

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

INDEPENDENT AUDITOR'S REPORT

To
The Chief Executive Officer
Australia and New Zealand Banking Group Limited - India Branches

Report on the financial statements

We have audited the accompanying financial statements of Australia and New Zealand Banking Group Limited – India Branches ('the Bank'), which comprise the Balance Sheet as at 31 March 2017, the Profit and Loss Account, the Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's responsibility for the financial statements

The Bank's management is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ('the Act') with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Bank in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, provisions of section 29 of the Banking Regulation Act, 1949 and the circulars, guidelines and directions issued by the Reserve Bank of India ('the RBI') from time to time.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Bank and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made thereunder.

We conducted our audit of the Bank including its branches in accordance with the Standards on Auditing ('the Standards') specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Bank's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Banking Regulation Act, 1949 as well as the relevant requirements of the Companies Act, 2013, in the manner so required for banking companies and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Bank as at 31 March 2017 and its profits and its cash flows for the year ended on that date.

Report on other legal and regulatory requirements

The Balance Sheet and the Profit and Loss Account have been drawn up in accordance with the provisions of section 29 of the Banking Regulation Act, 1949 and section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014.

As required by sub section (3) of section 30 of the Banking Regulation Act, 1949, we report that:

- (a) we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of our audit and have found them to be satisfactory;
- (b) the transactions of the Bank, which have come to our notice, have been within the powers of the Bank; and
- (c) the Bank has 3 branches, of which we have visited 2 during the course of our audit. Since the key operations of the Bank are automated with the key applications integrated to the core banking systems, the audit is carried out centrally as all the necessary records and data required for the purposes of our audit are available therein.

Further, as required by section 143(3) of the Companies Act, 2013, we report that:

- (i) we have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
- (ii) in our opinion, proper books of account as required by law have been kept by the Bank so far as it appears from our examination of those books;
- (iii) the financial accounting systems of the Bank are centralized, therefore, returns are not necessary to be submitted by the branches;
- (iv) the Balance Sheet, the Profit and Loss account and the Cash Flow Statement dealt with by this report are in agreement with the books of account;
- (v) in our opinion, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014, to the extent they are not inconsistent with the accounting policies prescribed by the RBI;
- (vi) the requirements of section 164(2) of the Act are not applicable considering the Bank is a branch of Australia and New Zealand Banking Group Limited, which is incorporated and registered in Australia;
- (vii) with respect to the adequacy of the internal financial controls over financial reporting of the Bank and the operating effectiveness of such controls, refer to our separate Report in "Annexure A"; and
- (viii) with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (a) the Bank does not have any pending litigations which would impact its financial position;
 - (b) the Bank has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts;
 - (c) there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Bank; and
 - (d) the disclosure required on holdings as well as dealings in Specified Bank Notes during the period from 8 November 2016 to 30 December 2016 as envisaged in notification GSR 308(E) dated 30 March 2016 issued by the Ministry of Corporate Affairs, is not applicable to the Bank.

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013

We have audited the internal financial controls over financial reporting of Australia and New Zealand Banking Group Limited– India Branches ('the Bank') as at 31 March 2017 in conjunction with our audit of the financial statements of the Bank for the year ended on that date.

Management's responsibility for internal financial controls

The Bank's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ('the Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI').

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Bank's policies, safeguarding of its assets, prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013 ('the Act').

Auditor's responsibility

Our responsibility is to express an opinion on the Bank's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing ('the Standards'), issued by the ICAI and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Bank's internal financial controls system over financial reporting.

Meaning of internal financial controls over financial reporting

The bank's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. The bank's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the bank; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of the financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the bank are being made only in accordance with authorizations of management of the bank; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the bank's assets that could have a material effect on the financial statements.

Inherent limitations of internal financial controls over financial reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Bank has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Bank considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

SCHEDULE 17: SIGNIFICANT ACCOUNTING POLICIES FOR THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2017

1. Background

The accompanying financial statements for the year ended 31 March 2017 comprise of the accounts of the India Branches of Australia and New Zealand Banking Group Limited ('the Bank') which is incorporated in Australia with limited liability. The Bank has three branches in India as on 31 March 2017.

2. Basis of preparation

The accompanying financial statements have been prepared and presented under the historical cost convention on accrual basis of accounting, unless otherwise stated, and in accordance with the Generally Accepted Accounting Principles ('GAAP') in India, statutory requirements prescribed under the Banking Regulation Act, 1949, circulars and the guidelines issued by Reserve Bank of India ('RBI') from time to time, the Accounting Standards ('AS') (specified under section 133 of the Companies Act, 2013 read with Paragraph 7 of the Companies (Accounts) Rules, 2014 (as amended) to the extent applicable) and practices prevailing within the Banking industry in India.

The financial statements are presented in Indian Rupees rounded off to the nearest thousand, unless otherwise stated.

3. Use of Estimates

The preparation of financial statements in conformity with applicable GAAP requires management to make estimates and assumptions considered in the reported amount of assets and liabilities and disclosure of contingent liabilities as at the date of the financial statements and the result of operations during the reporting period. Management believes that the estimates used in the preparation of financial statements are prudent and reasonable. Actual results could differ from those estimates. Any revision to accounting estimates and assumptions is recognised prospectively in current and future periods.

4. Significant accounting policies

4.1. Revenue recognition

- Interest income is recognised on an accrual basis, except in case of interest on Non-Performing Assets (NPAs), which is recognised as income on receipt, in accordance with RBI guidelines.
- Interest income on discounted instruments is recognised over the tenor of the instrument on a constant effective yield basis (interest rate implied by the discounted purchased price).
- Fees and commission on guarantees, letters of credit and loans are recognised as and when due once the services are rendered. In case tenor of guarantee is more than one year, fees for issuance is amortised on straight-line basis over the period of guarantee except guarantee fees up to a set threshold (1% of total fees and commission income or ₹ 15,00,000 whichever is lower), which is recognised upfront in the year of issuance of guarantee.
- Fees from support services are recognised based on applicable service contracts and when the service has been rendered.

4.2. Fixed Assets and Depreciation

- Fixed assets are carried at cost less accumulated depreciation.
- Cost includes purchase price and any attributable cost of bringing the asset to its working condition for its intended use. Subsequent expenditure incurred on assets put to use is capitalised only when it increases the future benefit / capacity of such asset.
- Cost of motor vehicles acquired on finance lease is amortised using the straight-line method over the primary period of lease.
- Assets other than software, individually costing up to ₹ 5,000 and mobile instruments are written off in the month of acquisition.
- Software costing up to 30,000 (in ₹ '000) is written off in the year of acquisition, in consideration that economic useful life is less than one year.
- The useful life estimates prescribed in Part C of Schedule II to the Companies Act, 2013 are generally adhered to, except in respect of class of assets, based on internal technical evaluation, where a different estimate of useful life is considered suitable.

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

- g) Depreciation is provided on the straight-line method over the estimated useful life of the asset, as follows:

Asset Type	Depreciation Rate (%) per annum
Furniture & Fixture	10.00
Office Equipment	33.33
Computers	33.33
Purchased Software	10.00
Internally Developed Software	20.00
Leasehold Improvements	Over remaining period of lease
Plant & Machinery	20.00

- h) The Bank assesses at each balance sheet date whether there is any indication that an asset may be impaired. If any such indication exists, the Bank estimates the recoverable amount of the asset. If such recoverable amount of the asset is less than its carrying value, the carrying value is reduced to the recoverable amount. The reduction is treated as an impairment loss and is recognized in the profit and loss account for the period. If at the balance sheet date there is an indication that previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount.
- i) Capital work in progress includes cost of fixed assets that are not ready for their intended use and also includes advances paid to acquire fixed assets.

4.3. Employee Benefits

- a) Provident Fund – Defined contribution plan

The Bank contributes to provident fund which is a defined contribution retirement plan for eligible employees. These contributions are accounted on an accrual basis and are charged to the Profit and Loss Account.

- b) Gratuity - Defined Benefit Plan

Gratuity liabilities are defined obligations and Bank's contribution towards the same is determined by an independent actuary based on the projected unit credit method as at the balance sheet date as per requirements of AS - 15 (Revised 2005) – Employee Benefits. Actuarial gains / losses are immediately taken to Profit and Loss Account and are not deferred.

- c) Employee share-based payments

The Bank participates in various share and rights compensation plans operated by the Head Office.

Compensation expense relating to the shares granted to the Bank's employees by Head Office under the Employee Share Acquisition Plan (ESAP) and Deferred Share Rights and Performance Rights under Employee Share Option Plan (ESOP) is borne by the Branch.

In determining the fair value of the rights, the Head Office uses standard market techniques for valuation including Monte Carlo and/or Black Scholes pricing models. The models take into account early exercise, non-transferability and market based performance hurdles.

The liability is expensed on a straight-line basis over the relevant vesting period as share based compensation expense and is cash settled by the Bank on a half yearly basis with the Head Office.

4.4. Taxation

Income tax expense comprises of current tax and deferred tax charge.

- a) Current taxes

The current charge for income tax is based on the estimated tax liability as computed after taking credit for allowances and exemptions in accordance with the Income tax Act, 1961 applicable for the year.

- b) Deferred taxes

Deferred tax assets and liabilities are recognised for the future tax consequences attributable to timing differences that result between the profit offered for income taxes and the profit as per the Bank's financial statements.

The deferred tax assets and liabilities are recognised using the tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognised only to the extent that their future realisation is reasonably certain. However where there is unabsorbed depreciation and carry forward losses under taxation laws, deferred tax assets are recognised only if there is virtual certainty of realisation of such asset.

Deferred tax assets are reviewed as at each balance sheet date and appropriately adjusted to reflect the amount that there is reasonably/virtually certain to be realised.

4.5. Leases

- a) Operating Lease

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased items are classified as operating leases. Operating lease payments are recognized as an expense in the profit and loss account over the term of the lease on a straight line basis.

- b) Finance Lease

Leases where the lessee effectively retains substantially all the risks and benefits of ownership of the leased items are classified as finance leases. At the inception, lease is recognised as an asset and a liability at lower of fair value of leased asset and the present value of minimum lease payments. Lease payments are appropriated between finance charge and the reduction of outstanding liability so as to produce a constant periodic rate of interest on the balance of the liability. The costs identified as directly attributable to activities performed by the lessee for a finance lease are included as part of the amount recognised as an asset under the lease.

4.6. Provisions, contingent liabilities and contingent assets

- a) The Bank creates a provision when there is present obligation as a result of a past event that probably requires an outflow of resources to settle the obligation and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. When there is a possible obligation or a present obligation in respect of which the likelihood of outflow of resources is remote, no provision or disclosure is made.
- b) Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of resources would be required to settle the obligation, the provision is reversed.
- c) Contingent assets are not recognised in the financial statements.

4.7. Foreign Exchange Transactions

- a) Monetary assets, liabilities and contingent liabilities denominated in foreign currencies are translated at the balance sheet date at rates of exchange notified by the Foreign Exchange Dealers' Association of India (FEDAI) on that date. The resultant profit or loss including those on cancelled contracts is recognized in the profit and loss account and related assets and liabilities are accordingly stated in the balance sheet.
- b) Foreign currency profit & loss are translated at month end FEDAI Rate.
- c) Foreign exchange contracts outstanding at the balance sheet date are marked to market at rates notified by FEDAI for specified maturities, suitably interpolated for in-between maturity contracts as specified by FEDAI. Contracts of maturities over 12 months (long term forex contracts) are marked to market at rates derived from the Reuter's curve for that respective currency. The resulting profit or losses are recognized in the profit and loss account.

4.8. Investments

Classification and valuation of the Bank's investments is carried out in accordance with extant RBI guidelines on Investment classification and valuation.

Investments are accounted on settlement date basis. Investments are classified as "Held for trading" (HFT) or "Available for Sale" (AFS) and "Held to Maturity" (HTM) in accordance with RBI guidelines. During the year ended 31 March 2017, the Bank has not classified any investment in HTM category. Under each of these classifications, investments are further categorized under i) Government securities ii) Other approved securities iii) Shares iv) Debentures and bonds v) Subsidiaries and vi) Others.

- a) Acquisition cost

Cost of Investments excludes broken period interest paid on acquisition of investments. Brokerage, commission etc. paid at the time of acquisition are charged to the Profit and Loss account. Broken period interest on debt instrument is accounted for in accordance with RBI guidelines.

- b) Sale of Investments

Profit / Loss on sale of investments under the HFT and AFS categories are taken to the Profit and Loss account. First in First out (FIFO) method is applied to arrive at the cost of investments.

- c) Valuation of Investments

Investments under AFS category are marked to market on a quarterly basis and those classified under HFT are marked to market on a monthly basis. Investments classified under the HFT and AFS categories are valued at lower of acquisition cost or market value. Securities are valued scrip wise and depreciation / appreciation is aggregated for each category. Net depreciation per category is provided for while net appreciation is ignored. Book value of the individual security is not changed consequent to revaluation of the security.

Treasury bills being discounted instruments are valued at carrying cost.

- d) Transfer of securities between categories

Reclassification of investments from one category to other is done in accordance with RBI guidelines and any such transfer is accounted for at the lower of acquisition cost / book value / market value as on the date of transfer, and depreciation, if any, on such transfer is fully accounted for.

4.9. Repo / Reverse repo

In accordance with the RBI guidelines, repurchase (repos) and reverse repurchase (reverse repos) transactions are accounted as Collateralised Borrowing and Lending Obligation.

The Bank follows aforesaid principle to account repo and reverse repo transactions undertaken under Liquidity Adjustment Facility (LAF).

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

4.10. Advances

Classification and provisions for advances of the Bank are carried out in accordance with the extant RBI guidelines on Prudential norms on Income Recognition, Asset Classification and Provisioning pertaining to Advances.

a) Classification

Advances are classified as performing and non performing based on the RBI's prudential norms on classification.

b) Provisioning

Advances are stated net of specific provisions made towards non performing advances. The Bank maintains a provision on standard assets at rates and as per norms prescribed by RBI. Loan loss provisions in respect of non performing advances are made based on management's assessment of the degree of impairment of advances subject to the minimum provisioning level in accordance with prudential norms prescribed by RBI.

c) Recovery in respect of non performing advances

Amount recovered from non performing advances are first applied towards outstanding principal.

4.11. Derivative Transactions

- The Bank enters into derivative contracts such as interest rate swaps, cross currency swaps, foreign exchange contracts and foreign exchange options.
- These derivatives are part of the trading book and are recognised at fair value. The resultant gain / loss is recorded in the profit and loss account while the corresponding unrealised gain / loss are reflected in the balance sheet under the head Other assets / Other liabilities. The notional values of these contracts are recorded as Contingent liabilities.
- The Bank maintains a provision on standard derivative exposure at rates prescribed by RBI.
- Amounts due to the Bank under derivative contracts which remain unpaid in cash for more than 90 days from the specified date of payment are classified as non-performing assets.
- The premium on option contracts is accounted for as per Foreign Exchange Dealers Association of India (FEDAI) guidelines.

4.12. Cash and Cash equivalents

Cash and cash equivalents include cash in hand, balances with RBI, balances with other banks and money at call and short notice.

SCHEDULE 18: NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2017

1. Capital

During the year, the Bank has not received any additional capital from Head Office. (Previous year - Nil).

The Tier 1 capital as at 31 March 2017 is – 10,345,309* (₹ '000s) (Previous year 12,099,202 (₹ '000s)).

*Tier 1 capital is lower as compared to previous year on account of an adjustment made to the Bank's capital funds for placement with Head Office in excess of a RBI specified limit.

2. Capital Adequacy Ratios:

The Bank's Capital to Risk-weighted Asset Ratio ('CRAR') is calculated in accordance with the RBI's 'Basel III Capital regulations' issued vide RBI circular DBR. No.BP.BC.1/21.06.201/2015-16 dated 1 July 2015. Under the Basel III framework, on an on-going basis, the Bank has to maintain a minimum total capital of 10.25 % (Previous Year 9.625%) including Capital Conversion Buffer (CCB) at 1.25% (Previous Year 0.625%) for credit risk, market risk and operational risk. The Minimum Total Capital should include minimum Common Equity Tier I (CET 1) ratio of 6.75% (Previous Year 6.125%), including 1.25% (Previous Year 0.625%) towards CCB and minimum Tier 1 capital ratio of 7.00% (Previous Year 7.00%).

The Bank's capital adequacy ratio as per Basel III is as follows:

Sr No	Particulars	As at 31 March 2017	As at 31 March 2016
1	Common Equity Tier 1 capital ratio (%)	19.12%	17.97%
2	Tier 1 capital ratio (%)	19.12%	17.97%
3	Tier 2 capital ratio (%)	0.33%	0.29%
4	Total Capital ratio (CRAR) (%)	19.45%	18.26%
5	Percentage of the shareholding of the Government of India in public sector banks	-	-
6	Amount of equity capital raised	-	-
7	Amount of Additional Tier 1 capital raised; of which PNCPs: PDI:	-	-
8	Amount of Tier 2 capital raised; of which Debt capital instrument: Preference Share Capital Instruments: [Perpetual Cumulative Preference Shares (PCPS) / Redeemable Non-Cumulative Preference Shares (RNCPs) / Redeemable Cumulative Preference Shares (RCPS)]	-	-

3. Investments

(Amount in ₹ '000s)

Particulars	As at 31 March 2017	As at 31 March 2016
1) Value of Investments		
(i) Gross Value of Investments	15,955,844	17,788,640

(b) Outside India	-	-
2) Movement of provisions held towards depreciation on Investments		
(i) Opening Balance	-	1,036
(ii) Add: Provisions made during the year	692	-
(iii) Less: Write back of excess provisions during the year	-	1,036
(iv) Closing balance	692	-

There are no non performing Investments as at 31 March 2017 (Previous year Nil).

4. Repo / Reverse Repo Transactions (in face value terms)

(Amount in ₹ '000s)

Particulars	Minimum outstanding during the year	Maximum outstanding during the year	Daily Average outstanding during the year	Outstanding as on 31 March 2017
Securities sold under repo	120,000 (200,000)	5,750,000 (2,250,000)	661,600 (600,000)	Nil (2,250,000)
i. Government securities	120,000 (200,000)	5,750,000 (2,250,000)	661,600 (600,000)	Nil (2,250,000)
ii. Corporate debt securities	-	-	-	-
Securities purchased under reverse repo	-	-	-	-
i. Government securities	-	-	-	-
ii. Corporate debt securities	-	-	-	-

The above disclosure includes LAF/Marginal Standing Facility done with RBI.

The days with nil outstanding (340 days) Previous year (358 days) have been excluded while computing minimum, maximum and average outstanding.

Figures in brackets indicate previous year figures.

5. Non SLR Investment Portfolio

During the year ended 31 March 2017, there was no investment in Non SLR securities (Previous year Nil).

6. Sale and Transfers to / from HTM category

No investments were classified under the category HTM during the year ended 31 March 2017, consequently there was no sale or transfer to / from HTM category (Previous year Nil).

7. Derivatives

Details of outstanding Forward Rate Agreements / Interest Rate Swaps

(Amount in ₹ '000s)

Particulars	As at 31 March 2017	As at 31 March 2016
i) The notional principal of swap agreements ¹	223,293,909	196,350,140
ii) Losses which would be incurred if counterparties failed to fulfill their obligations under the agreements	1,366,270	1,483,249
iii) Collateral required by the Bank upon entering into swaps	-	-
iv) Concentration of credit risk arising from the swaps ²		
- Banks in India	93.19%	87.42%
- Others	6.81%	12.58%
v) The fair value of the swap book ³	(59,253)	(7,030)

There were no Forward Rate agreements (FRAs) outstanding as at 31 March 2017 (Previous year Nil).

- The notional principal amount does not include Cross Currency Swaps.
- The concentration is calculated on the basis of credit exposure.
- The fair value denotes mark to market on the Interest Rate Swaps.

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

Exchange Traded Interest Rate Derivatives

The Bank has not entered into any transaction in Exchange Traded Derivatives during the year ended 31 March 2017 (Previous year Nil).

8. Disclosures on risk exposure in derivative

Qualitative Disclosures

The Bank deals in derivatives for balance sheet management, market making purposes and also offers currency and interest rate derivatives to its customers.

Derivatives deals are carried by the treasury front office team. Confirmation, settlement, accounting, risk monitoring, reporting and compliance are handled by independent teams who have clearly defined responsibilities.

Derivative financial instruments are carried at fair value.

The Bank has a risk management and control framework to support its trading and balance sheet activities. The framework incorporates a risk measurement approach to quantify the magnitude of market risk within trading and balance sheet portfolios.

Market risk limits are allocated at various levels and are reported and monitored by Market Risk on a daily basis. The detailed limits framework allocates individual limits to manage and control asset classes, risk factors and profit and loss limits (to monitor and manage the performance of the trading portfolios).

A key measure of market risk is Value at Risk (VaR). VaR is a statistical estimate of the possible daily loss and is based on historical market movements. The Bank measures VaR at a 99% confidence interval. The Bank's standard VaR approach for both traded and non-traded risk is historical simulation. The Bank calculates VaR using historical changes in market rates, prices and volatilities over the previous 500 business days. Traded and non-traded VaR is calculated using a one-day holding period. The bank also utilises a number of other risk measures (e.g. stress testing) and risk sensitivity limits to measure and manage market risk.

Credit risk is managed on the basis of detailed risk profile of the counterparty, related conditions and expectations. The Bank uses International Swaps and Derivatives Association (ISDA) Master Agreements with its counterparties for derivatives activities.

The Bank applies Current exposure methodology to manage credit risk associated with derivative transactions. This is computed by taking the sum of its mark-to-market value if positive and its potential future exposure which is calculated based on its notional value and residual maturity.

The Bank has made provision on such credit exposures in accordance with RBI circular DBR.No.BP.BC.2/21.04.048/2015-16 dated 1 July 2015.

Quantitative Disclosures

13. Overseas Assets, NPAs and Revenue

As the Bank is a branch of a foreign bank, this disclosure is considered as not applicable.

14. Provisions on Standard Assets*

(Amount in ₹ '000s)

Particulars	As at 31 March 2017	As at 31 March 2016
General Provision on Advances	77,541	101,227
General Provision on Credit Exposure on derivatives	64,657	32,094

*Does not include unhedged Foreign currency Exposure provision as disclosed in the Note 15

15. Unhedged Foreign Currency Exposure

The Bank's credit policy governs management of currency induced credit risk. As per Bank's policy and procedures, the Bank closely monitors the unhedged foreign currency exposures of all corporate clients. The Bank collects information from clients as regards their Risk Management policy and Foreign Exchange hedging policy as well as their open Foreign Exchange positions owing to their FX denominated borrowings (ECBs, Buyers' credit etc.) and other liabilities. The information available is considered in the borrower's annual review credit memorandum and assessment of qualitative scores in the risk rating score-card. Interim findings are put up for discussions and noting to Risk Management Committee (RMC).

As at 31 March 2017, the Bank has provided incremental provisions of 32,739 (₹ '000s) (Previous Year 57,631 (₹ '000s)) and held incremental capital of 185,474 (₹ '000s) (Previous Year 231,839 (₹ '000s)).

16. Business Ratios

Sr. No.	Particulars	For the year ended 31 March 2017	For the year ended 31 March 2016
i.	Interest income as a % to working funds ¹	4.46%	5.20%
ii.	Non-interest income as a % to working funds ¹	2.48%	2.49%
iii.	Operating profit as a % to working funds ¹	1.24%	1.48%
iv.	Return on assets ²	0.67%	0.85%
v.	Business per employee ^{3,4} (₹ '000s)	643,509	554,505
vi.	Net Profit per employee ⁴ (₹ '000s)	5,012	5,595
vii.	Percentage of Net NPA to Net Advances	-	-

- Working fund is computed based on average of total assets (excluding accumulated losses) as reported to RBI in Form X under section 27 of the Banking Regulation Act, 1949 during the financial year.
- Return on assets is with reference to average working fund (i.e. total of assets excluding accumulated losses).
- Business is calculated as deposits plus advances excluding interbank deposits.
- Ratio is computed basis number of employees as at 31 March 2017.

- The maturity pattern has been compiled in the same manner as required for the RBI DSB returns.
- Foreign currency assets/liabilities exclude off-balance sheet assets and liabilities.

18. Exposures to Real Estate Sector and Capital Market

The Bank has no direct or indirect exposure to Real Estate Sector and Capital Market hence the disclosure on Real Estate Sector and Capital Market is not applicable (Previous year Nil).

19. Risk category wise Country Exposure

Provision for country risk exposure as per RBI circular DBR.No.BP.BC.2/21.04.048/2016-17 dated 1 July 2016 is as follows:

(Amount in ₹ '000s)

Risk Category	Funded Exposure (net) as at 31 March 2017	Provision held as at 31 March 2017	Funded Exposure (net) as at 31 March 2016	Provision held as at 31 March 2016
Insignificant	368,941	-	514,470	-
Low	6,589	-	-	-
Moderate	-	-	-	-
High	-	-	-	-
Very High	-	-	-	-
Restricted	-	-	-	-
Off-credit	-	-	-	-
Total	375,530	-	514,470	-

As per RBI guidelines, provision is created for only those countries where the net funded exposure exceeded 1% of the total assets as at 31 March 2017. Further, lower provisions of 25% of the requirement have been created with respect to short term exposures (i.e. exposures with contractual maturity of less than 180 days).

20. Details of Single Borrower Limit (SBL)/ Group Borrower Limit (GBL) exceeded by the Bank

During the year-end 31 March 2017, the Bank is in compliance with RBI master circular on Exposure Norms DBR.No.Dir.BC.12/13.03.00/2015-16 dated 1 July 2015 on single borrower and group borrower limits.

As per the extant RBI guidelines, the Bank with the approval of the India Exco can enhance exposure to single borrower or group borrower by a further 5% of the capital funds. During the year ended 31 March 2017, the Bank enhanced SBL for below customers from 15% to 20% of the capital funds.

- Voith Hydro Private Limited

Further, the Bank held India Exco approvals from previous year for incremental 5% limits for the below customers.

- Aditya Birla Retail Limited
- BTI Payments Pvt. Ltd.
- Aurobindo Pharma Limited
- JSW Steel Limited
- Beetel Teletech Limited

21. Intra-Group Exposures

As at the year-end 31 March 2017, the Bank is in compliance with RBI circular DBOD.No.BP.BC.96/21.06.102/2013-14 dated 11 February 2014 on Management of Intra-Group Transactions and Exposures. These guidelines became effective from 1 October 2014. During the period April 2016 to March 2017, there was no breach in limits for Single Group Entity Exposure and Aggregate Group Exposure. Other details of Intra-Group Exposure as at 31 March 2017 are provided below:

(Amount in ₹ '000s)

Particulars	As at 31 March 2017	As at 31 March 2016
(a) Total amount of intra-group exposures	691,520	1,156,402
(b) Total amount of top-20 intra-group exposures	691,520	1,156,402
(c) Percentage of intra-group exposures to total exposure* of the bank on borrowers / customers	0.65%	1.15%

*Total exposure includes Credit Exposure (funded and non funded), derivative exposure and investment exposure to all corporate and inter-bank counterparties.

22. Unsecured Advances against intangible assets

During the year ended 31 March 2017 the Bank has not granted any advance against intangible securities such as charge over the rights, licenses, authority etc. (Previous year Nil).

23. Provision made for Income tax for the year

(Amount in ₹ '000s)

Particulars	For the year ended 31 March 2017	For the year ended 31 March 2016
Current Tax*	8,560	555,528
Deferred Tax	321,512	(154,102)
Total	330,072	401,426

*Provision for Current tax includes provision made in respect of financial year 11-12 for INR 49,768 (in '000).

24. Disclosure of Penalties imposed by RBI

During the financial year under review, no penalty was imposed by RBI on the Bank (Previous Year Nil).

25. Liquidity Coverage Ratio (LCR)

Qualitative Disclosures:

The Bank has been computing its LCR on a daily basis since October 2016 and on monthly basis since January 2016 as per the extant RBI guidelines. RBI guidelines, has mandated minimum LCR of 80% for 2017 with a step up of 10% each year to reach minimum requirement of 100% by 1 January 2019. The LCR guidelines

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

aim to ensure that the bank maintains an adequate level of unencumbered High Quality Liquid Assets (HQLA) that can be converted into cash to meet its liquidity needs for a 30 calendar day time horizon under a significant severe liquidity stress scenario specified by RBI.

As at the year-end 31 March 2017, the Bank is in compliance with LCR guidelines. Over a period of time, there is a positive trend in LCR ratio with LCR as at 31st March 2017 at 475% against requirement of 80%. The main drivers of LCR are holding in government securities and cash in hand. HQLA comprises of cash in hand, balance maintained with RBI in excess of CRR requirements, Government securities holdings in excess of SLR requirements, Government securities within the mandatory SLR requirement, to the extent allowed by RBI under Marginal Standing Facility, and Government securities within the mandatory SLR requirement, to the extent allowed by RBI under Facility to avail Liquidity for Liquidity Coverage Ratio

(FALLCR). Along with this, the Bank has progressively, after moving into CCIL's guaranteed settlement window for FX forward transactions, lowered derivatives cash outflows. Trades which are settled through CCIL (under guaranteed settlement window) are netted.

Effective October 2015, FX options and FX cash flows are netted at deal level. For other Derivatives, the Bank continues to gross up cash flows at counterparty level.

The Bank has diverse source of funding ranging from deposits from local corporate customers and interbank deposits, own capital funds as well as foreign currency borrowings from network branches. As at 31 March 2017 the Bank did not have Collateral Service Agreement (CSA) in place with any of its counterparties. The Bank does not hold any FCY HQLA. There is a daily monitoring of LCR at group level and there is a regular interaction between Group Treasury and Local Treasury. LCR is also monitored by India Assets and Liabilities Committee (India ALCO).

Quantitative Disclosure for LCR is provided below:

Funded Status	(5,395)	(1,960)	(746)
Experience Gain/(Loss) adjustments on plan liabilities	(222)	2,385	434
Experience Gain/(Loss) adjustments on plan assets	(170)	(414)	(135)
Actuarial Gain/(Loss) due to change on assumptions	(2,020)	-	(2,821)

Compensated absences – Short-term

The actuarial liability of compensated absences of the employees of the Bank as of 31 March 2017 is Nil (Previous Year Nil).

27. Segmental reporting

Part A: Business Segments

As per RBI guidelines Bank has identified 'Treasury', 'Corporate / Wholesale banking' and 'Retail (Private Banking)' as the primary reporting segments. These segments are identified based on nature of services provided, risks and returns, organisational structure of the banks and the internal financial reporting system.

Treasury Operations segment comprise derivatives trading, money market operations, investments in bonds, treasury bills, government securities and foreign exchange operations. The revenue of this segment consists of interest earned on investments and gains on sale of securities, profit on exchange and derivative transactions. The principal expenses of this segment consist of interest expense on funds borrowed, occupancy expenses, personnel costs, other direct expenses and allocated expenses.

Corporate / Wholesale Banking segment primarily comprise funded and non-funded facilities, cash management activities and fee based activities. Revenues of this segment consist of interest earned on loans extended to clients and fees received from non-fund based activities like letter of credit, guarantee etc. The principal expenses of this segment consist of interest expense on deposits raised, occupancy expenses, personnel costs, other direct and allocated expenses.

Retail / Private Banking segment primarily comprise of raising of deposits from retail customers and catering to loan requirements of such customers. The Revenue for this segment mainly consist of interest earned on the loans disbursed while the expense is mainly towards interest paid on the deposits raised, rental expenses, personnel costs, other direct expenses and allocated expenses.

Other Banking Business segment includes all other residual operations such as para banking transactions/activities. Basis the materiality of revenue generated, this segment has been combined with Corporate / Wholesale Banking segment.

For the year ended 31 March 2017

(Amount in ₹ '000s)

Business Segments	Treasury	Corporate/ Wholesale Banking	Retail Banking	Total

31. Capital commitments

Capital Commitment as on 31 March 2017 is Nil (Previous year 18,632 (₹ '000s)).

32. Operating expenses

During the year ended 31 March 2017, Other expenses in Schedule 16, includes data connectivity line rentals, which is in excess of 1% of total income, amounting to 52,476 (₹ '000s). During the year ended 31 March 2016, Other Expenses in Schedule 16, includes information service fees (data connectivity and license charges) and outsourcing cost, which are in excess of 1% of total income, amounting to 60,680 (₹ '000s) and 87,155 (₹ '000s) respectively.

33. Employee Share Based Payments

a) ANZ Share Rights Plan

Performance Rights/Deferred Share Rights Plan

Performance rights are granted to selected employees as part of ANZ's incentive plans. Performance rights provide the right to acquire ANZ shares at nil cost, subject to a three year vesting period and from 1 October 2013, two Total Shareholder Return (TSR) performance hurdle (previously one TSR performance hurdle).

Deferred share rights are granted to selected employees as part of ANZ's incentive plans. Deferred share rights provide the right to acquire ANZ shares at nil cost after a specified vesting period without performance hurdle.

Unvested rights granted will lapse on termination of employment, except in the event of retirement, retrenchment, approved good leaver status, death and disablement or where agreed by the directors of Australia and New Zealand Banking Group Limited, in which case the exercise of the rights may be allowed.

b) Deferred Share Plan

Selected employees are also issued deferred shares, which vest generally up to three or four years from the date of allocation. The issue price is based on the one day volume weighted average price of the shares traded on the Australia Stock Exchange. Unvested shares are forfeited on resignation, dismissal or if a performance condition has not been met. No dividends are incorporated into the measurement of the fair value of the shares.

During the year, the Bank has recognised an amount of 114,861 (in ₹ '000) (previous year 91,100 (₹ '000s)) under the head 'Payment to and Provision for Employees', as a cost on account of share-based payments under Schedule 16 – Operating Expenses.

(Amount in ₹ '000s)

	As at 31 March 2017	As at 31 March 2016
(i) Outstanding at the beginning of the period	150,212	53,701
(ii) Granted during the period	18,521	150,586
(iii) Forfeited during the period	172	455
(iv) Exercised during the period	64,192	53,620
(v) Expired during the period	-	-
(vi) Outstanding at the end of the period	104,369	150,212

The weighted average share price of shares awarded as shown above were in the range of AUD 22 to AUD 32 for the FY 16-17 and AUD 22 to AUD 36 for the FY 15-16.

For stock options outstanding at the end of the period, the weighted average remaining contractual life is 1.20 for the FY 16-17 and 1.53 for the FY 15-16

34. Other assets and Other liabilities

'Others' reported under Other assets in Schedule 11 includes MTM gain on outstanding FX and Derivative 15,933,037 (₹ '000s) (Previous year 6,993,765 (₹ '000s)). a) Customer Complaints

Sr. No.	Particulars	For the year ended 31 March 2017	For the year ended 31 March 2016
(a)	No. of complaints pending at the beginning of the year	-	-
(b)	No. of complaints received during the year	7	10
(c)	No. of complaints redressed during the year	7	10
(d)	No. of complaints pending at the end of the year	-	-

b) Awards passed by the Banking Ombudsman

Sr. No.	Particulars	For the year ended 31 March 2017	For the year ended 31 March 2016
(a)	No. of unimplemented awards at the beginning of the year	-	-
(b)	No. of awards passed by the Banking Ombudsman during the year*	13	3
(c)	No. of awards implemented during the year*	13	3
(d)	No. of unimplemented awards at the end of the year	-	-

*The above-mentioned awards pertain to White Label ATMs wherein the Bank is only the Sponsor Bank for these ATMs. The ATMs are operated by a White Label ATM operator.

40. Letters of comfort (LoCs) issued by Banks

The Bank did not issue any Letter of Comfort during the year (Previous year Nil).

41. Provisioning Coverage Ratio (PCR)

The Provision coverage ratio is not applicable as the Bank does not have any NPAs.

42. Bancassurance business

The Bank has not undertaken any bancassurance business (Previous year Nil).

43. Off – Balance sheet SPVs sponsored

There are no off – balance sheet SPVs sponsored during the year (Previous year Nil).

44. Information Technology Policy

In terms of guidelines issued by RBI vide circular no. DBS.CO.ITC.BC.No. 6 /31.02.008/2010-11 dated 29th April 2011 on "Working Group on Information Security, Electronic Banking, Technology Risk Management and Cyber Frauds – Implementation of recommendations", the Bank has aligned its IT Policy which was approved by Risk Management Committee of the Bank on May 01, 2012 to comply with the above guidelines. The policy has been reviewed by the RMC during the year. An independent review to ensure compliance with requirements of the above guidelines was conducted in September 2014. The Bank is in compliance with requirements of the above guidelines.

45. Disclosure on remuneration

In terms of guidelines issued by RBI vide circular no. DBOD No.BC.72/29.67.001/2011-12 dated 13 January 2012 on "Guidelines on Compensation of Whole Time Directors / Chief Executive Officers / Risk Takers and Control function staff, etc." the Bank has submitted a declaration received from its Head Office to RBI to the extent that the CEO's compensation structure in India is in conformity with the Financial Stability Board (FSB) principles and standards.

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

46. Credit default swap

The Bank has not transacted in any Credit default swaps during the year ended 31 March 2017 (Previous year Nil).

47. Transfers to Depositor Education and Awareness Fund (DEAF)

Particulars	For the year ended 31 March 2017	For the year ended 31 March 2016
Opening balance of amounts transferred to DEAF	-	-
Add : Amounts transferred to DEAF during the year	-	-
Less : Amounts reimbursed by DEAF towards claims	-	-
Closing balance of amounts transferred to DEAF	-	-

48. Corporate social responsibility

The Bank has set up a Corporate Responsibilities (CR) Committee to implement CR programs in India in accordance with ANZ group CR policy. The Bank's CR Charter document sets out the following priorities for CR program:

- Sustainable Development
- Diversity & Inclusion
- Financial Inclusion & Capability

With reference to the RBI circular DBOD.No.Dir.BC.50/13.01.01/2005-06 dated 21 December 2005, amount to be spent by the Bank for the year ended 31 March 2017 on donations is limited to 4,756 ₹ '000s) (based on 1% of published profits for the previous year ended 31 March 2016 with specific exclusions).

Amount spent under CR programs during the year and included under "Other expenses" in Schedule 16 is 2,666 (₹ '000s) in accordance with the requirements stipulated in the aforesaid RBI circular.

49. Securitisation

The Bank has not sponsored any Special Purpose Vehicle for securitization transactions and no securitization transactions are outstanding as at 31 March 2017 (Previous year Nil) and hence this disclosure is not applicable.

50. Details of provisioning pertaining to fraud accounts

The following table sets forth the details of provisioning pertaining to fraud accounts.

Particulars	At 31 March 2017	At 31 March 2016
Number of Frauds reported	-	-
Amount involved in frauds	-	-
Provision made	-	-
Unamortised provision debited from 'other reserves'	-	-

51. Priority Sector Lending Certificate (PSLC)

The Bank purchased PSLCs amounting to 8,250,000 (₹ '000s) (Previous year Nil) during the year ended March 31, 2017. The bank did not sell any PSLC during the year ended March 31, 2017.

52. Migration to Indian Accounting Standards (Ind AS)

Banks in India currently prepare their financial statements as per the guidelines issued by the RBI, the Accounting Standards notified under section 133 of the Companies Act, 2013 and generally accepted accounting principles in India (Indian GAAP). In January 2016, the Ministry of Corporate Affairs issued the roadmap for implementation of new Indian Accounting Standards (Ind AS), converged with International Financial Reporting Standards (IFRS), for scheduled commercial banks, insurance companies and non-banking financial companies (NBFCs). The roadmap requires banks to migrate to Ind AS for accounting periods beginning from April 1, 2018 onwards, with comparatives for the periods ending March 31, 2018 or thereafter.

For implementation of Ind AS, the Bank has formed a Steering Committee which has members from various functions. The Committee meets regularly to supervise the progress of the project. An update on the implementation status is also submitted to the EXCO at quarterly intervals.

53. Divergence in the asset classification and provisioning for NPAs

In terms of the Reserve Bank of India circular no. DBR.BP.BC.No.63/21.04.018/2016-17 dated April 18, 2017, banks are required to disclose the divergences in asset classification and provisioning consequent to RBI's annual supervisory process in their notes to accounts to the financial statements.

As per RBI's annual supervisory process for the year ended March 31, 2016 there are no divergence in the asset classification and provisioning of the Bank. The following table sets forth the details. (Amount in ₹ '000s)

Sr.	Particulars	As at 31st March 2016
1	Gross NPAs as reported by the bank	0
2	Gross NPAs as assessed by RBI	0
3	Divergence in Gross NPAs (2-1)	0
4	Net NPAs as reported by the bank	0
5	Net NPAs as assessed by RBI	0
6	Divergence in Net NPAs (5-4)	0
7	Provisions for NPAs as reported by the bank	0
8	Provisions for NPAs as assessed by RBI	0
9	Divergence in provisioning (8-7)	0
10	Reported Net Profit after Tax (PAT)	475,581
11	Adjusted (notional) Net Profit after Tax (PAT) after taking into account the divergence in provisioning	475,581

53. Miscellaneous Income

Miscellaneous Income includes income received from overseas branches for origination and support services rendered in connection with foreign currency loans provided by them to Indian customers.

54. Previous year figures

Previous year's figures have been regrouped / reclassified to confirm to the current year presentation.

BASEL III: PILLAR 3 DISCLOSURES AS AT 31 MARCH 2017

1. Background

Australia and New Zealand Banking Group Limited, India ('ANZ India' or 'the Bank') is a branch of Australia and New Zealand Banking Group Limited ('ANZ'), which is incorporated in Australia with Limited Liability. Indian branch operations are conducted in accordance with the banking license granted by the Reserve Bank of India (RBI) under the Banking Regulation Act 1949. The Bank has three branches in India as on 31 March 2017.

Disclosures made hereunder are in accordance with Basel III Capital Regulations – Market Discipline (Pillar 3).

2. Key Management Committees, Functions and Frameworks

India Executive Committee ('India EXCO')

India EXCO is the apex committee of the Bank and has the authority to exercise all of the powers and discretions of the Board at the country level. India EXCO takes ownership of the Bank's business in India and fulfils the regulatory responsibility of conducting periodic reviews/ approvals as specified by RBI from time to time. The committee is chaired by Chief Executive Officer India. India EXCO is an in-country committee.

India Assets and Liabilities Committee ('India ALCO')

India ALCO is a sub-committee of the Institutional Banking ALCO ('IB ALCO') and is responsible for the oversight and strategic management of the India Balance Sheet, liquidity and funding positions and capital management activities.

Risk Management Committee ('India RMC')

India RMC maintains responsibility to oversee all aspects of risk management in the country including credit risk, markets risk, operational risk and compliance related issues/activities. RMC also approves India's Risk Appetite statement.

Risk Management Framework

The oversight of risk management is conducted via three clearly articulated layers of risk management – Three lines of defense:

- The area where the risk originates is responsible for managing the risk. This is defined as 'the First Line of Defence'.
- To ensure appropriate challenge and oversight, there is a dedicated and independent risk management function. This is 'the Second Line of Defence'.
The first and second lines of defence have defined roles, responsibilities and escalation paths to support effective two way communication and management of risk.
- The Third Line of Defence' has an independent oversight role within the governance structure and is performed by Internal Audit. Internal Audit provides independent and objective assurance to management that the first and second lines of defence are functioning as intended

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

3. Regulatory Framework

The Bank operates as a scheduled commercial bank and is required to maintain capital ratios at par with locally incorporated banks.

Capital Adequacy requirements are outlined in the following circulars:

- Master Circular – Prudential Guidelines on Capital Adequacy and Market Discipline – New Capital Adequacy Framework ('NCAF')
- Master Circular - Basel III Capital Regulations.

As per Basel III guidelines, currently banks should adopt Standardised Approach (SA) for credit risk, Basic Indicator Approach (BIA) for operational risk and Standardised Duration Approach (SDA) for computing capital requirement for market risks.

Basel III guidelines are structured around three 'Pillars' which are outlined below:

- Pillar 1 sets out minimum regulatory capital requirements.
- Pillar 2 sets out key principles for supervisory review of Bank's risk management framework and its capital adequacy.
- Pillar 3 aims to encourage market discipline by developing set of disclosure requirements by banks that allow market participants to assess key pieces of information on the scope of application, capital, risk exposures, risk assessment processes and hence the capital adequacy of the bank. Further, providing disclosures that are based on a common framework is an effective means of informing the market about exposure to those risks and provides a consistent and comprehensive disclosure framework that enhances comparability.

Basel III introduced a much stricter definition of capital. The predominant form of Tier 1 capital will be Common Equity, since it is critical that banks' risk exposures are backed by high quality capital base. Further, Basel III introduced Capital Conservation Buffer (CCB) and Countercyclical buffer with a view to ensure that banks maintain a cushion of capital that can be used to absorb losses during periods of financial and economic stress and to increase capital requirements in good times and decrease the same in bad times.

4. DF-1 Scope of Application

In terms of RBI circular dated 12 December, 2006 on Financial Regulation of Systemically Important NBFCs and banks' Relationship with them, NBFCs promoted by the parent / group of a foreign bank having presence in India, which is a subsidiary of the foreign bank's parent / group or where the parent / group is having management control would be treated as part of that foreign bank's operations in India and brought under the ambit of consolidated supervision. As at 31 March 2017 no such ANZ group owned NBFC is in operations in India, accordingly framework for consolidated supervision does not apply to the Bank.

The Bank does not have any subsidiaries in India and consequently not required to prepare Consolidated Financial Statements. The Bank does not have any interest in insurance entities.

5. DF-2 Capital Adequacy

The Bank aims to hold sufficient capital to meet the minimum regulatory requirements at all times. The Bank's capital management strategy is two fold:

- To satisfy the Basel III Regulatory Capital requirements set out by RBI in the Master Circular and
- To minimise the possibility of the Bank's capital falling below the minimum regulatory requirement by maintaining a capital buffer (in excess of the Basel III minimum requirements) sufficient to cover Pillar 2 risks and the capital impact of a moderate (1 in 7 years) or a severe (1 in 25 years) stress scenario over a 1 year horizon.

The Bank's capital management is mainly guided by current capital position, current and future business needs, regulatory environment and strategic business planning. The Bank continuously focuses on effective management of risk and corresponding capital to support the risk. India ALCO and India EXCO emphasises on the growth opportunities supported by cost effective capital.

Under the Basel III framework, on an on-going basis, the Bank has to maintain a minimum total capital of 10.25% (Previous Year 9.625%) including Capital Conversion Buffer (CCB) at 1.25% (Previous Year 0.625%) for credit risk, market risk and operational risk. The Minimum Total Capital should include minimum Common Equity Tier I (CET 1) ratio of 6.75% (Previous Year 6.125%), including 1.25% (Previous Year 0.625%) towards CCB and minimum Tier 1 capital ratio of 7.00% (Previous Year 7.00%).

As at 31 March 2017 CRAR was 19.45% and Common Equity Tier I ratio was 19.12% as per BASEL III norms. The Bank is adequately capitalised presently. Summary of the Bank's capital requirement for credit, market and operational risk and CRAR as at 31 March 2017 is presented below.

(Amount in ₹ '000)

Minimum Regulatory Capital Requirements	
Capital requirements for Credit risk (a)	3,350,839
Portfolios subject to standardised approach	3,350,839
Securitisation exposures.	-
Capital requirements for Market risk (b)	964,472
Standardised duration approach	
- Interest rate risk	651,847
- Foreign exchange risk (including gold)	312,625
- Equity risk	-

Capital requirements for Operational risk (c)	345,319
Basic indicator approach	345,319
Total Minimum Regulatory Capital at 9% (a+b+c)	4,660,630
Minimum CRAR + CCB at 10.25%	5,307,956
Risk Weighted Assets and Contingents	
Credit Risk	37,730,618
Market Risk	12,055,905
Operational Risk	4,316,478
Capital Ratios	
CET 1 Capital	19.12%
Tier I Capital	19.12%
Total Capital	19.45%

6. DF-3 Credit Risk: General Disclosures for all Bank

Structure and organisation of credit risk management

India RMC is responsible for all aspects of risk management, including credit risk. It approves the credit exposure/ concentration limits, risk management policy (involving risk identification, risk measurement/ grading, risk mitigation and control), credit risk management structure, credit pricing policy, etc. in accordance with extant regulatory guidelines. India EXCO is apprised of key risks affecting the business. RMC ensures country's risk profile remains within the agreed group risk appetite.

The Bank takes credit risk within a well defined framework that lays out the fundamental principles and guidelines for its management. Primary objective is management of risk within risk appetite and within regulator defined prudential limits. This framework has four main components:

- Credit principles.
- Credit policies.
- Line of Business/ Segment Specific Procedures.
- Organisation and People.

Key aspects of the Bank's Credit Risk Management Policy are

- Analysis of customer risk.
- Approval of limits and transactions.
- Managing and monitoring customers.
- Working out problem loans.

Credit is extended on the basis of the Bank's credit risk assessment and credit approval requirements and is not subject to any influences external to these requirements. All legal entities, with which the Bank has or is considering having, a credit relationship, is assigned a credit rating reflecting the probability of default and each facility is assigned a security indicator reflecting the 'loss given default'. Each country to which the Bank has or is considering having, a credit exposure, is assigned a country rating reflecting the risk of economic or political events detrimentally impacting a country's willingness or capacity to secure foreign exchange to service its external debt obligations.

Risk grade assignment and risk grade reviews are subject to approval by the appropriate independent risk representative. Each assigned risk grade is reviewed at an interval (never greater than 1 year) and whenever new material information relating to the customer or facility is obtained or becomes known. The Bank has an effective credit risk management system and clearly documented credit delegations which define levels of authority for credit approval. The quality of all credit relationships is monitored to provide for timely identification of problem credits and prompt application of remedial actions. Problem credits are managed to minimise losses, maximise recoveries and preserve the Bank's reputation, with attention to measurement of extent of impairment, exposure and security cover, provisioning, remediation, workout & losses. A specialist remediation team with work out skills will be applied to the management of all problem credits.

Collateral is a means of mitigating the risk involved in providing credit facilities and will be taken where obtainable and necessary to meet risk appetite requirements. Main types of collateral accepted are property, plant & machinery, current assets, cash and stand-by letters of credit. Reliance on collateral is not a substitute for appropriate credit assessment of a customer or be used to compensate for inadequate understanding of the risks. Collateral arrangements for each facility are reviewed annually to confirm the fair value of collateral and to ensure there is no impediment to realisation. The fair value of collateral will be its realisable value net of realisation costs.

6.1. Total gross credit risk exposures as at 31 March 2017

(Amount in ₹ '000)

Fund Based	
Claims on Banks	1,356,338
Investments (HTM)	-
Loans and Advances (excluding Interbank Loans)	18,459,682
Other Assets and Fixed Assets	9,500,561
Non Fund Based	
Non Market Related Off Balance sheet items (Contingent Credits and Exposures)	13,771,876
Market Related (Foreign Exchange (Fx) and Derivative contracts)	34,189,918

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

Notes:

Non Fund Based credit risk exposure has been computed as under:

- In case of exposures other than FX and derivative contracts, credit equivalent is arrived at by multiplying the underlying contract or notional principal amounts with the credit conversion factors prescribed by RBI under the Basel II capital framework.
- In case of Foreign exchange and derivative contracts, credit equivalents are computed using the current exposure method as prescribed by RBI.

6.2. Geographic distribution of exposures, Fund based and Non-fund based separately

Since all the exposures provided under Para 6.1 above are domestic, the disclosures on geographic distribution of exposures, both fund and non-fund based has not been made.

6.3. Industry type distribution of exposures as at 31 March 2017

(Amount in ₹ '000)

Industry Name	Fund Based	Non Fund Based
Food Processing	4,502,543	-
Beverages (excluding Tea & Coffee) and Tobacco	-	-
Textiles	-	27,952
Petroleum (non-infra), Coal Products (non-mining) and Nuclear Fuels	-	-
Chemicals and Chemical Products (Dyes, Paints, etc.)	2,226,730	100,000
Rubber, Plastic and their Products	-	-

Industry Name	Fund Based	Non Fund Based
Glass & Glassware	480,000	-
Basic Metal and Metal Products	672,730	236,840
All Engineering	849,335	4,474,857
Vehicles, Vehicle Parts and Transport Equipments	500,000	1,460,000
Gems & Jewellery	90,638	-
Infrastructure	300,001	2,398,277
Other Industries	430,000	117,860
Residuary Other Advances	8,407,705	6,898,898
Total Loans & Advances (excluding interbank loans)	18,459,682	15,714,684
Claims on Banks	1,356,338	12,098,743
Investments (HTM)	-	-
Other Assets and Fixed Assets	9,545,665	-
Total Exposure	29,361,685	27,813,427

Notes:

Fund Based Exposure comprises of outstanding Loans & Advances, Claims on Banks and Investment in HTM & Other Assets (including fixed Assets).

Non Fund Based Exposure comprises of Non Market Related Off-Balance sheet items (Contingent Credits and Exposures) and is reported in terms of notionals.

6.4. Residual contractual maturity breakdown of assets as at 31 March 2017

(Amount in ₹ '000)

	Cash and Bank balances with RBI	Balances with Banks and money at call and short notice	Investments	Advances	Fixed Assets	Other Assets	Total Assets
Day 1	1,278,300	5,428,379	10,785,206	879,006	-	110,355	18,481,246
2 to 7 days	14,015	-	71,824	3,126,472	-	6,507	3,218,818
8 to 14 days	88,057	-	451,293	2,808,558	-	6,224	3,354,132
15 to 28 days	206,336	-	1,057,626	2,871,290	-	132,888	4,268,170
29days and upto 3 months	449,003	-	2,301,142	2,898,979	-	139,727	5,788,851
Over 3 months and upto 6 months	122,359	-	627,092	4,941,155	-	177,028	5,867,634
Over 6 months and upto 1 year	77,613	-	397,768	284,315	-	384,774	1,144,470
Over 1 year and upto 3 years	49,582	-	253,413	1,269,138	-	16,993,189	18,565,322
Over 3 years and upto 5 years	1,835	-	9,406	306,263	-	749,866	1,067,370
Over 5 years	75	-	382	-	739,159	1,289,417	2,029,033
Total	2,287,205	5,428,379	15,955,152	19,385,176	739,159	19,989,975	63,785,046

6.5. Details of Non-Performing Assets (NPAs) - Gross and Net

(Amount in ₹ '000)

	As at 31 Mar 2017
Substandard	-
Doubtful 1	-
Doubtful 2	-

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

7. DF-4 Credit Risk: Disclosures for Portfolios Subject to the Standardised Approach

The Bank uses short term / long term issuer rating instruments of the accredited rating agencies viz. Credit Rating Information Services of India Limited, ICRA Limited, India Ratings and Research Private Limited (India Ratings), Credit Analysis and Research Limited, SME Rating Agency of India Limited and Brickworks Ratings

India Pvt Limited to assign risk weights as per RBI guidelines. For Non resident corporate and foreign banks ratings issued by the international rating agencies like Moody's and Standard and Poor's are used for assigning risk weights.

For assets having a contractual maturity of more than a year long term credit ratings assigned by the above mentioned rating agencies are used.

Below attached is the summary as at 31 March 2017

(Amount in ₹ '000)

Nature of exposure	Gross Credit Exposure	Credit Risk Mitigation	Net Exposure (Before Provision)	Credit Risk weight bucket summary			Deduction from Capital
				< 100%	100%	>100%	
Fund Based							
Claims on Banks	1,356,338	-	1,356,338	1,356,338	-	-	
Investments (HTM)	-	-	-	-	-	-

Other Assets and Fixed Assets	9,500,561	-	9,500,561	8,607,515	740,698	152,348	
Non Fund Based							
Non Market Related Off Balance sheet items (Contingent Credits and Exposures)	13,771,876	-	13,771,876	10,253,212	3,518,664	-	
Market Related (Foreign Exchange (FX) and derivative contracts)	34,189,918	-	34,189,918	32,446,147	1,743,771	-	

8. DF-5 Credit Risk Mitigation: Disclosures for Standardised Approaches

RBI Basel III guidelines allow following credit risk mitigants to be recognized for regulatory capital purposes under the comprehensive approach.

- Eligible financial collateral which included cash (deposited with the Bank), gold, securities issued by Central and State governments, Kisan Vikas Patra, National Savings Certificate, life insurance policies, certain debt securities rated by a recognised credit rating agencies, mutual fund units.
- On balance sheet netting, which is confined to loans and advances and deposits where banks have legally enforceable netting arrangements, involving specific lien with proof of documentation.
- Guarantees where these are direct, explicit, irrevocable and unconditional. Further, the eligible guarantors would comprise :
 - Sovereigns, sovereign entities stipulated as per Basel II guidelines, banks and primary dealers with a lower risk weight than the counterparty.
 - other entities rated AA (-) or better.

These credit risk mitigation techniques are subject to specific conditions given in Basel III guidelines.

Main types of collateral accepted by the bank are property, plant & machinery, current assets, cash and stand-by letters of credit. Collateral arrangements for each facility are reviewed annually to confirm the fair value of collateral and to ensure there is no impediment to realisation. The fair value of collateral will be its realizable value net of realisation costs.

Credit Risk Mitigation details as at 31 March 2017 are as below

(Amount in ₹ '000)

Exposure covered by eligible financial collateral after application of haircuts	NIL
Exposure covered by guarantees	NIL

9. DF-6 Securitisation Exposures: Disclosure for Standardised Approach

The Bank has not securitised any asset for the year under review hence no disclosures have been made.

10. DF-7 Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market parameters. Bank's earnings are exposed to changes in interest rates, foreign currency exchange rates or fluctuations in bond prices. Market risk arises when changes in market rates, prices and volatilities lead to a decline in the value of assets and liabilities, including off-balance sheet positions viz financial derivatives. Market risk is generated through both trading and banking book activities.

The Bank conducts trading operations in interest rates, foreign exchange (including USD-INR FX Options) and fixed-income securities.

To facilitate the management, measurement and reporting of market risk, the Bank has classified market risk into two broad categories:

- Traded market risk:**

This is the risk of loss from changes in the value of financial instruments due to movements in price factors for both physical and derivative trading positions. Trading positions arise from transactions where the bank acts as principal with customers, financial exchanges or inter-bank counterparties.

- Non-traded market risk (or balance sheet risk):**

This comprises management of interest rate risk on banking book and liquidity risk.

The Bank has a detailed market risk management and control framework to support its trading and balance sheet activities. This framework incorporates a risk measurement approach, as outlined below, to quantify the magnitude of market risk within trading and balance sheet portfolios. The framework is supported by a comprehensive limit and policy framework to control the amount of risk that the Group is willing to accept. Market risk limits are allocated at various levels/desks and are monitored and reported by Market Risk on a daily basis. While Value at Risk (VaR) and Stress Testing provide a good overview of the consolidated risk on the Traded and Non-traded portfolios, the Detailed Control Limits (DCL) framework stipulates limits to manage and control the risk of individual asset classes, risk factors and consolidated/trader-wise loss limits (to monitor and manage the performance of the trading portfolio).

Daily MIS is in place for traders' and senior management's cognizance. There is a daily sign-off process which entails traders to sign-off and agree with the Market Risk exposures. Limit utilizations, m-o-m movements, peak utilisation, average utilisation, exceptions, etc. are also placed before RMC and ALCO for discussion and suggesting appropriate remedial action wherever required.

Measurement of market risk

Bank's key market risk metrics include VaR, NPV, DV01, Bond Notional, Delta, Gamma, Vega and Theta limits.

A key measure of market risk is Value at Risk (VaR). VaR is a statistical estimate of the potential loss which could occur due to a change in market risk factors for a given holding period and confidence interval.

The Bank measures VaR at a 99% confidence interval. Group's standard VaR approach, for both Traded as well as Non-traded risk, is historical simulation method. This method uses actual historical observations of changes in market rates, prices and volatilities over the previous 500 business days historical period (VaR window) to model P&L outcomes. Both Traded and Non-traded VaR are calculated, monitored and reported using a one-day (1D) holding period.

It should be noted that because VaR is driven by actual historical observations, it is not an estimate of the maximum loss that the Bank could experience from an extreme market event. As a result of this limitation, the Bank utilises a number of other risk measures viz Stress Testing, Back Testing) and Risk Sensitivity (NPV, DV01, Bond Notional, Delta, Gamma, Theta, etc.) limits to complement VaR and manage market risk holistically.

Stress Testing

Bank undertakes a wide range of stress tests for the trading portfolio. Bank has adopted a local Stress Testing policy as mandated by RBI vide circular DBOD. BP.BC.NO. 75/21.04.103/2013-14 dated 02 Dec 2013, titled "Guidelines on Stress Testing". Stress tests as per baseline scenarios prescribed by RBI are conducted at half-yearly intervals (September and March). Results of this periodic stress testing exercise are presented to RMC for advising remedial actions, if any. Apart from this, standard stress tests, as per ANZ Group guidelines, are applied daily to simulate potential loss impact arising from large historical market movements during previous seven years over specific holding periods. Worst stress losses observed during the month are reported to the RMC on a monthly basis.

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

VaR and stress tests are also supplemented by cumulative loss limits (CLL) and detailed control limits (DCL). Cumulative loss limits ensure that in the event of continued losses from a trading activity, the trading activity is stopped and senior management reviews before trading can resume again. Where necessary, detailed control limits such as risk-sensitivity or position limits are also in place to ensure appropriate control is exercised over a specific risk factor or asset-class.

Back-Testing

Back testing involves the comparison of calculated VaR exposures with actual profit and loss data to identify the frequency of instances when trading losses exceed the calculated VaR. The Bank uses actual and hypothetical profit and loss data for performing Back Testing. Back Testing is conducted daily and outliers are analysed to understand if the issues are the result of trading decisions, systemic changes in market conditions or issues related to the VaR model i.e. historical data or model calibration.

Capital requirement for Market Risk is provided in section 5 above.

11. Liquidity Risk

Liquidity risk is the risk that the Bank is unable to meet its payment obligations as they fall due across a wide range of operating circumstances, including repaying depositors or maturing debt, or that the Bank has insufficient capacity to fund increases in assets. The timing mismatch of cash flows and the related liquidity risk is inherent in all banking operations and is recognized and closely monitored by the Bank.

The Bank maintains a portfolio of liquid assets to manage potential stresses in funding sources. The minimum level of liquidity portfolio assets to hold is based on a range of the Bank specific and general market liquidity stress scenarios such that potential cash flow obligations can be met over the short to medium term.

The Bank's liquidity and funding risks are governed by a set of principles which have been fixed by the Group. The core objective of the overall framework is to ensure that the Bank has sufficient liquidity to meet obligations as they fall due, without incurring unacceptable losses.

Key principles of the Bank's approach to liquidity risk management include:

- Maintaining the ability to meet all payment obligations in the immediate (intraday/overnight) term.
- Ensuring that the Bank has the ability to meet 'survival horizons' under a range of Bank specific and general market liquidity stress scenarios to meet cash flow obligations over a short to medium term horizon.
- Maintaining strength in the Bank's balance sheet structure to ensure long term resilience in the liquidity and funding risk profile.
- Limiting the potential earnings at risk implications associated with unexpected increases in funding costs or the liquidation of assets under stress.
- Preparation of daily liquidity reports and scenario analyses, quantifying the Bank's positions.
- Targeting a diversified funding base, avoiding undue concentrations by investor type, maturity, market source and currency.
- Holding a portfolio of high quality liquid assets to protect against adverse funding conditions and to support day-to-day operations.
- Establishing detailed contingency plan to cover liquidity crisis events.
- Ensuring the liquidity risk management framework is compatible with local regulatory requirements.

Management of liquidity and funding risks are locally overseen by India ALCO.

Scenario modelling

A key component of the Group's liquidity management framework is scenario modeling. ANZ India adopts ANZ Group's liquidity risk management framework using cash flow forecasting models and scenario analysis to measure and monitor liquidity risks arising from on and off-balance sheet activities. The models estimate the likely net cash-flows arising over a specified time horizon to predict any funding and liquidity gaps that need to be managed. The key stress scenarios applied by ANZ India are:

- **Liquidity Coverage Ratio (LCR):** ANZ internal LCR is based on the APRA Prudential Standard APS 210. The objective of the LCR is to ensure that the bank maintains an adequate level of unencumbered High Quality Liquid Assets (HQLA) that can be readily converted into cash to meet its liquidity needs for a 30 calendar day time period under a severe stress scenario. The LCR metric can be expressed as a ratio or as a notional volume with a scenario duration of 30 day.
- **Wholesale Funding Capacity (WFC):** The purpose of the metric is to ensure there are no undue maturity concentrations within the wholesale funding profile. The metric is applied to all wholesale funding instruments where ANZ has control over the instrument tenor over a pre-defined time buckets over a 3 month period. The funding instrument includes debt issuance programs (short and long term) and interbank borrowing.
- **Funding Market Disruption (FMD):** The scenario is a protracted, long-term stress scenario that impacts the market as a whole (i.e. not ANZ name specific). The 6-month scenario assumes that both domestic and offshore wholesale markets are adversely impacted.

Above scenario outcomes are calculated and reported on a daily basis and presented to monthly meetings of ALCO.

12. DF-8 Operational Risk

The Bank understands and manages operational risk efficiently and effectively, allocate appropriate capital to cover expected and unexpected losses to protect depositors, customers and shareholders. Further, ANZ Group has Operational Risk Measurement and Management Framework (ORMMF), which facilitates enable globally consistent and comparable management of operational risk. The framework sets out the minimum requirements to identify, assess, measure, monitor, control and manage operational risk.

An effective and embedded governance structure is also built for managing operational risk in line with the Bank's values, culture, strategy and appetite.

On an ongoing basis, the Bank identifies and assesses its exposure to material operational risk within all existing and new products, processes, projects and systems, and assesses the key controls in place to manage these risks. Compliance to the operational risk measurement and management framework is monitored using one or more of the following mechanisms, but is not limited to:

- Regular operational risk and compliance committee meetings
- Risk Certification
- Periodic Control Testing
- Internal Audit Reviews
- Periodic External Reviews
- Compliance Monitoring

The Bank uses the Basic Indicator Approach to estimated Operational RWAs. At 31 March 2017, Operational RWAs were ₹ 4,316,478 ('000).

13. DF-9 Interest Rate Risk in the Banking Book (IRRBB)

The objective of balance sheet interest rate risk management is to secure stable and optimal net interest income over both the short (next 12 months) and long term. Non-traded interest rate risk relates to the potential adverse impact of changes in market interest rates on the Bank's future net interest income. This risk arises from two principal sources: mismatches between the re-pricing dates of interest bearing assets and liabilities, and the investment of capital and other non-interest bearing liabilities in interest bearing assets.

Interest rate risk on the Banking Book is measured and monitored by using VaR (Value at Risk), EaR (Earnings at Risk) and MVE (Market Value of Equity). VaR is an estimate of the impact of interest rate changes on the banking book's market value, expressed to a 99.0% level of statistical confidence using a 1 day holding period calculated using 500 days historical market movements.

The Bank also uses Earnings at Risk (EaR) as an estimate of the amount of the next 12 months' income that is at risk from interest rate movements over a 1 month holding period, expressed to a 97.5% level of statistical confidence. It is calculated by applying a statistically derived interest rate shock to static re-pricing gaps over the first 12 months.

Impacts on earnings for upward and downward rate shocks of 200 bps, broken down by currency, are:

As at 31 March 2017:

(Amount in ₹ '000)

Currency	Interest Rate Risk Shocks	
	200bps up	200bps down
Rupees	(79,419)	79,419
USD	409	(409)

Change in Market Value of Equity (MVE) due to interest rate movements directly impacts capital requirements. Bank uses Duration Gap approach to measure the impact on Market Value of Equity (MVE) for upward and downward rate shocks. This measures the potential change in MVE of the Bank for a 200 bps change in interest rates. The change in MVE due to 200 bps change in interest rate is:

Change in MVE due to 200 bps change in interest rate	Amount in ₹ '000
31 March 2017	(102,887)

14. DF-10 Counterparty Credit Risk

Counterparty credit risk in derivative transactions arises from the risk of counterparty default before settlement date of the derivative contracts and the counterparty is unable to fulfill present and future contractual payment obligations. The amount at risk may change over time as a function of the underlying market parameters up to the positive value of the contract in favor of ANZ India.

Counterparty credit risk is present in market instruments (derivatives and forward contracts), and comprises:

- **Settlement risk,** which arises where one party makes payment or delivers value in the expectation but without certainty that the counterparty will perform the corresponding obligation in a bilateral contract at settlement date.
- **Market replacement risk (pre-settlement risk),** which is the risk that a counterparty will default during the life of a derivative contract and that a loss will be incurred in covering the position.

Counterparty credit risk requires a different method to calculate exposure at default because actual and potential market movements impact Bank's exposure or replacement cost.

AUSTRALIA AND NEW ZEALAND BANKING GROUP LIMITED - INDIA BRANCHES

(Incorporated in Australia with limited liability)

Counterparty credit risk governance

Bank's counterparty credit risk management is governed by its credit principles, policies and procedures. The Group Risk function is responsible for determining the counterparty credit risk exposure methodology applied to market instruments, in the framework for counterparty credit limit management, measurement and reporting.

Counterparty credit limits are approved by the appropriate credit delegation holders.

Counterparty credit risk measurement and reporting

The approach to measure counterparty credit risk exposure is based on internal model. This is referred to as Counterparty Credit Risk Engine (CCRE).

CCRE uses potential future exposure (PFE) Monte Carlo based approach to assess possible exposure movements for certain derivative products and the Bank uses these estimates in internal Economic Capital calculations.

CCRE calculations recognise that prices may change over the remaining period to maturity, and that risk decreases as the contract's remaining term to maturity decreases.

CCRE is also used by credit officers to establish credit limits on an uncommitted and unadvised basis, to ensure the potential volatility of the transaction value is recognised. Counterparty credit risk exposure is calculated daily and excesses above approved limits are reported to account controllers and risk officers for action.

Credit Value Adjustment (CVA)

ANZ uses a CVA model to adjust fair value to take into account the impact of counterparty credit quality. The methodology calculates the present value of expected losses over the life of the financial instrument as a function of PD, LGD, expected credit risk exposure and an asset correlation factor.

Impaired derivatives are also subject to a CVA.

Wrong way risk

Bank's management of counterparty credit risk also considers the possibility of wrong way risk, which emerges when PD is adversely correlated with counterparty credit risk exposures. Bank's credit policies and independent transaction evaluation by Credit Risk are central to managing wrong way risk.

Counterparty Credit Risk in FX and Derivatives

(Amount in ₹ '000)

	As at 31 Mar 2017
Gross positive fair value of contracts	14,205,316
Netting benefits	-
Netted current credit exposure	14,205,316
Collateral held (including type e.g. cash, government securities etc.)	-
Net derivatives credit exposure	14,205,316
Potential future exposure	19,984,603
Measures for exposure at default, or exposure amount, under CEM	34,189,919
The notional value of credit derivative hedges	-
Distribution of current credit exposure by types of credit exposure	
- Interest Rate contracts	3,552,011
- Fx contracts	28,098,800
- Fx Options	2,539,108

15. DF-11 Composition of Capital

(Amount in ₹ '000)

Basel III common disclosure template to be used during the transition of regulatory adjustments (i.e. from April 1, 2013 to December 31, 2017)		Basel III Amounts	Amounts Subject to Pre-Basel III Treatment
Common Equity Tier 1 capital: instruments and reserves			
1	Directly issued qualifying common share capital plus related stock surplus (share premium)	11,311,074	-
2	Retained earnings	-	-
3	Accumulated other comprehensive income (and other reserves)	1,839,771	-

16. Leverage Ratio

The Basel III leverage ratio is a simple, transparent, non-risk based measure which is calibrated to act as a credible supplementary measure to the risk based capital requirements. The Bank's leverage ratio calculated in accordance with extant RBI guidelines is as follows:

DF-17 Summary Comparison of accounting assets vs. leverage ratio exposure measure

(Amount in ₹ '000)

1.	Total consolidated assets as per published financial statements	63,785,046
2.	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	-
3.	Adjustment for fiduciary assets recognised on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure.	-
4.	Adjustments for derivative financial instrument.	19,984,603
5.	Adjustment for securities financing transactions (i.e. repos and similar secured lending)	-
6.	Adjustment for off-balance sheet items (i.e. conversion to credit equivalent amounts of off-balance sheet exposures)	14,185,748
7.	Other adjustments	(609,187)
8.	Leverage ratio exposure	97,346,210

DF-18 Leverage Ratio Common Disclosure as at 31 March 2017

Leverage Ratio		(Amount in ₹ '000)
	Item	
On-balance sheet exposures		
1.	On-balance sheet items (excluding derivatives and SFTs, but including collateral)	49,579,730
2.	(Asset amounts deducted in determining Basel III Tier 1 capital)	(609,187)
3.	Total on-balance sheet exposures (excluding derivatives and SFTs) (sum of lines 1 and 2)	48,970,543
Derivative exposures		
4.	Replacement cost associated with all derivatives transactions (i.e. net of eligible cash variation margin)	14,205,316
5.	Add-on amounts for PFE associated with all derivatives transactions	19,984,603
6.	Gross-up for derivatives collateral provided where deducted from the balance sheet assets pursuant to the operative accounting framework	-
7.	(Deductions of receivables assets for cash variation margin provided in derivatives transactions)	-
8.	(Exempted CCP leg of client-cleared trade exposures)	-
9.	Adjusted effective notional amount of written credit derivatives	-
10.	(Adjusted effective notional offsets and add-on deductions for written credit derivatives)	-
11.	Total derivative exposures (sum of lines 4 to 10)	34,189,919
Securities financing transaction exposures		
12.	Gross SFT assets (with no recognition of netting), after adjusting for sale accounting transactions	-
13.	(Netted amounts of cash payables and cash receivables of gross SFT assets)	-
14.	CCR exposure for SFT assets	-
15.	Agent transaction exposures	-
16.	Total securities financing transaction exposures (sum of lines 12 to 15)	-
Other off-balance sheet exposures		
17.	Off-balance sheet exposure at gross notional amount	31,489,554
18.	(Adjustments for conversion to credit equivalent amounts)	(17,303,806)
19.	Off-balance sheet items (sum of lines 17 and 18)	14,185,748
Capital and total exposures		
20.	Tier 1 capital	10,345,309
21.	Total exposures (sum of lines 3, 11, 16 and 19)	97,346,210
Leverage ratio		
22.	Basel III leverage ratio (per cent)	10.63%

Reconciliation of total published balance sheet size and on balance sheet exposure

Leverage ratio framework		(Amount in ₹ '000)
1	Total consolidated assets as per published financial statements	63,785,046
2	Replacement cost associated with all derivatives transactions, i.e. net of eligible cash variation margin	(14,205,316)
3	On-balance sheet exposure under leverage ratio (excluding derivatives and SFTs)	49,579,730
