APPENDICES

Capital and Profit & Loss Impact

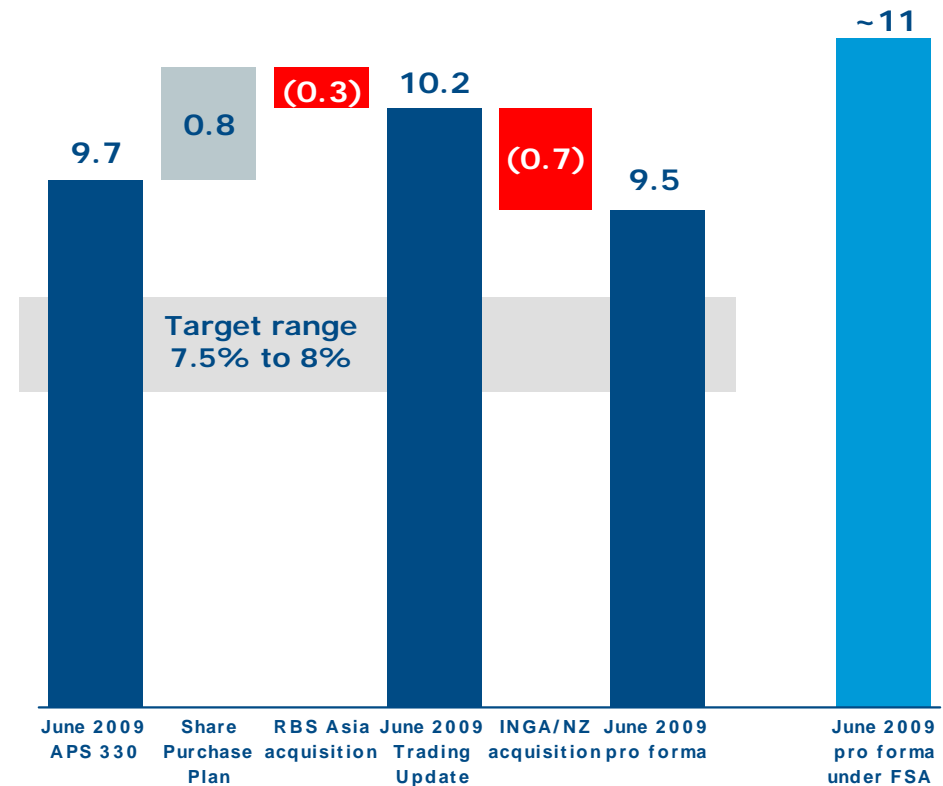

Capital Impact

- Estimated impact on Tier 1 capital is \$(1.9) billion
- Equivalent to ~ (70) basis points
- Tier 1 Capital impact reflects:
 - 51% interest acquired in the intangible assets (Tier 1 deduction) and tangible assets (50/50 Tier 1 and Tier 2 deduction) of the Joint Ventures; plus,
 - Reversal of the current capital treatment for the 49% interest in the JVs' intangible assets which are effectively a 50/50 deduction – now becomes a 100% Tier 1 deduction

Profit & Loss Impact

- Under a newly revised accounting standard, ANZ will be required to write down the carrying value of the existing 49% holding based on the fair value of the 51% being acquired
- This will result in a non-cash charge of around \$130 -150m in 2010
