# Investment Option Summary

ANZ Smart Choice - Growth

## 31 December 2023

## Description

This investment option is designed for investors who want to invest over the longer term with a medium to high level of risk. This investment option invests in a mix of defensive and growth assets with a dominant bias to growth assets.

# **Investment return objective**

Aims to achieve returns (after fees, charges and taxes) that on average exceed inflation by at least 3.0% p.a.<sup>#</sup>, over rolling 10 year periods.

### **Investment strategy**

Invests in a combination of defensive and growth asset classes. The allocation to growth assets will range between 50–90% with a neutral allocation of 70%. The allocation to defensive assets will range between 10–50% with a neutral allocation of 30%. Additionally, an active asset allocation process is utilised to increase or decrease your exposure to relevant asset classes within permitted ranges. This process is designed to optimise investment performance by adjusting allocations to markets/asset classes we believe will perform strongly or poorly in the future.
