1. Welcome

The ANZ FastPay for iPhone (iOS 7) Merchant Operating Guide will provide you with information describing how the app operates.

1.1 Merchant Agreement

Your ANZ Merchant Agreement contains valuable information and important requirements relating to operating procedures. This Merchant Operating Guide forms part of the ANZ Merchant Agreement and may be varied or replaced by ANZ at any time.

ANZ strongly recommends that you follow the security checks and procedures in this guide to assist in identifying and minimising fraudulent, invalid or unacceptable Transactions.

ANZ may conduct an investigation if a Transaction is believed to be fraudulent. The operators of the applicable card schemes may also conduct their own investigations. Your Merchant Agreement outlines the circumstances in which you will be liable for such Transactions. If it is found that you have processed invalid or unacceptable Transactions, you may be liable for the value of those Transactions. Please refer to ANZ FastPay General Conditions for more details.

1.2 Contact Details

If you would like any help or are experiencing any issues with ANZ FastPay, please call the ANZ Merchant Contact Centre on 1800 039 025 (24 hours a day, 7 days a week) or email merchant@anz.com

1.3 How to Get Started

Simply download ANZ FastPay from the Apple App Store and tap the 'Apply' button from within the app to access the online application form. Once your application form is submitted, ANZ will process it and, if approved:

1. You'll first be sent an email from ANZ FastPay containing your login credentials (Client ID and Username)
2. Within 24 hours you will be sent an SMS with your Password.

Alternatively, you can complete the online application form on anz.com and then download the app once your application has been approved.

1.4 Authorisation

Your ANZ FastPay app is designed to automatically seek Authorisation from the cardholder's Card Issuer while processing a payment.

Authorisation confirms that the card number is a valid card number and that there are sufficient funds in the account. Despite a Transaction being 'authorised', the merchant bears the risk that the customer is not the true cardholder.

Authorisation does not amount to verification that the Transaction is genuine nor does it authenticate the customer.

Please note:

- Authorisation of the Transaction does not mean that the true cardholder has authorised the Transaction
- Authorisation does not protect the merchant from Chargebacks
- ANZ cannot guarantee that a Transaction has been conducted by the true cardholder.

1.4.1 Authorisation Declined

When an Authorisation is declined, please seek an alternative method of payment. If the customer cannot pay, the goods should be reclaimed. For goods that cannot be reclaimed (e.g. food items, petrol etc.), request photographic identification such as a Driver's Licence or take a description of the person and arrange with the customer to provide an alternative method of payment. If unsuccessful, report the incident to the Police.

1.5 Change of Business Details

ANZ FastPay General Conditions describes various situations in which you must notify us of a change to your circumstances.

Please visit anz.com/merchantconnect to complete and submit the relevant form or contact the ANZ Merchant Contact centre on 1800 039 025 if there are any changes to your:

- Business name and/or address
- Business type or activities including changes in the nature or mode of operation of your business
- Mailing address
- Ownership
- Bank/branch banking details
- Telephone or fax numbers
- Industry
- Email address

Should your business be sold, cease to trade or no longer require an ANZ Merchant Facility, please contact the ANZ Merchant Contact Centre on 1800 039 025.

The ANZ Merchant Services General Conditions sets out your obligations when your business is sold, ceases to trade or no longer requires an ANZ Merchant Facility.

Please note that it is the authorised Merchant's responsibility to ensure that the Merchant Facility is closed by contacting ANZ Merchant Services. Failure to do so may result in the continual charge of Fees in accordance with the ANZ Merchant Services FastPay General Conditions.

2. Cards You Can Accept

ANZ FastPay currently has no cheque or savings option or the ability to accept customer PINs or Signatures.

Accepted cards types are:

- **Credit Cards**
ANZ FastPay can accept credit cards (MasterCard® and Visa) to access customer's credit card accounts.
- **Debit Cards (Card schemes issued)**
ANZ FastPay can accept scheme issued debit cards such as Visa and MasterCard.
- **Charge Cards (American Express and Diners Club only)**

Processing charge cards is essentially the same as processing credit card Transactions. To accept charge cards, you must have an agreement with the charge card Issuer (eg. Diners Club and American Express).

For information on American Express card acceptance visit www.americanexpress.com.au/merchant or call 1300 969 614 (option 4) and for Diners Club card acceptance visit www.dinersclub.com.au or call 1300 360 060.

3. Fraud Minimisation

Before commencing any Transactions, please take time to read through the Fraud Minimisation, Data Security and Chargeback guide at anz.com. This guide will provide detailed fraud information to assist you in protecting your business.

3.1 Card Present Checklist

How to Safeguard Against Fraud:

- Do not allow the app to be used by unauthorised persons
- Do not divulge cardholder information (e.g. card names or nnumbers).

Be alert for customers acting suspicious or who:

- Appear nervous, overly talkative or in a hurry
- Arrive on closing time
- Try to rush you or distract you
- Carry the card loose or by itself
- Have no means of identification
- Make purchases without regard to size, quality or price of goods
- Ask to split Transactions into smaller amounts.

What to do if you are suspicious of a Transaction:

- Ask for photographic identification (e.g. Driver's Licence or passport) and ensure that the details match the cardholder's name

- For MasterCard and Visa Transactions, call the Authorisation Centre on 1800 999 205 (select option 1). You may be asked a series of 'YES' or 'NO' questions to help the operator determine whether you should proceed with the Transaction.

Remember:

- Don't risk it: If you remain suspicious about the Transaction, refund the credit Transaction and ask your customer for a direct deposit or some other form of payment (particularly for large value sales).

NOTE: Never place yourself at risk - your safety comes first. Please report all fraudulent activities to the Police immediately.

Split Ticket Transactions

A Transaction may be deemed invalid and charged back to you if, in ANZ's reasonable opinion, it relates to one or more purchases made in the same merchant establishment which have been split into two or more Transactions.

3.2 Fraud Minimisation for Cards

The following checks are vital in helping you identify and minimise fraudulent card Transactions via your ANZ Merchant Facility.

Before commencing any Transaction:

- Confirm that you are authorised to accept that particular card
- Check whether the card appears damaged or altered.

Check on the front of the card that:

- The name on the card is appropriate to the customer. Identity theft may have occurred if you are presented with a card containing the name of a cartoon character, a feminine name on a card presented by a male or other questionable scenarios
- The printing on the card should look professional
- The card must have current validity dates (a card can only be used from the first day of the 'valid from' month to the last day of the 'until end' month)
- Cards should look 3-dimensional and contain familiar security features such as a hologram, signature panel and CVC (explanation to follow). It should not appear suspicious or be made of inferior material.

Embossed Cards:

- The cardholder name and number should be raised and not flattened (unless it is a genuine unembossed card)
- The first four digits of the embossed number must match the pre-printed four digits on the card
- The embossing should be clear and even.

Unembossed Cards:

- A cardholder name may or may not be included
- Can be used for hand keyed Transactions
- The cardholder name and number are printed rather than raised.

Check the signature during the Transaction:

- A signature should appear within the signature panel on the card
- The signature or signature panel should not appear to have been altered.

Card Validation Code (CVC):

The Card Validation security feature is mandatory in all ANZ FastPay Transactions

Turn the cardholder's card over and locate the last 3-digits of the number printed on the signature panel.

3.3 Cards Left at Premises

From time to time customers may accidentally leave their cards behind at your premises. To ensure any potential fraud is minimised and to better align with broader industry practices, a change to the existing handling process is required.

Upon discovering a card left at your premises, you are to perform the following tasks:

- Retain the card in a safe place for a period of up to two business days;
- Hand the card to the customer claiming the card only after having established the claimant's identity by comparing signatures; and
- If the requisite two business days have passed, destroy the card. Should the cardholder enquire about their missing card, instruct them to contact their issuing institution.

3.4 Chargebacks

A Chargeback is the term used for debiting a Merchant's bank account with the amount of a Transaction that had previously been credited. Chargebacks can have a financial impact on your business. It is important that you are fully aware of your obligations, the processes involved and possible outcomes. Please take time to carefully read through the Fraud Minimisation, Data Security and Chargeback guide at anz.com

Please refer to the ANZ FastPay General Conditions. You may be charged back for the value of a credit or debit (Card schemes-issued) card sale where you have failed to follow the Bank's procedures as stated in this Merchant Operating Guide or in the ANZ FastPay General Conditions.

NOTE: You must securely retain information about a Transaction whether processed manually or electronically for a period of 30 months from the date of the Transaction or such other period required by Law or notified by ANZ as detailed in ANZ FastPay General Conditions.

Chargebacks can occur for a number of reasons including a scenario where a Cardholder or their issuing bank justifiably disputes liability for the Transaction for any reason or where the Merchant fails to comply with its obligations under the Merchant Agreement in connection with the Transaction.

A Chargeback will also occur if a Retrieval Request is left unanswered or returned out of time by the merchant or if the supporting documentation supplied to the issuing bank is not acceptable. In most cases, the value of the disputed Transaction will be automatically debited from the merchant's account.

Chargebacks can occur due to:

- Processing errors
- Unauthorised use of a card
- Unauthorised Transactions
- Invalid card account number
- Incorrect Transaction amount
- Transactions performed on a lost or stolen card
- Failing to respond to a Retrieval Request
- Merchandise not received by purchaser or wrong goods sent.

NOTE: The examples given above are not an exhaustive list of the circumstances in which a Transaction may be charged back to you. Please refer to the ANZ FastPay General Conditions or your Merchant Agreement for further information on Chargebacks.

If you need assistance understanding a particular Chargeback, please contact the ANZ Merchant Contact Centre on 1800 039 025 (24 hours a day, 7 days a week).

4. Before you use ANZ FastPay

4.1 Limits

If you have a weekly limit with your merchant facility, this will be reset at midnight every Sunday night. For your weekly limit value please refer to your Letter of Offer.

The weekly limit allows you to process any value and any number of Transactions within the weekly limit amount.

The Weekly Sales Total in the Transaction listing screen is to help you track your sales progress.

Refunds processed within the current week will be deducted from the weekly limit.

4.2 Email Receipts

Receipts are emailed in real-time from the ANZ FastPay gateway for approved, declined and failed Transactions.

Receipts are in PDF printable format for your convenience.

Cardholders must be notified that receipts can only be provided by email. Should they not accept email they may choose to continue with the Transaction or pay with another form of payment.

Alternatively the Merchant copy may be printed and sent to the cardholder.

The Merchant email receipt may be either centralised to the office location to assist with reconciliation or sent to the device.

4.3 User Management

The ANZ FastPay app is set-up initially with the Primary user who has access to view all Transactions, process refunds and change preferences. Details on how to gain access to the app are listed in section 1.3.

The Primary user can then create additional users by calling the ANZ Merchant Contact Centre on 1800 039 025. Additional users can only view and refund Transactions processed with their username and are restricted from changing preferences.

To close user accounts, the primary user must contact the ANZ Merchant Contact Centre.

4.4 Additional Devices

If you wish to use the ANZ FastPay app on multiple devices you will need to create additional users on each device.

4.5 Passwords and PIN

The ANZ FastPay app will issue the activation password which is a combination of letters and numbers.

Once logged in you are prompted to create a 4 digit secure Personal Identification Number (PIN).

The PIN can be changed via the preferences screen.

If your PIN is entered incorrectly 3 times, the app will lock you out. Contact the Merchant Contact Centre to have this reset[^].

4.6 Forgotten PIN

If you have forgotten your PIN or password, contact the Merchant Contact Centre. You will be provided with a password which will allow you to create a PIN once you login.

[^] Only the Merchant Account owner may contact the Merchant Contact Centre to arrange password resets for additional users.

To see different functions available to users of ANZ FastPay, please view section 6 Using ANZ FastPay.

Tabs

Navigate to the 4 main functions of the app:

1. New Sale: make a Transaction
2. Transactions: view, search and refund Transactions
3. Preferences: change PIN, change email and manage profiles
4. Help: definitions, transaction status, how to and view demo.

6. Using ANZ FastPay™

6.1 Logging in to ANZ FastPay for the first time

1. The First Time Login screen allows a merchant to log into the system and set up their PIN; **this is only done the first time the app is launched**. The merchant must also provide their valid client ID, username and Password (previously provided by email and SMS).

2. First Time User PIN set up

3. PIN verification

6.2 Subsequent Login Screen

For subsequent logins, users only require the 4 digit PIN.

If you cannot remember your PIN, please select FORGOT MY PIN on the bottom left of the screen.

If you are not the user listed next to "Username" then you may switch to a different user profile by selecting SWITCH PROFILE from this screen.

6.2.1 FORGOT MY PIN Option

1.

2.

3.

Call the ANZ Merchant Contact Centre to have your Password reset. Select FORGOT MY PIN and enter the new Password into the app and then you will be prompted to create a new 4 digit secure PIN.

6.2.2 SWITCH PROFILE Option

1.

2.

3.

You may also SWITCH PROFILE to add or change between users.

1. Select SWITCH PROFILE
2. Scroll to selected user, and tap
3. New user can enter PIN.

6.2.3 Create a New User

You must first contact ANZ Merchant Services to create Additional Users. They will then be sent a Client ID, Username and Password as detailed in section 1.3. Once the user has been created refer to step 6.2.4 to add the user to your ANZ FastPay.

6.2.4 Add a New User

For more information on how to set up an additional user, please refer to section 4.3

6.3 Creating a New Sale

The New Sale screen allows the Merchant to create a New Sale by following the below steps:

1. Sale details

Merchant must enter the transaction or sale amount and optional description.

2. Card details

Merchant must enter the customer's card details. Merchant must check that the card number is correct when typing this into the app, as the full card number will not be displayed beyond this point for security reasons.

Log Out New Sale **Next**

Amount \$50.00

The receipt will appear as an attachment to the customer's email with the Merchant trading name contained in the subject line.

7. Confirm sale details are correct.

The system displays a confirmation screen and the Merchant can choose to **Confirm and Process Sale**.

8. Transaction Success/Fail

If the Transaction is successful a Sales Receipt Number will be displayed and Transaction status updated to **P – Approved Transaction**.

9. If the Transaction is unsuccessful a message will display and Transaction status updated to **D – Declined Transaction** or **F – Failed Transaction**.

If unsuccessful, please seek an alternative payment method.

For a full list of error messages please see Transaction Status in section 7.

6.4 View Transactions

The Transaction screen displays a list of the 25 most recent Transactions.

- The Weekly Merchant Total displayed at the top of the screen is Monday to Sunday
- The Weekly Merchant Total represents the aggregate weekly total for all users under the same Client ID, including transactions processed by secondary users
- To view more Transactions, scroll to the bottom of the screen and keep scrolling
- View the details of a Transaction by selecting an item from the list

Select a Transaction to view a detailed summary.

6.5 Search Transactions

1. You can also search Transactions from the main Transactions screen by selecting .

2. You can then search by Receipt Number, Cardholder name, Description* and/or Date Range (Search From, Search To).

- The Receipt Number is generated by the app and located on the receipt
- The Cardholder Name is the name on the card
- The Description may be the invoice number or description of Goods and Services sold
- The Date Range is the dates in which the transaction occurred. If a date is not selected all Transactions will be listed, 25 at a time. The most recent Transactions will appear first.

*ANZ FastPay search function will return results based on a combination of values. For example, a search for cardholder Anabelle Citizen between 1st July and 30th July 2012 will only show Transactions made during this time period.

6.6 Refund Transactions

Merchants can process a refund by selecting a Sale from the Transactions screen and pressing the **Refund** button. The merchant must provide their PIN to process a refund.

Once a refund is performed the current week's sales total will reduce by the refund amount.

1. Start by searching for the Transaction that you wish to refund.

The Primary owner of the Merchant facility can refund all transactions made on the device but additional users may only refund their own transactions.

2. Select Transaction record to show detail.

3. Press **Refund**.

6.7 Change User Details

By selecting the Preferences tab you can:

- Change your PIN
- Change your Email
- Manage Profiles
- View the Terms and Conditions

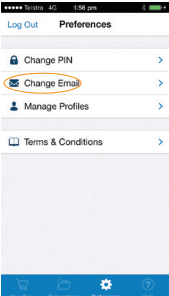

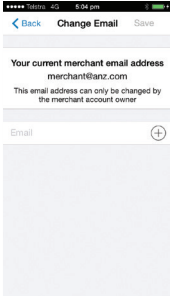

6.7.1 Change PIN

Merchants can change their 4 digit PIN via the Preferences tab.

(PIN must follow the ANZ PIN strength guidelines, i.e. cannot contain three or more consecutive repeats of same digit, or three or more consecutive numbers in ascending or descending sequence. Refer to Help section on page 23 for more detail.)

6.7.2 Change email address

- 1. 
-

Merchants can also change their Merchant email address via the Preferences tab.

This function can only be performed by the Primary User. Additional users can view the email, however attempts to change will result in an error message.

6.7.3 Manage Login Profiles

You may also delete the login profiles of users on each device. However users deleted from this list may still login. The Merchant account owner must contact the Merchant Contact Centre to close user accounts.

6.8 Help

The Help tab provides a range of detailed explanations and access to view the demo. For the full listing of Help topics please see section 7.

7. Errors and Troubleshooting

Help Topics

7.1 Definitions

No mobile reception

There is insufficient mobile reception to complete the Transaction. Try the Transaction again when mobile reception is available.

Stronger PIN Required

- The PIN must be four (4) numeric characters
- The PIN cannot contain three or more consecutive repeats of the same character.

For example, 2232 is valid but 2223 is invalid.

- The PIN cannot contain three or more consecutive numbers in an ascending or descending sequence. For example, 1234, 4321, 2341 and 3214 would be invalid.
- The following 'common' PIN sequences are not allowed; 2580, 0852, 1397 & 1793.

Weekly Transaction Limit Exceeded

Your weekly Transaction limit of \$2,000 has been reached. The Transaction limit is reset at midnight each Sunday. Please seek another form of payment.

If you would like to increase your weekly Transaction limit, please contact ANZ Merchant Contact Centre on 1800 039 025 to discuss your options.

Receipt Email Not Received

Confirm the Transaction was successfully processed by viewing the Transaction listing. If it is not in the Transaction list then an email will not have been generated. Check the Merchant email address via the Preferences tab. Update if incorrect. If Cardholder has not received the email receipt, locate the Merchant copy and forward to the customer.

7.2 Transaction Status

Approved Transaction

Transaction successful. The cardholder has been debited.

Declined Transaction

Transaction not successful. The cardholder has not been debited; refer cardholder to their issuing bank.

Failed Transaction

Transaction not successful. The cardholder has not been debited, please retry.

Refund Approved

Refund successful. The cardholder has been credited.

Refund Declined

Refund not successful. The cardholder has not been credited; refer cardholder to their issuing bank.

Refund Failed

Not successful. The cardholder has not been credited; please retry.

Unknown

Check the Transaction history section to see if the transaction has been processed. If not, please retry.

7.3 How to

Process a refund

A sale can be refunded by selecting the approved Transaction from the Transactions tab. A full or partial refund can be performed. You can only refund up to the maximum amount of the original Transaction value. You must enter your PIN to process a refund.

Unlock user

If a user's account has been locked, the Merchant Account Owner must call ANZ on 1800 039 025 to reset the user. The user will be required to immediately set their PIN upon login.

Log out

To log out of the ANZ FastPay app, select the Log Out button. Once logged out, all ANZ FastPay data is removed from the device.

Manage weekly Transaction limit

The weekly Transaction limit, if applicable, is reset at midnight each Sunday. The weekly limit is applicable to the Merchant and not to each individual user. Refer to the Weekly Sales Total on the Transaction screen to view the current weekly total.

Process approved card types

All merchants can process Visa and MasterCard Credit or Debit Cards. American Express and Diners Club cards can only be accepted if you have entered a separate arrangement directly with those companies.

Upgrades or App Re-installation

Whenever upgrades are available, you are required to regularly update the app, however all Transaction history will be retained.

Request additional users

To request additional users for your FastPay account, please call Merchant Services on 1800 039 025. They will provide you with a separate Username and Password for each additional user. The Client ID for additional users will be the same as yours.

How to add additional profiles

Once you have received the Username and Password for your additional users, open FastPay and click the "Switch profile" button located on the bottom right of the login PIN pad. Next, select "Add new profile"; you will then be able to enter the Client ID, Username and Password associated to the additional profile you are adding. If you are adding multiple profiles, you will need to go through the process for each user, entering different Usernames and Passwords each time. All additional users will have the same Client ID as you.

How to accept American Express and Diners Club payments

All Merchants can process Visa and MasterCard Credit or Debit Cards. American Express and Diners Club cards can only be accepted if you have entered a separate arrangement directly with those companies.

ANZ FastPay for iPhone is only available from the App Store. iPhone and iPad are trademarks of Apple Inc. registered in the U.S and other countries. App Store is a service mark of Apple Inc.
