ON ASX

ANZ must use all reasonable endeavours and furnish all such documents, information and undertakings as may be reasonably necessary in order to procure, at its own expense, quotation of the Notes on ASX.

16 GOVERNING LAW AND JURISDICTION

16.1 Governing law

The Notes and these Note Terms are governed by and shall be construed in accordance with the laws in force in the State of Victoria, Australia.

16.2 Jurisdiction

ANZ has irrevocably agreed for the benefit of the Holders that the courts of Victoria, Australia are to have non-exclusive jurisdiction to settle any disputes which may arise out of or in connection with the Notes and accordingly has submitted to the non-exclusive jurisdiction of the courts of Victoria, Australia. ANZ waives any objection to the courts of Victoria, Australia on the grounds that they are an inconvenient or inappropriate forum.

16.3 Service of process

ANZ agrees that process in connection with any proceedings in Victoria, Australia may be served at the principal office of ANZ, which, as at the Issue Date is located at ANZ Centre Melbourne, Level 9, 833 Collins Street, Docklands 3008 Victoria, Australia. Nothing in these Note Terms affects the right to serve process in any other manner permitted by law.

17 INTERPRETATION AND DEFINITIONS

17.1 Interpretation

- (a) Unless otherwise specified, a reference to a clause is a reference to a clause of these Note Terms.
- (b) If a calculation is required under these Note Terms, unless the contrary intention is expressed, the calculation will be rounded to four decimal places.
- (c) Any provisions which refer to the requirements of APRA or any other prudential regulatory requirements will apply to ANZ only if ANZ is an entity, or the holding company of an entity, or is a direct or indirect Subsidiary of a NOHC, subject to regulation and supervision by APRA at the relevant time.
- (d) Any provisions which require APRA's consent or approval will apply only if APRA requires that such consent or approval be given at the relevant time.
- (e) Any provisions in these Note Terms requiring the prior approval of APRA for a particular course of action to be taken by ANZ do not imply that APRA has given its consent or approval to the particular action as of the Issue Date.
- (f) A reference to any term defined by APRA (including, without limitation, "Common Equity Tier 1 Capital", "Level 1", "Level 2", "Level 3", "Additional Tier 1 Capital", "Tier 1 Capital" and "Tier 1 Capital Ratio") shall, if that term is replaced or superseded in any of APRA's applicable prudential regulatory requirements or standards, be taken to be a reference to the replacement or equivalent term.
- (g) The terms takeover bid, relevant interest, scheme of arrangement and buy-back when used in these Note Terms have the meaning given in the Corporations Act.
- (h) Headings and boldings are for convenience only and do not affect the interpretation of these Note Terms.
- (i) The singular includes the plural and vice versa.
- (j) A reference to a statute, ordinance, code or other law includes regulations and other instruments under it and consolidations, amendments, re-enactments or replacements of any of them.
- (k) Other than in relation to a Trigger Event and a Conversion on a Trigger Event Conversion Date, if an event under these Note Terms must occur on a stipulated day which is not a Business Day, then the stipulated day will be taken to be the next Business Day.
- (l) A reference to dollars, A\$, \$ or cents is a reference to the lawful currency of Australia.
- (m) A reference to a term defined by the ASX Listing Rules, the ASX Settlement Operating Rules or the ASX Operating Rules shall, if that term is replaced in those rules, be taken to be a reference to the replacement term.

- (n) If the principal securities exchange on which Ordinary Shares are listed becomes other than ASX, unless the context otherwise requires a reference to ASX shall be read as a reference to that principal securities exchange and a reference to the ASX Listing Rules, the ASX Settlement Operating Rules, the ASX Operating Rules or any term defined in any such rules, shall be read as a reference to the corresponding rules of that exchange or corresponding defined terms in such rules (as the case may be).
- (o) Calculations, elections and determinations made by ANZ under these Note Terms are binding on Holders in the absence of manifest error.
- (p) So long as the Notes are quoted on ASX and in CHES, the Note Terms are to be interpreted in a manner consistent with the ASX Listing Rules and ASX Settlement Operating Rules except to the extent that an interpretation consistent with those rules may affect the eligibility of the Notes as Additional Tier 1 Capital.
- (q) A reference to Australia includes any political subdivision of, or authority in, the Commonwealth of Australia.

- (a) the Income Tax Assessment Act 1936 (Cth) or the Income Tax Assessment Act 1997 (Cth) as the case may be and a reference to any Section of the Income Tax Assessment Act 1936 (Cth) includes a reference to that Section as rewritten in the Income Tax Assessment Act 1997 (Cth);
- (b) any other law setting the rate of income tax payable and any regulation promulgated under it; and
- (c) any regulation made under any of those laws.

Tax Event means the receipt by the Directors of an opinion from a reputable legal counsel or other tax adviser in Australia experienced in such matters to the effect that, as a result of:

- (a) any amendment to, clarification of, or change (including any announcement of a change that will be introduced) in, the laws or treaties or any regulations affecting taxation in Australia;
- (b) any judicial decision, official administrative pronouncement, published or private ruling or advice (including a failure or refusal to provide a ruling or advice), regulatory procedure, notice or announcement (including any notice or announcement of intent to adopt such procedures or regulations) affecting taxation in Australia (Administrative Action);
- (c) any amendment to, clarification of, or change in, an Administrative Action that provides for a position that differs from the current generally accepted position; or
- (d) a challenge asserted or threatened in writing by the Australian Taxation Office or other relevant taxing authority in Australia in connection with the Notes,

in each case, by any legislative body, court, governmental authority (including, without limitation, a tax authority) or regulatory body in Australia, irrespective of the manner in which such amendment, clarification, change or Administrative Action is made known, which amendment, clarification, change or Administrative Action is effective, or which pronouncement or decision is announced, on or after the Issue Date and which on the Issue Date is not expected by ANZ to come into effect, there is more than an insubstantial risk which the Directors determine (having received all approvals they consider in their absolute discretion to be necessary (including from APRA)) at their absolute discretion to be unacceptable that:

- (i) ANZ or another member of the ANZ Group would be exposed to more than a de minimis adverse tax consequence or increased cost (including without limitation through the imposition of any taxes, duties, assessments or other charges) in relation to Notes; or
- (ii) ANZ would not be entitled to treat any Distribution as a frankable distribution within the meaning of Division 202 of the Tax Act (or would only be able to do so subject to requirements which the Directors determine, in their absolute discretion, to be unacceptable).
